On July 16, 1975, Inter-City Minnesota Pipelines Ltd. Inc. (Inter-City) filed a petition to amend its import authorization to permit it to continue the importation of natural gas from Canada at increased prices. Inter-City's petition is predicated on the fact that on May 21, 1975, the Canadian government amended its export licenses to provide that the export price for natural gas at Sprague Manitoba, and consumed in the United States without re-entering Canada would be increased to $1.40 per MMBtu (Canadian) effective August 1, 1975, and to $1.60 per MMBtu (Canadian) effective November 1, 1975. The price of natural gas imported at Fort Frances, Ontario would be increased to $1.30 per MMBtu (Canadian) effective August 1, 1975. Inter-City states within its petition that Inter-City Gas Transmission, Ltd., its Canadian supplier, is its sole supplier.

Notice of Inter-City's petition to amend its import authorization was issued on July 29, 1975, with protests and petitions to intervene due on or before August 15, 1975. No petitions to intervene have yet been received.

Examination of Inter-City's filing indicates that the company has no available alternative supply of natural gas to replace the volumes imported from Canada. Upon review, we find that continuation of importation under the increased prices would be consistent with the public interest, subject, however, to the condition that any further increase in the price Inter-City is required to pay will require further amendment to its import authorizations.

Inter-City requests that the requirements of Section 153.2 of our Regulations be waived to allow for an effective date of August 1, 1975. In view of Inter-City's gas supply situation, we are of the opinion that good cause exists for granting such waiver.

*The Commission finds:*

(1) Good cause exists to grant waiver of the filing requirements of Section 153.2 of our Regulations to allow an effective date of August 1, 1975, for Inter-City's import authorization amendments.

(2) Inter-City's authorization for the importation of natural gas from Canada should be amended to permit it to continue such importation at Sprague, Manitoba of gas to be consumed in the United States without re-entering Canada, at a price of $1.40 per MMBtu (Canadian), effective August 1, 1975, and $1.60 per MMBtu (Canadian), effective November 1, 1975, and at Fort Frances, Ontario at a price of $1.30 per MMBtu (Canadian), effective August 1, 1975, as hereinafter ordered, as such importation has been shown to be consistent with the public interest.

*The Commission orders:*

(A) The filing requirements of Section 153.2 of our Regulations are hereby waived to allow an effective date of August 1, 1975, for Inter-City's import authorization amendments.

(B) Pursuant to the authority of the Natural Gas Act, particularly Section 3 thereof, Inter-City's import authorizations for importation of natural gas from Canada is hereby amended to permit it to import natural gas at Sprague, Manitoba, of gas to be consumed in the United States without re-entering Canada, at the price of $1.40 per MMBtu, (Canadian) effective August 1, 1975, and $1.60 per MMBtu, (Canadian) effective November 1, 1975, and at Fort Frances, Ontario at a price of $1.30 per MMBtu (Canadian) effective August 1, 1975, as hereinafter ordered and conditioned.

(C) Any further change in the price Inter-City is to pay for the importation of Canadian gas will require further amendment to its import authorization.

(D) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. E-9342]

## JERSEY CENTRAL POWER & LIGHT CO.

### Order Accepting for Filing and Suspending Proposed Fuel Clause

JULY 31, 1975.

On March 26, 1975, Jersey Central Power & Light Company (Jersey Central) tendered for filing a revised fuel cost adjustment clause, seeking to make such clause effective on April 26, 1975. By letter of April 25, 1975, Jersey Central was advised that its March 26 filing was deficient. On May 30, 1975, Jersey Central resubmitted a proposed fuel cost adjustment clause in a revised format. By letter of June 27, 1975, Jersey Central was advised that its May 30 filing was deficient, and certain additional information was requested. On July 3, 1975, Jersey Central submitted additional information in

response to the Commission's letter of June 27, 1975.

Notice of these three filings was issued on April 2, June 3, and July 9, 1975, respectively. The Borough of Madison, New Jersey (Madison) filed a petition to intervene and request for suspension of the proposed fuel clause. We believe that good cause exists to grant Madison's petition to intervene.

Our review of Jersey Central's proposed fuel cost adjustment clause indicates that it has not been shown to be just and reasonable and may be unjust, unreasonable, unduly preferential or discriminatory or otherwise unlawful. It is based, *inter alia*, on estimates and historical averages and may not provide adequately for tracking changes in fuel costs to Jersey Central. Accordingly, we shall establish an evidentiary hearing concerning the lawfulness of the proposed fuel clause.

Jersey Central, in its July 3, 1975, filing, requested waiver of the 30-day notice requirement of the Federal Power Act to permit an effective date of June 30, 1975. However, good cause was not shown to grant such waiver. In the alternative, Jersey Central requested an effective date of August 3, 1975. Pending hearing and decision as to the lawfulness of the proposed fuel clause, we shall accept it for filing and suspend its use for one day, until August 4, 1975, when it will be permitted to become effective, subject to refund.

*The Commission finds:*

(1) Jersey Central's proposed fuel cost adjustment clause should be accepted for filing and suspended for one day, as hereinafter ordered.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Federal Power Act that the Commission enter upon a hearing concerning the lawfulness of Jersey Central's proposed rate change.

(3) Good cause exists to permit the intervention of the above named petitioner in these proceedings.

*The Commission orders:*

(A) Jersey Central's proposed fuel cost adjustment clause is hereby accepted for filing and suspended for one day and its use, subject to refund, is deferred until August 4, 1975.

(B) Pursuant to the authority of the Federal Power Act, particularly Sections 205 and 206 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held December 16, 1975, at 10:00 A.M., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(C) Jersey Central shall file its prepared testimony and exhibits on or before September 10, 1975. On or before November 4, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors, if any, shall be served on or before November 18, 1975. Company rebuttal shall be served on or before December 2, 1975.

(D) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose, (See Delegation of Authority, 18 CFR 3.5 (d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's Rules of Practice and Procedure.

(E) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure.

(F) The above-named petitioner is hereby permitted to intervene in these proceedings, subject to the Rules and Regulations of the Commission; *Provided, however,* that the participation of such intervenor shall be limited to matters affecting rights and interests specifically set forth in the petition to intervene; and *Provided, further,* that the admission of such intervenor shall not be considered as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(G) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[Docket No. E-9260]

## KANSAS GAS & ELECTRIC CO.

### Proposed Amendment to Fuel Adjustment Clause

JULY 30, 1975.

Take notice that on July 23, 1975 Kansas Gas and Electric Company (KG&E) tendered for filing a proposed Fuel Adjustment Clause Rider and a proposed Statement "O", Schedules 1–R and 2–R, amending its February 10, 1975 filing of proposed changes in its FPC Electric Service Tariff REC–173, Service to Non-Profit Rural Electric Cooperative Associations (FPC Rate Schedule Nos. 45, 46, 47, 48, 49, 72, 74, and 127).

KG&E states that it is filing the proposed amendments in respect of the Commission's Order Accepting Rate Schedules for Filing and Suspending Rate Increase and Establishing Procedures issued on March 12, 1975 in the above-captioned docket, and that it believes the proposed amendments to be in compliance with Commission Order No. 517. KG&E further states that, prior to effecting any change in rate pursuant to the proposed Tax Clause which it included in its February 10, 1975 filing, KG&E will file thirty days in advance appropriate data and calculations showing the basis for such change in rate.

Concurrently, KG&E moved the Commission to terminate the proceedings at Docket No. E-9260 for the reason that, if the subject revisions are accepted, there will remain in dispute no issue with respect to KG&E's fuel adjustment provisions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with Section 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8 1.10). All such petitions or protests should be filed on or before August 11, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. CP76-26]

## LYONS GAS CO., INC.

### Notice of Application

JULY 31, 1975.

Take notice that on July 22, 1975, Lyons Gas Company Inc. (Applicant), 110 East Morenci Street, Lyons, Ohio 43533, filed in Docket No. CP76–26 an application pursuant to Section 1(c) of the Natural Gas Act for a declaration that Applicant is exempt from the provisions of the Natural Gas Act with respect to the transportation and sale of natural gas in Ohio, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it plans to sell natural gas to public utilities in Ohio for resale in Ohio and that the Public Utilities Commission of Ohio has and is exercising jurisdiction over Applicant's rates, service and facilities. Applicant further states that it purchases natural gas from Michigan Wisconsin Pipe Line Company at one delivery point in Fulton County, Ohio, near the Village of Lyons, and that gas thereafter is distributed by Applicant in the Village of Lyons. Applicant states that all gas sold by it would be consumed within the State of Ohio.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 26, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. ID–1782]

## HAROLD C. MCKENZIE, JR.

### Notice of Initial Application

JULY 31, 1975.

Take notice that on June 10, 1975, Harold C. McKenzie, Jr., (Applicant) filed an initial application with the Federal Power Commission, pursuant to Section 305(b) of the Federal Power Act to hold the following positions:

Director and Executive Vice Pres., Georgia Power Company, Public Utility.
Director, Southern Electric Generating Company, Public Utility.

Georgia Power Company (hereinafter sometimes referred to as "GEORGIA") has its principal place of business at 270 Peachtree Street, N.W., Atlanta, Georgia 30303, and is engaged in the generation and purchase of electric energy and the distribution and sale of such energy within the State of Georgia at retail in 646 communities (including Atlanta, Columbus, Augusta and Macon), as well as in rural areas, and the sale at wholesale of electric energy to 50 municipalities and to 39 rural distributing cooperative associations. In addition, Georgia is engaged in the production and sale of steam for heating purposes in the main business district of Atlanta.

Southern Electric Generating Company (hereinafter sometimes referred to as "SEGCO") has its principal place of business at 600 North Eighteenth Street, Birmingham, Alabama and is engaged in the generation and transmission of electric energy within the State of Alabama and the sale of such energy under a long-term contract to GEORGIA and Alabama Power Company (hereinafter sometimes referred to as "ALABAMA"), each of which owns 50% of its common stock. Such sales are made at SEGCO's generating units at the Ernest C. Gaston Steam Plant in Shelby County, Alabama, in the case of ALABAMA, and in the case of GEORGIA, at two points on the Alabama-Georgia state line and at GEORGIA's Goat Rock switching station in Alabama. ALABAMA acts as SEGCO's agent in the operation of SEGCO's generating units. SEGCO also has extensive coal reserves in the Warrior Coal Field, northwest of Birmingham, and in the Cahaba Coal Field near the Ernest C. Gaston Steam Plant.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 14, 1975, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's Rules. The application is on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75-20692 Filed 8-6-75;8:45 am]

[Docket No. CP76–25]

## MICHIGAN WISCONSIN PIPE LINE CO.

### Notice of Application

JULY 31, 1975.

Take notice that on July 22, 1975, Michigan Wisconsin Pipe Line Company (Applicant), One Woodward Avenue, Detroit, Michigan 48226, filed in Docket No. CP76–25 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and the exchange of natural gas with Arkansas Louisiana Gas Company (Arkla) when it would minimize the facilities that either party would be required to construct to connect reserves to its system, as provided for in an exchange agreement between them dated May 8, 1975, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that it has acquired an initial commitment of gas reserves in Caddo and Canadian Counties, Oklahoma, from five working wells. Applicant further states that it has acquired 31,000 net gas call acres in the general area of the completed wells. Applicant states that the total combined deliverability of the five completed wells will be approximately 7,000 Mcf of gas per day and that this would not be sufficient to justify Applicant's constructing its own system in the area. Therefore, Applicant proposes to exchange gas with Arkla with no monetary compensation for either party. Applicant would deliver gas to Arkla in Caddo County and Arkla would redeliver gas in Custer County, Oklahoma. The exchange agreement is alleged to call for the receiving party to install, own and operate suitable side taps, valves and measurement equipment to accomplish the receipt of the exchange gas, with the exception of the Caddo delivery point which Applicant would construct and own and Arkla would operate.

Applicant states that under the agreement, the construction that is proposed herein is an extension of Applicant's 16-inch pipeline in Custer County, Oklahoma, by 8 miles to connect to Arkla's facilities at the proposed Custer delivery point and measurement stations at the Custer and Caddo delivery points. It is stated that the line is sized to transport the exchange volumes both presently available and from the reserves expected to be developed. Applicant states that Arkla filed an interdependent application with the Commission in Docket No. CP76–10.[1] The estimated cost of the proposed facilities is approximately $1,139,200.

Applicant states that the exchange agreement is to provide a means whereby Applicant can purchase gas from dedicated wells which are presently beyond the economic reach of its facilities.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 25, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75-20696 Filed 8-6-75;8:45 am]

[Docket No. RP73–43; PGA 75–5]

## MID LOUISIANA GAS CO.

### Order Accepting for Filing and Suspending Proposed PGA Rate Adjustment

JULY 31, 1975.

On June 16, 1975, Mid Louisiana Gas Company (Mid Louisiana) tendered for filing with the Commission a proposed revised tariff sheet[1] providing for (1) a PGA rate increase of 4.27¢ per Mcf under Rate Schedules G–1, SG–1, and I–1 and (2) a PGA rate decrease of 14.7¢ per Mcf

[1] Notice issued July 17, 1975.

[1] Sixteenth Revised Sheet No. 3a to FPC Gas Tariff, First Revised Volume No. 1 (issued June 27, 1975).

under Rate Schedule E–1. The increase under Rate Schedules G–1, SG–1, and I–1 reflects the effect of an increase of 0.27¢ or $239,960 in the cost of gas and a 4.0¢ increase (from minus 2.44¢ to 1.56¢ [2]) in the surcharge to recoup the balance in the Unrecovered Purchase Gas Cost Account. The decrease under Rate Schedule E–1 tracks a decrease by United Gas Pipe Line Company (United) under Rate Schedule PL–N. The proposed effective date is August 1, 1975.

Notice of Mid Louisiana's filing was issued on June 25, 1975, with any comments, protests or petitions to intervene due on or before July 16, 1975. The Commission has received no comments, protests, or petitions to intervene.

Our review of Mid Louisiana's proposed PGA adjustment indicates that it is based in part upon small independent producer and emergency purchases at rates in excess of the rate levels established in Opinion No. 669–H.[3] The proposed rates have not therefore been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory or otherwise unlawful. Accordingly, we shall accept Mid Louisiana's June 16, 1975 PGA filing and suspend it for one day to become effective August 2, 1975, subject to refund.

With regard to the question of small producer rates, we note that the Supreme Court has remanded the small independent producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness for small producer purchases.[4] As to the emergency purchases, we note that the U.S. Circuit Court of Appeals for the D.C. Circuit has set aside Order No. 491, *et al.*,[5] holding that the Commission exceeded its authority under the Natural Gas Act.[6] We shall, at an appropriate future time, set the issue of the justness and reasonableness of these costs for hearing.

Our review of Mid Louisiana's proposed tariff sheet indicates that the claimed increased costs, other than those costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed in Opinion No. 699–H, do comply with the standards set forth in Docket No. R–406. Accordingly, Mid Louisiana may file a substitute tariff sheet to become effective August 1, 1975, reflecting increased costs other than those claimed increased costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed by Opinion No. 699–H.

*The Commission finds:*

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Mid Louisiana's proposed PGA adjustment tendered on June 16, 1975, be effective August 2, 1975, subject to refund pending further Commission action in this docket.

(2) The claimed increased costs, other than those associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed in Opinion No. 699–H, have been reviewed and found to be in compliance with the standards set forth in Docket No. R–406.

*The Commission orders:*

(A) Mid Louisiana's Sixteenth Revised Sheet No. 3a to FPC Gas Tariff, First Revised Volume No. 1, is hereby accepted for filing, suspended for one day, and permitted to become effective August 2, 1975, subject to refund, pending further Commission order in this docket.

(B) Mid Louisiana may file, to become effective August 1, 1975, a substitute tariff sheet reflecting that portion of Mid Louisiana's proposed rates which reflects costs other than those costs associated with that portion of small producer and emergency purchases in excess of the rate levels prescribed in Opinion No. 699–H.

(C) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75–20706 Filed 8–6–75;8:45 am]

---

[Docket Nos. RP72–149, RP75–20 and PGA75–11a]

## MISSISSIPPI RIVER TRANSMISSION CORP.

### Notice of Proposed Change in Rates

JULY 30, 1975.

Take notice that Mississippi River Transmission Corporation (Mississippi) on July 21, 1975 tendered for filing Substitute Thirty-First Revised Sheet No. 3A and Substitute Thirty-Second Revised Sheet No. 3A to its FPC Gas Tariff, First Revised Volume No. 1, to become effective July 2, 1975 and August 1, 1975, respectively.

Mississippi states that Substitute Thirty-First Revised Sheet No. 3A is being submitted pursuant to the Commission's letter order of June 3, 1975 to reflect United Gas Pipe Line Company's revised PGA filing of July 14, 1975, which has a proposed effective date of July 2, 1975. Mississippi states that Substitute Thirty-Second Revised Sheet No. 3A reflects the above-mentioned United filing as well as a revised PGA filing of Natural Gas Pipeline Company of America made on July 7, 1975, to become effective August 1, 1975, and is to be substituted for Thirty-Second Revised Sheet No. 3A, which was submitted to the Commission on June 24, 1975 in conjunction with a motion for reconsideration of Commission orders of April 24, 1975 and May 19, 1975 in these dockets. Each of the above-described sheets was accompanied by schedules supporting the proposed rate revisions.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 8, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene unless such petition has previously been filed. Copies of the filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75–20697 Filed 8–6–75;8:45 am]

[Docket No. CP73–227]

## NORTHERN NATURAL GAS CO.

### Notice of Petition To Amend

JULY 31, 1975.

Take notice that on July 21, 1975, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP73–227 a petition to amend the order of the Commission issued November 30, 1973 (50 FPC 1733), in said docket pursuant to Section 7(c) of the Natural Gas Act by authorizing the deferral for one year of the presently authorized increase in maximum daily volumes of gas to be transported by Applicant for Northern States Power Company (NSP), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that by order of the Commission of November 30, 1973, it is authorized to transport natural gas to NSP pursuant to an agreement between them dated January 12, 1973, under Applicant's Rate Schedule T–12. Applicant alleges that by order in Docket No. CP73–227, as amended on December 16, 1974, it is authorized to transport for NSP between November 27, 1975, and March 26, 1976, a maximum daily volume of 8,000 Mcf of gas, and in each heating season thereafter a maximum daily volume of 12,000 Mcf of gas. Applicant states that during the last heating season the maximum daily volume of deliveries was 4,000 Mcf of gas and that NSP has requested that Applicant defer the delivery of additional volumes of gas for one year. It is stated that NSP's customers' conservation of gas has eliminated the need for an increase in the volume of gas transported during the 1975–76 heating season.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 26, 1975, file with the Federal

[FR Doc.75–20707 Filed 8–6–75;8:45 am]

---

[Docket No. CP74–145]

## NORTHERN NATURAL GAS CO.

### Notice of Petition To Amend

JULY 31, 1975.

Take notice that on July 21, 1975, Northern Natural Gas Company (Petitioner), 2223 Dodge Street, Omaha, Nebraska 68102, filed in Docket No. CP74–145 a petition to amend the order of the Commission of May 29, 1975, issued in said docket pursuant to Section 7(c) of the Natural Gas Act to authorize an additional point of receipt to implement the authorized gas exchange between Petitioner and Natural Gas Pipeline Company of America (Natural), all as more fully set forth in the petition to amend on file with the Commission and open to public inspection.

Petitioner states that it is authorized to exchange with Natural on a gas-for-gas basis up to 2,000 Mcf of gas per day by the order of May 29, 1975. Applicant further states that Petitioner is authorized by said order to deliver gas to Natural at a point on Natural's gathering system in Wheeler County, Texas, and that Natural is authorized to redeliver equivalent volumes of gas to Petitioner at a new point of interconnection in Carson County, Texas.

Petitioner states that under a contract with J. I. O'Neill, Jr., Petitioner is purchasing 81.226 percent of the gas produced from the Miles No. 1 well in the Camerick Field, Beaver County, Oklahoma, and that Natural has contracted for the remaining uncommitted gas reserves from said well. Petitioner proposes to accept Natural's share of the gas produced from said well at the existing gathering and measuring facilities (Camerick Exchange Point) and to redeliver the gas to Natural to obviate the necessity for duplicate facilities. It is stated that receipt of Natural's gas from the Miles No. 1 well would not increase the daily exchange volume of 2,000 Mcf of gas.

Any person desiring to be heard or to make any protest with reference to said petition to amend should on or before August 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

## NORTHERN NATURAL GAS CO.

### Notice Deferring Procedural Dates

JULY 30, 1975.

On July 25, 1975, Dyco Petroleum Corporation (Dyco) and Phillips Petroleum Company (Phillips) filed motions to extend the procedural dates fixed by order issued July 7, 1975, in the above designated proceeding.

Notice is hereby given that the procedural dates in the above matter are deferred pending expiration of the 15-day period, on August 11, 1975, within which to respond to these motions of Dyco and of Phillips.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75–20709 Filed 8–6–75;8:45 am]

[Docket No. CP76–23]

## OKLAHOMA NATURAL GAS CO.

### Notice of Application

JULY 30, 1975.

Take notice that on July 21, 1975, Oklahoma Natural Gas Company (Applicant), 624 South Boston Avenue, Tulsa, Oklahoma 74119, filed an application pursuant to Section 1(c) of the Natural Gas Act for a declaration that Applicant is exempt from the provisions of the Natural Gas Act with respect to the transportation and sale of natural gas in Oklahoma through facilities to be acquired from High Plains Natural Gas Company (High Plains), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant states that is has acquired all of High Plains' facilities located within the State of Oklahoma, pursuant to an agreement dated May 28, 1975, and proposes to continue the transportation and sale of natural gas in lieu of High Plains for service to the towns and cities of Shattuck, Fargo, and Gage. Applicant states that High Plains was receiving gas from Northern Natural Gas Company (Northern) and that such gas was received and ultimately consumed within the State of Oklahoma. Applicant states that it has acquired the rights of High Plains to such gas subject to the approval of Northern.

Applicant states further that any gas received by Applicant would be delivered within the State of Oklahoma for ultimate consumption within the State of Oklahoma, and that its rates, service and facilities are subject to the jurisdiction of the Corporation Commission of the State of Oklahoma and that such commission is exercising and will continue to exercise jurisdiction over Applicant's rates, service and facilities. Applicant requests that the exemption granted by the Commission be granted with respect to its receipt of gas from Northern and with respect to its entire system within the State of Oklahoma.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 27, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

KENNETH F. PLUMB,

[Docket Nos. RP73–108 and RP73–36, AP75–2, PGA75–4]

## PANHANDLE EASTERN PIPELINE CO.

### Order Accepting for Filing and Suspending Proposed PGA Rate Adjustment and Accepting Alternate Revised Tariff Sheet

JULY 31, 1975.

On June 13, 1975, Panhandle Eastern Pipe Line Company (Panhandle) tendered for filing alternate revised tariff sheets to track a rate decrease reflecting (1) a decrease of $5,075,026 in the cost of purchased gas, (2) a 3.92¢ per Mcf reduction in surcharge to recover the balance in the deferred purchased gas cost account, (3) an increase by producer supplier's of $5.1 million, (4) an increase in the cost of advance payments of $26,295,223, and (5) a surcharge pursuant to Section 16.6(e) of its FPC Gas Tariff to recover $5,646,562 of demand charge adjustments. Protests and petitions to intervene were due by June 30, 1975. None have been received.

One set of revised tariff sheets reflects small producer and emergency purchases in excess of the rates allowed in Opinion No. 699–H.[1] The proposed rates have not therefore been shown to be just and reasonable and may be unjust, unreasonable,

[1] Substitute Thirteenth Revised Sheet No. 3–A to FPC Gas Tariff, Original Volume No. 1.

unduly discriminatory or otherwise unlawful. Accordingly, we shall accept the sheet identified in footnote one and suspend it for one day to become effective August 2, 1975, subject to refund.

With regard to the question of small producer purchases, we note that the Supreme Court has remanded the small independent producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness for small producer purchases.[2] As to the emergency purchases, we note that the U.S. Circuit Court of Appeals for the D.C. Circuit has set aside Order No. 491, *et al.*[3] holding that the Commission exceed its authority under the Natural Gas Act.[4] We shall, at an appopriate future time, set the issue of the justness and reasonableness of these costs for hearing.

Our review of the advance payment increase indicates seven of the advance payment agreements are not consistent with Order 499[5] as follows: (1) six agreements (listed on Attachment A) do not provide that recovery of the advances will be made in economic considerations other than gas (in the event the prospects are non-productive) within five years from the time the advances have been included in Account 166 and (2) the Amoco Production Company advance payment agreement dated September 24, 1974, does not guarantee full repayment of the advance within five years from the date gas deliveries commence. Accordingly, acceptance of the advance payment increase should be conditioned as hereinafter ordered.

The alternate substitute revised tariff sheet[6] does not reflect costs in excess of those allowed in Opinion No. 699–H. We shall accept that tariff sheet to become effective August 1, 1975, as hereinafter ordered and conditioned.

The underlying base tariff rates remain subject to refund in Docket Nos. RP73–108 and RP73–36.

*The Commission finds*:

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Panhandle's proposed revised tariff sheets identified in footnote one of this order be accepted for filing, suspended for one day and permitted to become effective August 2, 1975, subject to refund pending further Commission action in this docket and Docket Nos. RP73–108 and RP73–36.

(2) The alternate set of revised tariff sheets as identified in footnote six of this order should be accepted and permitted to become effective August 1, 1975.

(3) The advance payment agreements should be accepted and permitted to become effective August 1, 1975, conditioned as hereinafter ordered.

*The Commission orders*:

(A) The Alternate Substitute Thirteenth Revised No. 3–A to FPC Gas Tariff, Original Volume No. 1 is hereby accepted for filing to become effective August 1, 1975. The underlying rates shall remain subject to refund in Docket Nos. RP73–108 and RP73–36.

(B) The Substitute Thirteenth Revised Sheet No. 3–A to FPC Gas Tariff, Original Volume No. 1 is hereby accepted for filing and suspended for one day to become effective August 2, 1975, subject to refund in this docket and in Docket Nos. RP73–36 and RP73–108.

(C) The advance payment agreements listed in Attachment A are accepted for filing to become effective August 1, 1975, subject to the following condition:

If 5 years elapses from the time the advance has been included in this account and during such time no gas deliveries have commenced or no determination has been made that the recovery will be in economic consideration other than gas, Panhandle shall at the end of the 5-year period, transfer the advance from Account 166 to Account 167, and cease rate base treatment thereof, unless otherwise directed by the Commission.

(D) The advance payment agreement with the Amoco Production Company, dated September 24, 1974, is hereby accepted for filing to become effective August 1, 1975, subject to the following condition:

If 5 years elapses from the date gas deliveries commence and during such time full repayment of the advance has not been made, Panhandle shall at the end of the 5 year period, remove the advance from Account 166, and cease rate base treatment thereof, unless otherwise directed by the Commission.

(E) Any hearing set concerning the small independent producer purchases and/or the emergency purchases shall be docketed RP73–36 and PGA75–4.

(F) The Secretary shall cause prompt publication of this order to be made in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Project Nos. 135, 2195]

## PORTLAND GENERAL ELECTRIC CO.

### Notice of Application for Change in Land Rights

JULY 31, 1975.

Public notice is hereby given that an application was filed on July 21, 1975, under the Federal Power Act (16 U.S.C. §§ 791a–825r) by Portland General Electric Company (Applicant) (Correspondence to: Mr. Robert Sullivan, Manager, Land Department, Portland General Electric Company, Electric Building, Portland, Oregon 97205) for change in land rights for the constructed Oak Grove Project No. 135, located on the Oak Grove Fork of the Clackamas River in Clackamas County, Oregon and affecting lands of the United States within Mt. Hood National Forest, and for the constructed North Fork Project No. 2195, located on the Clackamas River in Clackamas County, Oregon and affecting lands of the United States within Mt. Hood National Forest.

Applicant, who is also the Licensee for these two projects, requests authorization to grant easements to the State of Oregon, Highway Division of the Department of Transportation, to construct, operate, and maintain a section of the Clackamas Highway within the project boundaries of Projects Nos. 135 and 2195.

The proposed 231-foot (average width) highway right-of-way would be approximately 1.52 miles in length. The estimated acreages within the project boundaries of Projects Nos. 135 and 2195 affected by this proposal are 18.55 acres and 15.19 acres, respectively. The proposed highway section would be located in the SE ¼ of Section 12 and in Section 18, both in T. 4 S., R. 5 E., Willamette Meridian, Clackamas County, Oregon.

This partially Federally funded project for the construction of the proposed highway section of Highway Route 55 would be a two-lane highway constructed with a compacted asphalt surface. A Final Environmental Statement for this proposal was circulated by the Federal Highway Administration, Region 10, in May, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 22, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 C.F.R. § 1.8 or § 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules. The application is on file with the Commission and is available for public inspection.

Take further notice that, pursuant to the authority contained in and conferred upon the Federal Power Commission by Sections 308 and 309 of the Federal Power Act (16 U.S.C. § 825g, § 825h) and the Commission's Rules of Practice and Procedure, specifically Section 1.32 (b) (18 C.F.R. § 1.32(b)), as amended by Order No. 518, a hearing may be held without further notice before the Commission on this application if no issue of substance is raised by any request to be heard, protest or petition filed subsequent to this notice within the time required herein and if the applicant or initial pleader requests that the shortened procedure of Section 1.32(b) be used. If an issue of substance is so raised or applicant or initial pleader fails to request the shortened procedure, further notice of hearing will be given.

Under the shortened procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant or initial pleader to appear or be represented at the hearing before the Commission.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75–20710 Filed 8–6–75;8:45 am]

[Project No. 2685]

## POWER AUTHORITY OF THE STATE OF NEW YORK

### Order Approving Settlement Agreement

JULY 30, 1975.

On November 5, 1973, the Towns of Fulton and Blenheim, New York (Complainants) filed a complaint, under Section 306 of the Federal Power Act, 16 U.S.C. § 825e, and Section 1.6 of the Commision's Rules of Practices and Procedure, 18 C.F.R. § 1.6 (1974), against the Power Authority of the State of New York, Licensee for the Blenheim-Gilboa Pumped Storage Project No. 2685. The complaint alleged that Licensee was operating the project in such a manner, with respect to flow releases, that it was violating the terms of its license by causing wild and rapid fluctuations in water levels downstream from the project.

The Blenheim-Gilboa Project No. 2685, which was licensed by a Commission order on June 6, 1969, is located on Schoharie Creek, a tributary of the Mohawk River, in the Towns of Gilboa and Blenheim, in Schoharie County, New York. Operations began in July of 1973.

The source of water for Project No. 2685 is Schoharie Creek. Directly upstream from the project is the Gilboa Dam of the Schoharie Reservoir which serves as a source of water supply for New York City.[1] The Gilboa Dam contains an uncontrolled spillway and no outlet gates or valves to control releases of water. Therefore, during the winter there is usually uncontrolled spill over the Gilboa Dam into Schoharie Creek. In the summer, there is little or no spill over the Gilboa Dam, so the inflow to the project is only from the 40 square miles of drainage area below Gilboa Dam. According to available records this inflow with no spill from Gilboa Dam has fallen to below 1 cfs.

The Blenheim Gilboa pumped storage project is basically a closed system, that is, after the upper and lower reservoirs have been filled to meet the capacity requirements of the project, no additional water is required on a continual basis, except for small amounts needed to replenish whatever water is depleted from the system by means of evaporation, minor seepage losses, or operating releases.

In accordance with Section 1.6 of our Rules of Practice and Procedure and the Federal Power Act, a copy of the complaint was transmitted to the Licensee for comment. The Licensee responded, denying the Complainants' allegations. Public notice of the aforementioned complaint was issued on June 5, 1974, with July 22, 1974, being the last date to file protests or petitions to intervene. On June 19, 1974 the Schoharie Valley Environmental Conservation Association filed a timely petition to intervene, which we granted on July 26, 1974.

On June 25, 1974, we issued an order granting a hearing in this matter because of the unresolved factual issues arising from the complaint. In the filing of its testimony prior to the hearing, the Licensee submitted a new plan of operation for the project with regard to controlling and monitoring flow releases.

At the hearing which was held in Albany, New York on August 5, 1974, the Licensee's testimony and exhibits were made a part of the record, and the Complainants stated that if an operational plan for the project, as indicated in the Licensee's testimony, would be implemented that this would, in effect, satisfy their complaint. Complainants then stated, pursuant to Section 1.18(e) of the Commission Rules of Practice and Procedure, that they were of the opinion that a settlement agreement could be effected in this matter. The Licensee was in agreement. The Commission Staff indicated that it did not object. The Presiding Administrative Law Judge directed that the Complainants and Licensee file a fully executed settlement agreement on or before September 16, 1974. An extension of time for the filing was thereafter granted. On October 2, 1974, the aforesaid agreement was filed, and was certified by the Presiding Administrative Law Judge to the Commission on October 4, 1974. Notice of the certification of the settlement agreement to the Commission was issued on November 14, 1974, with December 13, 1974, being the last date to file protests or comments. One timely letter of comment was received on December 11, 1974.

The proposed settlement agreement would resolve all issues in this proceeding.

Details of the settlement agreement, which is basically a water management plan for operation for the project, may be summarized as follows:

The objectives are basically to prevent floods and fluctuations downstream from being more severe than they would be without the project and to maintain low flows as nearly as practicable to what they would be without the project. Generally these objectives can be met by keeping the total water in the upper and lower reservoirs virtually constant. Downstream releases from the lower reservoir of the project are by two means. Small flows are released through two valves which will pass up to 400 cfs each. Larger flows are released through three taintor gates.

In order to maintain constant reservoir volume, flows into the lower reservoir must be accurately determined. Over any period of time the inflow to the reservoir system must equal the outflow during the period plus the change in the volume of stored water plus evaporation and seepage losses. Capacity tables are available to determine the change in storage volume, and this method is currently in use. It is, however, subject to error for short time intervals if there are rapidly changing inflows. A second method which Licensee has recently adopted is to measure inflow directly before it enters the reservoir system by means of gages on Schoharie Creek and the main tributaries. This method is accurate for short intervals and during rapidly changing flow conditions, while the volumetric method is more accurate over longer periods. Both methods will be used by Licensee, and eventually the second will be aided by use of a small digital computer to automatically calculate and record reservoir inflows, outflows, and storage volumes, as well as gate and valve position changes whenever necessary.

However, even after the computer becomes operational, the operator will set the outflow control works. The outflow is a function of the gate and valve positions and the lower reservoir elevation. Instrumentation enables the operator to determine rapidly and accurately the gate or valve settings required to release the proper outflow. The overall operating plan used relates generally to flood flows, moderate flows, and low flows.

A flood period is one when Schoharie Creek downstream from the project exceeds normal bank full stage (about 10,000 cfs). To maintain constant total reservoir volume during the rising flood inflows, the average outflow for a given period of time must approximately equal the average inflow during that period. By making gate changes small and the setting periods short, outflow will closely follow inflow. Also, when these inflows initially exceed valve capacity, valves will be closed gradually and the gates opened gradually to prevent any sudden large change in outflow.

Moderate flow periods occur when the Gilboa Dam is spilling water and/or a rainstorm is in progress. Inflow is reasonably uniform and downstream flow is expected to remain within the channel banks. Outflow will be adjusted as often as necessary to maintain balanced inflow and outflow. If corrections are needed to return the reservoirs to the desired content, they will be spread over at least

---

[4] *Consumer Federation of America, et al. v. F.P.C.* (D.C. Cir., Docket No. 73–20009, issued March 13, 1975).
[5] Issued December 28, 1973.
[6] Alternate Substitute Thirteenth Revised Sheet No. 3–A to FPC Gas Tariff Original Volume No. 1.

[1] The Gilboa Dam and Scholarie Reservoir is not a waterpower project and is not licensed by this Commission.

24 hours to minimize downstream flow fluctuations.

Low flows are periods when Schoharie Reservoir is below spillway crest and there is no storm runoff. Generally, low flows are within the capacity of the valves in the lower reservoir dam. Inflow will be calculated at least once every 8 hours and any adjustments will be spread over a 24 hour period. When the flow at the North Blenheim gauging station is less than 5.0 cfs, the net reservoir evaporation will be withdrawn from reservoir storage and released downstream. This will result in flows comparable to those which would have occurred if the project had not been built.

Regardless of these various flow conditions, fluctuation in outflow will be controlled and minimized to the extent practicable. Since the low level outlet valves afford more precise control of outflows than the gates, valve control will be employed during moderate and low flow periods until required outflows exceed valve capacity (800 cfs). During high flow periods, the primary consideration will be to match outflow with inflow. Needless fluctuation downstream will be avoided by use of frequent small gate adjustments.

The Settlement Agreement also provides, as requested by Complainants, that records of inflow and outflow at the project will be made available at the office at the powerhouse in Schoharie County and at the office at 10 Columbus Circle in New York City.

Turning now to the single letter of comment on this proposed settlement agreement, we can summarize its basic criticisms as follows: (1) No mention of a specified minimum release occurs in the Settlement Agreement even though the Licensee is fully aware of its desirability; (2) Attempting to match inflow and outflow during summer months is not practical, particularly when no allowance is made for seepage losses; (3) No allowance has been made for the 10–12,000 cfs entering the lower reservoir during maximum power generation. Licensee responded to these criticisms and further explained the Settlement Agreement by letter dated February 4, 1975.

The reason for the lack of a provision regarding minimum releases in the proposed Settlement Agreement is the small drainage area (40 square miles) that serves Project No. 2685 below Gilboa Dam. Gilboa Dam and Schoharie Reservoir divert substantial amounts of water from the Schoharie Creek watershed for use by New York City. The level of water in Schoharie Reservoir is generally below the crest of Gilboa Dam during the summer, fall and early winter months. Thus, the only inflows to Project No. 2685 at these times come from its limited drainage area and Licensee states "it was not practicable to design the [project] to provide for minimum releases in excess of the inflow during low flow periods." As summarized above, when the outflow is less than 5 cfs, the water management plan does provide for the release downstream of an additional volume of water equal to the net reservoir evaporation. This resulting flow would equal the flow which would have occurred if the project had not been built.

With regard to seepage losses, Licensee reports that "[a]ll tests and observations made to date indicate that there is no substantial seepage from the upper reservoir." Generally, seepage losses from the lower reservoir would augment downstream flows.

The final criticism is that no allowance has been made in the Settlement Agreement during flood flows to provide for the 10–12,000 cfs entering the lower reservoir during maximum power generation. This criticism ignores the fact that the project is basically a closed system, as stated earlier, and thus the amount of total water in the two reservoirs remains generally constant. Water will not be released from the upper reservoir unless there is adequate storage space in the lower reservoir. Licensee states: "In fact, during a flood period it is probable that some portion of the inflow will be stored in the reservoir system. This excess water will not be released until the flood has subsided."

Although the fully executed agreement should resolve the outstanding issues of this proceeding, the total effect of the operating plan will not be known or available for evaluation until a sufficient period of project operation has been recorded.

Control of downstream releases should also be contingent upon a detailed evaluation of the project's fisheries and environmental aspects. These features are currently under Commission Staff review as part of the Licensee's application for approval of Exhibit S for the Blenheim-Gilboa Project.

Based upon our review of the settlement agreement, the comments responding thereto, and the record as a whole, it appears that the settlement agreement adequately resolves the issues raised by the filings and is in the public interest and should therefore be approved and made effective as hereinafter ordered and conditioned. The criticisms in the single letter of comment have been fully answered and do not alter our conclusion that approval of this agreement is in the public interest.

*The Commission finds:*

The Settlement Agreement, as executed between the Towns of Fulton and Blenheim (Complainants) and Power Authority of the State of New York (Licensee) is reasonable and appropriate and in the public interest in carrying out the provisions of the Federal Power Act and should be approved as hereinafter ordered.

*The Commission orders:*

(A) The Settlement Agreement certified to us by the Presiding Administrative Law Judge is incorporated herein by reference, and is hereby approved.

(B) This order is without prejudice to any finding or orders which have been made or which will hereafter be made by the Commission, and is without prejudice to any claims or contentions which may be made by the Commission, its staff, or any party or persons affected by this order, in any proceeding now pending or hereafter instituted by or against Power Authority of the State of New York or any person or party, except as provided in the settlement agreement.

(C) The Secretary shall cause prompt publication of this order in the FEDERAL REGISTER.

By the Commission.

[FR Doc.75-20681 Filed 8-6-75;8:45 am]

---

[Docket No. E-9454]

## PUBLIC SERVICE CO. OF NEW MEXICO

### Order Denying Motion To Reject

JULY 31, 1975.

On May 21, 1975, Public Service Company of New Mexico (PNM) tendered for filing a proposed rate schedule supplement [1] that would increase revenues from its sole jurisdictional municipal customer, the City of Gallup, New Mexico (Gallup), by $847,549 based upon Period I, calendar year 1974.

The proposed rate increases the demand charge to $5.15/kw and the energy charge to 6.2 mills/kWh. It adds a system charge of $500 per delivery point. The power factor is increased to 90% and the customer will pay $0.25 for each RKVA in excess of the allowed 0.48 RKVA per kw of billing demand. The new ratchet clause is pegged to the highest of the following: 75% of the highest kw demand established during the preceding eleven months, the contracted minimum kw demand, or the minimum demand of 10,000 kw specified in the proposed rate. The monthly minimum charge is 10,000 kw plus the system charge. The fuel adjustment clause has been revised and is in conformance with Commission Order No. 517.

PNM states that the reason for the proposed change in rate is that, at the present time, the rate of return to PNM for its service to Gallup is negative and that it is necessary to bring the rate of return in line with present day conditions. PNM's Statement N indicates that the proposed rate increase would have resulted in an earned rate of return of 9.892% in calendar year 1974.

[1] Designated as: Public Service Company of New Mexico Supplement No. 4 to Rate Schedule FPC No. 2 (Supersedes Supplement No. 3).

PNM proposes that the new rate become effective on July 31, 1975. Notice of the filing was issued on June 4, 1975, with comments, protests, or petitions to intervene due on or before June 16, 1975. On June 9, 1975, Gallup requested an extension of time for the closing date for petitions to intervene. On June 13, 1975, the Secretary issued a notice extending the time for filing petitions to intervene to and including June 30, 1975. On June 16, 1975, the New Mexico Public Service Commission filed a Notice of Intervention.

On June 30, 1975, Gallup filed a Motion to Reject, Protest, and Petition to Intervene. Gallup asserts, *inter alia*, that the existing contract between PNM and Gallup is a fixed-rate contract that does not permit unilateral Section 205 rate increase filings and therefore PNM's proposed rate increase must be rejected under the Sierra-Mobile doctrine.[2] Gallup further asserts that PNM's filing must be rejected for failure to comply with Sections 35.13(b)(4)(iii) and Section 35.13(b)(2) of the Commission's Regulations. Gallup alleges that the proposed rate is discriminatory vis-a-vis PNM's wholesale customer Community Public Service Company (CPS); and Gallup argues that the proposed rate will foreclose it from competing with PNM for retail loads through a price squeeze situation, thereby necessitating rejection of the filing.

On July 15, 1975, PNM filed an Answer to Gallup's motion which opposed, *inter alia*, Gallup's argument for rejection of the filing and Gallup's discrimination and price squeeze allegations.

PNM cites the following language from the present PNM-Gallup contract (FPC Rate Schedule No. 2), as amended by Amendment No. One, under "Change in Rate":

"Notwithstanding the earliest effective date of termination (July 1, 1977) as set forth in Article II (Term) above, should the rates charged herein to the consumer by the Company be increased for any reason whatsoever other than fuel cost or tax adjustments provided for herein, then and in that event, the Consumer shall immediately have the option within (90) days after the consumer is given notice of such rate increase to terminate this agreement; provided, however, that the Company will supply for a two (2) year period thereafter such power and energy in accordance with the new or increased rates as may be requested by consumer from time to time up to the amount specified in Article IV hereof."

PNM asserts that this language evidences the clear right of PNM to file a unilateral rate increase. We do not think that this language goes to the *Mobile-Sierra* issue of whether the contract permits the selling public utility to unilaterally file for an increase in rates, but rather provides an option to the customer if the rates charged to it are increased for any reason.

Both parties quote from Article XII, as amended by Amendment No. One, of the PNM-Gallup contract:

"This contract, including the tariff made a part hereof, shall at all times be subject to such changes or modifications as shall be *ordered* from time to time by *any legally constituted regulatory body having jurisdiction* to require such changes or modifications." (emphasis supplied)

Gallup argues that this provision bars unilateral rate increase filings; while PNM argues that it permits them.

We believe that this is the important language to focus on with respect to the *Mobile-Sierra* issue. The U.S. Court of Appeals has stated, "the rule of *Mobile-Sierra* and *Memphis*[3] is refreshingly simple. The contract between the parties governs the legality of the filing. Rate filings consistent with contractual obligations are valid."[4] We think that the key language in the clause at issue is that the rate shall be subject to change by order issued by the regulatory body having jurisdiction, which is this Commission. In the *Mobile* case, the Court stated in reference to Section 4(d) of the Natural Gas Act, which is equivalent to Section 205(d) of the Federal Power Act:

"Section 4(d) provides not for the filing of 'proposals' but for notice to the Commission of any 'change . . . made by' a natural gas company, *and the change is effected, if at all, not by an order of the Commission, but solely by virtue of the natural gas company's own action.*" *Mobile, supra,* at 342 (emphasis supplied)

Since the parties provided for a change in rate only by order issued by the Commission, it is clear they did not contemplate the unilateral filings permitted by Section 205. Accordingly, we shall institute a Section 206(a) proceeding and set the just and reasonable rate for PNM's service to Gallup pursuant to Section 206(a) [5], any change to be prospective in application.

Gallup asserts that PNM's filing must be rejected for failure to comply with Section 35.13(b)(4)(iii) of the Regulations. PNM tendered for filing its rate increase on May 21, 1975. It used calendar year 1974 data for Period I, and it did not submit Period II data, stating that the proposed increase was less than one million dollars and therefore Period II data was not required pursuant to Order No. 487. Gallup asserts that Period I should be May, 1974, through April of 1975. Gallup cites *Minnesota Power & Light Company*, Docket No. E-8494, Order of February 15, 1974, and *Public Service Company of New Hampshire*, Docket No. E-9290, Order of June 4, 1975. In *Minnesota, supra*, the Secretary sent out a deficiency letter on December 6, 1973, which stated, *inter alia*, that Minnesota's use of 1972 calendar year for Period I where Period II was calendar 1974 was not permissible under the Regulations. In *Public Service Company of New Hampshire, supra*, the Commission rejected proposed tariff sheets based upon a Period I of calendar year 1973 that were tendered for filing in February, 1975 and retendered in March, 1975. We think these precedents are distinguishable and that use of calendar year 1974 as Period I for PNM's May 21, 1975 filing with a July 31, 1975, proposed effective date does not warrant rejection under the Regulations with respect to this case.

Gallup asserts that the filing must be rejected for failure to comply with Section 35.13(b)(2) of the Regulations in that PNM did not submit a "comparison of the proposed rate with other rates of the filing public utility for similar wholesale for resale and transmission services". The submission of this data is only required when similar services exist, and we think that the failure to file such data in this case does not warrant rejection of PNM's filing.

Gallup asserts that the proposed rate is discriminatory vis-a-vis PNM's wholesale customer CPS. Gallup may present evidence to substantiate this claim in the proceeding to be established.[6]

Gallup charges that the proposed rate will foreclose it from competing with PNM for retail loads through a price squeeze situation. The Commission must utilize a cost plus fair return standard for establishing the justness and reasonableness of the wholesale rate and does not have the authority under the Federal Power Act to set the wholesale rate predicated upon retail rates over which we have no jurisdiction.[7] We shall therefore limit this proceeding so as to exclude consideration of the price squeeze issue. We are aware of Gallup's reliance upon *Conway Corporation* v. *F.P.C.*, 510 F. 2d 1264 (1975). However, the Court in Conway stayed its mandate pending appeal by the Commission. Accordingly, Gallup may renew its request for consideration

[2] *Federal Power Commission* v. *Sierra Pacific Power Company*, 350 U.S. 348 (1956); *United Gas Pipe Line Company* v. *Mobile Gas Service Corporation*, 350 U.S. 322 (1956).

[3] *United Gas Pipe Line Co.* v. *Memphis Light, Gas and Water Division*, 358 U.S. 103 (1958).

[4] *Richmond Power and Light Co.* v. *F.P.C.*, 481 F.2d 490, 493 (USCA–DC Cir. 1974).

[5] We note that the procedures under such a Section 206(a) proceeding would not entail meeting the heavy burden of proof associated with the *Mobile-Sierra* decisions.

[6] *St. Michaels Utilities Commission* v. *The Eastern Shore Public Service Company of Maryland*, 35 FPC 591 (1966), affm'd 377 F. 2d 912 (USCA—4th Cir. 1967).

[7] See e.g., *Virginia Electric and Power Company*, Docket No. E-9147, order issued January 22, 1975, *Carolina Power and Light Company*, Docket No. E-8884, order issued August 26, 1974; *Wisconsin Public Service Corporation*, Docket No. E-8867, order issued August 23, 1974, and *Pacific Gas and Electric Company*, Docket No. E-7777, order issued March 14, 1974.

AUG 7 1975 XU

of the price squeeze issue when and if the *Conway* decision becomes final.[a]

*The Commission finds:*

(1) The motion to reject PNM's rate increase filing for service to Gallup should be denied.

(2) A proceeding under Section 206(a) of the Federal Power Act should be instituted to determine the just and reasonable rate to be charged Gallup. Such proceeding should use the material in PNM's original filing of May 21, 1975.

(3) Gallup may introduce evidence as hereinafter ordered to substantiate its claim that the proposed rate is discriminatory vis-a-vis PNM's wholesale customer CPS.

(4) "Price-squeeze" issues should be excluded from these proceedings.

(5) Good cause exists to permit the intervention of Gallup and the New Mexico Public Service Commission as hereinafter limited.

*The Commission orders:*

(A) Gallup's motion to reject is denied.

(B) We hereby institute a proceeding under Section 206(a) of the Federal Power Act to determine the just and reasonable rate to be charged Gallup. Materials contained in the original PNM filing of May 21, 1975, shall form the basis of the proceeding.

(C) Pursuant to the authority of the Federal Power Act, particularly Section 206 thereof, the Commission's Rules of Practice and Procedure, and the Regulations under the Federal Power Act (18 CFR Chapter I), a public hearing shall be held on November 11, 1975, at 10:00 A.M., in a hearing room of the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426.

(D) On or before September 30, 1975, the Commission Staff shall serve its prepared testimony and exhibits. Prepared testimony and exhibits of intervenors, if any, shall be served on or before October 14, 1975. Company rebuttal shall be served on or before October 28, 1975.

(E) A Presiding Administrative Law Judge to be designated by the Chief Administrative Law Judge for that purpose (See Delegation of Authority, 18 CFR 3.5(d)), shall preside at the hearing in this proceeding. shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in the Commission's Rules of Practice and Procedure.

(F) Any rate increase to Gallup which we may approve shall be effective from the date of such approval.

(G) PNM may not bill Gallup at the rate proposed herein or at such other rate as the Commission shall find just and reasonable until completion of the proceeding herein ordered and approval of the new rate.

(H) Gallup and the New Mexico Public Service Commission are hereby permitted to intervene in these proceedings, subject to the Rules and Regulations of the Commission; *Provided, however*, that the participation of Gallup shall be limited to matters affecting rights and interests specifically set forth in its petition to intervene, with the exclusion of price squeeze issues; and *Provided, further*, that the admission of such intervenors shall not be considered as recognition by the Commission that it might be aggrieved because of any order or orders issued by the Commission in this proceeding.

(I) Gallup may introduce evidence according to the aforesaid procedural dates to substantiate its claim that the proposed rate is discriminatory vis-a-vis PNM's wholesale customer CPS.

(J) Nothing contained herein shall be construed as limiting the rights of parties to this proceeding regarding the convening of conferences or offers of settlement pursuant to Section 1.18 of the Commission's Rules of Practice and Procedure.

(K) The Secretary shall cause prompt publication of this order in the Federal Register.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75-20680 Filed 8-6-75;8:45 am]

[a] On July 23, 1975, Gallup filed a Reply to PNM's Answer; and on July 24, 1975, PNM filed a Motion to Reject Or In The Alternative For Leave To File A Response Thereto. Our review of these pleadings indicate that no new issues of fact or law are raised. We deny the motion to reject and the request for leave to file a response.

---

[Docket No. CP76-30]

## SOUTH TEXAS NATURAL GAS GATHERING CO.

### Notice of Application

JULY 31, 1975.

Take notice that on July 25, 1975, South Texas Natural Gas Gathering Company (Applicant), Five Greenway Plaza East, Houston, Texas 77046, filed in Docket No. CP76-30 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation of approximately 600 Mcf of gas per day for National Exploration Company (National), all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests authorization to transport approximately 600 Mcf of gas per day to be produced from the Jack Casey No. 1 Well in the Bob Cooper Field, Brooks County, Texas, to be delivered to Applicant by National in the field, for redelivery to Transcontinental Pipe Line Corporation (Transco) at an existing point of interconnection between the systems of Applicant and Transco at Falfurrias, Jim Wells County, Texas, for National. The stated cost of the transportation service is 6.25 cents per Mcf of gas, which is stated to be Applicant's average system cost for such service. Applicant does not request the authorization to construct any facilities in the instant application and states that any expenses incurred by it in connection with the taking of gas in the field would be reimbursed by National.

Any person desiring to be heard or to make any protest with reference to said application should on or before August 20, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. RI76-13]

## SUPERIOR OIL CO.

### Order Providing for Hearing on and Suspension of Proposed Change in Rate

JULY 31, 1975.

Respondent has filed a proposed change in rate and charge for the jurisdictional sale of natural gas, as set forth in Appendix A hereof.

The proposed changed rate and charge may be unjust, unreasonable, unduly discriminatory, or preferential, or otherwise unlawful.

*The Commission finds:* It is in the public interest and consistent with the Natural Gas Act that the Commission enter upon a hearing regarding the lawfulness of the proposed change, and that the supplement herein be suspended and its use be deferred as ordered blow.

*The Commission orders:* (A) Under the Natural Gas Act, particularly Sections 4 and 15, the Regulations pertaining thereto [18 CFR, Chapter I], and the Commission's Rules of Practice and Procedure, a public hearing shall be held concerning the lawfulness of the proposed change.

(B) Pending hearing and decision thereon, the rate supplement herein is suspended and its use deferred until date shown in the "Date Suspended Until" column. This supplement shall become effective, subject to refund, as of the expiration of the suspension period without any further action by the Respondent or by the Commission. Respondent shall comply with the refunding procedure required by the Natural Gas Act and Section 154.102 of the Regulations thereunder.

(C) Unless otherwise ordered by the Commission, neither the suspended supplement, nor the rate schedule sought to be altered, shall be changed until disposition of this proceeding or expiration of the suspension period, whichever is earlier.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

APPENDIX A

| Docket No. | Respondent | Rate schedule No. | Supplement No. | Purchaser and producing area | Amount of annual increase | Date filing tendered | Effective date unless suspended | Date suspended until— | Cents per Mcf* | | Rate in effect subject to refund in docket No. |
|---|---|---|---|---|---|---|---|---|---|---|---|
| | | | | | | | | | Rate in effect | Proposed increased rate | |
| RI76-13 | The Superior Oil Co. | 141 | 4 | Pacific Lighting Service Co. (Offshore California). | $1,460 | 7-7-75 | ---------- | 9-3-75 | 27.0 | 27.5 | |

* Unless otherwise stated, the pressure base is 14.73 lb/in²a.

The Superior Oil Company has filed a periodic rate increase for the sale of casinghead gas to Pacific Lighting Service Company from Offshore Santa Barbara County, California. No formal or guideline ceiling has been established for this area. However, the present effective initial rate is subject to refund under the temporary certificate issued for the subject sale. Accordingly, the proposed rate increase is suspended for one day from September 2, 1975, the contractual effective date.

[FR Doc.75-20679 Filed 8-6-75;8:45 am]

[Docket No. ER76-20]

## SUPERIOR WATER, LIGHT & POWER CO.

### Notice of Proposed Changes in Rates and Charges

JULY 31, 1975.

Take notice that Superior Water, Light & Power Company (SWL&P) on July 23, 1975, tendered for filing proposed changes in its FPC Electric Rate Schedule No. 12. The Company states that the proposed changes would increase revenues from jurisdictional sales and service by less than $1,000,000.

The proposed rate changes and rate charges are designed to increase the revenue from Dahlberg Light & Power Company, Superior Water, Light & Power Company's only jurisdictional customer sufficiently to recover the proportionate share of the increase in the cost of purchased power from supplier and to raise the rate of return on the investment necessary to serve jurisdictional customer to an acceptable level.

Copies of the filing were served upon SWL&P's jurisdictional customer and Public Service Commission of Wisconsin.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street, N.E., Washington, D.C. 20426, in accordance with Sections 1.8 and 1.10 of the Commission's Rules of Practice and Procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before August 12, 1975. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75-20712 Filed 8-6-75;8:45 am]

[Docket No. CP76-16]

## TENNECO LNG INC.

### Notice of Application

JULY 29, 1975.

Take notice that on July 15, 1975, Tenneco LNG Inc. (Applicant), Tenneco Building, Houston, Texas 77002, filed in Docket No. CP76-16 an application pursuant to Section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity in a bifurcated proceeding authorizing *in toto* the construction and operation of facilities for the receipt, unloading, storing, and vaporizing of LNG at a proposed facility which would be located on approximately 530 acres at mile 91.2 on the Delaware River in West Deptford, Gloucester County, New Jersey, all as more fully set forth in the application on file with the Commission and open to public inspection.

Applicant requests that the proceedings on the instant application be divided into two parts, a preliminary evaluation of the issues related to the examination of site location, safety and environment and a later evaluation of the proposed construction and operation of the specific facilities proposed. The proposed facilities would include docking and unloading facilities consisting of three berths, two grouped around a single finger pier, the third located parallel to the shoreline, LNG storage facilities consisting of four 900,000 barrel storage tanks surrounded by earthen containment dikes, pumping and vaporization units which would use water from the Delaware River to provide the required heat necessary to vaporize the LNG, vapor compression facilities for handling the boil-off vapors from the terminal, and auxiliary facilities appurtenant to the proposed LNG facility.

Applicant proposes that the environmental, safety and site examination be concerned with but not confined to those factors including air resources, aquatic environment, terrestrial environment, noise environment, socio-economic environment, project alternatives, site alternatives, and the commitment of resources.

Applicant states that Tennessee Gas Transmission Company, a Division of Tenneco Inc. (Tennessee), has been involved in efforts since 1970 to acquire LNG for importation into the United States with the Soviet Union and has entered into a protocol of intent with the Soviet Union. Applicant further states that Tennessee has been involved in negotiation with the Federal Republic of Nigeria since 1971 and believes that a portion or all of the LNG produced there by certain facilities may become available to Tennessee.

Applicant, a whole-owned subsidiary of Tenneco Inc., states that it would only perform the services of receiving unloading, storing and vaporizing LNG and would deliver such gas to Tennessee at the discharge side of the proposed terminal. The proposed facilities would be financed during construction by advances from Tenneco Inc. and bank credit.

The application states that the proposed facilities have been designed to provide a base level supply of 2,000,000 Mcf of gas per day to Tennessee. It is proposed that the LNG would arrive by cryogenic tankers at an average rate of one every 30 hours and that each tanker would deliver the equivalent of 2,500,000 Mcf of vaporous gas. The application shows a total estimated cost of $264,000,000 for facilities necessary for a project involving 500,000 Mcf of gas per day. Applicant states that this cost estimate is presented as an indication of the size of the project considered most likely to be the subject of the filings in the second phase of the proceeding.

Any person desiring to be heard or to make any protest with reference to said application should on or before August

21, 1975, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 1.8 or 1.10) and the Regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's Rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by Sections 7 and 15 of the Natural Gas Act and the Commission's Rules of Practice and Procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
*Secretary.*

[FR Doc.75-20713 Filed 8-6-75;8:45 am]

## TENNESSEE GAS PIPELINE CO.

### Notice of Extension of Time

JULY 29, 1975.

On July 21, 1975, Tennessee Gas Pipeline Company filed a motion to extend the time for filing briefs on exceptions to the initial decision of the Presiding 1975, in the above-designated matter. Administrative Law Judge issued July 9, The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the date for filing briefs on exceptions to the above-designated decision is extended to September 8, 1975. The date for filing briefs opposing exceptions is extended to September 29, 1975.

KENNETH F. PLUMB,
*Secretary.*

[Docket No. RP75-19]

## TEXAS GAS TRANSMISSION CORP.

### Notice of Further Extension of Procedural Dates

JULY 29, 1975.

On July 21, 1975, Columbia Gas Transmission and Consolidated Gas Supply Corporation filed a motion to extend the procedural dates fixed by order issued October 30, 1974, as most recently modified by notice issued July 15, 1975, in the above-designated matter. The motion states that the parties have been notified and have no objection.

Upon consideration, notice is hereby given that the procedural dates in the above matter are modified as follows:

Service of Staff Supplemental Testimony, August 28, 1975.
Service of Intervenor Testimony, September 29, 1975.
Service of Staff and Intervenor Rebuttal, October 27, 1975.
Service of Company Rebuttal, November 18, 1975.
Hearing, December 2, 1975 (10:00 a.m. EST).

By direction of the Commission.

[Docket No. RP73-35; PGA75-3]

## TRUNKLINE GAS CO.

### Order Accepting for Filing Proposed PGA Rate Change and Instituting Investigation

JULY 30, 1975.

On June 13, 1975, Trunkline Gas Company (Trunkline) tendered for filing with the Commission a proposed revised tariff sheet[1] pursuant to its PGA clause which reflects (1) a 1.66¢ per Mcf, or $2.9 million annually, increase in the current cost of purchased gas, and (2) a surcharge reduction from 6.19¢ per Mcf to 0.96¢ per Mcf to recover the $1,708,193 remaining balance in Trunkline's deferred purchased gas cost account as of April 30, 1975. Trunkline has requested an effective date of August 1, 1975.

Public notice of Trunkline's filing was issued on June 25, 1975 with all protests, comments, and petitions to intervene due on or before July 16, 1975. The Commission has received no comments, protests, or petitions to intervene.

Our review of Trunkline's proposed PGA adjustment indicates that it is based in part upon small independent producer purchases and emergency purchases at rates in excess of the rate levels established in Opinion No. 699-H.[2] The proposed rates have not therefore been shown to be just and reasonable and may be unjust, unreasonable, unduly discriminatory, and otherwise unlawful. Accordingly, we shall enter into an investigation under Section 5 of the Natural Gas Act to determine the justness and reasonableness of these small producer purchases and emergency purchases.

With regard to the question of small producer purchases, we note that the Supreme Court has remanded the small independent producer rulemaking in order for the Commission to enunciate the standards in determining the justness and reasonableness for small producer purchases.[3] As to the emergency purchases, we note that the U.S. Circuit Court of Appeals for the D.C. Circuit has set aside Order No. 491, *et al.*[4] holding that the Commission exceeded its authority under the Natural Gas Act.[5] We believe, therefore, that it would be premature to establish a procedural schedule in this docket at this time.

*The Commission finds:*

(1) It is necessary and appropriate in the public interest and to aid in the enforcement of the Natural Gas Act that Trunkline's proposed PGA adjustment tendered on June 13, 1975, be accepted for filing and permitted to become effective August 1, 1975, as proposed.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the Natural Gas Act that the Commission enter upon an investigation under Section 5 of the Natural Gas Act concerning the lawfulness of the small producer rates and emergency purchase rates in excess of the rate levels established in Opinion No. 699-H.

*The Commission orders:*

(A) Trunkline's proposed Thirteenth Revised Sheet No. 3-A to its original Volume No. 1 of the FPC Gas Tariff is hereby accepted for filing, and permitted to become effective August 1, 1975, as proposed.

(B) Pursuant to the authority of Section 5 of the Natural Gas Act, the Commission's Rules of Practice and Procedure, and the Regulations Under the Natural Gas Act, a Section 5 investigation shall be held concerning the lawfulness of Trunkline's small producer and emergency purchases at rates in excess of rate levels established in Opinion No. 699-H, as contained in Trunkline's June 13, 1975, filing.

(C) The Secretary shall cause prompt publication of this order to be made in the Federal Register.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. RP75-109]

## UNITED GAS PIPE LINE CO.

### Order Granting Petiton To Intervene

JULY 29, 1975.

By order issued July 7, 1975, the Commission accepted for filing and suspended for a five-month period the proposed rate increase tendered by United Gas Pipe Line Company (United) in this proceeding. The Commission in that order further granted petitions to intervene to numerous parties, one of which was Mississippi Valley Gas Company. The petition to intervene filed on behalf of Mississippi Valley Gas Company was a joint petition to intervene filed on behalf of that company, Mobile Gas Service Corporation, and Clarke-Mobile Counties Gas District. By inadvertence, Appendix A to our July 7, 1975 order failed to list the latter two petitioners to this joint petition to intervene. Good cause having been shown we shall grant intervention to Mobile Gas Service Corporation and Clarke-Mobile Counties Gas District.

*The Commission finds:*

Good cause exists to grant intervention in this proceeding to Mobile Gas Service Corporation and Clarke-Mobile Counties Gas District.

*The Commission orders:*

(A) The joint petition to intervene filed on behalf of Mobile Gas Service Corporation and Clarke-Mobile Counties Gas District is hereby granted.

(B) The Secretary shall cause prompt publication of this order to be issued in the FEDERAL REGISTER.

By the Commission.

[SEAL] KENNETH F. PLUMB,
*Secretary.*

[Docket No. RP76-2]

## TRANSCONTINENTAL GAS PIPE LINE CORP.

### Petition for Issuance of Declaratory Order

AUGUST 5, 1975.

Take notice that on July 17, 1975, Transcontinental Gas Pipe Line Corporation (Transco) filed a petition pursuant to Section 1.7(c) of the Commission's Rules of Practice and Procedure, for a declaratory order with respect to 60 day emergency purchases of gas pursuant to Section 2.68 of the Commission's General Policy and Interpretations and Section 157.29 of the Commission's Regulations. Specifically, Transco requests that the Commission declare that natural gas pipelines which need emergency gas to serve, during the 1975-76 winter, Priority 1 and Priority 2 markets (as defined in Order No. 467-B) may purchase such gas without refund exposure if such purchases are made at "arms-length" and at prices which are in line with competitive intrastate prices.

The Commission's Policy and Regulations permit emergency sales for a 60 day period to interstate pipelines by intrastate pipelines (Section 2.68 of the General Policy and Interpretations) and by independent producers (Section 157.29 of the Regulations) without express authorization from the Commission. Under the latter provision, reinstituted by Opinion No. 699-B on September 9, 1974, the pipeline shall be entitled to pay and recover "a rate for emergency purchases which a reasonably prudent pipeline purchaser would pay for gas under the same or similar circumstances" (*mimeo*, p. 4). Transco states that although this standard appears to be less stringent than the standard previously announced for 180 day sales,[1] it appears that the Commission has treated the 60 day purchases in the same way as the 180 day purchases, *i.e.*, it has required all amounts in excess of the national rate to be collected subject to refund. Transco states that since substantial amounts of emergency gas may be available this coming winter at prices competitive with intrastate market prices and since the financial exposure to pipelines could be enormous if such arrangements are consummated and rates are collected subject to refund, it is imperative that the Commission declare that pipelines may pay and pass on the costs of arms-length emergency purchases at levels which do not exceed competitive intrastate price levels where the purpose and effect is to avoid or reduce indicated curtailment of Priority 1 and Priority 2 markets as defined in Order No. 467-B.

Transco further states that its curtailment situation in one of the more severe among interstate pipelines and may indeed be the most severe in terms of effect upon high priority loads for the 1975-76 winter heating season. In percentage terms, Transco's curtailment is expected to be about 43 percent for the 1975-76 winter period, based upon Transco's Form 16 on file with the Commission. Under an assumed Order 467-B curtailment plan and based upon the market data in Transco's curtailment proceeding in Docket No. RP72-99, such a curtailment level would indicate no service to requirements in Priorities 2 through 9, and only 94 percent of service to FPC Priority 1 requirements. To the extent that additional conventional supplies can be purchased by Transco in the near-term future, it is alleged that such supplies would reduce the reliance on supplemental supply sources at costs ranging from $3 to $5 per Mcf for those customers able to obtain such supplemental supplies. Therefore, Transco argues that not only is it clear that its curtailment situation cuts very critically into high priority markets next winter but also that emergency gas supply sources purchased by Transco even at the relatively high intrastate market prices would result in lower costs to the ultimate consumers than if the distributors were able to obtain supplemental supplies.

Transco also alleges that as a result of the wide disparity between regulated interstate prices and the unregulated intrastate market prices that virtually all of the new gas being found on shore is sold in the intrastate market. In this connection, Transco asserts that although there is a pervasive and worsening gas supply shortage in the interstate market, there are some indications that the stepped-up drilling activities in onshore locations, together with reduced economic activity, may have created a surplus of available supplies in the intrastate market, even if such surplus may be only of a temporary nature. Transco states it has received some inquiries with respect to available emergency volumes for a temporary period; and a recent article in Business Week, attached as Appendix A to the petition, indicates that temporary surpluses may exist. It is anticipated, however, that any purchases that may be available will be in the range of presently competitive intrastate prices.

Finally, Transco states that in order to restore its gas supply to the level which existed last winter (which itself was not free from problems), Transco would have to purchase in the range of 450,000 Mcf per day throughout the upcoming winter. Assuming that such emergency volumes could be obtained, and assuming a price of $1 per Mcf over the national rate, the amount which could be collected by Transco subject to refund under present Commission practices would be about $68,000,000 for the winter period. While Transco holds out no expectations that such a large volume will be available for purchase, it is suggested that the risks to the pipeline of buying any appreciable quantity of emergency gas at competitive prices, without assurance of flow-through, are enormous. Therefore, Transco argues it is imperative that assurances be given by the Commission that pipelines which are able to purchase emergency gas at such prices *"for indicated Priority 1 and Priority 2 loads"* will be able to recoup such costs.

Any person desiring to be heard or to protest said filing should file a petition to intervene or protest with the Federal Power Commission, 825 North Capitol Street NE., Washington, D.C. 20426, in accordance with Sections 1.8 or 1.10 of the Commission's Rules of Practice and Procedure [18 CFR 1.8, 1.10]. A shortened notice period in this proceeding may be in the public interest, thusly, all such petitions or protests should be filed on or before August 15, 1975. Protests will be considered by the Commission in deter-

[1] *I.e.*, that the transaction was not "improvidently consummated at a rate which was more than necessary to secure the gas for the interstate market".

mining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene; provided, however, that any person who has previously filed a Petition to intervene in this proceeding is not required to file a further petition. Copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
*Secretary.*

## INTERSTATE COMMERCE COMMISSION

[AB 89 (Sub-No. 1)]

### ALAMEDA BELT LINE, CALIF.

#### Abandonment

JULY 29, 1975.

In the matter of Alameda Belt Line, abandonment in the City of Alameda, County of Alameda, State of California.

The Interstate Commerce Commission hereby gives notice that: 1. By order served June 6, 1975, applicant was required to publish a notice in the Alameda County, Calif., that an environmental threshold assessment survey was made in the above-entitled proceeding and based on that assessment it was determined that the proceeding does not constitute a major Federal action significantly affecting the quality of the human environment within the meaning of the National Environmental Policy Act of 1969 (NEPA), 42 U.S.C. §§ 4321, *et seq.* 2. No comments in opposition, of an environmental nature, were received by the Commission in response to the June 5, 1975, order and subsequent notice. 3. This proceeding is now ready for further disposition within the Office of Hearings or the Office of Proceedings as appropriate.

[SEAL] ROBERT L. OSWALD,
*Secretary.*

[FR Doc.75-20778 Filed 8-6-75;8:45 am]

[Docket No. AB-6 (Sub-No. 1)]

### BURLINGTON NORTHERN, INC.

#### —Abandonment; Extension of Time

In the matter of Burlington Northern Inc., abandonment between Issaquah and Tanner in King County, Washington.

Upon consideration of the record in the above-entitled proceeding, and the letter-petition of applicant filed July 7, 1975, for an extension of time in which to exercise the authority granted by certificate and order of the Commission, Commissioner Tuggle, served June 27, 1974; and good cause appearing therefor:

*It is ordered,* That the time within which the transaction herein may be consummated, be, and it is hereby, extended to August 1, 1976, and that the said certificate and order, as hereby modified, shall be and remain in full force and effect.

Dated at Washington, D.C., this 29th day of July, 1975.

By the Commission, Commissioner Brown.

### ASSIGNMENT OF HEARINGS

AUGUST 4, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commisison. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC-F 12383, Grand Island Moving & Storage Co., Inc.—Purchase (Portion)—J. E. Lammert Transfer, Inc., and MC-F 12397, Curtis, Inc.—Purchase (Portion)—J. E. Lammert Transfer, Inc., now assigned September 10, 1975 at Omaha, Nebr., will be held in Room 616, Union Pacific Plaza, 110 14th Street.

MC 136168 Sub 3, Wilson Certified Express, Inc., now assigned September 16, 1975, at Omaha, Nebr., will be held in Room 616, Union Pacific Plaza, 110 N. 14th Street.

MC 140638, Wells Transport Company, Inc., now assigned September 15, 1975 at Omaha, Nebr., will be held in Room 616, Union Pacific Plaza, 110 N. 14th Street.

MC 124211 Sub 262, Hilt Truck Line, Inc., now assigned September 18, 1975, at Omaha, Nebr., will be held in Room 616, Union Pacific Plaza, 110 N. 14th Street.

MC 1239 Sub 4, Pony Trucking, Inc., now assigned September 10, 1975, at Pittsburgh, Pa., will be held in Courtroom 12, 10th Floor, U.S. Post Office Courthouse, 7th & Grant Street.

MC 138900 Sub 2, Reid J. Cavanaugh, now assigned September 15, 1975, at Pittsburgh, Pa., will be held in Courtroom 12, 10th Floor, U.S. Post Office Courthouse, 7th & Grant Street.

MC-C 8489, Pioneer Hauling Company, Inc., Revocation of Certificate now assigned September 10, 1975, at Jefferson City, MO, will be held in Room B-25A and B-25B, Missouri State Capitol Bldg.

MC 139986, Frank C. Scheer, d/b/a Allstates Coach Service, now assigned September 22, 1975, at Miami, Fla., will be held in Room 1524, Tax Court, Federal Building, 51 SW. First Street.

No. AB 28, Central of Georgia Railroad Company, Abandonment between Lafayette & Roanoke, in Chambers and Randolph Counties, Alabama, now assigned September 3, 1975, at Roanoke, Alabama, will be held in Court House.

No. MC 128932 Sub 7, Robert L. Torrans, d/b/a Commercial Storage & Distribution Co., now assigned September 8, 1975, at Dallas, Texas, will be held in Room 5A15-17, Federal Building, 1100 Commerce Street.

MC 111545 Sub 212, Home Transportation Company, Inc., now assigned September 25, 1975, at Miami, Fla., will be held in Room 1524, Tax Court, Federal Building, 51 SW. First Street.

MC 107107 Sub-440, Alterman Transport Lines, Inc., now assigned September 26, 1975, at Miami, Fla., will be held in Room 1524, Tax Court, Federal Building, 51 SW. First Street.

MC 140094, Latin Express Service, Inc., now assigned September 29, 1975, at Miami, Fla., will be held in Room 1524, Tax Court, Federal Building, 51 SW. First Street.

MC 119726 Sub 55, N. A. B. Trucking Co., Inc., now being assigned September 12, 1975 (1 day), at Chicago, Ill., in a hearing room to be later designated.

MC-F-12437, Crouch Freight Systems, Inc.—Purchase—Mills Transfer Company, et al, now assigned September 9, 1975, at Boston, Mass., will be held on the 5th floor, 150 Causeway.

MC-F-12455 and MC 33807 (Sub-No. 6), Nashua Motor Express, Inc.—Purchase—Gerrard Transport, Inc., now assigned September 17, 1975, at Boston, Mass., will be held on the 5th floor, 150 Causeway.

MC 134974 Sub 4, Be-Well Farms Inc., now assigned September 15, 1975, at Boston, Mass., will be held on the 5th floor, 150 Causeway.

MC 136527 Sub 1, J. O. Battles, Inc., now assigned September 11, 1975, at Boston, Mass., will be held on the 5th floor, 150 Causeway.

MC 107993 Sub 38, J. J. Willis Trucking Company, now assigned September 18, 1975 (2 days), at Birmingham, Ala., in a hearing room to be later designated.

MC-C-8338, Hunt Truck Lines, Inc.—Investigation and Revocation of Certificate, and MC 52979 Sub 3, Hunt Truck Lines, Inc., now assigned September 18, 1975, at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

MC 115689 Sub 148, Dahlsten Truck Line, Inc., now assigned September 16, 1975, at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

MC 134142 Sub 8, Brown Refrigerated Express, Inc., now assigned September 11, 1975, at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

MC 140241 Sub 2, Dalke Transport, Inc., now assigned September 9, 1975, at Kansas City, Mo., will be held in Room 609, Federal Office Bldg., 911 Walnut Street.

MC 114273 Sub 226, CRST, Inc., now assigned September 15, 1975, at Kansas City, Mo., will be held in Room 609, Federal Office Building, 911 Walnut Street.

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

AUGUST 6, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 C.F.R. Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 27, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75857. By order entered August 1, 1975, the Motor Carrier Board approved the transfer to J. C. Services, Inc., Feasterville, Pa. of the operating rights set forth in Certificate No. MC 9975, issued May 9, 1974, to Elizabeth Lucera, Philadelphia, Pa., authorizing the transportation of household goods, between points in the Philadelphia, Pa. Commercial Zone, as defined by the Commission, on the one hand, and, on the other, points in Pennsylvania, New Jersey, New York, Delaware, Maryland, and the District of Columbia. Harry J. Liederbach, 892 Second Street Pike, Richboro, Pa. 18954, attorney for applicants.

No. MC-FC-75885. By order entered August 1, 1975, the Motor Carrier Board approved the transfer to Massachusetts Interstate Freight Transfer, Incorporated, Dorchester, Mass., of the operating rights set forth in Certificate No. MC 41809 and Certificate of Registration No. MC 41809 (Sub-No. 2), both issued September 12, 1972, to George Green, doing business as MIFT, Dorchester, Mass., authorizing the transportation general commodities, with the usual exceptions, between points in Massachusetts. Timothy Francis Murphy, 587 Weld St., West Roxbury, Mass., attorney for applicants.

No. MC-FC-75963. By order of August 1, 1975, the Motor Carrier Board approved the transfer to Mariano Brothers, Incorporated, Danbury, Connecticut, of Certificates Nos. MC 80350 and MC 80350 Sub-No. 1, issued April 3, 1964, and January 8, 1971, to Moody Moving & Storage Company, Inc., Greenwich, Connecticut, authorizing the transportation of household goods between specified points in Connecticut, New York, New Jersey, Pennsylvania, Massachusetts, and Rhode Island. Paul J. Goldstein, 109 Church Street, New Haven, Conn. 06510, attorney for applicants.

No. MC-FC-75978. By order entered August 1, 1975, the Motor Carrier Board approved the transfer to John William Palmer, doing business as Palmer Distributing, Arco, Idaho, of the operating rights set forth in Permit No. MC 134152 (Sub-No. 1), issued April 2, 1975, to Motor Cargo, a corporation, Salt Lake City, Utah, authorizing the transportation of canned soft drinks, from Salt Lake City, Utah, to specified points in Colorado, Wyoming, Montana, and Nevada, under a continuing contract or contracts with Bonneville Canning Company. Robert Felton, Twelve Exchange Place, Salt Lake City, Utah 84111, attorney for applicants.

## IRREGULAR-ROUTE MOTOR COMMON CARRIERS OF PROPERTY

### Elimination of Gateway Applications

AUGUST 4, 1975.

The following applications to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's Gateway Elimination Rules (49 CFR 1065(d)(2)), and notice thereof to all interested persons is hereby given as provided in such rules.

Carriers having a genuine interest in an application may file an original and three copies of *verified statements* in opposition with the Interstate Commerce Commission within 30 days from the date of publication. (This procedure is outlined in the Commission's report and order in *Gateway Elimination*, 119 M.C.C. 530.) A copy of the verified statement in opposition must also be served upon applicant or its named representative. The verified statement should contain all the evidence upon which protestant relies in the application proceeding including a detailed statement of protestant's interest in the proposal. No rebuttal statements will be accepted.

No. MC 110525 (Sub-No. 1098–G) (Correction), filed June 4, 1974, and published in the FEDERAL REGISTER issue of June 3, 1975, and partially republished as corrected this issue. Applicant: CHEMICAL LEAMAN TANK LINES, INC., 520 East Lancaster Avenue, Downingtown, Pa. 19335. Applicant's representative: Thomas J. O'Brien (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (3) *Animal, vegetable, mineral and fish oil, chemicals, soap and soap products*, and *glycerin*, in bulk, in tank vehicles, from points in Pennsylvania east of a line beginning at the Pennsylvania-Maryland State Boundary line near Delta, Pa., and extending north through Lancaster, Pa. to the Pennsylvania-New York State Boundary line, to points in Rhode Island. The purpose of this filing is to eliminate the gateway at Newark, N.J. (99) *Liquid chemicals*, in bulk, in tank vehicles, from points in that part of New York on and south of a line beginning at the New York-Vermont State Boundary line and extending along New York Highway 7 to Binghamton, N.Y., and thence along U.S. Highway 11 to the New York-Pennsylvania State Boundary line (except New York, N.Y. and points in Nassau, Suffolk, and Westchester Counties, N.Y.), to points in Pennsylvania. The purpose of this filing is to eliminate the gateway at Carteret, N.J.

NOTE. The purpose of this partial republication is to indicate the correct destinations sought by the above requests for authority, which were inadvertently omitted in the original publication. The rest of the application remains as originally published.

### ELIMINATION OF GATEWAY LETTER NOTICES

AUGUST 4, 1975.

The following letter-notices of proposals to eliminate gateways for the purpose of reducing highway congestion, alleviating air and noise pollution, minimizing safety hazards, and conserving fuel have been filed with the Interstate Commerce Commission under the Commission's *Gateway Elimination* Rules (49 CFR 1065), and notice thereof to all interested persons is hereby given as provided in such rules.

An original and two copies of protests against the proposed elimination of any gateway herein described may be filed with the Interstate Commerce Commission on or before August 18, 1975. A copy must also be served upon applicant or its representative. Protests against the elimination of a gateway will *not* operate to stay commencement of the proposed operation.

Successively filed letter-notices of the same carrier under these rules will be numbered consecutively for convenience in identification. Protests, if any, must refer to such letter-notices by number.

No. MC 107012 (Sub-E87), filed June 3, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: Terry G. Fewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: New household kitchen appliances, uncrated (1) from points in Grafton, and Carroll, Counties, New Hampshire, to points in Lincoln, Ashe, Avery, Burke, Mecklenburg, Surry, Caldwell, Watauga, Wilkes, Yadkin, Catawba, Iredell, Cleveland, Gaston, Alleghany, Alexander, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Jackson, McDowell, Macon, Madison, Clay, Graham, Haywood, Henderson, Cherokee, Buncombe Counties, N.C., Lancaster, Keeshaw, Lee, Fairfield, Darlington, Chesterfield, Sumter, Richland, Marlboro, Lexington, Calhoun, Aiken, Newberry, Saluda, McCormick, Spartanburg, Union, York, Edgefield, Greenwood, Lamens, Chester, Cherokee, Berkeley, Colleton, Barnwell, Hampton, Orangeburg, Charleston, Beaufort, Dorchester, Jasper, Bamberg, Allendale, Ocomee, Greenville, Pickens, Abbeville, Anderson Counties, S.C.; Pocahontas, Monroe, Mercer, Wyoming, Summers, Raleigh, McDowell, Greenbrier, Mingo, Logan, Putnam, Wayne, Lincoln, Cabell, Boone Counties, W. Va.; (2) from points in Cheshire, Hillsboro, and Sullivan Counties, New Hampshire, to points in Gaston, Cleveland, Lincoln, Mecklenburg, Surry, Watauga, Wilkes, Iredell, Yadkin, Avery, Burke, Caldwell, Catawba, Alleghany, Alexander, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Graham, Haywood, Madison, Macon, McDowell, Jackson, Henderson, Buncombe, Clay, Cherokee Counties, N.C.; Sumter, Keeshaw, Lancaster, Richland, Marlboro, Lexington, Fairfield, Darlington, Lee, Chesterfield, Calhoun, Aiken, Newberry, Saluda, Spartanburg, Union, York, McCormick, Greenwood, Lamens, Edgefield, Chester, Cherokee, Pickens, Ocomee, Greenville, Anderson, Abbeville Counties, S.C.; Putnam, Logan, Mingo, Wayne, Cabell, Boone, Lincoln Counties, W. Va.

(3) From points in Coos County, New Hampshire, to points in Lincoln, Ashe, Avery, Caldwell, Mecklenburg, Surry, Watauga, Wilkes, Cleveland, Yadkin, Gaston, Catawba, Iredell, Burke, Alleghany, Alexander, Macon, Mitchell, Polk, Jackson, Rutherford, Swain, Transylvania, Yancey, McDowell, Madison, Henderson, Haywood, Clay, Graham, Cherokee, Buncombe Counties, N.C.; Keeshaw, Marlboro, Fairfield, Darlington, Chesterfield, Calhoun, Lexington, Lee, Lancaster, Sumter, Richland, Aiken, York, Newberry, Saluda, Spartanburg, McCormick, Chester, Edgefield, Greenwood, Lamens, Union Cherokee, Beaufort, Barnwell, Berkeley, Charleston, Colleton, Dorchester, Hampton, Jasper, Orangeburg, Bamberg, Allendale, Ocomee, Anderson, Pickens, Greenville, Abbeville, Buena Vist, Clif Forge, Covington, Danville, Galax, Lexington, Lynchburg, Martinsville, Norton, Radford, Roanoke, Salem, South Boston, Staunton, Amherst, Appomattox, Augusta, Bath, Bedford, Bland, Botetourt, Buchanan, Campbell, Carroll, Charlotte, Craig, Dickenson, Floyd, Franklin, Giles, Grayson, Wise, Wythe, Halifax, Henry, Bedford, Highland, Lee, Montgomery, Nelson, Patrick, Pitsylvania, Pulaski, Doanoke, Rockbridge, Russell, Scott, Bristol, Smyth, Tazewell, Washington, Alleghany Counties, Va.; Wyoming, Summers, Raleigh, Pocahontas, Monroe, Mercer, McDowell, Greenbrier, Wayne, Cabell, Lincoln, Putnam, Logan, Mingo, Boone Counties, W. Va.; (4) from points in Strafford, Belknap, Merrimack, Rockingham Counties, New Hampshire to points in Lincoln, Mecklenburg, Surry, Watauga, Wilkes, Yadkin, Gaston, Cleveland, Catawba, Iredell, Burke, Caldwell, Alleghany, Alexander, Avery, Ashe, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, McDowell, Macon, Madison, Haywood, Henderson, Jackson, Clay, Buncombe, Graham, Cherokee, Counties, N.C.; Keeshaw, Fairfield, Lancaster, Lee, Lexington, Marlboro, Sumter, Richland, Chesterfield, Calhoun, Darlington, Aiken, Newberry, Saluda, Spartanburg, Union, York, Lamens, McCormick, Greenwood, Chester, Cherokee, Edgefield, Pickens, Greenville, Anderson, Abbeville, Ocomee Counties, S.C.; Wyoming, Summers, Raleigh, Pocahontas, Monroe, Mercer, McDowell, Greenbrier, Wayne, Mingo, Pulaski, Rockcastle, Casey, Green, Counties, W. Va. The purpose of this filing is to eliminate the gateway of points in Tennessee.

No. MC 107012 (Sub-E88), filed June 3, 1974. Applicant: NORTH AMERICAN VAN LINES, INC., P.O. Box 988, Fort Wayne, Ind. 46801. Applicant's representative: Terry G. Fewell (same as above). Authority sought to operate as a *common carrier*, by motor vehicle, over

irregular routes, transporting: New household kitchen appliances, uncrated (1) from points in Bergen, Essex, Hudson, and Passaic Counties, N.J. to points in Georgia; Lincoln, Mecklenburg, Surry, Watauga, Wilkes, Yadkin, Catawba, Cleveland, Gaston, Iredell, Burke, Caldwell, Alexander, Alleghany, Avery, Mitchell, Polk, Rutherford, Swain, Transylvania, Yancey, Jackson, McDowell, Macon, Madison, Haywood, Henderson, Buncombe, Clay, Graham, Cherokee Counties, N.C.; Lexington, Marlboro, Lee, Keeshaw, Fairfield, Lancaster, Sumter, Richland, Aiken, Chesterfield, Darlington, Calhoun, Newberry, Saluda, Spartanburg, Union, York, Lamens, McCormick, Edgefield, Greenwood, Cherokee, Chester, Pickens, Greenville, Ocomee, Abberille, Anderson Counties, S.C.; Wayne, Putnam, Mingo, Cabell, Lincoln, Logan, Boone Counties, W. Va.; (2) from points in Morris, Sussex and Warren Counties, N.J., to points in Georgia; Lincoln, Mecklenburg, Surry, Watauga, Wilkes, Yadkin, Avery, Gaston, Iredell, Cleveland, Catawba, Burke, Caldwell, Ashe, Alexander, Alleghany, Mitchell, Polk, Rutherford, Swain, Macon, Madison, Transylvania, Yancey, McDowell, Jackson, Graham, Haywood, Henderson, Clay, Buncombe, Cherokee Counties, N.C.; Keeshaw, Lancaster, Lee, Fairfield, Darlington, Sumter, Lexington, Richland, Marlboro, Calhoun, Aiken, Chesterfield, Lamens, McCormick, Newberry, Union, Saluda, Spartanburg, Greenwood, York, Edgefield, Cherokee, Chester, Pickens, Ocomee, Anderson, Greenville, Abbeville Counties, S.C.; Wayne, Putnam, Logan, Mingo, Boone, Lincoln, Cabell Counties, W. Va.

[Notice 62]

## MOTOR CARRIER, BROKER, WATER CARRIER AND FREIGHT FORWARDER APPLICATIONS

AUGUST 1, 1975.

The following applications are governed by Special Rule 1100.247[1] of the Commission's general rules of practice (49 CFR, as amended), published in the FEDERAL REGISTER issue of April 20, 1966, effective May 20, 1966. These rules provide, among other things, that a protest to the granting of an application must be filed with the Commission within 30 days after date of notice of filing of the application is published in the FEDERAL REGISTER. Failure seasonably to file a protest will be construed as a waiver of opposition and participation in the proceeding. A protest under these rules should comply with section 247(d)(3) of the rules of practice which requires that it set forth specifically the grounds upon which it is made, contain a detailed statement of protestant's interest in the proceeding (including a copy of the specific portions of its authority which protestant believes to be in conflict with that sought in the application, and describing in detail the method—whether by joinder, interline, or other means—by which protestant would use such authority to provide all or part of the service proposed), and shall specify with particularity the facts, matters, and things relied upon, but shall not include issues or allegations phrased generally. Protests not in reasonable compliance with the requirements of the rules may be rejected. The original and one (1) copy of the protest shall be filed with the Commission, and a copy shall be served concurrently upon applicant's representative, or applicant if no representative is named. If the protest includes a request for oral hearing, such requests shall meet the requirements of section 247(d)(4) of the special rules, and shall include the certification required therein.

Section 247(f) of the Commission's rules of practice further provides that each applicant shall, if protests to its application have been filed, and within 60 days of the date of this publication, notify the Commission in writing (1) that it is ready to proceed and prosecute the application, or (2) that it wishes to withdraw the application, failure in which the application will be dismissed by the Commission.

Further processing steps (whether modified procedure, oral hearing, or other procedures) will be determined generally in accordance with the Commission's general policy statement concerning motor carrier licensing procedures, published in the FEDERAL REGISTER issue of May 3, 1966. This assignment will be by the Commission order which will be served on each party of record. Broadening amendments will not be accepted after the date of this publication except for good cause shown, and restrictive amendments will not be entertained following publication in the FEDERAL REGISTER of a notice that the proceeding has been assigned for oral hearing.

Evidence respecting how equipment is expected to be returned to an origin point, as well as other data relating to operational feasibility (including the need for dead-head operations), must be presented as part of an applicant's initial evidentiary presentation (either at oral hearing or in its opening verified statement under the modified procedure) with respect to all applications filed on or after December 1, 1973.

If an applicant states in its initial evidentiary presentation that empty or partially empty vehicle movements will result upon a grant of its application, applicant will be expected (1) to specify the extent of such empty operations, by mileages and the number of vehicles, that would be incurred, and (2) to designate where such empty vehicle operations will be conducted.

Each applicant (except as otherwise specifically noted) states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 931 (Sub-No. 11), filed July 8, 1975. Applicant: FALLS CITIES TRANSFER, INC., 1415 S. Clark Blvd., Jeffersonville, Ind. 47130. Applicant's representative: J. G. Dall, Jr., 1111 E St. NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except commodities in bulk, household goods as defined by the Commission, Classes A and B explosives, and articles requiring special equipment), between Louisville, Ky., on the one hand, and, on the other, points in Anderson, Breckenridge, Boyle, Bullitt, Carroll, Franklin, Grayson, Hancock, Hardin, Henry Jefferson, LaRue, Marion, Meade, Mercer, Nelson, Oldham, Shelby, Spencer, Trimble, and Washington Counties, Ky., and points in Clark, Crawford, Dubois, Floyd, Harrison, Jackson, Jefferson, Jennings, Orange, Perry, Scott, Spencer, and Washington Counties, Ind., restricted to the transportation of traffic moving in trailers provided by shippers, consignees, or railroads and having a prior or subsequent movement by rail in trailer-on-flatcar service to or from Louisville, Ky.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Louisville, Ky.

No. MC 2990 (Sub-No. 23), filed July 1, 1975. Applicant: BLUE ARROW-DOUGLAS, INC., 525 Burton Street NW., Grand Rapids, Mich. 48180. Applicant's representative: Robert A. Sullivan, P.O. Box 400, 22375 Haggerty Road, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods, as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite or facilities of Hendrickson Mfg. Co. located at or near Burr Ridge, Ill., as an off route point in connection with carriers regular route operations from and to Chicago, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Detroit, Mich., or Chicago, Ill.

No. MC 5888 (Sub-No. 40), filed July 14, 1975. Applicant: MID-AMERICAN LINES, INC., 127 W. 10th Street, 11th Floor, Kansas City, Mo. 64105. Applicant's representative: Louis A. Hoger (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the plantsite and other facilities of Minnesota Mining and Manufacturing Company located at or near Knoxville, Iowa as an off-route point in connection with applicant's otherwise authorized operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either St. Paul, Minn., or Des Moines, Iowa.

No. MC 16831 (Sub-No. 19), filed July 14, 1975. Applicant: MID SEVEN TRANSPORTATION COMPANY, a Corporation, 2323 Delaware Street, Des Moines, Iowa 50317. Applicant's representative: William L. Fairbank, 1980 Financial Center, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from the plantsite and facilities of Penn-Dixie Steel Corporation, at or near Centerville, Iowa, to points in Illinois, Indiana, Kansas, Minnesota, Missouri, Nebraska, South Dakota, and Wisconsin; and (2) *materials and supplies* used in the manufacture and distribution of iron and steel articles, from points in the states named in Part (1) above, to the plantsite and facilities of Penn-Dixie Steel Corporation at or near Centerville, Iowa. Restriction: The above authority is restricted against the transportation of commodities in bulk, and is restricted to shipments either originating at, or destined to, the plantsite and facilities of Penn-Dixie Steel Corporation at or near Centerville, Iowa.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 21455 (Sub-No. 38), filed June 26, 1975. Applicant: GENE MITCHELL CO., West Liberty, Iowa 52776. Applicant's representative: Kenneth F. Dudley, 611 Church Street, P.O. Box 279, Ottumwa, Iowa 52501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wheat products*, from ports of entry on the International Boundary line between the United States and Canada located at Grand Portage, Minn., and Champlain, N.Y., to points in the United States (except Alaska and Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Washington, D.C.

No. MC 22254 (Sub-No. 82), filed July 14, 1975. Applicant: TRANS-AMERICAN VAN SERVICE, INC., P.O. Box 12608, 12301 West Freeway, Fort Worth, Tex. 76116. Applicant's representative: John C. Bradley, 618 Perpetual Building, 1111 E. Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel cells, and fuel cell parts and accessories*, from Magnolia, Ark., to McConnell Air Force Base, at or near Wichita, Kans., and Tinker Air Force Base, at or near Oklahoma City, Okla.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Fort Worth, Tex., or Washington, D.C.

No. MC 22278 (Sub-No. 50), filed July 7, 1975. Applicant: TAKIN BROS. FREIGHT LINE, INC., 2125 Commercial Street, Waterloo, Iowa 50702. Applicant's representative: Paul Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B ex-

[1] Copies of Special Rule 247 (as amended) can be obtained by writing to the Secretary, Interstate Commerce Commission, Washington, D.C. 20423.

plosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), Serving the plantsite and other facilities of Minnesota Mining and Manufacturing Company at or near Knoxville, Iowa, as an off-route point in connection with applicant's otherwise authorized operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant does not specify a location.

No. MC 27500 (Sub-No. 11), filed July 7, 1975. Applicant: MISHAK TRUCK LINE, INC., 320 7th Avenue North, Clear Lake, Iowa 50428. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Self-propelled vehicles*, (b) *equipment, materials, and supplies*, designed for use in conjunction with self-propelled vehicles, (c) *parts and attachments*, for the commodities in (a) and (b) above, and (d) *aluminum extrusions;* and (2) equipment, materials, and supplies, used in the manufacture or distribution of the abovementioned products (except commodities in bulk), between points in Winnebago County, Iowa, on the one hand, and, on the other, points in Nebraska, Wisconsin, Illinois, Indiana, Michigan, and points in Ohio, on and west of a line commencing at Toledo, Ohio, thence south over U.S. Highway 23 to Columbus, Ohio, and thence southwest over Interstate Highway 70, to Cincinnati, Ohio, restricted to traffic originating at or destined to, the plant and warehouse facilities of Winnebago Industries, Inc., located in Winnebago County, Iowa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 27817 (Sub-No. 116), filed July 8, 1975. Applicant: H. C. GABLER, INC., R.D. #3, Chambersburg, Pa. 17201. Applicant's representative: Christian V. Graf, 407 North Front St., Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses (except commodities in bulk, frozen commodities, and canned and preserved foodstuffs), (1) between the plant site of Musselman Fruit Products, Division of Pet, Inc., located at Inwood, W. Va., on the one hand, and, on the other, points in Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Delaware, Maryland, Pennsylvania, Virginia, West Virginia, North Carolina, South Carolina, Ohio, and the District of Columbia; and (2) between the plant site of Musselman Fruit Products, Division of Pet, Inc., located at Biglerville and Gardners, Pa., on the one hand, and, on the other, points in Connecticut, Massachusetts, Rhode Island, New York, New Jersey, Delaware, Maryland, Pennsylvania, Virginia, West Virginia, North Carolina, South Carolina, and the District of Columbia, restricted to the transportation of shipments originating at the above origins and destined to the abovenamed states.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Harrisburg, Pa., or Washington, D.C.

No. MC 28478 (Sub-No. 44), filed July 8, 1975. Applicant: GREAT LAKES EXPRESS CO., a Corporation, 1150 North Niagara Street, Saginaw, Mich. 48602. Applicant's representative: Robert A. Sullivan, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the plantsite or the facilities of Hendrickson Manufacturing Company located at or near Burr Ridge, Ill., as an off-route point in connection with carrier's regular route operations from and to Chicago, Ill.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Detroit, Mich., or Chicago, Ill.

No. MC 29130 (Sub-No. 106), filed July 10, 1975. Applicant: THE ROCK ISLAND MOTOR TRANSIT COMPANY, a Corporation, 2744 SE. Market Street, P.O. Box 1355, Des Moines, Iowa 50305. Applicant's representative: Bruce C. Spitzer, LaSalle Street Station, 139 West Van Buren Street, Chicago, Ill. 60605. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plantsite and other facilities of Minnesota Mining and Manufacturing Company at or near Knoxville, Iowa, as an off-route point in connection with applicant's regular-route operations.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Des Moines, Iowa; Minneapolis or St. Paul, Minn.

No. MC 30280 (Sub-No. 67) (Amendment), filed June 2, 1975, published in the FEDERAL REGISTER issue of July 3, 1975, and republished as amended this issue. Applicant: WATKINS CAROLINA EXPRESS, INC., 1940 Monroe Drive NE., Atlanta, Ga. 30306. Applicant's representative: Paul M. Daniell, P.O. Box 872, Atlanta, Ga. 30301.

NOTE.—The sole purpose of this partial republication is to amend the restrictions in part (2) and (3) to read as follows: (2) Service at points in North Carolina west of U.S. Highway 25 restricted to traffic moving from, to or through South Carolina or Georgia other than those points within 15 miles of Atlanta. (3) Service at points in North Carolina east of a line formed by U.S. Highway 1 extending from the North Carolina-Virginia State Line to its junction with U.S. Highway 158, thence along U.S. Highway 158 to Warrenton, N.C., thence along North Carolina Highway 58 to Wilson, N.C., thence along U.S. Highway 301 to its junction with U.S. Highway 117, thence along U.S. Highway 117 to Wilmington, N.C., thence along U.S. Highway 421 to Fort Fisher, N.C., and the Atlantic Ocean restricted to the transportation of traffic moving from, to or through points in South Carolina or those in Georgia other than those within 15 miles of Atlanta. The rest of the application remains the same. If a hearing is deemed necessary, the applicant requests it be held at Atlanta, Ga.

No. MC 30844 (Sub-No. 546), filed July 7, 1975. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, P.O. Box 5000, Waterloo, Iowa 50702. Applicant's representative: Paul Rhodes (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and preserved foodstuffs*, from Bowling Green, Fremont, and Toledo, Ohio, to points in Minnesota, North Dakota, and South Dakota, restricted to shipments originating at the facilities of H. J. Heinz located at the above named origins and destinations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant does not specify location.

No. MC 35469 (Sub-No. 45), filed June 16, 1975. Applicant: MODERN TRANSFER CO., INC., P.O. Box 2008, Allentown, Pa. 18105. Applicant's representative: Christian V. Graf, 407 North Front St., Harrisburg, Pa. 17101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, commodities requiring special equipment), (1) Between Youngstown, Ohio, and Baltimore, Md., serving no intermediate points: From Youngstown, Ohio, over Ohio State Highway 7 to junction Interstate Highway 80S, thence over Interstate Highway 80S to junction Interstate Highway 76, thence over Interstate Highway 76 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 70N, thence over Interstate Highway 70N to Baltimore, Md., and return over the same route; and (2) between Pittsburgh, Pa., and Baltimore, Md., serving intermediate and off-route points in Pennsylvania within 30 miles of the City-County Building in Pittsburgh, Pa.: (a) From Pittsburgh, Pa., over Interstate Highway 76 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 70N, thence over Interstate Highway 70N to Baltimore, Md., and return over the same route; and (b) From Pittsburgh, Pa., over U.S. Highway 30 to junction Interstate Highway 70, thence over Interstate Highway 70 to junction Interstate Highway 70N, thence over Interstate Highway 70N to Baltimore, Md., and return over the same route.

NOTE.—The purpose of this filing is to eliminate the gateway Allentown, Pa. If a hearing is deemed necessary, the applicant requests it be held at either Harrisburg, Pa., or Washington, D.C.

No. MC 51146 (Sub-No. 439), filed July 14, 1975. Applicant: SCHNEIDER

TRANSPORT, INC., 2661 South Broadway, Green Bay, Wis. 54304. Applicant's representative: Neil A. DuJardin, P.O. Box 2298, Green Bay, Wis. 54306. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise as is dealt in by discount and variety stores* (except foodstuffs, furniture, and commodities in bulk); and (2) *foodstuffs* (except in bulk) and *furniture*, in mixed loads with the commodities in (1) above, from the facilities of U.S. Packing and Shipping Co., Inc. located at Jersey City, N.J., to points in North Carolina, South Carolina, Georgia, Alabama, and Florida, restricted to traffic originating at the facilities of U.S. Packing and Shipping Co. located at Jersey City, N.J. and destined to the above-named destination points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Chicago, Ill.

No. MC 52473 (Sub-No. 10), filed July 8, 1975. Applicant: BEHNKE, INC., 77 South Monroe St., Battle Creek, Mich. 49014. Applicant's representative: Karl L. Gotting, 1200 Bank of Lansing Bldg., Lansing, Mich. 48933. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Plastic articles*, from Battle Creek, Mich., to points in Ohio, Illinois and Minnesota and to Lafayette and Connersville, Ind., and Chicago, Ill., under a continuing contract or contracts with United Steel & Wire Company, located at or near Battle Creek, Mich.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Lansing or Detroit, Mich.

No. MC 52657 (Sub-No. 729), filed June 30, 1975. Applicant: ARCO AUTO CARRIERS, INC., 2140 West 79th Street, Chicago, Ill. 60620. Applicant's representative: S. J. Zangri (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers and trailer chassis* (except those designed to be drawn by passenger automobiles), in initial movements, in truckaway service, and *materials supplies and parts* (except commodities in bulk) used in the manufacture, assembly or servicing of commodities described above, when moving in mixed shipments and on the same load with such commodities, from Northumberland, Pa., to points in the United States, including Alaska, but excluding Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Washington, D.C., or Harrisburg, Pa.

No. MC 52752 (Sub-No. 25), filed July 7, 1975. Applicant: WESTERN TRANSPORTATION COMPANY, 1300 West 35th St., Chicago, Ill. 60609. Applicant's representative: Allan C. Zukerman, 39 South LaSalle St., Chicago, Ill. 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment), serving the plant site and facilities of Minnesota Mining and Manufacturing Company located at or near Knoxville, Iowa, as an off-route point in connection with applicant's otherwise authorized operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Des Moines, Iowa.

No. MC 55896 (Sub-No. 47), filed July 17, 1975. Applicant: R–W SERVICE SYSTEM, INC., 20225 Goddard Road, Taylor, Mich. 48180. Applicant's representative: Martin J. Leavitt, 22375 Haggerty Road, P.O. Box 400, Northville, Mich. 48167. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Asphalt roofing, cement and siding*, from the plantsite of Globe Industries, Inc., located at or near Whiting, Ind., to points in Illinois and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Washington, D.C.

No. MC 57880 (Sub-No. 15), filed July 7, 1975. Applicant: ASHTON TRUCKING CO., P.O. Box 472, 1201 North Broadway, Monte Vista, Colo. 81144. Applicant's representative: Leslie R. Kehl, 1660 Lincoln St., Lincoln Center Bldg., Suite 1600, Denver, Colo. 80203. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal feed*, between Fort Lupton, Colo., on the one hand, and, on the other, points in Texas and Wyoming.

NOTE.—Applicant holds motor contract carrier authority in MC 62538 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 60271 (Sub-No. 8), filed July 9, 1975. Applicant: HARPER TRUCK LINE, INC., P.O. Box 288, Monroe, La. 71201. Applicant's representative: W. C. Littleton (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood sawdust, chips and shavings* (wood residuals), from Winnfield, La., to Crossett, Ark.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Monroe, Shreveport, Baton Rouge, or New Orleans, La.

No. MC 61440 (Sub-No. 151), filed July 3, 1975. Applicant: LEE WAY MOTOR FREIGHT, INC., 3000 West Reno, Oklahoma City, Okla. 73108. Applicant's representative: Richard H. Champlin (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Interstate Commerce Commission, commodities in bulk and those requiring special equipment), serving the plant site and other facilities of Minnesota Mining and Manufacturing Company at or near Knoxville, Iowa as an off-route point in connection with applicant's otherwise authorized regular route operations.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Minneapolis, Minn. or Washington, D.C.

No. MC 65781 (Sub-No. 5), filed July 9, 1975. Applicant: DAWN MOVING & STORAGE COMPANY, INC., 6009 Wayzata Blvd., Minneapolis, Minn. 55416. Applicant's representative: Andrew R. Clark, 1000 First Nat'l Bank Bldg., Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Household goods*, as defined by the Commission, between points in Minnesota, Wisconsin, and points in Illinois on and north of Interstate Highway 80, on the one hand, and, on the other, points in North Carolina, South Carolina, Arkansas, Mississippi, Texas, and Louisiana.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn., or Chicago, Ill.

No. MC 69224 (Sub-No. 43), filed July 9, 1975. Applicant: H & W MOTOR EXPRESS COMPANY, 3000 Elm St., P.O. Box 837, Dubuque, Iowa 52001. Applicant's representative: James E. Ballenthin, 630 Osborn Bldg., St. Paul, Minn. 55102. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, classes A and B explosives, household goods as defined by the Commission, commodities in bulk and those requiring special equipment), serving the plant site and other facilities of Minnesota Mining and Manufacturing Company located at or near Knoxville, Iowa as an off-route point, in connection with otherwise authorized operations.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Des Moines, Iowa, or St. Paul, Minn.

No. MC 75320 (Sub-No. 181), filed July 7, 1975. Applicant: CAMPBELL SIXTY-SIX EXPRESS, INC., P.O. Box 807, Springfield, Mo. 65801. Applicant's representative: John A. Crawford, P.O. Box 22567, Jackson, Miss. 39205. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fibrous glass products and materials; mineral wool, mineral wool products and materials; insulated air ducts and insulating products and materials, including products necessary in the installation of all of said products* (except commodities in bulk), from the plantsite and other facilities of Certainteed Products Corp., at or near Kansas City, Kans., to points in Arkansas, Louisiana, Mississippi, Oklahoma, Tennessee, and Texas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Kans.

No. MC 76266 (Sub-No. 127), filed July 3, 1975. Applicant: ADMIRAL-MERCHANTS MOTOR FREIGHT, INC., 215 South 11th Street, Minneapolis, Minn. 55403. Applicant's representative: Cecil

AUG 7 75

L. Goettsch, 11th Floor, Des Moines Bldg., Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Iron and steel articles*, from the plant site and storage facilities of North Star Steel Company, located at or near Wilton, Iowa, to points in the United States (except Hawaii); and (2) *materials, equipment, and supplies* used in the manufacture and distribution of iron and steel articles, from points in the states named in Part (1) above, to the plant site and storage facilities of North Star Steel Company, located at or near Wilton, Iowa, restricted to traffic originating at and destined to the above named points.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Paul, Minn.

No. MC 80430 (Sub-No. 156), filed July 7, 1975. Applicant: GATEWAY TRANSPORTATION CO., INC., 455 Park Plaza Drive, La Crosse, Wis. 54601. Applicant's representative: F. Neil Aschemeyer (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities* (except those of unusual value, Classes A and B explosives, household goods as defined by the Commission, commodities in bulk, and those requiring special equipment). Serving the plantsite and other facilities of Minnesota Mining & Manufacturing Company at or near Knoxville, Iowa, as an off-route point in connection with applicant's authorized regular route operations between Mt. Pleasant, Iowa, and Des Moines, Iowa.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Des Moines, Iowa; Chicago, Ill.; or Washington, D.C.

No. MC 82063 (Sub-No. 62), filed July 16, 1975. Applicant: KLIPSCH HAULING CO., a Corporation, 119 E. Loughborough, St. Louis, Mo. 63111. Applicant's representative: Ernest A. Brooks II, 1301 Ambassador Bldg., St. Louis, Mo. 63101. NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Pomona, Calif., or Los Angeles, Calif.

No. MC 133119 (Sub-No. 70), filed July 7, 1975. Applicant: HEYL TRUCK LINES, INC., 235 Mill St., P.O. Box 206, Akron, Iowa 51001. Applicant's representative: A. J. Swanson, 521 South 14th St., P.O. Box 81849, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Glass beads, glass spheres and thermo plastic marking material;* and (2) *equipment, materials, and supplies* used in the application of the commodities named in (1) above (except commodities in bulk), from Jackson, Miss., to points in Arkansas, Illinois, Indiana, Iowa, Kansas, Kentucky, Michigan, Minnesota, Missouri, Montana, Nebraska, North Dakota, Oklahoma, South Dakota, and Wisconsin.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Omaha, Nebr., or Jackson, Miss.

No. MC 133703 (Sub-No. 6), filed July 17, 1975. Applicant: WISCONSIN CHEESE SERVICE, INC., 770 Springdale Road, P.O. Box 337, Waukesha, Wis. 53187. Applicant's representative: Frank M. Coyne, 25 West Main Street, Madison, Wis. 53703. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cheese*, from Rochester, Minn., to points in the United States (except Alaska and Hawaii), under a continuing contract or contracts with Milwaukee Cheese Company located at Waukesha, Wis.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Madison, Wis.

No. MC 134323 (Sub-No. 76), filed July 7, 1975. Applicant: JAY LINES, INC., P.O. Box 4146, 720 North Grand, Amarillo, Tex. 79105. Applicant's representative: Gailyn Larsen, 521 South 14th, Lincoln, Nebr. 68501. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Household appliances*, furnaces, and attachments and materials, parts, and supplies used in the manufacture, production, and distribution of household appliances, furnaces, and attachments, between the plant site and facilities of Fedders Corporation, its divisions, and subsidiaries, at or near Edison, N.J., and points in Tennessee, Kentucky, South Carolina, North Carolina, and Ohio, under a continuing contract or contracts with Fedders Corporation.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Edison, N.J., or Amarillo, Tex.

No. MC 134755 (Sub-No. 54) (Amendment), filed May 1, 1975, published in the FEDERAL REGISTER issue of June 5, 1975, and republished as amended this issue. Applicant: CHARTER EXPRESS, INC., 1959 E. Turner Street, P.O. Box 3772, Springfield, Mo. 65804. Applicant's representative: Larry D. Knox, 900 Hubbell Building, Des Moines, Iowa 50309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Lime juice, bloody mary mixes, and grenadine syrups* (except in bulk), from Warwick, R.I., to points in Texas, Oklahoma, Nebraska, Colorado, Illinois, Missouri, Kansas, Iowa, Indiana, Arkansas, Mississippi, North Carolina, Georgia, Alabama, Ohio, Wisconsin, California, Washington, Oregon, New Mexico, and Arizona.

NOTE.—The purpose of this republication is to indicate Warwick, R.I. as the origin point in lieu of Jefferson, R.I. Applicant holds contract carrier authority in MC 138398 and subs thereunder pending, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Hartford, Conn., or Boston, Mass.

No. MC 135217 (Sub-No. 2), filed July 1, 1975. Applicant: ELBERT STAGGS, Route 1, Unionville, Mo. 63565. Applicant's representative: N. William Phillips, 103 North Market, Milan, Mo. 63556. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Sand, lime, rock, and coal* in bulk, between points in Putnam, Mercer, Schuyler, Adair, and Sullivan Counties, Mo., on the one hand, and, on the other, points in Davis, Appanoose, and Wayne Counties, Iowa.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Kansas City, Mo., or Des Moines, Iowa.

No. MC 135396 (Sub-No. 2), filed June 30, 1975. Applicant: WESTERN TANK LINES, INC., 19059 15th NW., P.O. Box 55, Richmond Beach, Wash. 98160. Applicant's representative: Robert G. Gleason, 15 South Grady Way, Evergreen Bldg., Suite 216, Renton, Wash. 98055. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bulk liquid commodities*, from Wilma, Wash., to Lewiston, Idaho, and its commercial zone and points in Asotin, Garfield, Grant, Columbia, and Whitman Counties, Wash.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Seattle, Wash.

No. MC 135750 (Sub-No. 6), filed July 7, 1975. Applicant: COALE TRUCK TRANSPORT, INC., Darlington Road, U.S. Route 161, P.O. Box 135, Darlington, Md. 21034. Applicant's representative: Robert J. Carson, 1700 One Charles Center, Baltimore, Md. 21201. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Butter* (either alone or in conjunction with exempt agricultural commodities), (1) from Flushing, Ohio, including the commercial zones thereof, to points in New York (except Buffalo and New York City) and points in New Jersey (except Port Newark), and (2) from points in Illinois, Indiana, Iowa, Maryland, Michigan, New Jersey, New York, Pennsylvania, and Wisconsin, to Flushing, Ohio, and its commercial zones, under a continuing contract or contracts with Cloverdale Dairy, Inc., located at or near Flushing, Ohio.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Baltimore, Md.

No. MC 136220 (Sub-No. 22), filed June 20, 1975. Applicant: ROY SULLIVAN, doing business as SULLIVAN TRUCKING CO., 1705 NE. Woodland, Ponca City, Okla. 74601. Applicant's representative: G. Timothy Armstrong, Suite 200, 6161 N. May Avenue, Oklahoma City, Okla. 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum coke* (except in bulk in tank vehicles), (1) from Texas City, Port Arthur, and Houston, Tex., to points in Calcasieu Parish, La.; and (2) from Houston, Tex., to Port Arthur, Tex., restricted in (2) above to traffic having a subsequent interstate movement.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Oklahoma City, Okla., or Houston, Tex.

No. MC 136330 (Sub-No. 1), filed July 14, 1975. Applicant: JERRY L. NIEDENS, doing business as NIEDENS CUSTOM SERVICE, Route 2, Wakeeney, Kans. 67672. Applicant's representative: C. Zimmerman, 413 Brown Bldg., Wichita, Kans. 67202. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Metal buildings, unassembled or knocked down, or in sections*, from Houston, Tex., to points in Idaho, under contract with Idaho Building Systems, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Wichita, Kans.; Denver, Colo.; or Topeka, Kans.

No. MC 136408 (Sub-No. 29), filed July 8, 1975. Applicant: CARGO CONTRACT CARRIER CORP., P.O. Box 206, U.S. Highway 20, Sioux City, Iowa 51102. Applicant's representative: William J. Hanlon, 60 Park Place, Newark, N.J. 07102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Chemicals* (except in bulk, in tank vehicles), from Springfield, Bircham Bend, Ludlow, and Everett, Mass., to points in Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, Ohio, and Wisconsin, restricted to a transportation service to be performed under a continuing contract or contracts with Monsanto Company of St. Louis, Mo.

NOTE.—Applicant holds common carrier authority in MC 140829 and Subs 1 and 2 pending, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at St. Louis, Mo., or Washington, D.C.

No. MC 138018 (Sub-No. 23), filed July 10, 1975. Applicant: REFRIGERATED FOODS, INC., 1420 33d Street, Denver, Colo. 80205. Applicant's representative: Joseph W. Harvey (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Filters, and cleaning, polishing, and scouring compounds*, from Denver, Colo., to points in Arizona, California, Idaho, Montana, Nevada, Oregon, Utah, and Washington.

NOTE.—Applicant holds contract carrier authority in MC 124377 (Sub-No. 3), and other subs, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 138157 (Sub-No. 20), filed July 9, 1975. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., doing business as SOUTHWEST MOTOR FREIGHT, 4284 Mission Blvd., Pomona, Calif. 91769. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lighting fixtures*, (a) from Cochran, Ga., to points in Alabama, Connecticut, Delaware, District of Columbia, Florida, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin; and (b) from Conyers, Ga., to points in Alabama, Connecticut, Delaware, District of Columbia, Florida, Illinois, Indiana, Maine, Maryland, Massachusetts, Michigan, New Hampshire, New Jersey, New York, North Carolina, Ohio, Pennsylvania, Rhode Island, South Carolina, Tennessee, Vermont, Virginia, West Virginia, and Wisconsin; and (2) *materials, equipment, and supplies* used in the manufacture and distribution of the commodities named in (1) above, from the destination states named in (1) above to the plantsite of the Lithonia Lighting Division of National Service Industries, Inc., located at or near Cochran and Conyers, Ga., restricted to traffic originating at or destined to the plantsites of Lithonia Lighting Division of National Service Industries, Inc., located at or near Cochran and Conyers, Ga., and further restricted against the transportation of commodities in bulk.

NOTE.—Applicant holds contract carrier authority in MC 134150 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Atlanta, Ga., or Washington, D.C.

No. MC 138157 (Sub-No. 21), filed July 9, 1975. Applicant: SOUTHWEST EQUIPMENT RENTAL, INC., doing business as SOUTHWEST MOTOR FREIGHT, 4284 Mission Blvd., Pomona, Calif. 91769. Applicant's representative: Patrick E. Quinn, 605 South 14th Street, P.O. Box 82028, Lincoln, Nebr. 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lighting fixtures*, from Crawfordsville, Ind., to points in the United States (except Alaska and Hawaii); and (2) *materials, equipment, and supplies* used in the manufacture and distribution of lighting fixtures, from points in the United States (except Alaska and Hawaii), to Crawfordsville, Ind., restricted to traffic originating at or destined to the plantsite of Lithonia Division of National Service Industries, Inc., located at or near Crawfordsville, Ind., and further restricted against the transportation of commodities in bulk.

NOTE.—Applicant holds contract carrier authority in MC 134150 and subs thereunder, therefore dual operations may be involved. If a hearing is deemed necessary, the applicant requests it be held at either Chicago, Ill., or Atlanta, Ga.

No. MC 139117 (Sub-No. 3), filed July 10, 1975. Applicant: STANLEY AMSDEN TRUCKING, doing business as GENERAL DELIVERY, Centerville, Mo. 63633. Applicant's representative: Stanley Amsden (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wood chips* in bulk, from points in Dent and Reynolds Counties, Mo., to the plant site of West Virginia Pulp Paper Company located at or near Wickliffe, Ky.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at St. Louis, or Jefferson City, Mo.

No. MC 139246 (Sub-No. 2), filed July 14, 1975. Applicant: LEON JONES FEED & GRAIN, INC., Route 3, Cumming, Ga. 30130. Applicant's representative: Frank D. Hall, Suite 713, 3384 Peachtree Rd. NE., Atlanta, Ga. 30326. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Feed*, in bags, from Chamblee, Ga., to Jacksonville and Riviera Beach, Fla.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga., or Washington, D.C.

No. MC 139495 (Sub-No. 80), filed July 8, 1975. Applicant: NATIONAL CARRIERS, INC., 1501 East 8th Street, P.O. Box 1358, Liberal, Kans. 67901. Applicant's representative: Herbert Alan Dubin, 1819 H Street NW., Washington, D.C. 20006. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Batteries*, from the facilities utilized by Eltra Corporation located at or near Reading and Temple, Pa., to Sidney, Nebr., Oklahoma City, Okla., El Segundo, Calif., and points in Iowa; (2) *materials and supplies* used in the manufacture or distribution of batteries, from the facilities utilized by Eltra Corporation located at or near Hughesville, N.J., to the facilities utilized by Eltra Corporation located at or near Reading and Temple, Pa., Sidney, Nebr., Oklahoma City, Okla., El Segundo, Calif., and Manchester, Iowa; and (3) *copper wire*, from Hazleton, Pa., to points in Iowa, Nebraska, and California.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Washington, D.C.

No. MC 139935 (Sub-No. 3), filed July 3, 1975. Applicant: WOLF TRUCKING, INC., Ault, Colo. 80610. Applicant's representative: Robert G. Burroughs, 115 Second Avenue, Ault, Colo. 80610. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Hides, green and slated, sheep and cattle skins only*, from Torrington, Wyo., to Houston, Amarillo, Dallas, Abernathy, and Laredo, Tex.; Oakland and Long Beach, Calif.; Solomon, Kans.; Portland, Oreg.; Denver, Colo.; and Boise, Idaho, under a continuing contract or contracts with John Rueb Associates.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Denver, Colo.

No. MC 139973 (Sub-No. 2) (Amendment), filed May 2, 1975, published in the FEDERAL REGISTER issue of June 5, 1975, and republished as amended this issue. Applicant: J. H. WARE TRUCKING, INC., 909 Brown Street, P.O. Box 398, Fulton, Mo. 65251. Applicant's representative: Larry D. Knex, 900 Hubbell Bldg., Des Moines, Iowa 50309. No. MC 141021 (Correction), filed May 2, 1975, published in the FEDERAL REGISTER issue of July 3, 1975, and republished as corrected in this issue. Applicant: PETROLEUM TRANSPORT COMPANY, INCORPORATED, P.O. Drawer 1080, Kenner, La. 70062. Applicant's representative: Rene Jacomine (Same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Petroleum* products, in bulk, in tank vehicles, between points in Louisiana and Mississippi, and points in Orange, Jefferson, Chambers, Galveston, Harris, and Liberty Counties, Tex.

NOTE.—The purpose of this republication is to correct the territorial description in this proceeding. Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either New Orleans, La. or Houston, Tex.

No. MC 141033 (Sub-No. 2), filed July 7, 1975. Applicant: CONTINENTAL CONTRACT CARRIER CORP., 15045 East Salt Lake Ave., P.O. Box 1257, City of Industry, Calif. 91749. Applicant's representative: James I. Mendenhall (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rolls carpet or rug cushions, cushioning or lining*, made of reclaimed polyurethane and reclaimed rubber, celluar expanded or foamed, from Shelbyville, Tenn., to points in the United States (except Alaska and Hawaii); and (2) *returned shipments* of rolls carpet or rug cushions, cushioning or lining, made of reclaimed polyurethane and reclaimed rubber, celluar expanded, or foamed, and materials, equipment, and supplies used in the manufacture and distribution of these commodities from the above-described destinations to the above described origin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Memphis, Tenn., or Washington, D.C.

No. MC 141033 (Sub-No. 3), filed July 7, 1975. Applicant: CONTINENTAL CONTRACT CARRIER CORP., 15045 East Salt Lake Ave., P.O. Box 1257, City of Industry, Calif. 91749. Applicant's representative: James I. Mendenhall (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Rolls carpet or rug cushions, cushioning or lining*, made of reclaimed polyurethane and reclaimed rubber, celluar expanded or foamed, from Dallas, Tex., to points in the United States (except Alaska and Hawaii); and (2) *returned shipments* of rolls carpet or rug cushions, cushioning or lining, made of reclaimed polyurethane and reclaimed rubber, celluar expanded, or foamed, and materials, equipment, and supplies used in the manufacture and distribution of these commodities from the above-described destination to the above described origin.

NOTE.—Common control may be involved. If a hearing is deemed necessary, applicant requests it be held at either Memphis, Tenn., or Washington, D.C.

No. MC 141092, filed June 26, 1975. Applicant: ELMER R. HOPKINS AND NORMA K. HOPKINS, doing business as HOPKINS TRUCK LINE, R.R. No. 1, Garden City, Mo. 64747. Applicant's representative: Frank W. Taylor, Jr., 1221 Baltimore Avenue, Kansas City, Mo. 64105. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Grain feed, salt, seed and feed ingredients*, in bulk, between points in Missouri, Iowa, Oklahoma, Kansas, Nebraska, and Arkansas.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Kansas City, Mo.

No. MC 141127, filed June 27, 1975. Applicant: WARREN D. FLETCHER, Box 209, Midland, Va. 22728. Applicant's representative: Daniel B. Johnson, 1123 Munsey Building, 1329 E Street NW., Washington, D.C. 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Crushed stone*, from points in Fauquier, Loudoun, Prince William, and Fairfax Counties, Va., to points in Montgomery and Prince Georges Counties, Md. and the District of Columbia.

NOTE.—Applicant holds motor contract authority in MC 136866 (Sub-No. 1), which partially duplicates the authority sought herein. If the above authority is granted, applicant states that it will request cancellation of said permit. If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 141131, filed July 7, 1975. Applicant: THE BIRGE COMPANY, INC., 421 East 16th St., Paterson, N.J. 07547. Applicant's representative: George A. Olsen, 69 Tonnele Ave., Jersey City, N.J. 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Wall coverings, and equipment, materials, and supplies*, used in the manufacture and sale of wall coverings (except commodities in bulk), (1) between Buffalo, N.Y., and Eatontown, N.J., on the one hand, and, on the other, points in New York, New Jersey, and Massachusetts; and (2) between Brooklyn, N.Y., on the one hand, and, on the other, points in Massachusetts, under continuing contract or contracts with The Birge Company, Inc.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at New York, N.Y., or Washington, D.C.

No. MC 141132, filed July 10, 1975. Applicant: MARINE EXPLORATION COMPANY, INCORPORATED, 2995 Northwest South River Drive, Miami, Fla. 33125. Applicant's representative: Bernard C. Pestcoe, 511 Biscayne Building, 19 West Flagler St., Miami, Fla. 33130. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *General commodities* (except those of unusual value, dangerous explosives, and household goods as defined in *Practices of Motor Common Carriers of Household Goods*, 17 M.C.C. 467, and those commodities injurious or contaminating to other lading), between points in Dade, Broward, and Palm Beach Counties, Fla., on shipments having a prior or subsequent movement by water, under contract with Universal Alco, Ltd.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Miami, Fla. or Washington, D.C.

No. MC 141136, filed June 30, 1975. Applicant: TRIANGLE EXPRESS, LTD., 5051 Still Creek Avenue, Burnaby, British Columbia V5C 4H6. Applicant's representative: George H. Hart, 1100 IBM Bldg., Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Structural steel and iron and steel articles*, between the Province of British Columbia, Canada, on the one hand, and on the other, points in Washington, Oregon, and California, through ports of entry on the International boundary line between the United States and Canada located in British Columbia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at either Seattle, Wash. or Vancouver, British Columbia.

No. MC 141145 (Sub-No. 1), filed July 14, 1975. Applicant: REYNOLDS & COMPANY, INC., No. 1 Railroad Avenue, P.O. Box 227, Waynesboro, Ga. 30830. Applicant's representative: Archie B. Culbreth, Suite 246, 1252 West Peachtree St., NW., Atlanta, Ga. 30309. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Fuel material for power plants, consisting of sawmill waste* (bark, wood chips, wood shavings, wood particles and sawdust mixed), from points in Georgia, to points in Alabama, Florida, Georgia, North Carolina, South Carolina, Tennessee, and Virginia.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Atlanta, Ga.

No. MC 141150, filed July 10, 1975. Applicant: ATLAS WAREHOUSING COMPANY, a corporation, 510 West Kearsley St., P.O. Box 3551, Flint, Mich. 48506. Applicant's representative: Karl L. Gotting, 1200 Bank of Lansing Building, Lansing, Mich. 48933. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) *Such merchandise* as is dealt in by retail department stores: (a) from Saginaw and Flint, Mich., to stores of S. S. Kresge Company located in Owosso, Corunna, Midland, and Mt. Pleasant, Mich. and points in their respective commercial zones; and (b) from Flint, Mich., to stores of S. S. Kresge Company in Saginaw, Mich. and points in its commercial zone; and (2) *rejected or damaged merchandise*, on return in (1) and (2) above, under a continuing contract or contracts with S. S. Kresge Company.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Lansing or Detroit, Mich.

No. MC 141152, filed July 11, 1975. Applicant: JAMES H. FUNCH, doing business as JAMES FUNCH TRUCKING, 2750 North Polk Avenue, Fresno, Calif. 93705. Applicant's representative: Eldon M. Johnson, 650 California Street, Suite 2808, San Francisco, Calif. 94108. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Shingles, shakes, and ridge*, from points in Washington, to points in Arizona, California, and New Mexico.

NOTE.—Applicant states that the purpose of the instant application is to convert its contract carrier authority held in MC 133291 (Sub-Nos. 1, 2TA, and pending Sub-No. 3) to common carrier authority. If a hearing is deemed necessary, the applicant requests it be held at Seattle Wash., or San Francisco, Calif.

No. MC 141158, filed July 14, 1975. Applicant: RONALD DEAN CLINKENBEARD, 680 South Burlington Ave., Apt. No. 116, Los Angeles, Calif. 90057. Applicant's representative: Jerry Solomon Berger, 9454 Wilshire Blvd., Penthouse, Beverly Hills, Calif. 90212. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Plastic or cloth material*, used on and in the upholstery or interior covering of motor vehicles; and (2) *materials, accessories, or supplies*, necessary for the manufacture, fabrication, and installation thereof, from points in Massachusetts, Michigan, New Jersey, and New York, to points in Los Angeles County, Calif.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles, Calif.

No. MC 141160, filed July 14, 1975. Applicant: NEWTON TRANSPORTATION, INC., R.D. No. 1, Orwigsburg, Pa. 17961. Applicant's representative: Kenneth R. Davis, 121 South Main Street, Taylor, Pa. 18517. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: (1) (a) *Wire and cable*, from Pottsville, Pa., to points in the United States (except

Alaska and Hawaii); and (b) *materials and supplies*, used in the manufacture and distribution of wire and cable, from the destination points named in (1) (a) above to Pottsville, Pa. under a continuing contract with Cadillac Cable Corp.; (2) (a) *plastic manufacturing compounds*, from Frackville, Pa., to points in the United States on and east of a line beginning at the mouth of the Mississippi River and extending along the Mississippi River to its junction with the western boundary of Itasca County, Minn., thence northward along the western boundaries of Itasca and Koochiching Counties, Minn., to the international Boundary line between the United States and Canada; and (b) *materials and supplies*, used in the manufacture and distribution of plastic manufacturing compounds from the destination points in (2) (a) above, to Frackville, Pa., under a continuing contract with Gerwain Chemical Corp.; and (3) *discarded photographic and X-ray film*, for the account of Ag-Met, Inc., from points in Minnesota, Wisconsin, Iowa, Illinois, Missouri, Indiana, Kentucky, Tennessee, Arkansas, Texas, Louisiana, Mississippi, Alabama, Georgia, Florida, North Carolina, South Carolina, Virginia, West Virginia, Delaware, Connecticut, Maryland, Ohio, Michigan, New York, New Hampshire, Massachusetts, Rhode Island, California, and Colorado, to Delano, Pa., under a continuing contract with Ag-Met, Inc.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at Washington, D.C.

No. MC 141169, filed July 17, 1975. Applicant: GULF COAST HEAVY HAULERS, INC., 7350 Breen, P.O. Box 90562, Houston, Tex. 77002. Applicant's representative: Clarence F. Kendall II, 2148 Tenneco Building, Houston, Tex. 77002. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Steel and iron articles as defined in 61 M.C.C. 209, scrap iron and steel, including scrap automobile bodies*, (1) from the plantsite and storage facilities of Chaparral Steel Company, Inc. located in Ellis County, Tex., to points in Arkansas, Colorado, Louisiana, Mississippi, New Mexico, Oklahoma, and Tennessee; and (2) from points in Arkansas, Colorado, Louisiana, Mississippi, New Mexico, Oklahoma, and Tennessee, to the plantsite and storage facilities of Chaparral Steel Company, Inc. located in Ellis County, Tex., under a continuing contract or contracts with Chaparral Steel Company.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at either Houston, Tex.; Fort Worth, Tex. or Washington, D.C.

PASSENGER APPLICATIONS

No. MC 102623 (Sub-No. 2), filed July 14, 1975. Applicant: LEE LINE, INC., 709 Bench Street, Red Wing, Minn. 55066. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in round trip charter operations, beginning and ending at points in LeSeuer, Rice, Waseca, Steele, Dodge, Olmsted, Goodhue, Wabasha, Dakota, and Washington Counties, Minn.; Pepin, Dunn, and Pierce Counties, Wisc., and extending to points in the United States (except North Dakota, South Dakota, Nebraska, Kansas, Oklahoma, Minnesota, Iowa, Missouri, Wisconsin, Illinois, Michigan, Indiana, Ohio, New York, Pennsylvania, Maryland, Delaware, New Jersey, Connecticut, Rhode Island, Massachusetts, and the District of Columbia).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 124370 (Sub-No. 5), filed July 14, 1975. Applicant: ACE TRANSPORTATION CO., INC., P.O. Box 328, 1407 St. John Avenue, Albert Lea, Minn. 56007. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage*, in the same vehicle with passengers, and *baggage* of passengers in a separate vehicle, in charter operations, beginning and ending at points in Worth, Mitchell, and Winnebago Counties, Iowa, and points in Faribault, Freeborn, Mower, Waseca, Steele, Dodge, and Rice Counties, Minn., and extending to points in the United States, including Alaska but excluding Hawaii.

NOTE.—Common control may be involved. If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Minn.

No. MC 135288 (Sub-No. 4) (Correction), filed June 6, 1975, published in the FEDERAL REGISTER issue of July 10, 1975, and republished as corrected this issue. Applicant: MCGILL'S TAXI AND BUS LINES, INC., doing business as ASHEBORO COACH CO., a corporation, 151 Sunset Avenue, P.O. Box 626, Asheboro, N.C. 27203. Applicant's representative: Wilmer B. Hill, 805 Mclachlen Bank Building, 666 Eleventh Street, NW., Washington, D.C. 20001. Authority sought to operate as a *common carrier*, by motor vehicle, over regular and irregular routes, transporting: (1) Regular route, *Passengers and their baggage, and express, newspapers, and mail*, in the same vehicle with passengers, Between Asheboro, N.C., and Greensboro, N.C., serving all intermediate points and points in the commercial zones of Asheboro, N.C., and Greensboro, N.C.: From Asheboro over U.S. Highway 220 to Greensboro, and return over the same route; (2) Irregular routes, *passengers and their baggage*, in the same vehicle with passengers, in round-trip charter operations, beginning and ending at points on the regular route described in (1) above, and extending to points in the United States (except those in Alaska and Hawaii); and (3) Irregular routes, *passengers and their baggage*, in the same vehicle with passengers, in special operations, in round-trip sightseeing and pleasure tours, beginning and ending at points on the regular route described in (1) above, and extending to points in the United States (except those in Alaska and Hawaii).

NOTE.—The purpose of this republication is to provide sufficient notice to the Public of this filing by publishing it with the "Passenger" section of the application notices. If a hearing is deemed necessary, the applicant requests it be held at Greensboro or Asheboro, N.C.

No. MC 140336 (Sub-No. 1), filed July 1, 1975. Applicant: HOWARD J. BURKHOLDER, doing business as BURKHOLDER BUS LINE, Route No. 1, Box 95–4 Winchester, Va. 22601. Applicant's representative: Howard J. Burkholder (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers*, Between Paw Paw, W. Va., and Winchester, Va.: From Paw Paw over West Virginia Highways 9 and 29 to junction Virginia Highway 45, thence over Virginia Highway 45 to junction U.S. Highway 522, thence over junction U.S. Highway 522 to Winchester and return over the same route, serving all intermediate points.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Winchester or Front Royal, Va.

No. MC 141144, filed July 14, 1975. Applicant: WENDELL L. OWENS, doing business as LAKE CRYSTAL BUS SERVICE, Box 127, Lake Crystal, Minn. 56055. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Passengers and their baggage* in the same vehicles with passengers, and baggage of passengers in a separate vehicle, in charter operations, beginning and ending at points in Blue Earth, Martin, Nicollet, and Watonwan Counties, Minn. and extending to points in the United States (including Alaska, but excluding Hawaii).

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Minneapolis, Min.

BROKER APPLICATIONS

No. MC 130327, filed June 30, 1975. Applicant: DON R. DIXON AND ALAN J. DIXON, doing business as DIXON TRAVEL BUREAU, a partnership, 103 West Main Street, Belleville, Ill. 62220. Applicant's representative: Don R. Dixon (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Belleville and Columbia, Ill., to sell or offer to sell the transportation of *Individual passengers and groups of passengers and their baggage*, in special and charter operations, in all expense round-trip tours, by motor carriers, beginning and ending at points in St. Clair, Madison, Monroe, Clinton, Washington, Randolph, and Perry Counties, Ill., and extending to points in the United States, including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Springfield, Ill. or St. Louis, Mo.

No. MC 130328, filed July 1, 1975. Applicant: BETTY C. CLAUSON, doing business as BETTY C. CLAUSON TOURS, 34837 Shasta Avenue, P.O. Box 398, Yucaipa, Calif. 92399. Applicant's representative: Betty C. Clauson (same address as applicant). Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Yucaipa, Calif., to sell or offer to sell the transportation of *Passengers and their baggage*, in special and charter operations, by motor carriers, between Yucaipa, Calif., on the one hand, and, on the other, points in the United States including Alaska and Hawaii.

NOTE.—If a hearing is deemed necessary, the applicant requests it be held at Los Angeles or San Bernardino, Calif.

No. MC 130329, filed July 7, 1975. Applicant: VICTOR F. GAMBOA, doing business as VIC'S TOURS, 2135 El Camino Real Street, Santa Clara, Calif. 95051. Applicant's representative: James Stewart, 111 West St. John Street, San Jose, Calif. 95110. Authority sought to engage in operation, in interstate or foreign commerce, as a *broker* at Santa Clara, Calif., to sell or offer to sell the transportation of *Individual passengers and groups of passengers, and their baggage*, in special and charter operations, by motor carriers, from points in Alameda, Merced, Monterey, Sacramento, San Francisco, San Joaquin, San Mateo, Santa Clara, Santa Cruz, and Stanislaus Counties, Calif., to points in Nevada.

NOTE.—If a hearing is deemed necessary, applicant requests it be held at San Francisco, Calif.

By the Commission.

## TITLE 24—HOUSING AND URBAN DEVELOPMENT

## CHAPTER VIII—LOW INCOME HOUSING, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

[Docket No. R-75-344]

## PART 866—LEASE AND GRIEVANCE PROCEDURES

### Dwelling Leases, Procedures and Requirements

On June 19, 1973, a Notice was published in the FEDERAL REGISTER (38 F.R. 15988-9) stating that a review and evaluation was being made of Circular RHM 7465.8, dated February 22, 1971, titled "Requirements and Recommendations to be Reflected in Tenant Dwelling Leases for Low-Rent Public Housing Projects", soliciting comments from interested organizations and persons, and advising that at the conclusion of the study proposed regulations with proposed changes would be published in the FEDERAL REGISTER for written comment prior to final adoption by the Department. On November 6, 1974, a Notice of Proposed Dwelling Leases, Procedures and Requirements was published in the FEDERAL REGISTER (39 F.R. 39285) in accordance with the June 19, 1973 Notice. More than sixty comments were received in joint response to this November 6, 1974 Notice and to its companion Notice, Grievance Procedures, which was published at the same time.

All comments have received full and careful consideration. In each of the many sections of the regulation where tenant advocates and Public Housing Agencies (PHAs) submitted comments reflecting diametrically opposed views, the Department has adopted a provision which, in its opinion, is equitable to both tenants and the PHAs.

Certain changes were made in the proposed regulation in response to comments received. Other comments suggesting changes were considered but were not adopted by the Department. All significant changes and all significant suggested changes which were considered but not adopted are discussed below. The references to the new section numbers which have been adopted are followed by a parenthetical notation of the section number of the provision as published November 6, 1974 for the convenience of the reader.

1. § 866.2 (no prior section number). In response to comment suggesting that the time for implementation of the new lease requirements be specifically spelled out, the Department has included this new section.

2. § 866.3 (no prior section number). Some comments from tenant representatives urged that provisions of the lease be worked out jointly by the PHA and their tenants. The suggestion has not been adopted by the Department, but the new § 866.3 grants the tenants the right to written comment on the PHA's proposed lease which the PHA is required to consider prior to formal adoption of the new lease by the PHA. PHAs are expected to consider all comments submitted to them pursuant to § 866.3 with care and with due concern for the Congressional admonition in the USHAct requiring sound management practices.

3. § 866.4(a) (§ 410.53(a)). This section, which sets forth the requirements for identification of the parties and the premises, has been expanded to provide for the term of the lease and to require specific identification of the members of the household who will reside in the dwelling. Comments received indicated that some state laws require that the lease contain a specific term. Other comments pointed out the necessity for identifying the members of the family expected to reside in the dwelling in order, among other things, to enable the PHA to ascertain family composition for purposes of determining the appropriate rent and size of dwelling.

4. § 866.4(b) (410.53 (b), and (c)). The section provides for rent, amenities to be supplied without charge by the PHA, special charges to be made for excess utility consumption, repairs and similar matters, and for incorporation of the provisions of the section into the lease.

In response to comments taking opposing views, the Department has determined to recast the subparagraphs of the regulation as published and to consolidate the provision into a single subparagraph. The regulation as adopted separates defintively rent from other charges. Comment from certain PHAs endorsed the proposal in the rule as published to consolidate special charges and rent because in the qurisdictions in which these PHAs operate collection of the special charges and delinquent rent can be accomplished in a single action in court. Moreover, these PHAs recited difficulties in collection of the special charges from tenants, whether large or small, unless the charges are specifically made part of the rent. Even though the regulation separates special charges from the rent, the Department intends that PHAs continue to make vigorous efforts to collect the special charges utilizing the lease and grievance procedures and the courts. Additionally, the regulation is not intended to prevent PHAs from collecting both the special charges and the rent in the same court action where the jurisdiction permits. The Department believes that this policy consistent with the Congressional concern about increasing operating costs.

In response to comments received from tenant advocates, the Department wishes to point out that failure of PHAs to assess and collect charges for tenant-caused damage can lead to uncontrolled disrespect for the property and ultimately to serious deterioration of the living environment.

Comment from some tenant advocates asserted that any amount or any charge, regardless of its equity, which raises the total payment to an amount above 25% of family income constitutes a violation of the 25% statutory ceiling rent provision. The Department's view is that assessment of the special charges, regardless of whether the assessment results in a payment exceeding the 25% ceiling limitation, does not violate the statute. The charges for excess consumption of utilities are consistent with the concern of Congress, the Executive Branch and the country as a whole with the conservation of energy.

The Department has moved the two optional provisions contained in § 410.59 from that section to this. Although some comments sought to prohibit PHAs from including these two provisions, which permit late payment penalties and security deposits at the option of the PHA, the Department has determined to retain them. In PHA formulation of their leases pursuant to this regulation, it is expected that PHAs will consider tenant comment pursuant to § 866.3 concerning these provisions.

5. § 866.4(c) (§ 410.53(e)). The paragraph provides for rental redeterminations. Many comments were received concerning this provision, nearly all directed to expansion of its provisions and taking diametrically opposite positions. The Department has determined to adopt the version published in November 1974 with some editorial revision, because it believes the flexible provision appearing in the November 1974 publication is desirable.

6. § 866.4(e)(3) (§ 410.53(g)(3)). The paragraph provides for the obligations of the PHA and the particular clause relates to the PHA's responsibility for repair of the premises. As published in November 1974 the sentence read "to make necessary repairs, alterations and improvements to the premises necessitated by normal wear and tear". The regulation now reads: "to make necessary repairs to the premises." After consideration of all comments the Department decided upon the new language because it believes that while the responsibility of the PHAs is to maintain the projects in good repair, "alterations and improvements" will not ordinarily be required. The limitation as to "normal wear and tear" was deleted because it was recognized that the responsibility of the PHA would extend to other types of damage, e.g., caused by tenants or storm damage. Other provisions of the regulation, (§§ 866.4(b), 866.4(f) (9) and (10) 866.4(h)(2)), permit PHAs to collect from the tenants the amount of the repair charge, including overhead costs, when the damage or disrepair is tenant-caused.

7. § 866.4(f)(9) (§ 410.53(h)(10)) and § 866.4(f)(10) (§ 410.53(h)(11)). The first subsection provides for the tenant's obligation to refrain from and cause his household and guests to refrain from destroying, defacing, damaging or removing any part of the premises or project. The second and companion section provides for the tenant's obligation to pay reasonable charges for the repair of the project buildings, facilities or common areas caused by the tenant, his household or guests. The regulation published in November 1974 required the tenant to refrain from "deliberately or negligently" destroying, defacing, etc. the project and to pay reasonable charges for damages "intentionally or negligently caused" by the tenant, household or guests. Comments received pointed out the difficulty PHAs face in establishing the facts concerning the deliberate, intentional or negligent nature of the acts proscribed. The Department recognized that part of the premises, the dwelling unit, is under the dominion of the tenant, the consequences of which must be taken into consideration by hearing officers, hearing panels or a court, in fixing responsibility. The Department believes that the latter consideration should alleviate some of the concern expressed by PHA comment concerning the difficulty of proof of the cause of the disrepair. The regulation as adopted omits reference to the deliberate, intentional or negligent nature of the act because it is intended that the obligation not be restricted solely to such instances, but is intended to apply to all tenant caused damage other than ordinary wear and tear.

8. Section 866.4(f)(12) (no prior section). The section provides for the tenant's obligation to refrain from illegal or other activity which impairs the physical or social environment of the project. The Department has added this new provision in response to comments received from PHAs and a tenant organization. The provision is intended principally to prohibit trafficking in narcotics and prostitution, but is intended also to include other illegal activity such as manufacture of explosives or illegal possession of firearms (mentioned in comments received) and similar matters, as well as other activities which impair the social environment of housing projects.

9. Section 866.4(h) (§ 410.53(j)). The section requires that the lease provide for the rights of the PHA and the tenant in the event of defects which are hazardous to life, health or safety. The proposed rule published in November 1974 described the condition of the dwelling as "damage rendering the premises uninhabitable." The regulation as adopted describes the condition of the dwelling as one containing "defects hazardous to life, health or safety." The Department believes that the latter language more precisely expresses the original intent of the subsection as published. In response to comment the regulation as adopted also clarifies the Department's original intent that the alternative accommodations offered by the PHA must be standard accommodations.

10. § 866.4(i) (§ 453.(k)). The provision provides for preoccupancy and pretermination inspections. In the regulation as adopted the Department has added a provision requiring the tenant or his representative to inspect the premises prior to occupancy and requiring that the inspection report by the PHA be signed by both the PHA and the tenant or the tenant's representative. The Department has also added a provision to make clear that the PHA is not required to make provision for tenant participation in pretermination inspections where the tenant vacates without notice to the PHA.

11. § 866.4(j) (§ 410.53(l)). The subsection provides for entry of the premises during occupancy. The Department has added a provision defining reasonable advance notification to the tenant and has provided for written notice to the tenant for necessary entry while the tenant and all adult members of the household are absent. Comments received indicated doubt that entry for the purpose of performing extermination services was included among the reasons for entry. Extermination services are intended to be included within the term "routine inspection and maintenance." Other changes in the subsection are editorial.

12. § 866.4(l) (§ 410.53(n)). The subsection provides for termination of the lease. In the regulation as adopted the Department has determined to require that the lease may not be terminated other than for serious or repeated violations of material terms of the lease or for other good cause. The Department's determination was made in full consideration of some comments which recommended expansion of the grounds for lease termination contained in the November 1974 Notice and other comments which recommended that the grounds contained in the November 1974 Notice be defined more narrowly. In the Department's view the adopted regulation reflects an equitable resolution of the opposing views of tenants and PHAs. In response to the Congressional concern for prompt eviction procedures and a similar PHA concern expressed in the comments, the regulation provides for a 14 day notice in the case of failure to pay rent. In response to both PHA and tenant comment expressing concern that tenants who create or maintain a threat to the health or safety of other tenants or PHA employees be promptly evicted, the regulation provides for a reasonable-time notice in such instances. The thirty day notice has been retained in all other cases.

The regulation also omits the requirement that the PHA advise the tenant in a private conference of the reason for the termination. The Department believes that the provision requiring the PHA to advise the tenant of his right to make reply to the termination notice is sufficient to permit the tenant to request a private conference.

13. § 866.5 § (410.55). The section provides for posting of PHA policies rules and regulations. The regulation as adopted provides for more extensive distribution of the PHA's policies rules and regulations. The Department believes PHAs should provide thorough, effective distribution of PHA policies, rules and regulations so that all tenants may have knowledge of their content.

14. § 866.4(d) (§ 410.53(f)). The section provides for the tenant's right to use and occupancy of the dwelling. Comments from tenant advocates criticized the requirement that tenants obtain the consent of the PHA before including foster children as members of the household and providing live-in care of a member of the tenant family not otherwise originally included in the lease. The Department has determined to make no change in the regulation as published. The provision is included not to restrict the care of foster children and live-in care arrangements per se, but rather to assure that PHAs are kept notified of changes in family size in order to provide for relocating tenants where practicable and avoid overcrowding in violation of Federal and local laws and regulations.

15. §§ 866.4(e) (3), (4), (5), (6) and 866.4(g) (§§ 410.53(g) and (410.53(i)). The provisions relate respectively to the PHA's obligations concerning maintenance and a permissive provision permitting the PHA and the tenant to agree to maintenance by the tenant. Some tenant advocates objected to the inclusion of any provision which would permit the PHA to require the tenant to perform any service or provide any amenity. The Department has determined to retain these provisions. Since the beginning of the public housing program in the later 1930's it has been traditional to permit tenants and PHAs to agree that certain services and amenities, mainly in single family residences, be undertaken by the tenants and the tradition has worked to the satisfaction of both parties. For example, tenants have been pleased to be able to treat lawns, shrubs and gardens as their own, and PHAs have encouraged this kind of individual responsibility. The provision is not intended to shift maintenance burdens properly the PHA's concern to the tenants. Inclusion of the provision must be made by them in good faith and in accord with local practice.

Other changes that have been made are of an editorial or minor technical nature.

The Secretary has determined that this amendment does not have a substantial environmental impact and a finding of inapplicability is available for public inspection in the office of the Rules Docket Clerk, Room 10245, 451 7th Street SW., Washington, D.C. 20410, during regular business hours.

Accordingly, Title 24 is amended by adding a new Part 866—Lease and Grievance Procedures, Subpart A—Dwelling Leases, Procedures and Requirements, to read as follows:

#### Subpart A—Dwelling Leases, Procedures and Requirements

866.1 Purpose and Scope.
866.2 Time of Implementation of Lease Provisions.
866.3 Tenants' Opportunity for Comment.
866.4 Lease Requirements.
866.5 Posting of Policies, Rules and Regulations.
866.6 Prohibited Lease Provisions.

Authority: Section 8 of the United States Housing Act of 1937, 42 U.S.C. 1408: Secs. 5(b) and 6(c) of the United States Housing Act of 1937, as amended 42 U.S.C. 1437c and 1437d; Sec. 201(b) of the Housing and Community Development Act of 1974, 42 U.S.C. 1437 note; Section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

## Subpart A—Dwelling Leases, Procedures and Requirements

### § 866.1 Purpose and scope.

The purpose of this Subpart is to prescribe the provisions that shall be incorporated in leases by public housing agencies (PHAs) for dwelling units assisted under the United States Housing Act of 1937 in projects owned by or leased to PHAs and leased or subleased by PHAs to the tenants. This Subpart is applicable to all such dwelling leases entered into directly by PHAs with tenants, and is not applicable to section 23 and section 10(c) leased housing projects, the section 23 Housing Assistance Payments Program, and the section 8 Housing Assistance Payments Program, where the owners enter into leases directly with the tenants. This Subpart is not applicable to the Low-Rent Housing Homeownership Opportunities Program (Turnkey III), to the Mutual Help Homeownership Opportunities Program, or to Indian Tribal Housing Authorities.

### § 866.2 Time of implementation of lease provisions.

The provisions of this Subpart shall be adopted by each PHA within six months from the effective date of these regulations. After it is adopted the lease shall be implemented for each tenant as follows:

(a) At admission for new tenants;

(b) At the next regularly scheduled reexamination of income for present tenants;

(c) Immediately for any tenant so requesting whose next regularly scheduled reexamination of income is later than six months after the date of adoption;

(d) At the time of transfer for any tenant moving from one dwelling unit in a project to any other dwelling unit in a project.

### § 866.3 Tenants' opportunity for comment.

Each PHA shall provide at least 30 days' written notice to tenants setting forth the proposed changes in the lease and providing the tenants an opportunity to present written comments which, subject to the requirements of this regulation, shall be taken into consideration by the PHA prior to the formal adoption of any new lease by the PHA.

### § 866.4 Lease requirements.

A lease shall be entered into between the PHA and each tenant of a dwelling unit which shall contain the provisions described hereinafter.

(a) *Identification of parties and premises.* The names of the parties to the leases and the identification of the premises leased shall be set forth, including:

(1) The term of the lease and provisions for renewal, if any;

(2) The members of the household who will reside in the unit.

(b) *Payments due under the lease.* (1) The lease shall state the amount fixed as rent, specifying the utilities and quantities thereof and the services and equipment furnished by the PHA without additional cost.

(2) The lease shall provide for charges to tenants for maintenance and repair beyond normal wear and tear and for consumption of excess utilities. The lease shall state the basis for the determination of such charges (e.g., by a posted schedule of charges for repair, amounts charged for utility consumption in excess of the allowance stated in the lease, etc.). The imposition of charges for consumption of excess utilities is permissible only if such charges are determined by an individual check meter servicing the leased unit or result from the use of major tenant-supplied appliances.

(3) At the option of the PHA, the lease may provide for:

(i) Payment of penalties for late payments.

(ii) Security deposits which shall not exceed one month's rent or such reasonable fixed amount as may be required by the PHA. Provision may be made for gradual accumulation of the security deposit by the tenant. Subject to applicable laws, interest earned on security deposits may be refunded to the tenant on vacation of the premises or used for tenant services or activities.

(4) The lease shall provide that charges assessed under paragraph (b) (2) and (3) of this section shall not become due and collectible prior to the first day of the second month following the month in which the charge is made.

(c) *Rent redeterminations.* The lease shall provide for redetermination of rentals which shall include:

(1) The frequency of regular rental redetermination and the basis for interim redetermination;

(2) An agreement by the tenant to furnish such information and certifications regarding family composition and income as may be necessary for the PHA to make determinations with respect to rent, eligibility, and the appropriateness of dwelling size;

(3) An agreement by the tenant to transfer to an appropriate size dwelling unit based on family composition, upon appropriate notice by the PHA that such a dwelling unit is available.

(d) *Tenant's right to use and occupy.* The lease shall provide that the tenant shall have the right to exclusive use and occupancy of the leased premises which shall include reasonable accommodation of the tenant's guests or visitors and, with the consent of the PHA, may include care of foster children and live-in care of a member of the tenant's family.

(e) *The PHA's obligations:* The lease shall set forth the PHA's obligations under the lease which shall include the following:

(1) To maintain the premises and the project in decent, safe and sanitary condition;

(2) To comply with requirements of applicable building codes, housing codes, and HUD regulations materially affecting health and safety;

(3) To make necessary repairs to the premises;

(4) To keep project buildings, facilities and common areas, not otherwise assigned to the tenant for maintenance and upkeep, in a clean and safe condition;

(5) To maintain in good and safe working order and condition electrical, plumbing, sanitary, heating, ventilating, and other facilities and appliances, including elevators, supplied or required to be supplied by the PHA;

(6) To provide and maintain appropriate receptacles and facilities (except containers for the exclusive use of an individual tenant family) for the deposit of ashes, garbage, rubbish and other waste removed from the premises by the tenant in accordance with paragraph (f)(7) of this section; and

(7) To supply running water and reasonable amounts of hot water and reasonable amounts of heat at appropriate times of the year (according to local custom and usage) except where the building that includes the dwelling unit is not required by law to be equipped for that purpose, or where heat or hot water is generated by an installation within the exclusive control of the tenant and supplied by a direct utility connection.

(f) *Tenant's obligations.* The lease shall provide that the tenant shall be obligated:

(1) Not to assign the lease or to sublease the premises;

(2) Not to provide accommodations for boarders or lodgers;

(3) To use the premises solely as a private dwelling for the tenant and the tenant's household as identified in the lease, and not to use or permit its use for any other purpose;

(4) To abide by necessary and reasonable regulations promulgated by the PHA for the benefit and well-being of the housing project and the tenants which shall be posted in the project office and incorporated by reference in the lease;

(5) To comply with all obligations imposed upon tenants by applicable provisions of building and housing codes materially affecting health and safety;

(6) To keep the premises and such other areas as may be assigned to him for his exclusive use in a clean and safe condition;

(7) To dispose of all ashes, garbage, rubbish, and other waste from the premises in a sanitary and safe manner;

(8) To use only in a reasonable manner all electrical, plumbing, sanitary, heating, ventilating, air-conditioning and other facilities and appurtenances including elevators;

(9) To refrain from, and to cause his household and guests to refrain from destroying, defacing, damaging, or removing any part of the premises or project;

(10) To pay reasonable charges (other than for wear and tear) for the repair of damages to the premises, project buildings, facilities or common areas caused by the tenant, his household or guests;

(11) To conduct himself and cause other persons who are on the premises with his consent to conduct themselves in a manner which will not disturb his neighbors' peaceful enjoyment of their accommodations and will be conducive to maintaining the project in a decent, safe and sanitary condition;

(12) To refrain from illegal or other activity which impairs the physical or social environment of the project.

(g) *Tenant maintenance.* The lease may provide that the tenant may agree that the tenant shall perform seasonal maintenance or other maintenance tasks, as permitted by the nature of the design and construction of the dwelling (e.g. single family, duplex, row house) and according to local custom, provided that the agreement is made in good faith and not for the purpose of evading the obligations of the PHA. If such agreement is reached, the lease shall specify the tasks to be performed by the tenant.

(h) *Defects hazardous to life, health, or safety.* The lease shall set forth the rights and obligations of the tenant and the PHA in the event that the premises are damaged to the extent that conditions are created which are hazardous to life, health, or safety of the occupants and shall provide that:

(1) The tenant shall immediately notify project management of the damage;

(2) The PHA shall be responsible for repair of the unit within a reasonable time, *Provided*, that if the damage was caused by the tenant, tenant's household or guests, the reasonable cost of the repairs shall be charged to the tenant;

(3) The PHA shall offer standard alternative accommodations, if available, in circumstances where necessary repairs cannot be made within a reasonable time; and

(4) Provisions shall be made for abatement of rent in proportion to the seriousness of the damage and loss in value as a dwelling in the event repairs are not made in accordance with subparagraph (2) of this paragraph or alternative accommodations not provided in accordance with subparagraph (3) of this paragraph, except that no abatement of rent shall occur if the tenant rejects the alternative accommodation or if the damage was caused by the tenant, tenant's household or guests.

(i) *Pre-occupancy and pre-termination inspections.* The lease shall provide that the PHA and the tenant or his representative shall be obligated to inspect the premises prior to commencement of occupancy by the tenant. The PHA will furnish the tenant with a written statement of the condition of the premises, the dwelling unit, and the equipment provided with the unit. The statement shall be signed by the PHA and the tenant, and a copy of the statement shall be retained by the PHA in the tenant's folder. The PHA shall be further obligated to inspect the unit at the time the tenant vacates the unit and to furnish the tenant a statement of any charges to be made in accordance with subparagraph (b) of this paragraph. Provision shall be made for the tenant's participation in the latter inspection, unless the tenant vacates without notice to the PHA.

(j) *Entry of premises during tenancy.* The lease shall set forth the circumstances under which the PHA may enter the premises during the tenant's possession thereof, which shall include that:

(1) The PHA shall, upon reasonable advance notification to the tenant, be permitted to enter the dwelling unit during reasonable hours for the purpose of performing routine inspections and maintenance, for making improvements or repairs, or to show the premises for re-leasing. A written statement specifying the purpose of the PHA entry delivered to the premises at least two days before such entry shall be considered reasonable advance notification;

(2) The PHA may enter the premises at any time without advance notification when there is reasonable cause to believe that an emergency exists; and

(3) In the event that the tenant and all adult members of his household are absent from the premises at the time of entry, the PHA shall leave on the premises a written statement specifying the date, time and purpose of entry prior to leaving the premises.

(k) *Notice procedures.* The lease shall provide procedures to be followed by the PHA and tenants in giving notice one to the other which shall require that:

(1) Except as provided in paragraph (j) of this section notice to the tenant shall be in writing and delivered to the tenant or to an adult member of the tenant's household residing in the dwelling or sent by prepaid first-class mail properly addressed to the tenant; and

(2) Notice to the PHA shall be in writing, delivered to the project office or the PHA central office or sent by prepaid first-class mail, properly addressed.

(l) *Termination of the lease.* The lease shall set forth the procedures to be followed by the PHA and by the tenant in terminating the lease which shall provide:

(1) That the PHA shall not terminate or refuse to renew the lease other than for serious or repeated violation of material terms of the lease such as failure to make payments due under the lease or to fulfill the tenant obligations set forth in § 866.4(f) or for other good cause.

(2) That the PHA shall give written notice of termination of the lease of:

(i) 14 days in the case of failure to pay rent;

(ii) a reasonable time commensurate with the exigencies of the situation in the case of creation or maintenance of a threat to the health or safety of other tenants or PHA employees; and

(iii) 30 days in all other cases.

(3) That the notice of termination to the tenant shall state reasons for the termination, shall inform the tenant of his right to make such reply as he may wish and of his right to request a hearing in accordance with the PHA's grievance procedure.

(m) *Grievance procedures:* The lease shall provide that all disputes concerning the obligations of the tenant or the PHA shall be resolved in accordance with the PHA grievance procedures which shall comply with Subpart B of this Part.

(n) *Provision for modifications:* The lease shall provide that modification of the lease must be accomplished by a written rider to the lease executed by both parties, except for paragraph (c) of this section and § 866.5.

(o) *Signature clause.* The lease shall provide a signature clause attesting that the lease has been executed by the parties.

### § 866.5 Posting of policies, rules and regulations.

Schedules of special charges for services, repairs and utilities and rules and regulations which are required to be incorporated in the lease by reference shall be publicly posted in a conspicuous manner in the Project Office and shall be furnished to applicants and tenants on request. Such schedules, rules and regulations may be modified from time to time by the PHA provided that the PHA shall give at least 30-day written notice to each affected tenant setting forth the proposed modification, the reasons therefor, and providing the tenant an opportunity to present written comments which shall be taken into consideration by the PHA prior to the proposed modification's becoming effective. A copy of such notice shall be:

(a) Delivered directly or mailed to each tenant; or

(b) Posted in at least three (3) conspicuous places within each structure or building in which the affected dwelling units are located, as well as in a conspicuous place at the project office, if any, of if none, a similar central business location within the project.

### § 866.6 Prohibited lease provisions.

Lease clauses of the nature described below shall not be incuded in new leases between a PHA and a tenant and shall be deleted from existing leases either by amendment thereof or execution of a new lease:

(a) *Confession of judgment.* Prior consent by the tenant to any lawsuit the landlord may bring against him in connection with the lease and to a judgment in favor of the landlord.

(b) *Distraint for rent or other charges.* Agreement by the tenant that landlord is authorized to take property of the tenant and hold it as a pledge until the tenant performs the obligation which the landlord has determined the tenant has failed to perform.

(c) *Exculpatory clauses.* Agreement by the tenant not to hold the landlord or landlord's agent liable for any acts or omissions whether intentional or negligent on the part of the landlord or the landlord's authorized representatives or agents.

(d) *Waiver of legal notice by tenant prior to actions for eviction or money judgments.* Agreements by the tenant that the landlord may institute suit without any notice to the tenant that the suit has been filed, thus preventing the tenant from defending against the lawsuit.

(e) *Waiver of legal proceedings.* Authorization to the landlord to evict the tenant or hold or sell the tenant's possessions whenever the landlord determines that a breach or default has occurred without notice to the tenant or any determination by a court of the rights and liabilities of the parties.

(f) *Waiver of jury trial.* Authorization of the landlord's lawyer to appear in court for the tenant and waive the right to a trial by jury.

(g) *Waiver of right to appeal judicial error in legal proceeding.* Authorization to the landlord's lawyer to waive the right to appeal for judicial error in any suit or to waive the right to file a suit in equity to prevent the execution of a judgment.

(h) *Tenant chargeable with cost of legal actions regardless of outcome.* Provision that the tenant agrees to pay attorney's fees or other legal costs whenever the landlord decides to take action against the tenant even though the court determines that the tenant prevails in the action. Prohibition of this type of provision does not mean that the tenant as a party to the lawsuit may not be obligated to pay attorney's fees or other costs if he loses the suit.

*Effective date.* This Part is effective on August 7, 1975.

H. R. CRAWFORD,
*Assistant Secretary for Housing Management.*

[Docket No. R-75-344]

## PART 866—LEASE AND GRIEVANCE PROCEDURES

### Grievance Procedures and Requirements

On June 19, 1973 a notice was published in the FEDERAL REGISTER (38 F.R. 15988-9) that a review and evaluation was being made of Circular RHM 7465.9, dated February 22, 1971 entitled "Grievance Procedures in Low-Rent Public Housing Projects," soliciting comments from interested organizations and persons, and advising that at the conclusion of the study proposed regulations with proposed changes would be published in the FEDERAL REGISTER for written comment prior to final adoption by the Department. On November 6, 1974, a Notice of Proposed Grievance Procedures and Requirements was published in the FEDERAL REGISTER (39 F.R. 39287-89) in accordance with the June 19, 1973 Notice. More than sixty comments were received in joint response to the Grievance Procedures and Dwelling Lease Procedures which were published at the same time. All comments have received full and careful consideration.

Certain changes have been made in the proposed regulation in response to comments received. Other comments suggesting changes have been considered but were not adopted by the Department. All important changes and all important suggested changes which were considered but not adopted are discussed below. The references to the new section numbers which have been adopted are followed by a parenthetical notation of the section number of the provision as published November 6, 1974, for the convenience of the reader.

1. § 866.50 (§ 410.61) The section defines the purpose and scope of the regulation. As adopted the regulation omits reference to grievances involving policy and procedure in accordance with the determination that the grievance procedure is not intended as a forum for initiation or negotiation of policy changes between tenants and the PHA.

2. § 866.51 (§ 410.62) The section provides the applicability of the procedures prescribed. The regulation as revised permits PHAs, in jurisdictions which require that a tenant be given a hearing in court containing the elements of due process, to exclude terminations of tenancy or evictions based upon the tenant's creation or maintenance of a threat to the health or safety of other tenants or PHA employees. Comments received from PHAs and tenant organizations urged that in such cases eviction shall be promptly accomplished. The previous exclusion of terminations or evictions based on nonpayment of rent has been deleted on the grounds that PHAs are adequately protected by the provision requiring tenants to pay rent into an escrow account in order to utilize the grievance procedures (Sec. 866.55). Additionally, reference to summary eviction proceedings has been omitted. Comments received pointed out that in some jurisdictions eviction actions termed as summary in fact contain those procedural due process protections deemed to be required. The required elements of due process are defined in Sec. 866.53.

3. Sec. 866.52 (No prior provision) This new section requires that each PHA adopt a regulation in accordance with the Subpart within 90 days. Another new section, Sec. 866.59, provides for a waiver of the requirement for adoption of the requirements of this Subpart to permit PHAs to retain their present grievance procedure under prescribed circumstances.

4. Sec. 866.55 (Secs. 410.64, 410.65). The section provides for the procedures to be followed to obtain a hearing and for the appointment of hearing officers and hearing panels. The regulation as adopted requires that complainants submit grievances to informal settlement in accordance with § 866.54 as a condition precedent to a hearing. Comments received from PHAs and some tenant advocates stated that the majority of grievances can be settled by informal conference without the necessity of resorting to a hearing procedure. The Department has therefore determined to require that all complaints be first submitted in the informal procedure. The hearing officer or hearing panel may waive this requirement for good cause shown. Many conflicting suggestions were received concerning the method of selection of hearing officers and hearing panels. The Department has determined that the procedure for selection contained in the regulation as adopted presents an equitable selection method for both the tenant and the PHA and will permit maximum flexibility to PHAs and their tenants.

6. § 866.57 (§§ 410.67, 410.68) The section relates to the decision of the hearing officer or the hearing panel. The regulation as adopted authorizes an additional basis for PHA reversal of the decision of the hearing officer or hearing panel, i.e., that the grievance does not concern a PHA action or failure to act in accordance with or involving the complainant's lease. The additional ground for reversal implements the determination that the grievance procedure is not intended as a forum for negotiation of policy changes.

The regulation as adopted deletes the provision contained in the proposed regulation as published in November 1974 which required the PHA, in the event of an appeal from a decision of the hearing officer or hearing panel to agree by stipulation or otherwise, to limit its defense to grounds originally relied upon in its proposed disposition of the complaint. Comments received protested the inequity of confining the PHA to grounds relied upon in the grievance procedure in *de novo* proceedings in court. There the tenant is free to raise any issue permitted by the court, and PHAs in fairness, should be free to counter any new matter. The Department has determined that the requirement is inequitable and has deleted it.

Other changes made are for clarity, or are editorial.

The Secretary has determined that this amendment does not have a substantial environmental impact and a finding of inapplicability is available for public inspection in the office of the Rules Docket Clerk, Room 10245, 451 7th Street, S.W., Washington, D.C. 20410, during regular business hours.

Accordingly, 24 CFR Part 866 is amended by adding a new Subpart B—Grievance Procedures and Requirements, to read as follows:

#### Subpart B—Grievance Procedures and Requirements

Sec.
866.50 Purpose and Scope.
866.51 Applicability.
866.52 Requirements.
866.53 Definitions.
866.54 Informal Settlement of Grievances.
866.55 Procedures to Obtain a Hearing.
866.56 Procedures Governing the Hearing.
866.57 Decision of the Hearing Officer or Hearing Panel.
866.58 PHA Eviction Actions.
866.59 Use of Existing Grievance Procedures.

AUTHORITY: Section 8 of the United States Housing Act of 1937, 42 U.S.C. 1408: Secs. 5 (b) and 6(c) of the United States Housing Act of 1937, as amended, 42 U.S.C. 1437c and 1437d, Sec. 201(b) of the Housing and Community Development Act of 1974, 42 U.S.C. 1437 note; Section 7(d) of the Department of Housing and Urban Development Act, 42 U.S.C. 3535(d).

### Subpart B—Grievance Procedures and Requirements

#### § 866.50 Purpose and scope.

The purpose of this Subpart is to set forth the requirements, standards and criteria for a grievance procedure to be established and implemented by public housing agencies (PHAs) to assure that PHA tenants are afforded an opportunity for a hearing if the tenant disputes within a reasonable time any PHA action or failure to act involving the tenant's lease with the PHA or PHA regulations which adversely affect the individual tenant's rights, duties, welfare or status. The grievance procedure provided by this Subpart shall be incorporated in the dwelling leases identified as subject to the provisions of Section 866.1 of Subpart A.

#### § 866.51 Applicability.

(a) The PHA grievance procedure shall be applicable to all individual grievances as defined in § 866.53 of this Subpart between the tenant and the PHA, *Provided*, that in those jurisdictions which require that, prior to eviction, a tenant be given a hearing in court containing the elements of due process, as defined in § 866.53(d), the PHA may exclude from its procedure any grievance concerning an eviction or termination of tenancy based upon a tenant's creation or maintenance of a threat to the health or safety of other tenants or PHA employees.

(b) The PHA grievance procedure shall not be applicable to disputes between tenants not involving the PHA or to class grievances. The grievance procedure is not intended as a forum for initiating or negotiating policy changes between a group or groups of tenants and the PHA's Board of Commissioners.

#### § 866.52 Requirements.

Within ninety days of the effective date of this Subpart each PHA shall adopt a regulation affording each tenant an opportunity for a hearing on a grievance as defined in § 866.53 in accordance with the requirements, standards, and criteria contained in this Subpart with such modifications as are required by State law. The regulations shall be made a part of all tenant dwelling leases.

#### § 866.53 Definitions.

For the purpose of this Subpart, the following definitions are applicable:

(a) "Grievance" shall mean any dispute which a tenant may have with respect to PHA action or failure to act in accordance with the individual tenant's lease or PHA regulations which adversely affect the individual tenant's rights, duties, welfare or status.

(b) "Complainant" shall mean any tenant whose grievance is presented to the PHA or at the project management office in accordance with § 866.54 and § 866.55(a).

(c) "Elements of due process" shall mean an eviction action or a termination of tenancy in a State or local court in which the following procedural safeguards are required:

(1) Adequate notice to the tenant of the grounds for terminating the tenancy and for eviction;

(2) Opportunity for the tenant to examine all relevant documents, records and regulations of the PHA prior to the trial for the purpose of preparing a defense;

(3) Right of the tenant to be represented by counsel;

(4) Opportunity for the tenant to refute the evidence presented by the PHA including the right to confront and cross-examine witnesses and to present any affirmative legal or equitable defense which the tenant may have;

(5) A decision on the merits.

(d) "Hearing officer" shall mean a person selected in accordance with § 866.55 of this Subpart to hear grievances and render a decision with respect thereto.

(e) "Hearing panel" shall mean a panel selected in accordance with § 866.55 of this Subpart to hear grievances and render a decision with respect thereto.

(f) "Tenant" shall mean any lessee or the remaining head of the household of any tenant family residing in housing accommodations covered by this Part.

#### § 866.54 Informal settlement of grievance.

Any grievance shall be personally presented, either orally or in writing, to the PHA office or to the office of the project in which the complainant resides so that the grievance may be discussed informally and settled without a hearing. A summary of such discussion shall be prepared within a reasonable time and one copy shall be given to the tenant and one retained in the PHA's tenant file. The summary shall specify the names of the participants, dates of meeting, the nature of the proposed disposition of the complaint and the specific reasons therefor, and shall specify the procedures by which a hearing under § 866.55 may be obtained if the complainant is not satisfied.

#### § 866.55 Procedure to obtain a hearing.

(a) *Request for hearing.* The complainant shall submit a written request for a hearing to the PHA or to the project office within a reasonable time after receipt of the summary of discussion pursuant to § 866.54. The written request shall specify:

(1) The reasons for the grievance; and

(2) The action or relief sought.

(b) *Selection of Hearing Officer or Hearing Panel.* Grievances shall be presented before a hearing officer or hearing panel. A hearing officer or hearing panel shall be selected as follows:

(1) The hearing officer shall be an impartial, disinterested person selected jointly by the PHA and the complainant. If the PHA and the complainant cannot agree on a hearing officer, they shall each appoint a member of a hearing panel and the member so appointed shall select a third member. If the members appointed by the PHA and the complainant cannot agree on a third member, such member shall be appointed by an independent arbitration organization such as the Center for Disputes Settlement of the American Arbitration Association, or by any other third party agreed upon by the PHA and the complainant.

(2) In lieu of the procedure set forth in paragraph (a) of this section a PHA may provide for the appointment of hearing officer or hearing panels by any method which is approved by the majority of tenants (in any building, group of buildings, or project, or group of projects to which the methods is applicable) voting in an election or meeting of tenants held for the purpose.

(c) *Failure to request a hearing.* If the complainant does not request a hearing in accordance with this paragraph, then the PHA's disposition of the grievance under § 866.54 shall become final, *Provided*, that failure to request a hearing shall not constitute a waiver by the complainant of his right thereafter to contest the PHA's action in disposing of the complaint in an appropriate judicial proceeding.

(d) *Hearing Prerequisite.* All grievances shall be personally presented either orally or in writing pursuant to the informal procedure prescribed in § 866.54 as a condition precedent to a hearing under this section, *Provided*, that if the complainant shall show good cause why he failed toproceed in accordance with § 866.54 to the hearing officer or hearing panel, the provisions of this subsection may be waived by the hearing officer or hearing panel.

(e) *Escrow deposit.* Before a hearing is scheduled in any grievance involving the amount of rent as defined in § 866.4 (b) of Subpart A of this Part which the PHA claims is due, the complainant shall pay to the PHA an amount equal to the amount of the rent due and payable as of the first of the month preceding the month in which the act or failure to act took place. The complainant shall thereafter deposit the same amount of the monthly rent in an escrow account monthly until the complaint is resolved by decision of the hearing officer or hearing panel. These requirements may be waived by the PHA in extenuating circumstances. Unless so waived, the failure to make such payments shall result in a termination of the grievance procedure, *Provided*, that failure to make payment shall not constitute a waiver of any right the complainant may have to contest the PHA's disposition of his grievance in any appropriate judicial proceeding.

(f) *Scheduling of hearings.* Upon complainant's compliance with paragraphs (a), (d) and (e) of this section, a hearing shall be scheduled by the hearing officer or hearing panel promptly for a time and place reasonably convenient to both the complainant and the PHA. A written notification specifying the time, place and the procedures governing the hearing shall be delivered to the complainant and the appropriate PHA official.

#### § 866.56 Procedures governing the hearing.

(a) The hearing shall be held before a hearing officer or hearing panel, as appropriate.

(b) The complainant shall be afforded a fair hearing providing the basic safeguards of due process which shall include:

(1) The opportunity to examine before the hearing and, at the expense of the complainant, to copy all documents, records and regulations of the PHA that are relevant to the hearing. Any document not so made available after request therefor by the complainant may not be relied on by the PHA at the hearing;

(2) The right to be represented by counsel or other person chosen as his or her representative;

(3) The right to a private hearing unless the complainant requests a public hearing;

(4) The right to present evidence and arguments in support of his or her complaint, to controvert evidence relied on by the PHA or project management, and to confront and cross-examine all witnesses on whose testimony or information the PHA or project management relies; and

(5) A decision based solely and exclusively upon the facts presented at the hearing.

(c) The hearing officer or hearing panel may render a decision without proceeding with the hearing if the hearing officer or hearing panel determines that the issue has been previously decided in another proceeding.

(d) If the complainant or the PHA fails to appear at a scheduled hearing, the hearing officer or hearing panel may make a determination to postpone the hearing for not to exceed five business days or may make a determination that the party has waived his right to a hearing. Both the complainant and the PHA shall be notified of the determination by the hearing officer or hearing panel. *Provided*, that a determination that the complainant has waived his right to a hearing shall not constitute a waiver of any right the complainant may have to contest the PHA's disposition of the grievance in an appropriate judicial proceeding.

(e) At the hearing, the complainant must first make a showing of an entitlement to the relief sought and thereafter the PHA must sustain the burden of justifying the PHA action or failure to act against which the complaint is directed.

(f) The hearing shall be conducted informally by the hearing officer or hearing panel and oral or documentary evidence pertinent to the facts and issues raised by the complaint may be received without regard to admissibility under the rules of evidence applicable to judicial proceedings. The hearing officer or hearing panel shall require the PHA, the complainant, counsel and other participants or spectators to conduct themselves in an orderly fashion. Failure to comply with the directions of the hearing officer or hearing panel to obtain order may result in exclusion from the proceedings or in a decision adverse to the interests of the disorderly party and granting or denial of the relief sought, as appropriate.

(g) The complainant or the PHA may arrange, in advance and at the expense of the party making the arrangement, for a transcript of the hearing. Any interested party may purchase a copy of such transcript.

**§ 866.57 Decision of the hearing officer or hearing panel.**

(a) The hearing officer or hearing panel shall prepare a written decision, together with the reasons therefor, within a reasonable time after the hearing. A copy of the decision shall be sent to the complainant and the PHA. The PHA shall retain a copy of the decision in the tenant's folder. A copy of such decision, with all names and identifying references deleted, shall also be maintained on file by the PHA and made available for inspection by a prospective complainant, his representative, or the hearing panel or hearing officer.

(b) The decision of the hearing officer or hearing panel shall be binding on the PHA which shall take all actions, or refrain from any actions, necessary to carry out the decision unless the PHA Board of Commissioners determines within a reasonable time, and promptly notifies the complainant of its determination, that

(1) The grievance does not concern PHA action or failure to act in accordance with or involving the complainant's lease on PHA regulations, which adversely affect the complainant's rights, duties, welfare or status;

(2) The decision of the hearing officer or hearing panel is contrary to applicable Federal, State or local law, HUD regulations or requirements of the annual contributions contract between HUD and the PHA.

(c) A decision by the hearing officer, hearing panel, or Board of Commissioners in favor of the PHA or which denies the relief requested by the complainant in whole or in part shall not constitute a waiver of, nor affect in any manner whatever, any rights the complainant may have to a trial *de novo* or judicial review in any judicial proceedings, which may thereafter be brought in the matter.

**§ 866.58 PHA eviction actions.**

If a tenant has requested a hearing in accordance with § 866.55 on a complaint involving a PHA notice of termination of the tenancy and the hearing officer or hearing panel upholds the PHA's action to terminate the tenancy, the PHA shall not commence an eviction action in a State or local court until it has served a notice to vacate on the tenant, and in no event shall the notice to vacate be issued prior to the decision of the hearing officer or the hearing panel having been mailed or delivered to the complainant. Such notice to vacate must be in writing and specify that if the tenant fails to quit the premises within the applicable statutory period, or on the termination date stated in the notice of termination, whichever is later, appropriate action will be brought against him and he may be required to pay court costs and attorney fees.

**§ 866.59 Use of existing grievance procedures.**

If a PHA has adopted a grievance procedure in accordance with the requirements of Circular RHM 7465.9, dated February 22, 1971 entitled "Grievance Procedure in Low-Rent Public Housing Projects" prior to the effective date of this Subpart and desires to retain such procedure, the Secretary or his designee may waive adoption of a grievance regulation in accordance with this Subpart, Provided, that the PHA requests such waiver within six months of the effective date of this Subpart, and *Provided further*, that the PHA provides evidence satisfactory to the Secretary or his designee that the affected tenants were adequately represented in the development of the prior procedure and that the affected tenants concur in the PHA's request to retain the existing procedures. After the effective date of this Subpart as stated below no amendment to existing grievance procedures adopted in accordance with the requirements of Circular RHM 7465.9 shall be permitted.

*Effective date.* This part is effective on August 7, 1975.

H. R. CRAWFORD,
*Assistant Secretary*
*for Housing Management.*

PART III:

# NATIONAL CREDIT UNION ADMINISTRATION

# PRIVACY ACT OF 1974

Proposed Rules and Notices of Systems of Records

**PRIVACY ACT OF 1974**

On December 31, 1974, President Ford signed Public Law 93–579, (88 Stat. 1896) which added section 552a to title 5 of the United States Code. This new section is known as the Privacy Act of 1974. The act reasserts the fundamental right to privacy as derived from the Constitution of the United States and provides a series of basic safeguards for the individual to prevent the misuse of personal information by the Federal Government.

The Privacy Act provides for making known to the public the existence and characteristics of all personal information systems kept by every Federal agency. The act permits an individual to have access to records containing personal information on that individual and allows the individual to control the transfer of that information to other Federal agencies for nonroutine uses. The act also requires all Federal agencies to keep accurate accountings of transfers of personal records to other agencies and outsiders, and to make the accountings available to the individual. The act further provides for civil remedies for the individual whose records are kept or used in contravention of the requirements of the act.

The Privacy Act also requires the agencies to adopt regulations that list and describe routine transfers of their personal records and to establish procedures for access to and amendment of such records.

**Compilation**

The Office of the Federal Register is required to publish an annual compilation of all Privacy Act rules and notices. Although the compilation will not be available until some time after September 27, 1975, readers may assemble their own compilation by cummulating Privacy Act material as it is published. To facilitate this, all Privacy Act notices and final rules will be published in separate Parts of the FEDERAL REGISTER which may easily be detached and combined.

## NATIONAL CREDIT UNION ADMINISTRATION

**[ 12 CFR Part 720 ]**

## DISCLOSURE OF OFFICIAL RECORDS AND INFORMATION

**Proposed Rulemaking**

Notice is hereby given that the Administrator of the National Credit Union Administration, pursuant to the authority conferred by section 120, 73 Stat. 635, 12 U.S.C. 1766, and section 209, 84 Stat. 1014, 12 U.S.C. 1789, is proposing to revise Part 720 (12 CFR 720) by designating existing sections as comprising Subpart A—Production or Disclosure Under 5 U.S.C. 552 and by adding a new Subpart B—Protection of Privacy of Individual Records Under 5 U.S.C. 552a.

The purpose of adding a new Subpart B is to implement the provisions of the Privacy Act of 1974, Pub. L. 93–579, which adds a new section 552a to Title 5, United States Code, intended to provide certain safeguards for individuals against invasions of personal privacy.

Interested persons are invited to submit written comments, suggestions, or objections regarding the revisions to the Administrator, National Credit Union Administration, 2025 M Street, NW., Washington, DC 20456. Comments received prior to September 5, 1975, will be considered before final action is taken on this proposal. Copies of all written comments received will be available for public inspection during normal business hours at the foregoing address.

HERMAN NICKERSON, Jr.,
*Administrator.*

JULY 28, 1975.

1. Present §§ 720.1 through 720.8 are hereby designated as comprising Subpart A—Production or Disclosure Under 5 U.S.C. 552.

2. Sections 720.9 through 720.19 are reserved for possible future use as part of Subpart A.

3. Part 720 is amended by adding a new Subpart B—Protection of Privacy of Individual Records Under 5 U.S.C. 552a, to read as follows:

**Subpart A—Production or Disclosure Under 5 U.S.C. 552**

**Subpart B—Protection of Privacy of Individual Records Under 5 U.S.C. 552a**

Sec.

720.20 Purpose and Scope
720.21 Definitions.
720.22 Procedures for Requests Pertaining to Individual Records in a System of Records.
720.23 Time, Place, and Requirements for Identification of Individuals Making Requests.

720.38 Employee Standards of Conduct With Regard to Privacy.

AUTHORITY: Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014 (12 U.S.C. 1789).

### § 720.20 Purpose and scope.

(a) This subpart contains the regulations of the National Credit Union Administration implementing the Privacy Act of 1974, Pub. L. 93–579. The regulations apply to all records which are maintained by the Administration, contain information about an individual including some means of identifying the individual and are contained in a system of such records, from which information is retrieved by use of an identifying particular. The regulations set forth procedures whereby individuals may seek and gain access to records concerning themselves and request amendments of those records. The regulations also set forth requirements applicable to Administration employees maintaining, collecting, using or disseminating such records.

(b) The Assistant Administrator for Administration, with advice from the General Counsel, shall be responsible for training employees of the Administration in the obligations imposed by the Privacy Act of 1974 and these regulations.

### § 720.21 Definitions.

For purposes of this Subpart:

"Administration" means the National Credit Union Administration;

"Administrator" means the Administrator of the National Credit Union Administration;

"Individual" means a citizen of the United States or an alien lawfully admitted for permanent residence;

"Maintain" includes maintain, collect, use, or disseminate;

"Record" means any item, collection, or grouping of information about an individual that is maintained by the Administration, and that contains his name, or an identifying number, symbol, or other identifying particular assigned to the individual;

"System of records" means a group of any records under the control of the Administration from which information is retrieved by the name of the individual or by some identifying number, symbol, or other identifying particular assigned to the individual; and

"Routine use" means, with respect to the disclosure of a record, the use of such record for a purpose which is compatible with the purpose for which it was collected.

### § 720.22 Procedures for requests pertaining to individual records in a system of records.

(a) An individual seeking notification of whether a system of records contains a record pertaining to him or an individual seeking access to information or records pertaining to him which is available under the Privacy Act of 1974 shall present his request in person or in writing to the Administration official identified in the access procedure section of the "Notice of Records System" published by the National Archives and Records System, General Services Administration, which describes the system of records to which the individual's request relates.

(b) In addition to meeting the identification requirements set forth in § 720.23, individuals seeking notification or access, either in person or by mail, shall describe the nature of the records sought, the approximate dates covered by the record, and the system in which it is thought to be included, as described in the "Notices of Records Systems" published by the General Services Administration.

### § 720.23 Times, places, and requirements for identification of individuals making requests and identification of records requested.

(a) The following minimum standards are applicable to any individual who submits a request under § 720.22:

(1) An individual seeking access to records about himself in person may establish his identity by the presentation of a single document bearing a photograph (such as a passport or identification badge) or by the presentation of two items of identification which do not bear a photograph but do bear both a name and address (such as a driver's license or credit card);

(2) An individual seeking access to records about himself by mail shall establish his identity by a signature, address, date of birth, employee identification number if any, and on other identifier such as a photocopy of driver's license or other document; and

(3) An individual seeking access to records about himself by mail or in person who cannot provide the required documentation of identification may provide a notarized statement; swearing or affirming to his identity and to the fact that he understands the penalties for false statements pursuant to 18 U.S.C. 1001.

(b) The parent or guardian of a minor or a person judicially determined to be incompetent shall, in addition to establishing the identity of the minor or other person he represents as required in paragraph (a) of this section, establish his own parentage or guardianship by furnishing a copy of a birth certificate showing parentage or a court order establishing the guardianship.

(c) An individual seeking to review records about himself may be accompanied by another person of his own choosing. In such cases, the individual seeking access shall be required to furnish a written statement authorizing the discussion of that individual's record in the accompanying person's presence.

(d) In addition to the requirements set forth in paragraph (a) and (b) of this section, the published "Notice of System of Records" for individual systems may include further requirements of identification where necessary to retrieve the individual record from the system.

### § 720.24 Notice of existence of records, access decisions and disclosure of requested information; time limits.

(a) The Administration official identified in the record access procedure section of the "Notice of Records System" and identified in accordance with § 720.23(d), by an individual seeking notification of, or access to, a record, shall be responsible to (1) determine whether such a record exists; (2) determine whether excess is available under the Privacy Act, (3) notify the requesting individual of those determinations, and (4) provide access to information determined to be available. In cases where the Administration Official identified in the above sentence is the Assistant Administrator for Administration (or Security Officer) he shall designate one or more of his assistants as being responsible for carrying out the requirements of this section. In the case of an individual access request made in person, information determined to be available shall be provided by allowing a personal review of the record or portion of a record containing the information requested and determined to be available, and the individual shall be allowed to have a copy of all or any portion of available information made in a form comprehensible to him. In the case of an individual access request made by mail, information determined to be available shall be provided by mail, unless the individual has requested otherwise. If access is denied because of an exemption, the individual shall be notified that he may appeal that determination to the Assistant Administrator for Administration within thirty days after receipt of the determination. Such appeals shall be determined within thirty days.

(b) The following time limits shall be applicable to the required determinations, notification and provision of access set forth in paragraph (a) of this section:

(1) Requests concerning a single system of records which do not require consultation with or requisition of records from another agency shall be responded to within 20 working days after receipt of the request;

(2) Requests requiring requisition of records from or consultation with another agency shall be responded to within 10 working days after such requisition or resolution of the required consultation; and

(3) If a request under paragraph (b) (2) or (3) of this section presents unusual difficulties in determining whether the records involved are exempt from disclosure, the Assistant Administrator for Administration may, upon written request of the official responsible for action upon the record request, extend the time period established by these regulations for an additional 15 working days.

(c) Nothing in this section shall be construed to allow an individual access to any information compiled in reasonable anticipation of a civil action or proceeding or any information exempted from the provisions of 5 U.S.C. 552a(d) pursuant to 5 U.S.C. 552a (j) or (k).

### § 720.25 Special procedures: information furnished by other agencies; medical records.

(a) When records or information sought from the Administration include information furnished by other Federal agencies, the Administration official responsible for action on the request shall consult with the appropriate agency prior to making a decision to disclose or refuse the record but the decision whether to disclose the record shall be made in the first instance by the Administration official.

(b) When an individual requests medical records concerning himself, the Administration official responsible for action on the request may advise the individual that the records will be provided only to a physician designated in writing by the individual. Upon receipt of the designation and upon proper verification of identity, the Administration official shall permit the physician to review the records or to receive copies of the records by mail. The determination of which records should be made available directly to the individual and which records should not be disclosed directly because of possible harm to the individual shall be made by the Administration official responsible for action on the request.

### § 720.26 Requests for correction or amendment to record; administration review of requests.

(a) An individual may request amendment of a record concerning himself by addressing his request, either in person or by mail, to the Administration official identified in the record contest procedure section of the "Notice of Records System" published by the General Services Administration and describing the system of records which contains the record which the individual wishes to request amendment of. The request must indicate the particular record involved, the nature of the correction sought, and the justification for the correction or amendment. In cases where the Administration official described in the above sentence is the Assistant Administrator for Administration (or Security Officer), he shall designate one of his assistants, such as the Deputy Assistant Administrator, as the official responsible for carrying out the requirements of this section. Requests made by mail should be addressed to the responsible Administration official at the address specified in the "Notice of Records System" describing the system of records which contains the contested record.

(b) Within ten working days of receipt of the request, the appropriate Administration official shall advise the individual that his request has been received. The appropriate Administration official shall then promptly, and under normal circumstances, not later than thirty working days after receipt of the request, either advise the individual that the record is to be amended or corrected or inform the individual of his refusal to amend the record, the reason for the refusal, and the procedures established by § 720.27 for the individual to request a review of that refusal.

### § 720.27 Appeal of initial adverse determination on correction or amendment.

(a) A refusal, in whole or in part, to amend or correct a record may be appealed to the Assistant Administrator for Administration within 30 days of receipt of notice of the refusal. Appeals shall be in writing, shall set forth the specific item of information sought to be corrected and the documentation justifying the correction. Appeals shall be addressed to the Assistant Administrator, Office of Administration, National Credit Union Administration, 2025 M Street, NW.,

Washington, DC 20456. Appeals shall be decided within thirty working days of their receipt unless the Administrator shall, for good cause, shown, extend such period for an additional thirty working days.

(b) Within the time limits set forth in paragraph (a) of this section, the Assistant Administrator for Administration shall either advise the individual of his decision to amend or correct the record or advise the individual of his determination that an amendment or correction is not warranted on the facts, in which case he shall advise the individual of his right to provide for the record of "Statement of Disagreement" and of his right to judicial review pursuant to the Privacy Act of 1974.

(c) Statements of Disagreement may be furnished by the individual within 30 days of the date of receipt of the notice of refusal of the Assistant Administrator for Administration to authorize correction. They shall be addressed to Assistant Administrator, Office of Administration, National Credit Union Administration, 2025 M Street, NW., Washington, D.C. 20456. Upon receipt of a statement of disagreement in accordance with this section, the Assistant Administrator for Administration shall take steps to insure that the statement is included in the system or systems of records which contain the disputed item and that the original item is so marked to indicate that there is a statement of dispute and where, within the system of records, that statement may be found.

(d) When a record has been amended or corrected or a statement of disagreement has been furnished, the system manager for the system of records which contains the record shall, within thirty days thereof, advise all prior recipients of information to which the amendment or statement of disagreement relates whose identity can be determined by an accounting made as required by the Privacy Act of 1974 or any other accounting previously made, of the amendment or statement of disagreement. When a statement of disagreement has been furnished, the system manager shall also provide any subsequent recipient of a disclosure containing information to which the statement relates with a copy of the statement and note the disputed portion of the information disclosed. A concise statement of the reasons for not making the requested amendments may also be provided if deemed appropriate.

(e) In the case of any appeal made under this section and related to personnel records which the Administration maintains pursuant to specific requirements or authorization by the Civil Service Commission or pursuant to a recordkeeping requirement of the Federal Personnel Manual, the appeal shall be forwarded, after consideration by the Assistant Administrator for Administration, to the Civil Service Commission for a final determination, in accordance with Civil Service Commission regulations.

**§ 720.28 Disclosure of record to person other than the individual to whom it pertains.**

No record or item of information concerning an individual which is contained in a system of records maintained by the Administration shall be disclosed by any means of communication to any person or to another agency, without the prior written consent of the individual to whom the record or item of information pertains, unless the disclosure would be—

(a) To an employee of the Administration who has a need for the record in the performance of his duties;

(b) Required by the Freedom of Information Act;

(c) For a routine use as described in the "Notice of Records System," published by the National Archives and Records Service, which describes the system of records in which the record or item of information is contained;

(d) To the Bureau of the Census for purposes of planning or carrying out a census or survey or related activity pursuant to the provisions of Title 13 of the United States Code;

(e) To a recipient who has provided the Administration with advance adequate written assurance that the record or item will be used solely as a statistical research or reporting record, and the record is to be transferred in a form that is not individually identifiable;

(f) To the National Archives of the United States as a record or item which has sufficient historical or other value to warrant its continued preservation by the United States Government, or for evaluation by the Administrator of the General Services or his designee to determine whether the record has such value;

(g) To another agency or to an instrumentality of any governmental jurisdiction within or under the control of the United States for a civil or criminal law enforcement activity if the activity is authorized by law, and if the head of the agency or instrumentality has made a written request to the Administration specifying the particular portion desired and the law enforcement activity for which the record or item is sought;

(h) To a person pursuant to a showing of compelling circumstances affecting the health or safety of an individual if upon such disclosure notification is transmitted to the last known address of such individual;

(i) To either House of Congress, or, to the extent of matter within its jurisdiction, any committee or subcommittee thereof, any joint committee of Congress or subcommittee of any such joint committee;

(j) To the Comptroller General, or any of his authorized representatives, in the course of the performance of the duties of the General Accounting Office; or

(k) Pursuant to the order of a court of competent jurisdiction.

**§ 720.29 Accounting for disclosures.**

(a) Each system manager identified in the "Notice of Records System" as published by the National Archives and Records Service for each system of records maintained by the Administration, shall establish a system of accounting for all disclosures of information or records concerning individuals and contained in the system of records, made outside the Administration. Accounting procedures may be established in the least expensive and most convenient form that will permit the system manager to advise individuals, promptly upon request, of the persons or agencies to which records concerning them have been disclosed.

(b) Accounting records, at a minimum, shall include the identification of the particular record or information disclosed, the name and address of the person or agency to whom disclosure was made, and the date of disclosure. When records are transferred to the National Archives and Records Service for storage in records centers, the accounting pertaining to those records shall be transferred with the records themselves.

(c) Any accounting made under this section shall be retained for at least five years or the life of the record, whichever is longer, after the disclosure for which the accounting is made.

**§ 720.30 Requests for accounting for disclosures.**

At the time of his request for access or correction or at any other time, an individual may request an accounting of disclosures made of his record outside the Administration. Requests for accounting shall be directed to the system manager. Any available accounting, whether kept in accordance with the requirements of the Privacy Act or under procedures established prior to September 27, 1975, shall be made available to the individual except that an accounting need not be made available if it relates to: (a) A disclosure made pursuant to the Freedom of Information Act, 5 U.S.C. 552; (b) a disclosure made within the Administration; (c) a disclosure made to a law enforcement agency pursuant to 5 U.S.C. 552a(b)(7); (d) a disclosure which has been exempted from the provisions of 5 U.S.C. 552a(c)(3) pursuant to 5 U.S.C. 552a(j) or (k).

**§ 720.31 Emergency disclosures.**

If the information concerning an individual and contained in a system of records has been disclosed to any person under compelling circumstances affecting health or safety, the individual shall be notified at his last known address within 5 days of the disclosure. Notification shall include the following information: the nature of the information disclosed, the person or agency to whom it was disclosed, the date of the disclosure, and the compelling circumstances justifying the disclosure. Notification shall be given by the officer who made or authorized the disclosure.

**§ 720.32 Collection of information from individuals; information forms.**

(a) The system manager, as identified in the "Notice of Records System" published in the FEDERAL REGISTER for each system of records maintained by the Administration, shall be responsible for reviewing all forms developed and used to collect information from or about individuals for incorporation into the system of records.

(b) The purpose of the review shall be to eliminate any requirement for information that is not relevant and necessary to carry out an Administration function and to accomplish the following objectives:

(1) To insure that no information concerning religion, political beliefs or activities, association memberships (other than those required for a professional license), or the exercise of other First Amendment rights is required to be disclosed unless such requirement of disclosure is expressly authorized by statute or is pertinent to and within the scope of any authorized law enforcement activity;

(2) To insure that the form or accompanying statement makes clear to the individual which information he is required by law to disclose and the authority for that requirement and which information is voluntary;

(3) To insure that the form or accompanying statement states clearly the principal purpose or purposes for which the information is being collected, and states concisely the routine uses that will be made of the information;

(4) To insure that the form or accompanying statement clearly indicates to the individual the effect in terms of rights, benefits or privileges of not providing all or part of the requested information; and

(5) To insure that any form requesting disclosure of a Social Security Number, or an accompanying statement, clearly advises the individual of the statute or regulation requiring disclosure of the number or clearly advises the individual that disclosure is voluntary and that no consequence will flow from his refusal to disclose it, and the uses that will be made of the number whether disclosed mandatorily or voluntarily.

(c) Any form which does not meet the objectives specified in the Privacy Act and this section, shall be revised to conform thereto. If revision, printing and distribution cannot be accomplished prior to September 27, 1975, a separate statement shall be prepared to accompany each form advising the individual that the form is not in compliance with the Privacy Act and specifying the portions thereof which are not in compliance. The statement shall include all the information necessary to accomplish the objectives specified in the Privacy Act and this section.

**§ 720.33 Contracting for the operating of a system of records.**

(a) No component of the Administration shall contract for the operation of a record system by or on behalf of the agency without the express approval of the Administrator.

(b) Any contract which is approved shall contain the standard contract requirements promulgated by the General Services Administration to insure compliance with the requirements imposed by the Privacy Act of 1974. The contracting component shall have the responsibility for insuring that the contractor complies with the contract requirements relating to privacy.

**§ 720.34 Fees.**

(a) Fees pursuant to 5 U.S.C. 552 a(f)(5) shall be assessed for actual copies of records provided to individuals on the following basis, unless the Administration official determining access waives the fee because of the inability of the individual to pay:

(1) For actual copies of documents, $0.25 per page; and

(2) For copying information, if any, maintained in uncommon or nondocument form, the direct cost to the Administration may be assessed, but only if the individual has been notified of the cost before it is incurred.

(b) Where it is anticipated that access fees chargeable under this section will amount to more than $25, and the individual has not indicated in advance his willingness to pay fees as high as are anticipated, the individual shall be notified of the amount of the anticipated fees before copies are made, and the individual's access request shall not be considered to have been received until receipt by the Administration of his written agreement to pay.

**§ 720.35 Exemptions.**

(a) When an individual requests records about himself which have been exempted from individual access pursuant to 5 U.S.C. 552a(k)(2), by publication of notice of and reasons for the exemption in the "Notice of Records System" for the system of records as published by the National Archives and Records Service, the Administration shall neither confirm nor deny the existence of the record but shall advise the individual only that no record available to him pursuant to the Privacy Act of 1974 has been identified, unless a review of the information indicates that the information has been used or is being used to deny the individual any right, privilege or benefit for which he is eligible or to which he would otherwise be entitled under Federal law. In that event, the individual shall be advised of the existence of the information and shall be provided the information except to the extent it would identify a confidential source. Information which would identify a confidential source shall, if possible, be extracted or summarized in a manner which protects the source and the summary or extract shall be provided to the requesting individual.

(b) Information compiled as part of an employee background investigation which has been exempted pursuant to 5 U.S.C. 552a(k)(5), by publication in the manner described in subsection (a), shall be made available to an individual upon request except to the extent that it identifies a confidential source. Material identifying a confidential source shall, if possible, be extracted or summarized in a manner which protects the source and the summary or extract shall be provided to the requesting individual.

(c) For purposes of the section, a "confidential source" means a source who furnished information to the Government under an express promise that the identity of the source would remain confidential, or, prior to September 27, 1975, under an implied promise that the identity of the source would be held in confidence.

**§ 720.36 Security of systems of records.**

(a) Each system manager, with the approval of the head of his Office, shall establish administrative and physical controls, consistent with Administration regulations, to insure the protection of records systems from unauthorized access or disclosure and from physical damage or destruction. The controls instituted shall be proportional to the degree of sensitivity of the records but at a minimum must insure that records are enclosed in a manner to protect them from public view, that the area in which the records are stored is supervised during all business hours to prevent unauthorized personnel from entering the area or obtaining access to the records, and that the records are inaccessible outside of business hours. Automated systems shall comply with the security standards promulgated by the National Bureau of Standards.

(b) Each system manager, with the approval of the head of his Office, shall adopt access restrictions to insure that only those individuals within the agency who have a need to have access to the records for the performance of their duties have access to them. Procedures shall also be adopted to prevent accidental access to or dissemination of records.

**§ 720.37 Use and collection of social security numbers.**

The head of each office of the Administration (e.g., Assistant Administrator, Regional Director) shall take such measures as are necessary to insure that employees authorized to collect information from individuals are advised that individuals may not be required to furnish Social Security Numbers without statutory or regulatory authorization and that individuals who are requested to provide Social Security Numbers voluntarily must be advised that furnishing the number is not required and that no penalty or denial of benefits will flow from the refusal to provide it.

**§ 720.38 Employee standards of conduct with regard to privacy.**

(a) The head of each office of the Administration shall be responsible for assuring that employees subject to his supervision are advised of the provisions of the Privacy Act, including the criminal penalties and civil liabilities provided therein, and that such employees are made aware of their responsibilities to protect the security of personal information, to assure its accuracy, relevance, timeliness and completeness, to avoid unauthorized disclosure either

orally or in writing, and to insure that no information system concerning individuals, no matter how small or specialized, is maintained without public notice.

(b) With respect to each system of records maintained by the Administration, employees of the Administration shall:

(1) Collect no information of a personal nature from individuals unless authorized to collect it to achieve a function or carry out a responsibility of the Administration;

(2) Collect from individuals only that information which is necessary to Administration functions or responsibilities;

(3) Collect information, wherever possible, directly from the individual to whom it relates;

(4) Inform individuals from whom information is collected of the authority for collection, the purposes thereof, the routine uses that will be made of the information, and the effects, both legal and practical of not furnishing the information;

(5) Neither collect, maintain, use or disseminate information concerning an individual's religious or political beliefs or activities or his membership in associations or organizations, unless (i) the individual has volunteered such information for his own benefit; (ii) the information is expressly authorized by statute to be collected, maintained, used or disseminated; or (iii) the activities involved are pertinent to and with the scope of an authorized investigation or adjudication;

(6) Advise their supervisors of the existence or contemplated development of any record system which retrieves information about individuals by individual identifier;

(7) Maintain an accounting, in the prescribed form, of all dissemination of personal information outside the Administration, whether made orally or in writing;

(8) Disseminate no information concerning individuals outside the Administration except when authorized by 5 U.S.C. 552a or pursuant to a routine use as set forth in the routine use section of the "Notice of Records System" published by the National Archives and Records Service;

(9) Maintain and process information concerning individuals with care in order to insure that no inadvertent disclosure of the information is made either within or without the Administration; and

(10) Call to the attention of the proper Administration authorities any information in a system maintained by the Administration which is not authorized to be maintained under the provisions of the Privacy Act of 1974, including information on First Amendment activities, information that is inaccurate, irrelevant or so incomplete as to risk unfairness to the individual concerned.

(c) Heads of offices within the Administration shall, at least annually, review the record systems subject to their supervision to insure compliance with the provisions of the Privacy Act of 1974.

## NATIONAL CREDIT UNION ADMINISTRATION

### PRIVACY ACT OF 1974

#### Notice of Existence and Character of Systems of Records

The Privacy Act of 1974, Pub. L. 93-579, an Act to provide certain safeguards for an individual against invasion of personal privacy, amends Title 5, United States Code, by adding after section 552 a new section 552a, effective September 27, 1975. 5 U.S.C. 552a(e)(4) requires that each agency publish at least annually a notice of the existence and character of each 'system of records,' as that term is defined in 5 U.S.C. 552a(a)(5), which it maintains, such notice to contain, inter alia, a description of each routine use of the records contained in the system. 5 U.S.C. 552a(e)(11) requires that each agency, at least 30 days prior to publication of a routine use description, publish notice of any new use or intended use of information in the system.

Pursuant to these provisions, the Administrator of the National Credit Union Administration submits the following notices of the existence and character of systems of records maintained by the National Credit Union Administration. Interested persons are invited to submit written comments on the notices in general and written data, views or arguments concerning the routine use portions of the notices. Comments, data, views and arguments received on or before September 5, 1975, will be considered prior to final publication of the notices.

HERMAN NICKERSON, JR.,
*Administrator.*

JULY 28, 1975.

AUTHORITY: Sec. 120, 73 Stat. 635 (12 U.S.C. 1766) and Sec. 209, 84 Stat. 1014 (12 U.S.C. 1789).

ALPHABETICAL LIST OF SYSTEM NAMES

(1) Equal Employment Opportunity Grievance and Discrimination Complaint Records, NCUA.

(2) Executive Manpower Development Program Records, NCUA.

(3) Federal Employee Security Investigations Containing Adverse Information, NCUA. (This system is subject to Subsection (K)(5) to the extent it contains information provided by confidential sources.)

(4) In-Service Counseling Program, Upward Mobility, NCUA.

(5) Intergovernmental Personnel Act Records, NCUA.

(6) Investigative Reports involving Possible Felonies and/or Violations of Federal Credit Union Act. (This system is subjected to a specific exemption pursuant to subsection 552(K)(2) as it consists of investigatory material compiled for law enforcement purposes.)

(7) Loan Management Records System, NCUA.

(8) Member Account Records of Federally Insured Credit Unions Closed for Involuntary Liquidation, NCUA.

(9) Middle Management Development Program, NCUA.

(10) Minority Group Designator System (MGD), NCUA.

(11) New Examiner Training Files, NCUA.

(12) Payroll Records System, NCUA.

(13) Region I Regional Office Staff Development/Correspondence Records, NCUA.

(14) Region II Regional Office Staff Development/Correspondence Records, NCUA.

(15) Region III Regional Office Staff Development/Correspondence Records, NCUA.

(16) Region IV Regional Office Staff Development/Correspondence Records, NCUA.

(17) Region V Regional Office Staff Development/Correspondence Records, NCUA.

(18) Region VI Regional Office Staff Development/Correspondence Records, NCUA.

(19) Requests for Approval of Training, NCUA.

(20) Security Clearance Records Concerning NCUA Personnel Who Occupy Critical-Sensitive Positions. (This system is subject to a specific exemption pursuant to subsection (k)(5) to the extent it contains information provided by confidential sources.)

(21) Supervisory Training Plans Records, NCUA.

(22) Trusteed Account Records System, NCUA.

(23) Verified Employee Mailing List, NCUA.

NCUA—1

**System name:** Equal Employment Opportunity Grievance and Discrimination Complaint Records, NCUA.

**System location:**

National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** NCUA personnel who have filed a grievance or formal complaint of discrimination under the Equal Employment Opportunity Act.

**Categories of records in the system:** Reports made by supervisors, EEO counselors; formal letters advising of receipt of discrimination complaint/greviance; notices of final agency decision; formal requests to and responses from CSC for complaints examiner.

**Authority for maintenance of the system:** Executive Order N. 11478, Aug. 8, 1969, 34 F.R. 12985.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Formal or informal settlement of discrimination complaints/grievances. Referral of relevant information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained in the form of paper hard copy. Retrievability—system is indexed by name. Safeguards—records are maintained in separate, locked room accessible only to the Security Officer and his designated assitants. Retention and disposal—In accordance with GSA regulations, the complaint file is retained seven years, duplicates or copies are retained one year and background information not needed in the complaint file is disposed of or returned to the originator after three years.

**System manager(s) and address:** Security Officer
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual who has filed grievance/complaint, supervisors of individual, EEO counselors.

NCUA—2

**System name:** Executive Manpower Development Program Records, NCUA.

**System location:**

National Credit Union Administration
Division of Training
1111 18th Street, NW.
Room 400
Washington, D.C.

**Categories of individuals covered by the system:** NCUA employees at the level of GS-13 and above.

**Categories of records in the system:** Approved Individual Staff Development Plans, Supervisor's Appraisal, Employee's Development Plan.

**Authority for maintenance of the system:** 5 U.S.C. Section 4101, et seq.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Reporting on individual development to the Civil Service Commission and for promotional purposes within NCUA. Referral of relevant information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law, rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on hard paper copy. Retrievability—by employee name. Safeguards—maintained in metal file cabinets in secured offices of Division of Training. Retention and Disposal—Records are purged annually for those employees no longer participating in the program.

**System manager(s) and address:**

Director, Division of Training
1111 18th Street, NW.
Room 400
Washington, D.C.

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, supervisors, Civil Service Commission.

NCUA—3

**System name:** Federal Employee Security Investigations Containing Adverse Information, NCUA.

**System location:**

National Credit Union Administration
2025 M Street, NW.
Room 4306
Washington, D.C. 20456

**Categories of individuals covered by the system:** NCUA employees on whom a routine CSC security investigation has been conducted, the results of which contain adverse information.

**Categories of records in the system:** May consist of police records and/or information on moral character, integrity or loyalty to the United States.

**Authority for maintenance of the system:** Records maintained pursuant to Civil Service Commission requirements. Separate notice is published due to separate maintenance of these records which has been effected to provide extraordinary safeguards against unwarranted access and disclosures.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Records are reviewed by the NCUA Security Officer, and if determined to be of substantive nature, they are forwarded to the Administrator, NCUA, for whatever action, if any, is deemed necessary. Referral of relevant information in this system may be made, as a routine use, to any appropriate agency or official in the course or an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law, rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—paper hard copy. Retrievability—system is indexed by name. Safeguards—records maintained in a separate, locked room accessible only to the Security Officer and his designated assistants. Records are further secured in a locked safe accessible only to the Security Officer and his designated assistants. Retention and disposal—once disposition, if any, has been made, a record is maintained until the individual whom it concerns has left the employ of NCUA, whereupon it is either returned to the originating agency or destroyed.

**System manager(s) and address:**

Security Officer
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Bureau of Personnel Investigations
Civil Service Commission
Federal Bureau of Investigation

**Systems exempted from certain provisions of the act:** In addition to any exemption to wich this system is subjected by Notices published by or regulations promulgated by the Civil Service Commission, the system is subjected to a specific exemption pursuant to 5 U.S.C. 552a(k)(5) to the extent that disclosures would reveal a source who furnished information under an express promise of confidentiality, or, prior to September 27, 1975, under an express or implied promise of confidentiality.

NCUA—4

**System name:** In-Service Counseling Program, Upward Mobility, NCUA.

**System location:**

National Credit Union Administration
Division of Training
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Categories of individuals covered by the system:** Approved NCUA Upward-Mobility Candidate.

**Categories of records in the system:** Approved training plans for upward-mobility candidates.

**Authority for maintenance of the system:** 5 U.S.C. 4101, et seq.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To monitor effectiveness of upward-mobility program and make required Civil Service Commission reportings. Referral of information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on hard paper copy. Retrievability—indexed by name. Safeguards—records are stored in file cabinets located in secured offices within the Division of Training. Retention and Disposal—records are purged annually for those employees no longer participating in the program.

**System manager(s) and address:**

Director
Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, supervisors of the individual, Civil Service Commission.

NCUA—5

**System name:** Intergovernmental Personnel Act Records, NCUA

**System location:**

Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Categories of individuals covered by the system:** Participants in Intergovernmental Personnel Act Conferences and Mobility Assignments.

**Categories of records in the system:** Required Civil Service Commission Report.

**Authority for maintenance of the system:** 5 U.S.C. 4101, et seq.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To carry out joint Federal-State programs, and make reporting internally and to the Civil Service Commission. Referral of information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on hard paper copy. Retrievability—indexed by name. Safeguards—records are stored in file cabinets in secured offices of the Division of Training. Retention and disposal—records are purged annually for those employees no longer participating in the program.

**System manager(s) and address:**

Director, Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, supervisors of the individual and Civil Service Commission.

NCUA—6

**System name:** Investigative Reports Involving Possible Felonies and/or Violations of Federal Credit Union Act.

**System location:**

National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** Credit union employees who have misused or are suspected of having misused their trust in the credit union, with subsequent investigation and/or prosecution. Also, any member of a Federal credit union involved or suspected of having been involved in a felony or an infraction under the Federal Credit Union Act.

**Categories of records in the system:** Investigative reports relating to possible felonies and violations of the Federal Credit Union Act (embezzlements, improper allocation of credit union funds, etc.).

**Authority for maintenance of the system:** 12 U.S.C. 1766, 1789.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To determine disposition to be made, if any, of information contained in investigative reports. Referral of information in this system may be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, to any appropriate agency or official in the course of collection of an outstanding claim, to to any appropriate agency, official, court, magistrate, or administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—records are maintained on hard paper copy. Retrievability—system is indexed by name. Safeguards—records are maintained in a separate locked room accessible only to the Security Officer and his designated assistants. The records are further secured in a locked safe accessible only to the Security Officer and his designated assistants. Retention and disposal—after records have served the operational needs of NCUA and after disposition of the subject matter of the records, they are returned to the originating agency or destroyed.

**System manager(s) and address:**

Security Officer
National Credit Union Administration
2025 M Street, NW.
Room 4306
Washington, D.C. 20456

**Notification procedure:** Same as above, subject to exemption discussed below.

**Record access procedures:** Same as above, subject to exemption discussed below.

**Contesting record procedures:** Same as above, subject to exemption discussed below.

**Record source categories:** Federal Bureau of Investigation, investigative branches of the three armed services of the Department of Defense.

**Systems exempted from certain provisions of the act:** This system is subjected to a specific exemption pursuant to 5 U.S.C. 552a(k)(2), as the system of records is investigatory material compiled for law enforcement purposes.

NCUA—7

**System name:** Loan Management Records System, NCUA

**System location:**

Division of Financial Management
Office of Administration
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** Members of liquidating federallyINSURED CREDIT UNIONS)

**Categories of records in the system:** Share and account balances, personal data regarding income and debts, payment history.

**Authority for maintenance of the system:** 12 U.S.C. 1787

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Data used for payment of insurance claims to shareholders in liquidating federally-insured credit unions, for use in collection of outstanding loan balances, which may include, inter alia, referral of information to the General Accounting Office or the Department of Justice, and generally for all purposes necessary to wind up the affairs of the closed credit union, including referral of necessary information to facilitate a purchase of its assets by NCUA or sale to a third party, referral of non-credit information to outside address locaters, and referral of information to a surety company in pursuit of a fidelity bond claim. Referral of information in this system may also be made, as a routine use, to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—information is initially compiled on data conversion sheets prepared by NCUA examiners acting as on-site liquidators. That data is stored on computer tape, from which loan registers may be prepared and furnished to NCUA regional offices or prospective purchasers of the assets of closed credit unions. In addition to data stored on computer tape, data conversion sheets, loan registers, essential share and loan documents and members filed claim forms are maintained on hard paper copy. Retrievability—indexed by name of member and closed insured credit union. Safeguards—records are maintained in secured offices of the National Credit Union Administration's Division of Financial Management. Retention and disposal—information is disposed of after ten years retention.

**System manager(s) and address:**

Loan Management Specialist
Division of Financial Management
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above. Written inquiries should include name of inquirer, name of closed insured credit union of which inquirer was a member, and share and loan account numbers, if known, in addition to any requirements set by 12 CFR Part 720, Subpart B.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, outside address locaters and share and loan account files of the liquidating credit union of which the individual was a member.

NCUA—8

**System name:** Member Account Records of Federally Insured Credit Unions Closed for Involuntary Liquidation, NCUA.

**System location:** Records within this system of records are located at one of the National Credit Union Administration Regional Offices as indicated below for a period of time necessary to answer inquiries of credit union members and transfer share and loan information to NCUA's Division of Financial Management, Washington, D.C. After such time, the records are transferred for storage to one of twelve General Services Administration records storage centers.

I. NCUA Region I Regional Office
State Street South Building, Room 3E
1766 Heritage Drive
Boston, Massachusetts 02171
Phone: (617) 223-6807

Records of a federally-insured credit union which has been closed for liquidation, and for which the Administrator, NCUA, serves as liquidating agent, are located at the above address prior to transfer to a GSA storage center, if the main office of such credit union was located within one of the following states or territories: Connecticut, Maine, Massachusetts, New Hampshire, New York, Puerto Rico, Rhode Island, Virgin Islands, Vermont.

II. NCUA Region II Regional Office
Federal Building
228 Walnut St., Box 926
Harrisburg, Pennsylvania 17108
Phone: (717) 782-4597

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center if the main office of the credit union was located within one of the following states: District of Columbia, Delaware, Maryland, New Jersey, Pennsylvania.

III. NCUA Region III Regional Office
800 Peachtree Street, NE.
Room 500
Atlanta, Georgia 30308
Phone: (404) 526-3127

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as a liquidating agent are located at the above address prior to transfer to a GSA storage center if the main office of the credit union was located within one of the following states or territories: Alabama, Panama Canal Zone, Florida, Georgia, Kentucky, Mississippi, North Carolina, Tennessee, Virginia.

IV. NCUA Region IV Regional Office
New Federal Building
234 N. Summit St., Room 1003
Toledo, Ohio 43604
Phone: (419) 259-7511

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center if the main office of such credit union was located within one of the following states: Illinois, Indiana, Iowa, Michigan, Minnesota, North Dakota, Ohio, South Dakota, Wisconsin.

V. NCUA Region V Regional Office
205 W. Ninth St., 7th Floor
Austin, Texas 78701
Phone: (512) 397-5131

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA serves as liquidating agent are located at the above address prior to transfer to a GSA storage center if the main office of the credit union was located in one of the following states: Arkansas, Colorado, Kansas, Louisiana, Missouri, Nebraska, New Mexico, Oklahoma, Texas, Utah, Wyoming.

VI. NCUA, Region VI Regional Office
760 Market St., Room 809
San Francisco, California 94102
Phone: (415) 556-6277

Records of a liquidating, federally-insured credit union for which the Administrator, NCUA, serves as liquidating agent are located at the above address prior to transfer to a GSA storage center if the main office of the credit union was located within one of the following states or territories: Alaska, California, Guam, Hawaii, Idaho, Montana, Nevada, Oregon, Washington, Arizona.

**Categories of individuals covered by the system:** Records in this system of records are maintained only on those individuals who were members of a federally-insured credit union closed for liquidation and for which the Administrator, NCUA, serves as liquidating agent pursuant to 12 U.S.C. 1787.

**Categories of records in the system:** Records on individuals within this system of records contain information concerning an individual's membership in and share and loan transactions with the credit union which has been closed for liquidation. Such information is maintained in the following forms: membership card, individual share and loan ledgers, and promissory notes and extension agreements, if any.

**Authority for maintenance of the system:** Sections 120(b) and 207 of the Federal Credit Union Act (12 U.S.C. 1766(b), 1787)

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information and records in this system of records are used to close out the affairs of liquidating federally-insured credit unions, including (i) referral of information to credit union members, the NCUA Loan Management System, and any purchasers of the closed credit union.s assets, in the interest of payment of insured share accounts and sale of assets of the credit union, or collection on loans purchased by the National Credit Union Share Insurance Fund, (ii) referral of information to the credit union's surety in pursuit of fidelity bond claims, (iii) referral of relevant information to any appropriate agency or official in the course of collection of a claim of the United States, and (iv) referral of relevant information to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of enforcement of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—records on individual credit union member in this system of records are maintained on member account documents as compiled by individual credit unions prior to entering liquidation. These documents may include, but are not necessarily limited to, membership cards, individual share and loan ledgers, notes, security documents and extension agreements. Retrievability—member records are generally ordered or indexed by member name or account number. Safeguards—records within this system of records are maintained under the control of a designated agent for the liquidating agent who makes only such disclosures from the records as are necessary or requisite to enable the Administrator, NCUA to carry out his responsibilities under the Federal Credit Union Act, 12 U.S.C. 1751, et seq. Retention and disposal—the records are maintained in a National Credit Union Administration Regional Office as indicated under the Location section of this notice, for a period necessary to answer inquiries of credit union members and transfer appropriate share and loan information to the NCUA Loan Management System, Washington, D.C. After such time the records are transferred for permanent storage to one of twelve General Services Administration records storage centers.

**System manager(s) and address:** The system managers for this system of records are the six National Credit Union Administration Regional Directors located at the business addresses set forth in the Location section of this notice.

**Notification procedure:** An individual may determine whether the records of a closed credit union within this system include records pertaining to him (her) by addressing an inquiry to the appropriate Regional Director at the address set forth in the Location section of this notice, i.e., an individual inquiry should be addressed to the Regional Director whose Regional Office has jurisdiction over federally-insured credit unions operating in the state of location of the main office of the closed credit union which the inquirer was a member of. A jurisdictional breakdown of states is provided in the Location section of this notice. Inquiries should contain the name of the inquirer, the name of the credit union closed for liquidation pursuant to 12 U.S.C. 1787 which the inquirer was a member of, and the credit union account number of the inquirer, if known, in addition to any requirements set by 12 CFR Part 720, Subpart B.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** The sole sources of the information in this system of records are the member-related files and accounting records of federally-insured credit unions which have been closed for liquidation and for which the Administrator, NCUA, or his designee, serves as liquidating agent.

NCUA—9

**System name:** Middle Management Development Program, NCUA.

**System location:**

Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Categories of individuals covered by the system:** NCUA employees at the level of GS-14.

**Categories of records in the system:** Individual self-development plans.

**Authority for maintenance of the system:** 5 U.S.C. 4101, et seq.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information is used to evaluate employee performance for promotion purposes and to make required Civil Service Commission reporting. Referral of information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on hard paper copy. Retrievability—by employee name. Safeguards—maintained in metal file cabinets located in secured offices. Retention and disposal—records are purged annually for those employees no longer participating in the program.

**System manager(s) and address:**

Director, Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, supervisors, Civil Service Commission.

NCUA—10

**System name:** Minority Group Designator System (MGD), NCUA.

**System location:**

Office of Administration
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** Employees of NCUA who are members of a minority group.

**Categories of records in the system:** Statistical Employment Information by race, national origin and gender based on visual identification.

**Authority for maintenance of the system:** 5 U.S.C. 4101, et seq., 44 U.S.C. 3301.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Minority identification is used for statistical purposes only. Reports are produced for use of NCUA (Affirmative Action Plan, Internal Evaluations) or Civil Service Commission.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—records are in the form of computer printouts (Mag tapes). Retrievability—information from computer runs can be obtained in various forms, e.g., in alpha order by name, or by employee number or type. Safeguards—data processing facility is located in the data management division of the Office of Systems Planning and Research. The data for the MGD system is coded, and access to the code is limited to a small number of people: regional office managers, EEO Director, and the Division of Personnel (one DOP staff member). Retention and disposal—minority identification information is immediately erased from the computer once the individual leaves the employ of NCUA.

**System manager(s) and address:**

Director, Equal Employment Opportunity
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Visual identification is made by Division of Personnel official in the central office and by office managers in the regions.

NCUA—11

**System name:** New Examiner Training Files, NCUA

**System location:**

National Credit Union Administration
Division of Training
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Categories of individuals covered by the system:** NCUA examiners—entry level to one year on staff.

**Categories of records in the system:** Biweekly training reports, training progress reports, on-job trainers evaluation of classroom training, trainees evaluation of training program.

**Authority for maintenance of the system:** 5 U.S.C. 4101, et seq.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To determine retention or termination after 23 weeks on job. Referral of information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on hard paper copy. Retrievability—by employee name. Safeguards—maintained in metal file cabinets in secured offices of Division of Training. Retention and disposal—records are purged annually for those employees no longer participating in the program.

**System manager(s) and address:**

Director, Division of Training
National Credit Union Administration
1111 18th Street, NW.
Room 400
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record is maintained, on-job trainers, supervisors, Civil Service Commission.

NCUA—12

**System name:** Payroll Records System, NCUA.

**System location:**

Office of Administration
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456
General Services Administration
Region VI
Kansas City, Missouri

**Categories of individuals covered by the system:** Employees of NCUA

**Categories of records in the system:** Salary and related payroll data.

**Authority for maintenance of the system:** 5 U.S.C. 301, 44 U.S.C. 3301.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To make all necessary and appropriate financial reporting analysis and planning involving disclosures both intra-agency and to the General Services Administration. Referral of relevant information in this system may also be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation or in the course of collection of a claim of the United States, or to an appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—computer tape. Retrievability—by name or social security number. Safeguards—maintained in secured offices, access by written authorization only. Retention and disposal—in accordance with GSA policy.

**System manager(s) and address:**

Payroll Officer
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual whom the record concerns, Civil Service Commission, General Services Administration.

NCUA—13

**System name:** Region I Regional Office Staff Development/Correspondence Records, NCUA.

**System location:**

Region I Regional Office
National Credit Union Administration
State Street South Building
Room 3E
1776 Heritage Drive
Boston, Massachusetts 02171

**Categories of individuals covered by the system:** NCUA Region I Employees

**Categories of records in the system:** Contains information on NCUA examiners and professional staff related to some or all of the following areas: work performance appraisals, district management, chartering efforts, reactions from FCU officials, personal development plans, copies of personnel records, supply and equipment information and information concerning leave and pay activities. Contains information on NCUA clerical staff related to work performance and development activities, which may include work product samples, memos or notations from professional staff, development plans, evaluation of superiors, personnel records and information concerning pay and leave activity.

**Authority for maintenance of the system:** 5 U.S.C. 301, 44 U.S.C. 3301.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** The information in this system is used for recording time and attendance, controlling equipment inventories, training of staff, evaluation of employees work performance and general administrative matters. Referral of relevant information in this system may be made, as a routine use, to any appropriate agency or official in the course of an employment or security clearance investigation or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation, or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—maintained on paper hard copy. Retrievability—indexed by name. Safeguards—physical security consists of maintaining records in metal file cabinets within secured offices. Cabinets may be locked depending on the nature of the information which they contain. Retention and disposal—current and relevant information is maintained generally for a period of at least one to two years. Obsolete material is maintained in the same file cabinets and periodically destroyed or returned to the originator.

**System manager(s) and address:**

Office Manager
Region I Regional Office
National Credit Union Administration
State Street South Building
Room 3E
1776 Heritage Drive
Boston, Massachusetts 02171

**Notification procedure:** Regional Director. Same address as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Individual on whom the record in maintained, supervisors, Civil Service Commission.

NCUA—22

**System name:** Trusteed Account Records System, NCUA.

**System location:**

Division of Financial Management
Office of Administration
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** Members of liquidating federally insured credit unions.

**Categories of records in the system:** Share balances and last known address of individuals by whom or on whose behalf insured share account payout claims have not been filed.

**Authority for maintenance of the system:** 12 U.S.C. 1787.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** Information is used for processing claims subsequently received. Referral of information in this system may also be made, as a routine use, to a surety company in pursuit of a fidelity bond claim, to any appropriate agency or official in the course of collection of a claim of the United States, or to any appropriate agency, official, court, magistrate, administrative tribunal or opposing party in the course of investigation or prosecution of a violation or alleged or potential violation of any civil or criminal law or rule, regulation or order, or in the course of implementation of the law, rule, regulation or order.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—records are maintained on computer printout forms. Information in the system is also stored on computer tape by a private contractor pursuant to an agreement which provides that the information will remain confidential. Retrievability—by individual name, credit union name or a combination thereof. Safeguards—records are stored in secured offices. Retention and disposal—records are maintained until processing of claims is completed.

**System manager(s) and address:**

Operating Accountant, Trusteed Accounts
National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** Files of federally-insured credit unions closed for liquidation.

NCUA—23

**System name:** Verified Employee Mailing List, NCUA.

**System location:**

National Credit Union Administration
2025 M Street, NW.
Washington, D.C. 20456

**Categories of individuals covered by the system:** NCUA Employees.

**Categories of records in the system:** Name, address, telephone number, birthday, ethnic and sex codes, GS grade, employee type, employee identification number.

**Authority for maintenance of the system:** 5 U.S.C. 301, 44 U.S.C. 3301.

**Routine uses of records maintained in the system, including categories of users and the purposes of such uses:** To produce mailing labels and make reportings to the program analyst for the Assistant Administrator for Administration.

**Policies and practices for storing, retrieving, accessing, retaining, and disposing of records in the sytem:** Storage—computer disc 3330. Retrievability—by employee identification number. Safeguards—SCL decks available only to three persons in Division of Data Management, and terminal is maintained in a room which is secured by padlock after hours. Retention and Disposal—information is maintained on active, retired and deceased employees for an indefinite period.

**System manager(s) and address:**

Program Analyst for Assistant Administrator for Administration
National Credit Union Administration
2025 M Street, NW.
Washington, DC 20456

**Notification procedure:** Same as above.

**Record access procedures:** Same as above.

**Contesting record procedures:** Same as above.

**Record source categories:** NCUA form 1042 completed for each new employee by employee, personnel staff and supervisors. Form 1051 completed by same to report changes.

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

## Title 3—The President

Proclamation 4382 • August 5, 1975

**Termination of Temporary Quantitative Limitation on the Importation into the United States of Certain Cattle, Swine and Pork from Canada**

*By the President of the United States of America*

### A Proclamation

WHEREAS, Proclamation No. 4335 of November 16, 1974, limiting imports into the United States of certain cattle, beef, veal, swine and pork from Canada, was issued pursuant to Section 252(a) of the Trade Expansion Act of 1962 (19 U.S.C. 1882(a)) in response to Canada's imposing unjustifiable restrictions on cattle and meat imports from the United States, said Proclamation inserting item numbers 945.01 through 945.04 into subpart B of part 2 of the Appendix to the Tariff Schedules of the United States (TSUS), and

WHEREAS, Canada has now lifted those unjustifiable restrictions on cattle imports from the United States, and

WHEREAS, Section 255(b) of the Trade Expansion Act of 1962 (19 U.S.C. 1885(b)) authorizes the President to terminate in whole or in part any proclamation made pursuant to Section 252 of the Trade Expansion Act of 1962 (19 U.S.C. 1882(a)), and

WHEREAS, I deem it necessary and appropriate to terminate in part the restrictions proclaimed in Proclamation No. 4335, specifically those imposing temporary quantitative limitations on the importation into the United States of certain cattle, swine and pork from Canada, in order to encourage the resolution of trade disputes between the United States and Canada,

NOW, THEREFORE, I, GERALD R. FORD, President of the United States of America, acting under authority vested in me by the Constitution and statutes, including Section 255(b) of the Trade Expansion Act of 1962 (19 U.S.C. 1885(b)) do hereby proclaim that:

1) So much of Proclamation No. 4335 as proclaimed temporary quantitative limitations on the importation into the United States of certain cattle, swine, and pork from Canada is terminated.

VOL 40 NO 154 AUG 8 75 XU

2) Subpart B of part 2 of the Appendix to the TSUS is amended as follows:

(a) By deleting from the superior heading immediately preceding item 945.01 the following:

(i) "the cattle, the swine,"

(ii) ", or the pork"

(iii) "cattle, swine,"

(iv) "or pork, respectively,"

(b) By deleting items 945.01, 945.02, and 945.04.

3) This Proclamation is effective with respect to articles entered, or withdrawn from warehouse, for consumption after 12:01 a.m., EDT, August 7, 1975.

IN WITNESS WHEREOF, I have hereunto set my hand this fifth day of August, in the year of our Lord nineteen hundred and seventy-five, and of the Independence of the United States of America the two-hundredth.

Gerald R. Ford

[FR Doc.75-20918 Filed 8-6-75;3:04 pm]

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.

The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 7—Agriculture

## CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTIONS, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

## PART 26—GRAIN STANDARDS

### United States Standards for Barley

*Statement of considerations.* The United States Grain Standards Act, as amended (82 Stat. 762, 7 U.S.C. 76) provides for official U.S. standards to designate the levels of quality of grain for use by producers, merchandisers, and consumers in the domestic and export marketing of grain. Official grading service is provided under the Act upon request of the applicant and payment of a fee to cover the cost of the service.

Pursuant to section 4 of the Act, a notice concerning a proposed revision of the United States Standards for Barley (7 CFR 26.201 et seq.) was published in the FEDERAL REGISTER (39 FR 14512) on April 24, 1974, according to the administrative procedure provisions of section 553 of Title 5, United States Code.

Approximately 1,000 reprints of the notice were sent to interested persons in the grain industry. Interested persons were given until July 24, 1974, to submit data, views, or recommendations concerning the proposed revisions.

A total of 10 written comments were received in response to the notice. Three commentors concurred with the proposal. The remaining seven commentors concurred with the proposal, in general, but objected to (1) the proposed 14.0 percent moisture limit above which barley would be graded "Tough," and (2) the proposed requirement that the percentage of "plump" barley be reported on all grade certificates for malting barley.

The seven commentors who objected to the proposed 14.0 percent moisture limit above which barley would be graded "Tough" indicated that barley has been and can be routinely stored under normal conditions at the 14.5 percent moisture level in the barley-producing areas, and that adoption of the proposed 14.0 percent limit would encourage producers in the upper midwest to delay harvest to achieve field drying. The delay in harvest would expose the barley to quality deterioration in the field and could result in price discounts and possible eligibility problems under a price-support program.

After consideration of the comments, available information, the fact that the special grade designation "Tough" is only an indicator of a possible storage problem, and that delay in harvesting to achieve field drying would expose the barley to possible quality deterioration in the field, it appears more desirable to establish the limit for "Tough" barley at "more than 14.5 percent" instead of the proposed "more than 14.0 percent."

The commenters who objected to the proposal that the percentage of "plump" barley be reported on all grade certificates for malting barley indicated that an unofficial system of determining and reporting "plump" barley has been used successfully in the Minneapolis market for many years and that, if the information is required to be determined by official inspection personnel and reported on grade certificates, it would increase inspection costs and inspection time, and would result in costly delays in the merchandising of malting barley.

Marketing and pricing practices demonstrate that the factor "plump" is the best practicable malt yield indicator for malting barley, and that there is a direct relationship between the percentage of "plump" kernels and the price of the barley. Further, information on the plump factor is used extensively in malting barley trading and is shown on grade certificates issued by the official inspection agencies in six malting barley markets—Milwaukee, Wisconsin; Great Falls, Montana; Spokane, Pasco, and Colfax, Washington; and Jamestown, North Dakota.

After consideration of the comments and other information available in the Department, it is concluded that the "plump" factor information is of substantial value to the malting barley industry; that it should be defined in the U.S. standards for malting barley; and that it should be shown on all certificates of grade for malting barley.

The concern regarding an increase in cost and inspection time is shared by the Department. The determination of "plump" is a simple sizing test and can be included with the other routine sizing tests that are performed in the grading of malting barley. Accordingly, no substantial delay is foreseen in the official inspection for the factor "plump."

Two commentors suggested that reporting "plump" barley in terms of a single whole percent would be consistent with current reporting practices and would be easier for buyers and sellers to understand.

The proposal that the percentage of "plump" would be shown on grade certificates in 5 percent ranges, for example 71–75 percent, was considered to be consistent with general pricing practices and consistent with expected variations in tests. The figures for the ranges of "plump" barley as listed in the proposal have been revised for clarification (e.g., "55 percent to 60 percent, 60 percent to 65 percent . . ." now reads "56 percent to 60 percent, 61 percent to 65 percent . . ."). If pricing practices change, and if the accuracy of testing procedures increase, consideration will be given to changing the reporting procedure to reflect the changes.

The Department proposed to list under § 26.201(v), "Suitable Malting Type," the new varieties of barley as they were approved for malting purposes. However, the Department has determined after further consideration that such a listing is not advisable because of the normal 1-year delay, after final rulemaking, in the effective date of a revised standard. New approved varieties of barley are released almost annually for production, but it would normally take a minimum of 1½ years to add such a new variety to the approved list. That variety could not be graded as "malting barley" during the interim. Such a delay would serve no useful purpose and could cause an economic hardship on seed companies and possibly producers. Therefore, the proposed definition has been deleted and new wording substituted stating that the approved varieties will be listed in the Grain Inspection Manual, GR Instruction 918–6, which is available from the Grain Division upon request. Listing approved varieties in the Grain Inspection Manual created no problems or objections in the past, and under the circumstances, continuing this practice would appear more desirable. Therefore, publishing this change as proposed rulemaking is deemed unnecessary.

After full consideration of all comments, discussions, and other relevant information available to the Department, the proposal is hereby adopted, except that (1) "Tough" barley shall be defined as barley which contains more than 14.5 percent moisture instead of more than 14.0 percent moisture as proposed; (2) varieties approved as "suitable malting type" will continue to be listed in the Grain Inspection Manual instead of the standards; and (3) other editorial and minor changes for clarification purposes, which include: the addition of footnotes in the malting barley tables (sections 26.206 and 26.207) to clarify that frost damaged minor and mold damaged minor shall not function as damaged kernels (when applicable) or against the sound barley; and that "mold-damaged kernels (major)" in six-rowed malting barley function as damaged kernels and against sound barley; and in Section 26.202, paragraph (c)(1)(ii), the insertion of the wording "which is not semi-steely in mass; which is not badly stained or materially weathered, bleached, blighted, ergoty, garlicky, smutty, or weevily" immediately following the words

VOL 40 NO 154 AUG 8 75 XU

"blue aleurone layers" and immediately preceding the word "and" (the statement was inadvertently omitted from the proposed changes and does not represent any change from the current standards); and in Section 26.210 the insertion of an omitted paragraph "(g) Stained barley" and its definition; and the changing of paragraphs "g" and "h" to "h" and "i," respectively; and in Section 26.211[1] the insertion of the omitted word, "Stained" immediately following the word "Smutty," and immediately preceding the word "Tough"; and the revision to clarify the percentage figures in the ranges of "plump" barley.

Accordingly, the United States Standards for Barley, 7 CFR 26.201–26.211, are revised to read as follows:

UNITED STATES STANDARDS FOR BARLEY[1]

TERMS DEFINED

Sec.
26.201 Definitions of barley.
26.202 Definitions of other terms.

PRINCIPLES GOVERNING THE APPLICATION OF THE STANDARDS

26.203 Basis of determination.
26.204 Temporary modification in equipment and procedures.
26.205 Percentages.

GRADES, GRADE REQUIREMENTS, AND GRADE DESIGNATIONS

26.206 Grades and grade requirements for the subclasses Six-rowed Malting Barley and Six-rowed Blue Malting Barley (See also § 26.202(c)(1)(i) and (ii); § 26.210(a) through (h); and § 26.211.)
26.207 Grades and grade requirements for the subclass Two-rowed Malting Barley. (See also § 26.202(c)(2)(i); § 26.210(a) through (h); and § 26.211.)
26.208 Grades and grade requirements for the subclasses Six-rowed Barley, Two-rowed Barley, and the class Barley. (See also § 26.202(c)(1)(iii), (2)(ii), § 26.210(a) through (h) and § 26.211.)
26.209 Grade designations.

SPECIAL GRADES, SPECIAL GRADE REQUIREMENTS, AND SPECIAL GRADE DESIGNATIONS

26.210 Special grades and special grade requirements.
26.211 Special grade designations.

UNITED STATES STANDARDS FOR BARLEY[1]

TERMS DEFINED

### § 26.201 Definition of barley.

Grain which, before the removal of dockage, consists of 50 percent or more of whole kernels of cultivated barley (*Hordeum vulgare* L. and *H. distichum* L.) and not more than 25 percent of other grains for which standards have been established under the United States Grain Standards Act. The term "barley" as used in these standards shall not include hull-less barley.

[1] Compliance with the provisions of these standards does not excuse failure to comply with the provisions of the Federal Food, Drug, and Cosmetic Act, or other Federal laws.

### § 26.202 Definitions of other terms.

For the purposes of these standards the following terms shall have the meanings stated below:

(a) *Black barley.* Barley with black hulls.

(b) *Broken kernels.* Barley with more than ¼ of the kernel removed.

(c) *Classes.* Barley shall be divided into the following three classes: Six-rowed Barley, Two-rowed Barley, and Barley.

(1) *Six-rowed Barley.* Barley of the six-rowed type with white hulls which contains not more than 10.0 percent of two-rowed barley or black barley, either singly or combined. This class shall be divided into the following three subclasses:

(i) *Six-rowed Malting Barley.* Six-rowed barley of a suitable malting type which has 90.0 percent or more of kernels with white aleurone layers; which is not semisteely in mass; which is not badly stained or materially weathered, bleached, blighted, ergoty, garlicky, smutty, or weevily, and which otherwise meets the requirements of the grades for the subclass Six-rowed Malting Barley (see § 26.206).

(ii) *Six-rowed Blue Malting Barley.* Six-rowed barley of a suitable malting type which has 90.0 percent or more of kernels with blue aleurone layers; which is not semisteely in mass; which is not badly stained or materially weathered, bleached, blighted, ergoty, garlicky, smutty, or weevily; and which otherwise meets the requirements of the subclass Six-rowed Malting Barley (see § 26.206).

(iii) *Six-rowed Barley.* Any barley of the class Six-rowed Barley which does not meet the requirements of the subclass Six-rowed Malting Barley or Six-rowed Blue Malting Barley.

(2) *Two-rowed Barley.* Barley of the two-rowed type with white hulls which contain not more than 10.0 percent of six-rowed barley or black barley, either singly or combined. This class shall be divided into the following two subclasses:

(i) *Two-rowed Malting Barley.* Two-rowed barley of a suitable malting type, which is not semisteely in mass; which is not badly stained or materially weathered, bleached, blighted, ergoty, garlicky, smutty, or weevily, and which otherwise meets the requirements of the grades for the subclass Two-rowed Malting Barley (see § 26.207).

(ii) *Two-rowed Barley.* Two-rowed barley which does not meet the requirements of the subclass Two-rowed Malting Barley.

(3) *Barley.* Barley which does not meet the requirements for any of the classes Six-rowed Barley, Two-rowed Barley, or which contains more than 10 percent of black barley.

(d) *Damaged kernels.* Kernels and pieces of kernels of barley, other grains, and wild oats, which are: Blight-damaged, mold-damaged (major and minor), heat-damaged (major and minor), sprout-damaged or malted, frost-damaged (major and minor), germ-damaged, badly ground-damaged, badly weather-damaged, insect-bored, or otherwise materially damaged.

(e) *Distinctly low quality.* Barley which is obviously of inferior quality because it contains foreign substances or because it is in an unusual state or condition, and which cannot be properly graded by use of the other grading factors provided in the standards.

(f) *Dockage.* Weed seeds, weed stems, chaff, straw, grain other than barley, sand, dirt, and any material other than barley which can be removed readily from a test portion of the original sample by use of an approved device in accordance with procedures prescribed in the Grain Inspection Manual.[2] Dockage shall include underdeveloped, shriveled, and small pieces of barley kernels removed in properly separating the material other than barley and which cannot be recovered by properly rescreening or recleaning. For the purpose of this paragraph "approved device" shall include the Carter Dockage Tester and any other equipment that is approved by the Administrator as giving equivalent results.[3]

(g) *Foreign material.* All matter other than barley, other grains, and wild oats, which is not separated from the barley in the determination of dockage.

(h) *Frost-damaged kernels (major).* Kernels and pieces of kernels of barley which are badly shrunken and distinctly discolored black or brown by frost.

(i) *Frost-damaged kernels (minor).* Kernels and pieces of kernels of barley which are distinctly indented, immature or shrunken in appearance; or which are light green in color as a result of frost before maturity.

(j) *Germ-damaged kernels.* Kernels and pieces of kernels of barley that have dead germs or discolored germ ends indicative of dead germs.

(k) *Heat-damaged kernels (major).* Kernels and pieces of kernels of barley, other grains and wild oats, which are materially discolored and damaged by heat.

(l) *Heat-damaged kernels (minor).* Kernels and pieces of kernels of barley which are slightly discolored as a result of heating.

(m) *Mold-damaged kernels (major).* Kernels and pieces of kernels of barley which are weathered and contain considerable evidence of mold.

[2] Grain Inspection Manual, GR Instruction 918–6, effective August 28, 1972, as amended, U.S. Department of Agriculture, Agricultural Marketing Service. Copies may be obtained from the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782.

[3] Requests for information concerning approved devices and procedures, criteria for approved devices, and request for approval of devices should be directed to the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782.

(n) *Mold-damaged kernels (minor).* Kernels and pieces of kernels of barley containing slight evidence of mold.

(o) *Moisture.* Water content in barley as determined by an approved device in accordance with procedures prescribed in the Grain Inspection Manual.[2] For the purpose of this paragraph "approved device" shall include the Motomco moisture meter and any other equipment that is approved by the Administrator as giving equivalent results.[3]

(p) *Other grains.* Corn, cultivated buckwheat, einkorn, emmer, flaxseed, sorghum, guar, hull-less barley, non-grain sorghum, oats, Polish wheat, popcorn, poulard wheat, rice, rye, soybeans, spelt, sweet corn, sunflower, triticale, and wheat.

(q) *Plump barley.* Barley that remains on top of a 6/64 x 3/4 slotted-hole sieve after sieving in accordance with procedures prescribed in the Grain Inspection Manual.[2]

(r) *Sieves.* (1) *5/64 x 3/4 slotted-hole sieve.* A metal sieve 0.032 inch thick with slotted perforations 0.0781 (5/64) inch by 0.750 (3/4) inch.

(2) *5 1/2/64 x 3/4 slotted-hole sieve.* A metal sieve 0.032 inch thick with slotted perforations 0.0859 (5 1/2/64) inch by 0.750 (3/4) inch.

(3) *6/64 x 3/4 slotted-hole sieve.* A metal sieve 0.032 inch thick with slotted perforations 0.0937 (6/64) inch by 0.750 (3/4) inch.

(s) *Skinned and broken kernels.* Barley kernels from which one-third or more of the hull has been removed, or in which the hull is loose or missing over the germ, or broken kernels, or whole kernels in which part or all of the germ is missing.

(t) *Sound barley.* Kernels and pieces of kernels of barley, except for frost-damaged kernels (minor) and mold-damaged kernels (minor), which are not damaged, as defined under paragraph (d) of this section.

(u) *Stones.* Concreted earthy or mineral matter and other substances of similar hardness that do not disintegrate readily in water.

(v) *Suitable malting type.* Varieties of malting barley which have been approved as being suitable for malting purposes. The approved varieties are listed in the Grain Inspection Manual, GR Instruction 918–6, which is available upon request from the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture.

(w) *Test weight per bushel.* (1) Test weight per bushel shall be the weight per Winchester bushel (2,150.42 cubic inch capacity) as determined on a test portion of the original sample by an approved device in accordance with instructions in the Grain Inspection Manual.[2] For the purpose of this paragraph "approved device" shall include the Fairbanks-Morse or Ohaus Test Weight Per Bushel apparatus and any other equipment that is approved by the Administrator as giving equivalent results.[3]

(2) Test weight per bushel shall be stated in terms of whole and half pounds; a fraction of a pound when equal to or greater than one-half shall be stated as one-half and when less than one-half shall be disregarded; e.g., 51.1 through 51.4 shall be 51.0 and 51.5 through 51.9 shall be 51.5.

(x) *Thin barley.* Barley and other matter which may be removed from a test portion of the original sample by an approved device in accordance with procedures prescribed in the Grain Inspection Manual.[2] For the purpose of this paragraph "approved device" shall be the 5 1/2/64 x 3/4 slotted-hole sieve for the class Two-rowed Barley and the 5/64 x 3/4 slotted-hole sieve for the class Six-rowed Barley.

(y) *Wild brome grasses.* Seeds of brome grasses such as *Bromus rigidus* which have harsh awns and which are injurious when fed to livestock.

(z) *Wild oats.* Seeds of *Avena fatua* and *A. sterilis.*

(aa) *Whole kernels.* Barley with 1/4 or less of the kernel removed.

PRINCIPLES GOVERNING THE APPLICATION OF THE STANDARDS

### § 26.203 Basis of determination.

Each determination of dockage, moisture, temperature, odor, garlic, live weevils or other insects injurious to stored grain, crotalaria seeds, large stones, castor beans, broken glass, animal filth, an unknown foreign substance, a commonly recognized harmful or toxic substance, and otherwise distinctly low quality shall be upon the basis of the grain as a whole. Each determination of heat-damaged kernels, white aleurone layers in Six-rowed Malting Barley; and blue aleurone layers in Six-rowed Blue Malting Barley shall be determined on a test portion of pearled, dockage-free barley. All other determinations shall be on a test portion of barley when free from dockage.

### § 26.204 Temporary modifications in equipment and procedures.

The equipment and procedures referred to in the barley standards are applicable to barley produced and harvested under normal environmental conditions. Abnormal environmental conditions during the production and harvesting of barley may require minor temporary modifications in the equipment or procedures to obtain results expected under normal conditions. When these adjustments are necessary, Grain Division Field Offices, official inspection agencies, and interested parties in the grain trade will be notified promptly in writing of the modification. These modifications shall not include changes in interpretations of identity, class, quality, or condition.

### § 26.205 Percentages.

(a) Percentages shall be determined on the basis of weight and shall be rounded off as follows:

(1) When the figure to be rounded is followed by a figure greater than 5, round to the next higher figure; e.g., 0.46, report as 0.5.

(2) When the figure to be rounded is followed by a figure less than 5, round to the next lowest figure; e.g., 0.54, report as 0.5.

(3) When the figure to be rounded is even and it is followed by the figure 5, retain the even figure. When the figure to be rounded is odd and it is followed by 5, round the figure to the next higher number; e.g., 0.45, report as 0.4; 0.55, report as 0.6.

(b) Percentages shall be stated in whole and tenth percent to the nearest tenth of a percent, except for dockage, the identity of barley, classes, and for plump barley. The percentage of dockage, when equal to one percent or more, shall be stated as a whole percent; a fraction of a percent shall be disregarded. The percentage, when determining the identity of barley and the classes in the class "Barley," shall be stated to the nearest whole percent. The percentage of plump barley shall be determined to the nearest whole percent and expressed in terms of the range in which it falls. Ranges shall be: Below 50 percent, 50 percent to 55 percent, 56 percent to 60 percent, 61 percent to 65 percent, 66 percent to 70 percent, 71 percent to 75 percent, 76 percent to 80 percent, 81 percent to 85 percent, 86 percent to 90 percent, 91 percent to 95 percent, and 96 percent to and including 100 percent.

GRADES, GRADE REQUIREMENTS, AND GRADE DESIGNATIONS

### § 26.206 Grades and grade requirements for the subclasses Six-rowed Malting Barley and Six-rowed Blue Malting Barley. (See also § 26.202(c)(1)(i) and (ii); § 26.210 (a) through (h); and § 26.211.)

| Grade[1] | Minimum limits of— | | | Maximum limits of— | | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Test weight per bushel | Suitable malting type | Sound barley | Damaged kernels[2] | Foreign material | Other grains | Skinned and broken kernels | Thin barley | Black barley |
| | *Pounds* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* |
| U.S. No. 1 | 47.0 | 95.0 | 97.0 | 2.0 | 1.0 | 2.0 | 4.0 | 7.0 | 0.5 |
| U.S. No. 2 | 45.0 | 95.0 | 94.0 | 3.0 | 2.0 | 3.0 | 6.0 | 10.0 | 1.0 |
| U.S. No. 3 | 43.0 | 95.0 | 90.0 | 4.0 | 3.0 | 5.0 | 8.0 | 15.0 | 2.0 |

[1] Six-rowed Malting Barley and Six-rowed Blue Malting Barley may contain a maximum of 1.9 percent of frost damaged kernels of which not more than 0.4 percent may be frost-damaged (major), may contain a maximum of 0.2 percent of heat-damaged kernels of which not more than 0.1 percent may be heat-damaged kernels (major), and may contain unlimited amounts of mold-damaged kernels (minor); however, mold-damaged kernels (major) shall function as "damaged kernels" and against "sound barley."

[2] Frost-damaged kernels (minor) and mold-damaged kernels (minor) shall not be included as damaged kernels or scored against sound barley.

NOTE: Six-rowed barley that meets the requirements of U.S. No. 1 to U.S. No. 3, inclusive, for the subclasses Six-rowed Malting Barley and Six-rowed Blue Malting Barley shall be classified and graded according to the requirements in this section. Otherwise, it shall be graded according to the requirements in § 26.208.

**§ 26.207 Grades and grade requirements for the subclass Two-rowed Malting Barley. (See also § 26.202(c)(2)(i); § 26.210 (a) through (h); and § 26.211.)**

| Grade[1] | Minimum limits of— | | | | Maximum limits of— | | | | |
|---|---|---|---|---|---|---|---|---|---|
| | Test weight per bushel | Suitable malting types | Sound barley[2] | Wild oats | Foreign material | Skinned and broken kernels | Thin barley | Black barley |
| | *Pounds* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* |
| U.S. No. 1 choice | 50.0 | 97.0 | 98.0 | 1.0 | 0.5 | 5.0 | 5.0 | 0.5 |
| U.S. No. 1 | 48.0 | 97.0 | 98.0 | 1.0 | 0.5 | 7.0 | 7.0 | 0.5 |
| U.S. No. 2 | 48.0 | 95.0 | 96.0 | 2.0 | 1.0 | 10.0 | 10.0 | 1.0 |
| U.S. No. 3 | 48.0 | 95.0 | 93.0 | 3.0 | 2.0 | 10.0 | 10.0 | 2.0 |

[1] Two-rowed Malting Barley may contain a maximum of 1.9 percent of frost-damaged kernels of which not more than 0.4 percent may be frost-damaged kernels (major), may contain a maximum of 0.2 percent of heat-damaged kernels of which not more than 0.1 percent may be heat-damaged kernels (major), and may contain a maximum of 1.9 percent of mold-damaged kernels of which not more than 0.4 percent may be mold-damaged (major).

[2] Frost-damaged kernels (minor) and mold-damaged kernels (minor) shall not be scored against sound barley.

NOTE: Two-rowed barley that meets the requirements of U.S. No. 1 Choice to U.S. No. 3, inclusive, for the subclass Two-rowed Malting Barley shall be classified and graded according to the requirements in this section. Otherwise, it shall be graded according to the requirements in § 26.208.

**§ 26.208 Grades and grade requirements for the subclasses Six-rowed Barley, Two-rowed Barley, and the class Barley. (See also § 26.202(c)(1)(iii), (2)(ii); § 26.210 (a) through (h) and § 26.211.)**

| Grade | Minimum limits of— | | | | Maximum limits of— | | | |
|---|---|---|---|---|---|---|---|---|
| | Test weight per bushel | Sound barley | Damaged kernels[1] | Heat-damaged kernels (Major) | Foreign material | Broken kernels | Thin barley | Black barley[2] |
| | *Pounds* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* | *Percent* |
| U.S. No. 1 | 47.0 | 97.0 | 2.0 | 0.2 | 1.0 | 4.0 | 10.0 | 0.5 |
| U.S. No. 2 | 45.0 | 94.0 | 4.0 | 0.3 | 2.0 | 8.0 | 15.0 | 1.0 |
| U.S. No. 3 | 43.0 | 90.0 | 6.0 | 0.5 | 3.0 | 12.0 | 25.0 | 2.0 |
| U.S. No. 4[3] | 40.0 | 85.0 | 8.0 | 1.0 | 4.0 | 18.0 | 35.0 | 5.0 |
| U.S. No. 5 | 36.0 | 75.0 | 10.0 | 3.0 | 5.0 | 28.0 | 75.0 | 10.0 |
| U.S. Sample grade | U.S. Sample grade shall be barley which— (a) Does not meet the requirements for the grades U.S. Nos. 1, 2, 3, 4, or 5. (b) Contains a quantity of smut so great that one or more of the grade requirements cannot be determined accurately. (c) Contains more than 7 stones or more than 2 crotalaria seeds (*Crotalaria* spp.) per 1,000 grams of barley. (d) Has a musty, sour, or commercially objectionable foreign odor (except smut or garlic odor), or (e) Contains the seeds of wild brome grasses, or (f) Is heating or otherwise of distinctly low quality. | | | | | | | |

[1] Includes heat-damaged kernels (major). Frost-damaged kernels (minor) and mold-damaged kernels (minor) shall not be considered as damaged kernels.

[2] These limits do not apply to the class Barley.

[3] Barley that is badly stained or materially weathered shall be graded not higher than U.S. No. 4.

**§ 26.209 Grade designations.**

The grade designation for barley shall include, in the following order: (a) The letters "U.S.," (b) the number of the grade or the words "Sample grade," (c) the special grade "Bright," if applicable (see § 26.211), (d) the name of the applicable subclass, or in the case of the class Barley, the name of the class; (e) the name of each applicable special grade (see § 26.211), (f) when applicable, the word "dockage" together with the percentage thereof; and (g) for malting barley, the words "Plump Barley" together with the applicable percentage range. If requested by the applicant, the grade designation for the class Barley shall include, following the word "Barley," the approximate percentage of each class and of black barley in the mixture, in order of predominance.

SPECIAL GRADES, SPECIAL GRADE REQUIREMENTS, AND SPECIAL GRADE DESIGNATIONS

**§ 26.210 Special grades and special grade requirements.**

A special grade, when applicable, is supplemental to the grade assigned under § 26.206, § 26.207, or § 26.208. Such special grades are established and determined as follows:

(a) *Bleached barley.* Barley which, in whole or in part, has been treated with sulphurous acid or any other bleaching agent.

(b) *Blighted barley.* Barley which contains more than 4.0 percent of blight-damaged and/or mold-damaged kernels (major).

(c) *Bright barley.* Barley, except bleached barley, that is of exceptionally good natural color.

(d) *Ergoty barley.* Barley which contains ergot in excess of 0.10 percent.

(e) *Garlicky barley.* Barley which contains three or more green garlic bulblets, or an equivalent quantity of dry or partly dry bulblets in 500 grams of barley.

(f) *Smutty barley.* Barley which has kernels covered with smut spores to give a smutty appearance in mass, or which contains 0.20 percent or more of smut masses.

(g) *Stained barley.* Barley, except bleached barley that is badly stained or weathered.

(h) *Tough barley.* Barley which contains more than 14.5 percent moisture.

(i) *Weevily barley.* Barley which is infested with live weevils or other insects injurious to stored grain. As applied to barley the meaning of the term "infested" is set forth in chapter V of the Grain Inspection Manual.[3]

**§ 26.211 Special grade designations.**

The grade designation for bright barley shall include, preceding the class or subclass, the word "Bright." The grade designation for bleached, blighted, ergoty, garlicky, smutty, tough, or weevily barley shall include, following the class or subclass, the word(s) "Bleached," "Blighted," "Ergoty," "Garlicky," "Smutty," "Stained," "Tough," or "Weevily," as warranted, and all other information prescribed in § 26.209.

*Comments.* For a period of 6 months after adoption of these amendments, official inspection personnel shall, upon request, show on inspection certificates the grade under both the revised standards and the standards before the revision.

*Effective date.* The foregoing United States Standards for Barley shall become effective November 1, 1976.

Done at Washington, D.C., on August 4, 1975.

WILLIAM H. WALKER, III,
*Acting Administrator.*

## CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

[Lemon Reg. 5]

## PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

### Limitations of Handling

This regulation fixes the quantity of California-Arizona lemons that may be shipped to fresh market during the weekly regulation period August 10–16, 1975. It is issued pursuant to the Agricultural Marketing Agreement Act of 1937, as amended, and Marketing Order No. 910. The quantity of lemons so fixed was arrived at after consideration of the total available supply of lemons, the quantity of lemons currently available for market, the fresh market demand for lemons, lemon prices, and the relationship of season average returns to the parity price for lemons.

**§ 910.305 Lemon Regulation 5.**

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the Act.

(2) The need for this regulation to limit the quantity of lemons that may be marketed during the ensuing week stems from the production and marketing situation confronting the lemon industry.

(i) The committee has submitted its recommendation with respect to the quantity of lemons it deems advisable to be handled during the ensuing week. Such recommendation resulted from consideration of the factors enumerated in the order. The committee further reports the demand for lemons is generally easier at the beginning of this week. Average f.o.b. price was $7.05 per carton the week ended August 2, 1975, compared to $6.31 per carton the previous week. Track and rolling supplies at 126 cars were up 2 cars from last week.

(ii) Having considered the recommendation and information submitted by the committee, and other available information, the Secretary finds that the quantity of lemons which may be handled should be fixed as hereinafter set forth.

(3) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this regulation is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on August 5, 1975.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period August 10, 1975, through August 16, 1975, is hereby fixed at 280,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended (7 U.S.C. 601–674))

Dated: August 6, 1975.

D. S. KURYLOSKI,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.75-20941 Filed 8-7-75;8:45 am]

## Title 8—Aliens and Nationality

## CHAPTER I—IMMIGRATION AND NATURALIZATION SERVICE, DEPARTMENT OF JUSTICE

## PART 212—DOCUMENTARY REQUIREMENTS: NONIMMIGRANTS; WAIVERS; ADMISSION OF CERTAIN INADMISSIBLE ALIENS; PAROLE

### Visa Waiver for Certain Nonimmigrants

Reference is made to the notice of proposed rule making which was published in the FEDERAL REGISTER of August 13, 1974 (39 FR 28996) pursuant to 5 U.S.C. 553 (80 Stat. 383) and in which there were set forth the proposed amendments to 8 CFR 212.1(b) concerning the revocation of the waiver of the nonimmigrant visa requirement for certain aliens seeking to enter Puerto Rico or the Virgin Islands of the United States.

The representations which were received in response to the proposed rules of August 13, 1974, have been carefully considered. The proposed rules have been modified in the following respects. The provision for a waiver of the visa requirement for nationals of the British Virgin Islands having a residence in such islands when seeking to enter the Virgin Islands of the United States as nonimmigrants, has been retained. Nationals of other British, French, or Netherlands territory in the Caribbean area or of independent countries formerly a part of such territory, who are the beneficiaries of indefinite certifications issued by the Department of Labor for employment in the Virgin Islands of the United States, and their spouses and children, will also benefit from such a waiver when seeking to enter the Virgin Islands of the United States for employment pursuant to their certifications.

The proposed rules, as modified and as set forth below, are hereby adopted:

In Part 212, § 212.1(b) is revised to read as follows:

**§ 212.1 Documentary requirements for nonimmigrants.**

* * * * *

(b) *British, French, and Netherlands nationals, and nationals of certain adjacent islands of the Caribbean which are independent countries.* A visa is not required of a British, French, or Netherlands national, or of a national of Barbados, Grenada, Jamaica, or Trinidad and Tobago, who has his residence in British, French, or Netherlands territory located in the adjacent islands of the Caribbean area, or in Barbados, Grenada, Jamaica, or Trinidad and Tobago, who: (1) Is proceeding to the United States as an agricultural worker; or (2) is the beneficiary of a valid, unexpired indefinite certification granted by the Department of Labor for employment in the Virgin Islands of the United States and is proceeding to the Virgin Islands of the United States for such purpose, or is the spouse or child of such an alien accompanying or following to join him. A visa is not required of a national of the British Virgin Islands who has his residence in the British Virgin Islands, and who is proceeding to the Virgin Islands of the United States.

* * * * *

(Sec. 103, 66 Stat. 173; 8 U.S.C. 1103)

The basis and purpose of the above-prescribed regulations are to eliminate abuse of the nonimmigrant visa waiver for admission to Puerto Rico or the Virgin Islands of the United States, which waiver has been utilized for the purpose of facilitating entry into, and stay in, the United States in violation of law.

*Effective date.* The amendments contained in this order shall become effective October 7, 1975.

Dated: July 28, 1975.

L. F. CHAPMAN, JR.,
*Commissioner of Immigration and Naturalization.*

[FR Doc.75-20560 Filed 8-7-75;8:45 am]

## Title 13—Business Credit and Assistance

## CHAPTER I—SMALL BUSINESS ADMINISTRATION

[Rev. 9—Amdt. 2]

## PART 123—DISASTER LOANS

### Federal Flood Insurance

On January 20, 1975, the SBA published revised disaster loan rules and regulations (40 FR 3210D). This revision incorporated flood insurance requirements then in effect, duplicating Part 116 of this chapter. Since this amendment only eliminates duplication it is effective August 8, 1975, without request for public comment.

Part 123 is hereby amended by revising § 123.7 to read as follows:

§ 123.7 Federal flood insurance.

Applicants for SBA loans under this Part 123 must purchase Federal flood insurance in accordance with the requirements of Part 116 of these regulations.

Dated: August 4, 1975.

THOMAS S. KLEPPE,
*Administrator.*

## Title 14—Aeronautics and Space

## CHAPTER I—FEDERAL AVIATION ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

[Docket No. 75-CE-1-AD; Amdt. 39-2338]

## PART 39—AIRWORTHINESS DIRECTIVES

### Cessna T310, 320, 340, 401, 402, 411, 414 and 421 Series Airplanes

AD 75-04-01, Amendment 39-2083 (40 FR 5348), as amended by Amendment 39-2130 (40 FR 11861, 11862), is an Airworthiness Directive (AD) superseding AD 72-10-5, Amendments 39-1442 (37 FR 9385, 9386), and 39-1562 (37 FR 25021), applicable to Cessna T310, 320, 340, 401, 402, 411, 414 and 421 series airplanes. AD 75-04-01 requires repetitive inspections of the exhaust system and replacement of certain exhaust system clamps on these airplanes in accordance with Cessna Service Letter ME74-21.

Subsequent to the issuance of AD 75-04-01, the manufacturer has advised that parts are still not readily available to effect compliance with Paragraph 2 of the AD. In addition, some of the clamps already supplied to the field may be defective. The manufacturer is in the process of designing a fail safe exhaust system retainer which when approved will be the subject matter of another AD on these exhaust systems. In the interim AD 75-04-01 is being amended by extending the compliance time for Paragraph 2 and by adding a new paragraph requiring repetitive inspections of the "V" band clamps on the discharge side of the turbo supercharger for cracks or fractures and the replacement thereof if necessary.

Since this amendment is in the interest of safety and is in part relaxatory in nature, compliance with the notice and public procedure provisions of the Administrative Procedure Act is not necessary and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator 14 C.F.R. § 11.89 (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations, Amendments 39-2083 and 39-2130, AD 75-04-01, is amended in the following respects:

1. Paragraph 2 delete the phrase "within 50 hours' time in service after the effective date of this AD:" and substitute the following phrase "within 200 hours' time in service after the effective date of this amendment:".

2. Add a new Paragraph 3 which reads as follows:

(3) Within 25 hours' time in service after the effective date of this amendment and each 25 hours' time in service thereafter, visually inspect the multi segment and one-piece "V" band clamps installed on the discharge side of the turbo supercharger and tail pipe for cracks or fractures in the area of the apex on the circumference and in the transition between the clamping bolt and circumferences using a 10X magnifying glass and light. Loosen the clamp and slide it back on the tail pipe to make all areas accessible for inspection. Replace defective parts with new or serviceable clamps. Those airplanes which have the redundant tail pipe support installed are exempt from the above 25 hour repetitive inspection. However, these airplanes must comply with the 50 hour repetitive inspections in Paragraph 1a.

3. Renumber existing Paragraph 3 as Paragraph 4.

This amendment becomes effective August 15, 1975.

This amendment is made under the authority of Sections 313(a), 601 and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421 and 1423), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Missouri, on July 31, 1975.

C. R. MELUGIN, JR.,
*Director, Central Region.*

[FR Doc.75-20515 Filed 8-7-75;8:45 am]

[Docket No. 75-GL-13; Amdt. 39-2336]

## PART 39—AIRWORTHINESS DIRECTIVES

### Detroit Diesel Allison Model 501-D13 Series Engines

There has been a recent failure of a second stage turbine wheel in a Detroit Diesel Allison Model 501-D13D engine which resulted in penetration of the engine case and damage to surrounding structure. Investigation has shown that a low cycle fatigue failure can originate in the hub spline area of wheels from a specific heat lot. Since the condition described herein may exist or develop in other engines of the same type design, an Airworthiness Directive is being issued requiring removal of all second stage turbine wheels from that heat lot.

Since immediate action is required in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedure Act is not practical and good cause exists for making this amendment effective in less than thirty (30) days.

In consideration of the foregoing and pursuant to the authority delegated to me by the Administrator (31 FR 13697 and 14 C.F.R. § 11.89), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

Applies to Detroit Diesel Allison Model 501-D13 series engines which incorporate P/N 6829072 second stage turbine wheels with the following serial numbers:

| | | | |
|---|---|---|---|

NOTE: At time of overhaul, some wheels have R1, R2, R3, R4 or R5 added as a suffix to the wheel serial number. The suffix should be disregarded in determining the applicability of this airworthiness directive.

Compliance required as indicated.

I. Remove from service wheels which have not been inspected since installation as new wheels, according to the following schedule:

(a) Remove from service within 100 cycles from the effective date of this Airworthiness Directive, wheels with more than 6900 cycles.

(b) Remove from service prior to exceeding 7000 cycles, wheels with not more than 6900 cycles, on the effective date of this Airworthiness Directive.

II. Remove from service wheels which have been inspected by fluorescent penetrant method FP-30A/ZL-30A at last inspection, according to the following schedule:

(a) Remove from service within 100 cycles from the effective date of this Airworthiness Directive, wheels with more than 3900 cycles since last inspection or more than 9400 total cycles, whichever occurs first.

(b) Remove from service prior to exceeding 4000 cycles since last inspection or 9500 total cycles, whichever occurs first, wheels with not more than 3900 cycles since last inspection or not more than 9400 total cycles on the effective date of this Airworthiness Directive.

NOTE: If the method of fluorescent penetrant inspection used at last inspection cannot be determined, it must be assumed that FP-30A/ZL-30A was not used.

III. Remove from service wheels which have been inspected by a fluorescent penetrant method other than FP-30A/ZL-30A at last inspection, according to the following schedule:

(a) Remove from service within 100 cycles from the effective date of this Airworthiness Directive, wheels with more than 2400 cycles since last inspection, or more than 9400 total cycles, whichever occurs first.

(b) Remove from service prior to exceeding 2500 cycles since last inspection or 9500 total cycles, whichever occurs first, wheels with not more than 2400 cycles since last inspection or not more than 9400 total cycles on the effective date of this Airworthiness Directive.

IV. For the purposes of this airworthiness directive, a cycle is defined as one takeoff.

V. Detroit Diesel Allison Commercial Service Letter 501-D13 CSL-234 pertains to this subject.

This amendment is effective August 14, 1975.

This amendment is made under the authority of sections 313(a) 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on July 31, 1975.

JOHN TRUHAN,
*Acting Director,*
*Great Lakes Region.*

[FR Doc.75-20519 Filed 8-7-75;8:45 am]

[Docket No. 75GL-14; Amdt. 39-2337]

## PART 39—AIRWORTHINESS DIRECTIVE

### Hartzell Model EHC-A3VF-2B/V7636D Propellers

Pursuant to the authority delegated to me by the Administrator (31 FR 13697 and 14 CFR 11.89), a telegraphic airworthiness directive was adopted July 15, 1975, and made effective immediately as to all known United States operators of Hartzell Model EHC-A3VF-2B/V7636D propellers used on Continental IO-520-E series engines. That directive requires a visual inspection with a 10× (ten power) glass of the blade shank areas and clamps, of the propellers installed on the affected aircraft, before further flight and prior to the first flight of each day. That airworthiness directive was considered to constitute an initial action pending further investigation.

A review of the telegraphic airworthiness directive issued July 15, 1975, indicated that a more detailed inspection of the propeller is necessary. Consequently, it was determined that this airworthiness directive should also require that a subsequent detailed inspection of the propeller components (i.e., blades, clamps, and hubs) be made. If any parts are found to be cracked or contain defects, they must be replaced with serviceable units before the propeller can be returned to service. Also, a service record log is to be maintained for these propellers. Furthermore, the initial inspection requirements, which have likewise been amended by requiring the removal of propellers having a history of rough operation, are to remain in effect until the detailed inspections of the affected propellers are accomplished.

Since it was found that immediate action was required, notice and public procedure thereon was impractical and contrary to public interest and good cause existed for making that telegraphic airworthiness directive effective immediately as to all known U.S. operators of Hartzell Model EHC-A3VF-2B/V7636D propellers used on Continental IO-520-E series engines by individual telegrams dated July 15, 1975. These conditions still exist and the airworthiness directive, amended as noted above, is hereby published in the Federal Register as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective as to all persons.

HARTZELL PROPELLERS, Applies to Hartzell Model EHC-A3VF-2B/V7636D propellers used on Continental IO-520-E series engines installed on but not limited to the deHavilland (Heron) D. H. 114 series 2 type aircraft modified in accordance with STC SA 1685WE.

Compliance required as indicated.

To detect cracks and prevent possible blade shank and clamp failures accomplish Paragraph A before further flight and prior to the first flight of each day. After Paragraph B has been accomplished, compliance with Paragraph A is no longer necessary.

A. (1) Remove spinner and inspect propeller blade shank area for cracks using a 10X (ten power) glass. Region of concern covers area from point where blade emerges from clamp to the station 10 inches outboard of the clamp. Replace any propeller found with a cracked or defective blade in accordance with Paragraph A(3) before further flight.

(2) Inspect blade clamp for cracks using a 10X (ten power) glass. Also, inspect for loose or broken bolts. Replace any propeller having any cracked clamp or broken bolts in accordance with Paragraph A(3) before further flight.

(3) In the event any cracked blades, clamps, or bolts are found during inspections accomplished in accordance with Paragraphs A(1) and A(2) above, the propeller must be replaced with a propeller which has been inspected and repaired in accordance with Hartzell Bulletin No. 97A, dated March 1, 1973, Hartzell (Overhaul) Manual No. 114B, or with a new approved propeller to which this Airworthiness Directive does not apply.

(4) Any propeller with a continued history of synchronization difficulties and/or rough operation must be replaced prior to further flight with a propeller considered satisfactory in accordance with Paragraph A(3) of this Airworthiness Directive.

B. (1) Propellers with 800 or more hours in service since new or last overhaul, inspect in accordance with Paragraph B(4) within the next 200 hours in service after the effective date of this Airworthiness Directive, and reinspect every 1000 hours in service from the last inspection.

(2) Propellers with less than 800 hours in service since new or last overhaul, as of the effective date of this Airworthiness Directive, inspect in accordance with Paragraph B(4) prior to the accumulation of 1000 hours in service since new or last overhaul, and reinspect every 1000 hours in service from the last inspection.

(3) Propellers whose total hours in service are unknown will be assumed to have a total of 800 hours in service minimum, and thus will fall within the requirements for inspection and reinspection in accordance with Paragraph B(1).

(4) Remove propeller from the aircraft, inspect blades, clamps and hub, for cracks or defects in accordance with Hartzell Bulletin No. 97A dated March 1, 1973, Bulletin No. 113A dated July 22, 1975, and Hartzell (Overhaul) Manual No. 114B; or later Federal Aviation Administration approved revisions, or an equivalent procedure approved by the Chief, Engineering and Manufacturing Branch, Great Lakes Region. Replace any cracked or defective components with equivalent parts which have been inspected and found satisfactory in accordance with this Airworthiness Directive or with new approved parts and/or propellers to which this does not apply.

(5) A service record (log) shall be maintained for the affected propellers (blades and hub) which are inspected, repaired or replaced in accordance with the Airworthiness Directive.

(6) Upon request of the operator, a Federal Aviation Administration Maintenance Inspector, subject to prior approval of the Chief, Enigneering and Manufacturing Branch, Federal Aviation Administration, Great Lakes Region, may adjust the repetitive inspection intervals specified in this Airworthiness Directive, if the request contains satisfactory substantiating data to justify the adjustment for that operator.

The manufacturer's specifications and procedures identified in this directive are incorporated herein and made part hereof pursuant to 5 U.S.C. 522(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Hartzell Propeller, Inc., 350 Washington Avenue, Piqua, Ohio 45356. These documents may also be examined at the Great Lakes Regional Office, 2300 East Devon Avenue, Des Plaines, Illinois 60018, and at FAA Headquarters, 800 Independence Avenue SW., Washington, D.C. A historical file of this Airworthiness Directive which includes incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C. and at the Great Lakes Region.

This amendment is effective August 14, 1975, and portions of it were effective July 15, 1975, for all recipients of the telegram dated July 15, 1975.

This amendment is made under the authority of Sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423 and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on July 31, 1975.

JOHN M. CYROCKI,
*Director,*
*Great Lakes Region.*

[Airworthiness Docket No. 75-WE-13-AD; Amdt. 39-2319]

## PART 39—AIRWORTHINESS DIRECTIVES

### McDonnell Douglas DC-8 Series Airplanes

A proposal to amend Part 39 of the Federal Aviation Regulations to include an airworthiness directive requiring an inspection and rework of nose landing gear orifice support tubes on McDonnell Douglas DC-8 Series airplanes was published in 40 FR 11596.

Interested persons have been afforded an opportunity to participate in the making of the amendment. Three comments were received in response to the NPRM.

One comment suggested there was no justification for an AD; that the initial inspection time of 1000 landings was too short; and that the existing tubes could be reworked and used indefinitely when combined with repetitive inspections.

The FAA disagrees. There have been several fatigue failures, at least one of which resulted in nose gear collapse on landing. The experience record is a sufficient justification for the issuance of an AD.

The 1000 landing initial inspection time was determined to be necessary to ensure the minimum level of safety required, with due regard for the economic burden imposed upon the operators. The paramount consideration is the level of safety to be maintained. This compliance time has been retained in the adopted rule.

A second comment requested the initial 1000 landing inspection and rework be changed to 2000 landings. However, no justification was provided for such an extension other than the convenience of the operators. In addition, the commentator requested the 24 month limitation for installation of the improved tube be eliminated as unduly restrictive and unnecessary compared to the 3000 landing interval for replacement with the new design.

The FAA agrees. The 24 month limitation has been deleted from the AD.

The third comment was from the manufacturer. Subsequent to the issuance of the NPRM, the manufacturer performed static and fatigue tests on old design, unreworked parts; on old design parts reworked after cracks had developed; and on the new design parts. Based on the test results, the manufacturer recommends that the interval of operation with reworked parts be extended from 3000 landings to 8000 landings after rework. In addition, fatigue test results indicate that the new design orifice support tube should have an unlimited lifetime.

The FAA finds the test data acceptable for allowing the extension in lifetimes as suggested by the manufacturer. The adopted rule reflects this extension.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

McDONNELL DOUGLAS, Applies to all DC-8 Series airplanes as listed on McDonnell Douglas DC-8 Service Bulletin 32-168, Rev. 2 dated July 25, 1975, or later FAA-approved revisions, and certificated in all categories.

Compliance required as indicated.

To prevent failure of the Nose Landing Gear (NGL) orifice support tube from fatigue and possible nose gear collapse, accomplish the following:

(a) Within the next 1000 landings after the effective date of this AD, unless already accomplished, remove the NLG orifice support tube P/N 5598184 or 5717019 and perform a penetrant inspection of the upper O-ring groove in accordance with McDonnell Douglas DC-8 Service Bulletin 32-168, Rev. 2 dated July 25, 1975, or later FAA-approved revisions, or by an equivalent inspection procedure approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(1) If cracks are found, discard the support tube and either replace with a reworked orifice support tube, P/N 5598184-SC2465 or 5717019-SC2465 or replace with a new orifice support tube, P/N 5598184-503 or 5717019-503, in accordance with DC-8 Service Bulletin 32-168, Rev. 2 dated July 25, 1975, or later FAA approved revision, or an equivalent rework approved by the Chief, Aircraft Engineering Division, FAA Western Region.

(2) All tubes found to be free of cracks must either be reworked and replaced in accordance with DC-8 Service Bulletin 32-168 Rev. 2 dated July 25, 1975, or later FAA-approved revisions, or an equivalent rework procedure approved by the Chief, Aircraft Engineering Division, FAA Western Region, or they must be replaced by new orifice support tubes, P/N 5598185-503 or 5717019-503.

(b) Unless already accomplished by (a)(1) or (a)(2), above, within the next 8000 landings after the installation of reworked orifice support tube, replace with a newly reworked tube, P/N 5598184-SC2465 or 5717019-SC-2465, or with a new orifice support tube, P/N 5598184-503 or 5717019-503, in accordance with DC-8 Service Bulletin 32-168, Rev. 2 dated July 25, 1975, or later FAA-approved revisions.

Upon request of the operator, an FAA maintenance inspector, subject to prior approval of the Chief, Aircraft Engineering Division, FAA Western Region, may adjust the initial inspection compliance time specified in this AD to permit compliance at an established inspection period of the operator if the request contains substantiating data to justify the increase for that operator.

This amendment becomes effective August 20, 1975.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on July 30, 1975.

ROBERT H. STANTON,
*Director,*
*FAA Western Region.*

[Docket No. 75-NE-15; Amdt. 39-2327]

## PART 39—AIRWORTHINESS DIRECTIVES

### Sikorsky Model S-61L, S-61N, and S-61NM Helicopters Certificated in all Categories

There have been incidents where the sliding baggage door has opened while a helicopter was in flight and in one case the door separated from the aircraft and struck a main rotor blade. On February 14, 1975, a telegraphic airworthiness directive (40 FR 16191) was issued requiring inspections of the baggage doors of Sikorsky S-61 helicopters prior to each flight to ensure that they were closed and locked. The airworthiness directive also required a reduction in aircraft speed if the door opened in flight and required that a landing be made as soon as practicable. After further investigation the agency determined that if the door is not closed and locked, the following items may contribute to door disengagement and subsequent loss: (a) door track wear, (b) improper contact between the plate and the angle of the upper track stops, and (c) overridden track end stops.

Since this condition is likely to exist or develop in helicopters of the same design, an airworthiness directive is being issued to require: (a) installation of baggage door retainers on the door tracks, designed to assure that the door could not come out of its tracks, (b) installation of improved upper track stops, designed to assure adequate contact between the plate and the angle of the upper track stops, and (c) installation of improved track end stops to limit the travel of the bearing cage.

Since a situation exists that requires immediate adoption of this regulation, it is found that notice and public procedure hereon are impracticable and good cause exists for making this amendment effective in less than 30 days.

In consideration of the foregoing, and pursuant to the authority delegated to me by the Administrator (31 FR 13697), § 39.13 of Part 39 of the Federal Aviation Regulations is amended by adding the following new airworthiness directive:

SIKORSKY, Applies to S-61L, S-61N, and S-61NM helicopters certificated in all categories equipped with sliding baggage door S6120-72601-1, including helicopters equipped with S6120-72615-1 and S6120-72615-2 track and fitting assemblies, or S6120-72615-5 and S6120-72615-6 track and fitting assemblies with S6120-72605-1 and S6120-72605-2 track assemblies or 61200-72539-041 and 61200-72539-042 track assemblies.

Compliance required within the next forty-five (45) days after the effective date of this AD, unless already accomplished.

(a) To prevent the loss of the baggage door in flight and possible damage to the helicopter rotors, accomplish the following:

Install baggage door retainers, P/N 61200-72538-101 and 61200-72538-102 or equivalent FAA approved parts in accordance with Sikorsky Service Bulletin No. 61B20-11B dated June 27, 1975 or later FAA approved revisions.

(b) To prevent door misalignment, which may contribute to door disengagement, accomplish the following:

Install upper track stops, P/N S6120-72629-1 with angle P-N S6120-72629-3 and plate P/N S6120-72629-4 or equivalent FAA approved parts in accordance with Sikorsky Service Bulletin S61B20-11B dated June 27, 1975 or later FAA approved revision.

(c) To prevent possible loss of bearing cage, which may contribute to door disengagement, accomplish the following:

Install track end stops, P/N 61200-72381-101, 61200-72381-102, 61200-72381-103, 61200-72381-104, S6120-72618-8 and S6120-72618-10 stops or equivalent FAA approved parts in accordance with Sikorsky Service Bulletin No. 61B20-20 dated August 15, 1975 or later FAA approved revisions.

(d) The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Sikorsky Aircraft, Stratford, Connecticut 06602. These documents may also be examined at the Office of Regional Counsel, New England Region, Federal Aviation Administration, 12 New England Executive Park, Burlington, Massachusetts 01808 and at FAA Headquarters, 800 Independence Avenue, SW., Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the New England Region Headquarters, Burlington, Massachusetts.

This amendment becomes effective August 20, 1975.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Burlington, Massachusetts, on July 31, 1975.

QUENTIN S. TAYLOR,
*Director, New England Region.*

NOTE: The incorporation by reference provisions in this document was approved by the Director of the Federal Register on June 19, 1967.

[FR Doc.75-20522 Filed 8-7-75;8:45 am]

[Airspace Docket No. 75-SO-87]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

● The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Fayetteville, N.C., transition area. ●

The Fayetteville transition area is described in § 71.181 (40 FR 441). In the description, an extension is predicated on the Pope LOM. Since the United States Air Force plans to decommission the LOM on September 7, 1975, it is necessary to amend the description by deleting reference to the LOM. In addition, an extension is predicated on Simmons AAF Runway 27; however, specific reference to Simmons AAF is not contained in the description. It is therefore necessary to amend the description by inserting reference to Simmons AAF. Since these amendments are editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective immediately, as hereinafter set forth.

In § 71.181 (40 FR 441), the Fayetteville, N.C., transition area is amended as follows:

• • • south of Runway 27 • • •" is deleted and "• • • south of Simmons AAF (Lat. 35°07'55" N., Long. 78°57'05" W.) Runway 27 • • •" is substituted therefor, and "• • • 18.5 miles northeast of the LOM; • • •" is deleted and "• • • 24 miles northeast of the Pope TACAN; • • •" is substituted therefor.

This amendment is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 30, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20514 Filed 8-7-75;8:45 am]

---

[Airspace Docket No. 75-SO-67]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Designation of Transition Area

On June 24, 1975, a Notice of Proposed Rulemaking was published in the FEDERAL REGISTER (40 FR 26543), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would designate the Oxford, N.C., transition area.

Interested persons were afforded an opportunity to participate in the rule-making through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 G.m.t., October 9, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

OXFORD, N.C.

That airspace extending upward from 700 feet above the surface within a 6.5-mile radius of Oxford-Henderson Airport (Lat. 36°21'50" N., Long. 78°31'42" W.); within 3 miles each side of the 244° bearing from Huntsboro RBN (Lat. 36°21'52" N., Long. 78°31'29" W.), extending from the 6.5-mile radius area to 8.5 miles southwest of the RBN.

This amendment is made under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on July 30, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20516 Filed 8-7-75;8:45 am]

---

[Airspace Docket No. 75-GL-39]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

On Page 25028 of the FEDERAL REGISTER dated June 12, 1975, the Federal Aviation Administration published a notice of proposed rule making which would amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the transition area at Warsaw, Indiana.

Interested persons were given 30 days to submit written comments, suggestions or objections regarding the proposed amendment.

No objections have been received and the amendment as so proposed is hereby adopted, subject to the following change:

Line 5 of the Warsaw, Indiana, transition area description recited as "within 3½ miles each side of the 259° bearing" is changed to read "within 3½ miles each side of the 359° bearing".

This amendment shall be effective 0901 G.m.t., September 6, 1975.

This amendment is made under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on July 23, 1975.

JOHN M. CYROCKI,
*Director, Great Lakes Region.*

[FR Doc.75-20517 Filed 8-7-75;8:45 am]

---

[Airspace Docket No. 75-GL-54]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Correction of Control Zone Description

● The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to correct a discrepancy in the description of the Oshkosh, Wisconsin control zone. ●

The Oshkosh, Wisconsin control zone has been operated as a part-time control zone for some time with effective hours the same as the control tower. The legal designation of the control zone does not indicate it to be a part-time zone.

Since this correction is minor in nature and is in the interest of safety, compliance with the notice and public procedure provisions of the Administrative Procedures Act is unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately as hereinafter set forth:

In § 71.171 (40 FR 354), the Oshkosh, Wisconsin control zone is amended by adding:

This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

This amendment is proposed under the authority of Section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of Section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Illinois, on July 23, 1975.

JOHN M. CYROCKI,
*Director, Great Lakes Region.*

[FR Doc.75-20518 Filed 8-7-75;8:45 am]

## CHAPTER II—CIVIL AERONAUTICS BOARD

## PART 217—REPORTING DATA PERTAINING TO CIVIL AIRCRAFT CHARTERS PERFORMED BY FOREIGN AIR CARRIERS

### *CFR Correction*

In § 217.6 appearing on page 100 of Title 14, Part 200 to End, revised as of January 1, 1975, paragraphs (b)(1) through (9) were inadvertently omitted. In § 217.6 paragraphs (b)(1) through (9) are reinstated to read as follows:

§ 217.6 Reporting instructions.

(b) • • •

(1) Single entity charter, as defined in Parts 212 and 214 of this chapter (Board's economic regulations).

(2) Pro rata charter (other than travel group charter), as defined in Parts 212 and 214 of this chapter (Board's Eco-

nomic Regulations). Mixed charters, as defined in Parts 212 and 214 of this chapter, are to be reported as pro rata charters.

(3) All-cargo charter.

(4) Inclusive tour charter, as defined in Part 378 of this chapter (Board's special Regulations).

(5) Split charter, as provided for in §§ 212.8 and 214.7 of this chapter (Board's economic regulations).

(6) Charter performed for another direct foreign air carrier, as provided in § 212.8(a)(4-a) and § 214.7(a)(1) of this chapter, whichever is applicable, except emergency charters reported under § 212.14 or § 214.5, of this chapter.

(7) Study group charter, as defined in Part 373 of this chapter (Board's Special Regulations).

(8) Overseas military personnel charter, as defined in Part 372 of the Board's Special Regulations.

(9) Travel group charter, as defined in Part 372a of this chapter (Board's Special Regulations).

## Title 16—Commercial Practices

## CHAPTER I—FEDERAL TRADE COMMISSION

## PART 256—GUIDES FOR THE LAW BOOK INDUSTRY

*Introduction.* Guides for the Law Book Industry as herein set forth were adopted by the Commission to afford guidance as to the legal requirements applicable to the practices of this industry in the interest of protecting the public and effecting more widespread and equitable observance of the laws administered by the Commission.

Proceedings to establish these Guides were instituted by the Commission. Proposed Guides were released (38 FR 5351, Feb. 28, 1973) to afford interested or affected parties an opportunity to present to the Commission their views, suggestions, objections or other information concerning the proposed Guides. After full consideration of all comments received, and other pertinent information, the Commission adopted the Guides in their present form.

While it is not practicable to give an all-inclusive list of situations when affirmative disclosures may be required or representations disallowed in the advertising of and in representations appearing on industry products, and while it is not feasible to give a complete list of unobjectionable references or representations with respect to content or appearance of industry products, an effort has been made to provide industry members with a sufficient number of guidelines and examples to afford meaningful guidance in the conduct of their affairs so that they may avoid legal difficulties.

Provisions of these Guides which pertain to the use of certain terminology to describe industry products or materials used should not be construed as approval of claims made for any product or material, or as an expression or implication of the Commission's opinion respecting the comparative merits of industry products, their formats or materials used. These provisions of the Guides are intended to insure that the prospective purchaser has accurate and truthful information readily available so that he may make an informed and intelligent decision whether or not to make the purchase.

While the Guides are interpretive of laws administered by the Commission, and thus are advisory in nature, proceedings to enforce the requirements of law as explained in the Guides may be brought under the Federal Trade Commission Act (15 U.S.C. 41–58) which, briefly stated, makes it illegal for one to engage in "unfair methods of competition in or affecting commerce and unfair or deceptive acts or practices in or affecting commerce", as "commerce" is defined therein.

The Guides become effective as to all materials, including promotional materials, publications, research materials and the like, distributed eight months after promulgation of the Guides.

Inquiries and requests for copies of the Guides should be directed to the Bureau of Consumer Protection, Federal Trade Commission, Washington, D.C. 20580.

Subchapter B, Guides and Trade Practice Rules, 16 CFR Chapter I, is hereby amended by adding a new Part 256 as follows:

Sec.

256.0 Definitions.
256.1 General disclosures.
256.2 Disclosures relative to supplementation.
256.3 Disclosures relative to texts and treatises.
256.4 New revisions or replacement sets or series.
256.5 Representations, express or implied, describing a work as "new", "current" or "up-to-date".
256.6 Disclosures relative to misleading titles of texts and treatises.
256.7 Representations relative to works not yet published.
256.8 Representations relative to jurisdictional designations.
256.9 Catalogs.
256.10 Subscription renewal notices.
256.11 Disclosures on publications.
256.12 Jurisdictional designations of publications.
256.13 Disclosures on supplements.
256.14 Upkeep service.
256.15 Billing practices.
256.16 Added materials—germane subject matter.
256.17 Misrepresentations (general).

AUTHORITY: 38 Stat. 717, as amended; (15 U.S.C. 41–58).

### § 256.0 Definitions.

(a) *Industry product.* Any law book, case book, publication, series, service, law research materials, supplements and other printed materials of similar nature as well as materials appearing in microform, film, tape or other nonprint format designed primarily for use by members of the law profession and by law schools, excluding second-hand or used law materials.

(b) *Treatise or text.* An exposition—critical, evaluative, interpretive or informative—which analyzes one or more areas of the law. Generally, a legal treatise is more exhaustive in scope than an encyclopedia, and is considered a secondary aid.

(c) *Set.* A group of books published as a unit by virtue of such unifying characteristics as common authorship, editorship, relevance, or subject.

(d) *Series.* A number of separate works or sets usually, related to one another in subject or otherwise, issued in succession, normally by the same publisher or in uniform style, with a collective title.

(e) *Looseleaf (binder).* A law book or series of law books that consist of ring or post-bound (compression-type) binders used to hold separate looseleaf sheets as opposed to the bound book format wherein pages are permanently attached to the binder.

### § 256.1 General disclosures.

Direct-mail promotional materials [1] or oral representations soliciting the sale of specific industry products should clearly and conspicuously disclose:

(a) Name and address of publisher;

(b) Full title including any sub-titles, and edition name or number if not the first;

(c) Surname and given name or initials of authors, editors or compilers or designate if authored, edited or compiled by publisher's editorial staff;

(d) Latest copyright date and whether supplemented; or in the event of a looseleaf or post-bound (compression-type) publication, other appropriate identification of currency (latest copyright date not necessary for open-ended, ongoing type works such as reports and digests);

(e) In the case of a reprint by other than the original publisher, the publisher and copyright date of the original work, name and address of the reprint publisher and reprint dates;

(f) Whether part of a set or series and, if so, the full title of said set or series;

(g) Where the title of the advertised industry product is general, when in fact coverage therein is more limited than the title implies, a synoptic description of the limited coverage of subject matter, except in cases where chapter headings are listed and adequately reflect the limited subject matter;

(h) Type of binding (e.g., permanently bound with pocket parts, looseleaf including post-bound, compression-binder type or paperback);

(i) Where the price of the industry product appears, a description of what the price includes (e.g., the number of volumes in a set) and whether there are any extra charges such as postage, handling, shipping or other surcharges. [Guide 1]

[1] Where the direct-mail advertising of specific industry products consists of a promotional package containing more than one advertising piece (e.g., a brochure and/or cover letter, order form, and/or reply card), the disclosures required by §§ 256.1–256.3, 256.5–256.8 and 256.17 must appear clearly and conspicuously in the place where they are most likely to be noticed, on at least one piece of the promotional advertising package.

### § 256.2 Disclosures relative to supplementation.

Direct mail promotional materials or oral representations soliciting the sale of specific industry products should, where an industry product is being supplemented, or supplementation is being contemplated, clearly and conspicuously disclose:

(a) The general type of supplementation currently being supplied, a description of what is included in that supplementation (e.g., pocket part supplements [bound, unbound or pamphlet type], replacement pages, cumulative supplements, revised volumes, split volumes, replacement volumes), and the anticipated frequency of supplementation (e.g., annually or monthly);

(b) Any charge for the latest pocket parts or supplements, and the clearly identified period of time within which supplementation will be supplied without additional charge;

(c) The specific nature of any offer of credit or discount for supplements in connection with the original purchase, and the clearly identified period of time for said offer;

(d) Whether supplementation to the industry product has been abandoned, or is knowingly to be abandoned within 1 year after issuance of the solicitation, and the date or approximate date for abandonment of supplementation;

(e) Minimum supplementation cost for each of the past 2 calendar years, or such shorter period in which the publication has been available. [Guide 2]

### § 256.3 Disclosures relative to texts and treatises.

Direct-mail promotional materials or oral representations soliciting the sale of specific texts and treatises should clearly and conspicuously disclose:

(a) For a multivolume set the number or estimated number of volumes which are anticipated to complete the set, and the estimated publication schedule;

(b) Where offer is of a set, a general description of subjects covered under said set title;

NOTE. Industry member should clearly indicate general scope of the work, e.g., set may be titled *Encyclopedia of Hawaiian Law.* If the work is not a full encyclopedic treatment of Hawaiian law, it should be disclosed that it covers only certain areas which are to be clearly identified. [Guide 3]

### § 256.4 New revisions or replacement sets or series.

Where a publisher sells an industry product whose replacement or substantial revision is scheduled to be offered for sale within 1 year following the date of sale of the precursor work, such publisher should notify the purchaser, prior to consummating the sale, that the industry product will be replaced or revised and the approximate date of such replacement or revision. If the purchaser has not been so notified, the publisher should offer to the purchaser either:

(a) Full refund for the obsolete work within the 1 year period, less reasonable charges for the period of use of the work, or

(b) Full credit on the obsolete work within the 1 year period towards purchase of the new work, less reasonable charges for the period of use of the obsolete work.

NOTE. This guide does not apply when the publisher continues full supplementation of the precursor set or series. [Guide 4]

### § 256.5 Representations, express or implied, describing a work as "new", "current" or "up-to-date".

No direct-mail promotional materials or oral representations soliciting the sale of specific industry products should:

(a) Expressly or impliedly represent that the industry product is new when said industry product was first distributed more than 18 months prior to the time of the offer or dissemination of the advertisement (some examples, but not all inclusive, of terms suggesting new publications are: "Announcing", "newly revised", "New 8th Edition", "Up-to-date", "New");

(b) Other or prior titles and last copyright date where the advertised industry product or substantially the same industry product is or was published separately and/or as part of a set or as part of two or more sets, under identical or different titles (e.g., "Smith on Mortgages" is also published as Volume 9 of "The Symposium on Real Property Law" (1980); or • • • Smith on Mortgages is substantially the same book as • • • or is based on • • • or is composed of material also found in • • • Volume 9 of "The Symposium on Real Property Law" (1980) [or words to that effect]);

(c) Other or prior titles and last copyright date where the industry product or substantially the same industry product is or was published elsewhere and/or in another format under identical or different titles (e.g., "Brown on Leases," Revised Edition, published under the title of "Landlord & Tenant" (1980); or "Brown on Leases," Revised Edition, is composed primarily of materials from Landlord & Tenant (1980) [or words to that effect]);

(d) The identity of any sources, by title and last copyright date or other identification of currency, where the material in the industry product is substantially extracted from such sources [e.g., Chapter 1 of this book is based on the author's article in "97 Harvard Law Review 283" (1980)];

(e) For 5 years after issuance of a revision or a new edition of another title, the original title and last copyright date or other identification of currency of the precursor industry product.

NOTE. Where an industry product is composed of innumerable, short excerpts from other sources, such as a lawyer's desk aid and lawyer's almanac, then disclosure that the work is such a compilation will suffice without identifying all sources of the material therein. [Guide 6]

### § 256.6 Disclosures relative to misleading titles of texts and treatises.

Direct-mail promotional materials or oral representations soliciting the sale of specific texts or treatises should clearly and conspicuously disclose:

(a) Where a title contains the name of a person who did not author or edit or only partially authored or edited the actual texts or treatises, the names of authors or editors who contributed substantial parts of an industry product. The names of such authors or editors should appear at least once in immediate conjunction with the title where it most prominently appears in the advertisement;

(b) Other or prior titles and last copyright date where the advertised industry product or substantially the same industry product is or was published separately and/or as part of a set or as part of two or more sets, under identical or different titles (e.g., "Smith on Mortgages" is also published as Volume 9 of "The Symposium on Real Property Law" (1980); or • • • Smith on Mortgages is substantially the same book as • • • or is based on • • • or is composed of material also found in • • • Volume 9 of "The Symposium on Real Property Law" (1980) [or words to that effect]);

(c) Other or prior titles and last copyright date where the industry product or substantially the same industry product is or was published elsewhere and/or in another format under identical or different titles (e.g., "Brown on Leases," Revised Edition, published under the title of "Landlord & Tenant" (1980); or "Brown on Leases," Revised Edition, is composed primarily of materials from Landlord & Tenant (1980) [or words to that effect]);

(d) The identity of any sources, by title and last copyright date or other identification of currency, where the material in the industry product is substantially extracted from such sources [e.g., Chapter 1 of this book is based on the author's article in "97 Harvard Law Review 283" (1980)];

(e) For 5 years after issuance of a revision or a new edition of another title, the original title and last copyright date or other identification of currency of the precursor industry product.

NOTE. Where an industry product is composed of innumerable, short excerpts from other sources, such as a lawyer's desk aid and lawyer's almanac, then disclosure that the work is such a compilation will suffice without identifying all sources of the material therein. [Guide 6]

### § 256.7 Representations relative to works not yet published.

Representations soliciting the sale of specific industry products should not expressly or impliedly hold out a publication as having been printed or published at the time of the offer when such is not the fact. Solicitations relative to works not yet published should clearly and conspicuously disclose that the publication is being planned or contemplated and that inquiries or orders are being solicited to determine demand for the publication, or words to that effect. [Guide 7]

### § 256.8 Representations relative to jurisdictional designations.

Representations soliciting the sale of an industry product should not expressly or impliedly describe such product as being designed for a particular jurisdiction unless the contents of said industry product are designed primarily for and contain significant amounts of materials for use in the jurisdiction so designated. Nor should the promotional materials for an industry product have a designation or title that expresses or implies that a broader or more general jurisdiction is covered when in fact the industry product is designed primarily for a jurisdiction more limited in scope (e.g., "The New Rules of Evidence" is actually a work which applies to new evidence rules enacted in one State only). [Guide 8]

### § 256.9 Catalogs.

Catalog listings and descriptions of law publications should conform to §§ 256.1 to 256.3, 256.5 to 256.8, and § 256.17, and such catalogs should clearly and conspicuously disclose the printing

VOL 40 NO 154 AUG 8 75 XU

or coverage dates on the front cover. [Guide 9]

§ 256.10 Subscription renewal notices.

(a) A subscription renewal notice for industry products should not be sent to any person, firm, library, or entity, where the recipient thereof is not currently subscribing to the industry product to which the renewal notice refers or relates.

(b) A subscription renewal notice should clearly designate the number of the notice (e.g., "First Renewal Notice" or "Second Renewal Notice"). [Guide 10]

§ 256.11 Disclosures on publications.

Texts or treatises, separately published or published in sets or series, should clearly and conspicuously disclose on the title page or pages, half title page and/or verso of title page:

(a) Full title of the book, including any sub-titles;

(b) If part of a set or series, the title of same;

(c) The number of the edition if not the first;

(d) For 5 years after issuance of a revision or a new edition of another title, the original title and last copyright date or other identification of currency of the precursor industry product;

(e) Unambiguous identification of authors, editors or compilers; or whether authored, edited or compiled by the publisher's editorial staff. However, if authors, editors or compilers are listed in the table of contents or credits, this paragraph need not apply:

(f) Name, city and State of publisher;

(g) Where the industry product or substantially the same industry product is or was published separately or as part of one or more sets under identical or different titles, or is or was published in various places or formats under identical or different titles, the prior titles and the place and date of previous publication. However, if such disclosures appear in the table of contents or credits, this paragraph need not apply;

(h) When the industry product is substantially extracted from other sources, the identity of sources by titles and copyright dates unless such disclosures appear in the table of contents or credits;

(i) Where the title contains the name of a person who did not author or edit, or only partially authored or edited the industry product, the names of authors, editors or publisher's editorial staff who contributed substantial parts of the industry product, and such disclosures should appear on the title page in conspicuous type or print. [Guide 11]

§ 256.12 Jurisdictional designations of publications.

No industry product should be titled with a jurisdictional designation (e.g., "Maryland Edition"; or "Montana Real Estate Law") unless the contents of said industry product are designed primarily for and contain significant amounts of material for use in that jurisdiction. Nor should an industry product have a title which expresses or implies that a broader or more general jurisdiction is covered when in fact the industry product is designed primarily for a jurisdiction more limited in scope (e.g., "The New Rules of Evidence" is actually a work which applies to new evidence rules enacted in one State only). [Guide 12]

§ 256.13 Disclosures on supplements.

Supplements issued to industry products should clearly and conspicuously disclose:

(a) On title page or verso of pocket parts and of stapled or bound supplemental units and on cover page or pages or their versos for replacement or supplemental pages:

(1) Full title of the industry product; and where part of a set or series, title of said set or series;

(2) Surname and given name of authors, editors or compilers of the titled industry product or if prepared by the publisher's editorial staff;

(3) Surname and given name of authors, editors or compilers of supplement if different from that of the titled book;

(4) Coverage date or date of issuance for the supplement.

(b) On each replacement sheet, the month and year of issuance. [Guide 13]

§ 256.14 Upkeep service.[2]

Prior to the formation of any contract, or other agreement, whether written or oral, for the purchase of industry products containing provisions for subsequent automatic shipment of materials for upkeep purposes, the seller should:

(a) clearly and conspicuously define the nature and extent of basic upkeep service. Basic upkeep service should include only those parts of upkeep which are absolutely essential and without which a set cannot remain functional (this might include such parts as pocket part supplements, replacement pages, releases and inserts, advance sheets, and replacement, revised, recompiled or split volumes); and

(b) make available for purchase such basic upkeep service on an automatic shipment basis without requiring the purchase of other additional upkeep services whether on an automatic basis or otherwise.

NOTE 1. Nothing in this section is meant to preclude a seller from offering to buyers the option of ordering and receiving all parts of upkeep on an automatic basis, including basic supplementation and all other extra parts of supplementation, or any other method of upkeep such as alternate year supplementation, as long as other requirements of this section are met.

NOTE 2. The purpose of this section is to furnish the seller and buyer with a clear understanding of what is being ordered. There has been dissension and confusion in the lawbook industry as to what constitutes upkeep service and as to what the customer expects to receive or thinks he ordered under the upkeep provision, and as to which parts or units of the upkeep service the customer considers necessary or unnecessary for his particular requirements.

[2] Upkeep service is also sometimes referred to as "Standing Order", "Continuations", "Subscription", or "Subscription Upkeep".

Once a customer invests in a work, his investment serves as a compelling factor in his decision of whether or not to continue future upkeep. Financial practicality and limited choices offered by sellers of particular types of works in a heavily concentrated industry tend to keep the buyer confined to the work in which he has already invested; therefore, the buyer will not or is reluctant to switch to a competitive work (if there is one) when he cannot purchase the type of upkeep he wants or needs.

Customers have varied needs and wants relating to upkeep. For example, the customer may want to enter his subscription or order for automatic upkeep of supplements (i.e., pocket part supplements, replacement pages, releases, inserts), advance sheets, replacement, revised, recompiled or split volumes, but he may want to be notified of and given the opportunity to order any additional, companion or related volumes, series or sets, new editions, or any related titles.

NOTE 3. Where a customer chooses to purchase individual parts of the upkeep service on a non-automatic basis [see paragraph (b) next above], the total price for each part so ordered should not exceed the cost of such parts when ordered automatically [see Note 1 above], unless any increased charges are based upon the actual increased costs to the seller directly attributable to such sale and/or delivery.

NOTE 4. The Federal Trade Commission Act will be enforced in accordance with Section 3009 of the Postal Reorganization Act which designates that "(a) * * * the mailing of unordered merchandise or of communications prohibited by paragraph (c) of this section constitutes an unfair method of competition and an unfair trade practice * * *.

"(b) Any merchandise mailed in violation of paragraph (a) of this section, or within the exceptions contained therein, may be treated as a gift by the recipient, who shall have the right to retain, use, discard, or dispose of it in any manner he sees fit without any obligation whatsoever to the sender. All such merchandise shall have attached to it a clear and conspicuous statement informing the recipient that he may treat the merchandise as a gift to him and has the right to retain, use, discard, or dispose of it in any manner he sees fit without any obligation whatsoever to the sender.

"(c) No mailer of any merchandise mailed in violation of paragraph (a) of this section, or within the exceptions contained therein, shall mail to any recipient of such merchandise a bill for such merchandise or any dunning communications." [Guide 14]

§ 256.15 Billing practices.

(a) Sellers of industry products should notify all customers in a clear and conspicuous manner:

(1) To mark conspicuously their account numbers (if any) or other appropriate identifying data on all correspondence and payments, including checks, sent by customers to the seller;

(2) That, upon request for clarification of an account, any customer may receive a statement of accounts, showing each purchase, payment or credit itemized for the current or all pertinent, preceding months;

(3) That, where the seller can apply payments to specific items under its billing procedures, to indicate or identify to the seller or payee the item or items to which any payment is to be applied.

(b) The publisher or seller of industry products should:

(1) When receiving communications showing account numbers, have the responsibility of applying all correspondence and payments to the correct account, and where there is any question, notify the customer before entering the pertinent data into the computer system;

(2) Provide a statement of accounts when requested by the customer;

(3) Where seller can apply payments to specific items under its billing procedures, apply payments or credits as designated by the buyer or payor.

(c) The seller of industry products, in oral or written communications with the buyer, should not use fictitious names, but should use names of live persons who are actively participating in the business.

(d) Billing statements to purchasers of industry products should show:

(1) Date and customer's account number, if any;

(2) Invoice numbers or, where items are listed, a clear and readable description of each item or unit. If abbreviations are used which are not readily understandable, the statement should have thereon or attached thereto a clear interpretation of said abbreviations (e.g., a table);

(3) a price for each item, or invoice totals, or the total of invoice totals;

(4) penalty, interest, or carrying charges, if any, clearly and separately identified;

(5) purchases sent on approval, if any, clearly and separately identified.

(e) All industry product invoices should:

(1) Be dated, numbered or adequately identified, and should show customer's account number, if any;

(2) Show a clear and readable description of each item or unit. If abbreviations are used which are not readily understandable, the invoice should have thereon or attached thereto a clear interpretation of said abbreviations;

(3) Show a price for each item, and clearly state terms of sale and amount of discount, if any;

(4) Clearly show the time period for approval orders, by showing specific opening and termination dates.

Note. This section is meant to suggest some basic information that should be provided for the billing process although the seller may prefer to use some other system or method which furnishes essentially the same information as provided by this section. Further, this section does not relieve an industry member of his responsibilities to comply with the Fair Credit Billing Act, 15 U.S.C. 1601, and law book sellers should note with particularity Section 161 of that Act dealing with "Correction of Billing Errors". [Guide 15]

§ 256.16 Added materials—germane subject matter.

The adding of volumes or other materials, the overall content of which is not substantially germane to the subject matter of the basic work, constitutes an unfair trade practice. [Guide 16]

§ 256.17 Misrepresentations (general).

An industry product should not be advertised, published or otherwise represented in any manner which may have the capacity and tendency or effect of misleading or deceiving purchasers or prospective purchasers concerning the grade, quality, material, size, contents, authorship, editorship, use, value, price, origin, preparation, manufacture or date of publication or copyright of any industry product or of any supplementation thereto, or the current or up-to-date character thereof, or concerning any service offered in connection therewith, or in any other material respect. [Guide 17]

NOTE. If a fixed fee per period is charged for a current topic reporting upkeep service which is supplemented monthly or more frequently, §§ 256.2, 256.3, 256.13(a) and 256.14 do not apply.

Promulgated by the Federal Trade Commission August 8, 1975.

## Title 20—Employees' Benefits

## CHAPTER III—SOCIAL SECURITY ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

[Regs. No. 5, further amended]

## PART 405—FEDERAL HEALTH INSURANCE FOR THE AGED AND DISABLED (1965.....)

### Payment for Services of Physicians in Teaching Hospitals, for Physicians' Costs to Hospitals and Medical Schools, and for Volunteer Services

On March 7, 1975, there was published in the FEDERAL REGISTER (40 FR 10687) a notice of proposed rule making which set forth proposed amendments to Subparts D and E of Regulations No. 5 to implement section 227 of Public Law 92-603, enacted October 30, 1972, as amended by section 15 of Public Law 93-233, enacted December 31, 1973, and section 7 of Public Law 93-368, enacted August 7, 1974. That legislation provided that a hospital, with the concurrence of its physician staff, may elect to receive program payment for physicians' direct medical and surgical services on a reasonable-cost basis rather than on a reasonable-charge basis, that payment for donated services of volunteer physicians provided to health insurance program patients may be made to a fund designated by the organized medical staff of the teaching hospital (or medical school), and that program payments may be made for certain medical school costs which theretofore had not been reimbursable.

These regulations apply, where a hospital elects to receive reimbursement on a reasonable-cost basis, for hospital cost-reporting periods beginning after June 30, 1973, and prior to July 1, 1976. In the interim, the National Academy of Sciences is conducting a study, the results of which are expected to help in assessing the potential impact of the 1972 legislation on teaching hospitals and their health care delivery systems, and be useful in formulating rules applicable to reimbursement by the health insurance program, for the services of physicians in teaching hospitals for cost-reporting periods beginning after June 30, 1976.

Comments and suggestions relative to the proposed rules were received from a number of organizations, hospitals, professional societies, and individuals. All have been reviewed and carefully considered.

In response to a number of comments, § 405.465(d) has been revised to make it clear that the compensation received by a physican from an organization unrelated to the hospital in which he is providing volunteer services, will not be considered in determining amounts payable for volunteer services in that hospital. Other changes have been made in the interest of clarity.

The following comments, although considered, have not been accepted:

1. Concern was expressed that the 105 percent payment limitation on certain medical school costs furnished to a nonrelated hospital was not adequate. The 105 percent limitation, that is, 105 percent of the sum of direct salaries, certain salary-related taxes, and fringe benefits, is predicated on the fact that the medical school incurs little added cost as a result of its providing services to the hospital's patients. Furthermore, the hospital may have certain costs that result from the presence of medical school faculty practicing on its premises that may obviate the need for the medical school to additionally incur many costs (e.g., hospital secretarial staff may be utilized by the physician if in the hospital when medical school matters arise). The health insurance program does not pay costs attributable to the regular educational activities of the medical school, and it should not pay costs incurred by the medical school that represent duplications of costs incurred by the hospital for services which the hospital could obtain without cost if there were no hospital/medical school relationship for the staff. On the other hand, however, it is reasonable to presume that payment of the direct compensation, related payroll taxes, and fringe benefits may not quite account for all of the reasonable costs incurred by the medical school relative to the provision of services by its faculty in the hospital setting. Therefore, in recognition that the individual medical school may incur some minor expenses not included in the costs specifically recognized, an additional allowance of 5 percent of the specifically recognized costs has been provided. The 105 percent limitation applies only where the hospital is unrelated to the medical school and does not pay the medical school for services provided by medical school faculty to all patients. Teaching hospitals related to medical schools by common ownership or control, and teaching hospitals unrelated to medical schools but which pay the medical school for services to all patients, will continue to be permitted reimbursement without regard to this limitation, provided the costs incurred

by the teaching hospital are reasonable.

2. Some of the comments received stated that the 3.5 weighting factor applicable to the day of admission, and used in the computation of the costs of physicians' direct medical and surgical services, would disproportionately reduce health insurance program reimbursement. In establishing the 3.5 weighting factor, advice was sought from a number of organizations and hospitals and, upon consideration, it has been concluded that the weighting factor is both appropriate and reasonable. In reaching this conclusion, recognition has been given to the fact that the intensity of physicians' services on the day of admission vary among patients, with some receiving more and others receiving less than the average represented by the 3.5-day weighting factor. Moreover, the use of a 3.5-day weighting factor is not unreasonable in terms of the unit values adopted by recognized relative value scales.

3. A number of correspondents expressed some concern regarding the accumulation of data relative to the outpatient statistic used in the determination of outpatient costs in § 405.465(h)(3). Implementing instructions will provide a method or methods which may be used to estimate outpatient-visit days in situations where the hospital does not accumulate the necessary data.

4. Some of the comments received related to the $30,000 limitation applicable to a volunteer physician's services. A limit was placed on the amount recognized for the services of a physician who provides volunteer services to avoid recognition of claims for reimbursement which would be unreasonable in terms of the compensation a hospital would be willing to pay a physician solely to provide services of the type generally provided in hospitals by other volunteer physicians. It is intended that the limitations provided for will be reviewed periodically and may be adjusted.

5. One party who commented asked how a governmental entity could be a qualified fund, as permitted by § 405.466(b). A State or municipal hospital can, for example, be such a qualified fund if its medical staff designates the hospital to receive the salary equivalent payments for the volunteer services by physicians in the hospital.

6. One comment received stated that the language in § 405.466(c) (that a qualified fund is to have all the rights and responsibilities of a provider under Medicare, except that it does not enter into a provider participation agreement) is too vague, and that a fund and a provider are sufficiently different to require classification of the rights and responsibilities of each. This comment was not accepted, because section 1861(u) of the Social Security Act subsumes a qualified fund under the term "provider." The first sentence of section 1866(a) similarly refers to a fund as a provider which is not eligible to enter into a provider participation agreement.

7. One comment received concerned the requirement in § 405.466(a) that the payment for volunteer services by physicians be made to a fund designated by the medical staff of a voluntary hospital, and recommended that control of the payments be the prerogative of the governing body of the hospital. This comment was not accepted, because § 405.466(a) reflects the provisions of sections 1814(g) and 1835(e) of the Social Security Act, which specify designation by the medical staff.

8. A number of commenters inquired about the rationale for publishing regulations relating to cost reimbursement by the health insurance program for physician services in teaching hospitals, prior to issuance of the report of the studies currently being conducted by the National Academy of Sciences. While Pub.L. 93-233 and Pub.L. 93-368 generally delayed implementation of the provisions of section 227 of Pub.L. 92-603, the legislation also made the special reasonable-cost provisions available to hospitals which elect them, for cost-reporting periods beginning after June 30, 1973, and before July 1, 1976. These regulations are rules which will be used in determining such costs where this election is exercised.

With the changes noted above, the proposed amendments are adopted and set forth below.

(Secs. 1102, 1833(a), 1842(b), 1861, and 1871, Social Security Act; sec. 15 of Public Law 93-233; sec. 7 of Public Law 93-368; 49 Stat. 647, as amended, 79 Stat. 302, as amended, 79 Stat. 306, as amended, and 79 Stat. 331, 87 Stat. 965, 88 Stat. 422; 42 U.S.C. 1302, 1395l(a), 1395u(b), 1395x, 1395hh, and 1395x note.)

*Effective date.* These amendments shall be effective September 8, 1975.

(Catalog of Federal Domestic Assistance Program No. 13.800, Health Insurance for the Aged and Disabled—Hospital Insurance; No. 13.801, Health Insurance for the Aged and Disabled—Supplementary Medical Insurance.)

Dated: July 1, 1975.

J. B. CARDWELL,
*Commissioner of Social Security.*

Approved: August 4, 1975.

CASPAR W. WEINBERGER,
*Secretary of Health, Education, and Welfare.*

Regulations No. 5, Subpart D of the Social Security Administration, as amended (20 CFR Part 405), are further amended as follows:

1. Paragraph (c) of § 405.402 is amended by adding paragraph (c)(9) to read as follows:

§ 405.402 Cost reimbursement: general.

* * * * *

(c) * * *

(9) Reasonable cost of physicians' direct medical and surgical services (including supervision of interns and residents in the care of individual patients) rendered in a teaching hospital may be reimbursed as a provider cost (see § 405.465) where elected as provided for in § 405.521 of this Part.

* * * * *

2. Section 405.465 is added to read as follows:

**§ 405.465 Determining reimbursement for certain physician and medical school faculty services rendered in teaching hospitals.**

(a) *General.* Payments for services of physicians in teaching hospitals rendered to patients will be made by the health insurance program on the basis of reasonable cost where the hospital exercises the election as provided for in § 405.521 of this Part. Where such election is made:

(1) Direct medical and surgical services to health insurance program patients, including supervision of interns and residents, rendered in a teaching hospital by physicians on the hospital staff are reimbursable as provider services on a reasonable-cost basis, as provided for in paragraph (b) of this section.

(2) Reimbursement for certain medical school costs may be made as provided for in paragraph (c) of this section.

(3) Payments for services donated by volunteer physicians to health insurance program patients will be made to a fund designated by the organized medical staff of the teaching hospital or medical school as provided for in paragraph (d) of this section.

(b) *Reasonable cost of direct medical and surgical services (including supervision of interns and residents) rendered in a teaching hospital by physicians on the hospital staff.* Direct medical and surgical services to patients, including supervision of interns and residents, rendered in a teaching hospital by physicians on the hospital staff are reimbursable as provider services on a reasonable-cost basis. For purposes of this paragraph, reasonable cost is defined as the direct salary paid to such physicians, plus applicable fringe benefits. Such costs must be allocated to such services as provided by paragraph (j) of this section and apportioned to program beneficiaries as provided by paragraph (g) of this section. Other allowable costs incurred by the provider related to the services described in this paragraph are reimbursable subject to the requirements applicable to all other provider services.

(c) *Reasonable costs incurred by a teaching hospital for the services rendered by a medical school or related organization in a hospital.* An amount not in excess of the reasonable cost (as defined in paragraphs (c)(1) and (2) of this section) incurred by a teaching hospital for services rendered by a medical school or organization related thereto within the meaning of § 405.427 for certain costs to the medical school (or such related organization) in rendering services in the hospital are reimbursable to the hospital by the health insurance program provided that such costs would be reimbursable if incurred directly by the hospital rather than under such arrangement.

(1) *Reasonable costs of direct medical and surgical services (including supervision of interns and residents in the care of individual patients) rendered in a teaching hospital by physicians on the faculty of a medical school or organization related to the medical school.*

(i) In situations where the medical school (or organization related to the medical school) and the hospital are related by common ownership or control in accordance with § 405.427, the cost of such services are allowable costs to the hospital under the provisions of § 405.427 and the reimbursable costs to the hospital are determined under the provisions of this section in the same manner as the costs incurred for physicians on the hospital staff and without regard to payments made to the medical school by the hospital.

(ii) Where the medical school and the hospital are not related organizations under the provisions of § 405.427 and the hospital makes payment to the medical school for the costs of such services rendered to all patients, reimbursement will be made by the health insurance program to the hospital for the reasonable cost incurred by the hospital for its payments to the medical school for services to health insurance beneficiaries. Costs incurred under such an arrangement must be allocated to the full range of services provided to the hospital by the medical school physicians on the same basis as provided for under paragraph (j) of this section and costs so allocated to direct medical and surgical services to hospital patients must be apportioned to health insurance beneficiaries as provided for under paragraph (g) of this section. Where the medical school and the hospital are not related organizations under the provisions of § 405.427 and the hospital makes payment to the medical school only for the costs of such services rendered to health insurance program patients, costs of the medical school not to exceed 105 percent of the sum of physicians' direct salaries, applicable fringe benefits, employer's portion of FICA taxes, federal and state unemployment taxes, and workmen's compensation paid by the medical school or an organization related thereto may be recognized as allowable cost of the medical school. Such allowable medical school costs must be allocated to the full range of services rendered by the physicians of the medical school or organization related thereto as provided by paragraph (j) of this section. Costs so allocated to direct medical and surgical services to hospital patients must be apportioned to health insurance program beneficiaries as provided by paragraph (g) of this section.

(2) *Reasonable costs of other than direct medical and surgical services rendered in a teaching hospital by medical school faculty (or organization related to the medical school).* Such costs are determined in accordance with paragraph (c)(1) of this section except that: (i) where the hospital makes payment to the medical school for other than direct medical and surgical services rendered to all patients, such payments are subject to the required cost-finding and apportionment methods applicable to the cost of other hospital services (excepting direct medical and surgical services rendered to patients), or (ii) where the hospital makes payment to the medical school only for such services rendered to health insurance program patients, then the cost of services which are so reimbursed are not subject to cost-finding and apportionment as otherwise provided by this subpart and the reasonable cost reimbursed by the health insurance program must be determined on the basis of the health insurance ratio(s) used in the apportionment of all other provider costs (excepting physicians' direct medical and surgical services rendered to patients) applied to the allowable medical school costs incurred by the medical school for the services rendered to all patients of the hospital.

(d) *"Salary Equivalent" payments for physicians' direct medical and surgical services rendered to health insurance program patients in a teaching hospital by physicians on the voluntary staff of the hospital (or medical school or organization related thereto under arrangement with the hospital).*

(1) Payments will be made to a fund as defined in § 405.466 for direct medical and surgical services rendered on a regularly scheduled basis by physicians on the unpaid voluntary medical staff of the hospital (or medical school under arrangement with the hospital) to health insurance program patients. Such payments represent compensation for contributed medical staff time which, if not contributed, would have to be obtained through employed staff on a reimbursable basis. Payments for volunteer services are determined by applying to the regularly scheduled contributed time an hourly rate not to exceed the equivalent of the average direct salary (exclusive of fringe benefits) paid to all full-time, salaried physicians (other than interns and residents) on the hospital staff or, where the number of full-time salaried physicians is minimal in absolute terms or in relation to the number of physicians on the voluntary staff, to physicians at like institutions in the area. This "salary equivalent" is a single hourly rate covering all physicians regardless of specialty, and is applied to the actual regularly scheduled time contributed by the physicians in rendering direct medical and surgical services to health insurance program patients including supervision of interns and residents in such care. A physician who receives any compensation from the hospital or a medical school related to the hospital by common ownership or control (within the meaning of § 405.427), for direct medical and surgical services rendered to any patient in the hospital will not be considered an unpaid voluntary physician for purposes of this paragraph. Where, however, a physician receives compensation from the hospital or related medical school or organization related thereto for only services which are other than direct medical and surgical services, a salary equivalent payment for his regularly scheduled direct medical and surgical services to health insurance program patients of the hospital may be imputed. However, the sum of the imputed value for volunteer services and his actual compensation from the hospital and the related medical school (or organization related thereto) may not exceed the amount that would have been imputed if all of his hospital and medical school services (compensated and volunteer) had been (i) volunteer services, or (ii) at the rate of $30,000 per year, whichever is less.

(2) The following examples illustrate how the allowable imputed value for volunteer services is determined. In each example, it has been assumed that the average salary equivalent hourly rate is equal to the hourly rate for the individual physician's compensated services.

*Example No. 1.* Dr. Jones received $3,000 a year from Hospital X for services other than direct medical services to all patients, e.g., utilization review, administrative services, etc. Dr. Jones also voluntarily rendered direct medical services to health insurance program patients. The imputed value of the volunteer services amounted to $10,000 for the cost-reporting period. The full imputed value of Dr. Jones' volunteer direct medical services would be allowed since the total amount of the imputed value ($10,000) and the compensated services ($3,000) does not exceed $30,000.

*Example No. 2.* Dr. Smith received $25,000 from Hospital X for services as a department head in a teaching hospital. Dr. Smith also voluntarily rendered direct medical services to health insurance program patients. The imputed value of the volunteer services amounted to $10,000. Only $5,000 of the imputed value of volunteer services would be allowed since the total amount of the imputed value ($10,000) and the compensated services ($25,000) exceeds the $30,000 maximum amount allowable for all his services.

| Computation: | |
|---|---|
| Maximum amount allowable for all services performed by Dr. Smith for purposes of this computation | $30,000 |
| Less compensation received from hospital X for other than direct medical services to individual patients | $25,000 |
| Allowable amount of imputed value for the volunteer services rendered by Dr. Smith | $5,000 |

*Example No. 3.* Dr. Brown is not compensated by Hospital X for any services rendered in the hospital. Dr. Brown voluntarily rendered direct surgical services to health insurance program patients for a period of 6 months and the imputed value of these services amounted to $20,000. The allowable amount of the imputed value for volunteer services rendered by Dr. Brown would be limited to $15,000 ($30,000×6/12).

(3) The amount of the imputed value for volunteer services applicable to health insurance program beneficaries and payable to a fund will be determined in accordance with the Aggregate Per Diem Method described in paragraph (g) of this section.

(4) Health insurance payments to a fund will be used by the fund solely for improvement of care of hospital patients or for educational or charitable purposes (which may include but are not limited to medical and other scientific research). No personal financial gain, either direct or indirect, from benefits of the fund

may inure to any of the hospital staff physicians, medical school faculty, or physicians for whom the health insurance program imputes costs for purposes of payment into the fund. Expenses met from contributions made to the hospital from such a fund will not be included as a reimbursable cost when expended by the hospital, and depreciation expense will not be allowed with respect to equipment or facilities donated to the hospital by such a fund or purchased by the hospital from monies in such a fund.

(e) *Requirements for reimbursement for physicians' direct medical and surgical services (including supervision of interns and residents) in the care of individual patients rendered in a teaching hospital.*

(1) *Physicians on the hospital staff.* The requirements under which the costs of physicians' direct medical and surgical services (including supervision of interns and residents) in the care of individual patients rendered to health insurance program patients will be allowed are the same as those applicable to the cost of all other covered provider services except that the costs of these services are separately determined as provided by this section and are not subject to cost-finding as described in § 405.453.

(2) *Physicians on the medical school faculty.* Reimbursement will be made to a hospital by the health insurance program for the costs of services of physicians on the medical school faculty, provided that in situations where the medical school is not related to the hospital (within the meaning of § 405.427), the hospital does not make payment to the medical school for services rendered to all patients and the following requirements are met: (In situations where the hospital makes payment to the medical school for services rendered to all patients, these requirements do not apply (see § 405.465(c)(1)(ii)).)

(i) There is a written agreement between the hospital and the medical school or organization related thereto, specifying the types and extent of services to be furnished by the medical school and specifying that the hospital must pay to the medical school an amount at least equal to the reasonable cost (as defined in paragraph (c) of this section) of providing such services to health insurance program patients,

(ii) Such costs are paid to the medical school by the hospital no later than the date on which the cost report covering the period in which the services were rendered is due, and

(iii) Payment for such services furnished under such an arrangement would be made by the health insurance program to the hospital had such services been furnished directly by the hospital.

(3) *Physicians on the voluntary staff of the hospital (or medical school under arrangement with the hospital).* Payments will be made by the health insurance program on a "salary equivalent" basis (as defined in paragraph (d) of this section) to a fund where the conditions outlined in § 405.466 are met.

(f) *Requirements for reimbursement for medical school faculty services other than physicians' direct medical and surgical services rendered in a teaching hospital.* Reimbursement will be made to a hospital by the health insurance program for the costs of medical school faculty services other than physicians' direct medical and surgical services rendered in a teaching hospital where the requirements described in paragraph (e) of this section are met.

(g) *Aggregate per diem methods of apportionment for physicians' direct medical and surgical services (including supervision of interns and residents) in the care of individual patients, rendered in a teaching hospital.*

(1) *Aggregate per diem method of apportionment for the costs of physicians' direct medical and surgical services (including supervision of interns and residents) in the care of individual patients.* The cost of physicians' direct medical and surgical services rendered in a teaching hospital to health insurance program beneficiaries is determined on the basis of an average cost per diem as defined in paragraph (h)(1) of this section for physicians' direct medical and surgical services to all patients (see § 405.521) for each of the following categories of physicians:

(i) Physicians on the hospital staff.

(ii) Physicians on the medical school faculty.

(2) *Aggregate per diem method of apportionment for the imputed value of physicians' volunteer direct medical and surgical services.* The imputed value of physicians' direct medical and surgical services rendered to health insurance program beneficiaries in a teaching hospital is determined on the basis of an average per diem, as defined in paragraph (h)(1) of this section, for physicians' direct medical and surgical services to all patients except that the average per diem will be derived from the imputed value of the physician volunteer direct medical and surgical services rendered to all patients.

(h) *Definitions.*—(1) *Average cost per diem for physicians' direct medical and surgical services (including supervision of interns and residents) rendered in a teaching hospital.* Average cost per diem for physicians' direct medical and surgical services rendered in a teaching hospital to patients in each category of physicians' services as described in paragraphs (g)(1)(i) and (ii) of this section means the amount computed by dividing total reasonable costs of such services in each category by the sum of:

(i) Inpatient days (as defined in paragraph (h)(2) of this section) and,

(ii) Outpatient visit days (as defined in paragraph (h)(3) of this section).

(2) *Inpatient days.* Inpatient days will be determined by counting the day of admission as 3.5 days and each day subsequent to a patient's day of admission except the day of discharge, as 1 day.

(3) *Outpatient visit days.* Outpatient visit days will be determined by counting only one visit day for each calendar day that a patient visits the outpatient department.

(i) *Application.* (1) The following illustrates how apportionment based on the Aggregate Per Diem Method for cost of physicians' direct medical and surgical services rendered in a teaching hospital to patients will be determined.

TEACHING HOSPITAL Y

| | |
|---|---|
| Statistical and financial data: | |
| Total inpatient days as defined in paragraph (h)(2) of this section and outpatient visit days as defined in paragraph (h)(3) of this section | 75,000 |
| Total inpatient part A days applicable to program beneficiaries | 20,000 |
| Total inpatient part B days applicable to program beneficiaries where part A coverage is not available | 1,000 |
| Total outpatient part B visit days applicable to program beneficiaries | 5,000 |
| Total cost of direct medical and surgical services rendered to all patients by physicians on the hospital staff as determined in accordance with paragraph (j) of this section | $1,500,000 |
| Total cost of direct medical and surgical services rendered to all patients by physicians on the medical school faculty as determined in accordance with paragraph (j) of this section | $1,650,000 |
| Computation of cost applicable to program for physicians on the hospital staff: | |
| Average cost per diem for direct medical and surgical services to patients by physicians on the hospital staff: $1,500,000 ÷ 75,000 = $20 per diem. | |
| Cost of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part A: $20 per diem × 20,000 | $400,000 |
| Cost of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part B: $20 per diem × 1,000 | $20,000 |
| Cost of physicians' direct medical and surgical services rendered to outpatient beneficiaries covered under part B: $20 per diem × 5,000 | $100,000 |
| Computation of cost applicable to program for physicians on the medical school faculty: | |
| Average cost per diem for direct medical and surgical services to patients by physicians on the medical school faculty: $1,650,000 ÷ 75,000 = $22 per diem. | |
| Cost of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part A: $22 per diem × 20,000 | $440,000 |
| Cost of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part B: $22 per diem × 1,000 | $22,000 |
| Cost of physicians' direct medical and surgical services rendered to outpatient beneficiaries covered under part B: $22 per diem × 5,000 | $110,000 |

(2) The following illustrates how the imputed value of physicians' volunteer direct medical and surgical services rendered in a teaching hospital applicable to health insurance program patients will be determined.

*Example:* The physicians on the medical staff of Teaching Hospital Y donated a total of 5,000 hours in rendering direct medical and surgical services to patients of the hospital during a cost-reporting period and did not receive any compensation from either the hospital or the medical school. Also, the imputed value for any physician's volunteer services did not exceed the rate of $30,000 per year per physician.

| | |
|---|---|
| Statistical and financial data: | |
| Total salaries paid to the full-time salaried physicians by the hospital (excluding interns and residents) | $800,000 |
| Total physicians who were paid for an average of 40 hours per week or 2,080 (52 weeks × 40 hours per week) hours per year | 20 |
| Average hourly rate equivalent: $800,000 ÷ 41,600 (2,080 × 20) | $19.23 |
| Computation of total imputed value of physicians' volunteer services applicable to all patients: | |
| (Total donated hours × average hourly rate equivalent): 5,000 × $19.23 | $96,150 |
| Total inpatient days (as defined in paragraph (h)(2) of this section) and outpatient visit days (as defined in paragraph (h)(3) of this section) | 75,000 |
| Total inpatient part A days applicable to program beneficiaries | 20,000 |
| Total inpatient part B days applicable to program beneficiaries where part A coverage is not available | 1,000 |
| Total outpatient part B visit days applicable to program beneficiaries | 5,000 |
| Computation of imputed value of physicians' volunteer direct medical and surgical services applicable to program beneficiaries: | |
| Average per diem for physicians' direct medical and surgical services to patients: $96,150 ÷ 75,000 = $1.28 per diem. | |
| Imputed value of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part A: $1.28 per diem × 20,000 | $25,600 |
| Imputed value of physicians' direct medical and surgical services rendered to inpatient beneficiaries covered under part B: $1.28 per diem × 1,000 | $1,280 |
| Imputed value of physicians' direct medical and surgical services rendered to outpatient beneficiaries covered under part B: $1.28 per diem × 5,000 | $6,400 |
| Total | $33,280 |

(j) *Allocation of compensation paid to physicians in a teaching hospital.* In determining reasonable cost under this section, the compensation paid by a teaching hospital, or a medical school or related organization under arrangement with the hospital, to physicians in a teaching hospital must be allocated to the full range of services implicit in the physicians' compensation arrangements. (However, see paragraph (d) of this section for the computation of the "salary equivalent" payments for volunteer services rendered to patients.) Such allocation must be made and must be capable of substantiation on the basis of the proportion of each physician's time spent in rendering each type of service to such hospital and/or medical school.

3. Section 405.466 is added to read as follows:

**§ 405.466 Payment to a fund.**

(a) *General.* Payment for certain voluntary services by physicians in teaching hospitals (as such services are described in § 405.521(d)(2) will be paid on a salary equivalent basis (as described in § 405.465(d)) subject to the conditions and limitations contained in this Part 405 and title XVIII of the Act, to a single fund (as defined in paragraph (b) of this section) designated by the organized medical staff of the hospital (or, where such services are furnished in such hospital by the faculty of a medical school, to such fund as may be designated by the faculty), if:

(1) The hospital (or medical school furnishing the services under arrangement with the hospital) incurs no actual cost in furnishing the services; and

(2) The hospital has an agreement with the Secretary under § 405.602; and

(3) The intermediary, or the Social Security Administration, as appropriate, has received written assurances that:

(i) The payment will be used solely for the improvement of care of hospital patients or for educational or charitable purposes; and

(ii) Neither the individuals who are furnished the services nor any other persons will be charged for the services (and if charged, provision will be made for the return of any monies incorrectly collected).

(b) *Definition of a fund.* For purposes of paragraph (a) of this section, a fund is an organization which meets either of the following requirements:

(1) Has and retains exemption, as a governmental entity or under section 501(c)(3) of the Internal Revenue Code (nonprofit educational, charitable, and similar organizations), from Federal taxation; or

(2) Is an organization of physicians who, under the terms of their employment by an entity which meets the requirements of paragraph (b)(1) of this section, are required to turn over to that entity all income which the physician organization derives from the physicians' services.

(c) *Status of a fund.* A fund approved for payment under paragraph (a) of this section has all the rights and responsibilities of a provider under title XVIII of the Act except that it does not enter into an agreement with the Secretary under § 405.602.

4. The material in § 405.521(d) is redesignated as § 405.521(d)(1) and paragraphs (d)(2) and (d)(3) are added to read as follows:

**§ 405.521 Services of attending physicians supervising interns and residents.**

* * * * * *

(d) * * *

(2) For cost-reporting periods beginning after June 30, 1973, and before July 1, 1976, a hospital with an approved teaching program (see § 405.522(a)) may elect to receive reimbursement on a reasonable cost basis for the direct medical and surgical services of its physicians in lieu of any payment on the basis of reasonable charges which might otherwise be payable for such services. A hospital may make this election to receive cost reimbursement only where all physicians who render services in the hospital which are covered under the health insurance program agree not to bill charges for such services (or where all the physicians are employees of the hospital and as a condition of employment they are precluded from billing for such services). Where the requirements of this paragraph (d)(2) are satisfied by a hospital, the reimbursement provisions of § 405.465 are applicable.

(3) Where payments for services of physicians in teaching hospitals rendered after June 30, 1973, and before December 31, 1973, would be improper by virtue of section 15(a) of Pub. L. 93-233 (87 Stat. 965), such payments are deemed proper even though they may not meet the requirements which are based on section 15(a) of Pub. L. 93-233, if they are appropriately made under the provisions of section 227 of Pub. L. 92-603 (86 Stat. 1404).

## Title 21—Food and Drugs

### CHAPTER I—FOOD AND DRUG ADMINISTRATION, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### SUBCHAPTER E—ANIMAL DRUGS, FEEDS, AND RELATED PRODUCTS

[Docket No. 75N-0126]

### PART 510—NEW ANIMAL DRUGS

### PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

#### Tylosin

The Commissioner of Food and Drugs has evaluated a new animal drug application (100-744) filed by Dixie Mills Co., 10th and Walnut Sts., East St. Louis, IL 62202, proposing safe and effective use of a tylosin premix for the manufacture of swine feed. The application is approved, effective August 8, 1975.

The Commissioner is amending Parts 510 and 558 (formerly Parts 135 and 135e prior to recodification published in the FEDERAL REGISTER of March 27, 1974 (40 FR 13802)) to reflect the approval set forth below.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 510 and 558 of Chapter I of Title 21 of the Code of Federal Regulations are amended as follows:

1. In Part 510 by amending § 510.600 (formerly § 135.501) by adding a sponsor alphabetically to paragraph (c) (1) and numerically to paragraph (c) (2), as follows:

**§ 510.600 Names, addresses, and code numbers of sponsors of approved applications.**

* * * * * * *

(c) * * *

(1) * * *

| Firm name and address: | *Drug listing No.* |
|---|---|
| * * * * * | |

| * * * * * | |
| 025066 | Dixie Mills Co., 10th and Walnut Sts., East St. Louis, IL 62202. |
| * * * * * | |

2. In Part 558, § 558.625 (formerly § 135e.10), by adding paragraph (b) (41) as follows:

**§ 558.625 Tylosin.**

* * * * * * *

(b) * * *

(41) To 025066: 0.8 gram per pound; paragraph (f) (1) (vi) (*a*) of this section.

* * * * * * *

*Effective date.* This amendment shall become effective on August 8, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b (i)).)

Dated: August 1, 1975.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

[FR Doc.75-20534 Filed 8-7-75;8:45 am]

[Docket No. 75N-0155]

## PART 558—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

### Robenidine Hydrochloride, Bacitracin Methylene Disalicylate

The Commissioner of Food and Drugs has evaluated a new animal drug application (97-085V) filed by American Cyanamid Co., Princeton, NJ 08540, proposing safe and effective use of robenidine hydrochloride and bacitracin methylene disalicylate in the complete feed for broiler and fryer chickens. The application is approved, effective August 8, 1975.

The Commissioner is amending § 558.515 (formerly § 135e.66 prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)) to reflect this approval.

In accordance with § 514.11(e) (2) (ii) (21 CFR 514.11(e) (2) (ii)) of the animal drug regulations, a summary of the safety and effectiveness of data and information submitted to support the approval of this application is released publicly. The summary is available for public examination at the office of the Hearing Clerk, Rm. 4-65, 5600 Fishers Lane, Rockville, MD 20852, Monday through Friday from 9 a.m. to 4 p.m., except on Federal legal holidays.

Therefore, under the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i))), and under authority delegated to the Commissioner (21 CFR 5.1), § 558.515 is amended by adding paragraph (f) (1) (vii) as follows:

**§ 558.515 Robenidine hydrochloride.**

* * * * * * *

(f) * * *

(1) * * *

(vii) *Amount per ton.* Robenidine hydrochloride, 30 grams (.0033 percent) plus bacitracin, 4 to 50 grams (as bacitracin methylene disalicylate).

(*a*) *Indications for use.* As an aid in the prevention of coccidiosis caused by *E. mivati, E. brunetti, E. tenella, E. acervulina, E. maxima,* and *E. necatrix,* and: in the presence of 4 to 30 grams per ton of bacitracin, for increased rate of weight gain; in the presence of 27 to 50 grams per ton of bacitracin, for improved feed efficiency.

(*b*) *Limitations.* Feed continuously as sole ration; do not feed to laying chickens; withdraw 5 days prior to slaughter; as bacitracin methylene disalicylate provided by No. 000794 in § 510.600(c) of this chapter.

* * * * * * *

*Effective date.* This regulation becomes effective August 8, 1975.

(Sec. 512(i), 82 Stat. 347 (21 U.S.C. 360b(i)).)

Dated: August 1, 1975.

C. D. VAN HOUWELING,
*Director, Bureau of Veterinary Medicine.*

## Title 22—Foreign Relations

## CHAPTER I—DEPARTMENT OF STATE

## PART 41—VISAS: DOCUMENTATION OF NONIMMIGRANTS UNDER THE IMMIGRATION AND NATIONALITY ACT, AS AMENDED

### Passports and Visas Not Required for Certain Nonimmigrants

Reference is made to the notice of proposed rulemaking published August 13, 1974, (39 FR 28995), concerning the proposed revocation of the waiver of the nonimmigrant visa requirement for certain aliens seeking to enter Puerto Rico or the Virgin Islands of the United States.

Over twenty comments were received in response to that notice. Many of the comments expressed general opposition to the proposed amendment. Certain comments related to specific situations in which it was represented that retention of the waiver was warranted. After careful consideration of the comments received, it has been determined that the proposed rule should be modified to the extent of retaining provision for a waiver of the visa requirement in two limited cases. Nationals of the British Virgin Islands having a residence in such islands will continue to benefit from such a waiver when seeking to enter the Virgin Islands of the United States as nonimmigrants. Nationals of other British, French or Netherlands territory in the Caribbean area, or of independent countries formerly a part of such territory, who are beneficiaries of indefinite certifications issued by the Department of Labor for employment in the Virgin Islands of the United States, and their spouses and children, will benefit from such a waiver when seeking to enter the Virgin Islands of the United States for employment to their certifications.

Aliens whose entitlement to a waiver of the nonimmigrant visa requirement is being revoked will be invited to make application for nonimmigrant visas by mail to the American Embassy at Bridgetown, Barbados. In those cases in which the consular officer can adjudicate the application without the necessity of a personal interview with the applicant, the visaed passport and associated documentation will be returned to the applicant by mail. A consular officer from the Embassy at Bridgetown will make periodic visits to the various islands within the Embassy's consular district for the purpose of conducting personal interviews with applicants in whose cases such interviews are required in order to complete the adjudication of the visa application. The Embassy will promulgate appropriate instructions and information concerning the precise details of the procedures established to carry out this function.

No substantive change was proposed or has been made in that portion of § 41.6 (b) which provides a waiver of the nonimmigrant visa requirement for certain aliens proceeding to the United States as temporary agricultural workers. Certain editorial changes have been made made for purposes of clarity.

Accordingly, the amendment to 22 CFR 41.6(b), with modifications as described in the foregoing, is adopted and is set forth below.

* * * * * *

In § 41.6 paragraph (b) is revised as follows:

**§ 41.6 Nonimmigrants not required to present passports, visas, or border crossing identification cards.**

* * * * * *

(b) *British, French, and Netherlands nationals, and nationals of certain adjacent islands of the Caribbean which are independent countries.* A visa shall not be required of a British, French, or Netherlands national, or of a national of Barbados, Grenada, Jamaica, or Trinidad and Tobago, who has his residence in British, French, or Netherlands territory located in the adjacent islands of the Caribbean area, or in Barbados, Grenada, Jamaica, or Trinidad and Tobago, who:

(1) Is proceeding to the United States as an agricultural worker; or

(2) Is the beneficiary of a valid, unexpired indefinite certification granted by the Department of Labor for employment in the Virgin Islands of the United States and is proceeding to the Virgin Islands of the United States for such purpose, or is the spouse or child of such an alien accompanying or following to join him.

A visa shall not be required of a national of the British Virgin Islands who has his residence in the British Virgin Islands, and who is proceeding to the Virgin Islands of the United States.

* * * * * *

*Effective date.* The amendment will become effective October 7, 1975.

(Sec. 104, 66 Stat. 174 (8 U.S.C. 1104))

For the Secretary of State:

Date: July 25, 1975.

LOREN E. LAWRENCE,
*Acting Administrator, Bureau of Security and Consular Affairs, Department of State.*

For the Attorney General:

Date: July 28, 1975.

LEONARD F. CHAPMAN, Jr.,
*Commissioner, Immigration and Naturalization Service, Department of Justice.*

## Title 23—Highways

## CHAPTER I—FEDERAL HIGHWAY ADMINISTRATION, DEPARTMENT OF TRANSPORTATION

### SUBCHAPTER H—RIGHT-OF-WAY AND ENVIRONMENT

## PART 712—THE ACQUISITION FUNCTION

The Federal Highway Administration hereby amends Part 712 published in the FEDERAL REGISTER August 16, 1974, at 39 FR 29590, by revising § 712.204 paragraph (c) to clarify Federal Highway Administration right-of-way acquisition authorization procedures.

The revision is intended to make clear that the location and design approval requirements of § 790.9 paragraph (e) (2) of this Chapter may be included in the stipulations of an acquisition authorization given at the time of program approval. It is further intended to make clear that an authorization to acquire given at the time of program approval also includes authorization to proceed with the necessary preliminary activities.

This will codify a revision of paragraph 5(c) of Federal-Aid Highway Program Manual Volume 7, Chapter 2, Section 2, issued contemporaneously herewith.

23 CFR 712.204 paragraph (c) is revised to read as follows:

**§ 712.204 Project procedures.**

* * * * * *

(c) *Authorizations.* Concurrent with or subsequent to program approval, FHWA may, in response to a SHD's request:

(1) Authorize the SHD to proceed with those right-of-way activities necessary for the completion of the final environmental impact statement or negative declaration and preparation for public hearings, or

(2) Authorize the SHD to proceed with all preliminary right-of-way activities, including property appraisals, up to but not including negotiations, with the condition that appraisals of partial takings will not be made until the SHD has prepared right-of-way plans, or

(3) Authorize the SHD to proceed with those right-of-way activities enumerated in paragraph (c) (2) of this section, and authorize the acquisition of rights-of-way on a project with the stipulation that the following requirements will be met before acquisition will commence:

(i) The relocation project assurances and relocation plan have been approved by FHWA pursuant to the provisions of §§ 740.6 paragraph (b) and 740.12 of this chapter, and

(ii) The provisions of § 771.5 of this chapter have been met relative to environmental impact statements, negative declarations, and public hearing transcripts and certifications, and

(iii) where applicable, the provisions of § 771.19 of this chapter have been met relative to section 4(f) statements, and

(iv) where applicable, the provisions of § 790.9 paragraph (e) (2) of this chapter have been met relative to location and design approval.

This revision will take effect immediately.

Issued on: August 1, 1975.

NORBERT T. TIEMANN,
*Federal Highway Administrator.*

[FR Doc.75-20579 Filed 8-7-75;8:45 am]

## Title 24—Housing and Urban Development

## CHAPTER VIII—LOW-INCOME HOUSING

[Docket No. R-75-345]

## PART 860—INCOME LIMITS WITH RESPECT TO, ADMISSION TO, AND OCCUPANCY OF, LOW-INCOME HOUSING OWNED BY PUBLIC HOUSING AGENCIES OR LEASED BY PUBLIC HOUSING AGENCIES FROM PRIVATE OWNERS

### Interim Rule

Notice is hereby given that the Department of Housing and Urban Development (HUD) is adopting an interim rule amending Chapter VIII of Title 24 by adding a new Part 860, Subpart B.

The interim rule revises HUD's current procedures governing admission to low-income housing projects (with the exception of certain programs) assisted under the United States Housing Act of 1937. The rule supersedes Circulars HM 7465.12, dated 6/2/71, "Housing a Cross-Section of Low-Income Tenants in Low-Rent Public Housing"; HM 7465.5, dated 6/24/70, "Notification to Applicants for Admission to Public Housing"; and a circular dated 12/17/68 entitled "Admission and Continued Occupancy Regulations for Low-Rent Public Housing." This interim rule will be effective during the period prior to the promulgation of regulations pursuant to section 201(b) of the Housing and Community Development Act of 1974, Public Law 93-383, which regulations are required to be made effective within eighteen months after August 22, 1974, the date of enactment of said Act.

The interim rule incorporates, with modifications and clarifications, the procedures and requirements of the Circulars referred to above and is directed as nearly as possible toward the policies expressed in the amendments of the United States Housing Act of 1937 made by the Housing and Community Development Act of 1974, which policies will be fully reflected in the regulations to be promulgated pursuant to section 201(b).

The rule requires that it be implemented in a manner compatible with the objectives of Title VI of the Civil Rights Act of 1964 and HUD regulations and requirements pursuant thereto. It permits public housing agencies (PHAs) that have adopted tenant selection plans pursuant to HUD regulations implementing Title VI, and which plans will require revision because of this interim rule, to submit such revisions for HUD approval subject to a demonstration that the objectives of Title VI, the United States Housing Act of 1937, and this interim rule can be achieved under the PHA's proposed revision.

The interim rule sets forth standards for tenant selection criteria to be established by PHAs which take into consideration both the needs of an individual applicant for low-income public housing and the needs of the community for a financially and socially sound housing program. The standards require the PHA to take into consideration factors of prior conduct of an applicant in determining whether the applicant, if admitted, will have a detrimental effect on the health, safety, or welfare of other tenants or the physical environment or financial stability of the project, and factors which indicate a reasonable probability of favorable future conduct or financial prospects if unfavorable information is received concerning an applicant. The standards require the PHA to avoid concentrations of the most economically and/or socially deprived families in any one or all of the PHA projects, and to achieve, within a reasonable period of time, a tenant body of families with a broad range of incomes generally representative of the income range of low-income families in the PHA's area of operation, as defined in State law. They prohibit the automatic exclusion of an otherwise eligible applicant solely because of the applicant's membership in a particular group or category.

The interim rule requires that an applicant determined to be ineligible for admission be promptly notified of the basis therefor and provide the applicant upon request, within a reasonable time after the determination is made, with an opportunity for informal hearing on such determination. It also requires that approved applicants be notified of the approximate date of occupancy insofar as that date can be reasonably determined.

Publication of this interim rule as a notice of proposed rule making would re-

sult in the establishment of waiting lists which are inconsistent with the Congressional policy expressed in the Housing and Community Development Act of 1974 and which must be implemented no later than eighteen months after August 22, 1974. Therefore, the Secretary has determined that this Subpart shall be effective upon publication. Interested persons are invited to submit written comments and suggestions, with respect to the final rule concerning admission to low-income housing owned by public housing agencies or leased by public housing agencies from private owners, to the Rules Docket Clerk, Office of General Counsel, Room 10245, Department of Housing and Urban Development, 451 7th Street, SW, Washington, D.C. within thirty days. All relevant material received by Sept. 15, 1975, will be considered before adoption of a final rule. A copy of each communication will be available for public inspection during regular business hours at the above address.

A Finding of Inapplicability respecting the National Environmental Policy Act of 1969 has been made in accordance with HUD procedures. A copy of this Finding of Inapplicability will be available for public inspection during regular business hours at the address set forth in the preceding paragraph.

Therefore, Part 860 of Title 24 of the Code of Federal Regulations is added as follows:

Subpart A—Income Limits [Reserved]

Subpart B—Admission

Sec.

860.201 Purpose and scope.
860.202 Applicability.
860.203 Nondiscrimination requirements.
860.204 PHA tenant selection policies.
860.205 Standards for PHA tenant selection criteria.
860.206 Verification procedures.
860.207 Notification to applicants.

Subpart C—Continued Occupancy [Reserved]

AUTHORITY: Section 7(d), Department of Housing and Urban Development Act, 42 U.S.C. 3535(d); Sections 8 and 10(b), United States Housing Act of 1937, 42 U.S.C. 1408 and 1410(b); and Section 101 of the Housing and Community Development Act of 1974, 42 U.S.C. 5301.

## Subpart A—Income Limits [Reserved]

## Subpart B—Admission

### § 860.201 Purposes and scope.

The purpose of this subpart is to prescribe standards and criteria for tenant selection by each public housing agency (PHA) in accordance with the United States Housing Act of 1937 (the Act) and the Annual Contributions Contract (ACC).

### § 860.202 Applicability.

This subpart is applicable to all dwelling units assisted under the United States Housing Act of 1937 in projects owned by or leased to PHAs and leased or subleased by PHAs to tenants, and is not applicable to section 23 and section 10(c) leased housing projects, the section 23 Housing Assistance Payments Program, and the section 8 Housing Assistance Payments program where the owners enter into leases directly with the tenants. This Subpart is not applicable to the Low-Rent Housing Homeownership Opportunities Program (Turnkey III), to the Mutual Help Homeownership Opportunities Program, or to Indian Tribal Housing Authorities.

### § 860.203 Nondiscrimination requirements.

The tenant selection criteria and requirements pursuant to this Subpart shall be established and implemented in a manner compatible with the objectives of Title VI of the Civil Rights Act of 1964 and HUD regulations and requirements pursuant thereto. PHAs which have adopted tenant selection and assignment plans pursuant to HUD regulations and requirements implementing Title VI of the Civil Rights Act of 1964 which require revision to comply with this Subpart shall submit such revisions for HUD approval. Any such request must be supported by a demonstration that the objectives of the Civil Rights Act of 1964 and the objectives of the United States Housing Act of 1937 can be achieved under the revised plan.

### § 860.204 PHA tenant selection policies.

(a) In addition to policies and regulations including preferences and priorities established by the PHA for eligibility and admission to its low-income housing projects pursuant to the Act and the ACC with respect thereto, each PHA shall adopt and implement policies and procedures embodying standards and criteria for tenant selection which take into consideration the needs of individual families for low-income housing and the statutory purpose in developing and operating socially and financially sound low-income housing projects which provide a decent home and a suitable living environment and foster economic and social diversity in the tenant body as a whole.

(b) Such policies and procedures shall be designed to: (1) Avoid concentrations of the most economically and socially deprived families in any one or all of the PHA's low-income housing projects; (2) preclude admission of applicants whose habits and practices reasonably may be expected to have a detrimental effect on the tenants or the project environment; and (3) attain, within a reasonable period of time, a tenant body in each project composed of families with a broad range of incomes and rent-paying ability which is generally representative of the range of incomes of low-income families in the PHA's area of operation, as defined in state law.

(c) Such policies and procedures shall: (1) Not automatically deny admission to a particular group or category of otherwise eligible applicants (e.g., unwed mothers or families with children born out of wedlock); (2) assure that selection by the PHA among otherwise eligible applicants is objective and reasonable; (3) be consistent with the PHA's responsibilities as a public body; and (4) be in compliance with State, local and Federal laws and regulations, including the nondiscrimination requirements of Title VI of the Civil Rights Act of 1964, and the provisions of the ACC.

(d) Such policies and procedures shall: (1) Be duly adopted; (2) be publicized by posting copies thereof in each office where applications are received and by furnishing copies to applicants or tenants upon request; (3) be specific and describe in detail the criteria, standards and preferences to be applied; and (4) provide for verification and documentation of information relevant to acceptance or rejection of an applicant.

### § 860.205 Standards for PHA tenant selection criteria.

(a) The criteria to be established and information to be considered shall be reasonably related to individual attributes and behavior of an applicant and shall not be related to those which may be imputed to a particular group or category of persons of which an applicant may be a member. See, e.g., § 860.204(c).

(b) The criteria to be established in relation to avoiding concentration of families with serious social problems in PHA projects and information to be considered shall be reasonably related to whether the conduct of the applicant in present or prior housing has been such as would not be likely to interfere with other tenants in such a manner as to diminish their enjoyment of the premises by adversely affecting their health, safety or welfare or to affect adversely the physical environment or the financial stability of the project if the applicant were admitted to the project. Relevant information respecting habits or practices to be considered may include, but is not limited to:

(1) An applicant's past performance in meeting financial obligations, especially rent;

(2) A record of disturbance of neighbors, destruction of property, or living or housekeeping habits at prior residences which may adversely affect the health, safety or welfare of other tenants; and

(3) A history of criminal activity involving crimes of physical violence to persons or property and other criminal acts which would adversely affect the health, safety or welfare of other tenants.

(c) The criteria to be established shall be reasonably related to achieving the basic objective, within a reasonable period of time, of housing tenant families with a broad range of income, representative of the range of income of low-income families in the PHA's area of operation, as defined in state law, and with rent-paying ability sufficient to achieve financial stability of the project or projects. To accomplish the objective PHAs shall:

(1) Conduct studies, as necessary, directed to the distribution of incomes of all low-income families (elderly and nonelderly) in the PHA's area of operation, as defined in state law, based upon the most recent census or other reliable data on family income;

(2) Ascertain the actual distribution of incomes of all tenant families in residence in the PHA's projects;

(3) Ascertain the distribution of incomes of families on the PHA's waiting list;

(4) Ascertain the average operating costs of the PHA's project or projects and the average rent required to meet such costs;

(5) Ascertain the average rent which would be achieved based upon the incomes of low-income families in accordance with the distribution of incomes of all low-income families (elderly and nonelderly) in the PHA's area of operation, as defined in state law;

(6) Ascertain the average rent which can be achieved based upon the income of families in tenancy in the PHA's project or projects;

(7) Ascertain the average rent which could be achieved based upon the incomes of the families on the PHA's waiting list;

(8) Utilizing the above information, develop criteria, by preference or otherwise, which will be reasonably calculated to attain the basic objective. The criteria developed shall be sufficiently flexible to assure administrative feasibility. A dwelling unit should not be allowed to remain vacant for the purpose of awaiting application by a family falling within the appropriate range.

(d) In the event of the receipt of unfavorable information with respect to an applicant, consideration shall be given to the time, nature, and extent of the applicant's conduct and to factors which might indicate a reasonable probability of favorable future conduct or financial prospects. For example:

(1) Evidence of rehabilitation;

(2) Evidence of the applicant family's participation in or willingness to participate in social service or other appropriate counseling service programs and the availability of such programs;

(3) Evidence of the applicant family's willingness to attempt to increase family income and the availability of training or employment programs in the locality.

### § 866.206 Verification procedures.

(a) *General.* Adequate procedures shall be developed to obtain and verify information with respect to each applicant. Information relative to the acceptance or rejection of an applicant shall be documented and placed in the applicant's file. Such documentation may include reports of interviews, letters or telephone conversations with reliable sources. As a minimum, such reports shall indicate the date, the source of the information, including the name and title of the individual contacted, and a resume of the information received.

(b) *Suggested sources of information.* Sources of information may include, but are not limited to, the applicant (by means of interviews or home visits), landlords, employers, family social workers, parole officers, court records, drug treatment centers, clinics, physicians or police departments where warranted by the particular circumstances.

(c) *Tenant advisory boards.* The PHA may establish Tenant Advisory Boards for consultation in connection with the tenant selection process.

### § 860.207 Notification to applicants.

(a) The PHA shall promptly notify any applicant determined to be ineligible for admission to a project of the basis for such determination and shall provide the applicant upon request, within a reasonable time after the determination is made, with an opportunity for an informal hearing on such determination.

(b) When a determination has been made that an applicant is eligible and satisfies all requirements for admission including the tenant selection criteria, the applicant shall be notified of the approximate date of occupancy insofar as that date can be reasonably determined.

## Subpart C—Continued Occupancy [Reserved]

*Effective date.* This amendment shall be effective August 8, 1975.

*Inflationary impact statement.* It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A-107.

H. R. CRAWFORD,
*Assistant Secretary for Housing Management.*

# CHAPTER X—FEDERAL INSURANCE ADMINISTRATION, DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

## SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

[Docket No. FI-648]

## PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

### Status of Participating Communities

The purpose of this notice is to list those communities wherein the sale of flood insurance is authorized under the National Flood Insurance Program (42 U.S.C. 4001-4128).

Insurance policies can be obtained from any licensed property insurance agent or broker serving the eligible community, or from the National Flood Insurers Association servicing company for the state (addresses are published at 39 FR 26186-93). A list of servicing companies is also available from the Federal Insurance Administration (FIA), HUD, 451 Seventh Street SW., Washington, D.C. 20410.

The Flood Disaster Protection Act of 1973 requires the purchase of flood insurance as a condition of receiving any form of Federal or Federally related financial assistance for acquisition or construction purposes in a flood plain area having special hazards within any community identified by the Secretary of Housing and Urban Development.

The requirement applies to all identified special flood hazard areas within the United States, and no such financial assistance can legally be provided for acquisition or construction in these areas unless the community has entered the program. Accordingly, for communities listed under this Part no such restriction exists, although insurance, if required, must be purchased.

The Federal Insurance Administrator finds that delayed effective dates would be contrary to the public interest. The Administrator also finds that notice and public procedure under 5 U.S.C. 553(b) are impracticable and unnecessary.

Section 1914.4 of 24 CFR Chapter X, Subchapter B, Part 1914 is amended by adding in alphabetical sequence new entries to the table. In each entry, a complete chronology of effective dates appears for each listed community. The date that appears in the fourth column of the table is provided in order to designate the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. These dates serve notice only for the purposes of granting relief, and not for the application of sanctions, within the meaning of 5 U.S.C. 551. The entry reads as follows:

### § 1914.4 List of eligible communities.

## Title 33—Navigation and Navigable Waters

### CHAPTER I—COAST GUARD, DEPARTMENT OF TRANSPORTATION

[CGD 75-81]

### PART 117—DRAWBRIDGE OPERATION REGULATIONS

### Kent Island, Md.

This amendment changes the regulations for the drawbridge across Kent Island Narrows by extending the periods during which the draw may remain closed to navigation. This amendment was circulated as a public notice dated April 7, 1975 by the Commander, Fifth Coast Guard District, and was published in the FEDERAL REGISTER as a notice of proposed rule making (CGD 75-81) on April 1, 1975 (40 FR 14604). Three replies were received. Two of these had either no comment or no objection to the proposal. The third reply offered two suggestions. The first was that as Memorial Day is celebrated on different dates by the State of Maryland and the Federal Government it might be unclear as to which Memorial Day was meant. This regulation is issued by the Federal Government and therefore the Federal date is the one to be used. The second suggestion reflected concern over possible confusion that might be generated by the use of the proposed opening signal of one long blast followed by one short blast rather than the current signal of three short blasts. While this point may have some validity initially, it is the Coast Guard's position that the proposed opening signal is actually simpler and less confusing than the current signal because of the dual meaning of three short blasts in this case (i.e., to request a draw opening or to indicate that the vessel's engine(s) are going astern).

Accordingly, Part 117 of Title 33 of the Code of Federal Regulations is amended by revising § 117.290 to read as follows:

**§ 117.290 Highway drawbridge, Kent Island Narrows, Md.**

(a) From October 1 through April 30, from 6 a.m. to 6 p.m. the draw shall open on signal. The draw need not open from 6 p.m. to 6 a.m.

(b) From May 1 through September 30:

(1) From 6 a.m. to 9 p.m., Monday through Thursday, except Memorial Day, Independence Day and Labor Day, the draw shall open on signal:

(2) On Fridays, Saturdays, Sundays, Memorial Day, Independence Day and Labor Day, the draw shall open on signal from 6 a.m. to 10 a.m. and from 8 p.m. to 9 p.m.; however, the draw shall open at 12 noon, 2 p.m., 4 p.m., and 6 p.m. if any vessels are waiting to pass.

(3) The draw need not open from 9 p.m. to 6 a.m.

(c) Public vessels of the United States or State or local vessels, on public safety missions shall be passed at any time. The

opening signal from these vessels is four blasts of a whistle or horn. The opening signal from all other vessels is one long blast followed by one short blast.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655 (g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

*Effective date.* This revision shall become effective on September 8, 1975.

Dated: August 4, 1975.

D. J. RILEY,
*Captain, U.S. Coast Guard, Acting Chief, Office of Marine Environment and Systems.*

[FR Doc.75-20545 Filed 8-7-75;8:45 am]

[CGD 75-134]

## PART 117—DRAWBRIDGE OPERATION REGULATIONS

### Atlantic Intracoastal Waterway, Mile 347.3, South Carolina

Regulations were published on May 22, 1970 at 35 FR 7891 (CGFR 70-6a) which restricted the operation of the U.S. 17 drawbridge at mile 347.3 across the Atlantic Intracoastal Waterway near Little River, South Carolina. The purpose of these regulations was to relieve a problem caused by vehicular traffic going to and from the Atlantic beach areas during the summer months on Sundays.

The completion of a fixed bridge at mile 347.2 eliminates the need for the regulations. Therefore, 33 CFR 117.360 is hereby revoked and the draw of the bridge at mile 347.3 shall open on signal at all times.

(Sec. 5, 28 Stat. 362, as amended, sec. 6(g)(2), 80 Stat. 937; 33 U.S.C. 499, 49 U.S.C. 1655 (g)(2); 49 CFR 1.46(c)(5), 33 CFR 1.05-1(c)(4)).

*Effective date.* This revision shall become effective on August 8, 1975.

Dated: July 30, 1975.

R. I. PRICE,
*Rear Admiral, U.S. Coast Guard, Chief, Office of Marine Environment and Systems.*

## Title 40—Protection of Environment

## CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

### SUBCHAPTER C—AIR PROGRAMS

[FRL 394-2]

## PART 52—APPROVAL AND PROMULGATION OF STATE IMPLEMENTATION PLANS

### Virginia; Approval of Compliance Schedules

Section 110 of the Clean Air Act, as amended, and the implementing regulations of 40 CFR Part 51, require each State to submit a plan which provides for the attainment and maintenance of the national ambient air quality standards throughout the State. Each such plan is to contain legally enforceable compliance schedules setting forth the dates by which all stationary and mobile sources must be in compliance with any applicable requirement of the plan.

On May 31, 1972 (37 FR 10842), pursuant to section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of Virginia's State Implementation Plan.

Pursuant to 40 CFR 51.6, the Commonwealth of Virginia has submitted for the Environmental Protection Agency's approval, revisions to the compliance schedule portion of its plan. The approval of these revisions was proposed by the Administrator on March 14, 1975 (40 FR 11895) and on March 24, 1975 (40 FR 13002). This publication approves these revisions with specific exceptions pursuant to the provisions of 40 CFR 51.8.

Of the revisions submitted by the Commonwealth of Virginia for the Environmental Protection Agency's approval, ninety-seven (97) were evaluated and proposed for approval in the FEDERAL REGISTER on the above dates. The remaining compliance schedules submitted by the State were not proposed for approval either because the dates for final compliance will have passed by the date of this publication, or because the Environmental Protection Agency is still negotiating with the State and the individual sources to correct deficiencies appearing in the schedules.

Of the ninety-seven (97) schedules proposed for approval on the above mentioned dates, ninety-two (92) appear in final form below. The Agency still has under consideration the comments submitted with respect to the following facilities of the Mead Corporation: Mead Paperboard Products, Lynchburg; Lunchburg Foundry, Radford; Stanley Furniture Company, Waynesboro; Stanley Furniture Company, Stanleytown, and Stanley Furniture Company, Staunton.

The Administrator has not received public comments concerning the proposed approval of the remaining compliance schedules listed in the March 14, 1975, and March 24, 1975, FEDERAL REGISTER notices.

Each revision established a date by which an individual air pollution source must attain compliance with an emission limitation specified by the State Implementation Plan. This date is indicated in the table below under the heading "Final compliance date". In most cases, the schedules include incremental steps toward compliance with interim dates for achieving those steps. While the table below does not list these interim dates, the actual compliance schedules do. Evaluation reports have been prepared for each listed compliance schedule and are available for public inspection at the Region III Office in Philadelphia, Pennsylvania. All the compliance schedules listed here are available for public inspection at the following locations:

Environmental Protection Agency, Region III, Curtis Building, Sixth and Walnut Streets, Philadelphia, Pennsylvania 19106.
Commonwealth of Virginia, State Air Pollution Control Board, Room 1106, Ninth Street State Office Building, Richmond, Virginia 23219.
Freedom of Information Center, Environmental Protection Agency, 401 M Street SW., Washington, D.C. 20460.

Each compliance schedule listed below has been adopted by the Virginia State Air Pollution Control Board and submitted to the Environmental Protection Agency after notice and public hearing in accordance with the procedural requirements of 40 CFR Part 51. The compliance schedules for the sources identified below meet the requirements of 40 CFR 51.15.

This regulation will become effective September 8, 1975.

(42 U.S.C. 1857c-5).

Dated: July 30, 1975.

RUSSELL E. TRAIN,
*Administrator*

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

### Subpart VV—Virginia

Section 52.2435 is amended by adding a new paragraph (g) reading as follows:

### § 52.2435 Compliance schedules.

* * * * *

(g) The compliance schedules for the sources listed below are approved as meeting the requirements of §§ 51.6 and 51.15 of this chapter. All regulations cited are air pollution control regulations of the State, unless otherwise noted.

[FRL 402-3]

## PART 52—APPROVAL AND PROMULGATION OF IMPLEMENTATION PLANS

### Iowa: Approval of Compliance Schedules

On May 31, 1972 (37 FR 10842), pursuant to Section 110 of the Clean Air Act and 40 CFR Part 51, the Administrator approved portions of State plans for implementation of the national ambient air quality standards.

The State of Iowa submitted to the Environmental Protection Agency compliance schedules to be considered as proposed revisions to the approved plan pursuant to 40 CFR 51.6. The approvable schedules were adopted by the State and submitted to the Environmental Protection Agency for review after notice and public hearings. The public hearings were held in accordance with the procedural requirements of 40 CFR 51.4 and 51.6 and the substantive requirements of 40 CFR 51.15 pertaining to compliance schedules. The compliance schedules have been reviewed and determined to be consistent with the approved control strategies of Iowa.

Accordingly, the Administrator proposed approval of these schedules on June 2, 1975, in the FEDERAL REGISTER, 40 FR 23766. The proposed approval of these schedules published in the June 2, 1975, FEDERAL REGISTER provided for a 30-day comment period. No comments concerning these schedules were received. Set forth below are specific compliance schedules which the Administrator approves pursuant to 40 CFR 51.8.

Each approved revision establishes a new date by which the individual source must comply with the applicable emission limitation in the federally approved State Implementation Plan. This date is indicated in the table below, under the heading "Final Compliance Date." In all cases, the schedules include incremental steps toward compliance with the applicable emission limitations. While the tables below do not include these interim dates, the actual compliance schedules do.

Under Iowa law, the compliance schedule is not enforceable after the date on which the associated variance expires and variances cannot extend for more than one year. Therefore, to the extent that the Iowa schedules extend past the variance expiration date, they are not legally enforceable at this time. For this reason, the Environmental Protection Agency's approval of each compliance schedule is unconditional only as to that part of the schedule covered by the initial variance. Approval of the remainder of the schedule will be conditioned upon the State's renewal of the variance in identical form and substance to that included in the schedule submitted to the Environmental Protection Agency and approved herein. If the variance is renewed in this manner, the condition precedent will be satisfied and the approval of the next segment of the schedule will not require further action by the State or this Agency. If the variance is not renewed, or is modified from the version that is federally-approved herein, the condition will not be fulfilled, the approval of the remainder of the schedule would not be effective, and the State's immediately-effective regulation will again become federally enforceable. The schedules were immediately effective on the date of adoption. An "Effective Date" is not indicated on the table. The "Variance Expiration Date" is included instead.

Provisional approval of final compliance dates and extensions of variances is justifiable only because of the one-year variance limitation in the law of Iowa. Since there will be no substantive changes in the schedules set forth below and public hearings were held on the complete schedules, there is no reason to require compliance with 40 CFR 51.6 procedures at the time Iowa renews each variance.

In the indication of approval of individual compliance schedules, the individual schedules are included by reference only. In addition, since the large number of compliance schedules preclude setting forth detailed reasons for approval of each individual schedule in the FEDERAL REGISTER, an evaluation report has been prepared for each individual compliance schedule. These evaluation reports are available for public inspection at the Environmental Protection Agency Regional Office, 1735 Baltimore, Kansas City, Missouri. The compliance schedules and the State Implementation Plans are available for public inspection at the Environmental Protection Agency Regional Office; the Environmental Protection Agency, Division of Stationary Source Enforcement, 401 M Street, SW., Washington, D.C.; and the Iowa Department of Environmental Quality, 3920 Delaware, Des Moines, Iowa.

This rulemaking will become effective immediately upon publication. The Agency finds that good cause exists for not deferring the effective date of this rulemaking because the compliance schedules are already in effect under State law and federal approval imposes no new burdens.

This rulemaking is promulgated pursuant to the authority of Section 110 of the Clean Air Act of 1970, as amended, 42 U.S.C. 1857c-5.

Dated: August 4, 1975.

JOHN QUARLES,
*Acting Administrator.*

Part 52 of Chapter I, Title 40 of the Code of Federal Regulations is amended as follows:

### Subpart Q—Iowa

1. In § 52.825, the table in paragraph (c) is amended as follows:

SUBCHAPTER E—PESTICIDE PROGRAMS

[PP5F1613/R50]

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### 2-(Thiocyanomethylthio)benzothiazole

On May 8, 1975, notice was given (40 FR 20129) that Buckman Laboratories, Inc., 1256 N. McLean Blvd., Memphis TN 38108 had filed a pesticide petition (PP 5F1613) with the Environmental Protection Agency (EPA). This petition proposed the establishment of a tolerance for negligible residues of the fungicide 2-(thiocyanomethylthio) benzothiazole in or on the raw agricultural commodities safflower (fodder, forage, and seed), sorghum (fodder, forage, and grain), and sugarbeets (roots and tops) at 0.1 part per million.

The data submitted in the petition and other relevant material have been evaluated, and the fungicide is considered to be useful for the purpose for which the tolerance is sought. There is no reasonable expectation of residues in meat, milk, poultry, and eggs and § 180.6(a)(3) applies. The tolerance established by amending § 180.288 will protect the public health, and it is therefore concluded that the tolerance should be established as set forth below.

Any person adversely affected by this regulation may on or before September 8, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, S.W., East Tower, Room 1019, Washington, D.C. 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective August 8, 1975, Part 180, Subpart C, is amended by revising § 180.288 as set forth below.

(Sec. 408(d)(2), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2))

Dated: August 4, 1975.

EDWIN L. JOHNSON,
*Deputy Assistant Administrator for Pesticide Programs.*

Section 180.288 is amended by revising the list of agricultural commodities for which tolerances for negligible residues have been established to include safflower (fodder, forage, and seed), sorghum (fodder, forage, and grain), and sugarbeets (roots and tops) to read as follows:

**§ 180.288 2-(Thiocyanomethylthio)benzothiazole; tolerances for residues.**

Tolerances are established for negligible residues of the fungicide 2-(thiocyanomethylthio) benzothiazole in or on barley (fodder, forage, grain, and straw), corn (fodder, forage, and grain), cotton forage, cottonseed, oats (fodder, forage, grain, and straw), rice (grain and straw) safflower (fodder, forage, and seed), sorghum (fodder, forage, and grain), sugarbeets (roots and tops), and wheat (fodder, forage, grain, and straw) at 0.1 part per million.

[FR Doc.75-20599 Filed 8-7-75;8:45 am]

[PP4F1491/R49]

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Oxadiazon

On May 28, 1974, notice was given (39 FR 18504) that Rhodia Inc., Chipman Div., 120 Jersey Ave., New Brunswick NJ 08903 had filed a pesticide petition (PP 4F1491) with the Environmental Protection Agency (EPA). This petition proposed the establishment of a tolerance for combined negligible residues of the herbicide oxadiazon [2-*tert*-butyl-4-(2,4-dichloro - 5 - isopropoxyphenyl) - $\Delta^2$-1,3,4-oxadiazolin-5-one] and its metabolites [2-*tert*-butyl-4-(2,4-dichloro-5-hydroxyphenyl) - $\Delta^2$ - 1,3,4 - oxadiazolin - 5-one and 2-carboxyisopropyl-4-(2,4-dichloro - 5 - isopropoxyphenyl) - $\Delta^2$ - 1,3,4-oxadiazolin-5-one] in or on the raw agricultural commodities pome fruit and stone fruit at 0.05 part per million.

Rhodia Inc. subsequently amended the petition by proposing that the tolerance be established only for crab-apples, quinces, and pears rather than for the entire commodity group pome fruit.

The data submitted in the petition and other relevant material have been evaluated, and the herbicide is considered to be useful for the purpose for which the tolerance is sought. There is no reasonable expectation of residues in eggs, meat, and meat byproducts of poultry, and § 180.6(a)(3) applies. The established tolerance for residues in milk, meat, and the meat byproducts of cattle, goats, hogs, horses, and sheep is adequate to cover residues resulting from the proposed and existing uses of the herbicide, and § 180.6(a)(2) applies. The tolerance established by amending § 180.346 of the regulations will protect the public health, and it has therefore been concluded that the tolerance should be established as set forth below.

Any person adversely affected by this regulation may, on or before September 8, 1975, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M St., SW., East Tower, Room 1019, Washington, D.C. 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective August 8, 1975, Part 180. Subpart C, is amended by amending § 180.346 as set forth below.

(Sec. 408(d)(2), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(d)(2)).

Dated: August 1, 1975.

LOWELL E. MILLER,
*Acting Deputy Assistant Administrator for Pesticide Programs.*

Section 180.346 is amended by revising the paragraph "0.05 part per million * * *" to include the raw agricultural commodities crabapples, pears, quinces, and the commodity group stone fruit to read as follows:

**§ 180.346 Oxadiazon; tolerances for residues.**

* * * * *

0.05 part per million (negligible residues) in or on crabapples, pears, quinces, rice grain, and stone fruit.

* * * * *

[FR Doc.75-20595 Filed 8-7-75;8:45 am]

## Title 41—Public Contracts and Property Management

### CHAPTER 14H—BUREAU OF INDIAN AFFAIRS, DEPARTMENT OF THE INTERIOR

### PART 14H-1—GENERAL

#### Designation of Contracting Officer Positions

Chapter 14H of 41 CFR was published beginning on page 13659 of the August 26, 1969, FEDERAL REGISTER (38 FR 13659). Chapter 14H contains the Bureau of Indian Affairs Procurement Regulations (BIAPR). Section 14H-1.451-2 of Chapter 14H was subsequently amended most recently on page 38102 of the October 29, 1974, FEDERAL REGISTER (74-25051).

Pursuant to the authority contained in the Act of November 2, 1921, Ch. 115, 42 Stat. 208 (25 U.S.C. 13) and 41 CFR 14-1.008, 41 CFR 14H-1.451-2 is being revised to reflect organization and title changes.

Since this amendment involves internal Bureau procedures, advance notice and public procedure thereon have been deemed unnecessary and are dispensed with under the exception provided in subsection (b)(B) of 5 U.S.C. 553 (1970).

Since delay in the amendment becoming effective could delay the internal processing of contracts in the Bureau with resultant delay in providing services to the Indian and Alaskan Native people, the 30-day deferred effective date is dispensed with under the exception provided in 5 U.S.C. 533(d)(3) (1970). Accordingly, these regulations will become effective on August 8, 1975.

As revised, 41 CFR 14H-1.451-2 reads as follows:

(a) Each of the following organizational titles is designated as a contracting officer position:

(1) Headquarters Office Officials:
(i) Commissioner
(ii) Deputy Commissioner
(iii) Director, Office of Administration
(iv) Chief, Contracting Staff
(v) Chief, Division of Property Management
(vi) Chief, Branch of Contracts and Grants
(vii) Chief, Division of Facilities Engineering, Albuquerque, New Mexico
(viii) Chief, Indian Technical Assistance Center, Denver, Colorado
(ix) Property and Supply Officer, Field Administrative Office, Albuquerque, New Mexico

(2) Area Office Officials:
(i) Area Director
(ii) Area Administrative Officer
(iii) Area Property and Supply Officer except the Navajo Area Property and Supply Officer
(iv) Director, Seattle Liaison Office, Seattle, Washington
(v) Contract Administrator, Aberdeen Area Office
(vi) Chief, Branch of Contracting and Procurement Services, Navajo Area Office

MORRIS THOMPSON,
*Commissioner of Indian Affairs.*

## Title 47—Telecommunications

### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 20149; FCC 75-867]

### LOCAL GOVERNMENT AND MANUFACTURERS RADIO SERVICES

#### Availability of Splinter Frequencies; First Report and Order

In the matter of amendment of Parts 2, 89, and 91 of the Commission's rules and Regulations to make available four 173 MHz splinter frequencies to the Local Government and Manufacturers Radio Services for telemetry and remote control operations.

1. On August 26, 1974, the Commission released a notice of proposed rulemaking in the above-entitled matter, which was published in the FEDERAL REGISTER on September 4, 1974, (39 FR 32148). Comments were filed by the Telecommunications Committee of the National Association of Manufacturers (NAM), The Central Committee on Telecommunications of the American Petroleum Institute (API), the Special Industrial Radio Service Association, (SIRSA), and Utilities Telecommunication Council (UTC). Reply comments were filed by the National Association of Manufacturers and the Utilities Telecommunications Council.

2. The notice of proposed rulemaking sought comments on the Commission's proposal to allocate four 173 MHz splinter frequencies to the Local Government and Manufacturers Radio Services for various remote control and telemetry operations. The allocation was in response to an increasing need for "fixed" operations (air, noise, and water quality monitoring systems) among licensees in these two radio services. In addition to the allocations, the notice proposed increasing the power output limitation for mobile operations on these frequencies from one to three watts.[1]

3. The proposed allocation was supported by NAM and it was opposed by UTC. The other commenting parties, API and SIRSA, did not take issue with the use of these channels by local government and manufacturing entities, provided the use was coordinated among all the user groups. They did, however, suggest the Commission review the frequency usage patterns in the various services involved before adopting the proposal.

4. The basic reason for UTC's opposition was its contention that these channels are already crowded and any additional users will further overload the frequencies. In addition, UTC stated that utilities are using these channels for very critical electric load management functions which cannot tolerate any interference. By opening up these channels to additional radio services, it is argued, the chance of interference to these operations greatly increases. UTC recognizes the increasing need for "fixed" operations, especially on VHF splinter frequencies, but suggests that the Commission provide additional splinter frequencies rather than overload the 173 MHz channels.

5. The Commission is aware of the loading on these channels, and although it is heavy in certain areas, the frequencies are relatively clear in many parts of the country. In addition, the limitations placed on the shared use of these frequencies (coordination, power level, directional antennas, etc.), substantially limit the chance of interference to other co-channel users. Experience has shown us that these frequencies can be successfully shared between different radio services as long as strict coordination is provided. The Commission has reviewed the frequency usage patterns in the services involved and we believe that sharing these 173 MHz frequencies between two additional radio services is feasible. Accordingly, we will make the four 173 MHz splinter frequencies available both in the Local Government and Manufacturers Radio Services. Inter-service coordination will be required for all fixed station use of the frequencies. While a single system for inter-service coordination does not exist, we expect users of these channels to cooperate in maintaining inter-service coordination. To alleviate time delays in coordination clearance, we expect the coordinating bodies involved to respond within 15 days from the date coordination is requested. Use of the channels in these two services will also be subject to the same technical limitations as apply to operations on these channels in the other industrial services.

6. In addition, since the comments indicated an expanding need for fixed and mobile non-voice signalling frequencies, we are issuing a Further notice of proposed rulemaking in this matter looking towards allocating additional splinter frequencies for such signalling operations.

7. Turning to the other matter in the Notice, the Commission proposed raising the output power for mobile operations on these 173 MHz frequencies from one to three watts. The comments contended that there has been no showing of need for higher powered mobile operations and that by increasing the power, the possibility of harmful interference from mobile operations is increased. Since a showing of need for the higher power was not made and in view of the uniform opposition to this proposal, it will not be adopted.[2]

[1] Previously only mobile operations in the Forestry Conservation Radio Service were permitted three watts.

[2] In Forestry Conservation, the mobile power limit will remain at three watts.

8. In view of the foregoing the Commission concludes that the public interest will be served by adopting the rules amendments set forth below. Accordingly, *It is ordered*, That pursuant to authority contained in section 4(i) and 303 of the Communications Act of 1934, as amended; That Parts 2, 89, and 91 of the Commission's rules and regulations are amended effective September 8, 1975 as shown below.

Adopted: July 22, 1975.

Released: August 5, 1975.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082, (47 U.S.C. 154, 303))

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Secretary.*

### PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

1. In § 2.106, Table, the frequencies 173.2–174 MHz are amended to read as follows:

**§ 2.106 Table of Frequency Allocations.**

United States Federal Communications Commission

| Band (MHz) | Allocation | Band (MHz) | Service | Class of station | Frequency (MHz) | Nature (Of Services) (Of Stations) |
|---|---|---|---|---|---|---|
| 5 | 6 | 7 | 8 | 9 | 10 | 11 |
| * * * * * * * | | | | | | |
| 173.2-173.4 | NG. | 173.2-173.4 | Fixed. Land mobile. | Base. Fixed mobile. | | PUBLIC SAFETY INDUSTRIAL. |
| 173.4-174.0 | G. | | | | | |
| * * * * * * * | | | | | | |

### PART 89—PUBLIC SAFETY RADIO SERVICE

II. Part 89 of the Commission's Rules is amended as follows:

1. Section 89.259(f), Table, is amended by the addition of four 173 MHz frequency bands to the frequency table and five new subparagraphs (13), (14), (15), (16), and (17) [are added] to paragraph (g) to read as follows:

**§ 89.259 Frequencies available to the Local Government Radio Service.**

* * * * *

"(f) * * *

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz* | | |
| * * * * * | | |
| 158.955 | Mobile | |
| 173.20375 | Fixed or mobile | 13, 15, 16, 17 |
| 173.2100 | do | 13, 14, 16, 17 |
| 173.3900 | do | 13, 14, 16, 17 |
| 173.39625 | do | 13, 15, 16, 17 |
| 453.025 | Central control, fixed | 5, 11 |
| * * * * * | | |

(g) * * *

(13) The maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(14) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation or swing in hertz may not exceed 1700 Hz and the maximum deviation may not exceed 1.2 kHz. For AM transmitters the highest modulating frequency may not exceed 1200 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 3 kHz.

(15) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation or swing in hertz may not exceed 2800 Hz and the maximum deviation may not exceed 2.5 kHz. For AM transmitters the highest modulating frequency may not exceed 2000 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 6 kHz.

(16) This frequency band is available on a shared basis with several Industrial Radio Services. Evidence of interservice coordination is required.

(17) Operational fixed stations must employ directional antennas having a front-to-back ratio at least 20 dB. Omnidirectional antennas having unity gain

may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

## PART 91—INDUSTRIAL RADIO SERVICES

III. Part 91 of the Commission's Rules is amended as follows:

1. Section 91.254(a) table is amended and (b)(20) and (23) are revised to read as follows:

**§ 91.254 Frequencies available.**

(a) * * *.

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz* | | |
| * * * * * | | |
| 171.925 | Operational fixed | 4 |
| 173.20375 | Fixed or mobile | 18, 20, 22, 23 |
| 173.2100 | do | 20, 21, 22, 23 |
| * * * * * | | |
| 173.3900 | Fixed or mobile | 20, 21, 22, 23 |
| 173.39625 | do | 18, 20, 22, 23 |
| 216–220 | Base or mobile | 21 |
| * * * * * | | |

(b) * * *

(20) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

* * * * *

(23) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

* * * * *

2. Section 91.304(a), Table, and paragraphs (b), (21) and (25) are amended to read as follows:

**§ 91.304 Frequencies available.**

(a) * * *

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz* | | |
| * * * * * | | |
| 171.925 | Operational fixed | 2 |
| 173.20375 | Fixed or mobile | 21, 24, 25, 26 |
| 173.2100 | do | 21, 23, 25, 26 |
| * * * * * | | |
| 173.3900 | Fixed or mobile | 21, 23, 25, 26 |
| 173.39625 | do | 21, 24, 25, 26 |
| 216–220 | Base or mobile | 27 |
| * * * * * | | |

(b) * * *

(21) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

* * * * *

(25) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

* * * * *

3. Section 91.354(a), Table, and paragraphs (b) (24) and (26) are amended to read as follows:

**§ 91.354 Frequencies available.**

(a) * * *

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz* | | |
| * * * * * | | |
| 171.925 | Operational fixed | 2 |
| 173.20375 | Fixed or mobile | 22, 24, 25, 26 |
| 173.2100 | do | 23, 24, 25, 26 |
| * * * * * | | |
| 173.3900 | Fixed or mobile | 23, 24, 25, 26 |
| 173.39625 | do | 22, 24, 25, 26 |
| 216–220 | Base or mobile | 7 |
| * * * * * | | |

(b) * * *

(23) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

* * * * *

(24) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1 or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

* * * * *

(26) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

* * * * *

4. Section 91.504, (a), Table, and paragraphs (b) (23) and (25) are amended to read as follows:

**§ 91.504 Frequencies available.**

(a) * * *

| Frequency or band | Class of station(s) | General reference | Limitations |
|---|---|---|---|
| *MHz* | | | |
| * * * * * | | | |
| 171.925 | Operational fixed | Hydrological | 4 |
| 173.20375 | Fixed or mobile | Permanent use | 21, 23, 24, 25 |
| 173.2100 | do | do | 22, 23, 24, 25 |
| 173.3900 | do | do | 22, 23, 24, 25 |
| 173.39625 | do | do | 21, 23, 24, 25 |
| 216–220 | Base or mobile | Telemetry | 30 |
| * * * * * | | | |

(b) * * *

(23) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

* * * * *

(25) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

* * * * *

5. Section 91.554(a), Table, and paragraphs (b)(29) are amended to read as follows:

**§ 91.554 Frequencies available.**

(a) * * *

| Frequency or band | Class of station(s) | General reference | Limitations |
|---|---|---|---|
| *MHz* | | | |
| * * * * * | | | |
| 171.925 | Operational fixed | Hydrological | 4 |
| 173.20375 | Mobile | Permanent use | 29, 30 |
| 173.2100 | do | do | 29, 31 |
| 173.3900 | do | do | 29, 31 |
| 173.39625 | do | do | 29, 30 |
| 216–220 | do | Telemetry | 45 |
| * * * * * | | | |

(b) * * *

(29) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services and may be used for low-power mobile operations for the purpose of remote control and telemetering. The maximum power output of the transmitter may not exceed 1 watt. A1, A2, F1, or F2 emission may be authorized and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode. Evidence of interservice coordination is required.

* * * * *

6. Section 91.730(a), Table, is amended by the addition of four 173 MHz frequency bands to the frequency table and three new subparagraphs (23), (24), and (25), added to paragraph (b) to read as follows:

**§ 91.730 Frequencies available.**

(a) * * *

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz* | | |
| * * * * * | | |
| 158.430 | Base or mobile | 1 |
| 173.20375 | Fixed or mobile | 23, 24, 26, 27 |
| 173.2100 | do | 24, 25, 26, 27 |
| 173.3900 | do | 24, 25, 26, 27 |
| 173.39625 | do | 23, 24, 26, 27 |
| 216–220 | Base or mobile | 19 |
| * * * * * | | |

(b) * * *

(23) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation or swing in hertz may not exceed 2800 Hz. and the maximum frequency deviation may not exceed 2.5 kHz. For AM transmitters the highest modulating frequency may not exceed 2000 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 6 kHz.

(24) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(25) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation or swing in hertz may not exceed 1700 Hz and the maximum deviation may not exceed 1.2 kHz. For AM transmitters the highest modulating frequency may not exceed 1200 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 3 kHz.

[Docket No. 19907; RM-2192]

## PART 73—RADIO BROADCAST SERVICES

### Special Signals Within Vertical Blanking Interval of Video Television Broadcast Signal

1. In the report and order in Docket No. 19907 (39 FR 40954) the Commission amended rules regarding special signals within the vertical blanking interval of the video television broadcast signal. In the Appendix attached to the report and order it was stated that the note at the end of § 73.676(g) was deleted. The note at the end of § 73.676(h) should also have been deleted since the action dates set out in that Note have passed. Compliance with the notice and procedure provisions of section 553 of the Administrative Procedure Act is therefore unnecessary.

2. This amendment to the rules is issued under authority granted the Commission in sections 4(i), 5(e), 303(c) and 303(r) of the Communications Act of 1934, as amended, and delegated to the Executive Director by the Commission under § 0.231(d) of the Commission's rules and regulations.

**§ 73.676 [Amended]**

3. Accordingly, *it is ordered*, That effective August 18, 1975, the note at the end of § 73.676(h) of the Rules is deleted.

(Secs. 4, 5, 303, 48 Stat., as amended, 1066, 1068, 1082; 47 U.S.C. 154, 155, 303)

Adopted: July 30, 1975.

Released: July 31, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
RICHARD D. LICHTWARDT,
*Executive Director.*

[FR Doc.75-20526 Filed 8-7-75;8:45 am]

# proposed rules

This section of the FEDERAL REGISTER contains notices to the public of the proposed issuance of rules and regulations. The purpose of these notices is to give interested persons an opportunity to participate in the rule making prior to the adoption of the final rules.

## DEPARTMENT OF AGRICULTURE

### Agricultural Marketing Service

### [ 7 CFR Part 946 ]

### IRISH POTATOES GROWN IN WASHINGTON

### Notice of Proposed Expenses and Rate of Assessment

Consideration is being given to authorizing the State of Washington Potato Committee to spend $13,450 for its operations during the fiscal period ending June 30, 1976, and to collect fourtenths cent per hundredweight on assessable potatoes handled by first handlers under the program.

The committee is the administrative agency established under Marketing Agreement No. 113 and Order No. 946, both as amended, regulating the handling of Irish potatoes grown in Washington. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

All persons who desire to submit written data, views, or arguments in connection with this proposal should file the same, in duplicate, with the Hearing Clerk, Room 112–A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than August 22, 1975. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

It is proposed to add § 946.228 to 7 CFR Part 946 as follows:

**§ 946.228 Expenses and rate of assessment.**

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1976, by the State of Washington Potato Committee for its maintenance and functioning and for such other purposes as the Secretary may determine to be appropriate will amount to $13,450.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be four-tenths cent ($0.004) per hundredweight, or equivalent quantity, of potatoes handled by him as the first handler thereof during the fiscal period, except potatoes for canning, freezing, and "other processing" as defined in the act shall be exempt.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve.

(d) Terms used in this section have the same meaning as when used in the marketing agreement and this part.

Dated: August 4, 1975.

D. S. KURYLOSKI,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

### MILK IN THE PADUCAH, KENTUCKY MARKETING AREA

### Decision on Proposed Amendments to Marketing Agreement and to Order

### Correction

In FR Doc. 75–20248 appearing at page 32751 in the issue for Monday, August 4, 1975, the order amending order was inadvertently omitted and should appear after the signature on page 32753 as follows:

ORDER[1] AMENDING THE ORDER, REGULATING THE HANDLING OF MILK IN THE PADUCAH, KENTUCKY, MARKETING AREA

FINDINGS AND DETERMINATIONS

The findings and determinations hereinafter set forth are supplementary and in addition to the findings and determinations previously made in connection with the issuance of the aforesaid order and of the previously issued amendments thereto; and all of said previous findings and determinations are hereby ratified and affirmed, except insofar as such findings and determinations may be in conflict with the findings and determinations set forth herein.

(a) *Findings.* A public hearing was held upon certain proposed amendments to the tentative marketing agreement and to the order regulating the handling of milk in the Paducah, Kentucky, marketing area.

The hearing was held pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure (7 CFR Part 900).

[1] This order shall not become effective unless and until the requirements of § 900.14 of the rules of practice and procedure governing proceedings to formulate marketing agreements and marketing orders have been met.

Upon the basis of the evidence introduced at such hearing and the record thereof, it is found that:

(1) The said order as hereby amended, and all of the terms and conditions thereof, will tend to effectuate the declared policy of the Act;

(2) The parity prices of milk, as determined pursuant to section 2 of the Act, are not reasonable in view of the price of feeds, available supplies of feeds, and other economic conditions which effect market supply and demand for milk in the said marketing area, and the minimum prices specified in the order as hereby amended, are such prices as will reflect the aforesaid factors, insure a sufficient quantity of pure and wholesome milk, and be in the public interest; and

(3) The said order as hereby amended regulates the handling of milk in the same manner as, and is applicable only to persons in the respective classes of industrial or commercial activity specified in, a marketing agreement upon which a hearing has been held.

*Order relative to handling.* It is therefore ordered that on and after the effective date hereof the handling of milk in the Paducah, Kentucky, marketing area shall be in conformity to and in compliance with the terms and conditions of the order, as amended, and as hereby amended, as follows:

The provisions of the proposed marketing agreement and order amending the order contained in the recommended decision issued by the Associate Administrator, on June 13, 1975, and published in the FEDERAL REGISTER on June 18, 1975 (40 FR 25680) shall be and are the terms and provisions of this order, amending the order, and are set forth in full herein.

1. In § 1099.13, paragraph (c) (4) is revised as follows:

**§ 1099.13 Producer milk.**

* * * * * * *

(c) * * *

(4) Such milk shall be accounted for as received by the diverting handler at the location of the nonpool plant to which diverted.

**§ 1099.52 [Amended]**

2. In § 1099.52, amend paragraph (a) by deleting the word "pool".

3. In § 1099.75, paragraph (a) is revised as follows:

**§ 1099.75 Plant location adjustments for producers and on nonpool milk.**

(a) The uniform price for producer milk shall be reduced according to the location of the plant at which the milk was physically received, at the rate set forth in § 1099.52; and

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

### [ 21 CFR Part 310 ]

[Docket No. 75N–0062]

### ORAL HYPOGLYCEMIC DRUGS

### Public Hearing

The Commissioner of Food and Drugs is confirming the previously announced oral hearing on proposed labeling for oral hypoglycemic drugs scheduled for August 20, 1975, and extending the time for filing a written notice of appearance.

In the FEDERAL REGISTER of July 7, 1975 (40 FR 28587), the Commissioner issued proposed labeling for oral hypoglycemic drugs. In the same proposal, the Commissioner announced that there would be an oral hearing on the proposed labeling before the Director of the Bureau of Drugs on August 20, 1975, at which any interested persons could appear and orally present data, information, and views. The notice stated that the hearing was to be conducted in accordance with Subpart E of the regulations governing the administrative practices and procedures of the Food and Drug Administration published in the FEDERAL REGISTER of May 27, 1975 (40 FR 22950).

On July 31, 1975, issuance of these procedural regulations without prior publication of a notice of proposed rule making and opportunity for comment was permanently enjoined by the Hon. John H. Pratt, United States District Judge for the District of Columbia. *American College of Neuropsychopharmacology* v. *Weinberger*, Civil Action No. 75–1187. The Commissioner issued a notice of the Court's Order and a stay of the regulations in the FEDERAL REGISTER of August 4, 1975 (40 FR 32750). Since he has determined not to appeal that decision, the regulations will be republished as proposed rules in a future issue of the FEDERAL REGISTER. Subpart E of the regulations thus will not be in effect on August 20, 1975—the date scheduled for the hearing on oral hypoglycemic drug labeling.

The Commissioner has nonetheless concluded that the hearing before the Director of the Bureau of Drugs should take place as scheduled. Existing Food and Drug Administration procedures governing informal rule making do not specifically provide for, but neither do they preclude, such a hearing. Furthermore, the Administrative Procedure Act (5 U.S.C. 553(c)) specifically authorizes the use of such a procedure in informal rule making. The holding of the hearing will not prejudice the rights of any person and will afford interested persons an additional opportunity to make known to the Food and Drug Administration their views on the proposed labeling for oral hypoglycemic drugs. The hearing may also provide a more complete record on which to base final labeling for these products.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (secs. 502, 505, 701(a), 52 Stat. 1050–1053 as amended, 1055 (21 U.S.C. 352, 355, 371(a)) and under authority delegated to the Commissioner (21 CFR 2.120), notice is given that the oral hearing before the Director of the Bureau of Drugs on proposed labeling for oral hypoglycemic drugs will occur as scheduled, commencing at 9:30 a.m., on August 20, 1975. Interested persons who wish to make an oral presentation at the hearing but have not yet filed a written notice of appearance with the Hearing Clerk may do so through the close of business August 12, 1975.

Dated: August 6, 1975.

WILLIAM F. RANDOLPH,
*Acting Associate Commissioner for Compliance.*

[FR Doc.75–20963 Filed 8–7–75;9:22 am]

### St. Elizabeths Hospital

### [ 42 CFR Part 306 ]

### CONDUCT AND TRAFFIC REGULATIONS

Pursuant to the authority delegated by the Administrator, General Services Administration, to the Secretary of Health, Education, and Welfare (39 FR 20650) and redelegated to the Assistant Secretary of Health to the Administrator, ADAMHA and further delegated to the Director/Superintendent, Deputy Director/Assistant Superintendent, Executive Officer, Assistant Executive Officer, and the Director of Security (ADAMHA Management Manual, Part I, General Management Instructions) notice is hereby given that the Superintendent of Saint Elizabeths Hospital proposes to amend Chapter III of Title 42 of the Code of Federal Regulations by adding a new Part 306 prescribing regulations for the protection of the facilities and grounds of Saint Elizabeths Hospital over which the Federal Government has acquired exclusive or concurrent jurisdiction under 24 U.S.C. 161. The proposed regulations set forth rules pertaining to parking and operation of motor vehicles and other conduct of employees and members of the public.

The proposed regulations relate solely to conduct on public property and are therefore exempt from the requirements of the Administrative Procedure Act (5 U.S.C. 553) pertaining to public participation in rule making. However, since such regulations will be applicable to members of the public, as well as Federal employees, public participation in the formulation of such regulations is deemed appropriate.

Accordingly, inquiries may be addressed and data, views and arguments relating to the proposed regulations may be presented in writing to the Director of Security, Administration Building, Saint Elizabeths Hospital, Washington, D.C. 20032. All relevant material received not later than September 8, 1975.

Notice is also given that it is proposed to make any regulations that are adopted effective 30 days after publication in the FEDERAL REGISTER.

It is therefore proposed to amend Chapter III of Title 42 of the Code of Federal Regulations by adding the following new Part 306:

**PART 306—CONDUCT AND TRAFFIC REGULATIONS FOR THE SAINT ELIZABETHS HOSPITAL RESERVATION, WASHINGTON, D.C.**

Subpart A—General

Sec.
306.1 Definitions.
306.2 Applicability.
306.3 Compliance with directions.
306.4 Making or giving of false reports.

Subpart B—Traffic and Vehicular Regulations

306.20 Laws of District of Columbia applicable.
306.21 Inspection of license and registration.
306.22 Speed limit.
306.23 Emergency vehicles.
306.24 Signs.
306.25 Pedestrian traffic.
306.26 Parking.
306.27 Parking permits.
306.28 Prohibited servicing of vehicles.
306.29 Unattended vehicles.

Subpart C—Buildings and Grounds

306.40 Closing reservation.
306.41 Preservation of property.
306.42 Removal of property.
306.43 Conformity with posted signs.
306.44 Nuisances.
306.45 Gambling.
306.46 Intoxicating beverages and narcotics.
306.47 Weapons and explosives.
306.48 Nondiscrimination.
306.49 Pets and other animals.
306.50 Sports and hobbies.
306.51 Photography.

Subpart D—Penalties

306.60 Penalties—other laws.

Subpart A—General

**§ 306.1 Definitions.**

As used in this part:

(a) The Saint Elizabeths Hospital reservation, Washington, D.C., hereinafter referred to as "the reservation" means those facilities and ground of Saint Elizabeths Hospital, Department of Health, Education, and Welfare located in Washington, D.C. as established by statute (24 USC 161) as a Federal reservation.

(b) "Security Force Officer" means a U.S. Special Policeman appointed pursuant to the provision of the Act of June 1, 1948, as amended (62 Stat. 281, 40 USC 318 et seq.)

(c) "Department" means the Department of Health, Education, and Welfare.

**§ 306.2 Applicability.**

The regulations in this part establish rules with respect to the parking and operation of vehicles and other activities and conduct on or within the reservation except that with respect to areas on

the reservation used as living quarters, §§ 306.27, 306.28, 306.46, 306.49, and 306.50 shall not be applicable. These regulations are intended to supplement the rules and regulations regarding conduct on Federal Property adopted by the Department and set forth in the Department Facilities Engineering and Construction Manual as Exhibit X-3-335-1.

**§ 306.3 Compliance with directions.**

No person shall fail or refuse to comply with any order or direction of a Security Force Officer in connection with the direction, control or regulation of traffic and parking, or pursuant to any of the requirements of these regulations.

**§ 306.4 Making or giving of false reports.**

No person shall knowingly give any false or fictitious report or information to any authorized person investigating an accident or violation of law or these regulations.

### Subpart B—Traffic and Vehicular Regulations

**§ 306.20 Laws of District of Columbia applicable.**

Unless otherwise specifically provided herein, the laws of the District of Columbia governing the use and operation of motor vehicles shall be applicable to the reservation.

**§ 306.21 Inspection of license and regulation.**

No person operating a motor vehicle on the reservation shall refuse to exhibit for inspection, upon request of a Security Force Officer, his operator's license or proof of ownership or registration.

**§ 306.22 Speed limit.**

No person shall drive any motor vehicle in excess of 15 mph on the reservation.

**§ 306.23 Emergency vehicles.**

No person shall fail or refuse to yield the right-of-way to an emergency vehicle when such emergency vehicle is operating with flashing lights or audible signal.

**§ 306.24 Signs.**

Every driver shall comply with all posted traffic and parking signs.

**§ 306.25 Pedestrian traffic.**

No person shall fail or refuse to yield the right-of-way to a pedestrian crossing the streets of the reservation.

**§ 306.26 Parking.**

(a) No person, unless otherwise authorized by a posted traffic sign, shall stand or park a vehicle—

(1) On any of the streets of the reservation;

(2) On a sidewalk;

(3) Within an intersection or within a crosswalk;

(4) Within 15 feet of a fire hydrant, five feet of a driveway or 30 feet of a stop sign, yield sign, or traffic control device;

(5) At any place which would result in the vehicle being double parked;

(6) In a direction facing on-coming traffic;

(7) In or on any lawn area; or

(8) In a manner which would obstruct loading platforms, delivery areas, dumpsters or traffic.

(b) No person shall park a motor vehicle—

(1) Except within the lane painted or marked for such purpose or within the area designated and authorized for such purpose.

(2) In excess of 48 consecutive hours, unless permission has been granted by the Security Force.

**§ 306.27 Parking permits.**

No person, except visitors parking in areas identified by posted signs as reserved for visitors, shall park a motor vehicle on the reservation without having currently valid parking permit decals displayed on such motor vehicle in compliance with instructions of the issuing authority. Such parking decals may be revoked by the issuing authority for violation of any of the provisions of these regulations.

**§ 306.28 Prohibited servicing of vehicles.**

No person shall wash, polish, or make nonemergency repairs on privately-owned vehicles on the reservation without specific authority from the Superintendent, Saint Elizabeths Hospital.

**§ 306.29 Unattended vehicles.**

No person shall leave a motor vehicle unattended on the reservation with the engine running, the ignition unlocked, the key in the vehicle, or the brake ineffectively set.

### Subpart C—Buildings and Grounds

**§ 306.40 Closing the reservation.**

As determined by the Superintendent, Saint Elizabeth's Hospital, the reservation may be closed to the public in emergency situations and at such other times as may be necessary for the orderly conduct of the Government's business. Admission to the reservation during periods when the reservation is closed to the public is limited to authorized individuals who may be required to sign a register and display identification when requested by a Security Force Officer or other authorized individual.

**§ 306.41 Preservation of property.**

No person shall, without authorization, willfully destroy or damage Federal property located on the reservation.

**§ 306.42 Removal of property.**

(a) No person shall remove Government property from the reservation, except under the policies and procedures of the Superintendent, Saint Elizabeths Hospital.

(b) No person shall remove from the reservation or any building thereon, privately-owned property, other than property ordinarily carried on the person, except upon establishing proper identification to a Security Force Officer or by following the procedures set forth in (a) above.

**§ 306.43 Conformity with posted signs.**

No person shall fail or refuse to comply with officially posted signs of prohibitory or directory nature, and, during emergencies, with the direction of any authorized individual.

**§ 306.44 Nuisances.**

No person shall willfully disrupt the Conduct of official business on the reservation, or engage in disorderly conduct; nor shall any person litter or dispose of rubbish in an unauthorized manner, throw articles of any kind from a building or climb upon any part of a building for other than authorized purposes.

**§ 306.45 Gambling.**

No person shall participate in games for money or other property, or in the operation of gambling devices, the conduct of lotteries or pools, or in the selling or purchasing of numbers tickets, or the taking or placing of bets.

**§ 306.46 Intoxicating beverages and narcotics.**

The consumption or use of intoxicating beverages, or narcotic drugs, except in connection with legal work assignments or in the course of professional treatment, or as otherwise authorized by the Superintendent, Saint Elizabeths Hospital, is prohibited.

**§ 306.47 Weapons and explosives.**

No person other than Federal, District of Columbia, State, or local law enforcement personnel so authorized, shall carry, transport, or otherwise possess on the reservation, firearms, other dangerous or deadly weapons or materials, or explosives, either openly or concealed.

**§ 306.48 Nondiscrimination.**

No person shall discriminate by segregation or otherwise against any other person(s) because of race, creed, color, sex, or national origin, in furnishing, or by refusing to furnish to such person(s) the use of any facility of a public nature, including all services, privileges, accommodations, and activities provided thereby on the reservation.

**§ 306.49 Pets and other animals.**

No person shall bring upon the reservation any cats, dogs, or other animals except as authorized by the Superintendent, Saint Elizabeths Hospital, provided however, that blind persons may have the use of seeing eye dogs.

**§ 306.50 Sports and hobbies.**

No person shall participate in any sport or hobby on the reservation unless authorized or except in designated areas.

**§ 306.51 Cameras and photography.**

Cameras are not permitted upon the reservation except as specifically authorized by the Superintendent, Saint Elizabeths Hospital. Photography for advertising and commercial purposes may be conducted only with the written permission of the Superintendent, Saint Elizabeths Hospital.

### Subpart D—Penalties

**§ 306.60 Penalties—other laws.**

Whoever shall be found guilty of violating these regulations is subject to a fine of not more than $50 or imprisonment of not more than 30 days, or both (40 USC 318c). Except as expressly provided in this part, nothing contained in these regulations shall be construed to abrogate any other Federal laws or regulations, or any District of Columbia law or regulation applicable to the area in which the reservation is situated.

Dated: July 24, 1975.

ROGER PEELE, M.D.,
*Acting Superintendent,*
*St. Elizabeths Hospital.*

## Social and Rehabilitation Service

## [ 45 CFR Part 233 ]

## FINANCIAL ASSISTANCE PROGRAMS; COVERAGE AND CONDITIONS OF ELIGIBILITY

### Definition of Unemployed Fathers

Notice is hereby given that the regulation set forth in tentative form below is proposed by the Acting Administrator of the Social and Rehabilitation Service with the approval of the Secretary of Health, Education, and Welfare. The purpose of the proposed regulation is to amend 45 CFR § 233.100(a)(1) in two respects. First, the amended regulation withdraws from the States the option of excluding fathers who are unemployed because of conduct or circumstances which result or would result in disqualification for unemployment compensation. Such fathers must now be included. Second, the amended regulation requires that the State plan definition of "unemployed father" exclude those fathers whose unemployment results from participation in a labor dispute of such a nature that the father is not eligible for unemployment compensation under the State's unemployment compensation law.

The proposed regulation furnishes the States with a Federal standard for determining whether to include or exclude from AFDC–UF fathers who are unemployed as a result of participation in a labor dispute. The basis of this regulation is the statutory language of Section 407 of the Social Security Act, 42 U.S.C. 607, and the opinion of the United States District Court in the case of Francis v. Davidson, 379 F. Supp. 78 (D. Md., 1974), which is now on appeal to the United States Court of Appeals for the Fourth Circuit. The District Court held that under Section 407 of the Social Security Act, 42 U.S.C. 607, the Department had the option of requiring States to include or exclude those out of work because of involvement in labor disputes, or to leave that decision to each State in accordance with appropriate standards established by the Secretary. The Court also held that those who had been discharged for cause were nevertheless unemployed and could not, under the statutory requirements, be considered otherwise. The court decision indicates that the Department should change the existing regulation and, by tying the eligibility for AFDC–UF of a father not working as the result of participation in a labor dispute to that father's eligibility for State unemployment compensation benefits, we will define the standards which the district court stated were required by statute. The Department intends to make the regulation effective on the date of its publication in final form.

Prior to the adoption of the proposed amended regulation, consideration will be given to any comments, suggestions, or objections thereto which are received in writing by the Acting Administrator, Social and Rehabilitation Service, Department of Health, Education, and Welfare, P.O. Box 2372, Washington, D.C. 20013 on or before September 8, 1975. Comments will be available for public inspection in room 5225 of the Department's offices at 330 C Street SW., Washington, D.C. beginning approximately two weeks after date of publication, on Monday thru Friday of each week from 8:30 a.m. to 5 p.m. (area code 202/245/0950).

(Section 1102, 49 Stat. 647 (42 U.S.C. Section 1302))

(Catalog of Federal Domestic Assistance Program 13/761. Public Assistance—Maintenance Assistance (State Aid))

Dated: July 25, 1975.

(It is hereby certified that the economic and inflationary impacts of this regulation have been carefully evaluated in accordance with OMB Circular A–107.)

JOHN A. SVAHN,
*Acting Administrator, Social*
*and Rehabilitation Service.*

Approved: August 4, 1975.

CASPAR W. WEINBERGER,
*Secretary.*

Section 233.100 of 45 CFR Part 233 is amended by revising paragraph (a)(1) to read as follows:

**§ 233.100 Dependent children of unemployed fathers.**

(a) *Requirements for state plans.* If a State wishes to provide AFDC for children of unemployed fathers, the State plan under Title IV—Part A of the Social Security Act must, except as specified in paragraph (b) of this section:

(1) Include a definition of an unemployed father which shall apply only to families determined to be needy in accordance with the provisions in § 233.20 of this chapter. Such definition must include any father who:

(i) Is employed less than 100 hours a month; or

(ii) Exceeds that standard for a particular month, if his work is intermittent and the excess is of a temporary nature as evidenced by the fact that he was under the 100-hour standard for the prior 2 months and is expected to be under the standard during the next month;

except that such definition shall not include a father whose unemployment results from involvement in a labor dispute when the nature of that involvement is such that such father would, if otherwise eligible, be disqualified for unemployment compensation under the State's unemployment compensation law.

## DEPARTMENT OF TRANSPORTATION

### Federal Aviation Administration

## [ 14 CFR Part 71 ]

[Airspace Docket No. 75-WE-13]

## ALTERATION OF TRANSITION AREA

### Proposed Rule Making

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Monterey, California Transition Area.

A partial instrument landing system (localizer only) will be installed in the near future at the Watsonville Municipal Airport, Watsonville, California. A new instrument approach procedure is being developed for this airport. The additional 700 foot transition area would provide airspace for this new approach procedure and for radar vector routes to the approach fixes. The transition area is designed to protect aircraft utilizing these procedures while operating down to 1000 feet above the terrain.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261. All communications received on or before September 8, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 15000 Aviation Boulevard, Lawndale, California 90261.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (40 FR 441) the description of the Monterey, California 700 foot transition area is amended to read as follows:

Delete all before "• • •; that airspace extending upward from 1,200 feet • • •" and substitute therefor "That airspace extending upward from 700 feet above the surface within a 13-mile radius of Fritzsche AAF, Fort Ord, California (latitude 36°40'55" N., longitude 121° 45'40" W.), excluding the portion S of latitude 36°32'00" N.; within a 3-mile radius of Watsonville Municipal Airport (latitude 36°56'15" N., longitude 121° 47'15" W.); within 3 miles each side of the Salinas VORTAC 330° radial, extending from the 3-mile radius area to the 13-mile radius of Fritzsche AAF and within 3 miles each side of the Watsonville localizer course extending from the 3-mile radius to 5 miles south of Runway 1 threshold of the Watsonville Airport; . . ."[1]

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958, as amended (49 U.S.C. 1348(a)), and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, California, on July 21, 1975.

ROBERT H. STANTON,
*Director, Western Region.*

[FR Doc.75-20523 Filed 8-7-75;8:45 am]

---

[ 14 CFR Part 71 ]

[Airspace Docket No. 75-SW-52]

## DESIGNATION OF TRANSITION AREA

### Proposed Rule Making

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations to designate a 700-foot point-in-space transition area at latitude 29°15'53.2" N., longitude 94°08'46.9" W.

Interested persons may submit such written data, views or arguments as they may desire. Communications should be submitted in triplicate to Chief, Airspace and Procedures Branch, Air Traffic Divison, Southwest Region, Federal Aviation Administration, P.O. Box 1689, Fort Worth, Texas 76101. All communications received on or before September 8, 1975, will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Chief, Airspace and Procedures Branch. Any data, views or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested persons at the Office of the Regional Counsel, Southwest Region, Federal Aviation Administration, Forth Worth, Texas. An informal docket will also be available for examination at the Office of the Chief, Airspace and Procedures Branch, Air Traffic Division.

It is proposed to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth.

In § 71.181 (40 FR 441), the following transition area is added:

SABINE PASS, TEX. (OFFSHORE)

That airspace extending upward from 700 feet above the surface within a 5-mile radius of coordinates latitude 29°15'53.2" N., longitude 94°08'46.9" W.

The proposed transition area will provide controlled airspace for helicopters executing the proposed Copter VORTAC 186 instrument approach procedure.[1]

This amendment is proposed under the authority of Sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348) and of Sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Fort Worth, Texas, on July 30, 1975.

ALBERT H. THURBURN,
*Acting Director, Southwest Region.*

[FR Doc.75-20524 Filed 8-7-75;8:45 am]

---

[ 14 CFR Part 71 ]

## TRANSITION AREA

### Proposed Designation

*Correction*

In FR Doc. 75-18556, appearing at page 30127 of the issue for Thursday, July 17, 1975, in the third column, transition area for Galveston, Texas and corrected at page 31806 in the issue for Tuesday, July 29, 1975, the coordinates for longitude should read "longitude 94°43'00" W."

## National Highway Traffic Safety Administration

[ 49 CFR Part 572 ]

[Docket No. 73-8; Notice 3]

## ANTHROPOMORPHIC TEST DUMMY

This notice proposes an amendment of Part 572, Anthropomorphic test dummy, 49 CFR Part 572, that would specify several elements of the dummy calibration test procedures and make minor changes in the dummy design specifications. This proposal responds to comments concerning the objectivity of the dummy as a device to measure performance of occupant protection systems proposed for Standard No. 208, 49 CFR 571.208.

The SAE J963 dummy previously specified for use in Standard No. 208 was invalidated as insufficiently objective by the U.S. Court of Appeals in *Chrysler v. Department of Transportation*, 472 F. 2d 659 (6th Cir. 1972). The NHTSA subsequently established new dummy specifications under Part 572 for the limited purpose of qualifying passive restraint systems which manufacturers choose to offer on an optional basis (30 FR 20449, August 1, 1973). After examining test experience with the Part 572 dummy, the NHTSA specified its use in a proposal to require passive restraint systems beginning September 1, 1976 (39 FR 10271, March 19, 1974).

Comments on the passive restraint proposal raised several questions about the adequacy of the Part 572 dummy. Most of those issues, including the dummy's similarity to humans, its sensitivity to the test environment or type of restraint, and the procedure for positioning it in the vehicle, are more appropriately treated in connection with specific passive rulemaking actions.

This notice addresses only dummy objectivity, the issue on which the *Chrysler* court based its decision. The court noted imprecision in neck flexion criteria, thorax dynamic spring rate, and head construction, of the SAE dummy specified in 1972. The court ordered that "further specifications for test devices be made in objective terms which will assure comparable results among testing agencies . . ." *Chrysler v. DOT*, 472 F. 2d 659, at 681.

Objectivity in a measuring instrument means that its measurements vary significantly only because of significant variation in the tested phenomenon. It is clear that no measuring instrument can be perfect, but to be valid an instrument must be sufficiently precise and sensitive to register whatever is deemed significant. An additional criterion for a measuring instrument used to evaluate legally-mandated performance levels is that its objectivity must be demonstrable.

The NHTSA and the industry have expended a great amount of effort and expense in development of the Part 572 dummy. Thirteen major contracts and other agreements were issued to establish the Part 572 dummy specifications, and numerous studies have been made of the dummy as issued. Approximately 250 specification sheets outline each detail of the dummy design. Letters have been sent to some manufacturers and users of the dummy, soliciting their views on the adequacy of the dummy for testing passive restraint systems. Three domestic commercial sources for the Part 572 dummy presently exist.

Five component calibration tests have been developed that establish a uniform calibration procedure for all users prior to use of the dummy in dynamic testing, and a means of checking calibration of the dummy for purposes of compliance following testing. These calibration test procedures are discussed in detail in the following paragraphs.

### HEAD

Dummy manufacturers and vehicle manufacturers have indicated some difficulty in establishing repeatability of heads subjected to the head calibration test. The head is dropped 10 inches so that its forehead strikes a rigid surface and registers acceleration levels which must fall within a certain range. General Motors, Sierra Engineering (Sierra), and Chrysler Corporation have noted an inconsistency in the center of gravity

[1] Map filed with original document.

[1] Aeronautical chart filed as part of original document.

location between drawings 292-1610 and 73051-3. General Motors recommended withdrawal of its drawing (73051-3), which is proposed in this notice. In response to a Chrysler request for clarification, the short portion of the neck is not attached to the head for purposes of calibration. This misunderstanding apparently arises out of a former General Motors procedure which used the short neck in head calibration.

The head drop procedure is modified to measure acceleration at the location of the accelerometer sensors, instead of the head form center of gravity. This change is necessary because the sensors are located a small distance from the head center of gravity.

The NHTSA has determined that the variability in head acceleration reported by some manufacturers and users can be traced primarily to the finish of the steel plate on which the head is dropped. Extensive testing undertaken by the NHTSA Safety Research Laboratory (Docket 73-8; General Reference No. D-19) demonstrated that skin-to-skull friction and forehead skin thickness can be controlled to eliminate significant variability in the range of dummy head construction available commercially. Some manufacturers treat this interface to lower friction for greater consistency of readings. This treatment is considered permissible for purposes of the Part 572 specification, because it has been determined at the Safety Research Laboratory that the treatment can be reproduced and maintained by the user.

Some persons have expressed the view that treatment of a head form prior to its calibration check procedure would invalidate the objectivity of results of any vehicle test which employed such a dummy head. It is important to distinguish the Part 572 procedures for checking calibration of the dummy components from the procedures utilized in a test of the crash characteristics of a passenger car. In the latter case, good test practices require that measuring instruments be calibrated, used, and then checked for calibration without adjustment, to support the conclusion that the instrument remained in calibration throughout the test. The fact that a test instrument is brought into calibration by adjustment of limb tension or treatment of the skull-headskin interface does not modify the requirement of good test practice that it be capable of use in testing and remain in calibration without adjustment in tests where calibration is critical. To make this requirement explicit, the NHTSA will include this practice as a test condition in § 8.1.8 of Standard No. 208.

Confirmation of the repeatability and reproducibility of head drops onto a milled surface was demonstrated in tests undertaken at the Civil Aeromedical Institute (Docket 73-8; General Reference No. D-17). Based on these tests, a clear, dry microfinish of 250 microinches (rms) is proposed for the surface of the steel plate. In response to a Sierra request, further specification of the release method is proposed to ensure that the head is released instantly and by a means that does not introduce significant lateral acceleration of the head. The requirement would be modified to limit lateral acceleration during the head drop.

Several vehicle manufacturers questioned the adequacy of the head to measure lateral impact forces. The specifications provide a triaxial accelerometer so that the lateral vector is registered in the same way as fore-and-aft forces. Further, NHTSA contract experience with dummies installed at front and rear seating positions of vehicles undergoing side impact by other vehicles demonstrates no artificially-high readings (Contract DOT-HS-4-00922, 5th & 6th progress reports). In view of the head drop experience in the midsagittal plane, and since the head design is specified in detail, the NHTSA does not agree that a separate calibration test of lateral head response is necessary.

Humanoid Systems (Humanoid) raised the question of aging of the head in repeated use over a significant period of time. With regard to aging in general, the NHTSA does not believe a test device can be designed that is immune to aging and repeated impact. It is important that the similarity to human biomechanic response, with its consequent complexity, be balanced against the need for simplicity and strength to assure practical calibration, reasonable cost, and useful life. Confidence in the repeatability of any component is also increased if it performs repeatably in continued usage. The NHTSA experience with Part 572 dummies and earlier dummies indicates that dummies produced under Part 572 specifications can be expected to retain measurement stability for a reasonable period.

Alderson Research Laboratories (ARL) recently requested that one-piece skull and neck bracket castings be made available as a production option to the manufacturer of a Part 572 dummy. Although the evidence submitted suggests some potential advantages in this production technique, the NHTSA does not have experience with the structural strength or vibration response of these components, particularly in regard to hard impact with the equivalent of glazing and header surfaces. The NHTSA has concluded that the information submitted to date does not demonstrate advantages in the one-piece casting which justify the expense of establishing that the one-piece component is the equivalent of weldments for compliance purposes. Accordingly, ARL's request is denied.

### NECK

The neck calibration procedure involves attachment of the head form to the neck, and attachment of the neck to the end of a pendulum which impacts an energy absorbing element, inducing head rotation which must fall within specified limits. Manufacturers did not criticize the objectivity of the neck as a dummy component, but rather requested that some ambiguities and possible contradictions in the test conditions and procedures be resolved.

The neck is specified in its material composition, its dynamic response, and its performance in the pendulum test. Several manufacturers objected that measurement of dynamic properties of resilient materials are not sufficiently standardized nationally at this time to permit objective evaluation of the dynamic spring rate and damping characteristics of the neck material. The NHTSA agrees that neck flexibility can be adequately controlled by the material specifications and the performance test of the neck assembly alone. Accordingly, it is proposed in this notice to reference the dynamic performance characteristics of the resilient material included in the neck drawings.

The NHTSA cannot agree with American Motors Corporation (AMC) that an articulating neck design has been designed which is superior to the present one-piece design. General Motors engineers, for example, recommend that the articulated dummy neck not be substituted for the present Part 572 dummy neck because the articulating neck is less repeatable (Contract DOT-HS-299-3-569, Vol. II, p. 3-1). Such necks were used in dummy applications prior to the issuance of Part 572 regulation and their lack of repeatability has been demonstrated in numerous technical reports and was the basis for the introduction of the present rubber base neck.

The NHTSA also cannot agree with AMC that the calibration values for testing components such as the neck should be at the same level as that experienced in a 30 mph crash. In such a crash, chin-to-thorax contact would mask the performance of the neck near the end of the flexure range. The calibration test is designed to verify the neck's performance capability and uniformity of response as an isolated component within the head-neck complex.

In response to a Humanoid recommendation for additional specifications, the NHTSA concludes it is not necessary to further specify composition and processing of the rubber neck material. The NHTSA has specified a performance calibration test, which gives manufacturers latitude in their production methods. It is particularly important in the area of plastic and rubber composition to leave room for improvement of material processing and handling techniques, while maintaining objective criteria for neck performance. Humanoid's request is denied for these reasons.

Calibration of the neck is measured by head acceleration and rotation when the pendulum on which the head and neck are mounted impacts a Hexcel block. Several manufacturers requested that the Hexcel block which is impacted by the pendulum be made optional. The Hexcel block is referenced in Figure No. 4, which makes its construction material optional. The NHTSA has indicated to Mercedes-Benz (Docket 73-8; Notice No. 2, comment No. 2) that other materials

and shapes can be used in place of the Hexcel, provided the pulse shape specified in § 572.7(c)(3) is duplicated. As the NHTSA interprets the Vehicle Safety Act, alternative means of certification testing are permitted as long as manufacturers can show in the exercise of due care that the vehicle or item of equipment would conform to the requirements if tested by the NHTSA. Variation of an underlying calibration procedure for a test instrument such as the dummy falls within this latitude. The same rule applies to Sierra's request for further specification of the pendulum.

The pendulum's speed at the time of impact with the fixed object is specified at 23.5±2.0 fps. Sierra recommended a smaller ±0.5 fps tolerance which the NHTSA tentatively agrees may improve control of the acceleration-time (a–t) curve. Until the need for such a change is clearly demonstrated. however, the detailed specifications for the a–t pulse are considered to be adequate to control the input energy at the time of contact, and Sierra's suggestion is not granted at this time.

Instrumentation of the a–t curve measurement is specified in § 572.7(c)(5) as well as in § 572.11(e). To eliminate this redundancy, it is proposed that the reference in § 572.7(c)(5) be eliminated. Sierra suggested a narrower attenuation range than that specified by the SAE J–211a Recommended Practice for instrumentation response. The NHTSA experience with the present range has been satisfactory and the agency concludes that a change is unnecessary.

General Motors pointed out that the a–t curve for pendulum deceleration should have point "$t_r$" located at the point where the decaying a–t curve first crosses the $5_r$ level to omit small random undulations from the calculations. This change is proposed in this notice.

Two dummy manufacturers recommended further limitation of the "average" decleration between points $t_r$ and $t_s$ to limit the maximum and minimum values registered. The NHTSA will take this proposal under consideration but cannot include such a change until it has had the opportunity to conduct further study. Experience to date indicates that the present description adequately controls variations which would significantly affect the repeatability of overall dummy neck response.

Toyota asked for a clarification of the "zero level" of acceleration from which the resultant 26g of acceleration is measured as required in § 572.7(b). The wording of the last sentence in 7(b) creates some ambiguity and a simple statement that the 26g level can not be exceeded would more clearly state the requirements. The sentence would be amended accordingly.

### Thorax

The thorax impact calibration involves striking the torso of the seated dummy at two speeds with a specified striker to measure thorax resistance, deflection, and hysteresis characteristics.

Manufacturers were concerned with some elements of the pre-impact dummy set-up. Several of them suggested that seat friction might critically affect the dummy thorax behavior. The NHTSA awarded a contract to the Calspan Corporation to test different seating surfaces (Docket 73–8; General Reference No. D–18). The results indicate that seating surface material properties have no significant effect on calibration as long as the seat is smooth, flat, rigid, clean, and dry. These specifications are therefore proposed in this notice to supplement the present requirements. The specifications would be placed in § 572.11(i) because this general positioning procedure precedes the specific positioning procedures of §§ 572.8, 572.9, and 572.10.

Several comments requested clarification of the dummy positioning procedure. The thorax calibration procedure calls for seating the dummy in the upright position on a horizontal surface without back support and extending the arms and legs forward horizontally. "Upright position" is defined as positioning in accordance with § 572.11(i), which refers to Figure 11 and sets out five dummy segment adjustments. For clarity, § 572.8(d)(1) would be revised to specify that limb adjustment follows torso placement. This would permit opening of the chest flesh to check the attitude of the lumbar pelvic adaptor and then closure for subsequent limb placement. Additionally a means would be specified to support limbs in the horizontal forward position.

Manufacturers also recommended tolerances for the speed and orientation of the test probe. As for speed, it would be appropriate for the manufacturer to use a speed slightly in excess of that required to demonstrate that the impact values would not be exceeded if the test probe speed were exactly 14 or 22 fps. With regard to test probe orientation, a 2-degree tolerance is proposed for this impact, which is the same as is found in the limb impact procedures. In answer to Ford, "significant movement" of the test probe in its travel would be movement which affects the results of the impact.

Ford noted Dynamic Science's report of difficulty in measuring chest force. Since that time Dynamic Science has conducted numerous calibrations for NHTSA of seven test dummies. The reported initial difficulties have been resolved as the test agency gained experience in using the test equipment and as marginal or deficiently manufactured components were brought up to drawing specifications. There appears to be no necessity of further revision either to the design or to the test procedure.

ARL requested that the thorax ballast plate mounting screw (item C/13) be lengthened to one and one-quarter inches to permit some latitude in the configuration of ballast. This minor change is proposed for Drawing No. SA150 M030, sheet 7. Humanoid requested a thicker clavicle cross section to prevent breakage. NHTSA study of the problem indicates that the weakness does not occur in every manufacturer's production and that a change is not required in light of this experience.

With regard to the torso's chest flesh, Humanoid also questioned the adequacy of the Part 572 specification for the neck opening in the chest flesh and the zipper attachment. Although problems associated with these specifications do not appear to affect dummy performance, the NHTSA agrees that further specification can eliminate the need for interpretations by manufacturers. Appropriate specification would be added to reflect further definition of subject areas.

Use of the dummy has also pointed out that the length of the clavicle's shoulder screw may be insufficient to permit preload of the pivot shaft when some tolerances occur in combination. As a solution it is proposed that the depth of the counterbore in the clavicle clevis be increased by .06 inch.

### Lumbar Spine, Abdomen

Calibration of the lumbar spine consists of a spine flexion from the upright position, followed by release of the force which was required to attain this deflection, and measurement of the return angle. NHTSA experience in calibration of its seven dummies shows good repeatability for the lumbar spine assemblies of two manufacturers.

Some comments did request clarifications of several of the calibration conditions and procedures.

One commenter proposed additional attachment points to secure the assembly to the bedplate. The NHTSA agrees and accordingly proposes a second bolt for the attachment bracket described in Figure 7. Two pins are added to the plate at the bolt holes already provided in Figure 8 to secure the femur link rods for added stability. In response to a question from Sierra, this mounting establishes the height and attitude of the femurs.

The push plate described in Figure 9 would be modified to permit the application of force to the upper spine without opening the chest flesh zipper. This technique will avoid any possible influence on the test results due to variations in the closure methods of the chest flesh during calibration. Drawing ATD 3151–6 would be revised to specify four bolt access points to permit mounting the push plate externally. In response to Toyota, the thorax accelerometer bracket should not be removed for this test.

The positioning of the assembled dummy segments, after the 50-degree pre-calibration flexion and before the measurement of the load deflection characteristics begins, is in accordance with Figure 11. To clarify the requirement of § 579.9(b) and the procedure of § 572.9(c), the position is referred to as the "initial position in accordance with Figure 11." It should be recognized that not all the body segments seen in Figure 11 are involved in this positioning. In addition, to assure pelvic structure stability during the test, the femur friction plunger torque would be increased to 240 inch-pounds.

At present, the requirement to measure the force developed by the lumbar spine is specified at three points during the flexure test. Experience with this practice has shown that the "surface creep" of one component relative to another and the rubber properties of the spine do not permit stabilization of the force in a reasonable time. For these reasons, it is proposed that the application of force be continuous at a rate between 0.5 and 1.5 degrees per second, until 40 degrees of flexion is reached. The specified force levels would be adjusted as appropriate to reflect the higher rate of resistance encountered during continuous flexure of the lumbar spine. The NHTSA has also concluded that the return rate is most consistent if the 40 degrees of flexion is held for 10 seconds, followed by release of all force as rapidly as possible.

The NHTSA has investigated two other areas raised by manufacturers or users as potential sources of variability: slippage of the lumbar cable ball in its socket, and the surface friction between the abdominal insert and its mating surfaces. In tests performed at Dynamic Sciences for the NHTSA, little if any difference in lumbar response was apparent between dummies incorporating the current lumbar cable design and other designs which prevent any slippage of the cable ball. For this reason no change in the current socket configuration is proposed.

As for surface friction, it is proposed that the surfaces of all components be clean, dry, and untreated unless otherwise specified. This combination was also tested at Dynamic Sciences and found to be most consistent in attaining reproducible results. The results of this testing will be placed in the docket as they become available.

The NHTSA acknowledges the ARL comment that the swaging specification for the lumbar cable may not in all cases ensure 100 percent rope strength. In view of lack of standardized specifications for swaging operations it is proposed that the current specification of 100 percent rope strength be modified to conform to the requirements of MIL–C–5688A for Proof Testing and Prestretching of Cable Assemblies, which requires that swaging strength be at least 60 percent of the rope strength.

A technical modification which would be made to drawing SA150 M090 is to provide for optional length of the socket head cap screw (Item J/08) because the length is dependent on the number of shims necessary to meet the dummy seated height requirement.

It is also proposed that the second calibration test of § 572.9 dealing with compression of the abdominal insert be testing will be placed in the docket as tablishment of the force/deflection curve. It was demonstrated in Dynamic Science's testing that a uniform loading rate of 0.25 to 0.35 inches per second is more objective to establish the characteristics of the component. The surfaces of abdominal cavity components would also be specified as clean, dry, and untreated for this test.

Several dummy manufacturers suggested modification of the abdominal insert construction. The insert as indicated by the drawings, is not vented. To assure that the insert closure is air-tight, the NHTSA proposes that the leak test called for in Drawing ATD 3250–2 be specified as submersion in water without visible evidence of air leakage. The drawing would also specify the insert dimension that dictates where the insert is trimmed and sealed following the addition of urethane foam. The insert is shaped to achieve repeatable systems response as has been observed in crash testing conducted for NHTSA with belt systems. For this reason the NHTSA does not agree with Humanoid that the insert should be shaped differently. The NHTSA has experienced repeatable calibration results and test results with the abdominal insert as it is presently specified, and as it is constructed by some dummy manufacturers. For this reason, the NHTSA concludes that the suggested thicker abdominal wall is not necessary for repeatable results. The properties of plastics are such that a manufacturer may have had difficulty in the past in meeting the design specifications for the vinyl material consistently, resulting in some failures to meet the calibration test. It appears, however, that the consistency of composition and the venting problems have been solved by at least one dummy manufacturer and, as demonstrated in Dynamic Sciences testing, another manufacturer's insert can be brought into specification with a simple sealing repair.

An NHTSA compliance contractor recommended that the zero-deflection point in the abdomen calibration be at that point where initial compression of 10 pounds has been applied. The NHTSA agrees that this change will eliminate deflections unrelated to the abdominal insert and will provide a well-defined starting point for measurements. Accordingly this procedure is proposed by this notice and would be reflected in Figure 10.

### Limbs

The legs of the dummy are calibrated by impacting the knees of a seated dummy with a test probe of a specified weight at a specified speed and by measuring the impact force on the dummy femurs. The knee flesh is one area of specification which concerns manufacturers as a possible source of variation. It is recognized that the knee skin thickness has not been specified in the impact area and may affect calibration results in some cases. To avoid this possibility, Drawings No. ATD 3801–1 and ATD 3801–2 would be revised to specify skin thickness of one-quarter of an inch over the knee face.

In response to requests for clarification, the limb joints of the dummy are set at 1g in accordance with § 572.11(g) and a further specification has been added for hip joint adjustment between 1g and 2g. General Motors questioned the dummy adjustment sequence for leg separation. The wording of § 572.10(c)(1) would be modified to make clear that the § 572.11 placement precedes the leg adjustments specified in § 572.10(c)(1).

### General Test Conditions

The general test conditions of § 572.11 that apply to the dummy tests would be modified in minor respects. To remove doubt as to the positioning of the accelerometers under § 572.11 (b) and (c), the NHTSA proposes a modification that specifies the center of the seismic mass at any distance up to 0.3 inches (or 0.2 or 1.3 inches as appropriate) in a single direction from the axial intersection point. To simplify the calibration testing, all clothing requirements would be deleted.

Also, NHTSA experience with painted body segments indicates that peeling and blistering paint can cause variations in coefficient of friction on critical dummy surfaces. Accordingly, the NHTSA proposes that dummy surfaces not be painted unless specified by the regulation. The inadvertent use of "horizontal" in place of "vertical" in § 572.11(i)(4) would be corrected. In the 11(i) positioning, lower leg orientation would be specified as vertical. Additionally, the area of the surface on which the dummy is positioned would be specified to eliminate possible contact of the limbs with the seat surface.

Although temperature and humidity have already been specified, some misinterpretation of ambient condition has occurred. It is proposed that the dummy component undergoing testing be exposed to the required temperature and humidity for a period of 4 hours prior to testing.

A new general requirement requested by several comments would be a 30-minute period between tests of the same component, except for the 2-hour waiting period already found in the head drop test.

Although NHTSA does not have conclusive evidence about beneficial dummy storage conditions prior to testing, some dummy users indicate advantages in dummy storage in the upright position with torso and head supported to prevent bending of the neck and of the lumbar spine during lengthy storage periods. This practice appears to prevent flow and permanent setting of the rubber and plastic components and contributes to improved dummy repeatability.

With regard to the issue of dummy component responsiveness to temperature, time, humidity, etc., it is noted that the material (Nitrosan) presently used in the manufacture of the specified vinyl foam for the dummy flesh may become unavailable. NHTSA would like the the benefit of comments from the manufacturers and users of these dummies on substitute blowing agents suitable for manufacturing of the vinyl foam for the affected dummy segments and in the alternative, substitutes for the vinyl material presently used in dummy flesh.

Two questions were raised concerning the Part 572 dummy as a complete test

instrument. David Ogle Ltd. requested that the Motor Industry Research Association (MIRA) dummy be specified as an alternative test device for use in Standard No. 208. The NHTSA has only limited experience with this dummy and is unable without further study to determine whether this dummy qualifies as an objective measuring tool of occupant restraint system effectiveness required by Standard No. 208. Objectivity is of crucial importance, is indicated by the *Chrysler* court, and until precise comparability of performance of another dummy is established, the NHTSA cannot consider its use as an alternative to the Part 572 dummy.

Several manufacturers questioned the objectivity of the dummy as a whole because Part 572 does not include a "whole systems" calibration of the assembled dummy. The NHTSA has considered the advisability of such a test and has decided against it for several reasons. Foremost is the difficulty of devising a calibration procedure which introduces no significant variability into the test. It is clear that the Standard No. 208 dynamic deceleration of the dummy introduces many complex variables into the test, such as restraint design and vehicle design. In the description of sled testing of the GM50X dummy (ref. Reports: SAE #740590, DOT-HS-299-3-569), General Motors pointed out that their results demonstrate the complexity of the problem.

Another reason for not introducing a "whole systems" calibration is that the experience to date with well-controlled, hard seat sled tests of the dummy show good measurement stability of the dummy as a whole system as long as the dummy meets Part 572 specifications. The most recent presentation of such information apears in an SAE paper by General Motors engineers, comparing an advanced dummy with the Part 572 dummy (Proceedings of Third International Conference on Occupant Protection, pg. 369). Table 10 of that paper shows the coefficient of variation of a Hybird II dummy to be only 4.5 percent in a measure of Head Injury Criteria and 3.3 percent in a measure of Chest Severity Index. Variation of these criteria between dummies is 3.5 percent and 6 percent respectively. Similar conclusions were reached by J. Versace and R. J. Berton of the Ford Motor Company in SAE paper 750395, "Determination of Restraint Effectiveness", pg 5. Based on experience of this nature, and in view of the extensive specification in Part 572, the NHTSA concludes that a "whole systems" calibration is not required to establish the dummy as an objective measuring device.

In summary, the NHTSA would like to emphasize that the drawings which specify the design of the dummy would be modified in only minor respects by this notice. All other changes proposed here are intended to clarify the test conditions and procedures by which the dummy is calibrated and are unrelated to the dummy design.

Two copies of these proposed drawing changes have been filed in the docket section of the NHTSA. Copies of these drawings may be obtained directly from: Keuffel & Esser Company; 1521 North Danville Street; Arlington, Va. 22201 (Tel. 703-524-9000).

In consideration of the foregoing, it is proposed that 49 CFR Part 572, Anthropomorphic test dummy, and the dummy design drawings proposed to be incorporated by reference in Part 572, be amended as follows:

§ 572.4 [Amended]

1. In § 572.4, paragraph (c), describing the term "upright position", would be deleted.

2. Section 572.6 *Head,* would be amended by revising paragraphs (b) and (c)(2) to read:

§ 572.6 Head.

* * * * * * *

(b) When the head is dropped from a height of 10 inches in accordance with paragraph (c) of this section, the peak resultant accelerations at the location of the accelerometers mounted in the head form in accordance with § 572.11(b) shall be not less than 210g, and not more than 260g. The acceleration/time curve for the test shall be unimodal and shall lie at or above the 100g level for an interval not less than 0.9 milliseconds and not more than 1.5 milliseconds. The lateral acceleration vector shall not exceed 10g.

(c) Test procedure: * * *

(2) Drop the head from the specified height by a means that ensures instant release onto a rigidly supported flat horizontal steel plate, 2 inches thick and 2 feet square, which has a clean, dry surface with a microfinish of 250 microinches (rms).

* * * * * * *

3. Section 572.7 *Neck,* would be amended by deleting paragraph (c)(5) and revising paragraph (c)(3)(ii) and the last sentence of paragraph (b) to read as follows:

§ 572.7 Neck.

* * * * * * *

(b) * * * The peak resultant acceleration recorded at the location of the accelerometers mounted in the head form in accordance with § 572.11(b) shall not exceed 26g.

(c) * * *

(3) * * *

(ii) Establish $t_1$ at the point where the rising a-t curve first crosses the 5g level, $t_2$ at the point where the rising a-t curve first crosses the 20g level, $t_3$ at the point where the decaying a-t curve last crosses the 20g level, and $t_4$ at the point where the decaying a-t curve first crosses the 5g level.

* * * * * * *

4. Section 572.8 *Thorax,* would be amended by deleting paragraph (d)(9), adding a new sentence to paragraph (d)(4), and revising paragraphs (d)(1), (d)(3), and (d)(5) to read:

§ 572.8 Thorax.

* * * * * * *

(d) Test procedure:

(1) With the dummy seated without back support on a surface as specified in § 572.11(i) and in the orientation specified in § 572.11(i), adjust the dummy arms and legs until they are extended horizontally forward parallel to the midsagittal plane.

* * * * * * *

(3) Align the test probe specified in § 572.11(a) so that at impact its longitudinal centerline coincides within 2 degrees of a horizontal line in the dummy's midsagittal plane.

(4) * * * Limb support, as needed to achieve and maintain this orientation, may be provided by placement of a steel rod of any diameter not less than one-quarter of an inch and not more than three-eighths of an inch, with hemispherical ends, vertically under the limb at its projected geometric center.

(5) Impact the thorax with the test probe so that its longitudinal centerline remains within 2 degrees of a horizontal line in the dummy's midsagittal plane during contact of the probe with the dummy.

* * * * * * *

5. Section 572.9 *Lumbar spine, abdomen, and pelvis,* would be revised to read:

§ 572.9 Lumbar spine, abdomen, and pelvis.

(a) The lumbar spine, abdomen, and pelvis consist of the assemblies designated as numbers SA 150 M050 and SA 150 M060 in Figure 1 and conform to the drawings subtended by these numbers.

(b) When subjected to continuously applied force in accordance with paragraph (c) of this section, the lumbar spine assembly shall flex by an amount that permits the rigid thoracic spine to rotate from its initial position in accordance with Figure 11 by the number of degrees shown below at each specified force level, and straighten upon removal of the force to within 12 degrees of its initial position in accordance with Figure 11.

| Flexion (degrees) | *Force (±6 pounds)* |
|---|---|
| 0 | 0 |
| 20 | 28 |
| 30 | 40 |
| 40 | 52 |

(c) Test procedure:

(1) Assemble the thorax, lumbar spine, pelvic, and upper leg assemblies (above the femur force transducers), ensuring that all component surfaces are clean, dry, and untreated unless otherwise specified, and attach them to the horizontal fixture shown in Figure 5 at the two link rod pins and with the mounting brackets for the lumbar test fixtures illustrated in Figures 6 to 9.

(2) Attach the rear mounting of the pelvis to the pelvic instrument cavity rear face at the four ¼" cap screw holes and attach the front mounting at the femur axial rotation joint. Tighten the mountings so that the pelvic-lumbar adapter is horizontal and adjust the femur friction plungers at each hip socket joint to 240 inch-pounds torque.

(3) Flex the thorax forward 50° and return it to its initial position in accordance with Figure 11.

(4) Apply a forward force perpendicular to the thorax instrument cavity rear face in the midsagittal plane 15 inches above the top surface of the pelvic-lumbar adapter. Apply the force at any torso deflection rate between .5 and 1.5 degrees per second up to 40° of flexion but no further, continue to apply for 10 seconds that force necessary to maintain 40° of flexion, and record the force with an instrument mounted to the thorax as shown in Figure 5. Release all force as rapidly as possible and measure the return angle after flexing has stopped.

(d) When the abdomen is subjected to continuously applied force in accordance with paragraph (e) of this section, the abdominal force-deflection curve shall be within the two curves plotted in Figure 10.

(e) Test procedure:

(1) Place the assembled thorax, lumbar spine, and pelvic assemblies in a supine position on a flat, rigid, smooth, dry, clean horizontal surface, ensuring that all component surfaces are clean, dry, and untreated unless otherwise specified.

(2) Place a rigid cylinder 6 inches in diameter and 18 inches long transversely across the abdomen, so that the cylinder is symmetrical about the midsagittal plane, with its longitudinal centerline horizontal and perpendicular to the midsagittal plane at a point 9.2 inches above the bottom line of the buttocks, measured with the dummy positioned in accordance with Figure 11.

(3) Establish the zero deflection point as the point at which a force of 10 pounds has been reached.

(4) Apply a vertical downward force through the cylinder at any rate between 0.25 and 0.35 inches per second.

(5) Guide the cylinder so that it moves without significant lateral or rotational movement.

6. Section 572.10 *Limbs,* would be amended by revising paragraphs (c)(1) and (c)(2) to read:

§ 572.10 Limbs.

* * * * * * *

(c) Test procedure:

(1) Seat the dummy without back support on a surface as specified in § 572.11(i) that is 17.3±0.2 inches above a horizontal surface, oriented as specified in § 572.11(i), and with the hip joint adjustment at any setting between 1g and 2g. Place the dummy legs in planes parallel to its midsagittal plane (knee pivot centerline perpendicular to the midsagittal plane) and with the feet flat on the horizontal surface. Adjust the feet and lower legs until the lines between the midpoints of the knee pivots and the ankle pivots are at any angle not less than 2 degrees and not more than 4 degrees rear of the vertical, measured at the centerline of the knee pivots.

(2) Reposition the dummy if necessary so that the rearmost point of the lower legs at the level one inch below the seating surface remains at any distance not less than 5 inches and not more than 6 inches forward of the forward edge of the seat.

* * * * * * *

7. Section 572.11 *Test conditions and instrumentation,* would be amended by adding new paragraphs (i)(6) and (l) and by revising paragraph (b), the last four sentences of paragraph (c), paragraphs (h), (i)(1) and (4), and (k) to read as follows:

§ 572.11 Test conditions and instrumentation.

* * * * * * *

(b) Accelerometers are mounted in the head on the horizontal transverse bulkhead shown in the drawings subreferenced under assembly No. SA 150 M010 in Figure 1, so that their sensitive axes intersect at a point in the midsagittal plane 0.5 inches above the horizontal bulkhead and 1.9 inches ventral of the vertical mating surface of the skull with the skull cover. One accelerometer is aligned with its sensitive axis perpendicular to the horizontal bulkhead in the midsagittal plane and with its seismic mass center at any distance up to 0.3 inches superior to the axial intersection point. Another accelerometer is aligned with its sensitive axis parallel to the horizontal bulkhead and perpendicular to the midsagittal plane, and with its seismic mass center at any distance up to 1.3 inches to the right of the axial intersection point (right side of dummy is the same as that of man). A third accelerometer is aligned with its sensitive axis parallel to the horizontal bulkhead in the midsagittal plane, and with its seismic mass center at any distance up to 1.3 inches ventral to the axial intersection point.

(c) * * * One accelerometer has its sensitive axis oriented parallel to the attachment surface in the midsagittal plane, with its seismic mass center at any distance up to 1.3 inches inferior to the intersection of the sensitive axes specified above. Another accelerometer has its sensitive axis oriented parallel to the attachment surface and perpendicular to the midsagittal plane, with its seismic mass center at any distance up to 0.2 inches to the right of the intersection of the sensitive axes specified above. A third accelerometer has its sensitive axis oriented perpendicular to the attachment surface in the midsagittal plane, with its seismic mass center at any distance up to 1.3 inches dorsal to the intersection of the sensitive axes specified above. Accelerometers are oriented with the dummy in the upright position.

* * * * * * *

(h) Performance tests are conducted at any temperature from 66 °F to 78 °F and at any relative humidity from 30 percent to 70 percent after exposure to these conditions for a period of not less than 4 hours.

(i) For the performance tests specified in §§ 572.8, 572.9, and 572.10, the dummy is positioned in accordance with Figure 11 as follows:

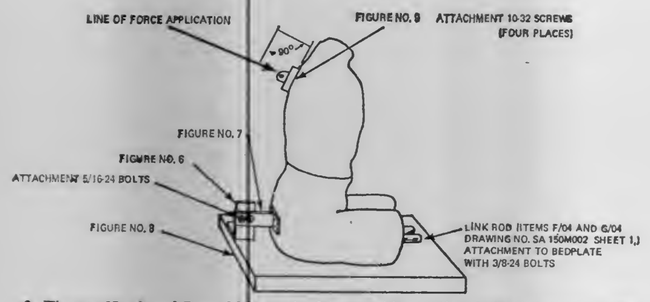
(1) The dummy is placed on a flat, rigid, smooth, clean, dry, horizontal, steel test surface whose length and width dimensions are not less than 16 inches, so that the dummy's midsagittal plane is vertical and centered on the test surface and the rearmost points on its lower legs at the level of the test surface are at any distance not less than 5 inches and not more than 6 inches forward of the forward edge of the test surface.

* * * * * * *

(4) The dummy is adjusted so that the rear surfaces of the shoulders and buttocks are tangent to a transverse vertical plane.

* * * * * * *

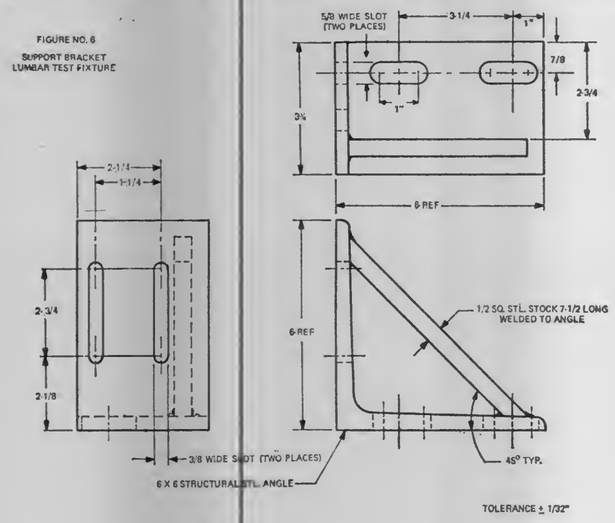
(6) The lower legs are positioned in planes parallel to the midsagittal plane so that the lines between the midpoint of the knee pivots and the ankle pivots are vertical.



* * * * * * *

(k) Performance tests of the same component, segment, assembly, or fully assembled dummy are separated in time by a period of not less than 30 minutes unless otherwise noted.

(l) Surfaces of dummy components are not painted except as specified in this part or in drawings subtended by this part.

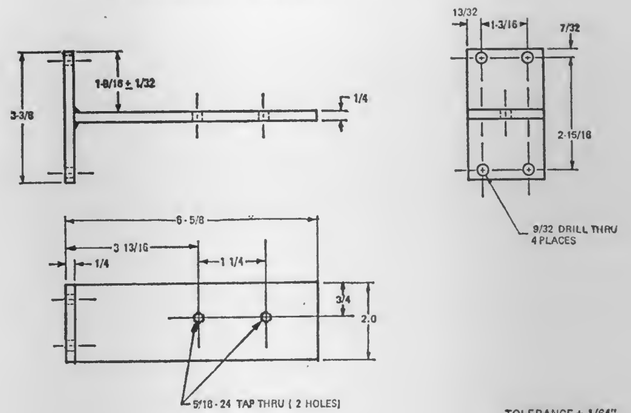


8. Figure No. 5 would be revised by the addition of a second bolt hole to the mounting bracket and two vertical bolts to secure the link rods to the bedplate (at the points already provided in the bedplate Figure No. 8), as pictured below.

FIGURE NO. 5
LUMBAR FLEXION TEST

9. Figures No. 6 and 7 would be revised to provide another bolt attachment point, as pictured below.

FIGURE NO. 6
SUPPORT BRACKET
LUMBAR TEST FIXTURE



TOLERANCE ± 1/32"

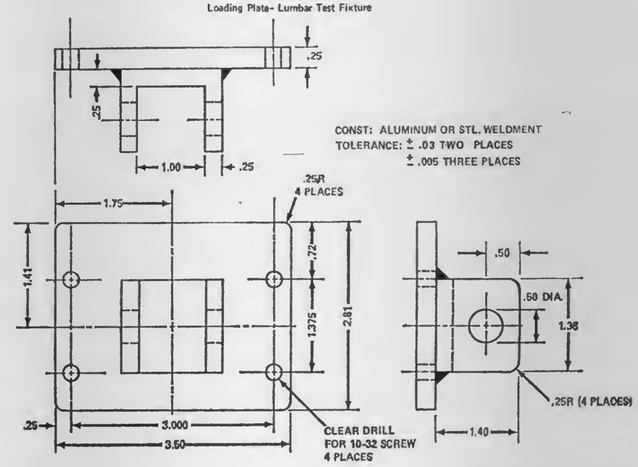


FIGURE NO. 7
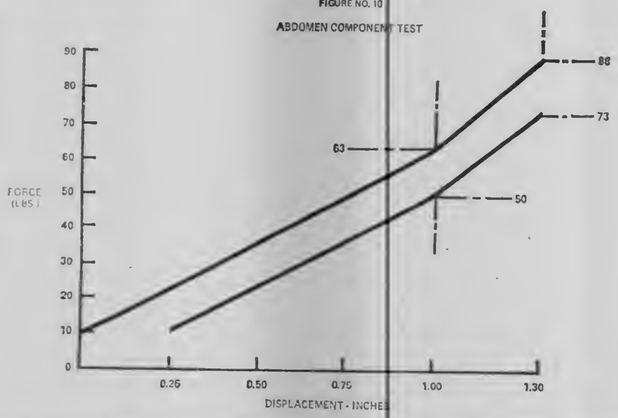
MOUNTING BRACKET-LUMBAR TEST FIXTURE

TOLERANCE ± 1/64"
MATERIAL: STEEL
WELDED CONSTRUCTION



10. Figure No. 9 would be revised to provide external attachment points for the push plate, as pictured below.

FIGURE 9
Loading Plate- Lumbar Test Fixture

11. Figure No. 10 would be revised to reflect the initial 10-pound application of force, as pictured below.

FIGURE NO. 10

12. General Motors drawing No. 73051–3 would be deleted from the list of drawings subtended by number SA 150 M010.

13. In drawing No. 292–1605 subtended by number SA 150 M020, the Kd and Cd specifications would be referenced to indicate that the dynamic spring rate and damping characteristic of the neck material are not mandatory.

14. In drawing No. ATD 3151–6 subtended by SA 150 M030,

(a) Four $\frac{3}{8}$-inch-diameter bolt holes would be added to the back of the chest flesh to conform to the four-hole pattern of the push plate described in Figure No. 9;

(b) Dimensions would be added to locate the height, profile, and diameter of the neck opening, and the flesh thickness in the 1-inch-wide band forming the neck opening;

(c) A revised zipper assembly (ATD–3154) would specify a $\frac{7}{8}$-inch-wide tape and three heat seal lines on each side of the zipper; and

(d) Location of the arm openings in the chest flesh would be added.

15. With regard to clavicle specifications,

(a) In item C/13 listed in SA 150 M030, the socket head cap screw would be modified to one and one-quarter inches; and

(b) The counterbore in clavicle drawing ATD 3061 subtended by SA 150 M030, would be increased to a $1\frac{19}{32}$-inch depth.

16. In Item J/08 listed in SA 150 M090, the length of the socket head cap screw would be modified to the length necessary to accommodate the number of lumbar shims (J/03) used.

17. In drawing ATD 7107 subtended by number SA 150 M050, the 100 percent rope strength swaging requirement would be changed to MIL–C–5688A specification to prescribe in greater detail the test procedure to measure the swaging strength and establish a 60 percent minimum strength requirement.

18. In drawing no. ATD 3250–2 subtended by number SA 150 M060, an overall insert height of $8\frac{3}{4}$ inches would be added to the specifications, and a $6\frac{3}{4}$ inch dimension, measured from a plane through the $\frac{3}{4}$-inch hole in the abdominal insert to the plane indicated for cutting off excess material. In addition the words "Submerse in water to a depth of not less than 12 inches for a period not less than 5 minutes: No visible air leakage to be evident during this period." would be added after the specification of a leak test.

19. In drawings no. ATD 3801–1 and ATD 3801–2 subtended by number SA 150 M080 and SA 150 M081, the knee flesh over 130 degrees of the knee face would be specified as one-quarter of an inch in thickness.

20. In drawing No. ATD 3738 subtended by numbers SA 150 M080 and SA 150 M81, it is proposed that the paint specification be deleted.

21. It is also proposed that all General Motors drawings that are specified as alternatives for other drawings be deleted to simplify the design specification package.

Interested persons are invited to submit comments on the proposal. Comments should refer to the docket number and be submitted to: Docket Section, National Highway Traffic Safety Administration, Room 5108, 400 Seventh Street, SW., Washington, D.C. 20590. It is requested but not required that 10 copies be submitted.

All comments received before the close of business on the comment closing date indicated below will be considered, and will be available for examination in the docket at the above address both before and after that date. To the extent possible, comments filed after the closing date will also be considered. However, the rulemaking action may proceed at any time after that date, and comments received after the closing date and too late for consideration in regard to the action will be treated as suggestions for future rulemaking. The NHTSA will continue to file relevant material as it becomes available in the docket after the closing date, and it is recommended that interested persons continue to examine the docket for new material.

Comment closing date: October 30, 1975.

Proposed effective date: [180 days following date of publication of amendments in the FEDERAL REGISTER].

(Sec. 103, 119, Pub. L. 89–563, 80 Stat. 718 (15 U.S.C. 1392, 1407); delegation of authority at 49 CFR 151 and 49 CFR 501.8).

Issued on July 29, 1975.

### [ 40 CFR Part 120 ]

[FRL 403–4]

### WATER QUALITY STANDARDS

**● The purpose of this notice is to withdraw the notice of proposed rulemaking published in the Federal Register (39 FR 15505) on May 3, 1974 for the State of Ohio. ●**

The May 3, 1974 notice of proposed rulemaking was issued pursuant to section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92–500, 86 Stat. 816, 33 U.S.C. 1251 et seq., the "Act"), which provides for Federal promulgation of water quality standards when a State fails to adopt water quality standards meeting the requirements of the Act. The EPA must promulgate standards within 190 days of the proposal, unless by such time the State shall have adopted water quality standards which are found to be in accordance with the requirements of the Act.

On January 8, 1975, the State of Ohio adopted water quality standards that are consistent with the requirements of the Act. The standards were approved by the EPA on May 14, 1975, thereby obviating the need for final rulemaking.

The water quality standards adopted by the State of Ohio include all rules set forth in the May 3, 1974 FEDERAL REGISTER notice of proposed rulemaking except as noted in the following discussion.

1. EPA proposed generally applicable dissolved oxygen criteria of not less than 6 mg/l at any time nor less than 7 mg/l in the spawning areas of cold water fish. The State adopted a less stringent criterion for the hypolimnion of the offshore area of the Central Basin of Lake Erie. The EPA Regional Office reviewed the dissolved oxygen standard adopted by the State of Ohio and determined it to be sufficient at this time.

2. EPA proposed temperature criteria for Lake Erie. The temperature was not to exceed 75° F in June and 80° F in July. The criteria adopted by Ohio are: temperatures not to exceed 78° F from June 1–15, 83° F from June 16–30 and 85° F in July. Based on monitoring data, the Regional Office has determined that these criteria were sufficient to meet the requirements of the Act.

In consideration of the foregoing, the notice of proposed rulemaking published in the FEDERAL REGISTER, May 3, 1974 (entitled "Navigable Waters of the State of Ohio, Proposed Water Quality Standards") is hereby withdrawn.

This withdrawal is issued under the authority of Section 303 of the Federal Water Pollution Control Act, as amended (Pub. L. 92–500, 86 Stat. 816 U.S.C. 1251 et seq.).

Dated: August 1, 1975.

## FEDERAL COMMUNICATIONS COMMISSION

### [ 47 CFR Parts 2, 89, 91 ]

[Docket No. 20149; FCC 75–868]

### LOCAL GOVERNMENT AND MANUFACTURERS RADIO SERVICES

#### Availability of Splinter Frequencies; Further Notice of Proposed Rule Making

In the Matter of Amendment of Parts 2, 89, and 91 of the Commission's Rules and Regulations to make available four 173 MHz splinter frequencies to the Local Government and Manufacturers Radio Services for telemetry and remote control operations.

1. On the same day the Commission adopted a First Report and Order in this proceeding giving access to the four 173 MHz splinter frequencies to eligibles in the Local Government and Manufacturers Radio Services.

2. The comments received in response to the original Notice of Proposed Rule Making indicated an expanding need for fixed and mobile non-voice signalling frequencies among the various radio services that could not be met by the frequencies available. The Commission believes this need for air, noise, and water quality monitoring systems as well as for various other industrial uses, will continue to accelerate because of the national concern for environmental protection. Therefore, additional VHF splinter frequencies for this type of operation should be made available. Accordingly, we are issuing this Further Notice of Proposed Rule Making looking towards allocating additional splinter frequencies for non-voice signalling operations.

3. There are a number of narrow bands or channels which could be made available for shared use between services for non-voice operations. One frequency band which could be used is 152.255–152.2625 MHz (center frequency 152.25875 MHz). This is part of a band edge between Part 21 and Part 93. Another frequency band which could be used is 152.85125–152.85875 MHz. This band is part of a bandedge between Part 21 and Part 91 allocations. The Power Radio Service has expressed a need for another frequency for peak load management operations. The Commission feels this band 152.85125–152.85875 MHz, center frequency 152.85875 MHz could be used for that purpose. In addition, the channel could be made available in other radio services in these areas that are at distances 75 miles or more from urbanized areas of 200,000 or more population for other low power non-voice operations. We believe that with strict coordination, directional antennas and coded transmissions there should be no interference to load management operations. Another frequency band which could be made available is 154.4525–154.4600 MHz (center frequency 154.45625 MHz). This band is presently allocated to the Local Government Radio Service for call box operations. However, there are currently only four licensees on this channel and two of these hold experimental authorizations. Since interest in this channel has been minimal for several years (the 72–76 MHz channels and the 450 MHz frequencies are also available for call box operations) this 154 MHz channel should be reallocated for other purposes.[1] A third is the frequency band 154.4600–154.4675 MHz (center frequency 154.46375 MHz). This band is presently allocated to the Power Radio Service primarily for peak load management operations with a maximum permissible output power of 300 watts. In addition, this band may also be assigned to Fixed stations located at least 75 miles from large urbanized areas (population of 200,000 or more) for remote control and telemetry operations. The maximum power in this instance is limited to 50 watts. In those areas that are at distances beyond 75 miles from large urbanized areas, it is the Commission's opinion that this frequency could be made available in other radio services, in addition to the Power Service, for remote control and telemetry operations. As mentioned above, the limitations should preclude any interference to load management operations. The frequency band 154.4675–154.4750 MHz (center frequency 154.47125 MHz) is currently shared between the Petroleum and Special Industrial Radio Services and is already authorized for remote control and telemetry operations. The band 154.475–154.4825 MHz (center frequency 154.47875 MHz) is between a splinter frequency available for non-voice use in Petroleum and Special Industrial Radio Services and a voice channel in the Special Industrial Radio Service. The channel is presently unoccupied. The last frequency band is 157.7475–157.755 MHz (center frequency 157.75125 MHz). This is part of a bandedge between Part 21 and Part 91.

4. We propose to allocate the 7.5 kHz frequency bands mentioned to the Local Government, Power, Petroleum, Special Industrial, Forest Products, Manufacturers, and Business Radio Services for remote control and telemetry operations. Only the center frequency of each band will be listed in the rules. Use in the Business Radio Service would be limited to mobile operations while operations in the other services would be subject to the same technical requirements as apply to similar splinter operations permitted under the rules. Paging systems will not be given access to these frequencies and voice emission will not be authorized. Since some of these frequencies are close to Domestic Public paging channels, there may be a chance of harmful interference between systems. Therefore, we request comments on this issue of possible inter-service interference. In addition the Commission requests suggestions on any additional narrow channels which might be available for this type of operation. Also, it has come to our attention that certain telemetry systems require a wider bandwidth than can be used on the 7.5 kHz splinter frequencies. We therefore request comments concerning this type of operation and radio frequencies which might be available for these wider band operations.

5. Notice is hereby given on our proposal to adopt Rules as set forth below. Pursuant to applicable procedures set forth in § 1.415 of the Commission's Rules, interested persons may file comments on or before August 21, 1975 and reply comments on or before September 1, 1975. Relevant and timely comments will be considered by the Commission before final action in this proceeding. In reaching its decision, the Commission may also take into account other relevant information before it, in addition to the specific comments invited by this notice.

6. In accordance with the provisions of Section 1.419 of the Commission's Rules an original and fourteen copies of all statements, comments filed shall be furnished the Commission. Responses will be available for public inspection during regular business hours in the Commission Public Reference Room at its headquarters in Washington, D.C.

Adopted: July 22, 1975.

Released: August 5, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Secretary.*

### PART 2—FREQUENCY ALLOCATIONS AND RADIO TREATY MATTERS; GENERAL RULES AND REGULATIONS

In Part 2 of Chapter I of Title 47 of the Code of Federal Regulations, § 2.106 is amended as follows:

[1] Present call box operations will be "grandfathered."

Federal Communications Commission

| Band (MHz) | Service | Class of station(s) | Frequency (MHz) | Nature {OF SERVICE of Stations |
|---|---|---|---|---|
| 7 | 8 | 9 | 10 | 11 |
| • | • | • | • | • |
| 152.255–152.2625 | LAND MOBILE. | Base. Land Mobile. | | INDUSTRIAL. PUBLIC SAFETY. LAND TRANSPORTATION. |
| 152.2625–152.465 | LAND MOBILE. | Base. Land Mobile. | | INDUSTRIAL. |
| 152.465–152.495 | LAND MOBILE. | Base. Land Mobile. | | DOMESTIC PUBLIC. (NG 4) |
| 152.495–152.85125 | LAND MOBILE. | Base. Land Mobile. | | INDUSTRIAL. PUBLIC SAFETY. INDUSTRIAL. (NG 4) |
| 152.85125–152.85875 | LAND MOBILE. | Base. Land Mobile. | | INDUSTRIAL. PUBLIC SAFETY. |

## PART 89—PUBLIC SAFETY RADIO SERVICE

II. Part 89 of the Commission's Rules is amended as follows:

1. Section 89.259(f) Table and paragraph (g) limitations (13) through (19) are added to read as follows:

**§ 89.259 Frequencies available to the Local Government Radio Service.**

• • • • •

(f) • • •

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| MHz | | |
| • | • | • |
| 72.96 | Operational fixed | 3 |
| 152.25875 | Fixed and mobile | 13, 15, 16, 17, 18 |
| 152.85875 | do | 13, 15, 16, 17, 19 |
| • | • | • |
| 154.115 | Base and mobile | 10 |
| 154.45625 | Fixed and mobile | 13, 15, 16, 17, 18 |
| 154.46375 | do | 13, 15, 16, 17, 19 |
| 154.47125 | do | 13, 15, 16, 17, 18 |
| 154.47875 | do | 13, 15, 16, 17, 18 |
| 154.965 | Base and mobile | |
| • | • | • |
| 156.015 | Mobile | |
| 157.78125 | do | 13, 15, 16, 17, 18 |
| 158.715 | Base and mobile | |
| • | • | • |

(g) • • •

(13) The maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(14) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation or swing in hertz may not exceed 1700 Hz and the maximum deviation may not exceed 1.2 kHz. For AM transmitters the highest modulating frequency may not exceed 1200 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 3 kHz.

(15) For FM transmitters the sum of the highest modulating frequency in hertz and the amount of frequency deviation of swing in hertz may not exceed 2800 Hz and the maximum deviation may not exceed 2.5 kHz. For AM transmitters the highest modulating frequency may not exceed 2000 Hz. The carrier frequency must be maintained within 0.0005 percent of the center of the frequency band, and the authorized bandwidth may not exceed 6 kHz.

(16) This frequency band is available on a shared basis with several Industrial Radio Services. Evidence of interservice coordination is required.

(17) Operational fixed stations must employ directional antennas having a front-to-back ratio of at least 20 dB. (Except as noted in 19).

(18) Ominidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

(19) Use of the frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970).

• • • • •

## PART 91—INDUSTRIAL RADIO SERVICES

III. Part 91 of the Commission's Rules is amended as follows:

1. Section 91.254(a) Table and paragraph (b) limitations (20) and (23) amended to read as follows:

**§ 91.254 Frequencies Available.**

(a) • • •

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| MHz | | |
| • | • | • |
| 75.98 | Operational fixed | 3 |
| 152.25875 | Fixed and mobile | 17, 18, 19, 23 |
| 152.85875 | do | 18, 20, 22, 23 |
| • | • | • |
| 153.725 | Base or mobile | |
| 154.45625 | Fixed or mobile | 18, 20, 22, 23 |
| 154.46375 | do | 17, 18, 19, 23 |
| 154.47125 | do | 18, 20, 22, 23 |
| 154.47875 | do | 18, 20, 22, 23 |
| 157.75125 | do | 18, 20, 22, 23 |
| 158.130 | Base or mobile | |
| • | • | • |

(b) • • •

(20) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

• • • • •

(23) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

• • • • •

2. Section 91.304(a) Table and paragraph (b) limitations (21), (22), (25), (26), (38), and (39) are amended to read as follows:

**§ 91.304 Frequencies available.**

(a) • • •

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| MHz | | |
| • | • | • |
| 75.98 | Operational fixed | 1 |
| 152.25875 | Fixed or mobile | 21, 24, 25, 26, 38 |
| 152.85875 | do | 21, 24, 25, 26, 39 |
| • | • | • |
| 153.680 | Base or mobile | 9, 10 |
| 154.45625 | Fixed or mobile | 21, 24, 25, 26, 38 |
| 154.46375 | do | 21, 24, 25, 26, 39 |
| 154.47125 | do | 21, 24, 25, 26, 38 |
| 154.47875 | do | 21, 24, 25, 26, 38 |
| 157.75125 | do | 21, 24, 25, 26, 38 |
| 158.145 | Base or mobile | 35 |
| • | • | • |

(b) • • •

(21) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(22) [Reserved]

• • • • •

(25) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

(26) Operational fixed stations must employ directional antennas having a front to back ratio of at least 20 db. (except as noted in 38).

• • • • •

(38) Omnidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

(39) Use of the frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970).

• • • • •

3. Section 91.354(a) Table and paragraph (b) limitations (24), (25) and (26) amended, and (36) and (37) added to read as follows:

**§ 91.354 Frequencies available.**

(a) • • •

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| MHz | | |
| • | • | • |
| 75.98 | Operational fixed | 1 |
| 152.25875 | Fixed or mobile | 22, 24, 25, 26, 36 |
| 152.85875 | do | 22, 24, 25, 26, 37 |
| • | • | • |
| 153.680 | Base or mobile | 9, 11 |
| 154.45625 | Fixed or mobile | 22, 24, 25, 26, 36 |
| 154.46375 | do | 22, 24, 25, 26, 37 |
| 154.47125 | do | 22, 24, 25, 26, 36 |
| 154.47875 | do | 22, 24, 25, 26, 36 |
| 154.57 | Mobile | 10 |
| • | • | • |
| 157.74 | Base or mobile | 21 |
| 157.75125 | do | 21, 24, 25, 26, 38 |
| 158.145 | Base or mobile | 35 |
| • | • | • |

(b) • • •

(24) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(25) Operational fixed stations must employ directional antennas having a front to back ratio of at least 20 db. (Except as noted in 36).

(26) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

• • • • •

(36) Omnidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

(37) Use of the frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970).

4. Section 91.504(a) Table and paragraph (b) limitations (23), (24) and (25) amended and limitations (39) and (40) added to read as follows:

**§ 91.504 Frequencies Available.**

(a) • • •

| Frequency or band | Class of station(s) | General reference | Limitations |
|---|---|---|---|
| MHz | | | |
| • | • | • | • |
| 151.505 | Base or mobile | Permanent use | 11 |
| 152.25875 | Fixed or mobile | do | 21, 23, 24, 25, 39 |
| 152.85875 | do | do | 21, 23, 24, 25, 40 |
| • | • | • | • |
| 153.035 | Base or mobile | Permanent use | 9 |
| 154.45625 | Fixed or mobile | do | 21, 23, 24, 25, 39 |
| 154.46375 | do | do | 21, 23, 24, 25, 40 |
| 154.47125 | do | do | 21, 23, 24, 25, 39 |
| 154.47875 | do | do | 21, 23, 24, 25, 39 |
| 154.49 | Base or mobile | do | 11 |
| • | • | • | • |
| 157.74 | Base or mobile | Permanent use | 19 |
| 157.75125 | do | do | 21, 23, 24, 25, 39 |
| 158.385 | do | do | 11 |
| • | • | • | • |

(b) • • •

(23) In this frequency band the maximum power output of the transmitter may not exceed 50 watts for fixed stations and 1 watt for mobile stations. A1, A2, F1, or F2 emission may be authorized, and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode.

(24) Operational fixed stations must employ directional antennas having a front to back ratio of at least 20 dB. (Except as noted in 39.)

(25) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

• • • • •

(39) Ominidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

(40) Use of frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970).

• • • • •

5. Section 91.554(a) Table and paragraph (b) limitation (29) amended and limitation (51) added to read as follows:

**§ 91.554 Frequencies Available.**

(a) • • •

| Frequency or band | Class of station(s) | General reference | Limitations |
|---|---|---|---|
| *MHz:* | | | |
| • • • | • • • | • • • | • |
| 151.955 | Base or mobile | General use | |
| 152.28875 | Mobile | Permanent use | 29, 30 |
| • • • | • • • | • • • | • |
| 152.180 | Base | Oneway paging | 25, 28 |
| 152.8875 | Mobile | Permanent use | 29, 30, 51 |
| 154.45625 | do | do | 29, 30, 51 |
| 154.46375 | do | do | 29, 30 |
| 154.47125 | do | do | 29, 30 |
| 154.47875 | do | do | 29, 30 |
| 154.515 | Base or mobile | do | 10, 11 |
| • • • | • • • | • • • | • |
| 154.625 | Base | Oneway paging | 47 |
| • • • | • • • | • • • | • |
| 157.680 | Base or mobile | Permanent use | 15 |
| 157.75125 | Mobile | do | 29, 30 |
| • • • | • • • | • • • | • |

(b) • • •

(29) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services and may be used for low-power mobile operations for the purpose of remote control and telemetering. The maximum power output of the transmitter may not exceed 1 watt. A1, A2, F1, or F2 emission may be authorized and mobile stations used to control remote objects and devices may be operated in the continuous transmit mode. Evidence of interservice coordination is required.

• • • • • •

(51) Use of the frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970.)

• • • • • •

6. Section 91.730(a) table is amended and (b) (26) through (29) are added to read as follows:

**§ 91.730 Frequencies Available.**

(a) • • •

| Frequency or band | Class of station(s) | Limitations |
|---|---|---|
| *MHz:* | | |
| • • • | • • • | • |

(26) Operational fixed stations must employ directional antennas having a front to back ratio of at least 20 dB. (Except as noted in 27)

(27) Omnidirectional antennas having unity gain may be employed for stations communicating with at least three receiving locations separated by 160° of azimuth.

(28) This frequency band is available on a shared basis with the Local Government and several Industrial Radio Services. Evidence of interservice coordination is required.

(29) Use of this frequency is limited to stations located at least 75 miles from the boundaries of any urbanized area of 200,000 or more population (U.S. Census of Population 1970).

## FEDERAL ENERGY ADMINISTRATION

**[ 10 CFR Part 213 ]**

**OIL IMPORT REGULATIONS**

**Notice of Proposed Technical Amendments**

On January 28, 1975, the Federal Energy Administration (FEA) issued regulations implementing Proclamation No. 4341, which amended Proclamation No. 3279, as amended, by establishing the supplemental fee as the primary exaction imposed pursuant to the Mandatory Oil Import Program, and by accelerating the base fees to their maximum levels (40 FR 4774, January 31, 1975). Since the issuance of those regulations, FEA has issued various amendments thereto in implementation of subsequent Proclamations adjusting the Program. However, numerous suggestions for the disposition of certain other issues have been received both in the comments on the January 28 regulations, and from time to time since then. In order to deal with these issues, FEA undertook an extensive review of such suggestions from operational, legal, and policy points of view. In accordance with the results of this review, FEA has determined that certain of its procedures could be modified in order to facilitate the policies of the Mandatory Oil Import Program, and, therefore, FEA hereby proposes to amend §§ 213.22 and 213.35 of its regulations for that purpose.

First, § 213.22 would be amended to facilitate the sale of licenses, since, owing to the imposition of the supplemental fee, the exchange of imported for domestic oil currently permitted under § 213.22 has produced cumbersome cash flow problems that have diminished the value of fee-exempt allocations to inland refiners. This would not apply in the case of Canadian imports, which can only be exchanged for other Canadian imports. Under the proposed amendment, allocation holders could, upon approval by FEA of an application for the purpose, sell to other persons licenses issued pursuant to their allocations.

Second, § 213.35 would be amended to permit importers holding a license issued pursuant to a bond, to reduce payments of fees and supplemental fees, on a monthly basis, by an amount equal to the net duties paid less any applicable drawback attributable to imports made after February 1, received during that period. This procedure would eliminate the necessity of applying for a refund of sums equivalent to tariffs paid, which contributes to cash flow problems and is costly in terms of the time-value of money. In order to facilitate this procedure, FEA would change the present requirement of calculating duties in terms of those "found payable upon liquidation" to a calculation based on net duties (that is, estimated duties as adjusted). This is necessary because liquidation data would not, ordinarily, be available in time to permit net-out of duties on a current basis. Importers pursuant to a license issued upon prepayment would not be able to net out sums equivalent to the tariffs potentially payable. However, § 213.35 would be amended so that such importers, in applying for refunds, could also calculate duties paid on a "net duty," rather than "liquidation" basis. This would maintain consistency between both groups of importers, and also increase the speed with which such refunds could be made available.

Also in this connection, FEA proposes to amend section 213.35 in order to permit bonded importers paying a tax to Puerto Rico pursuant to the Proclamation, to tender simultaneously their respective payments to the United States and Puerto Rico on a basis permitting the net-out of tariffs paid. Under this amendment, the necessity to furnish tax-paid receipts to FEA would be eliminated. Instead, the importer could furnish certified documents prepared for the Government of Puerto Rico containing computations of the volumes of material subject to tax, and calculations based thereon of the amounts owing to Puerto Rico for payment of the tax.

Finally, § 213.35 would be amended to permit an exporter of finished products and petrochemicals, derived from imported crude oil or unfinished oils, to receive the applicable refunds, irrespective of whether such person were the importer of record. This would remove the competitive disadvantage between exporting companies that also import and exporters who must purchase crude oil or unfinished oils from such importing companies. Under the proposed amendments dealing, respectively, with imports of crude oil and unfinished oils, where an export is made by a person other than the importer of record, such person could certify to the importer of record as to the export made, and the importer would include such export in his application for refunds. Upon receipt of the refund, the importer would make payment to the exporter in the amount of the refund.

Interested persons are invited to submit written data, views, or arguments with respect to these amendments to Executive Communications, Room 3309, Federal Energy Administration, Box DU, The Federal Building, Washington, D.C. 20461. Comments should be identified on the outside of the envelope and on the documents submitted to the Federal Energy Administration with the designation "Technical Amendments to Part 213." Fifteen (15) copies should be submitted. All comments received by 4:30 p.m., August 22, 1975, will be considered by the Federal Energy Administration in evaluating the revision and amendments.

Any information or data considered by the person furnishing it to be confidential must be so identified and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

Public hearings with respect to these amendments, will be held beginning at 9:30 a.m., e.d.s.t., on August 20, 1975, in Room 2105, 2000 M Street NW., Washington, D.C. Any person who has an interest in these changes, or who is representative of a group or class of persons which has such an interest, may make a written request for an opportunity to make oral presentation. Such a request should be directed to Executive Communications, FEA, and must be received before 4:30 p.m., e.d.s.t., August 12, 1975. Such a request may be hand delivered to Room 3309, The Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C., between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. The person making the request should be prepared to describe the interest concerned; if appropriate, to state why he is a proper representative of a group or class of persons which has such an interest; and to give a concise summary of the proposed oral presentation and a phone number where he may be contacted through August 18, 1975. Each person selected to be heard will be so notified by the FEA before 4:30 p.m., e.d.s.t., August 14, 1975, and must submit 100 copies of his statements to Executive Communications, FEA, Room 2214, 2000 M Street NW., Washington, D.C. 20461, before 4:30 p.m., e.d.s.t., August 19, 1975.

The FEA reserves the right to select the persons to be heard at these hearings, to schedule their respective presentations, and to establish the procedures governing the conduct of the hearings. The length of each presentation may be limited, based on the number of persons requesting to be heard.

An FEA official will be designated to preside at the hearings. These will not be judicial or evidentiary-type hearings. Questions may be asked only by those conducting the hearings; and there will be no cross-examination of persons presenting statements. Any decision made by the FEA with respect to the subject matter of the hearings will be based on all information available to the FEA. At the conclusion of all initial oral statements, each person who has made an oral statement will be given the opportunity, if he so desires, to make a rebuttal statement. The rebuttal statements will be given in the order in which the initial statements were made and will be subject to time limitations.

Any interested persons may submit questions, to be asked of any person making a statement at the hearings to Executive Communications, FEA, before 4:30 p.m., e.d.s.t., August 18, 1975. Any person who makes an oral statement and who wishes to ask a question at the hearings may submit the question, in writing, to the presiding officer. The FEA or the presiding officer, if the question is submitted at the hearings, will determine whether the question is relevant, and whether time limitations permit it to be presented for answer.

Any further procedural rules needed for the proper conduct of the hearings will be announced by the presiding officer.

A transcript of the hearings will be made and the entire record of the hearings, including the transcript, will be retained by the FEA and made available for inspection in the Administrator's Reception Area, Room 3400, Federal Building, 12th and Pennsylvania Avenue NW., Washington, D.C. between the hours of 8 a.m. and 4:30 p.m., Monday through Friday. Any person may purchase a copy of the transcript from the reporter.

The Administrator of the Environmental Protection Agency (EPA) has reviewed this proposal in accordance with the review provisions of section 7(c)(2) of the Federal Energy Administration Act of 1974, providing for submission of proposed rules for comment by the Administrator. He has advised FEA that he has no comment.

Finally, this proposal has been reviewed in accordance with Executive Order 11821 and OMB Circular No. A107 and has been determined not to require evaluation of its inflationary impact as provided therein.

[Federal Energy Administration Act of 1974, Pub. L. 93275; E.O. 11790, 39 FR 23185, Trade Expansion Act of 1962, P.L. 87794, as amended; Proclamation No. 3279, 24 FR 1781, as amended by Proclamation No. 4210, 38 FR 9645, Proclamation No. 4227, 38 FR 16195, Proclamation No. 4317, 38 FR 35103, Proclamation No. 4341, 40 FR 3958, Proclamation No. 4355, 40 FR 10437, Proclamation No. 4370, 40 FR 19421, and Proclamation No. 4377, 40 FR 23491].

In consideration of the foregoing, it is proposed that Part 213 of Chapter II, Title 10 of the Code of Federal Regulations be amended as set forth below.

Issued in Washington, D.C., August 5, 1975.

ROBERT E. MONTGOMERY, JR.,
*General Counsel,*
*Federal Energy Administration.*

1. Section 213.22 is revised to read as follows:

**§ 213.22 Use of imported crude oil and unfinished oils.**

(a) Subject to the provisions of paragraph (b), persons to whom allocations are made under §§ 213.9, 213.10, 213.11, 213.12, 213.13, 213.15, 213.29, or 213.30, or pursuant to Section 5 of Proclamation No. 3279, as amended, may upon approval by the Director of an application for this purpose sell to other persons licenses issued pursuant to such allocations. Application for sale may be made before or after issuance of a license. Where an application is made for the sale of a license which has previously been issued, such license shall be returned to the Director with the application. Applications for sale shall be signed by both parties to the transaction. The purchaser of the license, shall, in accordance with section 213.35, make payment or post bond in the amount of the outstanding liability of the license prior to the completion of the sale.

(b) Persons who sell licenses issued pursuant to §§ 213.9, 213.10, 213.11, or 213.30, may not import unfinished oils in excess of fifteen percent (15%), or finished products in excess of one percent (1%), of their allocation of such materials under such sections.

2. Section 213.35 is amended by adding a new paragraph (a)(10) and by revising paragraphs (e)(2)(i), (v), and (3)(i), and paragraph (f)(2)(iii), to read as follows:

**§ 213.35 Allocations and fee-paid licenses for imports of crude oil, unfinished oils, and finished products—Districts I–IV, District V, and Puerto Rico.**

(a) • • •

(10) An importer of record who holds a license issued pursuant to a bond, may reduce the payments made pursuant to paragraphs (c) and (d) of this section, on a monthly basis, by sums equal to the sums collected by way of net duties paid to the United States Customs Service, less any duty drawbacks of tariffs paid on imports made on or after February 1, 1975 received during the same period, *provided*, That said importer certifies the amount of net duties paid and drawback received during that period. Where the duty drawback exceeds the net duty paid during that period, the net difference shall be applied to subsequent periods, *provided*, That when the duty less drawback exceeds the fee imposed, any excess duty may be used to reduce fees payable during the subsequent six months.

(e) • • •

(2) • • •

(i) In the case of licenses issued upon prepayment, for payment to the importer of record, on a monthly basis, of sums equal to the sums collected by way of net duties paid to the United States Customs Service, less any drawbacks of tariffs paid on imports made on or after

February 1, 1975 received during the same period, *provided* that said importer certifies the amount of net duties paid and drawback received during that period. Where the duty drawback exceeds the net duty paid during that period, the net difference shall be applied to subsequent periods, *provided*, That when the duty less drawback exceeds the fee imposed, any excess duty may be used to reduce fees payable during the subsequent six months;

. . . . . .

(v) To the extent that imports of crude oil have been incorporated into petrochemicals as defined in § 213.10 which are subsequently exported, or refined into finished products subsequently exported. Where an export is made by a person other than the importer of record, such person may certify to the importer of record as to the export made, and the importer shall include such export in an application for refund under this paragraph. Upon receipt of the refund, the importer shall make payment to the exporter in the amount of the refund. The procedures for determining the volumes subject to refund shall be those prescribed in § 213.10(e).

. . . . . .

(3) • • •

(i) To the extent that imports of unfinished oils have been incorporated into petrochemicals as defined in § 213.10 which are subsequently exported, or refined into finished products subsequently exported. Where an export is made by a person other than the importer of record, such person may certify to the importer of record as to the export made, and the importer shall include such export in an application for refund under this paragraph. Upon receipt of the refund, the importer shall make payment to the exporter in the amount of the refund. The procedures for determining the volumes subject to refund shall be those prescribed in § 213.10(e). No petrochemical exports earning a refund of license fee under this clause may earn an allocation pursuant to § 213.10;

. . . . . .

(f) • • •

(2) • • •

(iii) certified copies of documents prepared for the Government of Puerto Rico containing computations of the volumes of materials subject to a tax or other levy in effect after January 31, 1975 on crude oil, unfinished oils, or finished products not shipped to Districts I–V, and calculations based thereon of the amounts owing to Puerto Rico for payment of said tax or other levy, *provided*, that such computations and calculations shall be subject to adjustment based on a determination of their accuracy by the Federal Energy Administration and the Government of Puerto Rico.

. . . . . .

Notices of hearings and investigations, committee meetings, agency decisions and rulings, delegations of authority, filing of petitions and applications and agency statements of organization and functions are examples of documents appearing in this section.

## DEPARTMENT OF STATE

[Public Notice CM–5/75]

### UNITED STATES NATIONAL COMMITTEE FOR THE PREVENTION OF MARINE POLLUTION

#### Notice of Meeting

The United States National Committee for the Prevention of Marine Pollution, a subcommittee of the Shipping Coordinating Committee, will hold an open meeting at 9:30 a.m. on Thursday, August 28, 1975 in Room 6200 of the Department of Transportation, 400 Seventh Street, SW., Washington, D.C.

The purpose of the meeting is to discuss the agenda for the Fourth Session of the Marine Environment Protection Committee of the Intergovernmental Maritime Consultative Organization and to especially review the following items:

Segregated ballast on existing tankers
Technical assistance in the field of marine pollution
Reception facilities
Oily water separaters and oil discharge control and monitoring equipment
Procedures and arrangements for the discharge of noxious liquid substances
Sewage treatment plants for ships.

Requests for further information on the meeting should be directed to Captain Donald Hintze of the United States Coast Guard. He may be reached by telephone on (area code 202) 426–2280.

The Chairman will entertain comments from the public as time permits.

JOHN P. STEINMETZ,
*Acting Director,*
*Office of Maritime Affairs.*

## DEPARTMENT OF JUSTICE

### Antitrust Division

### UNITED STATES V. THE WACHOVIA CORPORATION AND AMERICAN CREDIT CORPORATION

#### Proposed Consent Judgment and Competitive Impact Statement

Notice is hereby given pursuant to the Antitrust Procedures and Penalties Act, 15 U.S.C. 16 (b) through (h), that a proposed consent judgment and a competitive impact statement as set out below have been filed with the United States District Court for the Western District of North Carolina, Charlotte Division, in Civil Action No. 2656, *United States of America* v. *The Wachovia Corporation and American Credit Corporation.* The complaint in this case alleges that the acquisition of American Credit Corporation by The Wachovia Corporation substantially lessened competition in the markets for various types of financial services in North Carolina. The proposed judgment requires Wachovia to divest all of American Credit, except for the latter's factoring and commercial finance subsidiary, Southeastern Financial Corporation and its carpet and rug manufacturing subsidiary, Virginia Crafts, Inc. The proposed judgment also enjoins Wachovia from acquiring any company for ten years engaged in consumer or automobile finance in North Carolina or commercial finance or factoring in the United States. Public comment is invited on or before October 7, 1975. Such comments and responses thereto will be published in the Federal Register and filed with the Court. Comments should be directed to Mr. Hugh P. Morrison, Jr., Chief, Special Trial Section, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: August 4, 1975.

THOMAS E. KAUPER,
*Assistant Attorney General*
*Antitrust Division.*

United States District Court Western District of North Carolina, Charlotte Division.

United States of America, Plaintiff, *v.* The Wachovia Corporation and American Credit Corporation, Defendants.

Civil Action No. 2656. Filed: August 4, 1975.

STIPULATION

It is stipulated by and between the undersigned parties, by their respective attorneys, that:

1. A final judgment in the form hereto attached may be filed and entered by the Court, upon the motion of either party or upon the Court's own motion, at any time after compliance with the requirements of the Antitrust Procedures and Penalties Act, P.L. 93–528, and without further notice to either party or other proceedings, provided that plaintiff has not withdrawn its consent, which it may do at any time before the entry of the proposed final judgment by serving notice thereof on defendant and by filing that notice with the Court.

2. In the event plaintiff withdraws its consent or if the proposed final judgment is not entered pursuant to this stipulation, this stipulation shall be of no effect whatever and the making of this stipulation shall be without prejudice to plaintiff and defendant in this and any other proceeding.

Dated: July 30, 1975.

For Plaintiff: Thomas E. Kauper, Assistant Attorney General; Baddia J. Rashid; Charles F. B. McAleer; Jill Nickerson; Hugh P. Morrison, Jr.; Jules M. Fried; and Peter E. Haile.

For Defendants: James K. Dorsett, Jr., The Wachovia Corp.; James R. Withrow, Jr., Donovan, Leisure, Newton & Irvine.

United States District Court, Western District of North Carolina, Charlotte Division.

United States of America, plaintiff *v.* The Wachovia Corporation and American Credit Corporation, Defendants.

Civil Action No. 2656. Final Judgment. Filed: August 4, 1975.

Plaintiff United States of America, having filed its complaint herein on April 24, 1970 and defendants The Wachovia Corporation and American Credit Corporation having appeared by their attorneys, and plaintiff and the defendants, by their respective attorneys, having consented to the entry of this Final Judgment with out trial or adjudication of any issue of law or fact herein and without this Final Judgment constituting evidence or admission by any party with respect to any issue of law or fact herein;

NOW, THEREFORE, before the taking of any testimony and without trial or adjudication of any issue of fact or law herein, and upon the consent of the parties hereto, it is hereby, ORDERED, ADJUDGED, AND DECREED:

I

This Court has jurisdiction over the subject matter and the parties consenting hereto. The complaint states a claim upon which relief may be granted under Section 7 of the Act of Congress of October 15, 1914 (15 U.S.C. § 18), as amended, commonly known as the Clayton Act.

II

As used in this Final Judgment:

(A) "Wachovia" means defendant The Wachovia Corporation and its subsidiaries;

(B) "American Credit" means defendant American Credit Corporation and all its subsidiaries except Southeastern Financial Corporation and Virginia Crafts, Inc., a manufacturer of tufted carpets and rugs;

(C) "Southeastern Financial" means American Credit's subsidiary Southeastern Financial Corporation.

III

The provisions of this Final Judgment shall apply to Wachovia and American Credit and to their officers, directors, agents, employees, successors and assigns and all other persons in active concert or participation with any of them who receive actual notice of this Final Judgment by personal service or otherwise.

IV

(A) Wachovia is hereby ordered and directed to divest, as a single competitive entity, all of its interest, direct or indirect, in American Credit within two (2) years of the date of entry of this Final Judgment, or submit to the plaintiff thirty (30) days prior to the expiration of such period a plan of divestiture, approved by the Board of Directors of Wachovia, whereby Wachovia will spin-off all of its interest in American Credit to its own shareholders, such spin-off to be completed within six (6) months of the expiration of the two (2) year divestiture period. Should Wachovia require additional time in which to complete such a spin-off, plaintiff shall grant such additional time, as is necessary, upon a showing by Wachovia of a good-faith effort to comply with the requirements of this subsection.

(B) Defendants shall take such action as is necessary for American Credit to sustain itself as a competitive entity in order to insure Wachovia's ability to accomplish divestiture.

(C) Defendants shall submit to plaintiff for approval the details of any proposed plan of divestiture intended to implement the provisions of subsection (A) above. Within thirty (30) days of the receipt of these details, the plaintiff may request supplementary information concerning the plan, which shall be furnished by Wachovia. Following the receipt of any such supplementary information submitted pursuant to plaintiff's last request for such information, plaintiff shall have thirty (30) days in which to object to such plan of divestiture by written notice to Wachovia. If no request for supplementary information is made, said notice of objection shall be given within thirty (30) days of receipt of the originally submitted details of the plan. If plaintiff objects to the proposed plan of divestiture it shall not be consummated unless plaintiff withdraws its objection or the Court gives its approval to the plan. If plaintiff does not object, the plan shall be submitted to the Court for approval.

(D) If the proposed plan of divestiture is contingent upon the approval of the Board of Governors of the Federal Reserve System, the time period set forth in subsection (A) above shall be tolled from the date of application to the Board until such application is approved or denied.

(E) Nothing in this Final Judgment shall prohibit Wachovia from retaining, accepting and enforcing a bona fide lien, mortgage, deed of trust or other form of security interest on the property divested for the purpose of securing full payment of the price at which such property is disposed of or sold.

(F) Should Wachovia regain ownership or control of any property divested pursuant to this Final Judgment Wachovia shall divest such reacquired property in accordance with the provisions of this Final Judgment within one (1) year from the date of such reacquisition.

V

If the requirements of Subsection (A) of Section IV have not been completed within the designated time or such additional time as may be granted pursuant to Section IV(A), the Court shall, if the plaintiff so applies, and after opportunity for the parties to be heard, irrevocably convey to a trustee all of Wachovia's undivested interest in American Credit. The trustee shall have full authority to manage all of Wachovia's interest in American Credit and shall dispose of same with all deliberate speed. The fees and expenses of the trusteeship as are required to accomplish divestiture shall be paid by Wachovia as accrued.

VI

No officer, director, agent or employee of Wachovia shall at the same time be an officer, director, agent or employee of the purchaser of any stock or assets divested pursuant to this Final Judgment.

VII

(A) Wachovia is enjoined and restrained, for a period of ten (10) years from the effective date of this Final Judgment from acquiring all or part of the stock or assets of any company engaged in consumer or automobile finance in the State of North Carolina, or any company engaged in commercial finance or factoring in the United States without the prior consent of plaintiff or if plaintiff does not give its consent, without the approval of the Court.

(B) Nothing in this Final Judgment shall prohibit Wachovia from acquiring, directly or indirectly, all or part of the stock or assets of any state or federally chartered commercial bank or any company engaged primarily in mortgage banking.

(C) Nothing in this Final Judgment shall prohibit Wachovia from acquiring in the ordinary course of business, any property, including commercial paper, or from retaining, accepting and enforcing a bona fide lien, mortgage, deed of trust or other form of security interest on such property.

VIII

Beginning ninety (90) days after the date of entry of this Final Judgment, and continuing every six (6) months during the divestiture period, Wachovia shall furnish a written report to plaintiff setting forth the steps it has taken to accomplish the divestiture required herein.

IX

(A) For the purpose of determining or securing compliance with this Final Judgment and for no other purpose each defendant shall permit, subject to any legally recognized privilege, duly authorized representatives of the Department of Justice, on written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, and on reasonable notice to such defendant's principal office: (1) Access during the regular office hours of such defendant, to inspect and copy any and all books, ledgers, accounts, correspondence, memoranda, and other records and documents in the possession, custody or control of such defendant which relate to any matters contained in this Final Judgment; and (2) Subject to the reasonable convenience of such defendant and without restraint or interference from it, to interview officers or employees of such defendant, who may have counsel present, regarding such matters.

(B) Upon written request of the Attorney General or the Assistant Attorney General in charge of the Antitrust Division, such defendant shall submit such reports in writing, with respect to the matters contained in this Final Judgment, as may from time to time be requested.

No information obtained by the means provided in this Section shall be divulged by any representative of the Department of Justice to any person other than a duly authorized representative of the Executive Branch of the plaintiff except in the course of legal proceedings to which the United States is a party for the purpose of securing compliance with this Final Judgment or as otherwise required by law.

X

Jurisdiction is retained by this Court for the purpose of enabling any of the parties to this Final Judgment to apply to this Court at any time for such further orders and directions as may be necessary or appropriate for the construction or modification of any of the provisions thereof, for the enforcement of compliance therewith, and for the punishment of violations thereof.

Entry of this Final Judgment is in the public interest.

*U.S. District Judge.*

United States District Court, Western District of North Carolina, Charlotte Division.

United States of America, Plaintiff, *v.* The Wachovia Corporation and American Credit Corporation, Defendants.

Civil Action No. 2656.

COMPETITIVE IMPACT STATEMENT

Plaintiff United States of America, by its attorneys, hereby files this Competitive Impact Statement pursuant to Section 2 of the Act of Congress of December 21, 1974 (15 U.S.C. 16), commonly known as the Antitrust Procedures and Penalties Act, relating to the proposed Consent Judgment submitted for entry in this civil antitrust proceeding.

I. NATURE AND PURPOSE OF THE PROCEEDING

On April 24, 1970, plaintiff filed a civil antitrust suit charging that the proposed acquisition of American Credit Company, Inc. ("American Credit") by The Wachovia Corporation ("Wachovia") violated Section 7 of the Clayton Act. The complaint alleged, primarily, that the acquisition would: eliminate actual competition between American Credit and Wachovia in retail automobile finance and other types of financing in North Carolina and markets within North Carolina; and eliminate Wachovia as a potential entrant into consumer lending and factoring, thus substantially reducing the probability of deconcentrating these lines of commerce.

Contemporaneous with the filing of its complaint, plaintiff filed motions for Temporary Restraining Order and Preliminary Injunction to enjoin Wachovia from consummating the above acquisition prior to a determination on the merits. Hearings on plaintiff's Motion for Preliminary Injunction were held from May 13 to May 15, 1970. Judge James B. McMillan denied plaintiff's Motion for Preliminary Injunction and issued an order allowing defendants to consummate the acquisition, but directing that all assets of Wachovia and American Credit be held separate and no action be taken which would impair the ability of Wachovia to accomplish divestiture if plaintiff were ultimately to prevail at trial on the merits.

In December 1970 Congress passed and the President signed into law the Bank Holding Company Act Amendments of 1970 (P.L. #91-607, 84 Stat. 1763). Under the terms of this new statute, Wachovia was required to apply to the Board of Governors of the Federal Reserve System ("Board") for permission to retain the shares of American Credit beyond December 31, 1980. As the Board now also had jurisdiction over the acquisition of American Credit by Wachovia, and a decision of the Board might obviate the need for further litigation, the parties agreed to stay the antitrust action in the District Court pending prompt application to the Board by Wachovia to retain American Credit. On April 18, 1972 the parties filed with the Court a stipulation embodying this agreement, and Wachovia submitted its application to retain American Credit to the Board on November 30, 1972.

The Department of Justice then began the preparation of detailed comments to the Board. On December 6, 1973, however, Wachovia amended its application to the Board, promising to divest all the offices of American Credit located in cities in which Wachovia's principal subsidiary, Wachovia Bank and Trust Company, N.A. ("Wachovia Bank"), maintained branches. Wachovia thus sought to obviate the most obvious anticompetitive effects of the acquisition. On January 17, 1974 the Department of Justice submitted extensive Comments to the Board, providing detailed analysis and documentation fully supporting the proposition that the retention of American Credit by Wachovia would have significantly adverse competitive effects and should be denied. Wachovia subsequently filed reply comments.

On April 25, 1974 Wachovia again amended its application, proposing retention only of Southeastern Financial Corporation ("Southeastern Financial"), American Credit's factoring and commercial finance subsidiary. In effect, Wachovia withdrew its application and reapplied to retain Southeastern Financial, which represented approximately 20 percent of the total assets of American Credit. It undertook to divest the rest of American Credit by December 31, 1978. On June 6, 1974 the Department of Justice wrote a letter to the Board indicating that the new application still presented adverse competitive effects and, under the standards of Section 4(c)(8) of the Bank Holding Company Act, should be denied. Nevertheless, on December 11, 1974 the Board approved Wachovia's application, as amended, to retain Southeastern Financial.

Although the Department submitted comments to the Board opposing Wachovia's retention of Southeastern Financial, it also concluded, after the Board's decision, that the anticompetitive effects resulting from such retention did not constitute a violation of Section 7 of the Clayton Act and also did not warrant appeal from the Board's decision under Section 4(c)(8) of the Bank Holding Company Act.

All submissions to the Board by Wachovia and the Department of Justice, and the Board's opinion approving the acquisition, have been supplied to the Court.

II. EVENTS GIVING RISE TO ALLEGED VIOLATION

Retail automobile finance is the making of loans to individuals for the purpose of purchasing private passenger automobiles and the purchase on a discount basis from dealers of retail installment sales contracts arising from such sales. Consumer finance is generally the making of small installment loans to individuals. Factoring is the purchase of accounts receivable without recourse, while commercial finance includes lending on the security of such accounts.

Wachovia is a one bank holding company organized under the laws of the State of North Carolina and headquartered in Winston-Salem, North Carolina. Wachovia's largest subsidiary is Wachovia Bank, the largest commercial bank in the State of North Carolina. Wachovia Bank has over 165 offices in 65 North Carolina cities and towns and controls over 21 percent of total commercial bank deposits in that State. As part of its commercial banking operations Wachovia provides consumer installment loans, overdraft checking, credit cards and automobile loans.

American Credit is one of the largest diversified nonbank financial institutions in the southeastern United States and the largest finance company headquartered in North Carolina. American Credit provides consumer finance, automobile finance, factoring, leasing, commercial finance and insurance through various subsidiaries. As of December 31, 1972, it was the 16th largest independent finance company in the United States. Its consumer loan division operates over 230 offices in 17 primarily southeastern states, approximately 50 of which are in North Carolina. Its sales finance division operates 82 offices in 8 southeastern states, over 30 of which are in North Carolina. Southeastern Financial provides factoring, commercial finance and leasing services throughout the southeastern United States.

Wachovia and American Credit thus engaged in substantial direct competition in automobile and consumer finance. Wachovia Bank is the second largest automobile lender in North Carolina with 8.9 percent of all registered liens, and American Credit is the sixth largest automobile lender in North Carolina with 6.1 percent of all liens registered in the State. American Credit is the largest motor vehicle lender licensed under the North Carolina Consumer Finance Act with 31 offices in 26 North Carolina cities. Wachovia maintains branches in 13 of these cities. American Credit is also the second largest consumer loan company in North Carolina, and has offices in 19 North Carolina communities where Wachovia Bank has branches.

Southeastern Financial is the second largest factor in North Carolina and the largest commercial finance company headquartered in the Southeast. Wachovia, as the largest commercial banking organization in the Southeast, was considered a significant potential entrant into factoring.

Thus, the acquisition of American Credit by Wachovia would have eliminated direct competition between them in automobile and consumer finance and eliminated Wachovia as a potential entrant in factoring.

III. PROPOSED CONSENT JUDGMENT

The proposed Consent Judgment provides a combination of measures to dispel the anticompetitive effects of this acquisition. First, Wachovia is required to divest all of American Credit except Southeastern Financial and its carpet and rug manufacturing subsidiary, Virginia Crafts, Inc., as a going, viable business within two years of the entry of judgment, or submit to the plaintiff thirty (30) days prior to the expiration of this period a plan of divestiture, approved by the Board of Directors of Wachovia, to spin off American Credit, except Southeastern Financial and Virginia Crafts, Inc., to its shareholders, within six months thereafter. Second, if the required divestiture has not been completed within the appropriate period, under the terms of the Consent Judgment, the plaintiff has the option to apply to the court for the appointment of a trustee to carry out the divestiture at the expense of Wachovia. Third, Wachovia is enjoined for a period of ten years from acquiring, without the consent of the Department of Justice, the stock or assets of any company engaged in consumer or automobile finance in North Carolina or commercial finance or factoring in the United States.

IV. REMEDIES AVAILABLE TO POTENTIAL PRIVATE PLAINTIFFS

This judgment may not be used in private litigation as *prima facie* evidence, pursuant to Section 5(a) of the Clayton Act (15 U.S.C. 16(a)), that the antitrust laws have been violated. However, any persons damaged by the activities of defendants retain the right to sue for money damages and all other legal and equitable remedies, just as if the proposed Consent Judgment had not been entered.

V. PROCEDURES AVAILABLE FOR MODIFICATION OF CONSENT JUDGMENT

This proposed Consent Judgment is subject to a stipulation between the parties that the United States may withdraw its consent to the proposed judgment at any time within 60 days of its filing with the Court. Any person so desiring may submit written comments relating to the proposed judgment for consideration by the plaintiff to Hugh P. Morrison, Jr., United States Department of Justice, Antitrust Division, Washington, D.C. 20530. The Department of Justice will consider all such comments received. Both comments to and responses from the Department of Justice will be published in the FEDERAL REGISTER.

VI. ALTERNATIVES TO PROPOSAL ACTUALLY CONSIDERED BY UNITED STATES

The relief provided in the proposed Consent Judgment fully restores all actual competition between American Credit and Wachovia. The Board's decision, and the Department's decision not to appeal therefrom, relates only to the possible restoration of Wachovia as a potential entrant into factoring through divestiture of Southeastern Financial.

The Department determined that additional relief was not warranted or justified under the antitrust laws. Given the relief provided in the proposed Consent Judgment, which will have a salutary effect on competition in North Carolina in the markets alleged in the Complaint, the proposed Consent Judgment will dissipate the effects of the alleged violation of Section 7, insofar as it relates to actual competition. The Department did not consider, given the fact that detention of Southeastern Financial alone did not constitute a violation of Section 7 of the Clayton Act, trial of the case on the potential competition aspect alone.

No materials and documents of the type described in Section (b) of the Antitrust Procedures and Penalties Act (15 U.S.C. 16 (b)) were considered in formulating this proposed Consent Judgment.

JULES M. FRIED.

PETER E. HALLE.

Attorneys for Plaintiff, Antitrust Division, Department of Justice, Washington, D.C. 20530.

Dated: July 30, 1975.

## DEPARTMENT OF THE INTERIOR

### Bureau of Land Management

### NATIONAL ADVISORY BOARD FOR WILD FREE-ROAMING HORSES AND BURROS

### Meeting

Notice is hereby given that the National Advisory Board for Wild Free-Roaming Horses and Burros will hold a meeting on September 4 and 5, 1975, in Rock Springs, Wyoming, at the Holiday Inn. The agenda and schedule of activities are outlined below:

September 4—A field trip to view wild horse management problems. The Advisory Board will leave Rock Springs at 7 a.m. and is scheduled to return to Rock Springs at 5 p.m. Individuals from the public wanting to participate in the tour must provide their own transportation and lunch.

September 5—The meeting will be called to order at 8:30 a.m. The first order of business will be the selection of a Chairman and Vice Chairman. Other items on the agenda are: (1) Review of the Advisory Board Charter and role of the Board; (2) report on previous Advisory Board recommendations; (3) status of pending lawsuits; (4) pending legislation; (5) progress in population control measures and enforcement; (6) wild horses under private maintenance; (7) wild horse and burro public information and education; (8) comments from the public; and (9) Advisory Board discussion and recommendations.

The meeting will be open to the public. Time has been set aside from 2 to 3 p.m., September 5, for brief statements by members of the public. Those persons wishing to make an oral statement must inform the Director (330), Bureau of Land Management, in writing prior to the meeting of the Board. One written copy of all oral statements identifying the author is desired to provide a record for the minutes. Any interested person may file a written statement with the Board for its consideration. Written statements may be submitted at the meeting or mailed to the Director (330), Bureau of Land Management, Washington, D.C. 20240.

Additional details can be obtained by contacting the Office of Public Affairs,

Bureau of Land Management, Joseph C. O'Mahoney Federal Center, 2120 Capitol Avenue, P.O. Box 1828, Cheyenne, Wyoming 82001.

Minutes of the meeting will be available for public inspection 60 days after the meeting at the Office of the Director (330), Bureau of Land Management, Interior Building, Washington, D.C. 20240.

GEORGE L. TURCOTT,
*Associate Director.*

## National Park Service

### ROCKY MOUNTAIN REGIONAL ADVISORY COMMITTEE

#### Notice of Meeting

Notice is hereby given in accordance with the Federal Advisory Committee Act that a meeting of the Rocky Mountain Regional Advisory Committee will be held September 10–12, 1975, at Glacier National Park, Montana. The business session will convene at 10:30 a.m. on September 11 and 9 a.m. on September 12, at the West Glacier Conference Hall with an onsite inspection of park facilities on September 10.

The purpose of the Rocky Mountain Regional Advisory Committee is to provide for the free exchange of ideas between the National Park Service and the public and to facilitate the solicitation of advice or other counsel from members of the public on problems and programs pertinent to the Rocky Mountain Region of the National Park Service.

The members of the Advisory Committee are as follows:

Dr. John D. Hunt, Logan, Utah (Chairman).
Mr. Samuel J. Taylor, Moab, Utah.
Mr. William W. Robinson, Denver, Colorado.
Mr. Ralph M. Clark, Denver, Colorado.
Mr. Hoadley Dean, Rapid City, South Dakota.
Mrs. Harold (Alice) Frysile, Bozeman, Montana.
Mr. D. C. "Del" Shipman, Watford City, North Dakota
Mr. Jack Rosenthal, Casper, Wyoming
Mr. Vince R. Lee, Wilson, Wyoming

The matters to be discussed at this meeting include:

1. Affect of coal developments in British Columbia on Glacier National Park.
2. Affect of airborne fluoride pollution on Glacier National Park.
3. Clearing of U.S.-Canadian border in Glacier National Park.
4. State-Federal jurisdiction over U.S. Highway 2 in Glacier National Park.
5. Status of private inholdings in Glacier National Park.
6. Elk Management Program, Yellowstone National Park.
7. Blackfeet Indian activities in and adjacent to Glacier National Park.
8. National Park Service Planning Processes and Public Involvement.

The meetings will be open to the public. Any member of the public may file with the committee a written statement concerning the matters to be formally discussed by the committee on September 11–12.

Persons wishing further information concerning this meeting, or who wish to submit written statements, may contact Committee Manager Forrest Benson, Rocky Mountain Regional Office, National Park Service, Denver, Colorado 80225. Telephone 303–234–4943. Minutes of the meeting will be available for public inspection approximately 4 weeks after the meeting at the Rocky Mountain Regional Office, 655 Parfet Street, Denver, Colorado 80225.

Dated: July 23, 1975.

HAROLD P. DANZ,
*Acting Regional Director,*
*Rocky Mountain Region.*

### LAKE MEAD NATIONAL RECREATION AREA, OVERTON BEACH DEVELOPMENT CONCEPT PLAN

#### Notice of Intent

Notice is hereby given that the National Park Service will hold three public workshops in September to provide for public involvement and citizen participation in the first phase of the development concept planning process for the Overton Beach Area of Lake Mead National Recreation Area.

The workshops will be held in Overton, Nevada, Sept. 10, in the Overton Community Center, at 7:30 p.m.; in Las Vegas, Nevada, Sept. 12, in the multipurpose room of Orr Junior High School, at Katie and Twain, at 7:30 p.m., and at Overton Beach, Lake Mead National Recreation Area, Sept. 13, in the Overton Beach Resort restaurant, at 7:30 p.m.

The purpose of these workshops is to provide for wide public involvement, including ideas, suggestions, and comments from individuals and organizations on the formation of Overton Beach Development Concept Planning Alternatives.

It is the intention of the National Park Service, when the Development Concept Planning Alternatives are completed, to make them available to the public for further review.

Anyone wanting information on the National Park Service planning process, or wishing to submit comments on the uses of Overton Beach may write to the Superintendent, Lake Mead National Recreation Area, 601 Nevada Highway, Boulder City, Nevada 89005.

Dated: July 28, 1975.

JOHN H. DAVIS,
*Acting Regional Director, Western Region, National Park Service.*

## DEPARTMENT OF AGRICULTURE

### Rural Electrification Administration

### COOSA VALLEY TELEPHONE CO., PELL CITY, ALABAMA

#### Proposed Loan Guarantee

Under the authority of Pub. L. 93–32 (87 Stat. 65) and in conformance with applicable agency policies and procedures as set forth in REA Bulletin 320–22, "Guarantee of Loans for Telephone Facilities," dated February 4, 1975, published in proposed form in the FEDERAL REGISTER, September 16, 1974, (Vol. 39 No. 180, pages 33228–33229) notice is hereby given that the Administrator of REA will consider providing a guarantee supported by the full faith and credit of the United States of America for a loan in the approximate amount of $2,853,000 to Coosa Valley Telephone Company. The loan funds will be used to finance the construction of facilities to extend telephone service to new subscribers, and improve telephone service for existing subscribers.

Legally organized lending agencies capable of making, holding and servicing the loan proposed to be guaranteed may obtain information and details of the proposed project from Mrs. Jean S. Brandli, President, Coosa Valley Telephone Company, Box 628, Pell City, Alabama 35125.

To assure consideration, proposals must be submitted on or before September 8, 1975, to Mrs. Brandli. The right is reserved to give such consideration and make such evaluation or other disposition of all proposals received, as the Coosa Valley Telephone Company and REA deem appropriate.

Prospective lenders are advised that financing for this project is available from the Federal Financing Bank under a standing loan commitment agreement with the Rural Electrification Administration.

Copies of REA Bulletin 320–22 are available from the Director, Information Services Division, Rural Electrification Administration, U.S. Department of Agriculture, Washington, D.C. 20250.

Dated at Washington, D.C., this 31st day of July, 1975.

DAVID A. HAMIL,
*Administrator,*
*Rural Electrification Administration.*

### U.S. FLAG MERCHANT VESSEL LOCATOR FILING SYSTEM (USMER)

#### Notice of Establishment

Pursuant to the authority vested in the Secretary of Commerce under Section 212 (A) of the Merchant Marine Act of 1936, as amended, and delegated to me by the Secretary under Department Organization Order 10–8 of June 19, 1972, this notice announces the establishment of a vessel movement reporting system to be called U.S. Flag Merchant Vessel Locator Filing System (USMER) for U.S. merchant ships engaged in the foreign commerce of the United States. The purpose of USMER is to keep national agencies and certain military authorities informed concerning arrivals, departures and at-sea locations of U.S. flag merchant vessels throughout the world. The USMER system will become effective November 1, 1975, and all U.S. flag merchant vessels of 1,000 gross registered tons or over engaged in U.S. foreign commerce departing United States

ports on or after that date shall comply with the provisions of the system. Ships operating under control of the Military Sealift Command (MSC) will not be required to submit USMER reports. This system has been successfully tested with selected U.S. flag merchant vessels for a period of ten months. The system will be published in H.O. Pub. 117 A and B and will be maintained through Notice to Mariners published by the Defense Mapping Agency Hydrographic Center.

Pamphlets have been prepared by the Maritime Administration describing the workings of the USMER program. Every effort will be made by the Maritime Administration to distribute these pamphlets to all U.S. flag steamship operators, along with message format forms (MA–797). U.S. vessel operators that do not receive the USMER data are requested to contact the Maritime Administration through its Regional Offices in New York, New Orleans, San Francisco or its Office of Domestic Shipping, Division of Ship Management, in Washington, D.C. The addresses and phone numbers are as follows:

### National Oceanic and Atmospheric Administration

### ENVIRONMENTAL DATA SERVICE

#### Availability of Marine Seismic Reflection Data

As part of a program by the U.S. Geological Survey to gain a better understanding of the general geologic framework of the Continental Shelf, Slope, and Rise and its relationship to onshore geology and to help assess the petroleum potential of the Continental Margin, a number of multichannel common depth point (CDP) seismic reflection lines will be collected from the Atlantic, Pacific, and Alaskan coastal areas over the next several years. The National Geophysical and Solar-Terrestrial Data Center of NOAA will serve as the agency to make these data available for general use as they are released by the USGS. This is to announce the availability of the ditigal tapes containing the data for the first three survey lines.

These are the demultiplexed digital tapes for multichannel common depth point (CDP) seismic reflection measurements for three survey lines totaling 578 nautical miles on the Atlantic continental margin. They were recorded and processed by Digicon, Inc., Houston, Texas, for the USGS in August 1973. The survey lines trend generally northwest-southeast. The northernmost line extends across Georges Bank off the New England coast; the second line extends outward from the New Jersey coast; and the third and southernmost line extends off the Delmarva Peninsula.

The field tapes have been demultiplexed and are available in SEG–Y format, 800 bpi, on 9-track magnetic tape. There are 78 tapes for line 1, 52 for line 2, and 82 for line 3 for a total of 212 tapes.

Address all inquiries to National Geophysical and Solar-Terrestrial Data Center, Code D62, EDS/NOAA, Boulder, Colorado 80302. Phone—(303) 499–1000 ext. 6521.

Dated: August 4, 1975.

T. P. GLEITER,
*Assistant Administrator for Administration.*

### National Oceanic and Atmospheric Administration

### COASTAL ZONE MANAGEMENT ADVISORY COMMITTEE

#### Notice of Public Meeting

Pursuant to Section 10(a)(2) of 5 U.S.C. App. I (Supp. II, 1972), notice is hereby given of the meeting of the Coastal Zone Management Advisory Committee (the "Committee") on Thursday and Friday, September 11 and 12, 1975. The meeting will commence at 9:00 a.m. on each day at the Pierre Suite, L'Enfant Plaza Hotel, 480 L'Enfant Plaza East SW., Washington, D.C. 20024, off Independence Avenue.

The meeting will be open to public observation and approximately 75–100 seats will be available. Interested persons are invited to attend and participate in the meeting, subject to the procedures which follow. From approximately 11:25 a.m. until 12:00 noon on September 11, interested persons will be permitted to make oral statements to the Committee which are relevant to topics on the agenda. Depending on the level of interest expressed in making oral statements, the number of persons permitted to make oral statements that day may be limited to five, the length of oral statements may be limited to no more than five minutes, and preference may be given based upon the relevance of statements to items on the agenda; such decisions will be made by the Chairman in consultation with the Committee. Interested persons wishing to make oral statements must register on September 11 with the Executive Secretary between 8:30 a.m. and 9 a.m. in the meeting room and must provide their topic(s). A written version of an oral statement or a written statement may be submitted to the Executive Secretary before or after the meeting, or may be mailed within five days to: Office of Coastal Zone Management, National Oceanic and Atmospheric Administration, 3300 Whitehaven Street NW., Washington, D.C. 20235 (Attn: Richard J. Keating, Executive Secretary, CZM Advisory Committee). All statements received in typewritten form will be distributed to the Committee for consideration with the minutes of the meeting. Inquiries may be directed to Richard Keating at 634–4245.

Copies of the minutes will be available on request approximately 30 days after the meeting.

The items for Committee discussion at the meeting will include the following:

SEPTEMBER 11

| | |
|---|---|
| 9:00 a.m. | Call to Order and Announcements. |
| 9:30 a.m. | Legislative Overview/Senate Side. |
| 10:00 a.m. | Legislative Overview House Side. |
| 10:30 a.m. | Brief Recess. |
| 10:45 a.m. | Relationship of Advisory Committees to Coastal Zone Management. |
| 11:25 a.m. | Oral Statements (if any) by Interested Persons. |
| 12:00 noon | Recess for Lunch. |
| 1:30 p.m. | Implementation of a Coastal Impact Fund. |
| 2:15 p.m. | Committee Discussion of Above Topic. |
| 3:15 p.m. | Brief Recess. |
| 3:30 p.m. | Reserved for Additional Discussion. |
| 4:30 p.m. | Adjourn. |

SEPTEMBER 12

| | |
|---|---|
| 9:00 a.m. | Call to Order. |
| 9:15 a.m. | Status Report on State Management Program Approval. |
| 10:30 a.m. | Brief Recess. |
| 10:45 a.m. | Status Report on Administration of Plan for Extended Fisheries Jurisdiction and its Relationship to Coastal Zone Management. |
| 12:00 noon | Recess for Lunch. |
| 1:30 p.m. | Relationship of Coastal Zone Management to the Corps of Engineers and Environmental Protection Agency Permitting Systems. |
| 3:15 p.m. | Brief Recess. |
| 3:30 p.m. | Consideration of Agenda, Time, and Place of next meeting. |
| 4:30 p.m. | Adjourn. |

Dated: August 4, 1975.

THEODORE P. GLEITER,
*Assistant Administrator for Administration, National Oceanic and Atmospheric Administration.*

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Alcohol, Drug Abuse, and Mental Health Administration

### NATIONAL ADVISORY MENTAL HEALTH COUNCIL

#### Notice of Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following National Advisory body scheduled to assemble during the month of September 1975:

NATIONAL ADVISORY MENTAL HEALTH COUNCIL:

September 16–18—OPEN.
September 16–17; 9:30 a.m.
Conference Room G and H, Parklawn Bldg., Rockville, Md.
September 18; 9:00 a.m.
Forum Room, Shoreham Americana Hotel, 2500 Calvert St., N.W., Wash., D.C.
Contact Dr. Thomas F. A. Plaut, Room 17-99, Parklawn Bldg., 5600 Fishers Lane, Rockville, Md. 20852, 301-443-3675.

Purpose. The National Advisory Mental Health Council advises the Secretary, Department of Health, Education, and Welfare, Administrator, Alcohol, Drug Abuse, and Mental Health Administration, and the Director, National Institute of Mental Health, regarding the policies and programs of the Department in the field of mental health. The Council reviews applications for grants-in-aid relating to research, training, and services in the field of mental health and makes recommendations to the Secretary with respect to approval of applications for, and the amount of, these grants.

Agenda. September 16–18 marks the 100th meeting of the National Advisory Mental Health Council. The three-day meeting will include discussion of the activities of the Council since its first meeting in 1946, and will be open to the public. On Tuesday, September 16th and Wednesday, September 17th, there will be a two-day policy session. Discussion will include administrative, legislative, and program developments. On Thursday, September 18th, there will be a scientific session which will review progress made in the treatment of and research on depression and schizophrenia.

Please note that the meetings on September 16th and 17th will be held in Conference Room G and H, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland, and that the meeting on September 18th will be held in the Forum Room, Shoreham Americana Hotel, 2500 Calvert Street, N.W., Washington, D.C.

Attendance by the public will be limited to space available.

Substantive information may be obtained from the contact person listed above.

The NIMH Information Officer who will furnish summaries of the meeting and rosters of the committee members is Mr. Edwin Long, Deputy Director, Division of Scientific and Technical Information, National Institute of Mental Health, Room 15-105, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852, telephone: Area Code 301/443-3600.

Dated: August 1, 1975.

CAROLYN T. EVANS,
*Committee Management Officer, Alcohol, Drug Abuse, and Mental Health Administration.*

### Office of the Assistant Secretary for Planning and Evaluation

[Contract No. HEW—100-76-0003]

#### The Identification of Rehabilitation Cost Systems and Models

#### Notice of Contract Award

Pursuant to Section 606 of the Community Services Act of 1974, (Pub. L. 93-644) 42 USC 2946, this agency announces the award of Contract No. HEW—100-76-0003 to Messer Associates, Inc., 3555 Sixteenth Street, Suite 706, Silver Spring, Maryland 20910 for a research project entitled, "The Identification of Rehabilitation Cost Systems and Models." The purpose of this project is to identify and evaluate existing cost information systems and cost estimation models of rehabilitation services which are being used by State rehabilitation agencies. The cost of this contract is $83,429 and the intended completion date is July 12, 1976.

Dated: August 4, 1975.

WILLIAM A. MARILL,
*Assistant Secretary for Planning and Evaluation.*

### Food and Drug Administration

[Docket No. 75N-0140]

### CURRENT GOOD MANUFACTURING PRACTICE FOR MEDICAL DEVICES

#### Notice of Availability of Draft Regulations

The Food and Drug Administration has, since December 1973, been involved in the development of regulations concerning good manufacturing practices (GMP's) for medical devices. As a result of this effort, a preliminary draft of device GMP's has been prepared for inclusion in Subchapter H of Title 21 of the Code of Federal Regulations. Because such regulations are of broad interest and concern, the Commissioner has concluded that it is in the interest of the public, the industry, and the agency to make them available in draft form for comment and review before publishing a proposal in the FEDERAL REGISTER on device GMP regulations. Accordingly, this draft document is on display in the office of the Hearing Clerk, Rm. 4-65, Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20852, and may be seen during working hours, Monday through Friday. In addition, copies will be supplied to all interested parties as long as the supply lasts.

An enormous variety of medical devices are available to the general public and health professions; manufacturing processes for such devices vary significantly. The Food and Drug Administration has therefore developed a GMP format that will include requirements applicable to all device manufacturers and, at the same time, permit the flexibility necessary to reflect differences among products. The draft document on display is an "umbrella" GMP regulation that provides only minimum standards to be used as the starting point for the manufacture of all medical devices.

Further refinements of the umbrella GMP regulation will be grouped under two general headings: One, GMP's for specific products or classes, e.g., pacemakers, eyeglasses, etc., will contain standards that will apply only to either generic products or individual classes of products. The second, GMP's for specific characteristics or processes, e.g., plastics, electrical properties, etc., will contain standards for certain cross-product or cross-class characteristics or processes.

Since the umbrella GMP document is currently being reviewed within the Food and Drug Administration, the draft does not represent the final agency position on this matter. Parts of this document are recognized to be incomplete and many of the terms and concepts used require clarification. The Commissioner is particularly interested in comments from the public on such terms or concepts as:

1. Critical component.
2. Critical operation.
3. Small firm.
4. Mass-produced product.
5. Limited production product.
6. Reserve sampling concepts.
7. Component and material assurance concepts.
8. Reprocessing procedures.
9. Packaging and containers procedures and concepts.
10. Returned and reworked goods procedures.

The Commissioner is also interested in obtaining comments and information on specific products, classes, characteristics, or processes that are of concern to any interested party. In addition to general comments and recommendations, respondents are encouraged to suggest the text for provisions of a proposed regulation. Provisions recommended for inclusion should be submitted in the exact wording proposed for the regulation and supported by reasons and background data sufficient to establish a scientific, technical, and public health basis for the recommendation.

Interested parties are invited to participate in the final development of good manufacturing practice regulations for medical devices by submitting data, views, or comments concerning the subject matter of the draft on display, as well as suggestions for additional items for inclusion therein.

Communications concerning the draft GMP document, as well as requests for copies, should be forwarded in writing to Thomas E. Hubbard, Bureau of Medical Devices and Diagnostic Products, 5600 Fishers Lane, HFK-100, Rockville, Maryland 20852. Comments should be submitted no later than October 7, 1975.

Dated: August 5, 1975.

SAM D. FINE,
*Associate Commissioner for Compliance.*

[FR Doc.75-20859 Filed 8-7-75;8:45 am]

### Food and Drug Administration

[Docket No. 75N-0127]

### PFIZER, INC.

#### Phenothiazine Drench With Lead Arsenate; Withdrawal of Approval of New Animal Drug Application

The Commissioner of Food and Drugs is withdrawing an approved new animal drug application for phenothiazine drench with lead arsenate, effective August 8, 1975.

Under the Federal Food, Drug, and Cosmetic Act (sec. 512(e), 82 Stat. 345-347 (21 U.S.C. 360b(e))) and under authority delegated to the Commissioner (21 CFR § 2.120), the following notice is issued:

Pfizer, Inc., 235 East 42nd St., New York, NY 10017, holder of approved new animal drug application (NADA No. 6-211V) for phenothiazine drench with lead arsenate, has requested by letter dated May 21, 1975, that approval of the NADA be withdrawn and has waived the opportunity for a hearing. The NADA, which was approved May 23, 1947, provides for use of the drug to eliminate certain worm infestations in sheep and goats.

Based on a reevaluation of the NADA by the Food and Drug Administration, the firm was requested to submit information about manufacturing and controls used, revised labeling, and data to establish the absence of residues of the drug in the edible tissues of food-producing animals or the safety for human consumption of any such residues that may be present. In lieu of submitting the requested information and because these drug products are no longer made or distributed, the firm has requested withdrawal of approval of the NADA and has waived its opportunity for a hearing.

Therefore, under § 514.115 *Withdrawal of approval of applications* (21 CFR § 514.115) (formerly § 135.28 prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13802)), notice is given that approval of NADA No. 6-211V and all supplements and amendments thereto for phenothiazine drench with lead arsenate is hereby withdrawn, effective August 8, 1975.

Dated: August 4, 1975.

SAM D. FINE,
*Associate Commissioner for Compliance.*

### HEALTH RESOURCES ADMINISTRATION

#### Meetings

In accordance with section 10(a)(2) of the Federal Advisory Committee Act (Public Law 92-463), announcement is made of the following National Advisory bodies scheduled to assemble during the month of September 1975:

Name: Health Services Developmental Grants Study Section.

Date and time: September 8, 1975, 8:00 p.m.

Place: Maryland Room, Holiday Inn of Bethesda, 8120 Wisconsin Avenue, Bethesda, Maryland.

Date and time: September 9–10, 1975, 8:30 a.m.

Place: Conference Room F, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland.

Open on September 8, 1975.

Closed for remainder of meeting.

Purpose: The Study Section is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The Study Section, during the open session on September 8, will review the Administrative Report, Minutes, establish future meeting dates and discuss other related general matters. The Study Section will be closed to the public on September 9 and 10 for the review of research grant applications for Federal assistance, and will not be open to the public in accordance with the provisions set forth in section 552(b)(4), (5), and (6), Title 5, U.S. Code and the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463.

Anyone wishing to obtain a roster or other relevant information should contact Mr. David McFall, Parklawn Building, Room 15-29, 5600 Fishers Lane, Rockville, Maryland, Telephone (301) 443-2930.

Name: Health Services Research Study Section.

Date and time: September 17–19, 1975, 9:00 a.m.

Place: Conference Room F, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland.

Open on September 17, 9:00 a.m.–10:00 a.m.

Closed remainder of meeting.

Purpose: The Study Section is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The open session of the meeting on September 17 will be devoted to a business meeting covering administrative matters and reports. During the closed session, the Study Section will be reviewing research grant applications for Federal assistance, and will not be open to the public in accordance with the provisions set forth in section 552(b)(4), (5), and (6), Title 5, U.S. Code and the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463.

Anyone wishing to obtain a roster or other relevant information should contact Mr. Michael Enright, Parklawn Building, Room 15-19, 5600 Fishers Lane, Rockville, Maryland, Telephone (301) 443-2920.

Name: Nursing Research and Education Advisory Committee.

Date and time: September 18–19, 1975, 9:00 a.m.

Place: Conference Room B108, Federal Building, 7550 Wisconsin Avenue, Bethesda, Maryland.

Open on September 18, 9:00 a.m.–10:00 a.m.

Closed remainder of meeting.

Purpose: The Committee is charged with the initial review of all research grant applications in all areas of nursing education and practice, including studies of extended professional roles, model curricula, clinical investigations, historical research, and institutional research development and with surveying the status of research in nursing education and practice.

Agenda: During the open portion of the meeting, agenda items include administrative and staff reports. During the closed session, the Committee will be reviewing research grant applications for Federal assistance, and will not be open to the public, in accordance with the provisions set forth in section 552(b)(4), (5), and (6), U.S. Code and the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463.

Anyone wishing to obtain a roster or other relevant information should contact Dr. Doris Bloch, Room 6A-14, Federal Building, 9000 Rockville Pike, Bethesda, Maryland, Telephone (301) 496-6955.

Name: Health Care Technology Study Section.

Date and time: September 22–23, 1975, 9:00 a.m.

Place: Conference Room G, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland.

Open on September 22, 9:00 a.m.–10:00 a.m.

Closed remainder of meeting.

Purpose: The Study Section is charged with the initial review of grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research.

Agenda: The open session of the meeting on September 22 will be devoted to a business meeting covering administrative matters and reports. During the closed session, the Study Section will be reviewing research grant applications for Federal assistance, and will not be open to the public in accordance with the provisions set forth in section 552(b)(4), (5), and (6), Title 5 U.S. Code and the Determination by the Administrator, Health Resources Administration, pursuant to Public Law 92-463.

Anyone wishing to obtain a roster or other relevant information should contact Mr. Jonathan Bromberg, Parklawn Building, Room 15-19, 5600 Fishers Lane, Rockville, Maryland, Telephone (301) 443-2920.

Dated: July 30, 1975.

JAMES A. WALSH,
*Associate Administrator for Operations and Management.*

## DEPARTMENT OF TRANSPORTATION

### National Highway Traffic Safety Administration

### HIGHWAY SAFETY PROGRAM

### Amendment of Qualified Products List of Evidential Breath Measurement Devices

**● The purpose of this notice is to amend the Qualified Products List, issued November 21, 1974 (39 FR 41399), of devices which have been found to qualify under the Standard for Devices to Measure Breath Alcohol and which therefore may be purchased with Federal funds under the Highway Safety Act, Pub. L. 89–564, 80 Stat. 731, 23 U.S.C. 402, 403. ●**

In accordance with the Breath Measurement Standard, semi-annual testing of devices was conducted during February and March 1975. At this testing two devices not on the initial list, the Alco-Analyzer Model 1000 and the Gas Chromatograph Intoximeter Mark IV, met all performance requirements, excluding those for Mobile Evidential Breath Testers. To reflect this, the Qualified Products List has been amended and is now constituted as follows:

The qualified products meeting all performance requirements, including those for Mobile Evidential Breath Testers, are as follows, listed alphabetically by manufacturer:

*Device and Manufacturer*

1. Alco-limiter—Energetics Science, Inc., New York, New York.
2. Mark II Gas Chromatograph—Intoximeters, Inc., St. Louis, Missouri.
3. Intoxilyzer Model 4011—Omicron Systems Corp., Palo Alto, California.
4. Breathalyzer Models 900A, 1000—Smith & Wesson Electronics Co., Eatontown, New Jersey.
5. Roadside Breath Tester—U.S. Dept. of Transportation, Washington, D.C.

The qualified products meeting all performance requirements, excluding those for Mobile Evidential Breath Testers, are as follows, listed alphabetically by manufacturer:

*Device and Manufacturer*

1. Alco-Analyzer Model 1000—Luckey Laboratories, Inc., San Bernadino, California.
2. Alco-Tester Model 500—Decatur Electronics, Decatur, Illinois.
3. Gas Chromatograph Intoximeter Mark IV—Intoximeters, Inc., St. Louis, Missouri.
4. Photo-Electronics Intoximeter—Intoximeters, Inc., St. Louis, Missouri.

(23 U.S.C. 402, 403)

Issued on August 5, 1975.

FRED W. VETTER, JR.,
*Associate Administrator,*
*Traffic Safety Programs.*

[FR Doc.75-20592 Filed 8-7-75;8:45 am]

## ACTION

### NATIONAL VOLUNTARY SERVICE ADVISORY COUNCIL

### Notice of Meeting

In accordance with Section 10(a)(2) of the Federal Advisory Committee Act (Pub. L. 92–463), announcement is made of the following Council meeting:

Name: National Voluntary Service Advisory Council.
Date: September 11 and 12, 1975.
Place: ACTION, 806 Connecticut Avenue, NW., Washington, D.C. Room 522.
Time: 9 a.m.

Purpose of the meeting: to discuss the work of each of the Council's committees and to continue preparations for the Annual Report of the Advisory Council.

Meeting of the Advisory Council is open to the public. Public attendance depending on available space, may be limited to those persons who have notified the Advisory Council Executive Officer in writing at least five days prior to the meeting, of their intention to attend the meeting.

Any member of the public may file a written statement with the Council before, during or after the meeting. To the extent that time permits, the Council Executive Officer may allow public presentation of oral statements at the meeting.

All communications regarding this Advisory Council should be addressed to Ms. Elizabeth Allemang, Advisory Council Executive Officer, 806 Connecticut Avenue, NW., Washington, D.C. 20525.

ELIZABETH L. ALLEMANG,
*Staff Assistant,*
*Office of the Director.*

## CIVIL AERONAUTICS BOARD

[Docket 27813; Agreement C.A.B. 25282; Order 75-8-11]

### INTERNATIONAL AIR TRANSPORT ASSOCIATION

### Currency Agreement

AUGUST 5, 1975.

Issued under delegated authority.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the Traffic Conferences of the International Air Transport Association (IATA). The agreement was adopted by mail vote for effectiveness September 1, 1975.

The agreement would amend the language of existing Resolution 021LL—Special Rules for Currency Adjustments (Cargo Rates)—by amending the references to specific existing currency-related surcharge or discount resolutions, to make such changes applicable to all currency resolutions.

Pursuant to authority duly delegated by the Board in the Board's Regulations, 14 CFR 385.14, it is not found that Resolutions 100(Mail 979)021LL, 200(Mail 252)021LL and 300(Mail 450)021LL, incorporated in Agreement C.A.B. 25282, are adverse to the public interest or in violation of the Act.

*Accordingly, it is ordered*, That:

Agreement C.A.B. 25282 be and hereby is approved.

Persons entitled to petition the Board for review of this order, pursuant to the Board's Regulations, 14 CFR 385.50, may file such petitions within ten days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] EDWIN Z. HOLLAND,
*Secretary.*

[FR Doc.75-20569 Filed 8-7-75;8:45 am]

## COMMITTEE FOR PURCHASE FROM THE BLIND AND OTHER SEVERELY HANDICAPPED

### PROCUREMENT LIST 1975

### Proposed Additions

Notice is hereby given pursuant to Section 2(a)(2) of Public Law 92–28; 85 Stat. 79, of the proposed addition of the following commodities and service to Procurement List 1975, November 12, 1974 (39 F.R. 39964).

CLASS 6532

Dress, Operating, Surgical:

6532–00–149–0464
6532–00–149–0465
6532–00–149–0466
6532–00–149–0467
6532–00–149–0472
6532–00–149–0473

CLASS 7220

Mat, Floor:

7220–00–205–3192
7220–00–205–3182

CLASS 7240

Garbage Can Holders:

7240–00–082–6174
7240–00–082–6626

INDUSTRIAL CLASS 7641

Repair of Metal Furniture, Seattle, Washington plus 30-mile radius.
Repair of Metal Furniture, Tacoma-Auburn, Washington plus 30-mile radius including McChord Air Force Base and Fort Lewis.

Comments and views regarding these proposed additions may be filed wth the Committee not later than 30 days after the date of this FEDERAL REGISTER. Communications should be addressed to the Executive Director, Committee for Purchase from the Blind and Other Severely Handicapped, 2009 Fourteenth Street North, Suite 610, Arlington, Virginia 22201.

This notice is automatically cancelled February 8, 1976.

By the Committee.

C. W. FLETCHER,
*Executive Director.*

[FR Doc.75-20549 Filed 8-7-75;8:45 am]

### Addition to Procurement List

Notice of proposed addition to Procurement List 1975, November 12, 1974 (39 FR 39964) was published in the FEDERAL REGISTER on April 11, 1975 (40 FR 16357).

Pursuant to the above notice the following service is added to the Procurement List:

INDUSTRIAL CLASS 7699

| | |
|---|---|
| Repair and maintenance of electric and manual typewriters for following locations: | *List of prices available from GSA, PRD, region 5* |
| U.S. Federal Office Bldg., Milwaukee, Wisc. (JO) | |
| U.S. Customs, Milwaukee, Wisc. (JO) | $-------- |
| U.S. Post Office, Milwaukee, Wisc. (JO) | -------- |
| | -------- |

By the Committee.

C. W. FLETCHER,
*Executive Director.*

[FR Doc.75-20550 Filed 8-7-75;8:45 am]

## COUNCIL ON ENVIRONMENTAL QUALITY

### ENVIRONMENTAL IMPACT STATEMENTS

### Availability

Environmental impact statements received by the Council on Environmental Quality from July 28, 1975 through August 1, 1975. The date of receipt for each statement is noted in the statement summary. Under Council Guidelines the *minimum* period for public review and comment on draft environmental impact statements in forty-five (45) days from this FEDERAL REGISTER notice of availability. (September 22, 1975) The thirty (30) day period for each final statement begins on the day the statement is made available to the Council and to commenting parties.

Copies of individual statements are available for review from the originating agency. Back copies will also be available at cost from the Environmental Law Institute, 1346 Connecticut Avenue, Washington, D.C. 20036.

DEPARTMENT OF AGRICULTURE

Contact: Dr. Fowden G. Maxwell, Coordinator of Environmental Quality Activities, Office of the Secretary, U.S. Department of Agriculture, Room 359–A, Washington, D.C. 20250, 202–447–3965.

ANIMAL AND PLANT HEALTH INSPEC. SERVICE

*Draft*

Trial Boll Weevil Eradication Program, Virginia, North Carolina, and South Carolina, July 29: The proposed action is to conduct a 3-year trial-boll weevil eradication program on aproximately 500,000 acres of cotton in Virginia, North Carolina, and South Carolina to determine if the technical and operational requirements for eradication can be executed successfully in a large scale operational program. The population suppression technology that will be utilized in the trial program involves the integration of chemical, biological, and cultural control measures in a precisely timed program. The statement indicated no excessive or irreversible impact on the environment. (ELR Order No. 51118.)

FOREST SERVICE

*Draft*

Petty Mountain Unit, Lolo National Forest, Missoula County, Mont., July 28: The proposed action is the implementation of a revised Multiple Use Plan for the 73,248 acre Petty Mountain Planning Unit of Lolo National Forest. The primary environmental effects involve the modification of natural conditions on 20,581 acres that are presently roadless or essentially roadless. (ELR Order No. 51114.)

*Final*

Landmark Planning Unit, Boise National Forest, Valley County, Idaho, July 28: The statement concerns the land use plan for Landmark Planning Unit, Boise National Forest. The unit's 155,830 acres will be divided into management areas for protection use, and development. Recreation opportunities will receive minor modification, with dispersed opportunities restricted somewhat and opportunities at developed sites enhanced. Comments made by: DOC, DOI, EPA, HUD, AHP, and State and local agencies and concerned citizens. (ELR Order No. 51100.)

Beaver Creek Unit, Daniel Boone National Forest, McCreary and Pulaski Counties, Ky., July 28: Proposed is a 10 year management plan for the 16,474 acre Beaver Creek Unit of the Daniel Boone National Forest. The Unit would be managed for water, wildlife, recreation, and timber resources; 500 acres would be designated as wilderness. Timber management will result in disturbance to soil, water, and veretative cover. Comment made by: TVA, USDA, DOI, EPA, and State and local agencies and individuals. (ELR Order No. 51116.)

Timber Plan, Bighorn National Forest, several counties, Wyo., July 30: The statement refers to a proposed timber plan for the Bighorn National Forest. Over the next ten year period, 68,300 acres (28 percent of the suitable and available forest land) will be subject to various timber management activities. The expected annual yield is 54.2 cunits, including 21.9 million board feet of saw timber. There will be impacts to soil, air, water, and visual qualities from timber cutting and the requisite road construction. Comments made by: EPA, DOI, and State agencies and individuals (ELR Order No. 51123.)

DEPARTMENT OF DEFENSE

ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attention: DAEN–PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, D.C. 20314, 202–693–6661.

*Draft*

Tennessee River and Tributaries, Maintenance, July 29: Proposed is the continued dredging of maintenance dredge sites, the disposal of approximately 53,000 cubic yards of dredged materials, and the continued main-stem navigation channel and navigable tributaries of the Tennessee River and tributaries. Dredge materials will be disposed of at sites on islands, on nearby shoreline areas, and in waters near the navigation channel. Adverse impacts include the removal of portions of the river substrate, the destruction of the biota at dredged materials disposal sites. (Nashville District.) (ELR Order No. 51121.)

San Francisco Bay Area Maintenance Dredging, Calif., July 31: The composite statement concerns the maintenance dredging to authorized depths of 20 projects in the San Francisco Bay Area. Dredged material from at least 15 projects are disposed of at five designated aquatic sites. For the other five projects land disposal is contemplated. Adverse effects will result from benthic disruption of dredging and dredge disposal. (ELR Order No. 51127.)

Cumberland River O & M, Tennessee and Kentucky, July 28: Proposed is the continued dredging of 18 maintenance dredge sites, the disposal of approximately 60,000 cubic yards of dredged materials, and the continued snag removal and disposal within 381.0 miles of the authorized mainstem navigation channel and navigable tributaries. Hydropower, recreation, dam and spillway, locks, navigation aids, and flow regulation are included in the operations and maintenance considerations. Dredging and dredge disposal will disrupt the natural habitat of the river. (ELR Order No. 51108.)

*Final*

Tampa Harbor Project (2), Fla., July 28: The statement concerns the blasting and dredging of 7,000 acres in the Tampa Bay area. The proposed disposal plan would place all material from both construction and maintenance in open water in areas of Tampa Bay and the Gulf of Mexico and on a beach area on Mullet Key. Blasting of several million cubic yards of hard rock in various sections of the ship channel will kill fish and living organisms in the immediate vicinity, and subsequent dredging will disturb the benthic habitat. (Jacksonville District.) Comments made by: USDA, DOC, USCG, EPA, DOI and State and local agencies and concerned citizens. (ELR Order No. 51104.)

Laurel River Lake, Ky., July 28: The statement refers to the proposed construction of a dam which will form Laurel River Lake. Also included in the project are a spillway, powerhouse, and development of outdoor recreational facilities. Primary project purposes are recreation and production of hydroelectric power. Adverse impacts are the inundation of 6,060 acres of land, reduction of wildlife habitat and timber production and relocation of 13 family units, and temporary negative effects on air and water quality. Comments made by: USDA, DOI, FPC, TVA, EPA, HEW, OEO, USCG, and DOT. (ELR Order No. 51111.)

Clarence Cannon Dam and Reservoir, Salt River, several counties, Mo., July 30: The project concerns the completion of the Clarence Cannon Dam and reservoir on the Salt River to provide flood control, hydroelectric power, water supply, fish and wildlife conservation, recreation and incidental navigation. As of July 1, 1974, the construction was 28% completed. Adverse effects include: the inundation of 18,600 acres of wildlife habitat and 73 to 101 archeological sites; destruction of an historical site; and displacement of 74 families. (St. Louis District.) Comments made by: EPA, DOI, USDA, DOT, USCG, HEW, FPC, AHP, State and local agencies. (ELR Order No. 51125.)

Union Lake, Bourbense River, Mo., Franklin County, Mo., August 1: Proposed is the construction of a dam on the Bourbeuse River at river mile 32.5. The purposes of the project are recreation, flood control, water quality, water supply, fish and wildlife, navigation, and area development. The lake will have a normal pool of 6,600 acres, and a maximum flood control pool of 12,900 acres. Adverse impact will include the loss of terrestrial wildlife habitat and the relocation of 100 families. (St. Louis District.) Comments made by: USDA, EPA, FPC, HUD, DOI, AHP, DOC, State and local agencies, and individuals. (ELR Order No. 51137.)

Mud Creek Local Protection Project, Okla., July 30: The statement refers to the construction of the Mud Creek Local Protection Project, Idabel, Oklahoma. The project

involves the widening and straightening of 8,950 ft. of channel, removal of 10 bridges, and replacement of modification of 6 additional bridges. Adverse impacts include the acquisition of 16.4 acres of land, displacement of 14 houses, disturbance to flora and fauna, and increased dust and noise pollution due to construction. (Tulsa District.) Comments made by: DOI, EPA, USDA, DOT, HUD, and AHP. (ELR Order No. 51126.)

Waurika Lake Beaver Creek, Jefferson, Stephens, and Cotton Counties, Okla., August 1: The statement refers to the proposed Waurika Lake which will extend into Stephens and Cotton counties. Project purposes are flood control, water supply, water quality, water control, irrigation, recreation, and fish and wildlife. The project consists of an earthfill embankment, a reinforced concrete gate tower and conduit, an uncontrolled spillway, access roads, project buildings and water conveyance facilites. Adverse impacts are the inundation of 10,100 acres of land, relocation of 35 families, and the damage done to 7 archeological sites. (Tulsa District.) Comments made by: EPA, HUD, DOI, USDA, AHP, HEW, State and local agencies. (ELR Order No. 51135.)

Columbia River, Umatilla to the Dalles, Oregon and Washington, July 29: Proposed is the management of facilities, properties, and authorities along Columbia River from Umatilla, Oregon, to The Dalles multiple-purpose projects. Included are reservation land development, and processing of real estate entitlements and Department of the Army permits. Adverse impacts include fish losses due to delayed migration, passage through turbines and spillways, gas supersaturation, stranding, residualism and other factors, air and water pollution from aluminum production, and police and solid waste problems associated with recreation sites. (Portland District.) Comments made by: EPA, USDA, DOI, HUD, DOT, FPC, and State agencies. (ELR Order No. 51122.)

Little Dell Lake Project, Utah, July 28: The statement refers to the proposed Little Dell Lake Project, which will be a 275 foot high dam across Dell Creek. The dam will impound 30,000 acre-feet of water. The project will include diversion structures, and will necessitate the relocation of Highway 65. Project purposes include flood control, municipal and industrial water supply, recreation, and fish and wildlife measures. The project will inundate 340 acres of land and will require an additional 849 acres (in fee or easement) for project measures; much of this land is wildlife habitat. A 1.5 mile section of the Mormon and Pony Express Trail, and the site of the Little Dell Pony Express Station will be inundated. Comments made by: EPA, DOI, USDA, HUD, and State agencies. (ELR Order No. 51113.)

NAVY

Contact: Mr. Peter M. McDavitt, Special Assistant to the Assistant, Secretary of the Navy (Installations and Logistics), Washington, D.C. 20350, 202-692-3227.

*Final*

Ammunition Facility Naval Air Station, North Island, Calif., July 28: The statement refers to the establishment of new ordnance storage, and handling facilities at North Island, San Diego Naval Station. Construction includes a berthing tee shaped pier. The facility will also include earth-covered ordnance storage magazines, utilities, roads, parking and security fencing. There will be adverse impact to marine and bottom life caused by dredging. Comments made by: AHP, USCG, DOC, DOI, EPA, and State agencies. (ELR Order No. 51105.)

Notice is hereby given of a time extension for submission of comments on the Draft Supplement to the Final Environmental Statement for the Locks and Dam No. 26 (Replacement) project, on the Mississippi River near Alton, Illinois. Comments were previously requested by 5 August 1975, however, due to requests from various organizations the date has been extended to 10 September 1975. This extension, which provides for a review time 37 days in excess of the minimum prescribed time of 45 days, is granted in recognition of the complexity of the Supplemental Environmental Statement. The draft supplement will be undergoing a concurrent review at the Washington level but will not be finalized until all comments that have been submitted within the extended review period have been received. After receipt of comments by 10 September 1975, the environmental statement will be finalized and transmitted through normal channels to the Council on Environmental Quality.

A public meeting was held on 21 July 1975 as scheduled. There have been requests to hold an additional public meeting. These requests are under active consideration and all parties will be given sufficient notice if it is considered in the public interest to have another meeting.

All comments should be sent, as early as practical within the time frame established, to:

Thornwald R. Peterson, Colonel, CE, District Engineer, 210 North 12th Street, St. Louis, Mo. 63101

ENERGY RESEARCH AND DEVELOPMENT ADMINISTRATION

Contact: Mr. W. Herbert Pennington, Office of Assistant Administrator, E-201, ERDA, Washington, D.C. 20545, 301-973-4241.

*Draft*

U.S. Nuclear Power Export Activities, August 1: The statement concerns US activities related to the export of commercial nuclear steam supply systems and nuclear fuel for commercial use in foreign power reactors. The statement addresses the environmental, social, technological, economic, national security, and foreign policy benefits and costs of US nuclear power export activities. Impacts are assessed through the year 2000 and include those of mining and plant operations. (Two volumes.) (ELR Order No. 51138.)

*Final*

Takomak Fusion Test Reactor Facilities, Middlesex County, N.J., July 30: The statement concerns the design and construction of the Takomak Fusion Test Reactor (TFTR) fusion device, the TFTR Experimental Facility which houses this new Takomak system and the support facilities required to implement the TFTR experiment program. The proposed location is on the Forrestal Campus of Princeton University where a similar controlled nuclear fusion studies are being performed. Adverse impacts include release of trace quantities of radioactivity, limited icing or fogging from cooling towers and construction disruption. Comments made by: FPC, USDA, EPA, NRC, NSF, DOI, State agencies and individuals. (ELR Order No. 51124.)

FEDERAL POWER COMMISSION

Contact: Dr. Richard F. Hill, Acting Advisor on Environmental Quality, 441 G Street NW., Washington, D.C. 20426, 202-386-6084.

*Draft*

Mississippi River Transmission Corporation, August 1: The statement describes the projected curtailment of natural gas supply for the Mississippi River Transmission Corporation. Adverse effects include decreased air quality due to increased use of other fossil fuels and economic consequences of the deficiency of natural gas. (ELR Order No. 51139.)

Panhandle Eastern Pipeline Co., August 1: The statement analyzes three permanent natural gas curtailment plans for the Panhandle Eastern Pipeline System. Adverse effects include those occurring from increased use of coal and fuel oil and increased pollution in the form of sulfur dioxide and particulates. (ELR Order No. 51140.)

Calcasieu LNG Project, Calcasieu County, La., July 31: The statement concerns an application from Trunkline LNG Company seeking authorization to import liquefied natural gas from Algeria to a terminal to be constructed about 12 miles southwest of Lake Charles in Calcasieu Parish, Louisiana. Trunkline Gas Company has also filed a certificate application to construct and operate approximately 45.8 miles of 30-inch diameter pipeline and a metering station. The project would require the clearing of approximately 475 acres of land and the alteration of some of the physiographic features of the existing environment. (ELR Order No. 51132.)

*Final*

Exxon Pipeline, Docket CP74-35, Calif., July 28: Proposed is the granting of a certificate of public convenience and necessity for the construction of a pipeline, onshore gas treatment facilities, and related facilities for the transportation of natural gas from Exxon's production platform in the Santa Ynez Unit, Santa Barbara Channel Area to proposed treatment facilities in Las Flores Canyon. According to the statement, environmental impact would occur with respect to "effects on man, wildlife, vegetation, beach areas, soil, water quality, air quality, and noise levels." Comments made by: ERDA, COE, USCG, DOI, HEW, USDA, DOC, AHP, and EPA. (ELR Order No. 51102.)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Andrew E. Kauders, Executive Director of Environmental Affairs, General Services Administration, 18th and F Streets NW., Washington, D.C. 20405, 202-343-4161.

*Draft*

Santa Fe Leased Parking Facility, Santa Fe County, N. Mex., July 28: The proposed action consists of leasing space in Santa Fe, New Mexico, to provide parking for Federal, visitor, and employee-owned vehicles. The lease, which will most likely result in new construction, will consist of 200 square feet of parking area for 250 vehicles. Construction disruption will result. (ELR Order No. 51101.)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Office of Environmental Quality, Room 7258, 451 7th Street SW., Washington, D.C. 20410, 202-755-6308.

*Draft*

Westbury Subdivision, Hoffman Estates, Illinois, Cook County, Ill., July 29: The statement concerns FHA Mortgage Insurance for 306 single family units. The project is the first stage of a development that is planned for 4472 units on 496.9 acres. The project is in the northern limits of Hoffman Estates. Adverse impacts include increased traffic in the area and depletion of ground water resources. (ELR Order No. 51120.)

Eagle Valley Farms, Mortgage Insurance, Marion County, Ind., July 28: The statement concerns the application for Mortgage Insurance for a single family subdivision on 470 acres of land in Indianapolis, Indiana. The proposed development is adjacent to Interstate I-74 and 1465 and U.S. 136. The project will result in a slight decline in farmland. (ELR Order No. 51110.)

Eastwick Urban Renewal, Philadelphia, Philadelphia County, Pa., July 31: The statement concerns a project for urban renewal of 2,508 acres in Southwest Philadelphia. Principle impacts on the environment have been the elimination of the marshy, low lying area; adverse impacts have already occurred on Darby Creek and the Tinicum Marsh. The area will be susceptible to flooding and to noise and air pollution from various transportation modes. (ELR Order No. 51129.)

Park Forest North, Plano, Tex., Collin County, Tex., July 28: The proposal concerns an application by Fox & Jacobs, Inc. for Federal mortgage insurance on a predominantly residential development of 1064 homes with acreage allocated for apartments, small commercial enterprises, parks, schools, and office buildings. When completed, it would comprise the northern extension of an existing subdivision making a total contiguous development by this builder of approximately 1500 acres. The eis covers only the final section of 450 acres. The proposed development would create greater demand for fossilfuels through heavy dependence on the automobile for transportation to jobs and take good agricultural land out of production. (ELR Order No. 51117.)

The following are Community Development Block Grant statements prepared and circulated directly by applicant pursuant to section 104(h) of the 1974 Housing and Community Development Act. Copies may be obtained from the office of the appropriate local chief executive. (Copies are not available from HUD.)

SECTION 104(h)

*Draft*

Burke-Gilman Trail, Seattle, King County, Wash., July 28: The statement concerns the development of a 7.2 mile segment of the former Burlington-Northern right-of-way into a hike and bike trail. Phase I of the construction will be from N.E. 47th Street to about N.E. 65th Street. Phase II will complete development to the City Limits. Adverse impacts include temporary increases in peak-noise frequencies and congestion of city streets from trail users arriving by car. Litter in the area will increase. (ELR Order No. 51103.)

DEPARTMENT OF INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202-343-3891.

BUREAU OF LAND MANAGEMENT

*Draft*

Alaska Natural Gas Transportation System, July 28: The statement concerns the granting of right-of-way permit for an underground natural gas pipeline through Federal lands. The 6,280-mile pipeline will cross all or portions of Alaska; Yukon Territory, Northwest Territories, British Columbia, Alberta, and Saskatchewan (Canada); and 15 states in the lower U.S. Impacts are assessed on each area individually. The statement contains seven parts and seventeen volumes. (ELR Order No. 51106.)

Kaiparowits Power Project, Utah: Three participating companies propose to construct and operate a 3,000 MW, coal-fired electricity generating station and related facilities on Kaiparowits Plateau in southern Utah. Twelve million tons of raw coal would be taken annually from four underground mines. A 500 kv transmission aystem and supporting communication aystem would span almost 1,460 miles in four states. The generating plant, mine, and all support facilities (including new town, new highway, limestone quarry, and access roads) would occupy 6,040 acres. The plant would emit 34 tons of sulfur dioxide, 12 tons of particulates, and 250 tons of nitrogen oxide per day. (ELR Order No. 51099.)

*Final*

Sigurd to Cedar City Power Transmission Line, several counties, Utah, July 31: Proposed is the construction of a 230 KV transmission line from Utah Power and Light Company's Sigurd substation to Cedar City, Utah. Four alternative corridors, each over 100 miles long, are considered. Adverse impacts include electronic interference, right-of-way clearing, wildlife disturbance, weed infestations, and increased fire hazards. (161 pages.) Comments made by: DOI and Utah State Clearinghouse. (ELR Order No. 51128.)

BUREAU OF OUTDOOR RECREATION

*Draft*

Missouri River, National Wild and Scenic Rivers System, Mont., July 31: Proposed is the inclusion of a 128-mile segment of the Missouri River and 147,800 acres of adjacent land in the National Wild and Scenic Rivers System. The segment would be classified as follows: 72 miles wild, 39 miles scenic, and 17 miles recreational under the administration of the Bureau of Land Management and Fish and Wildlife Service. Commercial and residential development would be prohibited. (ELR Order No. 51134.)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

*Draft*

National Fish and Wildlife Health Research Laboratory, Jefferson County, W. Va., July 28: Proposed is the construction and operation of a National Fish and Wildlife Health Research Laboratory at Leetown, West Virginia, to develop methods of identification and control of fish and wildlife diseases. Adverse effects include alteration of the site, loss of open space, and the possibility of the escape of non-native fishes or disease organisms into local waters. (ELR Order No. 51112.)

NATIONAL PARK SERVICE

*Final*

Proposed Dinosaur National Monument Wilderness, Colorado and Utah, July 28: Proposed is the legislative designation of 45,100 acres of the Dinosaur National Monument as wilderness. An additional 130,300 acres would be designated as "Potential Wilderness Addition." The action would result in the restriction of motorized river runs, and of backcountry visitor use; the preclusion of motor vehicle access; and the restriction of certain types of research projects. Comments made by: USDA, COE, DOC, DOI, DOT, EPA, FPC, and State agencies. (ELR Order No. 51115.)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Affairs, 400 7th Street SW., Washington, D.C. 20590, 202-426-4357.

FEDERAL HIGHWAY ADMINISTRATION

*Draft*

McLean Boulevard, Wichita, Sedgwick County, Kans., July 28: Proposed is the construction of an extension of McLean Boulevard from MacArthur Road to 29th Street in Wichita, Kansas. The facility will be four lanes with signals, channelization, and auxiliary lanes where required. One residence would be displaced in the land acquisition for right-of-way. (ELR Order No. 51107.)

I-670, Kansas City (supplement), Wyandotte County, Kans., July 28: The proposed project includes a new multilane highway extending from I-70 to the Missouri-Kansas State line. The supplement contains an air quality analysis for the project. (ELR Order No. 51109.)

U.S. 6 and 34, and Junction with Nebraska 23, Phelps County, Nebr., August 1: The proposed roadway improvement consists of the upgrading and reconstruction of a 2.4 mile segment of Highway U.S. 6 and 34 and the revision of the junction of this highway and Nebraska Highway N-23. The project includes pavement removal, grading, construction of shoulders, constructing drainage structures, surfacing, and construction of curbs, medians, sidewalks, driveways, a storm sewer, and lighting systems. Adverse impacts include the acquisition of approximately 8 acres of land, the relocation of four businesses, increased noise and air pollution, and construction disruption. (ELR Order No. 51136.)

U.S. Highway 62 and State Highway 82, Cherokee County, Okla., July 29: Proposed is the improvement of U.S. 62 and S.H. 82 from their junction south of Tahlequah, Oklahoma, north to approximately 0.5 miles north of Allen Road, a distance of 6.1 miles. The amount of land needed for right-of-way and the number of residential displacements depends upon the alternative chosen. (ELR Order No. 51119.)

*Final*

U.S. 30, Columbus, Nebr., Platte County, Nebr., July 31: The proposed project is the improvements of U.S. 30 for 0.9 mile. The improvement includes widening the existing viaduct over the Union Pacific Railroad tracks. Two service stations and 3 houses will be displaced. An increase in noise levels will occur. Comments made by: DOT, COE, EPA, USDA, DOI, and State agencies. (ELR Order No. 51130.)

State Road 283, N. Mex., San Miguel County, N. Mex., July 31: Proposed is a project for improvement of two-lane SR 283 from 1.1 miles west of I-025 to Mineral Hill, a distance of approximately 11 miles. It will probably entice more visitors to the area, thereby producing problems of litter control, some degradation of natural vegetation and reduction in wild life population. Comments made by: EPA, USDA and State agencies. (ELR Order No. 51131.)

GARY L. WIDMAN,
*General Counsel.*

## ENVIRONMENTAL PROTECTION AGENCY

[PP5G1600/T6; (FRL 413-8)]

### NOTICE OF ESTABLISHMENT OF TEMPORARY TOLERANCE

### Norflurazon

Sandoz, Inc., PO Box 1489, Homestead FL 33030, submitted a pesticide petition (PP 5G1600) to the Environmental Protection Agency (EPA). This petition requested that a temporary tolerance be established for residues of the herbicide norflurazon [4-chloro-5(methylamino)-2-($\alpha,\alpha,\alpha$-trifluoro-m-tolyl) - 3(2*H*)-pyridazinone] and its desmethyl metabolite 4-chloro-5-(amino - 2 - ($\alpha,\alpha,\alpha$-trifluoro-*m*-tolyl-3(2*H*)-pyridazinone in or on apricots, nectarines, peaches, plums, prunes, almonds, almond hulls, and walnuts at 0.1 part per million.

This temporary tolerance would permit the marketing of the above commodities treated in accordance with an experimental use permit which is being issued concurrently under the Federal Insecticide, Fungicide, and Rodenticide Act.

The data submitted in the petition and other relevant material have been evalu-

ated. It has been determined that the tolerance is adequate to cover residues resulting from proposed experimental use and that such tolerance will protect the public health. Therefore, the temporary tolerance is established as requested for the herbicide for distribution under the Sandoz, Inc., name with the following provisions:

1. The total amount of the active herbicide to be used must not exceed the quantity authorized by the experimental use permit.

2. Sandoz, Inc., must notify the EPA of any findings from the experimental use that have a bearing on safety. The firm must also keep records of production, distribution, and performance and on request make the records available to any authorized officer or employee of the EPA or the Food and Drug Administration.

The temporary tolerance expires on August 1, 1976. Residues remaining in or on the above raw agricultural commodities after expiration of the tolerance will not be considered actionable if the pesticide is legally applied during the term and in accordance with the provisions of the experimental use permit and temporary tolerance. The temporary tolerance may be revoked if the experimental use permit is revoked or if any scientific data or experience with this pesticide indicate such revocation is necessary to protect the public health.

(Sec. 408(j), Federal Food, Drug, and Cosmetic Act (21 U.S.C. 346a(j)))

Dated: August 1, 1975.

LOWELL E. MILLER,
*Acting Deputy Assistant Administrator for Pesticide Programs.*

## GEORGIA

### Approval of State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides

Section 4(a)(2) of the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended (86 Stat. 973; 7 U.S.C. 136), and the implementing regulations of 40 CFR Part 171 require each State desiring to certify applicators to submit a plan for its certification programs. Any State certification program under this section shall be maintained in accordance with the State plan approved under this section.

On June 25, 1975, notice was published in the FEDERAL REGISTER (40 FR 26690) of the intent of the Regional Administrator, EPA Region IV, to approve, on a contingency basis, the Georgia State Plan for Certification of Commercial and Private Applicators of Restricted Use Pesticides (Georgia State Plan). Contingency approval was requested by the State of Georgia pending enactment of legislation, which has been proposed, and promulgation of regulations pursuant to this new legislation implementing the Georgia State Plan. Complete copies of the Georgia State Plan were made available for public inspection at the Agency's Region IV Office in Atlanta, at the office of the Pesticides Division, Georgia Department of Agriculture, Atlanta, and at the Agency's Technical Services Division, Federal Register Section, Office of Pesticides Programs, EPA Headquarters, Washington, D.C.[1]

Comments were received from three pest control company officials, a national pest control association, a state industry association, a state examining and licensing agency and from one Federal Government Agency. These comments were carefully reviewed and evaluated by EPA and by the Georgia Department of Agriculture, which has been designated as the State lead agency responsible for implementing the Georgia State Plan.

The pest control representatives were largely complimentary of the Georgia State Plan but objected to the Plan's provision which states "It is currently anticipated that at the end of 4 years from initial certification, specific requirements will be imposed for recertification of both private and commercial applicators. Recertification options which are contemplated are: (a) Reexamination without formal training, and (b) a minimum of 6 hours of formalized training approved by the Lead Agency and received by the Certified Applicator within an 18 month period immediately preceding the expiration of the 5 year certification period." (Georgia State Plan, pages 28-29). Objection to this provision for recertification was based on the lack of specific requirements for recertification by EPA in its State Plan Regulations (40 CFR 171.7-10), published March 12, 1975 (40 FR 11698).

Although EPA did not spell out detailed requirements for "recertification" as such, it should be noted that § 171.8(a)(2) specifies that a State certification plan should include "provisions to ensure that certified applicators continue to meet the requirements of changing technology and to assure a continuing level of competency and ability to use pesticides safely and properly." The preamble to this section and to the proposed regulations (40 FR 11698) discussed optional approaches, including scheduled training courses, conferences, workshops, special examinations, and reexaminations that States might use to ensure that applicators are provided a continuing opportunity to learn and remain up to date in their profession. While the Agency regards this provision as an essential element in the plans, the actual method(s) are being left to the States in accordance with the Agency's policy of providing States with as much flexibility as possible. Both the Agency and the Georgia Department of Agriculture feel that the Georgia State Plan's approach for achieving this objective is reasonable and proper and no change is necessary.

One Federal Official expressed concern about the Government Agency Plan (GAP), characterizing it as a "myth" and termed Georgia's reference to GAP as "inaccurate and misleading," adding that "this is due in part to the failure of EPA to address section 4(a)(1) of amended FIFPA dealing with certification."

It is the Agency's position that section 4 of the amended FIFPA establishes a coordinated State/Federal program for certifying applicators, with section 4(a)(1) making EPA responsible for developing certification standards which States would use as the basis for developing their own certification programs (section 4(a)(2)). Section 4(a)(1) does not discuss "Federal certification" other than from the standpoint of developing national standards for certification, and it is clear that Congress expected States to assume the responsibility for carrying out certification. The Agency established the concept of GAP primarily as a means for simplifying certification for Federal employees who operate in more than one State. Since the GAP has not been fully developed and approved by EPA, States are merely asked to indicate that they will forward a statement regarding their acceptance, rejection or imposition of additional requirements on GAP-qualified Federal employees within 60 days after final approval of GAP. The Georgia State Plan followed the wording of the provision in § 171.7(e)(4)(i) exactly and, therefore, no change in this section is required.

There was a misunderstanding on the part of one commenter as to the meaning of "cooperating agency" as used in the Georgia State Plan. In the Georgia State Plan, "cooperating agency" refers to those agencies in the State which have statutory authorities making them responsible for the certification of pesticide applicators. In this context, the agency suggested for inclusion in the Georgia State Plan as a cooperating agency would not qualify and, therefore, this change could not be accommodated.

The Georgia State Plan will remain available for public inspection at the office of the Pesticides Division, Georgia Department of Agriculture, 19 Hunter Street SW. Atlanta.

It has been determined that the Georgia State Plan will satisfy the requirements of section 4(a)(2) of the amended FIFRA and of 40 CFR Part 171 if legislation described in the Plan, which is necessary for its implementation, is passed by the Georgia Legislature, and necessary implementing regulations are promulgated by the Georgia Department of Agriculture. Accordingly, the Georgia State Plan is approved contingent upon enactment of legislation and promulgation of implementing regulations in accordance with and as prescribed in the Georgia State Plan.

This contingency approval shall expire one (1) year from its effective date, if

[1] It should be pointed out that this document was inadvertently published as a proposed rule, instead of as a notice as was intended.

these terms and conditions are not satisfied by that time. On or before the expiration of the period of contingency approval, a notice shall be published in the FEDERAL REGISTER concerning the extent to which these terms and conditions have been satisfied, and the approval status of the Georgia State Plan as a result thereof.

*Effective date.* Pursuant to section 4(d) of the Administrative Procedures Act, 5 U.S.C. 553(d), the Agency finds that there is good cause for providing that the one year contingency approval granted herein to the Georgia State Plan shall be effective immediately. Neither the Georgia State Plan itself nor this Agency's contingency approval of the Plan create any direct or immediate obligations on pesticide applicators or other persons in the State of Georgia. Delays in starting the work necessary to implement the plan, such as may be occasioned by providing some later effective date for this contingency approval, are inconsistent with the public interest. Accordingly, this contingent approval shall become effective immediately.

Dated: July 29, 1975.

JACK E. ROWAN,
*Regional Administrator, Region IV.*

[FR Doc.75-20596 Filed 8-7-75;8:45 am]

[FRL 410-2]

## ENERGY RELATED AUTHORITY

### Report on Progress and Impact

Section 119(k)(2) of the Clean Air Act, as amended by the Energy Supply and Environmental Coordination Act of 1974, directs the Administrator to publish in the FEDERAL REGISTER at no less than 180 day intervals beginning January 1975, certain reports and findings on the implementation of EPA's energy related authority under section 119 of the Act. Specifically, the Administrator is directed to publish a concise summary of progress reports required to be filed by any person or source owner or operator to which the compliance date extension provisions of subsection 119(c) apply. Such reports are to include information on the status of compliance with requirements imposed by the Administrator under subsection 119(c). In addition, the Administrator is directed to publish up-to-date findings on the impact of section 119 upon applicable State Implementation Plans and upon ambient air quality. On January 27, 1975, a notice meeting the requirements of section 119(k)(2) was published in the FEDERAL REGISTER at 40 FR 4034.

As of July 1, 1975, no applications for compliance date extensions under subsection 119(c) had been received by the Administrator and no such extensions were granted. Therefore, no progress reports were required of or filed by any person or source owner or operator under subsection 119(c). In addition, no postponements under subsection 119(i) were sought or granted before July 1, 1975.

In January of 1975, temporary suspensions of applicable stationary source fuel and emissions limitations became effective for three facilities in Massachusetts. Each of these suspensions expired, as section 119(b) directs, on June 30, 1975. No other temporary suspensions were sought or granted.

The impact of the three suspensions on ambient air quality cannot be reported in detail at this time because that impact must be determined by evaluating ambient air quality monitoring data which has not yet been validated. However, the Administrator will include in his next notice under section 119(k)(2) an up-to-date finding on the air quality impact of the three suspensions.

Each of the three Massachusetts plants, as a result of the temporary suspensions, was able to burn coal rather than oil in at least one boiler. The New England Power Company's Brayton Point Station burned coal in its Units No. 1 and No. 2 or in its Unit No. 3 for most of the term of its suspension. The New England Power Company's Salem Harbor Station burned coal in its Unit No. 3 for most of the term of its suspension. The Montaup Electric Company's Somerset Station burned coal in its Unit No. 8 until June 10, 1975, when new information on emissions from the unit led to a modification of the primary standard condition in order to provide adequate protection of health related particulate matter standards.

On June 30, 1975, with the expiration of the temporary suspensions, the Massachusetts Clean Air Implementation Plan again became fully applicable to all three plants.

Dated: August 1, 1975.

*Administrator.*

## FEDERAL ENERGY ADMINISTRATION

### OLD OIL ALLOCATION PROGRAM

### Notice of Standards Proposed To Be Applied in the Evaluation of Applications for Exceptions Filed by Small Refiners

The Federal Energy Administration hereby gives notice of a proposal to modify the basic standards which it has heretofore applied in its consideration of applications by small refiners for exception relief from the provisions of 10 CFR 211.67 (the Entitlements Program).

During the past seven months, a number of small refiners which are required to purchase entitlements under the provisions of § 211.67 of the FEA Mandatory Petroleum Allocation Regulations have filed Applications for Exception with the Office of Exceptions and Appeals of the FEA, pursuant to 10 CFR 205.50 et seq., in which they have sought relief from their entitlement purchase obligations. In making a judgment as to whether exception relief should be granted in these cases and in determining the nature and extent of relief, the FEA analyzed and compared each firm's operating and financial posture prior to the implementation of the Entitlements Program with its projections as to the impact which the Entitlements Program would have on its business activities in the immediate future. This procedure was based on the determination that exception relief should be available only to alleviate or prevent serious hardships and gross inequities which *result from* the application of FEA's regulatory programs. Consequently, since the Entitlements Program could have a significant impact upon a small refiner's entire operation, it was essential to arrive at a determination of each particular firm's historic operating level and financial posture in order to assess whether the application of the Entitlements Program to the firm produced the hardship or inequity which the firm claimed had occurred and the nature and extent of relief which was appropriate to alleviate those adverse effects.

In arriving at a determination as to a small refiner's historic financial and operating posture for the purpose of assessing the effect of the Entitlements Program on the firm, a comparison was made, in most cases, of the firm's arithmetic average profit margin for the seven year period 1968 through 1974 and the firm's projected profit margin under the Entitlements Program. Where a showing was made that the projected profit margin would be lower than the historic profit margin, the FEA generally granted exception relief so as to prevent the application of the entitlement purchase requirements of the Entitlements Program from increasing the firm's costs to a level which would prevent it from operating in a manner consistent with its historic level of operations and achieving the arithmetic average profit margin which it realized during the previous seven years.

In this connection, the FEA has pointed out that small refiners belong to a limited class entitled to special protection under the Emergency Petroleum Allocation Act of 1973, as amended, and that in Section 4(b)(1) of the Act the Congress specified that to the maximum extent practicable the FEA shall provide as a priority matter for the preservation of the competitive viability of small refiners. In the cases in which exception relief was granted, the FEA found that this goal would be frustrated in the absence of exception relief. Furthermore, in those cases the FEA noted that the exceptions process is intended to provide the necessary flexibility to achieve an appropriate balance between the objectives of the Entitlements Program and other conflicting objectives specified in the Emergency Petroleum Allocation Act of 1973.

The exception relief which has been extended to small refiners on the basis of this type of analysis generally expires on August 31, 1975. However, the orders which were issued in this connection provide that any firm to which exception relief was extended may apply for an extension of the relief on or before July 31, 1975. (Any firm which has been denied exception relief may, of course, reapply for such relief.) The experience which FEA has gained during the past several months in the evaluation of exception applications relative to the En-

titlements Program indicates that consideration should be given to a possible modification of the general criteria described above prior to analyzing applications for an extension of exception relief.

During the current period of rising crude oil costs and rising prices for refined petroleum products, the exclusive use of a profit margin test which is based on sales and pre-tax income may produce anomalous results and fail to assess in as meaningful a manner as possible the firm's historic operating and financial posture and its present financial position as a result of the Entitlements Program. Consequently, the FEA proposes to base future exception relief from the Entitlements Program on an assessment of each small refiner's return on invested capital or alternatively its return on stockholders' equity, as well as the pre-tax profit margin which it has achieved in the past and projects it will realize in the immediate future.

The FEA believes that use of this additional standard is appropriate since both the return on invested capital and on stockholders' equity are commonly utilized methods of comparing the effectiveness of a firm's use of its capitalization over time and would provide an additional basis upon which the impact of the Entitlements Program on a particular firm could be measured.

It is therefore proposed that generally the following method of analysis be used:

(1) A calculation would be made of the arithmetic average profit margin which the small refiner achieved during its previous seven years of operation.

(2) A determination would be made as to the projected profit margin which the firm is likely to achieve during the period January 1 to December 31, 1975, in view of its past and projected entitlement purchase obligations and its ability to increase the prices of the products which it sells while still retaining its historic market share.

(3) A further determination would then be made of the arithmetic average of the return either on invested capital or stockholders' equity which the firm achieved during the best four of its previous seven fiscal years of operation.

Exception relief would then be extended which would reduce the adverse impact of the Entitlements Program on the firm so as to permit it to achieve the lesser of its historic profit margin or its historic return on invested capital or stockholders' equity as described above, unless the firm established that strict application of these criteria would not alleviate a serious hardship or gross inequity suffered by the firm as a result of the Entitlements Program. Thus, for example, in those instances in which extraordinary financial difficulties are still present as a result of factors such as insufficient cash flow from operations during the current year, or if there is a lack of historical operating data or other unusual circumstances, appropriate adjustments would be made in the exception relief extended.

The factor of return on invested capital referred to above would be calculated as the sum of the firm's after-tax net income and interest on long-term debt for the particular fiscal year divided by the sum of its stockholders' equity and long-term debt at the close of the particular fiscal year. Return on stockholders' equity would be calculated as the firm's after-tax net income applicable to common stock for the particular fiscal year as a percentage of the sum of its stated capital, paid-in surplus and retained earnings at the close of that year.

The FEA also proposes to consider only the petroleum refining and marketing operations of a firm in evaluating its historic and current financial posture both as to profit margin and return on invested capital or stockholders' equity. Firms which have crude oil production activities would therefore be required to eliminate those activities from their presentation of financial data. The FEA believes that this treatment is warranted in view of the fact that the purpose of the Entitlements Program is to reduce to a competitive range crude oil cost disparities among refiners and in further view of the possibility that the operating results of crude oil production activities may significantly distort the financial position of the firm when viewed as a refiner. The financial data which is presented in connection with the Application for Exception must also of course reflect comparable business entities in the historical and current periods.

In applying these standards in its consideration of requests for an extension of exception relief, the FEA proposes to analyze the relief which has already been granted to a particular firm to arrive at a determination as to whether that relief has been insufficient or excessive in order to alleviate or prevent the Entitlements Program from resulting in a serious hardship or gross inequity to the firm. If appropriate, the FEA will take steps to remedy the situation by adjusting the extent of relief and requiring a firm to purchase additional entitlements or if necessary permitting it to sell entitlements. These standards would also apply to all new requests by small refiners for exception relief from the Entitlements Program.

The FEA has mailed a copy of this notice directly to all refiners subject to the Entitlements Program.

Interested persons are invited to submit written comments and other data with respect to this proposal to Executive Communications, Federal Energy Administration, Box EA, Washington, D.C. 20461. The FEA specifically seeks comments as to whether return on invested capital or return on stockholders' equity is a more appropriate additional standard.

Comments should be identified on the outside envelope and on documents submitted to FEA Executive Communications with the designation "Proposed Small Refiner Exception Standards for Old Oil Allocation Program."

Fifteen copies should be submitted. All comments received by August 23, 1975, and all other relevant information, will be considered by the FEA.

Any information or data considered by the person furnishing it to be confidential must be so designated and submitted in writing, one copy only. The FEA reserves the right to determine the confidential status of the information or data and to treat it according to its determination.

Issued in Washington, D.C., on August 4, 1975.

ROBERT E. MONTGOMERY, Jr.,
*General Counsel.*

[FR Doc.75-20575 Filed 8-7-75;8:45 am]

## CITY OF NEW YORK, ET AL.

### Notice of Agreements Filed

Notice is hereby given that the following agreements have been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreements at the Washington office of the Federal Maritime Commission, 1100 L Street NW., Room 10126; or may inspect the agreements at the Field Offices located at New York, N.Y., New Orleans, Louisiana, San Francisco, California, and Old San Juan, Puerto Rico. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C., 20573, on or before August 18, 1975. Any person desiring a hearing on the proposed agreements shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreements (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of Agreements Filed by:

James W. Guedry, Esq., Lord, Day & Lord, 25 Broadway, New York, New York 10004.

The agreements hereby noticed (FMC Agreements Nos. T–2890–1, T–2901–1, T–2891–1/T–2903–1, T–2903–2 and T–2903–A–1) amend or modify the following basic agreements among the City of New York (City), United States Lines, Inc., (USL), American Export Lines, Inc., (AEL), Transocean Gateway Corporation (TOG), and Howland Hook Marine Terminal Corporation (Terminal). Agreement No. T–2890, between the City and USL, was originally approved by this Commission on February 20, 1974, and provides for USL's 30-year lease of portions of the Howland Hook Marine Terminal, which is located at Staten Island, New York. Agreement No. T–2891, between USL, AEL and TOG was also originally approved by this Commission on February 20, 1974, and is an occupancy permit providing for TOG's interim use of a portion of the Howland Hook Terminal leased to USL under Agreement No. T–2890, above. Agreement No. T–2901, between USL and AEL, was originally approved by this Commission on March 7, 1974, and provides for the sublease to AEL of portions of the facility leased to USL under Agreement No. T–2890, above. Agreement No. T–2903, between USL and AEL, was originally approved by this Commission on March 28, 1974, and provides for the formation of a jointly-owned terminal operating company (Terminal) to provide comprehensive terminal, stevedoring, LCL and labor services at the facility leased to USL under Agreement No. T–2890, above. Agreement No. T–2903–A, between USL, AEL and Terminal, was originally approved by this Commission on March 28, 1974, and is a terminal operating contract wherein Terminal (formed under Agreement No. T–2903, above) is designated exclusive operator of the Howland Hook Marine Terminal, and is contracted to furnish both USL and AEL with comprehensive terminal, stevedoring, LCL and labor services at the facility.

The purpose of Agreement No. T–2890–1 is to confirm the City's acquisition of five cranes for a total cost of $6,000,000, which is to be included as a part of the actual construction cost for improvements under the basic agreement. The modification also provides for the earlier commencement of rental payments under the basic agreement for these cranes and provides for the parties' agreement that USL has no obligation either to replace the cranes at the end of their useful life or make any capital improvements thereon during the basic agreement's term.

The purpose of Agreement No. T–2891–1/T–2903–1 is to eliminate the requirement contained in both basic agreements that TOG and AEL move their container stuffing and stripping operations out of the existing LCL shed at Howland Hook Terminal to a new location, subject to the requirement being reinstated upon sixty (60) days' notice.

The purpose of Agreement No. T–2901–1 is to provide for specific reference to the five cranes leased under Agreement No. T–2890 as modified by Agreement No. T–2890–1, above, and including the same under Agreement No. T–2901.

The purpose of Agreement No. T–2903–2 is to fix a definite date for the commencement of Agreement No. T–2903–A, above, and provide for Terminal's selection of some, rather than all, of the equipment listed in the Schedules to Agreement No. T–2903, above.

The purpose of Agreement No. T–2903–A–1 is to: (a) change certain provisions in the liability insurance sections of the basic agreement; (b) fix the commencement date of the basic agreement at July 28, 1975; and (c) make certain changes in the procedures for funding by and invoicing of AEL and USL in connection with Terminal's operations, including Terminal's payment of TOG's expenses in connection with furnishing surveys and making changes on four of the cranes to be sold to the City.

By Order of the Federal Maritime Commission.

Dated: August 5, 1975.

FRANCIS C. HURNEY,
*Secretary.*

[Independent Ocean Freight Forwarder License No. 303–R]

## HARRY H. BLANCO & CO., INC. AND MID-PACIFIC FREIGHT FORWARDERS

### Order of Revocation

By letter dated June 27, 1975, Harry H. Blanco & Co., Inc. d/b/a Mid-Pacific Freight Forwarders, 1601 Dove Street, Newport Beach, California 92660 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 303–R would be, automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 27, 1975.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Harry H. Blanco & Co., d/b/a Mid-Pacific Freight Forwarders has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01 (c) (dated 6/30/75);

*It is ordered,* That Independent Ocean Freight Forwarder License No. 303–R of Harry H. Blanco & Co., Inc. d/b/a Mid-Pacific Freight Forwarders be returned to the Commission for cancellation.

*It is further ordered,* That Independent Ocean Freight Forwarder License No. 303–R be and is hereby revoked effective July 27, 1975.

*It is further ordered,* That a copy of this Order be published in the FEDERAL REGISTER and served upon Harry H. Blanco & Co., Inc. d/b/a Mid-Pacific Freight Forwarders.

LEROY F. FULLER,
*Director, Bureau of Certification and Licensing.*

[Independent Ocean Freight Forwarder License No. 937–R]

## VERNON FORWARDING CO., INC.

### Order of Revocation

By letter dated June 25, 1975, Vernon Forwarding Company, Inc., 6214 Lankershim Boulevard, North Hollywood, California 91606 was advised by the Federal Maritime Commission that Independent Ocean Freight Forwarder License No. 937–R would be automatically revoked or suspended unless a valid surety bond was filed with the Commission on or before July 22, 1975.

Section 44(c), Shipping Act, 1916, provides that no independent ocean freight forwarder license shall remain in force unless a valid bond is in effect and on file with the Commission. Rule 510.9 of Federal Maritime Commission General Order 4, further provides that a license will be automatically revoked or suspended for failure of a licensee to maintain a valid bond on file.

Vernon Forwarding Company, Inc. has failed to furnish a valid surety bond.

By virtue of authority vested in me by the Federal Maritime Commission as set forth in Manual of Orders, Commission Order No. 201.1 (Revised) Section 5.01(c) (dated 6/30/75);

*It is ordered,* That Independent Ocean Freight Forwarder License No. 937–R of Vernon Forwarding Company, Inc. be returned to the Commission for cancellation.

*It is further ordered,* That Independent Ocean Freight Forwarder License No. 937–R be and is hereby revoked effective July 22, 1975.

*It is further ordered,* That a copy of this Order be published in the FEDERAL REGISTER and served upon Vernon Forwarding Company, Inc.

## FEDERAL RESERVE SYSTEM

## FIRST INTERNATIONAL BANCSHARES, INC.

### Order Approving Acquisition of Bank

First International Bancshares, Inc., Dallas, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 percent of the voting shares (less directors' qualifying shares) of the First International Bank in El Paso, El Paso, Texas ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the application and all comments received have been considered in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Texas, controls 23 banks with aggregate deposits of approximately $3.2 billion, representing 8.3 per cent of the total commercial bank deposits in the State.[1] Bank is to be located in suburban El Paso and will be competing in the El Paso banking market.[2] Of the ten commercial banks operating within this market, Applicant has one subsidiary bank, which holds 4.4 per cent of the market's total deposits and thereby ranks as the fourth largest bank in the market. Since Bank is a proposed new bank, its acquisition by Applicant would not eliminate any existing or future competition, nor would concentration of banking resources be increased in any relevant area. In addition, there is no evidence to indicate that Applicant's proposal is an attempt to preempt a site before there is a need for a bank. Therefore, the competitive considerations are consistent with approval of the application.

The financial condition and managerial resources of Applicant and its subsidiaries are considered generally satisfactory and the future prospects for each appear favorable. Bank, as a proposed new bank, has no financial or operating history, however, its future prospects as a subsidiary of Applicant appear favorable. Thus, the considerations relating to the banking factors are consistent with approval. Bank would serve as an additional source of full banking services to the residents of that community and environs. The considerations

[1] All banking data are as of June 30, 1974.
[2] The relevant geographic market is approximated by the El Paso SMSA.

relating to the convenience and needs of the community to be served lend some weight toward approval of the application. It has been determined that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above, provided that the transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after that date, and (c) First International Bank in El Paso, El Paso, Texas, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority for the Board of Governors, effective July 31, 1975.

[SEAL] THEODORE E. ALLISON,
*Secretary of the Board.*

[FR Doc.75-20552 Filed 8-7-75;8:45 am]

## NATIONAL CITY CORP.

### Order Approving Acquisition of Bank

National City Corporation, Cleveland, Ohio, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. § 1842(a)(3)) to acquire 100 per cent of the voting shares (less directors' qualifying shares) of National City Bank of Lake County, Mentor, Ohio ("Bank"), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. § 1842(c)).

Applicant, the fourth largest banking organization in Ohio, controls 2 banks with aggregate deposits of approximately $1.8 billion, representing 6 per cent of the total deposits in commercial banks in the State.[1] Since the application involves the acquisition of a proposed new bank, consummation of the proposal would not immediately increase Applicant's share of commercial bank deposits in the State.

Bank is to be located in the city of Mentor, 27 miles east of Cleveland, which area is included in the Cleveland banking market.[2] Since the proposal involves the establishment of a new bank, consummation of the subject acquisition would neither eliminate existing competition nor result in an immediate increase in the concentration of banking resources. Applicant's lead bank, the second largest banking organization in the Cleveland market, controls 16 per cent of total market deposits. Applicant competes in the market with 37 banking organizations, the largest of which holds deposits of approximately $2.5 billion. Applicant's closest subsidiary banking office is located 11.4 miles west of Bank's proposed site. The projected location of Bank is in the Lake County area of the market which is expected to continue to experience rapid growth, and it appears that Applicant's proposed *de novo* expansion would not deter *de novo* entries by other organizations into the area. Accordingly, on the basis of the facts of record, the Board concludes that consummation of the proposal would not have any adverse effect on existing or potential competition in any relevant area.

The financial and managerial resources and prospects of Applicant and its subsidiary banks are regarded as generally satisfactory. Bank, as a proposed new bank, has no financial or operating history; however, its prospects as a subsidiary of Applicant appear favorable. Considerations relating to the banking factors are thus consistent with approval of the application. Considerations relating to the convenience and needs of the community to be served lend some weight toward approval of the application. The addition of a new bank in this rapidly growing area of Lake County would provide a convenient alternative source of banking to the area residents. It is the Board's judgment that consummation of the proposal would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, and (c) National City Bank of Lake County, Mentor, Ohio, shall be opened for business not later than six months after the effective date of this Order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Cleveland pursuant to delegated authority.

By order of the Board of Governors,[3] effective August 1, 1975.

[SEAL] GRIFFITH L. GARWOOD,
*Assistant Secretary of the Board.*

[FR Doc.75-20555 Filed 8-7-75;8:45 am]

[1] All deposit data are as of December 31, 1974, and market data are as of June 30, 1973.

[2] The Cleveland banking market includes all of Lake, Cuyahoga, and Geauga Counties, as well as portions of Portage, Summit, Medina, and Lorain Counties.

[3] Voting for this action: Chairman Burns and Governors Bucher, Wallich, and Coldwell. Absent and not voting: Governors Mitchell, Holland, and Jackson.

## NATIONAL DETROIT CORP.

### Order Approving Acquisition of Atlantic Mortgage Company, Inc.

National Detroit Corporation, Detroit, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act (12 U.S.C. § 1843(c)(8)) and § 225.4(b)(2) of the Board's Regulation Y (12 CFR 225.4(b)(2)) to acquire, through its wholly-owned subsidiary, NBD Mortgage Company, Birmingham, Michigan, certain of the assets of Atlantic Mortgage Company, Inc. ("Company"), Alexandria, Virginia, a company that engages in the activities of mortgage banking, including making, acquiring, and servicing, for its own account and for the account of others, mortgage loans and other extensions of credit in connection with the purchase, development, and improvement of real property. Such activities have been determined by the Board to be closely related to banking (12 CFR § 225.4(a)(1)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (40 FR 24959-24960 (1975)). The time for filing comments and views has expired, and the Board has considered all comments received in the light of the public interest factors set forth in section 4(c)(8) of the Act (12 U.S.C. 1843(c)).

Applicant, the largest banking organization in Michigan controls three banks with aggregate deposits of $5 billion, representing 18 per cent of the total deposits in commercial banks in the State.[1] In addition to engaging in international activities conducted by foreign subsidiaries of Applicant's lead bank, Applicant also owns a non-banking subsidiary, NBD Mortgage Company, in Birmingham, which would acquire the mortgage assets of Atlantic.

Company (total assets of $3.9 million) engages primarily in originating, acquiring, and servicing real estate loans for its own account and for the account of others. Company's loan originations are derived principally from the Washington, D.C. Standard Metropolitan Statistical Area, the relevant market. Its sole office is located in Alexandria, Virginia, a suburb of Washington. Company's dollar volume of mortgages originating in this market in 1974 was approximately $22.2 million, representing about one per cent of the total mortgage originations in the market during that period. As of February 28, 1975, Company serviced a loan portfolio of approximately $32 million for investors located in New York, New Jersey, Pennsylvania, Maryland, Washington, D.C., Florida, and Missouri.[2]

[1] All banking data are as of December 31, 1974.

[2] Company services only one investor account from Missouri.

NBD Mortgage Company was organized as a wholly-owned subsidiary of Applicant in 1973 and commenced operations in March, 1974. NBD Mortgage's principal business activities are to make loans (for sale in the secondary market), secured by first mortgages on real estate, to service such loans, and to make secured construction loans for projects generally with third party mortgage financing. As of December 31, 1974, NBD Mortgage held total assets of approximately one million dollars and it now services a loan portfolio of $22 million, not including loans serviced for Applicant's largest banking subsidiary.

Applicant neither originates nor services mortgage loans originated in Company's relevant market area. With the exception of two commercial loans totaling $8 million and two loans totaling a little more than $6 million to Detroit-based mortgage bankers having branches in the Washington, D.C. area, neither Applicant nor any of its subsidiaries is engaged in any other activity in the Washington, D.C. area. Therefore, no existing competition would be eliminated as a result of consummation of this proposal. The Detroit and Washington, D.C. markets are more than 600 miles apart. Due to this distance, and other factors, it does not appear likely that either Applicant or Company would enter the other's market in the absence of the present transaction. Thus, consummation of this proposal would not appear to eliminate the development of potential competition between Applicant and Company.

Applicant's acquisition of Company would enhance the latter's access to greater financial, managerial, and other resources. At present, Company's competitive ability and service to the public are seriously impaired by its lack of cash resources. There is no evidence in the record indicating that acquisition of Company would result in any undue concentration of resources, unfair competition, conflicts of interests, or unsound banking practices.

Based upon the foregoing and other considerations reflected in the record, the Board has determined, in accordance with the provisions of section 4(c)(8), that consummation of this proposal can reasonably be expected to produce benefits to the public that outweigh possible adverse effects. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in section 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

The transaction shall be consummated not later than three months after the effective date of this Order, unless such period is extended for good cause by the Board or by the Federal Reserve Bank of Chicago, pursuant to authority hereby delegated.

By order of the Board of Governors,[3] effective August 1, 1975.

[SEAL] GRIFFITH L. GARWOOD,
*Assistant Secretary of the Board.*

[FR Doc.75-20556 Filed 8-7-75;8:45 am]

## NATIONAL DETROIT CORP.

### Order Approving Acquisition of Bank

National Detroit Corporation, Detroit, Michigan, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire 80 per cent or more of the voting shares (less directors' qualifying shares) of Bank of Commerce of Lansing, Lansing, Michigan.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with § 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the application and all comments received in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the largest banking organization in Michigan, controls three banks with aggregate deposits of approximately $5.0 billion, representing about 18 per cent of the total deposits in commercial banks in the State.[1] Acquisition of Bank would increase Applicant's share of State deposits only slightly and would not significantly affect the concentration of banking resources in Michigan.

Bank holds deposits of $14.5 million, representing approximately 1.4 percent of the total deposits in commercial banks in the Lansing banking market, and thereby ranks as the eleventh largest of 15 banking organizations located in that market.[2] The closest banking office of any of Applicant's present subsidiaries is in Novi, Michigan, approximately 65 miles from Bank. While Applicant's lead bank derives a small amount of its deposits and loans from Bank's service area, Applicant's two other banking subsidiaries derive no significant deposits or loans therefrom. Thus, it appears from the record that no meaningful competition presently exists between any of Applicant's banking subsidiaries and Bank; nor does it appear likely that any significant competition would develop between them in view of the distances involved and Michigan's restrictive branching laws. Although Applicant could enter the market *de novo*, such entry appears unlikely. Moreover, in view of Bank's relatively small size, such a foothold entry by Applicant should have a salutory effect on competition by enabling Bank to compete more effectively in the market. Therefore, the Board concludes that consummation of the proposal would not have a significantly adverse effect on competition in any relevant area, and that competitive considerations are consistent with approval of the application.

The financial and managerial resources of Applicant, its subsidiaries and Bank are considered generally satisfactory and the future prospects for each appear favorable. Therefore, considerations relating to the banking factors are consistent with approval of the application. Applicant proposes to consolidate and improve Bank's payroll processing and personnel training procedures. In addition, Applicant will offer two new customer-oriented programs consisting of a minimum balance checking account with an accompanying line of credit and a package of services involving deposits and consumer loans. Therefore, the considerations relating to the convenience and needs of the communities to be served are consistent with approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[3] effective August 1, 1975.

[SEAL] GRIFFITH L. GARWOOD,
*Assistant Secretary of the Board.*

## TEXAS COMMERCE BANCSHARES, INC.

### Order Approving Acquisition of Banks

Texas Commerce Bancshares, Inc., Houston, Texas, a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under § 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)), to acquire 100 per cent of the voting shares (less directors' qualifying shares) of the successors by merger to Casa Linda National Bank of Dallas ("Casa Linda Bank"); Fidelity

[1] Voting for this action: Chairman Burns and Governors Bucher, Wallich and Coldwell. Absent and not voting: Governors Mitchell, Holland and Jackson.

[1] All banking data are as of December 31, 1974, and reflect bank holding company formations and acquisitions approved through July 1, 1975.

[2] The Lansing banking market is approximated by Ingham, Eaton, and Clinton Counties, plus the southeastern portion of Ionia County, including the town of Portland.

[3] Voting for this action: Chairman Burns and Governors Bucher, Wallich, and Coldwell. Absent and not voting: Governors Mitchell, Holland, and Jackson.

Bank, National Association ("Fidelity Bank"); Northwest National Bank of Dallas ("Northwest Bank"); Royal National Bank of Dallas ("Royal Bank"); and The Village Bank (National Association) ("Village Bank"), all located in Dallas Texas (collectively referred to as "Banks"). The banks into which each of Banks are to be respectively merged have no significance except as means to facilitate acquisitions of the voting shares of Banks. Accordingly, the proposed acquisition of the success or organizations is treated herein as proposed acquisition of Banks.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has bc n given in accordance with §3(b) of the Act. The time for filing comments and views has expired, and the applications and all comments received have been considered in light of the factors set forth in § 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant, the third largest banking organization in Texas, controls 24 banks with aggregate deposits of approximately $2.5 billion, representing 6.3 per cent of total deposits in commercial banks in the State.[1] Acquisition of Banks (aggregate deposits of $45.1 million) would increase Applicant's share of commercial bank deposits in Texas by less than 0.2 of one per cent, and would have no appreciable effect upon the concentration of banking resources in Texas.

Casa Linda Bank, the 68th largest of the 105 banking organizations in the Dallas banking market,[2] holds deposits of about $11.1 million, or 0.1 of one per cent of total market deposits. Fidelity Bank is the 94th largest banking organization in the market and holds approximately $3 million in deposits, representing less than 0.1 of one per cent of market deposits. Northwest Bank is the market's 48th largest banking organization and holds about $18 million in deposits, which represents 0.2 of one per cent of total market deposits. Royal Bank, the 76th largest banking organization in the market, holds deposits of approximately $8.4 million, representing less than 0.1 per cent of total market deposits. Village Bank is the 85th largest banking organization in the market and holds approximately $4.9 million in deposits, or less than 0.1 of one per cent of total market deposits. Applicant, the sixth largest banking organization in the Dallas market, controls two suburban banks which are located near Dallas and which hold aggregate deposits of approximately $152.4 million, representing 1.9 per cent of total deposits in commercial banks in the market. The subsidiary bank of Applicant closest to one of Banks is separated by a distance of more than eight miles. Each of Banks is relatively small and retail-oriented and serves a predominantly residential area. The resultant highly localized nature of Banks' respective service areas severely limits effective competition among the five banks. In view of the distances involved, the limited service areas of each of Banks and the number of intervening banks, there does not appear to be any meaningful competition existing between Applicant's present subsidiaries and any of Banks. These same factors of distances and intervening banks, as well as Texas' prohibitive branching laws, appear to foreclose the development of significant competition in the future. Accordingly, on the basis of the record, it is concluded that consummation of the proposed acquisitions would not have significant adverse effects on existing or potential competition in the relevant banking market.

Considerations relating to the financial and managerial resources and future prospects of Applicant, its subsidiaries, and Banks are regarded as generally satisfactory and consistent with approval, particularly in view of Applicant's projected addition of $240,000 to the equity capital structure of each one of Banks through retention of the capital of the respective interim banks. Affiliation with Applicant should enable Banks to expand and improve the banking services offered to their customers. In particular, Applicant proposes to expand banking hours, reduce minimum deposits on certain types of savings accounts, and expand the range of trust services. Accordingly, these considerations relating to the convenience and needs of the residents of the communities to be served lend weight toward approval of the proposal. It has been determined that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transactions shall not be made (a) before the thirtieth calendar day following the effective date of this Order or (b) later than three months after the effective date of this Order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Dallas pursuant to delegated authority.

By order of the Secretary of the Board, acting pursuant to delegated authority for the Board of Governors, effective July 31, 1975.

[SEAL] THEODORE E. ALLISON,
*Secretary of the Board.*

[FR Doc.75-20553 Filed 8-7-75;8:45 am]

[1] All banking data are as of June 30, 1974, and reflect holding company formations and acquisitions approved through June 15, 1975.

[2] The Dallas banking market, the relevant geographic market for purposes of analyzing the competitive effects of the subject proposals, is approximated by the Dallas RMA.

## NATIONAL SCIENCE FOUNDATION

### AD HOC ADVISORY GROUP ON SCIENCE PROGRAMS (AGOSP)

#### Workshop

A five-day workshop will be conducted by the AGOSP at Keystone Lodge, Keystone, Colorado, on August 25-29, 1975.

The AGOSP was established to provide the President's Science Adviser (Director, National Science Foundation) with an independent source of advice concerning selected basic and applied science programs. The AGOSP functions in accordance with the Federal Advisory Committee Act, Pub. L. 92-463.

The workshop will be devoted to reviewing the draft final report of the NASA internal planning study, "Outlook for Space". Particular attention will be given to methodology for assessing the relative significance of space science and applications objectives as a contribution to national objectives.

Specifically, the agenda will include the following items to be discussed during the one-week workshop:

1. Review draft final report of NASA Study and develop detailed critique.
2. Identify what the AGOSP believes would be principal elements of a long-term strategy for space science.
3. Assess general approach taken by the NASA Study as it relates to planning future space activities.
4. Consider what the prospects are for future international cooperation in space.
5. Give special consideration to basic science as it relates to national priorities.

This workshop will not be open to the public. The determination to close the workshop was made by the Director of the National Science Foundation dated July 22, 1975, on the basis that the discussion and review of the above agenda items are concerned with inter-agency and intra-agency memoranda which is listed in exemption 5 of Section 552(b), Title 5 U.S.C.

For further information about the workshop or the AGOSP, please contact Mr. William C. Bartley, Executive Director, AGOSP, Science and Technology Policy Office, Rm. 602, National Science Foundation, Washington, D.C. 20550, telephone 202-632-6871.

GAIL A. MCHENRY,
*Acting Committee Management Officer.*

AUGUST 4, 1975.

## NUCLEAR REGULATORY COMMISSION

[Docket Nos. 50-3; 50-247; 50-286]

### CONSOLIDATED EDISON CO. OF NEW YORK, INC. (INDIAN POINT STATION UNIT NOS. 1, 2, & 3)

#### Notice of a Public Hearing on Seismic Issues, and Order in Connection Therewith

By memorandum and order dated August 4, 1975, the Nuclear Regulatory Commission granted the petition of the New York State Atomic Energy Council (Council) for a public hearing to determine whether the geological and seismological analyses which have been carried out for Units 1, 2, and 3 of the Indian Point Nuclear Generating Station fulfill the Commission's regulatory requirements and, if not, what regulatory action is needed to bring the Indian Point units into compliance with those requirements. The Commission further provided that related issues which had been independently raised by Citizens Committee for Protection of the Environment (CCPE) could also be considered at the hearing.

In authorizing the public hearing, the Commission designated the Appeal Board currently established for the Indian Point 3 operating-license proceeding to conduct this seismic proceeding. That Board is comprised of the following members: John B. Farmakides, Chairman; Dr. John H. Buck; and Dr. Lawrence R. Quarles.

The Commission's August 4, 1975 memorandum and order, and other documents related to this matter, are available and may be inspected at the Hendrick Hudson Free Library, 31 Albany Post Road, Montrose, New York; and at the Commission's Public Document Room, 1717 H Street NW., Washington, D.C. 20555.

Consonant with the Commission's action, the Council and CCPE, as well as Consolidated Edison Company of New York, Inc. and the Nuclear Regulatory Commission staff are hereby admitted as parties to this seismic proceeding. Other parties to the Indian Point 3 operating-license proceeding who wish to participate in the seismic proceeding should notify this Board by Friday, August 29, 1975. Any other person whose interest may be affected by this proceeding may file a petition for leave to intervene in accordance with the requirements of 10 CFR 2.714, provided that such petition is filed not later than Friday, August 29, 1975. Petitions for leave to intervene must be filed under oath or affirmation and shall set forth the interest of the petitioner in the proceeding, how that interest may be affected by the results of the proceeding, and the petitioner's contentions. A petition must be accompanied by a supporting affidavit which sets forth with particularity the facts on which petitioner relies as to both his or her interest and contentions. Petitions setting forth contentions relating only to matters outside the scope of the Commission's August 4, 1975 memorandum and order will be denied. A petition for leave to intervene which is not timely filed will not be entertained absent a determination by the Board that the petitioner, in addition to the matters specified in 10 CFR 2.714(d), has made a substantial showing of good cause for failure to file on time. The reasons for the tardiness in filing a petition, as well as the factors specified in 10 CFR 2.714(a)(1)-(4), shall be considered in making a determination whether there has been a substantial showing of good cause by the petitioner.

Any person who wishes to make an oral or written statement in this proceeding setting forth his position on the issues herein involved, but who does not wish to file a petition for leave to intervene, may request permission to make a limited appearance pursuant to the provisions of 10 CFR 2.715 of the Commission's Rules of Practice. Persons desiring to make such a limited appearance are requested so to advise this Board not later than Friday, August 29, 1975. A person permitted to make a limited appearance does not become a party, but may state his position and raise questions which he would like to have answered to the extent they are relevant to the matter at hand. A member of the public does not have the right to participate unless he has been granted the right to intervene as a party, or the right of limited appearance.

The Commission's August 4, 1975, memorandum and order specifically authorized the Indian Point 3 Appeal Board to frame the issues to be heard in this seismic proceeding. The Commission also directed it to convene the hearing with expedition. Accordingly, notice is hereby given that a prehearing conference is contemplated for September 25, 1975, at a time and place to be hereafter announced. At this conference, the Board will consider, inter alia, any new intervention petitions and responses thereto, the framing of issues, and other procedural matters.

Papers required to be filed in this proceeding may be filed by mail or telegram addressed to the Secretary of the Commission, United States Nuclear Regulatory Commission, Washington, D.C. 20555, Attention: Docketing & Service Section, or may be filed by delivery to the Commission's Public Document Room, 1717 H Street, N.W., Washington, D.C. 20555. Copies of papers filed in this proceeding should also be sent to members of the designated Appeal Board; and to the Chief Hearing Counsel, Office of the Executive Legal Director, U.S. Nuclear Regulatory Commission, Washington, D.C. 20555.

Pending further order of the Appeal Board, parties are required to file, pursuant to the provisions of 10 CFR 2.708, an original and twenty (20) conformed copies of each such paper with the Commission.

It is so ordered.

Dated at Bethesda, Maryland this 5th day of August 1975.

For the Atomic Safety and Licensing Appeal Board.

MARGARET E. DU FLO,
*Secretary to the Appeal Board.*

NOTE: This action was taken, in the absence of a quorum, by the Panel Chairman under the authority of 10 CFR 2.787(b)(2). Dr. Buck and Dr. Quarles wish to note their concurrence in the terms of the foregoing notice and order.

## PRESIDENTIAL CLEMENCY BOARD

### MEETINGS

JULY 31, 1975.

Notice is given hereby, pursuant to the provisions of the Federal Advisory Committee Act of 1972, that meetings of the Presidential Clemency Board will be held September 2-6, 8-13, 15-16, 1975. During the course of these meetings, the Presidential Clemency Board will meet both as a whole and in panels of no less than three members each. All meetings begin at 9:00 a.m., at 2033 M Street, N.W., Washington, D.C.

These meetings will not be open to the public since the Board will discuss matters related solely to its internal personnel and practices under 5 U.S.C. 522-(b)(2), and it will examine personnel and similar files, disclosure of which would constitute an unwarranted invasion of privacy under (b)(6) of the same section.

CHARLES E. GOODELL,
*Chairman.*

## SECURITIES AND EXCHANGE COMMISSION

[Rel. No. 19103; (70-5707)]

### NEW ENGLAND POWER CO.

#### Proposed Issuance and Sale of Cumulative Preferred Stock at Competitive Bidding

JULY 31, 1975.

Notice is hereby given that New England Power Company, 20 Turnpike Road, Westborough, Massachusetts 01581, ("NEPCO"), an electric utility subsidiary company of New England Electric System ("NEES"), a registered holding company, has filed an application-declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 ("Act"), designating Sections 6(a), 7, 9(a), 10 and 12 of the Act and Rules 42 and 50 promulgated thereunder as applicable to the proposed transaction. All interested persons are referred to the application-declaration, as amended, which is summarized below, for a complete statement of the proposed transaction.

NEPCO proposes to issue and sell $25,000,000 aggregate par value of cumulative preferred stock in the form of either 250,000 shares of a new series of its Dividend Series Preferred Stock (par value $100) to be designated Cumulative Preferred Stock, $100 par value, --% Series, or 1,000,000 shares of an initial series of its Preferred Stock-Cumulative (par value $25) to be designated Cumulative Preferred Stock, $25 par value, --% Series. The dividend rate (which shall be a multiple of .04 of 1% if NEPCO issues its $100 par value preferred stock and .16 of 1% if it issues its $25 par value preferred stock) and the price to be paid to NEPCO (which shall be not less than par nor more than 102.75% of par) will be determined by competitive bidding. If the dividend rate specified exceeds 12.32% per annum, further orders of state commissions having jurisdiction will be necessary. Prior to September 1, 1980, none of the shares of the preferred stock may be redeemed if such redemption is for the purpose of refunding such share, directly or indirectly, through the incurring of debt or the issuance of stock ranking equally with or prior to the preferred stock at an interest or dividend cost less than the total effective dividend cost to NEPCO of the preferred stock. The preferred stock may include a sinking fund which would retire 5% of the initial issue annually. NEPCO shall notify prospective bidders no later than 12 Noon on the second full business day prior to the time designated for the submission of bids (1) which series NEPCO will be issuing and (2) whether there will be a sinking fund and the terms of any such sinking fund.

The proceeds from the sale of the preferred stock will be applied to the reduction of outstanding short-term promissory notes of NEPCO issued to pay for capitalizable expenditures or to reimburse the treasury thereof.

The fees and expenses to be paid by NEPCO in connection with the proposed issue and sale of preferred stock are estimated at $95,000, including service fees, at cost, of New England Power Service Company, a wholly-owned subsidiary company of NEES, of $40,000. The fees of counsel for the underwriters, to be paid by the successful bidders, will be supplied by amendment. It is stated that the Massachusetts Department of Public Utilities, the New Hampshire Public Utilities Commission, the Vermont Public Service Board, and the Connecticut Public Utilities Commission have jurisdiction over the proposed issue and sale of the preferred stock, and that no other state commission and no federal commission, other than this Commission, has jurisdiction over the proposed transaction.

NOTICE IS FURTHER GIVEN that any interested person may, not later than August 26, 1975, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (air mail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the General Rules and Regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20 (a) and 100 thereof or take such other actions as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive any notices and orders issued in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

[File No. 500-1]

### ROYAL PROPERTIES INC.

#### Suspension of Trading

JULY 31, 1975.

It appearing to the Securities and Exchange Commission that the summary suspension of trading in the common stock of Royal Properties Incorporated being traded otherwise than on a national securities exchange is required in the public interest and for the protection of investors;

THEREFORE, pursuant to Section 12(k) of the Securities Exchange Act of 1934, trading in such securities otherwise than on a national securities exchange is suspended, for the period from August 1, 1975 through August 10, 1975.

By the Commission.

[SEAL] GEORGE A. FITZSIMMONS,
*Secretary.*

[FR Doc.75-20547 Filed 8-7-75;8:45 am]

## SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Loan Area #1160: Amdt. No. 1]

### MINNESOTA

#### Declaration of Disaster Area

In addition to previously declared counties of Beltrami, Clay, Itasca, Kittson, Marshall, Norman, Pennington, Polk, Roseau and Wilkin (40 FR 32182), Chisago, Winona and adjacent counties within the State of Minnesota constitute a disaster area because of damage resulting from severe storms, tornadoes and flooding beginning about June 28, 1975. Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on September 22, 1975, and for economic injury until the close of business on April 22, 1976, at:

Small Business Administration, District Office, Plymouth Building, Room 530, 12 South Sixth Street, Minneapolis, Minnesota 55402, or other locally announced locations.

The last sentence of Declaration of Disaster Loan Area #1160 is also hereby revised to read as follows: "Eligible persons, firms and organizations may file applications for loans for physical damage until the close of business on September 22, 1975, . . ."

Dated: July 25, 1975.

[Proposal No. 08/08-0035]

### CAPITAL LIMITED V.H.J., INC.

#### Application for a License as a Small Business Investment Company

Notice is hereby given of the filing of an application with the Small Business Administration (SBA) pursuant to Section 107.102 of the Regulations (13 CFR 107.102 (1975)) by Capital Limited V.H.J., Inc., 3610 South State Street, Salt Lake City, Utah 84115, for a license to operate as a small business investment company under the provisions of the Small Business Investment Act of 1958 (The Act), as amended (15 U.S.C. 661 *et seq.*).

The proposed officers, directors, and shareholders are:

David Clare Spackman, 1664 S. 1200 E., Salt Lake City, Utah 84105, president, general manager and director.
Frank Jan Page, 222 Elizabeth St., Salt Lake City, Utah, vice-president and director.
Wendell L. Cottrell, 3856 S. 2140 E., Salt Lake City, Utah 84109, secretary-treasurer and director.
Vernon H. Johnson, 5374 Baldwin Park, Murray, Utah 84107, director and 50 percent shareholder.
Howard B. Cahoon, 3563 Canyon Way, Salt Lake City, Utah 84106, 50 percent shareholder.

The Applicant will begin operations with a capitalization of $305,000 and will

VOL 40 NO 154 AUG 8 75 XU

be a source of equity capital and long-term loan funds for qualified small concerns. In addition to financial assistance, the Applicant will provide management services to small concerns.

Matters involved in SBA's consideration of the application include the general business reputation and character of the proposed owners and management, including adequate profitability and financial soundness, in accordance with the Act and Regulations.

Notice is further given that any person may, on or before August 25, 1975, submit written comments on the proposed company to the Deputy Associate Administrator for Investment, Small Business Administration, 1441 "L" Street NW., Washington, D.C. 20416.

A copy of this notice shall be published in a newspaper of general circulation in Salt Lake City, Utah.

Dated: August 1, 1975.

## DEPARTMENT OF LABOR

### Occupational Safety and Health Administration

### WASHINGTON STATE STANDARDS

### Approval

1. *Background.* Part 1953 of Title 29, Code of Federal Regulations prescribes procedures under section 18 of the Occupational Safety and Health Act of 1970 (hereinafter called the Act) by which the Assistant Regional Director for Occupational Safety and Health (hereinafter called the Assistant Regional Director) under a delegation of authority from the Assistant Secretary of Labor for Occupational Safety and Health (hereinafter called the Assistant Secretary) (29 CFR 1953.4) will review and approve standards promulgated pursuant to a State plan which has been approved in accordance with section 18(c) of the Act and 29 CFR Part 1902. On January 26, 1973, notice was published in the Federal Register (38 FR 2421) of the approval of the Washington plan and the adoption of Subpart F to Part 1952 containing the decision.

The Washington plan provides for the adoption of State standards which are at least as effective as comparable Federal standards promulgated under section 6 of the Act. Section 1952.123 of Subpart F sets forth the State's schedule for the adoption of Federal standards. By letter dated January 31, 1975, from John E. Hillier, Supervisor, Department of Labor and Industries to James W. Lake, Assistant Regional Director, and incorporated as part of the plan, the State submitted State standards comparable to 29 CFR Part 1910 Subpart E. These standards, which are contained in Chapter 296-24 WAC of the General Safety and Health Standards, were promulgated after due notice and a public hearing held at Olympia, Washington on April 29, 1974, and adopted by the Department of Labor and Industries on April 29, 1974, pursuant to Chapter 34.04 Revised Codes of Washington and Chapter 1-12 WAC.

2. *Decision.* Having reviewed the State submission in comparison with the Federal standards it has been determined that the State standards are identical to the Federal standards and are hereby approved.

3. *Location of supplement for inspection and copying.* A copy of the standards supplement, along with the approved plan, may be inspected and copied during normal business hours at the following locations: Office of the Assistant Regional Director, Occupational Safety and Health Administration, Room 6048, Federal Office Building, 909 First Avenue, Seattle, Washington 98174; Department of Labor and Industries, General Administration Building, Olympia, Washington 98504; and Office of the Associate Assistant Secretary for Regional Programs, Room N-3112, 200 Constitution Ave. NW., Washington, D.C. 20210;

4. *Public participation.* Under 1953.2 (c) of this chapter, the Assistant Secretary may prescribe alternative procedures to expedite the review process or for other good cause which may be consistent with applicable laws. The Assistant Secretary finds that good cause exists for not publishing the supplement to the Washington State plan as proposed change and making the Assistant Regional Director's approval effective upon publication for the following reasons:

1. The standards are identical to the Federal standards and are therefore deemed to be at least as effective.

2. The standards were adopted in accordance with the procedural requirements of State law and further participation would be unnecessary.

This decision is effective August 8, 1975.

(Sec. 18, Pub. L. 91-596, 84 Stat. 1608 (29 U.S.C. 667)).

Signed at Seattle, Washington, this 18th day of June 1975.

JAMES W. LAKE,
*Assistant Regional Director.*

[FR Doc.75-20544 Filed 8-7-75;8:45 am]

### Wage and Hour Division

### FULL-TIME STUDENTS EMPLOYED IN RETAIL AND SERVICE ESTABLISHMENTS

### Certificates Authorizing Employment at Subminimum Wages

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938 (52 Stat. 1060, as amended, 29 U.S.C. 201 et seq.), the regulations on employment of full-time students (29 CFR 519), and Administrative Order 621 (36 FR 12819), the establishments listed in this notice have been issued special certificates authorizing the employment of full-time students working outside of school hours at hourly wage rates not less than 85 percent of the wage rates otherwise applicable under section 6 of the Act. This group of establishments consists of retail stores primarily engaged in the selling of clothing, shoes and related articles for personal wear and adornment.

These certificates authorize the establishments listed to employ full-time students at subminimum wage rates for percentages not to exceed 10 percent of the total hours of all employees in the establishment in any calendar month during the effective period of the certificate.

The authority provided by any of these certificates was not effective before March 21, 1975, and expires not later than June 12, 1976, but in no instance does the effective period of any one certificate exceed one year.

Each certificate has been issued upon the representations of the employer which, among other things, were that employment of full-time students at subminimum wage rates is necessary to prevent curtailment opportunities for employment and the hiring of full-time students at subminimum wage rates will not create a substantial probability of reducing the full-time employment opportunities of persons other than those employed under a certificate.

The certificate may be annulled or withdrawn, as indicated therein, in the manner provided in 29 CFR 528. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof on or before September 22, 1975.

Signed at Washington, D.C., this 4th day of August, 1975.

ARTHUR H. KORN,
*Authorized Representative of the Administrator.*

## INTERSTATE COMMERCE COMMISSION

[Notice No. 827]

### ASSIGNMENT OF HEARINGS

AUGUST 5, 1975.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested.

MC 99493 Sub 4, Central Storage & Transfer Co. of Harrisburg, now assigned September 15, 1975, at Philadelphia, Pa., will be held in Room 3240, William J. Green, Jr., Federal Bldg., 600 Arch Street.

MC 114818 Sub 17, Motor Cargo, now assigned September 15, 1975, at Carson City, Nev., will be held in Room 131, Senate Hearing Room, Legislative Bldg., 409 S. Carson Street.

MC-C-8667, Don Swart Trucking, Inc.—Investigation and Revocation of Certificates now assigned September 23, 1975, at Charleston, W. Va., will be held in Room C, Second Floor, State Capital, State Office Building.

MC-F-12490, B. F. Walker, Inv.—Control and Merger—Gregory Heavy Haulers, Inc., now being assigned September 8, 1975, at the office of the Interstate Commerce Commission, Washington, D.C.

MC 53965 Sub-100, Graves Truck Line, Inc., now assigned September 8, 1975, at Oklahoma City, Okla., will be held in Room 4310 U.S. Post Office, 200 North West 4.

MC 113495 Sub-67, Gregory Heavy Haulers, Inc., now assigned September 8, 1975 at Washington, D.C. has been postponed indefinitely.

MC 130288, Richard L. Morgan Agency, a partnership, now assigned September 15, 1975, at Topeka, Kans., will be held in Room 307 Federal Building, 5th & Kansas.

MC 107403 Sub-917, Matlack, Inc., now assigned September 18, 1975 at Columbus, Ohio is canceled and the application is dismissed.

MC 110563 Sub-148, Coldway Food Express, Inc., now being assigned September 18, 1975 (2 days), at Columbus, Ohio, in Room 235, Federal Office Bldg., 85 Marconi Blvd.

MC 112288 Sub-11, Yarbrough Transfer Co., a corporation, now assigned September 10, 1975, at Greensboro, N.C., will be held in 2nd Floor-Courthouse, U.S. Post Office Courthouse, 321 W. Market Street.

MC 140254, Appomattox Tours, Inc., dba Appomattox Tours, now assigned September 15, 1975, at Petersburg, Virginia, will be held in the Civil Service Hearing Room, Post Office, 29 Franklin Street.

[Notice No. 51]

### MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

AUGUST 7, 1975.

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to Sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's Special Rules of Practice any interested person may file a petition seeking reconsideration of the following numbered proceedings on or before August 29, 1975. Pursuant to Section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-75974. By order entered August 4, 1975, the Motor Carrier Board approved the transfer to Selby Implement Company, Inc., Selby, S. Dak., of the operating rights set forth in Permits Nos. MC 116720, MC 116720 (Sub-No. 1), MC 116720 (Sub-No. 3), and MC 116720 (Sub-No. 6), issued by the Commission January 13, 1961, November 5, 1963, October 29, 1964, and January 19, 1968, respectively, to Donald E. Miller, Lemmon, S. Dak., authorizing the transportation of malt beverages and supplies, signs, and materials used in the sale and distribution thereof, and empty malt beverage containers, from and to points in Minnesota, South Dakota, and Wisconsin. Jack R. Von Wald, Box 157, Selby, S. Dak. 57472, attorney for applicants.

[Corrected Third Rev. Exemption No. 99]

### PLAIN GONDOLAS LESS THAN 61 FEET

#### Exemption of the Mandatory Car Service Rules Ordered in Ex Parte No. 241

AUGUST 5, 1975.

*It appearing,* That the U.S. railroads own numerous plain gondolas less than 61 ft.; that under present conditions, there are substantial surpluses of these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain gondolas, resulting in unnecessary loss of utilization of such cars.

*It is ordered,* That pursuant to the authority vested in me by Car Service Rule 19, plain gondola cars described in the Official Railway Equipment Register, I.C.C. R.E.R. No. 396, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation "GA", "GB", "GD", "GH", "GS", * * * and "GW", which are less than 61 ft. 0 in. long, and which bear the reporting marks assigned to United States Railroads, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b). (See Exception and Note.)

*Exception:* This exemption shall not apply to plain gondola cars owned by the railroads named below:

Florida East Coast Railway Company, Reporting Marks: FEC.

The Kansas City Southern Railway Company, Reporting Marks: KCS-LA.

Richmond, Fredericksburg and Potomac Railroad Company, Reporting Marks: RFP.[1]

Union Pacific Railroad Company, Reporting Marks: UP.

NOTE: This exemption does not supersede United States customs regulations applicable to cars owned by Canadian or Mexican railroads.

This exemption shall not apply to cars subject to service orders issued by the Interstate Commerce Commission or to directives issued by the Association of American Railroads, restricting the use of designated cars.

Effective July 28, 1975.

Expires August 31, 1975.

Issued at Washington, D.C., July 25, 1975.

[No. 35220]

### CLAIMS ON GRAIN AND GRAIN PRODUCTS

#### Practices and Policies in the Settlement of Loss and Damage

AUGUST 5, 1975.

The Interstate Commerce Commission, Division 2, held an informal conference in this matter on July 15, 1975. During the course of that conference, several parties suggested that a further meeting between carriers and shippers, with Commission staff in attendance, would be helpful in resolving problems arising under the present rules governing the handling of loss and damage claims on bulk grain and grain products (49 CFR Part 1037).

In response to these suggestions, the Commission has scheduled such an informal conference for August 14, 1975. The conference will commence at 9:30 a.m., at the Office of the Interstate Commerce Commission, Washington, D.C.

Notice of this informal conference shall be given to the general public by depositing a copy of this notice in the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., for public inspection and by delivering a copy of the notice to the Director, Office of the Federal Register for publication therein as notice to interested persons.

ROBERT L. OSWALD,
*Secretary.*

## ENVIRONMENTAL PROTECTION AGENCY

[FRL 414-1; Docket No. 384]

### PESTICIDE PRODUCTS CONTAINING HEPTACHLOR OR CHLORDANE

#### Suspension of Registrations; Hearing

Notice is hereby given, pursuant to § 164.121(d) of the rules of practice (40 CFR 164.121(d)) issued under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended (7 U.S.C. 136 et seq., 1973 Supp.), that a hearing involving the suspension of the registrations and prohibition of the production for use of all pesticides containing heptachlor or chlordane other than those registrations exempted from the heptachlor/chlordane cancellation order will begin on August 12, 1975, at 9:30 a.m., in Rooms 3305–3307, Waterside Mall, 401 M Street SW., Washington, D.C.

For information concerning the issues involved and other details of this proceeding, interested persons are referred to the docket of this proceeding on file with the Hearing Clerk, Environmental Protection Agency, Room 1019, East Tower, Waterside Mall, 401 M Street SW., Washington, D.C., 20460.

HERBERT L. PERLMAN,
*Chief Administrative Law Judge.*

## DEPARTMENT OF COMMERCE

#### Domestic and International Business Administration

### TECHNOLOGY TRANSFER SUBCOMMITTEE OF THE COMPUTER SYSTEMS TECHNICAL ADVISORY COMMITTEE

#### Notice of Partially Closed Meeting

Pursuant to the provisions of the Federal Advisory Committee Act, 5 U.S.C. App. I (Supp. III, 1973), notice is hereby given that a meeting of the Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee will be held on Tuesday, September 9, 1975 at 1:30 p.m. in Room 5230, Main Commerce Building, 14th and Constitution Avenue NW., Washington, D.C.

The Computer Systems Technical Advisory Committee was initially established on January 3, 1973. On December

20, 1974, the Acting Assistant Secretary for Administration approved the recharter and extension of the Committee for two additional years, pursuant to Section 5(c)(1) of the Export Administration Act of 1969, as amended, 50 U.S.C. App. Sec. 2404(c)(1) (Supp. III, 1973) and the Federal Advisory Committee Act. The Technology Transfer Subcommittee of the Computer Systems Technical Advisory Committee was initially established on April 10, 1974. On July 8, 1975, the Director, Office of Export Administration, approved the reestablishment of this Subcommittee pursuant to the charter of the Committee.

The Committee advises the Office of Export Administration, Bureau of East-West Trade, with respect to questions involving technical matters, world-wide availability and actual utilization of production and technology, and licensing procedures which may affect the level of export controls applicable to computer systems, including technical data related thereto, and including those whose export is subject to multilateral (COCOM) controls. The Technology Transfer Subcommittee was formed to examine the impact of transferring Automatic Data Processing technology to communist destinations.

The Subcommittee meeting agenda has six parts:

GENERAL SESSION

(1) Opening remarks by the Subcommittee Chairman.

(2) Presentation of papers or comments by the public.

(3) Review of past Subcommittee activities.

(4) Discussion of export control of computer software.

(5) Discussion of work program and assignment of tasks for the coming year.

EXECUTIVE SESSION

(6) Discussion of matters properly classified under Executive Order 11652, dealing with the U.S. and COCOM control program and strategic criteria related thereto.

The public will be permitted to attend the General Session, at which a limited number of seats will be available to the public. To the extent time permits members of the public may present oral statements to the Subcommittee. Written statements may be submitted at any time before or after the meeting.

With respect to agenda item (6), the Assistant Secretary of Commerce for Administration, with the concurrence of the delegate of the General Counsel, formally determined on December 16, 1974, pursuant to Section 10(d) of the Federal Advisory Committee Act that the matters to be discussed in the Executive Session should be exempt from the provisions of the Act relating to open meetings and public participation therein, because the Executive Session will be concerned with matters listed in 5 U.S.C. 552(b)(1), i.e., it is specifically required by Executive Order 11652 that they be kept confidential in the interest of the national security. All materials to be reviewed and discussed by the Subcommittee during the Executive Session of the meeting have been properly classified under the Executive Order. All Subcommittee members have appropriate security clearances.

Copies of the minutes of the open portion of the meeting will be available upon written request addressed to the Freedom of Information Officer, Room 3100, Domestic and International Business Administration, U.S. Department of Commerce, Washington, D.C.

For further information, contact Mr. Charles C. Swanson, Director, Operations Division, Office of Export Administration, Domestic and International Business Administration, Room 1620, U.S. Department of Commerce, Washington, D.C. 20230, telephone: A/C 202/967–4196.

In accordance with paragraph (4) of the Order of the United States District Court for the District of Columbia in Aviation Consumer Action Project, et al., v. C. Langhorne Washburn, et al., September 10, 1974, as amended, September 23, 1974 (Civil Action No. 1838–73), the Complete Notice of Determination to close portions of the series of meetings of the Computer Systems Technical Advisory Committee and of any subcommittees thereof, was published in the FEDERAL REGISTER (40 FR 2243, appearing in the issue of January 10, 1975).

Dated: August 7, 1975.

LAWRENCE J. BRADY,
*Acting Director, Office of Export Administration, Bureau of East-West Trade, U.S. Department of Commerce.*

FRIDAY, AUGUST 8, 1975

PART II:

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Public Health Service

■

## QUALIFICATION OF HEALTH MAINTENANCE ORGANIZATIONS

Title 42—Public Health

CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 110—HEALTH MAINTENANCE ORGANIZATIONS

Subpart F—Qualification of Health Maintenance Organizations

On December 9, 1974, there was published in the FEDERAL REGISTER (39 FR 43044–47) a notice of proposed rulemaking setting out the procedures for obtaining a determination of whether an organization is a "qualified health maintenance organization" within the meaning of Title XIII of the Public Health Service Act (42 U.S.C. 300e et seq.), as added by the Health Maintenance Organization Act of 1973, Pub. L. 93–222. Interested persons were given until January 8, 1975, to submit written comments or suggestions thereon. Twenty comments were received on or before January 8, 1975, and two comments were received thereafter. All comments received were considered in revising the regulations.

Comments suggesting changes in requirements which are mandated by the statute were rejected. Comments requesting greater specificity were incorporated in the regulations wherever appropriate. In addition to changes made in response to public comment, changes intended to clarify the requirements for qualification with respect to eligible applicants and with respect to the documentation and narrative descriptions required of applicants were made.

The relevant comments received, responses thereto, and the changes in the proposed regulations are summarized below.

1. A new section, "Definitions", was added (§ 110.602). The terms "operational qualified HMO", "transitionally qualified HMO", and "pre-operational qualified HMO" have been included in the definitions section to clarify the different findings that the Secretary may make with respect to applications for qualification under this subpart.

In light of comments received in connection with the proposed regulations implementing section 1310, "Employees' Health Benefits Plans" (40 FR 6602, Feb. 12, 1975), the Department has given further consideration to the status of a transitionally qualified HMO with respect to pre-existing service contracts. Upon such reconsideration, the Department has concluded that the HMO is appropriately considered a qualified HMO with respect to both new and pre-existing contracts and has amended § 110.602(b) accordingly. This does not, of course, preclude an employer from offering a different qualified HMO to its employees nor does it relieve the employer of its obligation to include the various types of HMO's in its offer, as required by section 1310(b) of the Act.

2. Section 110.603(b)(2)(ii) has been revised to permit the phase-in of the requirement that supplemental health services payments which are fixed on a prepayment basis be fixed under a community rating system.

3. One commenter indicated that it would be unreasonable to require a transitionally qualified HMO to provide the assurances specified in § 110.603(b) as part of its application, since it would be assuring the provision of services and the revision of its organization and operation as of an unknown date—the date of the Secretary's determination that it is a transitionally qualified HMO. The commenter suggested that some lead time would be required before such services could be provided and such revision could be accomplished. This suggestion has been accepted and § 110.604(c)(2) has been revised to indicate that the assurances specified in § 110.603(b) need not be executed by the applicant until it has been notified by the Secretary that the application is otherwise approvable. Upon such notification, the applicant will indicate the date on which such assurances will be made effective and will execute the assurances. The Secretary's approval of the application will be effective on the date of such assurances.

4. A number of comments suggested that the 3-year maximum "phase-in" period (§ 110.603(b)(2)(iii)) be changed—i.e., be extended to 5 years, apply to all contracts, or be deleted altogether. The 3-year "phase-in" period was deemed reasonable and will be applied on a case-by-case basis only to existing contracts.

5. Sections 110.604(b)(1)(vii) and (xvii) have been revised to provide that applicants desiring waivers of the limitations on Medicare and Medicaid members (42 CFR 110.109(c)) or of the open enrollment requirement (42 CFR 110.108(e)) should include requests for such waivers as part of their applications for qualification.

6. A comment was received suggesting that the regulations should describe the responsibilities of designated planning agencies under section 1122 of the Social Security Act. The suggestion was rejected, since qualification procedures do not in themselves give rise to capital expenditures subject to review under section 1122. Moreover, the responsibilities of designated planning agencies under section 1122 are set forth in detail in regulations issued under such section (42 CFR Part 100, Subpart A).

7. Several comments suggested that § 110.604(d)(1) should be revised to require that information on prospective group health plan purchasers be included in the application only if such information is available to the applicant. Since this information is required only "to the extent known", this concern has been met and no revision is required.

8. In response to comments requesting clarification of procedures which are applicable following a determination by the Secretary that an applicant is not a qualified HMO, § 110.605 has been revised. Section 110.605(e) now sets forth procedures for requesting a reconsideration of such determination. Section 110.605(f) provides that applicants dissatisfied with initial or reconsidered determinations may request a fair hearing. It is anticipated that regulations governing fair hearings will be promulgated as proposed rules in the future. Pending such promulgation, applicants requesting a fair hearing will be provided a copy of applicable procedures.

9. The items included as "Application Requirements" (§ 110.604) have been reordered and, in some instances, clarified. This section now provides that an application for qualification shall be divided into two major parts: a narrative description section, and a documentation section. In addition, for ease of reference, the application elements listed are followed by references to related requirements, if any, of other subparts of this Part.

10. Several minor editorial changes were made and several typographical errors were corrected.

There is hereby established in 42 CFR Part 110, Subpart F, "Qualification of Health Maintenance Organizations", as follows:

*Effective date.* In order to permit immediate applications for qualification, which is a necessary prerequisite to the implementation of various provisions for Federal assistance under the HMO Act, this subpart shall be effective August 8, 1974, in accordance with the statement of such intention contained in the notice of proposed rulemaking (39 FR 43044).

Dated: June 19, 1975.

THEODORE COOPER,
*Assistant Secretary for Health.*

Approved: July 29, 1975.

CASPAR W. WEINBERGER,
*Secretary.*

Subpart F—Qualification of Health Maintenance Organizations

Sec.
110.601 Applicability.
110.602 Definitions.
110.603 Requirements for qualification.
110.604 Application requirements.
110.605 Evaluation and determination of qualification.

AUTHORITY: Sec. 215, 58 Stat. 690 (42 U.S.C. 216); Secs. 1301–1315, 87 Stat. 914–933 (42 U.S.C. 300e–300e–14).

Subpart F—Qualification of Health Maintenance Organizations

**§ 110.601 Applicability.**

The regulations of this subpart apply to any entity seeking a determination by the Secretary under section 1310(d) of the Act that it is a qualified health maintenance organization. (See § 110.109 of this Part concerning the requirements for a health maintenance organization with members who are entitled to insurance benefits under Title XVIII (Medicare) of the Social Security Act or to medical assistance under a State plan approved under Title XIX (Medicaid) of such Act.)

**§ 110.602 Definitions.**

In addition to the terms defined in § 110.101 of this Part, as used in this subpart:

(a) "Operational qualified health maintenance organization" means a health maintenance organization which the Secretary has determined provides basic and supplemental health services to all of its members in accordance with Subpart A of this Part and is organized and operated in accordance with Subpart A of this Part.

(b) "Transitionally qualified health maintenance organization" means an entity which operates a prepaid health care delivery system and which the Secretary has determined meets the requirements of § 110.603(b). (A transitionally qualified health maintenance organization is deemed a "qualified health maintenance organization" for the purpose of compliance by an employer which has a contract with such health maintenance organization with the requirements of section 1310(a) of the Act so long as the health maintenance organization complies with its time-phased plan approved by the Secretary under § 110.603(b)(2)(iii).)

(c) "Pre-operational qualified health maintenance organization" means an entity which the Secretary has determined will, when it becomes operational as a prepaid health care delivery system, be an operational qualified health maintenance organization.

**§ 110.603 Requirements for qualification.**

Upon the basis of an application submitted in accordance with this subpart and such additional information and investigation (including site visits) as the Secretary may require:

(a) The Secretary will determine that an entity is an operational qualified maintenance organization, if he finds that the entity meets the requirements of Subpart A of this Part.

(b) The Secretary may determine that an entity is a transitionally qualified health maintenance organization if the entity currently is organized and currently is providing prepaid health services as described in this subparagraph, and provides assurances satisfactory to the Secretary that it will:

(1) With respect to all new group and individual (non-group) contracts which it enters into after the date of the Secretary's determination that the entity is a transitionally qualified health maintenance organization, provide basic and supplemental health services to members enrolled under such contracts and will provide such services in the manner prescribed by subpart A of this Part and will, with respect to such members, be organized and operated in accordance with § 110.108 of this Part.

(2) With respect to its group and non-group contracts which are in effect on the date of such determination, and which are renewed or renegotiated during the period approved by the Secretary under paragraph (b)(2)(iii) of this section in accordance with the plan so approved:

(i) Provide at least those services specified in the following sections of this Part: § 110.102(a)(1) (physician services); § 110.102(a)(2) (outpatient services and inpatient hospital services, except that the inpatient hospital services need not be unlimited as to time and cost); § 110.102(a)(3) (medically necessary emergency health services); and § 110.102(a)(6) (diagnostic laboratory and diagnostic and therapeutic radiologic services);

(ii) Be organized and operated in accordance with § 110.108 of this Part (except that it need not assume full financial risk for the provision of basic health services as required by § 110.108(b), and need not abide by the limitations on insurance of § 110.108(b)(1) and (3)) and provide that payment for basic health services shall be in accordance with § 110.105 of this Part (except that it need not comply with the community rating system as required by § 110.105(a)(3), and need not comply with the limitations on copayments of § 110.105(a)(4), and the requirement of § 110.106(b) that supplemental health services payments which are fixed on a prepayment basis be fixed under a community rating system);

(iii) Implement a time-phased plan acceptable to the Secretary which specifies definite steps for meeting, on a contract-by-contract (or category of contracts) basis, within a period not to exceed 3 years from the date of the Secretary's determination of qualification, all the requirements of Subpart A of this Part; and

(iv) Upon completion of the time-phased plan:

(A) Provide basic and supplemental health services to all of its members;

(B) Provide such services to all of its members in the manner prescribed by Subpart A of this part; and

(C) Be organized and operated in the manner prescribed by subpart A of this Part.

(c) The Secretary may determine that an entity is a preoperational qualified health maintenance organization if it provides assurances satisfactory to the Secretary that it will become operational within 30 days following the Secretary's determination of qualification, and will, when it becomes operational, meet the requirements of subpart A of this Part. Upon notification by the entity to the Secretary that the entity has become operational, the Secretary will, within 30 days of such notification, make a determination whether the entity is an operational qualified health maintenance organization; in the absence of such a determination, the organization is not an operational qualified health maintenance organization even though it becomes operational.

**§ 110.604 Application requirements.**

(a) An entity seeking a determination that it is a qualified health maintenance organization pursuant to this subpart shall apply to the Secretary at such time and in such form and manner as the Secretary may prescribe.[1] The application must be executed by an individual authorized to act for the applicant and to assume on behalf of the applicant the obligations imposed by the statute and the regulations of this Part.

(b) An application by an entity for a determination under § 110.603(a) that it is an operational qualified health maintenance organization shall contain:[2]

(i) A concise narrative description of the entity's future goals, objectives, history, and operation. This narrative shall describe at least:

(i) Objectives for health services delivery such as staffing, facilities, and enrollment.

(ii) Legal history and current legal status of the entity, including identification of predecessor organizations, corporations, or other entities. (See § 110.101(a).)

(iii) The organizational arrangements the entity will employ to provide basic and supplemental health services, i.e., a health maintenance organization staff, or a contract with an individual practice association or associations, or a contract with a medical group or groups. In the event that an entity contracts or proposes to contract for the provision of basic health services directly with health professionals who are not employed by the entity as part of its staff or who are not members or contractors of a medical group or individual practice association with which the entity has contracted or proposes to contract, the entity must demonstrate that the employment of such professionals as part of its staff, the membership of such professionals in a medical group or individual practice association, and the utilization of such health professionals by the medical group or individual practice association, are prohibited by law. (See § 110.104(a).)

(iv) The incentives designed to avoid unnecessary or unduly costly utilization of health services which have been accepted by medical groups or individual

[1] Applicants should be aware that provisions of the Freedom of Information Act, 5 U.S.C. 552, may require disclosure of certain official Government records. Regulations of the Department of Health, Education, and Welfare, 45 CFR 5.71, provide exceptions to disclosure. Applicants submitting material which they feel is covered by these exceptions should label such material "Privileged" and include a concise explanation of the applicability of 45 CFR 5.71. In the event that the Secretary determines that such material is not appropriately labeled "Privileged" under 45 CFR 5.71, he will inform the applicant of such determination and, if the applicant does not concur, allow the applicant to withdraw his application. Otherwise, the Secretary will not voluntarily disclose such material and will notify the applicant of any court process or subpoena to compel such disclosure.

[2] For ease of reference, the application elements listed are followed by references to related requirements, if any, of this Part.

AUG 8 75
XU

practice associations with which the entity has entered into written services arrangements. (See § 110.104(a).)

(v) Any management, administrative, or marketing arrangements (including risk-taking) which the entity has made with other organizations or companies. If the entity assumes risk directly for which insurance or other arrangements are allowed under § 110.108(b) of this Part, describe the experience to date, reserves maintained, and method of computation. (See § 110.108(b).)

(vi) Interrelationships, if any, between the entity and any of the entity's contractors which provide a professional health service or administrative function or service to the entity. Such description should include identification of interrelationships such as common financial or beneficial ownership, or common directorship or trusteeship. However, descriptions of contracts for nonmedical services are required only if the interrelationship represents, in the aggregate, dollar amounts in excess of 5 percent of either party's income or expenses, whichever is smaller. If no such interrelationships exist, the application shall so state.

(vii) The current service area and the proposed service area (if different) and the characteristics of the population or populations served and planned to be served by the entity, including the number of Medicare and Medicaid members and members from medically underserved areas and the percentage of the total membership (enrolled and projected) such members represent. An applicant may seek a waiver of the 50-percent limitation on Medicare and Medicaid members as part of its application. (See §§ 110.101(d) and (e); 110.108(c); and 110.109(c).)

(viii) The composition and operation of the entity's Board of Directors or other policy-making body. (See § 110.108(h).)

(ix) Names and resumes of the entity's officers and other key management and key professional staff.

(x) The procedures for the resolution of grievances or disputes between the entity and health professionals. (See § 110.108(i).)

(xi) A citation to and a concise summary of State laws, regulations, and other requirements relating to the operation of the entity as a health maintenance organization including laws relating to health professionals' practice, marketing, and reserve requirements, and an opinion of legal counsel whether the entity complies (or will be able to comply) with such laws, regulations, and requirements. If operation under such State requirements will require the application of section 1311 of the Act, the opinion shall so state. (See § 110.101(a) and § 110.108(a)(2).)

(xii) The entity's fiscal soundness, the provision against the risk of insolvency, the assumption of full financial risk for the provision of basic health services, and the entity's ability to meet debt service requirements (if any) and to develop such reserves as may be required under law. (See § 110.108(a).)

(xiii) The methods and procedures designed to avoid unduly costly and unnecessary use of health services. (See § 110.104(a).)

(xiv) Methods for third party liability collections. (See §§ 110.108(a); 110.105(b); and 110.106(c).)

(xv) The organizational arrangements and methods employed in an ongoing quality assurance program for health services. If a drug profile is utilized, describe the components of the system. (See §§ 110.108(j) and 110.103(b).)

(xvi) Procedures for assuring that the health maintenance organization is organized and operated in a manner intended to preserve human dignity. (See § 110.103(p).)

(xvii) The marketing and enrollment methods (including method for compensation of marketing representatives), membership servicing procedures, and eligibility determination methods employed by the entity. In addition to describing group-related activities, this description should indicate the procedures for and dates of individual open enrollment periods. An applicant may seek a waiver of the individual open enrollment requirement pursuant to section 1301(c)(4) of the Act, as part of its application. (See § 110.108(c), (d), (e), and (f).)

(xviii) Procedures for instructing members with regard to obtaining medically necessary emergency services, and the methods for determining whether services are medically necessary and for processing claims. (See § 110.104(b).)

(xix) A precise service area map with the mean travel time (by public and private transportation) from the service area boundaries indicated to the location(s) where basic and supplemental health services are available. If the applicant received a grant or loan guarantee under this title, it should note whether the service area is the same as or different from that approved under the grant or loan guarantee.) List the health service facilities utilized or operated by the providers of health services, note their locations, describe their physical characteristics, indicate whether the facilities are owned or leased by the entity or the providers of health services, and report the hours of operation. Except with respect to institutional care, indicate staffing patterns for each facility, indicate whether such patterns are within described and generally accepted norms for meeting the projected membership needs, and furnish a list of participating physicians by specialty. (See § 110.107(b)(1) and (2).)

(xx) The health care delivery system, including a discussion of the integration of all provider entities. This shall cover the arrangements, both formal (as specified in contracts and membership brochures) and informal (as practiced without such formal documentation), for the delivery of the basic and supplemental health services, and the procedures employed to ensure the coordination and continuity of such care. (See § 110.107(c)(2) and § 110.108(r).)

(xxi) Arrangements made to provide a health professional who is primarily responsible for coordinating the member's overall health care. (See § 110.107(c)(1).)

(xxii) Arrangements with providers for in-area medically necessary emergency services on a 24-hour-a-day, 7-day-a-week basis. (See § 110.107(b)(1).)

(xxiii) For each basic and supplemental health service, how that service will be provided (by staff, through a contract with an individual practice association or medical group, or by other arrangement). Indicate those services, if any, which are considered unusual or infrequently used, and the basis for such a determination. (See § 110.104(a) and (c).)

(xxiv) Each item listed in § 110.102(b) of this Part which is not included as a basic health service. (See § 110.102(b).)

(xxv) Organizational arrangements for health education. (see § 110.108(m).)

(xxvi) Procedures for the provision of medical social services (See § 110.108(n).)

(xxvii) The methods by which the entity established and operates or will establish and operate its community rating system. Differentials in rates for individuals and groups shall be described. If an applicant plans or has established a separate community rate for separate regional components, evidence as described in § 110.101(l) of this Part shall be submitted. (See §§ 110.101(l); 110.105(a)(3); and 110.106(b).)

(xviii) The methods by which the entity establishes copayment levels in compliance with copayment limitations. (See § 110.105(a)(4)(i) and (ii).)

(2) Documenation as follows:

(i) Written assurances satisfactory to the Secretary that the entity:

(A) Provides and will provide basic and supplemental health services to its members;

(B) Provides and will provide such services in the manner prescribed by section 1301(b) of the Act and Subpart A of this Part;

(C) Is organized and operated, and will continue to be organized and operated, in the manner prescribed by section 1301(c) of the Act and Subpart A of this Part;

(D) Under arrangements which will safeguard the confidentiality of patient information and records, will provide access to the Secretary and the Comptroller General or any of their duly authorized representatives for the purpose of audit, examination or evaluation to any books, documents, papers, and records of the entity relating to its operations as a health maintenance organization, and to any facilities operated by the entity; and

(E) Will continue to comply with any other assurances which the entity has given to the Secretary under §§ 110.203(e); 110.303(b); and 110.403(b) of this Part.

(ii) A copy of each of the following:

(A) Incorporation or chartering documents bearing the date of receipt, registration number, or file designation as

provided by the State or other regulatory body;

(B) Current bylaws or their equivalent; and

(C) Such licenses, certificates, and other evidence of regulatory body approvals as are required under State law. (See § 110.101(a).)

(iii) Organization chart, including the entity's services and administrative components, showing the relationships with providers of health services, contractors for management and risk-taking, and other relevant entities.

(iv) Evidence that the entity has procured and maintains in force a fidelity bond or bonds, in such amount, but not less than $100,000, as may be fixed by its Board of Directors or other policy-making body, covering every officer and employee entrusted with the handling of its funds. The bond may have reasonable deductibles, based upon the financial strength of the entity. (See § 110.108(a)(3).)

(v) Incorporation, partnership, or other organizational documents, and bylaws, for the individual practice association(s) or medical group(s) with which the entity contracts for the delivery of services. If the medical group members have less than 50 percent of their professional activities in the aggregate for health maintenance organization activities, the applicant shall submit a time-phased plan, to which the medical group is committed, to meet this requirement within 3 years from the date the entity is found to be a qualified health maintenance organization. (See §§ 110.104(a); 110.101(l)(1), (2), and (3)(i) and (ii); and 110.101(j)(1).)

(vi) Any contracts between the entity and providers of basic or supplemental health services, i.e., medical groups, individual practice associations, other entities composed of health professionals, or individual health professionals. In addition, a copy of each type of contract between such groups associations, or entities, and the individual health professionals providing services to the entity's members shall be provided. (See § 110.104(a).)

(vii) Contracts between the entity and hospitals, home health agencies, intermediate care facilities, skilled nursing facilities, and other institutional providers of inpatient or outpatient health services and any other contracts or agreements for the provision of basic or supplemental health services. (See §§ 110.102, 110.103; 110.104(a); and 110.108(i) through (r).)

(viii) Sample copies of current subscriber medical service agreements including each class or group service contract (and member certificate or agreement, if any), conversion contract, individual contract, other benefit packages contract, Medicaid contract, Medicare contract, and Federal Employees Health Benefits Plan contract. (See §§ 110.102; 110.103; 110.105; 110.106; 110.108(b), (f), (g), and 110.109.)

(ix) Copies of minutes, memoranda, findings, or other records representative of the results of previous proceedings conducted under the procedures established for hearing and resolving grievances between the entity (including the staff of the health maintenance organization, the medical group, and the individual practice association) and the members of the organization. (See § 110.108(i).)

(x) Contracts which the entity or its affiliated groups or associations have with other organizations for management, risk-taking for risks associated with utilization of health services by members, insurance or other arrangements for payment of medically necessary services, malpractice insurance, and enrollment of members. (See § 110.108(b).)

(xi) Evidence of certification of participating providers under Title XVIII or XIX of the Social Security Act, where appropriate. (See § 110.108(k).)

(xii) Financial documents including:

(A) A complete financial statement, including a balance sheet, a statement of income and expenses including available subsidiary detail, and source and use-of-funds statement, for each of the prior 3 fiscal year (or for each year the entity has existed, if the entity has existed for less than 3 years);

(B) A current complete financial statement audited by a certified public accountant;

(C) A copy of projected financial statements for the next 3 years, including an income and expense statement, balance sheet, projected capital expenditures, expected or applied loans with repayment schedules, cash flow schedules, except that applicants for loans or loan guarantees under section 1305 shall provide 5-year projections. (For cash flow schedules, specify assumptions in narrative form.) Projected financial statements must demonstrate consistency among statements;

(D) A financial statement for each medical group or individual practice association with which the entity has contracted for the provision of health services, and for each guarantor of health maintenance organization obligations. Such statements shall include an audited balance sheet and/or commercial rating and, where applicable, a copy of the guarantor letter of support, letter of credit, bond, or loan document; and

(E) Copies of annual reports made by the entity to applicable State regulatory and/or supervisory agencies for the prior 3 years (or for each year the entity has existed, if the entity has existed for less than 3 years). (See § 110.108(a).)

(xiii) Documentation of the organizational arrangements and methods employed in an ongoing quality assurance program for health services provided by the entity, including summary reports of the quality assurance program's operation over the prior 3 years (or such shorter period as the quality assurance program has been in place) which indicate the number and percentage of total cases reviewed and the findings and actions emanating from the reviews. (See § 110.108(j).)

(xiv) Copies of the materials used in the orientation of marketing representatives and in marketing of the plan, for both group and individual open enrollment periods. (See § 110.108(c).)

(xv) Documentation of the procedures and materials used in the member health education and medical social services programs. (See § 110.108(m) and 110.108(n).)

(xvi) Documentation of the entity's health record system, including the methods employed to assure confidentiality of patient records. If the entity arranges for services by providers who do not use the entity's health records, the entity must indicate how it requires providers to assure confidentiality of patient records. (See §§ 110.107(c)(2); 110.101(i)(3)(iii) and (j)(1)(ii)(B); and 110.108(q).)

(xvii) Documentation of the arrangements for continuing education for the entity's health professional staff. (See §§ 110.108(l); 110.101(l)(3)(v) and (j)(1)(ii)(C).)

(xviii) A complete list of all existing group service contracts for health care, including their renewal dates, the premium or dues rates established by the entity for each contract, the basis used to establish the premium or dues rates, the copayment schedule, if any, and the number of individuals and families enrolled. In addition, the entity shall also provide a summary of non-group contracts that indicates by groups or classes of health coverages provided, the number of individuals and families enrolled, the premium or dues rates established for each group or class of non-group contracts, and the basis used to establish the premium or dues rates.

(xix) A report containing the information described in § 110.108(o) of this Part for the current year. (See § 110.108(o).)

(xx) Such other pertinent information as the Secretary may require in the process of evaluating the applicant's compliance with the requirements of Subpart A and applicable sections of the Act.

(c) An application submitted by an entity under §110.603(b) for a determination that it is a transitionally qualified health maintenance organization must provide:

(1) Each of the application elements specified in paragraph (b) of this section, except for the assurances required by paragraph (b)(2)(i) of this section.

(2) The text of the assurances specified in § 110.603(b). (Such assurances need not be executed on behalf of the entity until it has been notified that the application is otherwise approvable. At such time, the applicant must specify the date on which such assurances will be made effective and must execute the assurances accordingly. The Secretary's approval of the application will be effective on the date so specified.)

(3) A time-phased plan which (i) specifies each requirement of section 1301(b) and section 1301(c) of the Act and of the applicable regulations which is not met by the entity at the time of application, (ii) describes the methods by which the entity proposes to meet such requirements within a period not to exceed 3 years from the date of the Secretary's de-

termination of qualification with respect to all members covered by group and non-group contracts in effect on the effective date of the assurances described in paragraph (c)(2) of this section, and (iii) identifies for each existing contract or type of contract described in § 110.604 (b)(2)(xvii), the target date and methods to be employed to achieve full compliance with section 1301 of the Act and Subpart A of this Part.

(d) An application submitted by an entity under § 110.603(c) for a determination that it is a pre-operational qualified health maintenance organization must provide each of the application elements specified in paragraph (b) of this section, except that when the data for specified application elements are unavailable because the entity has not yet put such elements of its program into operation, the entity shall submit information on such application elements in the form of plans. When application elements are submitted in the form of plans, such plans shall include the dates on which the planned elements are expected to be in operation, and the entity shall notify the Secretary of any changes in such plans and dates which are made prior to the Secretary's determination of qualification. In addition, to the extent known, these plans shall incorporate at least:

(1) Names of principal potential group health benefits plan purchasers and their present health plan coverages, including total costs of, and employer contribution to, the existing health benefits plan;

(2) Estimated health maintenance organization enrollment by such group purchasers; and

(3) Rates and health plan coverages proposed by the entity.

**§ 110.605 Evaluation and determination of qualification.**

(a) The Secretary will evaluate applications submitted under this subpart, and will obtain such additional information as he may require, employing site visits, public hearings or any other procedures determined appropriate by him and will determine whether the applicant meets the appropriate requirements of §§ 110.603 and 110.604 of this subpart, section 1301 of the Act, and Subpart A of this Part.

(b) The Secretary will notify each entity applying for qualification under this subpart of his determination and the basis for such determination, and will publish in the FEDERAL REGISTER the names, addresses and descriptions of the service areas of the newly qualified health maintenance organizations on a monthly basis, and a cumulative list of all qualified health maintenance organizations on an annual basis.

(c) Copies of lists published pursuant to paragraph (b) of this section may be obtained from, and additional information regarding qualified health maintenance organizations will be available for public inspection between the hours of 8:30 a.m. and 5 p.m., Monday through Friday at the Office of the Administrator, Health Services Administration, Department of Health, Education, and Welfare, Parklawn Building, 5600 Fishers Lane, Rockville, Maryland 20852.

(d) Upon the denial of an application for qualification under this subpart, the Secretary will, in writing, so notify the entity making such application and shall provide such entity a reasonable opportunity for a reconsideration of such determination under paragraph (e) of this section or for a fair hearing under paragraph (f) of this section.

(e) A request for reconsideration shall be submitted in writing, within 60 days following the date of the notification of denial, addressed to the officer or employee of the Department of Health, Education, and Welfare who has denied the application, and shall set forth the grounds upon which such reconsideration is requested, specifying the material issues of fact and of law upon which the applicant relies. Reconsideration will be based upon the record compiled during the qualification review proceedings, materials submitted in support of the request for reconsideration, and other relevant materials available to the Secretary. Written notice of the reconsidered determination will be provided to the entity seeking reconsideration. Such notice shall set forth the basis for the determination and shall inform the entity of its rights to seek a fair hearing under paragraph (f) of this section.

(f) Any entity dissatisfied with an initial determination or a reconsidered determination of its application for qualification under this subpart may, within 60 days following the date of notification of any such determination, request a fair hearing. Such request shall be made in writing and shall specify the material issues of fact upon which it is based. (Note: Pending promulgation of regulations governing fair hearings, applicants requesting a hearing will be provided a copy of applicable procedures.)

PART III:

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

■

# PROTECTION OF HUMAN SUBJECTS

Fetuses, Pregnant Women, and In Vitro Fertilization

Title 45—Public Welfare

SUBTITLE A—DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

PART 46—PROTECTION OF HUMAN SUBJECTS

Fetuses, Pregnant Women, In Vitro Fertilization

Basic regulations governing the protection of human subjects involved in research development, and related activities supported or conducted by the Department through grants and contracts were published in the FEDERAL REGISTER on May 30, 1974 (39 FR 18914).[1] At that time it was indicated that notices of proposed rulemaking would be developed to provide additional protection for subjects of research who may have diminished capacity to provide informed consent. On August 23, 1974, a notice of proposed rulemaking was published for public comment (39 FR 30648) in which it was proposed to amend 45 CFR Part 46 to provide further protective measures for the fetus, the abortus, prisoners, and the institutionalized mentally disabled as subjects of research activities.

On July 12, 1974, the National Research Act (Pub. L. 93–348) was signed into law, thereby creating the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research. One of the charges to the Commission was to investigate and study the nature and extent of research involving the living human fetus and to recommend to the Secretary the circumstances (if any) under which such research should be conducted or supported by the Department. Pursuant to section 202(b) of that Act, the Commission has transmitted Recommendations to the Secretary. Pursuant to section 205 of the Act, the Secretary is publishing that Report elsewhere in this issue of the FEDERAL REGISTER.

After considering both the pubic comments to the proposed rulemaking published August 23, 1974, and the Recommendations of the Commission, the Secretary has determined to amend 45 CFR 46 by adding a subpart governing research involving the fetus, the pregnant woman, and products of human *in vitro* fertilization consistent with the public comments and the Recommendations of the Commission. This amendment to the regulations is to be effective immediately. The Secretary, as required by Pub. L. 93–348, section 205, will take into consideration any comments submitted regarding the Recommendations and, if it appears necessary, will propose further rulemaking with respect to any amendments to these regulations which appear warranted.

The Secretary also concludes that the moratorium on fetal research which was imposed by the Department on August 27, 1974 (39 FR 30962) may now be lifted, allowing research to go forward under the regulations issued herewith. The Secretary notes in this regard that the restrictions imposed by section 213 of the National Research Act (Pub. L. 93–348) extended only until the Commission had submitted its Recommendations to the Secretary on May 21, 1975.

Over 125 individuals commented on subpart C (here stated as subpart B) of the proposed rulemaking which pertains to the fetus, the abortus, the pregnant woman, and the products of human *in vitro* fertilization. Those comments, and the Recommendations of the Commission, are summarized as follows:

*Applicability.* Commenters objected to the applicability of this subpart to "activities involving women who could become pregnant, except where the applicant or offeror shows to the satisfaction of the Secretary that adequate steps will be taken to avoid involvement of women who are pregnant." Concern was expressed that implementation of such a provisions might involve numerous pregnancy tests during the course of an investigation, and still not achieve this goal. The Department notes that although the Commission expressed concern that the fetus not be involved unintentionally in research activities, it did not make a specific recommendation with respect to this. The Department concludes that the Institutional Review Boards should determine whether adequate measures will be taken to avoid unintentional involvement of pregnant women in research activities which are not designed to include pregnant women or the fetus, and which might present a risk to a fetus if such existed. Section 46.102(b)(5) of subpart A is therefore amended to add such determinations as one of the duties of the Institutional Review Board.

The notice published August 23, 1974, was limited to biomedical research. That limitation has been removed because, while the Department believes that this subpart applies primarily to biomedical research, other research may be proposed which might fall under the scope of this subpart.

*Definitions.* The Department has reviewed with care the definitions adopted by the Commission, and determined that those definitions should be incorporated substantially as drafted into the regulations. It should be noted that in so doing, the Department has extended the meaning of the term "fetus" to include the fetus *ex utero* until such time as such a fetus is determined to be viable. The effect of this change is to delete the term "abortus" which appeared in the proposed rulemaking, and refer instead to a fetus *ex utero*. The Department agrees with the Commission that such usage serves the interests of both consistency and clarity, although it may vary at times from legal, medical, or common usage. Also, consistent with the determination discussed above, the definition of "biomedical research" has been dropped.

*Ethical advisory boards.* A number of respondents expressed concern that an Ethical Advisory Board, as proposed, would be overburdened and would add an unnecessary layer to a review process which is already time consuming. It was also suggested that the Institutional Review Boards can, and in many instances already do, perform at the local level many of the tasks suggested for the Board. On the other hand, some respondents endorsed the proposal as a welcome measure to insure that projects would be stringently reviewed at a national level for ethical considerations prior to receiving support with public monies.

The Commission recommended that a national review body (similar to that proposed by the Department) consider the ethical problems raised by research proposals to which the application of standards enumerated in their recommendations proves difficult.

The Department has considered these suggestions and agrees that whereas the Institutional Review Boards may be able to assume a large share of the ethical review of proposals, it is also true that there will be instances in which the application of standards to specific cases will be difficult or in which review at the national level is desirable. The Department therefore has determined that such an Ethical Advisory Board is necessary to assure that projects supported or conducted by the Department meet ethical standards acceptable to the general community. However, because the nature of the activities may be different and the number of activities requiring review may be large, one Board will be established to provide advice to the Public Health Service and one Board will be established to provide advice to other components of the Department, with respect to policy governing certain kinds of research, and also with respect to the funding of individual proposals which raise ethical problems. While the Boards will propose to the Secretary categories of research which the Board believes either require or do not require their review, research protocols and procedures which involve minimal or no risk, and which clearly conform to the requirements of this subpart, generally need not be reviewed by the Ethical Advisory Board. Research proposals which are judged by agency advisors or staff to require further evaluation of risk or the interpretation of the requirements the Secretary unless the Ethical Advisory Board, or which raise ethical problems, may not be conducted or supported by the Secretary unless the Ethical Advisory Board has reviewed and rendered its advice concerning the research activity. It is intended, ultimately, that a similar requirement for Board review be extended to other classes of research subjects.

A number of comments were received regarding the composition of the Ethical Advisory Board, its duties, or the manner in which it should conduct its meetings. Specifically, the Commission recommended that women and minorities be adequately represented on the Board, and that its deliberations be conducted with full public participation. Many of the suggestions are currently incorporated in regulations governing Federal committee membership and activities. Others will be addressed in the Charter of the Board which the Secretary will publish in the FEDERAL REGISTER at a later date.

*Establishment of a consent committee.* Although there was general agreement among commenters that provisions should be made to monitor conditions surrounding the consent process, there was criticism of the proposal to create separate committees to perform this function. For the most part, it was felt that the Institutional Review Boards could and should perform this function as part of continuing responsibility for the protection of human subjects. It was further suggested that additional panels should not be created unless the Department has evidence that the necessary functions could not be performed by the Institutional Review Boards or other existing committees.

The Commission noted that it will be undertaking a study, as part of its mandate under Pub. L. 93–348, of the effectiveness of Institutional Review Boards in implementing DHEW regulations for the protection of human subjects. It recommended that until the study is completed, the responsibility for monitoring the consent process should be assumed by the Institutional Review Boards. The Department agrees. The provisions for creating Consent Committees have therefore been deleted, and the duties delegated to them in the proposed rulemaking have been given to the Institutional Review Boards. This is reflected in § 46.205, titled "Additional duties of the Institutional Review Boards in connection with activities involving fetuses, pregnant women, or human *in vitro* fertilization."

The Department received a number of criticisms regarding the provision that the Consent Committee be authorized to terminate the participation of subjects without their consent (§ 46.305(a)(2) of the proposed rulemaking). It was argued that this would be an unwarranted infringement of an individual's right to consent. The Department agrees, and such authority has been deleted.

*Research involving in vitro fertilization.* Commenters generally endorsed the Department's proposal not to regulate research involving human *in vitro* fertilization other than to require that all proposals involving such research be reviewed for approval by the Ethical Advisory Board. The Commission did not make any recommendation concerning this category of research in the report submitted on May 21. The Department therefore makes no change from the proposed rulemaking with respect to research involving *in vitro* fertilization. The requirement that all such proposals be reviewed by the Ethical Advisory Board, as well as by the Institutional Review Board, appears in §§ 46.204(c) and 46.205 respectively.

Because biomedical research is not yet near the point of being able to maintain for a substantial period the non-implanted product of *in vitro* fertilization, these regulations do not address this point. Given the state of the research, we believe that regulations would be premature. However, the Department anticipates that such a regulation will be prepared when the state of biomedical science so warrants.

*Activities involving fetuses in utero or pregnant women.* A number of commenters suggested that the rulemaking, as proposed, would hamper research necessary to meet the health needs of pregnant women, fetuses, and neonates. The most frequent references were to studies on placental transfer, the normal course of pregnancy, and the delivery process. Some individuals objected to the prohibition of research prior to the commencement of a procedure to terminate pregnancy, while others objected to any conduct of research even during the process of abortion.

The Commission, in its Recommendations, separated that category of research directed toward the pregnant woman from that directed toward the fetus *in utero*. It further distinguished between therapeutic research and nontherapeutic research, finding therapeutic research to be generally acceptable and desirable, whether directed toward the fetus or the pregnant woman, provided certain specified preconditions are met. The Department agrees that it is useful to distinguish between the fetus *in utero* and the pregnant woman as the primary subject of a research activity and also that research directed at meeting the health needs of the subject is generally acceptable provided certain conditions are met. The regulations therefore address these topics in separate sections.

A. *General limitations.* There were no substantive objections to the intent of restrictions which appeared in various parts of the proposed rulemaking pertaining to: (1) the necessary completion of appropriate animal studies; or (2) the separation of research personnel from decisions regarding the timing or method of terminating pregnancy or regarding the viability of a delivered fetus. Some commenters, and the Commission, recommended the addition of appropriate studies on nonpregnant humans as a prerequisite for research activities covered by this subpart. The Commission further recommended that there should be no significant changes introduced into a delivery procedure solely in the interests of research. The Department has incorporated these provisions in a section titled "General limitations" (§ 46.206) which governs all research activities covered by this subpart.

B. *Activities directed toward pregnant women as subjects.* As noted above, there was little objection from commenters on from the Commission regarding research directed toward the health needs of the pregnant woman. In fact, some respondents urged that care be taken not to infringe the woman's right to privacy and her access to health care. With respect to women's rights, a number of individuals objected to the provision requiring consent other than that of the pregnant woman for research directed toward the health needs of the pregnant woman, and some objected to such consent provisions even when the woman would be participating in nontherapeutic research activities.

The Commission considered that the woman's right to health care is preeminent, and recommended essentially no restrictions on research directed toward the health care of the pregnant woman, so long as the risks to her fetus are minimized as much as possible consistent with meeting her health needs, and provided that she is fully advised of the risks to herself and her fetus. In addition, the general provisions for prerequisite research and for adequate review and supervision of the consent process should be met. The Department agrees.

With respect to research directed toward the pregnant woman but which is not directed toward her health care, there seems to be general agreement that such research should be permitted only if it imposes minimal or no risk to the fetus. There is disagreement among the commenters with respect to paternal consent for this category of research. The Department has considered with care the various arguments with respect to consent other than the pregnant woman's for nontherapeutic research involving the pregnant woman, and concludes that such consent should be obtained except where such research involves the health needs of the woman.

In general, women who are victims of rape are not appropriate subjects for nontherapeutic research. There are some instances, however, in which their participation may be sought (as in studies concerning the effects of rape.) Consent other than hers is not necessary in such cases.

It should be noted in this regard that the Commission, in a number of instances, recommended that research be permitted if the mother has consented and the father has not objected. The Department has concluded that implementation of a provision for absence of objection might present serious problems. Since the absence of objection can best be verified by requesting consent, the Department has retained the requirement for paternal consent when the father's identity and whereabouts can reasonably be ascertained, and if he is reasonably available.

C. *Activities directed towards fetuses in utero as subjects.* No comments were received which expressed objections to the conduct of research activities directed toward the health care of the fetus *in utero*. Rather, the Department was urged not to restrict, and even to encourage, such research.

On the other hand, there was considerable division of opinion regarding research directed toward the fetus which is not related to its health care. Concern was expressed that the fetus might be used as an experimental "object," in a manner inconsistent with its human genetic heritage. This is particularly true when termination of pregnancy is a factor in the research, as in protocols designed to determine the effect on the fetus of drugs administered to a pregnant woman. Questions were raised regarding the ethical validity of consent by a pregnant woman on behalf of a fetus, for its inclusion in a research activity of no benefit to that fetus, especially if the

[1] These were readopted with minor technical amendments in the FEDERAL REGISTER for March 13, 1975 (40 FR 11854).

VOL 40 NO 154 AUG 8 75 XU

woman has already decided to terminate her pregnancy.

The Department is sensitive to these concerns. It has reviewed the Recommendations of the Commission regarding this category of research, and is persuaded that those recommendations are sound; namely, that no research be conducted or supported which fails to treat the fetus with proper care and dignity. In addition, the Department agrees that a pregnant woman need not be presumed to lack interest in her fetus even when she has decided to terminate her pregnancy; thus, she may validly be asked for consent for research involving the fetus.

The Department notes that the Commission was created to represent the best judgment of the community, and to make recommendations following an intensive study of the issues. All of the arguments which were submitted to the Department were considered by the Commission in its deliberations, and it is therefore reasonable to accept the findings of the Commission as the best possible judgment on the matter. The Department concludes that the Recommendations of the Commission with respect to research involving the fetus *in utero* should be adopted. These are incorporated in the regulations in § 46.208, with modifications, as noted above, in the provisions for paternal consent.

*Activities directed toward fetuses ex utero as subjects.* Although some commenters suggested that no research be permitted on the fetus *ex utero*, others were concerned that the proposed rulemaking was too restrictive, and would preclude the development of technology for sustaining premature infants. The Commission recommended that no procedures be applied to a nonviable fetus *ex utero* which would alter its duration of life. It further recommended that if the fetus might possibly be viable, but has not yet been determined to be so, no additional risk to the well-being of that fetus should be imposed by research. It is expected that no procedures will be undertaken which fail to treat the fetus with due care and dignity, or which affront community sensibilities. Further, it is required that if a delivered fetus is determined to be viable, it will be treated as a premature infant, and may be included in research activities according to the regulations to be proposed governing the participation of children in research.

For the reasons stated above, the Department has concluded that the Recommendations of the Commission regarding research on the fetus *ex utero* should be adopted, for the most part. These are incorporated in § 46.209 of the regulations with modifications, as noted above, in the provisions for paternal consent. However, the Secretary is persuaded by the weight of scientific evidence that research performed on the nonviable fetus *ex utero* has contributed substantially to the ability of physicians to bring to viability increasingly small fetuses. The Secretary perceives that it is in the public interest to continue this successful research and accordingly an exception is made to the Recommendations of the Commission to permit research to develop new methods for enabling fetuses to survive to the point of viability.

*Activities involving the dead fetus, fetal material, or the placenta.* The Department notes, as did the Commission, that research involving the dead fetus and fetal material is governed in part by the Uniform Anatomical Gift Act which has been adopted by 49 States, the District of Columbia and Puerto Rico. There were no substantive recommendations concerning this section, and the regulation therefore differs from the proposed rulemaking only with respect to minor additions for clarification. Any applicable State or local laws regarding such activities are, of course, controlling.

*Activities to be performed outside the United States.* Consistent with the Commission's Recommendations, § 46.210 of the proposed rulemaking has been deleted, thereby making these regulations applicable to all research conducted or supported by the Department within the United States or abroad.

*Modification or waiver of specific requirements.* Recognizing the difficulty of applying a specific set of regulations to all situations that may arise in the future, the Department has elected to provide a mechanism for waiver or modification of specific provisions under certain circumstances. Requests from an applicant or offeror for such a waiver or modification must be reviewed by the appropriate Ethical Advisory Board, which after opportunity for public input, shall advise the Secretary as to whether or not the request should be approved. These Boards will conform to the operating procedures required by the Federal Advisory Committee Act.

*Activities conducted by departmental employees.* In order to make it clear that the requirements of these regulations (Part 46) apply to activities conducted by its own employees, the Department is adding subpart C titled "Activities Conducted by Departmental Employees" as § 46.301.

The moratorium on fetal research imposed on August 27, 1974, is hereby lifted, but such research will be conducted or supported by the Department only in accordance with the following regulations.

Written comments concerning the Recommendations of the Commission may be sent to the Office of Protection from Research Risks, National Institutes of Health, 9000 Rockville Pike, Bethesda, Maryland 20014. All comments received will be available for inspection at the National Institutes of Health, Room 303, Westwood Building, 5333 Westbard Avenue, Bethesda, Maryland, weekdays (Federal holidays excepted) between the hours of 9 a.m. and 4:30.

These regulations shall become effective on August 8, 1975.

Date: July 17, 1975.

THEODORE COOPER,
*Assistant Secretary for Health.*

Approved: July 29, 1975.

CASPAR W. WEINBERGER,
*Secretary.*

Accordingly Part 46 of 45 CFR Subtitle A is amended by:

**§§ 46.101–46.122 [Redesignated]**

1. Designating §§ 46.1 through 46.22 as Subpart A, renumbering these as §§ 46.101 through 46.122, and modifying all references thereto accordingly.

**§ 46.102 [Amended]**

2. Adding the word "and" at the end of § 46.102(b)(2), changing the semicolon at the end of § 46.102(b)(3) to a period, and deleting § 46.102(b)(4).

3. Redesignating § 46.102(c) as § 46.102(e) and inserting the following new §§ 46.102(c) and 46.102(d):

**§ 46.102 Policy.**

* * * * *

(c) Unless the activity is covered by Subpart B of this Part, if it involves as subjects women who could become pregnant, the Board shall also determine as part of its review that adequate steps will be taken in the conduct of the activity to avoid involvement of women who are in fact pregnant, when such activity would involve risk to a fetus.

(d) Where the Board finds risk is involved under paragraph (b) of this section, it shall review the conduct of the activity at timely intervals.

* * * * *

4. Adding the following new Subparts B and C.

**Subpart B—Additional Protections Pertaining to Research, Development, and Related Activities Involving Fetuses, Pregnant Women, and Human In Vitro Fertilization**

Sec.
46.201 Applicability.
46.202 Purpose.
46.203 Definitions.
46.204 Ethical Advisory Boards.
46.205 Additional duties of the Institutional Review Boards in connection with activities involving fetuses, pregnant women, or human in vitro fertilization.
46.206 General limitations.
46.207 Activities directed toward pregnant women as subjects.
46.208 Activities directed toward fetuses in utero as subjects.
46.209 Activities directed toward fetuses ex utero, including nonviable fetuses, as subjects.
46.210 Activities involving the dead fetus, fetal material, or the placenta.
46.211 Modification or waiver of specific requirements.

**Subpart C—General Provisions**

Sec.
46.301 Activities conducted by Department employees.

AUTHORITY: 5 U.S.C. 301.

## Subpart B—Additional Protections Pertaining to Research, Development, and Related Activities Involving Fetuses, Pregnant Women, and Human In Vitro Fertilization

**§ 46.201 Applicability.**

(a) The regulations in this subpart are applicable to all Department of Health, Education, and Welfare grants and contracts supporting research, development, and related activities involving: (1) The fetus, (2) pregnant women, and (3) human *in vitro* fertilization.

(b) Nothing in this subpart shall be construed as indicating that compliance with the procedures set forth herein will in any way render inapplicable pertinent State or local laws bearing upon activities covered by this subpart.

(c) The requirements of this subpart are in addition to those imposed under the other subparts of this part.

**§ 46.202 Purpose.**

It is the purpose of this subpart to provide additional safeguards in reviewing activities to which this subpart is applicable to assure that they conform to appropriate ethical standards and relate to important societal needs.

**§ 46.203 Definitions.**

As used in this subpart:

(a) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom authority has been delegated.

(b) "Pregnancy" encompasses the period of time from confirmation of implantation until expulsion or extraction of the fetus.

(c) "Fetus" means the product of conception from the time of implantation until a determination is made, following expulsion or extraction of the fetus, that it is viable.

(d) "Viable" as it pertains to the fetus means being able, after either spontaneous or induced delivery, to survive (given the benefit of available medical therapy) to the point of independently maintaining heart beat and respiration. The Secretary may from time to time, taking into account medical advances, publish in the FEDERAL REGISTER guidelines to assist in determining whether a fetus is viable for purposes of this subpart. If a fetus is viable after delivery, it is a premature infant.

(e) "Nonviable fetus" means a fetus *ex utero* which, although living, is not viable.

(f) "Dead fetus" means a fetus *ex utero* which exhibits neither heartbeat, spontaneous respiratory activity, spontaneous movement of voluntary muscles, nor pulsation of the umbilical cord (if still attached).

(g) "*In vitro* fertilization" means any fertilization of human ova which occurs outside the body of a female, either through admixture of donor human sperm and ova or by any other means.

**§ 46.204 Ethical Advisory Boards.**

(a) Two Ethical Advisory Boards shall be established by the Secretary. Members of these Boards shall be so selected that the Boards will be competent to deal with medical, legal, social, ethical, and related issues and may include, for example, research scientists, physicians, psychologists, sociologists, educators, lawyers, and ethicists, as well as representatives of the general public. No board member may be a regular, full-time employee of the Federal Government.

(b) One Board shall be advisory to the Public Health Service and its components. One Board shall be advisory to all other agencies and components within the Department of Health, Education, and Welfare.

(c) At the request of the Secretary, the appropriate Ethical Advisory Board shall render advice consistent with the policies and requirements of this Part as to ethical issues, involving activities covered by this subpart, raised by individual applications or proposals. In addition, upon request by the Secretary, the appropriate Board shall render advice as to classes of applications or proposals and general policies, guidelines, and procedures.

(d) A Board may establish, with the approval of the Secretary, classes of applications or proposals which: (1) Must be submitted to the Board, or (2) need not be submitted to the Board. Where the Board so establishes a class of applications or proposals which must be submitted, no application or proposal within the class may be funded by the Department or any component thereof until the application or proposal has been reviewed by the Board and the Board has rendered advice as to its acceptability from an ethical standpoint.

(e) No application or proposal involving human *in vitro* fertilization may be funded by the Department or any component thereof until the application or proposal has been reviewed by the Ethical Advisory Board and the Board has rendered advice as to its acceptability from an ethical standpoint.

**§ 46.205 Additional duties of the Institutional Review Boards in connection with activities involving fetuses, pregnant women, or human in vitro fertilization.**

(a) In addition to the responsibilities prescribed for Institutional Review Boards under Subpart A of this part, the applicant's or offeror's Board shall, with respect to activities covered by this subpart, carry out the following additional duties:

(1) Determine that all aspects of the activity meet the requirements of this subpart;

(2) Determine that adequate consideration has been given to the manner in which potential subjects will be selected, and adequate provision has been made by the applicant or offeror for monitoring the actual informed consent process (e.g., through such mechanisms, when appropriate, as participation by the Institutional Review Board or subject advocates in: (i) Overseeing the actual process by which individual consents required by this subpart are secured either by approving induction of each individual into the activity or verifying, perhaps through sampling, that approved procedures for induction of individuals into the activity are being followed, and (ii) monitoring the progress of the activity and intervening as necessary through such steps as visits to the activity site and continuing evaluation to determine if any unanticipated risks have arisen);

(3) Carry out such other responsibilities as may be assigned by the Secretary.

(b) No award may be issued until the applicant or offeror has certified to the Secretary that the Institutional Review Board has made the determinations required under paragraph (a) of this section and the Secretary has approved these determinations, as provided in § 46.115 of Subpart A of this part.

(c) Applicants or offerors seeking support for activities covered by this subpart must provide for the designation of an Institutional Review Board, subject to approval by the Secretary, where no such Board has been established under Subpart A of this part.

**§ 46.206 General limitations.**

(a) No activity to which this subpart is applicable may be undertaken unless:

(1) Appropriate studies on animals and nonpregnant individuals have been completed;

(2) Except where the purpose of the activity is to meet the health needs of the particular fetus, the risk to the fetus is minimal and, in all cases, is the least possible risk for achieving the objectives of the activity;

(3) Individuals engaged in the activity will have no part in: (i) Any decisions as to the timing, method, and procedures used to terminate the pregnancy, and (ii) determining the viability of the fetus at the termination of the pregnancy; and

(4) No procedural changes which may cause greater than minimal risk to the fetus or the pregnant woman will be introduced into the procedure for terminating the pregnancy solely in the interest of the activity.

(b) No inducements, monetary or otherwise, may be offered to terminate pregnancy for purposes of the activity.

**§ 46.207 Activities directed toward pregnant women as subjects.**

(a) No pregnant woman may be involved as a subject in an activity covered by this subpart unless: (1) The purpose of the activity is to meet the health needs of the mother and the fetus will be placed at risk only to the minimum extent necessary to meet such needs, or (2) the risk to the fetus is minimal.

(b) An activity permitted under paragraph (a) of this section may be conducted only if the mother and father are legally competent and have given their informed consent after having been fully informed regarding possible impact on the fetus, except that the father's informed consent need not be secured if: (1) The purpose of the activity is to meet the health needs of the mother; (2) his identity or whereabouts cannot reasonably be ascertained; (3) he is not reasonably available; or (4) the pregnancy resulted from rape.

**§ 46.208 Activities directed toward fetuses in utero as subjects.**

(a) No fetus *in utero* may be involved as a subject in any activity covered by this subpart unless: (1) The purpose of the activity is to meet the health needs of the particular fetus and the fetus will be placed at risk only to the minimum extent necessary to meet such needs, or (2) the risk to the fetus imposed by the re-

search is minimal and the purpose of the activity is the development of important biomedical knowledge which cannot be obtained by other means.

(b) An activity permitted under paragraph (a) of this section may be conducted only if the mother and father are legally competent and have given their informed consent, except that the father's consent need not be secured if: (1) His identity or whereabouts cannot reasonably be ascertained, (2) he is not reasonably available, or (3) the pregnancy resulted from rape.

**§ 46.209 Activities directed toward fetuses ex utero, including nonviable fetuses, as subjects.**

(a) No fetus *ex utero* may be involved as a subject in an activity covered by this subpart until it has been ascertained whether the particular fetus is viable, unless: (1) There will be no added risk to the fetus resulting from the activity, and (2) the purpose of the activity is the development of important biomedical knowledge which cannot be obtained by other means.

(b) No nonviable fetus may be involved as a subject in an activity covered by this subpart unless: (1) Vital functions of the fetus will not be artificially maintained except where the purpose of the activity is to develop new methods for enabling fetuses to survive to the point of viability, (2) experimental activities which of themselves would terminate the heartbeat or respiration of the fetus will not be employed, and (3) the purpose of the activity is the development of important biomedical knowledge which cannot be obtained by other means.

(c) In the event the fetus *ex utero* is found to be viable, it may be included as a subject in the activity only to the extent permitted by and in accordance with the requirements of other subparts of this part.

(d) An activity permitted under paragraph (a) or (b) of this section may be conducted only if the mother and father are legally competent and have given their informed consent, except that the father's informed consent need not be secured if: (1) his identity or whereabouts cannot reasonably be ascertained, (2) he is not reasonably available, or (3) the pregnancy resulted from rape.

**§ 46.210 Activities involving the dead fetus, fetal material, or the placenta.**

Activities involving the dead fetus, mascerated fetal material, or cells, tissue, or organs excised from a dead fetus shall be conducted only in accordance with any applicable State or local laws regarding such activities.

**§ 46.211 Modification or waiver of specific requirements.**

Upon the request of an applicant or offeror (with the approval of its Institutional Review Board), the Secretary may modify or waive specific requirements of this subpart, with the approval of the Ethical Advisory Board after such opportunity for public comment as the Ethical Advisory Board considers appropriate in the particular instance. In making such decisions, the Secretary will consider whether the risks to the subject are so outweighed by the sum of the benefit to the subject and the importance of the knowledge to be gained as to warrant such modification or waiver and that such benefits cannot be gained except through a modification or waiver. Any such modifications or waivers will be published as notices in the FEDERAL REGISTER.

**Subpart C—General Provisions**

**§ 46.301 Activities conducted by Department employees.**

The regulations of this part are applicable as well to all research, development, and related activities conducted by employees of the Department of Health, Education, and Welfare, except that each Principal Operating Component head may adopt such non-substantive procedural modifications as may be appropriate from an administrative standpoint.

---

THE NATIONAL COMMISSION FOR THE PROTECTION OF HUMAN SUBJECTS OF BIOMEDICAL AND BEHAVIORAL RESEARCH

RESEARCH ON THE FETUS

Report and Recommendations

MAY 21, 1975.

COMMISSIONERS

Kenneth John Ryan, M.D., Chairman, Chief of Staff, Boston Hospital for Women.
Joseph V. Brady, Ph.D., Professor of Behavioral Biology, Johns Hopkins University.
Robert E. Cooke, M.D., Vice Chancellor for Health Services, University of Wisconsin.
Dorothy I. Height, President, National Council of Negro Women, Inc.
Albert R. Jonsen, S.J., Ph.D., Adjunct Associate Professor of Bioethics, University of California at San Francisco.
Patricia King, J.D., Professor of Law, Georgetown University Law Center.
Karen A. Lebacqz, Ph.D., Assistant Professor of Christian Ethics, Pacific School of Religion.
David W. Louisell, J.D., Professor of Law, University of California at Berkeley.
Donald W. Seldin, M.D., Professor and Chairman, Department of Internal Medicine, University of Texas at Dallas.
Eliot Stellar, Ph.D., Provost of the University and Professor of Physiological Psychology, University of Pennsylvania.
Robert H. Turtle, LL.B., Attorney, VomBaur, Coburn, Simmons & Turtle, Washington, D.C.

COMMISSION STAFF

Charles U. Lowe, M.D., Executive Director.
Michael S. Yesley, J.D., Staff Director.
Duane Alexander, M.D., Pediatrics.
Edward Dixon, J.D., Attorney.
Bradford Gray, Ph. D., Sociology.
Miriam Kelty, Ph. D., Psychology.
Robert Levine, M.D., Internal Medicine.
Barbara Mishkin, M.A., Philosophy and Psychology.
R. Anne Ballard, Public Information Officer.
Bernice M. Lee, Administrative Assistant.

*Support Staff*

Mary K. Ball

IX. Recommendations.

## I. THE MANDATE

The National Research Act (Pub. L. 93-348) established the National Commission for the Protection of Human Subjects of Biomedical and Behavioral Research and gave the Commission a mandate to investigate and study research involving the living fetus, and to recommend whether and under what circumstances such research should be conducted or supported by the Department of Health, Education, and Welfare. A deadline of four months after the members of the Commission took office was imposed for the Commission to conduct its study and make recommendations to the Secretary, DHEW. The priority assigned by Congress to research involving the fetus indicates the concern that unconscionable acts involving the fetus may have been performed in the name of scientific inquiry, with only proxy consent on behalf of the fetus.

The members of the Commission determined at the outset to undertake a careful study of the nature and extent of research on the fetus, the range of views on the ethical acceptability of such research, and the legal issues involved, prior to formulating their recommendations. To this end, the Commission has accumulated an extensive body of information, held public hearings, questioned a panel of distinguished ethicists, and conducted lengthy deliberations. In the course of these activities, the Commission has given close scrutiny to many important questions that surround research on the fetus, for example: What are the purposes of research on the fetus? What procedures have been employed in such research? Are there alternatives to such research? Can appropriate consent to such research be obtained by proxy? Under what conditions may research be done on a fetus that is to be aborted, or a nonviable delivered fetus? What review of proposed research should be required?

In the remainder of Section I, the background and activities of the Commission are summarized, and the definitions used in this report are set forth. Reports, papers and testimony that were prepared for or presented to the Commission are summarized in Sections II to VII of this report. The Commission's own statement of its deliberations and conclusions appears in Section VIII, and the recommendations themselves are set forth in Section IX, together with a statement by a member of the Commission dissenting in part from the recommendations. Separate views of members of the Commission are set forth in Section X.

The Appendix to the report contains the entire text of the papers and reports that were prepared under contract to the Commission, and certain other materials that were reviewed by the Commission during its deliberations.

*Legislative background.* The National Research Act contains two provisions regarding research on the fetus; (1) the mandate to the Commission to conduct studies and make recommendations to the Secretary, DHEW (section 202(b)), and (2) a prohibition, in effect until the Commission has made recommendation, on "research [conducted or supported by DHEW] in the United States or abroad on a living human fetus, before or after the induced abortion of such fetus, unless such research is done for the purpose of assuring the survival of such fetus" (section 213). These two provisions were drafted by a conference committee that resolved the differences between the acts originally passed in 1973 by the House of Representatives and Senate, respectively.

The original House act contained a prohibition against the conduct or support by DHEW of research that would violate any ethical standard adopted by the National Institutes of Health or the National Institute of Mental Health. This provision was preceived as a prohibition of research on the living fetus, as a result of policy then in force at NIH. In addition, both the House and Senate acts contained floor amendments explicitly prohibiting the conduct or support of research on the fetus by DHEW. The House amendment, adopted by a vote of 354 to 9, proscribed research on a fetus that is outside the uterus and has a beating heart, while the Senate prohibition applied to research in connection with an abortion. Among other differences between the acts, the House prohibitions were permanent, while the Senate prohibition was temporary. The conference committee applies to research conducted imposing a moratorium until this Commission made recommendations. The moratorium adopted by the conference committee applies to research conducted on a fetus before or after an induced abortion of the fetus (except to assure the survival of the fetus); the mandate for the Commission's study and recommendations applies more generally to research involving the living fetus.

The Commission has reviewed the committee reports (Nos. 93-244, 93-381, and 93-1148), and the record of the floor debate that led to the passage of the National Research Act (*Congressional Record*, daily eds. May 31, 1973; September 11, 1973; June 27 and 28, 1974). Other legislative materials that have been reviewed include the Hearings on Biomedical Research Ethics and the Protection of Human Subjects, before the House Subcommittee on Public Health and Environment (September 27 and 28, 1973), and the Hearing on Fetal Research before the Senate Subcommittee on Health (July 19, 1974).

It is clear from the legislative history that the National Research Act, as passed by both Houses and signed into law by President Nixon on July 12, 1974, reflects an acknowledgement by the majority of legislators that the issues surrounding research on the fetus require much study and deliberation before policies are established regarding support by the Secretary, DHEW. That assignment was given to the Commission, and this report describes how the assignment was carried out and the conclusions that were reached.

*Existing codes and other relevant material.* To assist its deliberations, the Commission referred to the following pre-existing codes and other materials relating to human experimentation:

1. *The Nuremberg Code* (1946-1949).
2. *The Declaration of Helsinki* (revised, 1964).
3. *The Use of Fetuses and Fetal Material for Research*, Report of the Advisory Group, chaired by Sir John Peel (London, 1972).
4. *Protection of Human Subjects: Policies and Procedures*, draft document of the Department of Health, Education, and Welfare (38 FEDERAL REGISTER No. 221, Part II, November 16, 1973).
5. *Protection of Human Subjects: Proposed Policy*, Department of Health, Education, and Welfare (39 FEDERAL REGISTER No. 165, Part III, August 23, 1974).

(The above documents are included in the Appendix to this report.)

*Meetings of the Commission.* Secretary Weinberger administered the oath of office to the members of the Commission on December 3, 1974, thereby fixing the deadline for this report. Section 202(b) of the National Research Act requires that recommendations of the Commission with respect to research on the living fetus be transmitted to the Secretary "not later than the expiration of the 4-month period beginning on the first day of the first month that follows the date on which all members of the Commission have taken office." This 4-month period expired April 30, 1975.

The Commission conducted seven meetings devoted primarily to the topic of research on the fetus. These meetings were well attended by the public. One day of the February meeting was devoted to a public hearing of the views of persons interested in research on the fetus; oral testimony was given by 23 witnesses, some representing research, religious or other organizations and some appearing as concerned citizens to express their viewpoints (see Section VI for summaries of the views presented). At the March meeting, three public officials testified about the involvement of their respective agencies or offices in research on the fetus (see Section VI), and the members of the Commission held a roundtable discussion with several ethicists who had prepared papers covering a wide spectrum of secular opinion and religious persuasion (see Section V for summaries of these papers).

*Studies and investigations.* The Commission contracted for a number of studies and investigations. These included a study, undertaken primarily through review of the literature, of the nature, extent and purposes of research on the fetus, conducted under contract with Yale University (see Section II); an historical study of the role of research involving living fetuses in certain advances in medical science and practice, conducted under contract with Battelle Columbus Laboratories (see Section III); and a study utilizing available data to establish guidelines for determining fetal viability and death, conducted under contract with Columbia University (see Section VII).

In addition to these studies, papers outlining their views on research on the fetus were prepared by the following ethicists and philosophers: Sissela Bok of Harvard University; Joseph Fletcher of the Institute of Religion and Human Development; Marc Lappé of the Hastings Institute of Society, Ethics, and the Life Sciences; Richard McCormick and LeRoy Walters of the Kennedy Institute for the Study of Human Reproduction and Bioethics; Paul Ramsey of Princeton University; Seymour Siegel of the Jewish Theological Seminary; and Richard Wasserstrom of the University of California at Los Angeles (see Section V). Stephen Toulmin, of the University of Chicago, prepared an analysis of the ethical views that were presented to the Commission, identifying areas of consensus as well as divergence. Leon Kass, of Georgetown University, prepared a philosophical paper on the determination of fetal viability and death (see Section VII). Papers on the legal issues of research on the fetus were prepared by Alexander M. Capron, of the University of Pennsylvania Law School, and John P. Wilson, of Boston University Law School (see Section IV).

(All of the above studies, investigations and papers appear in the Appendix.)

*Definitions.* For the purposes of this report, the Commission has used the following definitions which, in some instances, differ from medical, legal or common usage. These definitions have been adopted in the interest of clarity and to conform to the language used in the legislative mandate.

*"Fetus"* refers to the human from the time of implantation until a determination is made following delivery that it is viable or possibly viable. If it is viable or possibly viable, it is thereupon designated an infant. (Hereafter, the term "fetus" will refer to a living fetus unless otherwise specified.)

*"Viable infant"* refers to an infant likely to survive to the point of sustaining life independently, given the support of available medical technology. This judgment is made by a physician.

*"Possibly viable infant"* means the fetus *ex utero* which has not yet been determined to be viable or nonviable. This is

a decision to be made by a physician. Operationally, the physician may consider that an infant with a gestational age of 20 to 24 weeks (five to six lunar months; four and one-half to five and one-half calendar months) and a weight between 500 to 600 grams may fall into this indeterminate category. These indices depend upon present technology and should be reviewed periodically.

*"Nonviable fetus"* refers to the fetus *ex utero* which, although it is living, cannot possibly survive to the point of sustaining life independently, given the support of available medical technology. Although it may be presumed that a fetus is nonviable at a gestational age less than 20 weeks (five lunar months; four and one-half calendar months) and weight less than 500 grams, a specific determination as to viability must be made by a physician in each instance. The Commission is not aware of any well-documented instances of survival of infants of less than 24 weeks (six lunar months; five and one-half calendar months) gestational age and weighing less than 600 grams; it has chosen lower indices to provide a margin of safety. These indices depend upon present technology and should be reviewed periodically.

*"Dead fetus" ex utero* refers to a fetus *ex utero* which exhibits neither heartbeat, spontaneous respiratory activity, spontaneous movement of voluntary muscles, or pulsation of umbilical cord (if still attached). Generally, some organs, tissues and cells (referred to collectively as fetal tissue) remain alive for varying periods of time after the total organism is dead.

*"Fetal material"* refers to the placenta, amniotic fluid, fetal membranes and the umbilical cord.

*"Research"* refers to the systematic collection of data or observations in accordance with a designed protocol.

*"Therapeutic research"* refers to research designed to improve the health condition of the research subject by prophylactic, diagnostic or treatment methods that depart from standard medical practice but hold out a reasonable expectation of success.

*"Nontherapeutic research"* refers to research not designed to improve the health condition of the research subject by prophylactic, diagnostic or treatment methods.

II. The Nature and Extent of Research Involving the Fetus and the Purposes for Which Such Research Has Been Undertaken

An extensive review of the scientific literature, focusing on a period covering the last 10 years, formed the basis for the Commission's investigation of the nature, extent and purposes of research on the fetus. The review was conducted under contract with Yale University, Maurice J. Mahoney, M.D., Principal Investigator. The investigation included an all-language review of published research, utilizing the MEDLARS computer indexing and search system of the National Library of Medicine, a review of selected bibliographies and abstracts, a survey of departments of pediatrics and obstetrics at medical schools in the United States and Canada to identify current research on the fetus, and a review of NIH grant applications and contracts since 1972 involving research on the fetus. In addition, the Food and Drug Administration provided information on fetal research conducted in fulfillment of its regulations.

For the purpose of summarizing the review, research involving the fetus has been considered in four general categories.

1. *Assessment of fetal growth and development in utero.* Over 600 publications dealing with investigations of fetal development and physiology were identified. In general, the purpose of these investigations was to obtain information on normal developmental processes, as a basis for detecting and understanding abnormal processes and ultimately treating the fetal patient. To this end, numerous experimental approaches were employed.

Studies of normal fetal growth relied primarily on anatomic studies of the dead fetus. Studies of fetal physiology involved both the fetus *in utero* and organs and tissues removed from the dead fetus. In some instances, this research required administration of a substance to the mother prior to an abortion or delivery by caesarean section, followed by analysis to detect the presence of the substance or its metabolic effects in blood from the umbilical cord or in tissues from the dead fetus. Information on the normal volume of amniotic fluid at various stages of pregnancy was obtained by injecting a substance into the fluid and assessing the degree of dilution of that substance; these studies were performed before abortion, during management of disease states (Rh disease), and in normal term pregnancies. Similarly, numerous chemicals were measured in amniotic fluid to establish normal data.

Research also focused on the development of fetal behavior *in utero*. Fetal breathing movements were detected by ultrasound as early as 13 weeks after conception. Fetal hearing was documented by demonstrating changes in fetal heart rate or EEG in response to sound transmitted through the mother's abdomen. Vision was inferred from changes in fetal heart rate in response to light shined transabdominally. Increased rates of fetal swallowing after injection of saccharin into amniotic fluid suggested the presence of fetal taste capability. Observation of the fetus outside the uterus indicated response to touch at 7 weeks and the presence of swallowing movements at 12 weeks of gestation.

2. *Diagnosis of fetal disease or abnormality.* Well over 1000 papers have been published in the last 10 years dealing with intrauterine diagnosis of fetal disease or abnormality. Much of this research involved amniocentesis, a procedure in which a needle is inserted through the mother's abdomen into the uterus and amniotic fluid is removed for analysis. Amniocentesis originally came into extensive use for monitoring the status of the fetus affected by Rh disease in the third trimester of pregnancy. Research related to treating Rh disease indicated that the yellow color of the amniotic fluid correlated with the severity of anemia in the fetus. This color index later was used as an indication of the need for intrauterine transfusion, a procedure subsequently developed to treat severely affected infants.

The knowledge that amniocentesis was safe in the third trimester of pregnancy, coupled with the demonstration that cells shed from the skin of the fetus into the amniotic fluid could be grown in tissue culture, led to application of amniocentesis to detection of genetic disease in the second trimester. The research conducted in developing this procedure focused first on demonstrating in fetal cells from amniotic fluid the normal values for enzymes known to be defective in genetic disease. The research was conducted largely on amniotic fluid samples withdrawn as a routine part of the procedure of inducing abortion. Once it had been demonstrated that the enzyme was expressed in fetal cells and normal values were known, application to diagnosis of the abnormal condition in the fetus at risk was undertaken. The reported research documents a steady progression in development and application of amniocentesis, so that potentially over 60 inborn errors of metabolism (such as Tay-Sachs disease) and virtually all chromosome abnormalities (such as Down's syndrome), as well as the lack of these defects in the fetus at risk, can be diagnosed *in utero*, at a time when the mother can elect therapeutic abortion of an affected fetus.

Research directed at prenatal diagnosis of disease currently focuses on three main objectives. The first involves attempts to extend diagnostic capability to additional diseases, such as cystic fibrosis of the pancreas, which cannot now be detected by amniocentesis. A second approach attempts to detect fetal cells in the maternal circulation and separate these from maternal cells for chemical analysis, thus avoiding any risks and difficulties encountered during amniocentesis. The third direction is the development of fetoscopy, a process by which an instrument is inserted into the uterus and a sample of fetal blood is obtained from the placenta under direct visualization. The blood sample is analyzed to diagnose disorders such as sickle cell disease or thalassemia which cannot be detected by amniocentesis. The time needed for laboratory analysis following fetoscopy is markedly shorter than the four to six weeks required to obtain tissue culture results in amniocentesis. Fetoscopy also permits visual examination of the fetus for external physical defects.

Because of the unknown but theoretically significant risks that remained following animal studies, fetoscopy was developed selectively in women undergoing elective abortion. The first clinical applications have been reported in recent months: three fetuses at risk for beta-thalassemia, whose mothers were seeking abortion to avoid the possibility of having an affected child, were diagnosed as free of disease following fetoscopy. All three have been born and are normal.

Research has also been directed at the identification of physical defects in the developing fetus. The most handicapping defects are those of the neural tube (anencephaly or meningomyelocele). Initial research efforts were devoted to developing X-ray techniques to view the fetus for these defects by injection of radioopaque substances into amniotic fluid (amniography or fetography). These studies primarily involved women having a family history of neural tube defects and whose fetuses were consequently at increased risk. More recently, elevated levels of alpha fetoprotein in amniotic fluid (or maternal blood) were found to be associated with neural tube defects, and may serve as a screening test for these disorders. Ultrasound has come into use to determine internal and external structural detail of the developing fetus and thereby to detect anencephaly, meningomyelocele, and even congenital heart disease.

Amniocentesis also opened another area of fetal research: the assessment of fetal lung maturity. Studies of normal amniotic fluid in the last trimester of pregnancy provided an indication that increased concentrations of lecithin relative to sphingomyelin reflect maturation of the fetal lung; infants with mature lungs did not develop respiratory distress. This predictive test (the L/S ratio) was applied when women went into premature labor, or when induced delivery was indicated due to Rh disease or maternal diabetes, to assess risk that the delivered infant would develop respiratory distress. When the lungs were immature, delivery could be delayed, depending on the relative risks of intrauterine versus extrauterine life. In the last three years, attempts to induce fetal lung maturation by administration of cortico-steroids to the mother have added a new dimension to this clinical situation. Following animal studies indicating that this procedure was safe and effective, human studies were undertaken intending to benefit the fetus involved. Results reported to date suggest that the procedure is successful, but studies of possible long-term side effects of this intrauterine therapy are continuing.

Assessment of fetal well-being is another goal of fetal research. Ultrasound has been used to assess fetal size and gestational age, and to monitor fetal respiratory movements, certain types of which have been found to indicate fetal distress. Studies of hormones, metabolic products and chemicals in amniotic fluid (and in maternal blood and urine) identified numerous substances associated with either abnormalities of fetal growth or with fetal distress. In the last decade, monitoring the fetal heart rate and sampling fetal scalp blood during labor developed from research techniques to clinical application for indication of fetal distress.

3. *Fetal pharmacology and therapy.* Over 400 publications in the last 10 years involving fetal pharmacology were identified in the literature search; less than 20 percent of these included research on the living fetus. Of the latter studies, the majority were coincidental studies conducted as an adjunct to clinically accepted procedures. For example, the largest category encompassed studies of transplacental drug movement or effects on the fetus of analgesic or anesthetic agents given to the mother during labor and delivery.

The research techniques employed in investigations of this type included antepartum transfusion of the fetus with blood containing drugs, and administration of drugs or agents to the mother for therapeutic or research reasons. The ensuing studies involved assessment of effects on the fetal electrocardiogram, determination of fetal movements or structures by ultrasound, amniotic fluid sampling, scalp or umbilical cord blood sampling, and studying placental passage and fetal distribution patterns in tissues of the dead fetus. The studies were conducted either prior to abortion or in normal pregnancies, usually at the time of delivery.

In general, studies to determine the effects of a drug on the fetus were retrospective, involved the fetus incidentally or after death, or involved the infant, child or adult. Thus, all studies of the influence of oral contraceptives or other drugs on multiple births or congenital abnormalities were retrospective. Study of the effects on the fetus of drugs administered to treat maternal illness during pregnancy (including anticonvulsants, antibiotics, hormones and psychopharmacologic agents) in which the fetus was an incidental participant, were also largely retrospective. Studies of effects on the fetus and newborn infant of analgesic and anesthetic agents given at delivery also involved the fetus incidentally, but were conducted prospectively. Recently attempts were made to focus prospective pharmacologic studies of antibiotics intentionally, rather than incidentally, on the fetus. Different antibiotics were administered to pregnant women before abortion to compare quantitative movement of these agents across the placenta, as well as absolute levels achieved in fetal tissues. The results served as a guideline for drug selection to treat intrauterine infections, particularly syphilis. Studies conducted on the dead fetus after abortion showed the clear superiority of one drug over the other.

In addition to assessing effects of drugs on the fetus and measuring placental transfer of drugs, fetal pharmacologic research included attempts to modify drug structures so that they will or will not cross the placenta to affect the fetus. Such research also included study of the effects of certain drugs (such as phenobarbital or corticosteroids) in inducing enzyme activity in the fetus (to prevent hyperbilirubinemia or speed fetal lung maturation and prevent respiratory distress syndrome).

Effects on the fetus of live attenuated virus vaccines administered to the mother were also examined. Preliminary testing of rubella vaccine in monkeys indicated that the vaccine virus did not cross the placenta. In contrast, studies on women requesting therapeutic abortion showed clearly that the vaccine virus did indeed cross the placenta and infect the fetus, indicating the danger of administering the vaccine during pregnancy. Similarly, a study conducted with mumps vaccine virus showed that the virus infected the placenta, but not the fetus.

Attempts at fetal therapy *in utero*, in addition to blood transfusion for Rh disease and corticosteroid administration to speed fetal lung maturity, were conducted recently as an adjunct to amniocentesis. Examples of this type of fetal therapy include the administration of hydrocortisone to the fetus *in utero* to treat the adrenogenital syndrome, maternal dietary therapy for fetal galactosemia, and administration to the mother of large doses of vitamin $B_{12}$ to treat fetal methylmalonic acidemia.

4. *Research involving the nonviable fetus.* The quantity of research on the nonviable fetus *ex utero* has been small; much of such research included the nonviable fetus only as the extreme end of the spectrum of studies of premature infants. Such studies included measurements of amino acid levels in plasma of infants with intrauterine malnutrition, administration of bromide to measure total body water in low birth weight infants, and the study of hemoglobin in blood from the umbilical cord as an indicator of fetal maturity. The purpose of this research was to gain information that could be of benefit to other fetuses and infants.

Research was also conducted involving the nonviable fetus during abortion by hysterotomy but before the fetus and placenta were physically removed from the uterus. A study conducted in the United States reported the feasibility of delivering a portion of the umbilical cord from the uterus and using it as a site for drug administration and blood sampling. Another study, this one undertaken in Finland, employed the technique to infuse noradrenaline via the umbilical vein; study of metabolites subsequently obtained demonstrated the functional maturity of the fetal sympathetic nervous system. Several studies in Sweden used similar techniques: radiolabeled chemicals were administered to the fetus via the umbilical vessels, and metabolites were then studied in the umbilical vein and, following completion of the abortion, in the fetus. In another Finnish study, arginine and insulin were injected into blood vessels of 8 fetuses (450–600 grams) with the placenta attached to the uterus, and blood samples were taken from the umbilical cord to assess fetal endocrine regulation of glucose metabolism. These studies were conducted solely to gain information on fetal metabolism for the benefit of other fetuses and infants.

The nonviable fetus was the subject of research to develop a life-support system

("artificial placenta") for sustaining very small premature infants, as well as to obtain data on normal fetal physiology. Some of this life support system research was conducted only with larger infants (viable by weight criteria) who had failed on respirators and were tried on experimental systems as an ultimate therapeutic effort to achieve survival. Of the published studies with clearly nonviable fetuses, one was conducted in the United States. Published in 1963, this research involved 15 fetuses, obtained following therapeutic abortion at 9–24 weeks gestational age. The fetuses were immersed in salt solution containing oxygen at extremely high pressure, in an attempt to provide oxygen for the fetus through the skin. The longest survival was 22 hours. In an earlier study in Scandinavia, 7 fetuses weighing 200–375 grams, from both spontaneous and induced abortions, were perfused with oxygenated blood through the umbilical vessels. Longest survival was 12 hours. A third study, conducted in England, utilized a similar method and included 8 fetuses obtained following hysterotomy abortion and weighing 300–980 grams. Longest survival was 5 hours. No other studies of this type involving nonviable fetuses were found in the literature review.

Studies of fetal physiology conducted on the delivered fetus utilized several experimental approaches. In a study conducted in Sweden, the intact fetal-placental unit obtained by hysterotomy abortion was removed and utilized for perfusion studies. A study performed in England involved cannulating the carotid and umbilical arteries of the aborted fetus and measuring fetal glucose levels in response to administration of growth hormone. Four fetuses from hysterotomy abortions at 16–20 weeks gestation were perfused via the umbilical vessels in a study in Scotland which demonstrated that the fetus could synthesize estriol independent of the placenta. A similar study by the same investigators involving six fetuses demonstrated that the 16–20 week fetus could synthesize testosterone from progesterone. To learn whether the human fetal brain could metabolize ketone bodies as an alternative to glucose, brain metabolism was isolated in 8 human fetuses (12–17 weeks gestation) after hysterotomy abortion by perfusing the head separated from the rest of the body. This study, conducted in Finland, demonstrated that the human fetus, like previously studied animal fetuses, could modify metabolic processes to utilize ketone bodies.

These studies of the nonviable fetus represent the total number reported in the world scientific literature, as well as could be ascertained from review of the most comprehensive bibliographic search ever undertaken of research involving the human fetus. The total number of citations involving fetal research was well in excess of 3000; the reports of research on the nonviable fetus that were found numbered less than 20. Certainly some reports of such research may have been missed even by this thorough review, but it is safe to conclude that the amount of research conducted on the nonviable fetus has been extremely limited. Of the principal investigators conducting this type of research, three were from the United States; two of these investigators conducted their research abroad. The only research conducted in the United States on the nonviable fetus *ex utero* was the study involving attempts to develop an artificial life support system. The literature survey disclosed no reports of research conducted in the United States on the nonviable fetus intended solely to obtain information on normal physiologic function.

In summary, research involving the fetus includes a broad spectrum of studies of the fetus both inside and outside the uterus. The research may be as innocuous as observation, or involve mild manipulation such as weighing or measuring, or more extensive manipulation such as altering the environment, administering a drug or agent, or noninvasive monitoring. Diagnostic studies may involve sampling amniotic fluid, urine, blood, or spinal fluid, or performing biopsies. The most extensive or invasive procedures include perfusion studies and other attempts to maintain function.

The extent of research on the fetus is reflected by the more than 3000 citations included in the literature review of such research. Most involved the fetus *in utero*; less than 20 articles involved the nonviable fetus.

The purposes for which research on the fetus has been undertaken include obtaining knowledge of normal fetal growth and development as a basis for understanding the abnormal; diagnosing fetal disease or abnormality; studying fetal pharmacology and the effects of chemical and other agents on the fetus, in order to develop fetal therapy; and developing techniques to save the lives of ever smaller premature infants.

### III. Alternative Means for Achieving the Purposes for Which Research Involving Living Fetuses Has Been Undertaken

In the development of new medical procedures or drugs to be employed in the treatment of humans, research is usually initiated with animal models, which are used until probable effectiveness and low degree of risk are determined. Ultimately, it becomes necessary to conduct the research on humans, since initial human applications are experimental regardless of the amount of preceding animal research. In some instances, pertinent animal models may not exist or may have certain limitations, so that studies on humans begin at a relatively early stage. In all instances, however, the question may be asked whether studies on humans began at an appropriate time, or whether the information that was required could have been obtained using alternative research means, i.e., studies on animal models.

The broad nature of the survey of the nature and extent of research on the fetus (Section II) did not permit detailed evaluation of alternative means. Therefore, the Commission contracted with Battelle Columbus Laboratories to conduct a more intensive analysis of this issue in connection with four advances in which research on the fetus played a part. The Battelle report to the Commission traces the historical development of (1) rubella vaccine, (2) the use of amniocentesis for prenatal diagnosis of genetic defects, (3) the diagnosis and treatment, as well as prevention, of Rh isoimmunization disease, and (4) the management of respiratory distress syndrome. The study identifies pertinent animal research that was conducted and attempts to assess whether the human research was necessary and appropriate, or whether animal models could have been substituted. Finally, the study evaluates the likelihood that the advance would have been achieved if all research on the fetus, both therapeutic and nontherapeutic, had been prohibited. In preparing the report and analysis, extensive bibliographies on each topic, prepared by staff of the National Library of Medicine, were utilized. In addition, a number of scientists whose research had been of greatest importance to the advances were interviewed.

1. In the case of *congenital rubella syndrome*, descriptions of the condition (which comprises congenital heart disease, cataracts, deafness and mental retardation) and its etiology (maternal rubella infection during pregnancy) were drawn from research on the living child and material from dead fetuses. Attenuation of the rubella virus for vaccine purposes was accomplished in tissue culture using nonhuman cells. Vaccine trials were conducted on adults and children. The vaccine was found safe and effective, and it was licensed in 1969, 28 years after the congenital rubella syndrome was first described.

No research on the living human fetus was required to develop the vaccine. A question remained, however, as to the safety of administering the vaccine during pregnancy or to women in the childbearing years. Should a pregnant woman, without immunity to rubella, be vaccinated to prevent the risk to the fetus that would ensue if she contracted natural rubella? Some experimental animal models for the rubella condition had been developed, the rhesus monkey being the closest one to the human. Accordingly, pregnant monkeys were inoculated with either rubella virus or the vaccine virus. Subsequent study showed that five of six monkey fetuses whose mothers received slightly attenuated rubella virus were infected, but none of the six monkey fetuses whose mothers received vaccine virus was infected. Thus, the animal model suggested that the vaccine virus did not cross the placenta and was safe to administer during pregnancy, although other vaccine viruses were known to cross the human placenta.

Human studies were then undertaken. Because of the potential risk to the fetus, women requesting therapeutic abortion were employed as subjects. These volunteers received the vaccine and underwent the abortion 11 to 30 days later. Examination of tissues from the dead aborted fetuses showed that, in contrast to the results in monkeys, the vaccine virus did cross the human placenta and infect the fetus. On the basis of this research involving the fetus in anticipation of abortion, as well as subsequent reports of damage to the fetus following accidental rubella vaccination during pregnancy, administration of rubella vaccine to pregnant women or women who might become pregnant within 60 days of vaccination is proscribed.

Two alternatives to the planned testing of rubella vaccine on pregnant women in anticipation of abortion can be considered. First, more extensive animal testing of the vaccine could have been conducted. The usefulness of such a procedure, however, would be questionable. Based on prior experience with the inconsistencies of placental passage of any agent, the human situation would remain unknown after any amount of animal testing. Testing in the human is still required even after negative results in animal models, with the same safeguards as if no animal testing had been conducted.

The second alternative would be to wait for the accidental vaccination of pregnant women and observe the outcome. This in fact occurred in several instances after the planned testing. The women involved, who had wanted pregnancies, elected instead to terminate their pregnancies by abortion due to the risk to the fetus, and studies of tissue from the dead fetuses confirmed that they had been infected by the virus. Thus, the effect in humans could have been learned in this instance by retrospective research. At issue here in the selection of alternatives is the question whether it is preferable to proceed by design with women planning abortions, or to work retrospectively with women who desire pregnancy but were accidentally vaccinated.

2. The use of *amniocentesis* (removal of amniotic fluid via a needle inserted into the uterus through the mother's abdomen) as a clinical procedure dates from 1882, when it was introduced as a treatment for polyhydramnios (excess accumulation of amniotic fluid). There is no evidence that animal studies were conducted prior to that time, and comparatively little research has been done on amniocentesis as a procedure apart from its applications. The Battelle study of amniocentesis thus involved evaluation of the uses to which the procedure has been put, as well as alternative means for developing the procedure. Amniocentesis has found application in three main areas of research: prenatal diagnosis of genetic disease, diagnosis of Rh disease, and assessment of fetal maturity related to respiratory distress syndrome. Its use in the latter two areas will be discussed in parts 3 and 4 of this section.

Two lines of research provided impetus for prenatal diagnosis of genetic disease: development of the technology for tissue culture and identification of the sex chromatin as an indicator of sex in single cells. In 1955 it was shown that fetal sex could be predicted from the sex chromatin pattern of amniotic fluid cells. Application of this technique to prenatal detection of sex-linked disorders was first reported in 1960. Rapid progress in tissue culture research led to success in culturing fetal amniotic fluid cells in 1966, intrauterine diagnosis of a chromosome abnormality in 1967, and the first intrauterine diagnosis of metabolic disorders using cultured amniotic fluid cells in the following year. Research in this area steadily expanded as chromosomal and metabolic disorders were added to the list of conditions diagnosable *in utero*. At present, virtually any chromosomal anomaly and potentially over 60 metabolic disorders can be detected prenatally by amniocentesis. The possibility of diagnosis and selective abortion of abnormal fetuses has enabled the birth of normal children to families that otherwise would not have risked pregnancy, and has permitted families to avoid the impact of the birth of a defective or doomed child.

All research to detect genetic defects involved the living human fetus. Much of it utilized amniotic fluid obtained in the normal course of abortion, in order to ascertain normal values. Such research was obviously nonbeneficial for the fetuses involved. Only research conducted on women at risk for having a fetus with the disorder in question could be considered beneficial, in that many of these women desired an abortion unless it could be shown that the fetus would be normal.

An alternative means to develop the procedure of amniocentesis would have been to conduct more extensive animal research. Animal models have numerous limitations with regard to amniocentesis, however, including shape of the pelvis, size and shape of the uterus, number of fetuses present (which confounds cell analysis), and the marked irritability of the uterus in many species such that even slight manipulation induces abortion, fetal resorption or congenital malformations. Recently some animals have been found in which amniocentesis can be performed, but even in these it is difficult in mid-pregnancy, when it must be done for effective intrauterine diagnosis of genetic defects.

While animal models might have been utilized more extensively in developing the technique of amniocentesis, there is no alternative to human experimentation for the purpose of developing the diagnostic tests for genetic metabolic disorders used with amniocentesis. The conditions are unique to the human species. Only by study of cells in amniotic fluid from pregnant humans, both normal and those at risk for genetic disease in the fetus, was it possible to assess whether the genetic defect was expressed in these cells, and to determine the normal and abnormal values for the responsible enzymes in the cells as the basis for prenatal diagnosis. This research utilized only amniotic fluid and the fetal cells in it, and thus was not invasive of the fetus. In the early stages of developing the technique, however, the possible risks to the fetus were greater than those for many invasive procedures.

3. The history of *Rh isoimmunization disease* encompasses the description of the disorder, determination of its cause, initiation of successful treatment, and development of effective prevention, all within four decades. Characterization of this disorder, which combines hemolytic anemia, jaundice, and intrauterine death or (if delivered) severe brain damage, was accomplished in the 1930's from study of autopsy material and newborn infants. Research on blood groups, utilizing both human and animal material, led in 1941 to the demonstration from studies of mothers and newborns that Rh sensitization in an Rh negative mother to an Rh positive fetus produced hemolytic anemia in the fetus. In 1945, treatment of affected newborn infants by exchange transfusion was initiated and mortality began to decline.

Use of amniocentesis was introduced in 1956 to obtain amniotic fluid which provided an indicator of how severely the fetus was affected and, late in pregnancy, whether labor should be induced to enable treatment of the fetus outside the uterus. In 1963, treatment of the severely affected fetus by intrauterine blood transfusion was initiated, resulting in a 60 percent reduction of the stillbirth rate for affected infants. Ongoing studies of the etiology of the disease, using pregnant women, provided indications that sensitization of the mother usually occurred at the time of delivery of her first Rh positive infant, when a large volume of fetal Rh positive cells entered the mother's circulation. As the result of research conducted largely with prisoners, a vaccine was developed to prevent this sensitization. Trials of the vaccine, administered to women after delivery, began in 1964. Results indicated virtually complete effectiveness, and the vaccine (RhoGam) became commercially available in 1968.

Research on the fetus played no part in developing the RhoGam vaccine, but such research was essential in demonstrating the basic cause of the disease and in developing methods for prenatal diagnosis and treatment. All significant research on the fetus related to Rh disease was conducted on mothers and fetuses at risk for the disease, and can be categorized as beneficial research. The size of the benefits achieved may be appreciated by reviewing statistics related to the disorder. Approximately 12 percent of couples in the United States are at risk for having an affected infant. Nearly 25,000 infants could be affected yearly. Since initiation of exchange transfusion, neonatal mortality of affected infants has dropped to about 2.5 percent. Intrauterine transfusion has reduced the annual number of stillbirths due to the disease from 10,000 to less than half that number. The entire amount of money used to support Rh disease research from 1930 through the successful development of the vaccine in 1966 is the equivalent of the present cost to society

for lifetime care of six children irreparably brain damaged by the disease.

Limited animal models were available for study of Rh disease and were utilized in some instances. Intrauterine transfusion, for example, was first conducted on animals. Extensive research has been conducted to develop an animal model of the actual disease, but the hamadrayas baboon is the only species that has been found in which the disease is sufficiently similar to the condition in man for the animal to serve as a useful model. The limitations of animal models and the urgency of developing a treatment for fetuses otherwise likely to die led physician researchers to attempt experimental therapy with favorable risk/benefit ratio in hunam subjects. In these instances, the risk of not doing the research was approximately 50 percent intrauterine death; in the face of such odds, even such a hazardous experimental therapeutic procedure as intrauterine transfusion was considered acceptable.

4. *Respiratory distress syndrome* (RDS) is a major cause of infant mortality. In the United States approximately 40,000 cases occur annually; 95 percent of these cases are premature infants, and overall mortality is in excess of 25 percent. Study of the development of advances related to this condition revealed a picture of frequent interaction of animal model and clinical studies involving the living human fetus in the third trimester. In addition, advances in therapy were achieved from research involving affected premature infants.

The key experimental work elucidating the basic cause of the condition involved study of the lungs of deceased infants who died of RDS or other causes. This research indicated that lungs of infants with RDS lacked a chemical (surfactant) which acted to keep open the smallest air passages in the lung; surfactant was present in the lungs of unaffected infants. Subsequent studies, again relying primarily on autopsy material, delineated the biochemistry of surfactant, and it was suggested that amniotic fluid might provide an indicator of the presence of surfactant. Studies were then conducted of amniotic fluid obtained at various stages in the last trimester of pregnancy, solely to learn the normal values of the phospholipid components of surfactant; this research was nonbeneficial for the fetuses involved. Results indicated that a marked increase in the content of lecithin relative to sphingomyelin in amniotic fluid correlated with the appearance of surfactant in the fetal lung, and indicated that the lungs were mature enough that the fetus, if delivered, would probably not develop RDS. The report of these studies in 1971 strongly influenced obstetric management of premature labor and diabetic pregnancy, by providing an index of the time when delivery could proceed with minimum risk of RDS.

Another line of research quickly had an impact on RDS management. Animal studies in the 1950's showed that steroids were capable of inducing enzyme activity in the fetus. Studies involving the pregnant woman and the living fetus in 1961 demonstrated that cortisone crossed the human placenta. Animal studies in the late 1960's and early 1970's indicated that corticosteroid could induce enzymes and thereby increase surfactant in fetal lungs. In the species studied (lambs, rabbits and rats) the steroids did not cross the placenta and had to be administered directly to the fetus. Based on the previous demonstration that steroids crossed the human placenta, and later clinical studies of mothers receiving steroid therapy during pregnancy that had not suggested any ill effects on the fetus, clinical trials were initiated in pregnant women at risk of having infants affected by RDS. The results obtained to date indicate that corticosteroids are highly effective in preventing RDS, without undesirable side effects. Although the treatment remains experimental, it holds promise for markedly reducing the incidence of RDS.

The interplay between animal and human studies was essential in achieveing the advances in clinical management and prevention of RDS. Relevant animal models were used when available, and although no extensive search for an animal model was evident before the human steroid trials, the research appeared to be a logical and carefully planned step undertaken to provide therapy for a condition of high risk to the fetuses treated.

The following conclusions are drawn from the Battelle study:

A. Animal models were utilized extensively, but adequate and appropriate models were not always available when they were needed. In some instances little or no animal research preceded human studies. In other instances intensive searches for animal models were undertaken (as in Rh disease), but investigators appear to have been reluctant to postpone therapeutic research until an animal model was found.

B. Investigators generally proceeded to clinical trials characterized by very high ratios of benefit to risk.

C. A total ban on all research on the fetus, or postponement of such research until more appropriate and exact animal models were sought and studied, would probably have significantly delayed or halted indefinitely the progress in three of the four areas that were analyzed. Only development of the rubella vaccine could have progressed unimpeded.

A more limited ban would have had less effect, depending on the nature and scope of the prohibitions imposed. For example, a ban only on nontherapeutic research on the fetus would not have affected research on Rh disease, but would have sharply curtailed research with amniocentesis, due to the resulting inability to determine normal values for abnormal enzymes in metabolic disorders. The research which developed L/S ratios, used in RDS diagnosis, might have been possible making use of fluid obtained during caesarean sections or in Rh disease studies. A selective ban on research before or after induced abortion would clearly have permitted the L/S ratio research for RDS diagnosis, but could still have severely curtailed development of amniocentesis for prenatal diagnosis by making ascertainment of normal values extremely difficult. A ban on invasive research on the fetus would have permitted development of amniocentesis, although the risks to the fetus from this noninvasive procedure were potentially greater than those from many invasive procedures.

### IV. Legal Issues

Papers on the legal issues involved in research on the fetus were prepared for the Commission by Professor Alexander M. Capron, University of Pennsylvania Law School, and Assistant Dean John P. Wilson, Boston University School of Law. Both papers are structured, at least in part, according to categories of research, that is, whether the research is therapeutic or nontherapeutic, whether the fetal subject is viable, nonviable or dead, and whether it is inside or outside the uterus. The interests of the fetus at different stages of development are balanced against the interests of other parties, and the protection of fetal interests is addressed in discussion of appropriate consent requirements. A summary of both papers follows.

*The dead fetus.* The Uniform Anatomical Gift Act (UAGA), which has been adopted in all fifty states and the District of Columbia, permits research on the dead fetus and the products of conception, provided consent has been given by either parent and the other parent has not objected. Professor Capron states that the UAGA should be read in the context of common law requirements on consent; thus, the authorization should be "informed" and "voluntary". In the latter regard, consent should not unnecessarily be sought immediately before or after an abortion. Dean Wilson suggests that it is wise to require the consent of both parents.

Aside from UAGA, Professor Capron points out that the statutes of five states presently impose varying degrees of restriction on research on the dead fetus (Massachusetts, South Dakota, Illinois, Indiana, and Ohio); all of these restrictions apply only to the products of induced and not spontaneous abortions. Other laws that might affect research on the dead fetus are the grave robbing statutes, which would apply only when the consent required by the UAGA has not been obtained. As a matter of medical practice, however, maternal consent is not generally sought for postabortion examinations. (Both authors note and discuss a pending Massachusetts case.)

Professor Capron states that the various state laws on death certification provide little guidance on the question of defining death with respect to the fetus. Such laws do, however, introduce another complication by recognizing different categories requiring certification. (Other reports prepared for the Commission suggest medical criteria for determining fetal death; see Section VII of this report.)

*The viable infant.* Research on the viable infant is discussed at length by Professor Capron. He states that therapeutic research on a viable infant, whether or not there has been an induced abortion, is generally sanctioned under criminal and civil law. The law is presently unsettled with respect to nontherapeutic research, and, as a practical matter, the exercise of caution in introducing any risk is indicated. The recently enacted fetal research statutes have probably not altered the common law with respect to research on the viable infant after induced abortion, i.e., therapeutic research may be conducted. In the absence of a special statute, the protection afforded the viable infant attaches only after it is in fact *ex utero*.

Although the interests of the viable infant do not depend on the manner in which it came to be alive *ex utero*, Professor Capron points out that this might be relevant to the issue of appropriate consent to involvement of the infant in research. The question is whether the decision to abort should disqualify the parents (or at least the mother) from exercising further control after the infant is alive *ex utero*. The argument for disqualification has an obvious rationale in conflict of interest, but it faces at least three problems: (1) Since the Supreme Court has declared in *Roe v. Wade* that women have a constitutional right to abortion, basing maternal disqualification on the exercise of that right may be an unconstitutional penalty. (2) Since the abortion itself is legal, the fetus is not thereby deprived of any rights which the parents were obliged to protect. (3) The decision to abort does not necessarily cast the woman as being irrevocably opposed to the rights of the fetus, since the mother's decision was based on the erroneous assumption that there would be no live issue from the pregnancy. Professor Capron suggests that rather than presumptive disqualification in all cases, judicial proceedings may be an appropriate forum for balancing the rights of all concerned, and that it would be preferable to presume that parents retain control over a viable infant. Certain states, however, have written into their abortion statutes some form of parental forfeiture of rights (Louisiana, Missouri, Montana, Kentucky, Indiana, South Dakota).

Dean Wilson suggests that, at least with respect to therapeutic research, the power of consent should not be removed from a mother and father because they are minors. Also, he expresses the belief that only therapeutic research should be conducted on the viable infant.

*The fetus in utero.* Although the fetus does not achieve the interests of a full person until live birth, it is not entirely without protection while still *in utero*. Professor Capron points out that the criminal law in various states, with expansions under civil law, recognizes interests of the fetus *in utero* in two ways of possible relevance to research. First, there are some recent statutes seeking to safeguard the fetus *in utero* against life threatening intentional injury, and some older statutes that depart from the common law by prohibiting "feticide". It is unlikely that the older statutes would apply to research on the fetus, since the element of intent to do harm would be missing. All of these statutes must, of course, be examined in the light of *Roe* v. *Wade*.

Second, interests of the fetus *in utero* are recognized in the criminal law by protecting the fetus against injuries which cause its death or impairment after it is born alive. The effect of such protection is to put pressure on those involved to assure that the abortion is "effective". Thus, Professor Capron suggests, the law may be recognizing, not fetal interests, but the interests of human beings, after birth, not to suffer because of culpable acts of other persons.

In some jurisdictions, Professor Capron finds that the civil law recognizes a broader fetal interest in protection against harm *in utero*. The courts in at least 21 states have recognized a cause of action for injuries to a viable fetus that lead to its stillbirth. Once the fetus is viable, Professor Capron states, the decision in *Roe* v. *Wade* does not appear to be an absolute bar to holding that the fetus and its parents have an interest in its potentiality for life.

If the fetus is in fact born alive, the protection under civil law is even broader, with no importance being attached to the question whether the injury that causes impairment or subsequent death occurred before or after viability. (Professor Capron expresses his disagreement with the argument that subsequent live birth is not a necessary element in court decisions regarding the vesting of property interests.)

Finally, if the fetus is both injured and dies before it is viable, recovery for its wrongful death has not been allowed under civil law.

Dean Wilson expresses the opinion that there should be no difference in the rights accorded to the fetus *in utero* before or after viability, and only therapeutic research or nontherapeutic research that imposes no risk should be permitted in both cases. He would apply the same conditions to research in anticipation of abortion. As grounds for protecting the fetus *in utero* before viability, he suggests that research on such a fetus might have a brutalizing effect on society as a whole.

With respect to the question of consent to research on the fetus *in utero*, Professor Capron holds that if the fetus is viable, it is in approximately the same position as a viable infant, i.e., consent by the parents to therapeutic research would be appropriate, but nontherapeutic research that introduces genuine risk should not be undertaken at all. If the fetus is not yet viable, Professor Capron discerns two difficult consent issues: (1) Should there be a separate consent, in addition to that of the mother, when the research is directed at the fetus? A possible answer is that the mother's right of decision to destroy the fetus, recognized by *Roe* v. *Wade*, includes a right to permit the fetus to be used in research that is less harmful than total destruction and is done for legitimate scientific reasons. (2) Can the consent of the mother to participate in (nontherapeutic) research directed at the fetus be tied to an agreement to abort? Without such an agreement, parties such as the father and state welfare officials may have grounds to insist that their interests in the potential child be protected. On the other hand, an agreement to abort would probably be unenforceable.

Professor Capron sees no clear answer to the question of appropriate consent to research on the fetus *in utero* before viability. He suggests a partial solution along the lines of the Massachusetts fetal research statute, which provides that research may take place when the fetus is not the subject of a planned abortion and that a statement, signed by the woman, that she is not planning an abortion supplies conclusive evidence on the point. Such an arrangement would not be immune from attack in light of the *Roe* v. *Wade* decision, but it would raise fewer questions, Professor Capron states, if it were a condition of government funding.

In accordance with his views concerning permissible research on the fetus *in utero*, Dean Wilson expresses the belief that the woman should be permitted to consent only to therapeutic research and nontherapeutic research that imposes no risk.

*The nonviable fetus ex utero.* Professor Capron notes that the law generally does not distinguish between viability and nonviability after birth. Full protection as a person is given, notwithstanding that immaturity may preclude the nonviable fetus from having an independent existence. Professor Capron suggests that legislative consideration of the concept of viability as currently understood might lead to distinctions being made on that basis.

With respect to consent, Professor Capron states that the same rules would apply for therapeutic research on the viable fetus as for such research on the viable infant. For nontherapeutic research on the nonviable fetus, he suggests that judicial review might be appropriate.

### V. Ethical Issues

Eight ethicists and philosophers prepared for the Commission papers outlining their views on research on the fetus. Summaries of each of these papers follows:

*Sissela Bok, Ph.D.* Dr. Bok identifies two lines of argument opposed to research on the fetus: (1) the fetus is a person and, consequently, research without its consent and not for its benefit is an assault upon its humanity; and (2) research on the fetus will lead society to condone research on other categories of the defenseless. Dr. Bok answers these arguments and concludes that, in order to seek knowledge not otherwise obtainable, research should be permitted at early gestational stages, provided careful safeguards are utilized.

The first argument is countered by a presentation and discussion of four reasons for protecting humans from harm: (1) the victim's anguish, suffering and deprivation of continued experience of life; (2) the brutalization of the agent; (3) the grief of those who care about the victim; and (4) the establishment of a pattern that ultimately will harm all of society. Dr. Bok contends that none of these reasons apply in the early stages of gestational life.

The second argument against research on the fetus advances the last reason for protecting humans from harm as crucial even with respect to research in the first weeks of gestational life. Dr. Bok asserts that no data have been developed to support the applicability of the fourth reason to research on the fetus, and that, in any case, safeguards can be developed to prevent the alleged sequential abuses.

Since the fetus is not a person, consent on its behalf is unnecessary. However, maternal consent should be obtained, even for research following abortion, in deference to the woman's sensitivities.

Dr. Bok concludes that since the means are defensible and the end is desirable, research on the fetus should be permitted during the first 18 weeks of gestational age and when the fetus is under 300 grams in weight. These limits provide a margin of safety to prevent accidental experimentation on a viable fetus. Only therapeutic research on a fetus older than 18 weeks or more than 300 grams in weight should be permitted.

Dr. Bok would permit research on a fetus scheduled for abortion, provided the mother consents and the research is properly reviewed. She would not prohibit experimentation which keeps a nonviable fetus alive for a period of time or which hastens its death.

*Joseph Fletcher, D.D.* "Rightness and wrongness are judged according to results, not according to absolute prohibitions or requirements." This statement provides a key to understanding the position taken by Dr. Fletcher regarding the ethics of research on the fetus. The result which justifies such research is the safety of people, especially children, from genetic and congenital disorders, uterine infections and a host of other maladies.

Dr. Fletcher states that the core question is whether the fetus is a person. He contends that although the fetus is a potential person, it does not become an actual person, ethically and legally, until it is born alive and lives entirely outside the mother's body with an independent cardiovascular system. Until the fetus becomes an "actual person" it is an "object," a nonpersonal organism which has value only insofar as it is wanted by its progenitors. It is not entitled to protection as a human subject whether viable or not until it becomes a live-born baby.

Dr. Fletcher states that the following categories of research on the fetus may be justified, depending upon the clinical situation and the design: (1) use of a dead fetus *ex utero* with or without maternal consent; (2) use of a live fetus *ex utero*, nonviable or viable, if survival is not wanted and there is maternal consent; (3) use of a live fetus *in utero* if survival is not wanted and there is maternal consent; and (4) use of a live fetus *in utero*, even if survival is intended, if there is no substantial risk to the fetus and if there is maternal and paternal-spouse consent.

Finally, Dr. Fletcher concludes that regulations by the Executive Branch and legislation by Congress (even though temporary) restricting research on the fetus are unethical if the ethics they are based upon are not fully and frankly disclosed.

*Marc Lappé, Ph. D.* Dr. Lappé's essay is developed from a "natural law" perspective. It defends five principles pertaining to research on the fetus and makes five policy recommendations to the Commission.

(1) The wanted fetus has a right to protection *in utero*. This principle is based on its unique vulnerability to environmental insult which might interfere with the fulfillment of its genetic potential.

(2) Principle (1) is not altered by societal acceptance of abortion. The Supreme Court has allowed a woman to decide that a fetus will no longer receive her protection; it does not follow that others in society are similarly authorized. Further, living fetuses *ex utero* have claims on our duties to afford them protection from experimentation by virtue of our basic medical tenets to preserve life. The Supreme Court offered no guidance on how to treat the fetus once out of the womb.

(3) The conditions under which society respects the fetus' right to protection are compromised by the decision and actions taken in the course of an abortion. Moral concern for the fetus dictates a choice of procedures which subject the woman to minimal morbidity risks while expeditiously expelling the fetus and rendering it incapable of survival.

(4) The costs of research on the fetus should be balanced by resultant goods. Society should make efforts to endow the abortion process with values it would not otherwise have had. Abortion-related research is therefore justified if and only if it is intended to aid other fetuses.

(5) The definition of fetal death and the application of the definition must be made independently from any possible future use of the fetus in experimentation.

Dr. Lappé notes that the problem of consent gives us most difficulty in that even if the fetus were accorded full rights of personhood, it would not do to delegate the parent as proxy since (in the case of abortion) the parent cannot be said to have the interests of the fetus at heart. He offers no solution to the problem, however, except to observe that were the fetus regarded as worthy of all the rights of personhood, we would not sanction nontherapeutic research at all.

Dr. Lappé recommends that the Commission (1) affirm its commitment to protect fetuses *in utero;* (2) provide a statement of concern for abortion-related abuse or neglect, including maternal exposure to harmful agents and insensitive or unethical choice of abortifacients; (3) limit research on the fetus *in utero* which is to be a subject of abortion to cases where no risk to the fetus is involved and the purpose of the research is to aid fetuses as a class; (4) restrict basic nonviable fetal research intended to benefit society generally to dead fetuses; and (5) require that fetal death be ascertained by criteria which separate the purposes of experimentation from the choice of abortion method and from the methodology used to ascertain that death has occurred.

*Richard A. McCormick, S.T.D.* Dr. McCormick defends a moral position concerning research on the fetus and distinguishes it from an acceptable public policy concerning such research. Public policy is to be determined, not only by morality, but by feasibility as well. The feasibility test is particularly difficult in a society characterized by moral pluralism and cultural pragmatism.

Dr. McCormick holds that parents may give proxy or vicarious consent for a child to participate in nontherapeutic experimentation where there is "no discernible risk or undue discomfort." Proxy consent is morally legitimate insofar as it is a reasonable construction of what the child *ought* to choose if it were able. This position is rooted in the premise that all humans, including children, have an obligation in social justice to contribute to the benefit of the human community. The same obligation can be extended to the fetus. Research on the fetus is morally permissible if maternal proxy consent is obtained, abortion is not contemplated, the risk or discomfort to the fetus is not discernible, and the results of the experiment cannot be obtained in any other way. Because Dr. McCormick judges most abortions to be immoral, experimental procedures prior to, during, and after abortion (except in the rare instances of legitimate abortion) are morally objectionable because they cooperate with and profit from an immoral system. While Dr. McCormick regards such cooperation as morally objectionable, he believes that his moral position cannot be fully adopted as public policy, since it cannot pass the feasibility test in a society which allows large-scale abortions.

Dr. McCormick recommends that the measure of proxy consent regarded as valid for subjects of research who are children is suitable to determine acceptable research on the fetus. He makes the following policy proposals which acknowledge both the moral pluralism and the cultural pragmatism characteristic of American society: (1) the research must be necessary; (2) the researcher bears the onus of showing the necessity; (3) there must be no discernible risk for the fetus or the mother or, if the fetus is dying, there must be no added pain or discomfort;

(4) the researcher bears the onus of showing that there is no discernible risk; (5) these policy demands must be secured by adequate review and prior approval of all research on the fetus.

*Paul Ramsey, Ph.D.* Dr. Ramsey seeks to distinguish between fetal life and fetal viability. Life, he suggests, should be defined for the fetus according to the presence or absence of vital signs which define life and death in other individuals. Viability should not be confused with life, for a fetus may be living yet nonviable. This new human research subject, one which is neither dead nor viable, is the subject of Dr. Ramsey's essay. He is not willing to say it may be entered into research protocols, but he does say that care should be taken not to enter a viable infant by mistake. To this end he recommends that viability be defined for research purposes on the safe side of possibly viable birth weight, crown-rump length or gestational age. He makes the following proposals to the Commission:

(1) The Peel Report prohibits procedures carried out with the deliberate intent of ascertaining the harm they might do to the fetus. Such a prohibition should be included in the American policy as well. "Do not harm" encompasses "intend no harm." This principle embraces the intention of the physician and not merely "codes of action."

(2) The subjective rule (Peel) must be supplemented by an objective limitation of risks by categorically prohibiting research in anticipation of abortion if that research entails known or uncertain risks.

(3) Respect for the dignity of human life must not be compromised whatever the age, circumstances, or expectation of life of the individual. The recent Supreme Court decision on abortion did not nullify the obligation to protect the developing fetus from harm, even if that harm is less than abortion.

(4) Vital functions of an individual abortus should not be artificially maintained except where the purpose of the activity is to develop new methods for enabling that abortus to survive to the point of viability.

(5) Ethical standards applicable to research on the fetus are the same as would be subscribed to in proposed research on the unconscious, on the dying (in the case of spontaneous abortion), on the (perhaps justly) condemned (in cases of induced abortion), or in experimentation with children.

For the most part, this means that the use of these subjects in nontherapeutic research is an *abuse*, for one ought not to "presume" or "construe" consent for acts of charity. Dr. Ramsey agrees with Dr. McCormick that "one stops and should stop precisely at the point where 'construed' consent does indeed involve self-sacrifice or works of mercy. The dividing line is reached when experiments involve discernible risk, undue discomfort, or inconvenience."

*Seymour Siegel, D.H.L.* Dr. Seigel makes the following points:

(1) A bias for life is the foundation of the Judeo-Christian world-view and it undergirds medical research. It may be affirmed outside the Judeo-Christian tradition. The bias for life requires individuals to strive to sustain life where it exists, not to terminate or harm life, and in cases of doubt to be on the side of life. A present individual takes precedence over a possible future individual. The bias for life is to be exercised whatever the status of the life before us and whatever the life expectation may be.

(2) The indeterminancy of the future requires that utmost caution should be employed in all decisions relating to research on the fetus, since neither the medical nor the social effects of such research can be predicted with certainty.

(3) The fetus is not the same as an infant since it has no independent life system and is tied to the mother.

(4) A fetus has real but limited rights, derived from its potential human life. The fetus' right to life is mitigated when the fetus threatens someone else's life; however, unless such a threat is present, the fetus' potential humanity requires that we protect and revere its life.

(5) The fetus *in utero* may be the subject of research that (a) helps the mother, (b) is harmless to the fetus, or (c) is designed to help the fetus. Dr. Siegel endorses the Peel Commission dictum that no procedures may be carried out to see what harm they might do the fetus.

(6) The fetus *ex utero* has more rights than the fetus *in utero*. Prolongation or early termination of the nonviable fetus should be prohibited.

(7) Criteria for death of the fetus should be the same as for other individuals.

(8) Consent of the mother or guardian is ordinarily sufficient, but parental consent, when an abortion is contemplated, is dubious. For such cases, consent should be supplemented by a special board. There must be strict separation of attending physician and researcher.

(9) Proposed guidelines: (a) fetal research should be limited to cases which present no harm or offer assistance to the life system of the subjects; (b) no procedures should be permitted which are likely to harm the fetus—before, during, or after abortion; (c) a fetus *ex utero* and alive should not be subject to research unless it is intended to enhance the life of that fetus or unless the research involves no risk to the subject; and (d) criteria for determining death of the fetus should be the same as for other human individuals.

*Leroy Walters, Ph. D.* Dr. Walters surveys various ways of categorizing research on the fetus: (1) according to the condition of the fetus, (2) according to the chronological age of the fetus, and (3) according to the formal object of the research.

He concludes that research on the fetus is not one but many things, and he focuses on nontherapeutic research on the fetus because it seems to raise serious public policy questions, and on research before, during and after induced abortion since that is a primary concern of the Commission's authorizing legislation. Four possible positions can be developed with respect to such research. Dr. Walters defends the position that nontherapeutic research on the fetus should be permitted only to the extent that such research is permitted on children or on fetuses which will be carried to term.

The essay endorses McCormick's thesis that parents may properly consent to a child's participation in nontherapeutic research which the child should be willing to take part in if the child were able to consent. This position is extended to cover the prenatal period as well. Because of difficulties associated with consent in cases where an abortion decision has been made, nontherapeutic research procedures should be permissible in the case of fetuses before or after abortion to the extent that they are permissible in the case of fetuses which will be brought to term. This position supposes that there is substantial continuity between previable and viable fetal life and postnatal life.

Although public policy making includes an ethical component, it also includes other factors, such as continuity with generally accepted societal principles, accommodation of a variety of belief systems and interests, and clearly understandable formulation. Three public policy propositions are recommended, all of which are based upon a policy of equality of treatment for all categories of human subjects: (1) nontherapeutic research on children should be permitted, if such research involves no risk or only minimal risk to subjects; (2) nontherapeutic research on fetuses which will be carried to term should be permitted, if such research involves no risk or minimal risk to the subjects; (3) nontherapeutic research procedures which are permitted in the case of fetuses which will be carried to term should also be permitted in the case of (a) live fetuses which will be aborted and (b) live fetuses which have been aborted.

*Richard Wasserstrom, Ph. D.* Dr. Wasserstrom identifies four views concerning the status of the human fetus. He endorses the view that the fetus is in a unique moral category, closest to that of a newborn infant. The fetus has great value because of its potential to become a fully developed human being. It follows that abortion is morally worrisome because it involves destruction of an entity that possesses the potential to be and to produce things of the highest value. It also follows that if abortion has already taken place and the fetus is nonviable, then research in no way affects the fetus' ability to realize any of its potential.

Dr. Wasserstrom states that the resolution of the problem of consent for research on the fetus depends entirely on how one views the status of the fetus. That is, if one views the fetus as tissue, then consent on behalf of the fetus is meaningless. If one views the fetus as a child, then proxy consent is necessary. Dr. Wasserstrom believes, however, that even if the fetus is considered to be only tissue, consent should be obtained from

the parents out of respect for their sensitivities.

Because abortion is a morally worrisome act, the decision to have an abortion should be kept easily revocable until the time of its performance. For this reason, Dr. Wasserstrom recommends that no research on the fetus *in utero* should be permitted if it involves a substantial risk of injury to the fetus.

Dr. Wasserstrom concludes that research on the nonviable fetus *ex utero* is permissible provided that: (1) the mother (if unmarried) or both parents consent before the abortion; (2) a review body has determined that the research may yield important information not otherwise obtainable; (3) the medical counselors of the pregnant woman have in no way been affiliated with the experimentation; and (4) the fetus is not possibly viable.

(An analysis of the papers summarized above was prepared for the Commission by Stephen Toulmin, Ph.D. This analysis is set forth in its entirety in the Appendix.)

VI. VIEWS PRESENTED AT PUBLIC HEARINGS

Public hearings were held by the Commission to provide interested persons with an opportunity to present their views on research on the fetus. Testimony was given by scientists, physicians, representatives of various organizations, concerned private citizens, lawyers and public officals. They presented a broad range of views that received careful consideration at the hearings and in the subsequent deliberations of the Commission. Brief summaries of the presentations follow.

1. *C. D. Christian, M.D.* (American College of Obstetricians and Gynecologists.) Dr. Christian presented to the Commission a set of guidelines for the conduct of research on the pregnant woman and fetus, as prepared by the Committee on Bioethics of the College. The guidelines include recommendations that animal models be fully explored before human research is initiated, that clinical management of the patient should not be altered by research objectives, that research which would knowingly harm the fetus is not appropriate even in anticipation of abortion, that a fetus of doubtful viability should be treated as a viable infant, and that prolonging or shortening the life of the nonviable fetus only for research purposes is not appropriate.

2. *Robert G. Marshall* (Special Assistant for Congressional Affairs, U.S. Coalition for Life). Mr. Marshall opposed any research that is not directed at preserving the life or restoring the health of the immediate patient. In addition, he suggested adoption of the Golden Rule as a criterion for experimentation; a prohibition on the participation of the medically needy as subjects of research, except in circumstances of immediate danger to life; and a requirement that prospective participants be required to write out their understanding of the purpose of an experiment prior to being accepted as subjects. (During questioning, Mr. Marshall said that he would not object to observational procedures including, for example, fetoscopy.)

3. *Thomas K. Oliver, Jr., M.D.* (Association of American Medical Colleges). Dr. Oliver cited improvement in statistics of infant mortality and morbidity, which may be attributed directly to research on the fetus and newborn infant. He described the research leading to improved care of Rh disease and respiratory distress syndrome, which could have been conducted only on the human fetus and newborn, as specific examples of advances resulting from research on the fetus. He urged the creation of an Ethical Advisory Board to review those research proposals which raise ethical questions, rather than the imposition of guidelines that would not be responsive to changing circumstances.

4. *Judith Mears* (Reproductive Freedom Project, American Civil Liberties Union.) Ms. Mears urged that the Commission not draft protections for the fetus that would undermine the Supreme Court's rulings in *Doe* v. *Bolton* and *Roe* v. *Wade* regarding a woman's rights with respect to abortion. In addition, she urged the support of research to improve the safety of abortion procedures. (Ms. Mears agreed, during questioning, that the *Roe* and *Doe* decisions do not speak to the issue of experimentation and would not, therefore, render regulation of such research unconstitutional so long as a woman's access to abortion and other health services is not abridged.)

5. *David G. Nathan, M.D.* (Professor of Pediatrics, Harvard Medical School). Dr. Nathan focused his discussion on fetoscopy. He described this experimental technique for obtaining a sample of fetal blood to enable prenatal detection of disorders such as sickle cell disease and thalassemia, the reasons for conducting initial trials in women about to undergo abortion, and the evolution of the technique to the point where it has had successful clinical application. Dr. Nathan stressed the importance of studies that can be conducted simultaneously with the abortion procedure and consequently avoid any possibility of a change of mind about abortion after the research has begun.

6. *Audrey McMahon* (mother of two developmentally disabled children). Ms. McMahon stressed the need for research into the causes and treatment of developmental disabilities, and urged that such research not be curtailed.

7. *Robert Greenberg, M.D.* (Society for Pediatric Research and the American Pediatric Society). Dr. Greenberg presented statistics on the high rates of infant mortality and abnormal fetal development as indicators that the current health status of the fetus is poor. Dr. Greenberg stated that genuine concern for the fetus requires marked improvement of the health care available to the developing human during intrauterine life. Such improvements in health care require acquisition of further understanding through increased research.

8. *Sumner Yaffe, M.D.* (American Academy of Pediatrics). Dr. Yaffe cited numerous advances in fetal therapeutics resulting from research on the fetus and emphasized the acute need for more extensive research in fetal clinical pharmacology. He presented the Academy's code of ethics for research involving the fetus and fetal material. The code states that research intended to benefit the mother or fetus *in utero* may be conducted with informed consent; that research on the viable delivered fetus (premature infant) may be carried out as long as nothing is done that is inconsistent with treatment necessary to promote the life of the infant; and that research on the nonviable fetus before or after abortion should be permitted, providing appropriate animal studies have been completed, parental consent is obtained, the researchers have no part in deciding timing or procedures for terminating the pregnancy or in determining viability, the research has been approved by an Institutional Review Board which is satisfied that the information cannot be obtained in any other way, experiments are not done in the delivery room, there is no monetary exchange for fetal material, and full records are kept.

9. *Lois Schiffer* (Women's Equity Action League, Women's Legal Defense Fund, Human Rights for Women). Ms. Schiffer cautioned against developing a policy that would abrogate constitutionally protected interests, such as the preeminence of a pregnant woman's right to health care. She underscored the need for continuing research in order to provide pregnant women with optimum medical advice and treatment (including improved abortion techniques). She suggested, additionally, that a requirement of paternal or spousal consent in conjunction with research on the fetus would contravene the holdings in the *Roe* and *Doe* decisions and that such consent serves no legitimate purpose if no child will be born. Finally, she urged the adequate representation of women on ethical review committees that will be applying policy to specific cases.

10. *Kay Jacobs Katz* (National Capital Tay-Sachs Foundation). Ms. Katz described the illness and death of her daughter, a victim of Tay-Sachs disease, and emphasized that only because of the availability of prenatal diagnosis did she have the courage to risk a further pregnancy that has resulted in the birth of a normal child. She urged the Commission not to restrict research that might develop procedures for prenatal diagnosis of other genetic diseases, nor to curtail research that might lead to the development of effective therapy for inborn errors of metabolism.

11. *Arthur M. Silverstein, Ph.D.* (American Society for Experimental Pathology). Dr. Silverstein pointed out the limitations of animals as models for the human fetus in experimentation. He cited the numerous uses of cells and tissues from the dead fetus in biomedical science, and urged that scientists not be deprived of the opportunity to study such tissues. He urged continued availability of fresh fetal materials for study and for use in transplantation. He concluded by

asking the Commission to recognize that society owes to the developing fetus an acknowledgment of its special problems and a determination to attempt to solve these problems and do medical justice to the fetus through research.

12. *Msgr. James T. McHugh* (U.S. Catholic Conference). Msgr. McHugh stated that the fetus is a human being from the earliest stages of development, and that the ethical norms governing research on the fetus derive from those governing research on all human subjects, especially infants and children. Pre-abortion research is inconsistent with human dignity and is therefore unacceptable. Consent by the mother to such research is a mockery, he said, inasmuch as she has already decided to extinguish the life of the fetus; further, such research would eliminate any possibility of a mother's change of mind concerning abortion.

He urged Federal regulation of research on the fetus to permit only projects involving, for example, amniocentesis, fetoscopy, tissue culture, or procedures that would entail no risk to the fetus, and to limit those to circumstances in which their application would serve the purpose of protecting maternal health and assuring safe delivery of the fetus. He urged that animal models be used to the extent possible, even if this would be more expensive and demanding. He stated that the Government should permit research on the fetus only for the purpose of enhancing the survival or well-being of the fetus involved, and only if it can be conducted in a manner that will respect the rights and dignity of the fetus.

13. *Jo Anne Brasel, M.D.* (Endocrine Society). Dr. Brasel cited examples of contributions of fetal endocrinologic research to fetal welfare and survival. Continuation of research on the fetus was urged to permit study of such problems as hormonal deficiency states and care of the fetus of the diabetic mother. She expressed the full support of the Society for efforts to see that ethical considerations are met in the conduct of human research, but asserted that the welfare of future mothers and infants would not be served by wholesale interdiction of research.

14. *Nancy Raymond, R.N.* (Public Relations Director, Maryland Action for Human Life). Ms. Raymond urged that the fetus be treated with fairness and dignity, whether or not an abortion is anticipated or has been conducted. She advocated a prohibition of research on the fetus, but would make the following exceptions from such a prohibition: remedial procedures; procedures to study the fetus within the womb, if they do not substantially jeopardize the fetus and it is not a candidate for planned abortion; diagnostic procedures that do not substantially jeopardize the fetus, even if it is a candidate for planned abortion; and diagnostic procedures that are judged to be in the best interest of the particular fetus and will provide the mother with information about her fetus, even if an abortion is contemplated. She suggested that a panel of medical and nonmedical persons be created to advise scientists on the acceptability of research on the fetus.

15. *Sean O'Reilly, M.D.* (Professor of Neurology at George Washington University). Dr. O'Reilly's testimony (read in his absence) urged protection of the fetus from experimentation without its informed consent. He stated that the fetus obviously cannot give consent, and that parents can consent only to therapeutic research on the fetus. He argued that parents forfeit any right to consent to any other research on the fetus once they have elected to abort it.

16. *Chris Mooney* (President, Pregnancy Aid Centers, Inc.) Ms. Mooney viewed abortion as the worst solution to the problem of unwanted pregnancy, preferring to improve methods and availability of counseling and contraception. She expressed the fear that research on the fetus before and after abortion will further entrench our dependence on this pseudo-solution, by persuading women to abort in order to contribute to the cause of science. If science becomes dependent on abortion for research subjects, scientists and society will be even less inclined to develop viable alternatives to abortion. She urged that no money be offered for the use of an aborted fetus in research. (During questioning, Ms. Mooney said she has no knowledge of cases in which research did, in fact, operate as an inducement to abortion, and agreed that regulations could be devised to avoid that possibility.)

17. *Walter L. Herrmann, M.D.* (Society for Gynecologic Investigation). Dr. Herrmann pointed out that the interrelation of mother and fetus *in utero* requires that they both be considered in research involving either of them. He observed that the attitude of confidence rather than fear of the modern woman contemplating pregnancy is due to improved pregnancy care resulting from maternal and fetal research. Many unanswered questions remain, however, which demand continuation of such research. He urged that, in developing regulations for research on the fetus, the abortion issue be kept separate and emphasis be placed on the pregnant woman as the subject to be protected, so as not to infringe upon her rights or deprive her of the benefits of scientific discovery.

18. *Mary O'Donnell* (Nursing student; member, National Youth Pro-Life Coalition). Ms. O'Donnell argued that fetal life is human life deserving of our respect and protection. She would permit diagnostic procedures when undertaken to promote well-being or survival, and all life-preserving procedures. She would find drug research in anticipation of abortion unacceptable because it deprives a woman of the opportunity to change her mind and violates basic moral values.

19. *Leroy A. Jackson, M.D.* (obstetrician in private practice, Washington, D.C.). Dr. Jackson cited procedures derived from research on the fetus that have improved his ability as a physician to provide medical care to his patients. He focused his testimony on the need to assure that consent from the mother for research on the fetus is truly informed consent, and that minorities and other groups do not bear a disproportionate share of the research burden. To these ends, he urged that research review committees contain members racially representative of and capable of communicating adequately with individuals on whom the research is conducted, that consent form wording be reviewed in detail, and that non-Government research agencies follow Government guidelines.

20. *Karen Mulhauser* (National Abortion Rights Action League). Ms. Mulhauser urged that the Commission recommend no limitations on research on the nonviable fetus *in utero*, provided informed consent is received from the pregnant woman. She also opposed any limitation of research to develop improved and safer abortion techniques.

21. *Ernest L. Hopkins, M.D.* (Professor of Obstetrics and Gynecology, Howard University). Dr. Hopkins cited statistics indicating that black infants and mothers have markedly higher morbidity and mortality in childbirth and the first year of life than do whites, and thus have a significant stake in research directed toward pregnancy and infancy. It is essential that research be conducted, he stated, as well as mandatory that the rights of the subject be protected. He advised the Commission that a mother often arrives at a decision to terminate pregnancy because she cannot support her present family. These are honorable women with wisdom, he said. They are very emotionally involved with the pregnancy, but they know that the birth of a baby would be catastrophic. They decide, reluctantly, to have an abortion because they see no alternative.

22. *J. V. Klavins, Ph.D.* (Professor of Pathology, State University of New York at Stony Brook). Dr. Klavins suggested that research on the fetus could be conducted with consent of the mother (and father when available). Since abortion is legal, he argued, research that causes no harm or suffering to the fetus-to-be-aborted is certainly acceptable. He stated that research on the human fetus is no more likely to be dehumanizing than artificial insemination has been, that "do no harm" be used as the guiding principle in research on the fetus, and that society not be allowed to interfere with the parents' right to make decisions concerning the best interests of their offspring.

23. *Myron Winick, M.D.* (American Institute of Nutrition and the American Society for Clinical Nutrition). Dr. Winick reviewed nutrition problems relevant to the fetus and cited research needed to approach solutions to such problems. For example, knowledge is needed of the way the human fetus gets and uses essential nutrients *in utero*. Acquisition of this knowledge may require nonbeneficial research, he stated. The aim of the research, he pointed out, is to improve fetal growth and the quality of life, and, when a malnourished fetus is identified, to assist the fetus, not to terminate the pregnancy.

24. *Aubrey Milunsky, M.D.* (Assistant Professor of Pediatrics, Harvard Medical School). Dr. Milunsky presented written testimony focusing on prenatal diagnosis of genetic disease by amniocentesis. He pointed out that research on the fetus was essential to developing amniocentesis, which is now an accepted clinical procedure. The research aspects of prenatal diagnosis now involve extending diagnostic possibilities to other diseases and developing methods of prenatal treatment of an affected fetus as an alternative to abortion. He argued that to halt such research now would prohibit extending to other populations (such as those affected by sickle cell disease) the option of prenatal diagnosis, and also would prohibit the possible development of treatments for the diagnosed diseases.

25. *Louis Hellman, M.D.* (Deputy Assistant Secretary for Population Affairs, DHEW). Dr. Hellman reviewed the activities of his office in supporting research and providing services in family planning, noting that the objectives directly affected the health of mothers and infants. Enabling women to have fewer children implies that those born should have optimum chances for survival and good health. Thus, the Office of Population Affairs has an interest in all aspects of maternal and fetal research directed at reducing mortality and morbidity. In the conduct of such research, Dr. Hellman stated, obtaining properly informed consent and review of the research by a committee of peers do not constitute significant barriers. He advocated conducting such reviews locally rather than in Washington. He expressed a personal distaste for nonbeneficial research on the aborted fetus, for which an outright prohibition might be considered, but cautioned that such a course would be unlikely to stop the search for new knowledge, perhaps in another country or in another generation. He concluded that knowledge cannot be sequestered nor the course of its attainment blocked, and he suggested that the wiser direction would be adequate regulation of research on the fetus rather than outright prohibition.

26. *Norman Kretchmer, M.D.* (Director, National Institute of Child Health and Human Development, National Institutes of Health). Dr. Kretchmer summarized the policies and procedures presently in effect at NIH for the protection of human subjects studied in research activities. Proposals involving extramural research (which is conducted at institutions other than NIH) undergo a three-stage process of review, including: (1) review by the institution proposing the research, (2) review by scientific peers acting as consultants to NIH, and (3) review by the National Advisory Councils of the Institutes supporting the projects.

The first stage is performed by an Institutional Review Board (IRB), a panel consisting of members with diverse backgrounds and drawn from various disciplines. It is the responsibility of the IRB to review the proposal for scientific merit, community acceptability, the balance of risks and benefits, and any other factors that might bear upon the protection of the rights and welfare of the subjects.

The second stage of review is conducted by scientific peers, to evaluate the soundness of the research design, the relevant professional experience of the investigator, adequacy of facilities, scientific importance of the research, and the like. In addition, the reviewing body may consider the investigator's evaluation of risks and benefits, as well as any procedures suggested to protect the subjects against possible risks.

The final stage of review is conducted by a National Advisory Council, a panel composed of two-thirds scientists and one-third nonscientists. Their responsibility is to recommend policy for the Institute and to advise the Director, NIH (or, in some cases, the Secretary, DHEW) concerning funding of research proposals, giving consideration to the protection of the rights of human subjects, among other things.

Research conducted within NIH (intramural research) undergoes review by the branch chief and clinical director of the Institute conducting the research. It may also be subject to review and approval by the Clinical Research Committee and the Medical Board of the Clinical Center. The Medical Board includes in its membership clinicians, scientists and laymen. All studies involving normal volunteers must be submitted to the Medical Board. Studies which involve potential benefits to patients who have been admitted to the Clinical Center generally are reviewed by clinical associates, attending physicians and the chief of the branch involved. When such studies represent a significant deviation from accepted practice or are associated with unusual hazards, however, they must be reviewed by the Clinical Research Committee.

For fiscal year 1974, NIH has identified about one hundred projects (with a total support of $3.5 million) which involved research on the fetus. These included monitoring of labor, fetal response to growth promoting substances, development of a "fetal risk index," and others. Under the ban imposed by Pub. L. 93–348, research on the living human fetus, before or after induced abortion, is not supported by NIH unless such research is done with the intention of assisting the survival of the fetus.

27. *John Jennings, M.D.* (Associate Commissioner, Food and Drug Administration).* Dr. Jennings testified that FDA has legislative authority to ensure that research submitted to the agency by industry to show the safety and effectiveness of a drug is conducted under conditions that will protect subjects. In this regard, FDA believes it should act in accord, insofar as feasible, with DHEW guidelines for protection of human subjects in research conducted or supported by the Department.

Most drugs currently marketed bear a warning on the label that they have not been tested for safety in pregnant women. Nevertheless, Dr. Jennings stated, such drugs, with potentially harmful effects on the fetus, are being used by pregnant women and by women of childbearing age, in spite of the label disclaimers. Therefore, the American Academy of Pediatrics has recommended to FDA that all marketed drugs be evaluated regarding their potential for producing adverse effects in the fetus.

Dr. Jennings expressed confidence that although difficult ethical problems are raised by research on the fetus, the Commission would be able to develop flexible guidelines that would safeguard both consumers and subjects.

In response to questions, representatives from FDA explained that no marketing of a drug is permitted until tests on animal teratology and reproduction have been completed. These tests include: (1) studies of normal and reproductive performance from the beginning of pregnancy through delivery, following administration of the drug to both males and females, (2) studies of teratology, following administration of the drug during pregnancy at the time of organ development, and (3) tests following administration of the drug from the end of pregnancy through lactation. FDA requests additional studies in primates if first studies indicate a need for further investigation.

### VII. Fetal Viability and Death

The definitions of fetal viability and death present important issues in the conduct of research on the fetus. Accordingly, the Commission contracted for two studies in this area: the first, a medical study to define fetal viability and death based on present capabilities of medical technology; the second, an analysis of ethical and philosophical as well as scientific considerations in defining fetal viability and death.

The first study was conducted under contract with Columbia University, Richard Behrman, M.D., Principal Investigator. It included (1) a survey of the changes over the last 10 years in survival rates of premature infants and the advances in technology that have contributed to improved survival; (2) an assessment of the present state of medical technology designed to sustain premature infants; and (3) based on the foregoing, a recommendation for guidelines for use by physicians in determining whether a fetus, delivered spontaneously or by induced abortion, is viable, nonviable or dead. Consultation with representatives of professional societies in pediatrics and obstetrics, surveys of selected newborn intensive care units in the United States and Canada, statistical surveys and literature reviews were employed in carrying out this charge.

Assessment of changes in survival of premature infants relied primarily on data from New York City and from geographically dispersed infant intensive care units, as no national or international data broken down by weight group under 2500 grams were available. New York data showed a 4.5 percent

*Dr. Jennings was accompanied by Dr. Frances Kelsey, Dr. Carl Leventhal and Mr. William Vodra.

increase in survival rate (26 percent reduction in mortality) of all infants under 2500 grams for the period covering the years 1962 to 1971. The improvement was primarily in the lower weight groups 68 percent increase in survival rate under 1000 grams, 20 percent increase from 1001 to 1500 grams, and 6 percent from 1501 to 2000 grams. Infants cared for in intensive care units showed an even greater improvement in survival.

Many innovations in caring for the fetus *in utero* and the delivered premature infant were introduced in the last decade. The large number of these innovations, and their introduction at different times in different centers, generally made it impossible to establish a direct correlation between a given technologic innovation and a change in infant survival. One exception, where such a correlation may be made, is the effect on survival of monitoring fetal heart rate and acid-base balance during labor. At Los Angeles County USC Medical Center, monitoring was introduced as a routine procedure for high risk obstetrical patients in 1970; low risk patients were unmonitored. Between 1970 and 1973, the intrapartum death rate of infants weighing more than 1500 grams decreased 64 percent, and the fetal death rate became lower for the monitored high risk women than in the unmonitored low risk women. Comparable results were obtained in New York City at Columbia Presbyterian Medical Center, where over 90 percent of the monitoring was done on high risk ward patients, primarily black, poor or Spanish-speaking; the low risk private patients were unmonitored. Following introduction of monitoring, the high risk monitored patients had 10 percent fewer fetal deaths, 14 percent fewer perinatal deaths, and 37 percent fewer intrapartum fetal deaths than the unmonitored low risk private patients.

Overall improvement in premature survival may be traced more generally to the gradual adoption of other innovations. For example, the improved rates during the years 1967 through 1969 may be related to advances first introduced during the years 1964 through 1966, which included amniocentesis for intrauterine diagnosis of infants severely affected with erythroblastosis; fetal transfusion *in utero;* reorganization of premature nurseries into intensive care centers; extensive monitoring of gases and other substances in blood, and of vital signs, with more aggressive attention to correction of abnormal values; hand ventilation with ambu bags; regulation of the thermal environment; and greater density of nursing personnel. Increases in survival in the period 1970 to 1973 may be correlated with a constellation of advances in the years 1968 through 1970. These included extensive study of amniotic fluid in managing high risk pregnancies; fetal heart rate and uterine pressure monitoring during labor; improved infant transport systems and referral to intensive care units; major advances in design and techniques for use of infant respirators; total intravenous alimentation; and use of phototherapy for jaundice. Numerous other innovations have been introduced, but these are the major advances that have come into widespread use.

Impact of these changes on survival is reflected in data from University College Hospital in London, where survival rate of infants 1001 to 1500 grams was a steady 45 to 50 percent during the 1950's and early 1960's. During the period 1966 to 1970, the survival rate increased to 70 percent. Equally significant is an indication of decreased morbidity. During the 1950's and 1960's, the handicap rate for infants weighing less than 1500 grams at birth ranged from 33 percent to 60 percent. A recent study evaluating the outcome of such infants born from 1966 to 1970 indicated that 90.5 percent had no detectable handicap.

Despite these advances in the technology of caring for premature infants, there remain limits beyond which the best care cannot result in survival. To ascertain the present limits, surveys were conducted of vital statistics of the United States (including individual States) and Quebec, the medical literature, and 27 major centers with obstetric services and special intensive care units for premature infants. These centers represent the optimal care that present medical technology can provide. Despite differences in data base from various sources, two facts emerged clearly: probability of survival of infants weighing less than 750 grams was extremely small, and no cases were found from any documentable source of any infant surviving with a birth weight below 600 grams at a gestational age of 24 weeks or less. Some rare cases were documented of infants surviving with birth weights below 600 grams, but in each instance the gestational age exceeded 24 weeks, and the cases thus represented more mature infants who for various reasons were small-for-dates. Other rare cases were documented of infants born before 25 weeks gestational age who survived, but in each instance birth weight exceeded 600 grams. Thus, on an empirical basis the current limits of viability are clear: there is no unambiguous documentation that an infant born weighing less than 601 grams at a gestational age of 24 weeks or less has ever survived.

The concept of viability implies a prediction as to whether a delivered fetus is capable of survival. A prematurely delivered fetus is viable when a minimal number of independently sustained, basic, integrative physiologic functions are present. The sum of these functions must support the inference that the fetus is able to increase in tissue mass (growth) and increase the number, complexity and coordination of basic physiologic functions (development) as a self-sustaining organism. This development must be independent of any connection with the mother and supported only by generally accepted medical treatments. If these coordinated functions are not present, the fetus is nonviable. This may be the case even though some signs of life are apparent.

The following functions, taken together, constitute the minimal number of basic integrative physiologic functions to support an inference of viability: (1) Perfusion of tissues with adequate oxygen and prevention of increasing accumulation of carbon dioxide and/or lactic and other organic acids. This function consists of the following components:

(a) inflation of the lungs with oxygen,

(b) transfer of oxygen across the alveolar membrances into the circulation and elimination of carbon dioxide from the circulation into the expired gas, and

(c) cardiac contractions of sufficient strength and regularity to distribute oxygenated blood to tissues and organs throughout the body, and to eliminate organic acids from those tissues and organs. (2) Neurologic regulation of the components of the cardio-respiratory perfusion function, of the capacity to ingest nutrients, and of spontaneous and reflex muscle movements.

These functions in the prematurely delivered fetus cannot at present be assessed separately in a consistent, reliable and exact manner. The absence of the sum of these functions, however, can be assessed indirectly in a reasonable and reliable manner by measurement of weight and an estimation of gestational age. Thus, organisms of less than 601 grams at delivery and gestational age of 24 weeks or less are at present nonviable; signs of life such as a beating heart, spontaneous respiratory movement, pulsation of the umbilical cord and spontaneous movement of voluntary muscles are not adequate in themselves to be used to determine the existence of basic integrative functions.

A weight of 601 grams or more and gestational age over 24 weeks may indicate that the minimal basic functions necessary for independent growth and development are present. Such a prematurely delivered fetus may be considered at least possibly viable. At these weights and gestational ages, a sign of life such as a beating heart, spontaneous respiratory movement, pulsation of the umbilical cord or spontaneous movement of voluntary muscles indicates possible viability.

Prediction of extrauterine viability of the fetus while it is still *in utero* takes on an additional dimension of complexity. The fetus *in* utero, in the absence of clear signs that death has occurred, is always at least potentially viable as long as it remains in the uterus. However, it cannot be weighed, size assessments based on uterine size are inaccurate, and estimates of gestational age based on menstrual history are often inexact. The best medical technology can provide at present is an index of gestational age based on measurement of head size, using ultrasound. In the best hands, this technique is accurate within ±1 week at 20–26 weeks. Relating gestational age to fetal weight, and taking into account the range of error and normal variation, an estimated gestational age of 22 weeks or less by ultrasound would virtually eliminate the possibility of fetal weight above 600 grams and actual gestational age

greater than 24 weeks. Such an estimate would permit the prediction that if such a fetus were outside the uterus, it would be nonviable.

Employing present technology, therefore, research on the fetus *in utero*, undertaken before an abortion to occur not later than 22 weeks gestational age as estimated by ultrasound, would not impact on a fetus with a chance for survival after the abortion. Any reduction of the 22 week limit would provide an additional safeguard.

Whatever the boundaries are for viability, there is always a chance that a viable infant may be born after a prediction of nonviability by gestational age. When this occurs, the premature infant clearly must be cared for in accord with accepted medical practice. Further, these criteria for viability are based on current technology, which is subject to change. Accordingly, the criteria should be reviewed periodically.

Death of the delivered fetus is judged to have occurred when there is a cessation of the minimal basic integrative physiologic functions which, considered together, may result in self-sustained extrauterine growth and development. The absence of all of the following signs indicates the cessation of these minimal basic integrative physiologic functions:

(1) heart beat,
(2) spontaneous respiratory movements,
(3) spontaneous movement of voluntary muscles, and
(4) pulsation of the umbilical cord.

Approaching the same issues of fetal viability and death from the viewpoint of a physician-scientist and philosopher, Dr. Leon Kass, in an essay prepared for the Commission, came to conclusions similar to those reached by Dr. Behrmam on criteria for determining death and defining fetal viability (through Dr. Kass was more conservative on the latter). In clarifying the terminology, Dr. Kass distinguished between the terms "viable" and "nonviable" (which refer to states of a living fetus) and "alive" and "dead" (which refer to mutually exclusive conditions of the organism independent of its stage of development). The terms "viable" and "nonviable" are predictive of future outcome, which is dependent on the fetal stage of development and relation to the environment. Thus, the determination of viability is influenced by whether the fetus is inside or outside the uterus, and by the technology available for sustaining life. A fetus that is alive inside the uterus is always at least potentially viable; the same fetus outside the uterus may be viable or nonviable.

As criteria for determining death, Dr. Kass suggested that a fetus be considered dead if, based on ordinary procedures of medical practice, it has experienced an irreversible cessation of spontaneous circulatory and respiratory functions and an irreversible cessation of spontaneous central nervous functions. These criteria are evidenced on examination of the fetus by absence of the following:

(1) spontaneous muscular movement,
(2) response to external stimuli,
(3) elicitable reflexes,
(4) spontaneous respiration, and
(5) spontaneous heart function manifested by heartbeat and pulse.

These criteria differ from those suggested by Dr. Behrman only by the addition of (2) and (3). Dr. Kass advised that the presence of any one of these functions is a sign that the fetus is alive (again in agreement with Dr. Behrman), and he further suggested that use of the EEG is unnecessary in making the diagnosis of death. Finally, he recommended that the fetus *in utero* be considered alive until proved dead, and that the fetus being aborted be presumed alive until examination reveals it to be dead.

A viable fetus was defined by Dr. Kass as one that has reached the stage of development at which it is able to sustain itself outside the mother's body. In suggeting criteria for fetal viability based on present technology, Dr. Kass supported use of essentially the same physiologic criteria as suggested by Dr. Behrman, but would not rely upon weight or gestational age to indicate the presence of these integrated functions in the delivered fetus. He suggested that the delivered fetus should be considered viable in the presence of *all five* of the functions listed above (the absence of which is definitive of death). Of these, respiratory activity is the *sine qua non* of viability. Following delivery of the fetus, adequate time should be allowed to assess the presence of life and determine viability before research involving the fetus can be considered. This evaluation should be made by the delivering obstetrician, and then only if he is not himself likely to be engaged in subsequent research involving the fetus.

It is more difficult to determine whether the fetus *in utero* would be viable, if delivered, and, due to the possibility of error, Dr. Kass advised caution. He suggested that viability of the fetus *in utero* be evaluated according to gestational age. The fetus *in utero* is potentially viable before 20 weeks gestational age, but nonviable if removed from the uterus. It should be considered viable after the age of 28 weeks. Accurate evaluation of the viability of a fetus *in utero* between 20 and 28 weeks gestational age is not possible; such a fetus should be presumed viable if a heartbeat is audible using a stethoscope. The fetus which is to be aborted before the heartbeat is audible should be regarded as potentially viable until the abortion procedure is actually in progress, after which it may be considered nonviable.

## VIII. Deliberations and Conclusions

The charge to the Commission is to investigate and study research involving the living fetus and to make recommendations to the Secretary, DHEW, on "policies defining the circumstances (if any) under which such research may be conducted or supported." The Commission has attempted to fulfill that duty by conducting investigations into research on the fetus and by providing a public forum for the presentation and analysis of views on this subject. It must be recognized that the Commission was placed under severe limitations of time by its Congressional mandate. As a result, these considerations on research involving fetuses have necessarily been developed prior to the Commission's larger task of studying the nature of research, the basic ethical principles which should guide it, the problem of informed consent and the review process.

After the Commission identified the information that was required for adequate consideration of the charge, a compendium of pertinent scientific literature and medical experience was prepared by consultants and contractors. In addition, a broad range of views was presented in letters, reports and testimony by theologians, philosophers, physicians, scientists, lawyers, public officials and private citizens. The Commission then undertook critical analysis of the studies and presentations, and conducted public deliberations on the issues involved. Finally, the Commission formulated its Recommendations.

This section of the Commission's report summarizes the reasoning and conclusions that emerged during the deliberations. Section IX of the report sets forth the Commission's Recommendations to the Secretary, DHEW. These Recommendations arise from and are consistent with the Deliberations and Conclusions of the Commission. The Recommendations should be considered only within the context of the Deliberations that precede them.

A. *Preface to Deliberations and Conclusions.* Throughout the deliberations of the Commission, the belief has been affirmed that the fetus as a human subject is deserving of care and respect. Although the Commission has not addressed directly the issues of the personhood and the civil status of the fetus, the members of the Commission are convinced that moral concern should extend to all who share human genetic heritage, and that the fetus, regardless of life prospects, should be treated respectfully and with dignity.

The members of the Commission are also convinced that medical research has resulted in significant improvements in the care of the unborn threatened by death or disease, and they recognize that further progress is anticipated. Within the broad category of medical research, however, public concern has been expressed with regard to the nature and necessity of research on the human fetus. The evidence presented to the Commission was based upon a comprehensive search of the world's literature and a review of more than 3000 communications in scientific periodicals. The preponderance of all research involved experimental procedures designed to benefit directly a fetus threatened by premature delivery, disease or death, or to elucidate normal processes or development. Some research constituted an element in the health care of pregnant women. Other

research involved only observation or the use of noninvasive procedures bearing little or no risk. A final class of investigation (falling outside the present mandate of the Commission) has made use of tissues of the dead fetus, in accordance with accepted standards for treatment of the human cadaver. The Commission finds that, to the best of its knowledge, these types of research have not contravened accepted ethical standards.

Nonetheless, the Commission notes that there have been instances of abuse in the area of fetal research. Moreover, differences of opinion exist as to whether desired results could have been attained without the use of the human fetus in nontherapeutic research.

Concern has also been expressed that the poor and minority groups may bear an inequitable burden as research subjects. The Commission believes that those groups which are most vulnerable to inequitable treatment should receive special protection.

The Commission concludes that some information which is in the public interest and which provides significant advances in health care can be attained only through the use of the human fetus as a research subject. The Recommendations which follow express the Commission's belief that, while the exigencies of research and the moral imperatives of fair and respectful treatment may appear to be mutually limiting, they are not incompatible.

B. *Ethical Principles and Requirements Governing Research on Human Subjects with Special Reference to the Fetus and the Pregnant Woman.* The Commission has a mandate to develop the ethical principles underlying the conduct of all research involving human subjects. Until it can adequately fulfill this charge, its statement of principles is necessarily limited. In the interim, it proposes the following as basic ethical principles for use of human subjects in general, and research involving the fetus and the pregnant woman in particular.

Scientific inquiry is a distinctly human endeavor. So, too, is the protection of individual integrity. Freedom of inquiry and the social benefits derived therefrom, as well as protection of the individual are valued highly and are to be encouraged. For the most part, they are compatible pursuits. When occasionally they appear to be in conflict, efforts must be made through public deliberation to effect a resolution.

In effecting this resolution, the integrity of the individual is preeminent. It is therefore the duty of the Commission to specify the boundaries that respect for the fetus must impose upon freedom of scientific inquiry. The Commission has considered the principles proposed by ethicists in relation to the exigencies of scientific inquiry, the requirements and present limitations of medical practice, and legal commentary. Among the general principles for research on human subjects judged to be valid and binding are: (1) To avoid harm whenever possible, or at least to minimize harm; (2) to provide for fair treatment by avoiding discrimination between classes or among members of the same class; and (3) to respect the integrity of human subjects by requiring informed consent. An additional principle pertinent to the issue at hand is to respect the human character of the fetus.

To this end, the Commission concludes that in order to be considered ethically acceptable, research involving the fetus should be determined by adequate review to meet certain general requirements:

(1) Appropriate prior investigations using animal models and nonpregnant humans must have been completed.

(2) The knowledge to be gained must be important and obtainable by no reasonable alternative means.

(3) Risks and benefits to both the mother and the fetus must have been fully evaluated and described.

(4) Informed consent must be sought and granted under proper conditions.

(5) Subjects must be selected so that risks and benefits will not fall inequitably among economic, racial, ethnic and social classes.

These requirements apply to all research on the human fetus. In the application of these principles, however, the Commission found it helpful to consider the following distinctions: (1) therapeutic and nontherapeutic research; (2) research directed toward the pregnant woman and that directed toward the fetus; (3) research involving the fetus-going-to-term and the fetus-to-be-aborted; (4) research occurring before, during or after an abortion procedure; and (5) research which involves the nonviable fetus *ex utero* and that which involves the possibly viable infant. The first two distinctions encompass the entire period of the pregnancy through delivery; the latter three refer to different portions of the developmental continuum.

The Commission observes that the fetus is sometimes an unintended subject of research when a woman participating in an investigation is incorrectly presumed not to be pregnant. Care should be taken to minimize this possibility.

C. *Application to Research Involving the Fetus.* The application of the general principles enumerated above to the use of the human fetus as a research subject presents problems because the fetus cannot be a willing participant in experimentation. As with children, the comatose and other subjects unable to consent, difficult questions arise regarding the balance of risk and benefit and the validity of proxy consent.

In particular, some would question whether subjects unable to consent should ever be subjected to risk in scientific research. However, there is general agreement that where the benefits as well as the risks of research accrue to the subject, proxy consent may be presumed adequate to protect the subject's interests. The more difficult case is that where the subject must bear risks without direct benefit.

The Commission has not yet studied the issues surrounding informed consent and the validity of proxy consent for nontherapeutic research (including the difficult issue of consent by a pregnant minor). These problems will be explored under the broader mandate of the Commission. In the interim, the Commission has taken various perspectives into consideration in its deliberations about the use of the fetus as a subject in different research settings. The Deliberations and Conclusions of the Commission regarding the application of general principles to the use of the fetus as a human subject in scientific research are as follows:

1. *In therapeutic research directed toward the fetus,* the fetal subject is selected on the basis of its health condition, benefits and risks accrue to that fetus, and proxy consent is directed toward that subject's own welfare. Hence, with adequate review to assess scientific merit, prior research, the balance of risks and benefits, and the sufficiency of the consent process, such research conforms with all relevant principles and is both ethically acceptable and laudable. In view of the necessary involvement of the woman in such research, her consent is considered mandatory; in view of the father's possible ongoing responsibility, his objection is considered sufficient to veto.

2. *Therapeutic research directed toward the pregnant woman* may expose the fetus to risk for the benefit of another subject and thus is at first glance more problematic. Recognizing the woman's priority regarding her own health care, however, the Commission concludes that such research is ethically acceptable provided that the woman has been fully informed of the possible impact on the fetus and that other general requirements have been met. Protection for the fetus is further provided by requiring that research put the fetus at minimum risk consistent with the provision of health care for the woman. Moreover, therapeutic research directed toward the pregnant woman frequently benefits the fetus, though it need not necessarily do so. In view of the woman's right to privacy regarding her own health care, the Commission concludes that the informed consent of the woman is both necessary and sufficient.

In general, the Commission concludes that therapeutic research directed toward the health condition of either the fetus or the pregnant woman is, in principle, ethical. Such research benefits not only the individual woman or fetus but also women and fetuses as a class, and should therefore be encouraged actively.

The Commission, in making recommendations on therapeutic and nontherapeutic research directed toward the pregnant woman (Recommendations (2) and (3)), in no way intends to preclude research on improving abortion techniques otherwise permitted by law and government regulation.

3. *Nontherapeutic research directed toward the fetus in utero or toward the pregnant woman* poses difficult problems

because the fetus may be exposed to risk for the benefit of others.

Here, the Commission concludes that where no additional risks are imposed on the fetus (e.g., where fluid withdrawn during the course of treatment is used additionally for nontherapeutic research), or where risks are so minimal as to be negligible, proxy consent by the parent(s) is sufficient to provide protection. (Hence, the consent of the woman is sufficient provided the father does not object.) The Commission recognizes that the term "minimal" involves a value judgment and acknowledges that medical opinion will differ regarding what constitutes "minimal risk." Determination of acceptable minimal risk is a function of the review process.

When the risks cannot be fully assessed, or are more than minimal, the situation is more problematic. The Commission affirms as a general principle that manifest risks imposed upon nonconsenting subjects cannot be tolerated. Therefore, the Commission concludes that only minimal risk can be accepted as permissible for nonconsenting subjects in nontherapeutic research.

The Commission affirms that the woman's decision for abortion does not, in itself, change the status of the fetus for purposes of protection. Thus, the same principles apply whether or not abortion is contemplated; in both cases, only minimal risk is acceptable.

Differences of opinion have arisen in the Commission, however, regarding the interpretation of risk to the fetus-to-be-aborted and thus whether some experiments that would not be permissible on a fetus-going-to-term might be permissible on a fetus-to-be-aborted. Some members hold that no procedures should be applied to a fetus-to-be-aborted that would not be applied to a fetus-going-to-term. Indeed, it was also suggested that any research involving fetuses-to-be-aborted must also involve fetuses-going-to-term. Others argue that, while a woman's decision for abortion does not change the status of the fetus *per se*, it does make a significant difference in one respect—namely, in the risk of harm to the fetus. For example, the injection of a drug which crosses the placenta may not injure the fetus which is aborted within two weeks of injection, where it might injure the fetus two months after injection. There is always, of course, the possibility that a woman might change her mind about the abortion. Even taking this into account, however, some members argue that risks to the fetus-to-be-aborted may be considered "minimal" in research which would entail more than minimal risk for a fetus-going-to-term.

There is basic agreement among Commission members as to the validity of the equality principle. There is disagreement as to its application to individual fetuses and classes of fetuses. Anticipating that differences of interpretation will arise over the application of the basic principles of equality and the determination of "minimal risk," the Commission recommends review at the national level. The Commission believes that such review would provide the appropriate forum for determination of the scientific and public merit of such research. In addition, such review would facilitate public discussion of the sensitive issues surrounding the use of vulnerable nonconsenting subjects in research.

The question of consent is a complicated one in this area of research. The Commission holds that procedures that are part of the research design should be fully disclosed and clearly distinguished from those which are dictated by the health care needs of the pregnant woman or her fetus. Questions have been raised regarding the validity of parental proxy consent where the parent(s) have made a decision for abortion. The Commission recognizes that unresolved problems both of law and of fact surround this question. It is the considered opinion, however, that women who have decided to abort should not be presumed to abandon thereby all interest in and concern for the fetus. In view of the close relationship between the woman and the fetus, therefore, and the necessary involvement of the women in the research process, the woman's consent is considered necessary. The Commission is divided on the question of whether her consent alone is sufficient. Assignment of an advocate for the fetus was proposed as an additional safeguard; this issue will be thoroughly explored in connection with the Commission's review of the consent process. Most of the Commissioners agree that in view of the father's possible responsibility for the child, should it be brought to term, the objection of the father should be sufficient to veto. Several Commissioners, however, hold that for nontherapeutic research directed toward the pregnant woman, the woman's consent alone should be sufficient and the father should have no veto.

4. *Research on the fetus during the abortion procedure or on the nonviable fetus ex utero* raises sensitive problems because such a fetus must be considered a dying subject. By definition, therefore, the research is nontherapeutic in that the benefits will not accrue to the subject. Moreover, the question of consent is complicated because of the special vulnerability of the dying subject.

The Commission considers that the status of the fetus as dying alters the situation in two ways. First, the question of risk becomes less relevant, since the dying fetus cannot be "harmed" in the sense of "injured for life." Once the abortion procedure has begun, or after it is completed, there is no chance of a change of mind on the woman's part which will result in a living, injured subject. Second, however, while questions of risk become less relevant, considerations of respect for the dignity of the fetus continue to be of paramount importance, and require that the fetus be treated with the respect due to dying subjects. While dying subjects may not be "harmed" in the sense of "injured for life," issues of violation of integrity are nonetheless central. The Commission concludes, therefore, that out of respect for the dying subjects, no nontherapeutic interventions are permissible which would alter the duration of life of the nonviable fetus *ex utero*.

Additional protection is provided by requiring that no significant changes are made in the abortion procedure strictly for purposes of research. The Commission was divided on the question of whether a woman has a right to accept modifications in the timing or method of the abortion procedure in the interest of research, and whether the investigator could ethically request her to do so. Some Commission members desired that neither the research nor the investigator in any way influence the abortion procedure; others felt that modifications in timing or method of abortion were acceptable provided no new elements of risk were introduced. Still others held that even if modifications increased the risk, they would be acceptable provided the woman had been fully informed of all risks, and provided such modifications did not postpone the abortion beyond the 20th week of gestational age (5 lunar months, four and one-half calendar months). Despite this division of opinion, the Recommendation of the Commission on this matter is that the design and conduct of a nontherapeutic research protocol should not determine the recommendations by a physician regarding the advisability, timing or method or abortion. No members of the Commission desired less stringent measures.

Furthermore, it is possible that, due to mistaken estimation of gestational age, an abortion may issue in a possibly viable infant. If there is any danger that this might happen, research which would entail more than minimal risk would be absolutely prohibited. In order to avoid that possibility the Commission recommends that, should research during abortion be approved by national review, it be always on condition that estimated gestational age be below 20 weeks. There is, of course, a moral and legal obligation to attempt to save the life of a possibly viable infant.

Finally, the Commission has been made aware that certain research, particularly that involving the living nonviable fetus, has disturbed the moral sensitivity of many persons. While it believes that its Recommendations would preclude objectionable research by adherence to strict review processes, problems of interpretation or application of the Commission's Recommendations may still arise. In that event, the Commission proposes ethical review at a national level in which informed public disclosure and assessment of the problems, the type of proposed research and the scientific and public importance of the expected results can take place.

D. *Review Procedures.* The Commission will conduct comprehensive studies of existing review mechanisms in connection with its broad mandate to develop guidelines and make recommendations concerning ethical issues involved in research on human subjects. Until the Commission has completed these studies, it can offer only tentative conclusions and recommendations regarding review mechanisms.

In the interim, the Commission finds that existing review procedures required by statute (Pub. L. 93–348) and DHEW regulations (45 CFR 46) suffice for all therapeutic research involving the pregnant woman and the fetus, and for all nontherapeutic research which imposes minimal or no risk and which would be acceptable for conduct on a fetus *in utero* to be carried to term or on an infant. Guidelines to be employed under the existing review procedures include: (1) importance of the knowledge to be gained; (2) completion of appropriate studies on animal models and nonpregnant humans and existence of no reasonable alternative; (3) full evaluation and disclosure of the risks and benefits that are involved; and (4) supervision of the conditions under which consent is sought and granted, and of the information that is disclosed during that process.

The case is different, however, for nontherapeutic research directed toward a pregnant woman or a fetus if it involves more than minimal risk or would not be acceptable for application to an infant. Questions may arise concerning the definition of risk or the assessment of scientific and public importance of the research. In such cases, the Commission considers current review procedures insufficient. It recommends these categories be reviewed by a national review body to determine whether the proposed research could be conducted within the spirit of the Commission's recommendations. It would interpret these recommendations and apply them to the proposed research, and in addition, assess the scientific and public value of the anticipated results of the investigation.

The national review panel should be composed of individuals having diverse backgrounds, experience and interests, and be so constituted as to be able to deal with the legal, ethical, and medical issues involved in research on the human fetus. In addition to the professions of law, medicine, and the research sciences, there should be adequate representation of women, members of minority groups, and individuals conversant with the various ethical persuasions of the general community.

Inasmuch as even such a panel cannot always judge public attitudes, panel meetings should be open to the public, and, in addition, public participation through written and oral submissions should be sought.

E. *Compensation.* The Commission expressed a strong conviction that considerable attention be given to the issue of provision of compensation to those who may be injured as a consequence of their participation as research subjects.

Concerns regarding the use of inducements for participation in research are only partially met by the Commission's Recommendation (14) on the prohibition of the procurement of an abortion for research purposes. Compensation not only for injury from research but for participation in research as a normal volunteer or in a therapeutic situation will be part of later Commission deliberations.

F. *Research Conducted Outside the United States.* The Commission has considered the advisability of modifying its standards for research which is supported by the Secretary, DHEW, and is conducted outside the United States. It has concluded that its recommendations should apply as a single minimal standard, but that research should also comply with any more stringent limitations imposed by statutes or standards of the country in which the research will be conducted.

G. *The Moratorium on Fetal Research.* The Commission notes that the restrictions on fetal research (imposed by section 213 of Pub. L. 93–348) have been construed broadly throughout the research community, with the result that ethically acceptable research, which might yield important biomedical information, has been halted. For this reason, it is considered in the public interest that the moratorium be lifted immediately, that the Secretary take special care thereafter that the Commission's concerns for the protection of the fetus as a research subject are met, and appropriate regulations based upon the Commission's recommendations be implemented within a year from the date of submission of this report to the Secretary, DHEW. Until final regulations are published, the existing review panels at the agency and institutional levels should utilize the Deliberations and Recommendations of the Commission in evaluating the acceptability of all grant and contract proposals submitted for funding.

H. *Synthesis.* The Commission concludes that certain prior conditions apply broadly to all research involving the fetus, if ethical considerations are to be met. These requirements include evidence of pertinent investigations in animal models and nonpregnant humans, lack of alternative means to obtain the information, careful assessment of the risks and benefits of the research, and procedures to ensure that informed consent has been sought and granted under proper conditions. Determinations as to whether these essential requirements have been met may be made under existing review procedures, pending study by the Commission of the entire review process.

In the judgment of the Commission, therapeutic research directed toward the health care of the pregnant woman or the fetus raises little concern, provided it meets the essential requirements for research involving the fetus, and is conducted under appropriate medical and legal safeguards.

For the most part, nontherapeutic research involving the fetus to be carried to term or the fetus before, during or after abortion is acceptable so long as it imposes minimal or no risk to the fetus and, when abortion is involved, imposes no change in the timing or procedure for terminating pregnancy which would add any significant risk. When a research protocol or procedure presents special problems of interpretation or application of these guidelines, it should be subject to national ethnical review; and it should be approved only if the knowledge to be gained is of medical importance, can be obtained in no other way, and the research proposal does not offend community sensibilities.

IX. RECOMMENDATIONS

1. *Therapeutic research directed toward the fetus* may be conducted or supported, and should be encouraged, by the Secretary, DHEW, provided such research (a) conforms to appropriate medical standards, (b) has received the informed consent of the mother, the father not dissenting, and (c) has been approved by existing review procedures with adequate provision for the monitoring of the consent process. (Adopted unanimously.)

2. *Therapeutic research directed toward the pregnant woman* may be conducted or supported, and should be encouraged, by the Secretary, DHEW, provided such research (a) has been evaluated for possible impact on the fetus, (b) will place the fetus at risk to the minimum extent consistent with meeting the health needs of the pregnant woman, (c) has been approved by existing review procedures with adequate provision for the monitoring of the consent process, and (d) the pregnant woman has given her informed consent. (Adopted unanimously.)

3. *Nontherapeutic research directed toward the pregnant woman* may be conducted or supported by the Secretary, DHEW, provided such research (a) has been evaluated for possible impact on the fetus, (b) will impose minimal or no risk to the well-being of the fetus, (c) has been approved by existing review procedures with adequate provision for the monitoring of the consent process, (d) special care has been taken to assure that the woman has been fully informed regarding possible impact on the fetus, and (e) the woman has given informed consent. (Adopted unanimously.)

It is further provided that nontherapeutic research directed at the pregnant woman may be conducted or supported (f) only if the father has not objected, both where abortion is not at issue (adopted by a vote of 8 to 1) and where an abortion is anticipated (adopted by a vote of 5 to 4).

4. *Nontherapeutic research directed toward the fetus in utero* (other than research in anticipation of, or during, abortion) may be conducted or supported by the Secretary, DHEW, provided (a) the purpose of such research is the development of important biomedical knowledge that cannot be obtained by alternative means, (b) investigation on pertinent animal models and nonpregnant humans has preceded such research, (c) minimal or no risk to the well-being of the fetus will be imposed by the research, (d) the research has been approved by existing review procedures with adequate provision for the moni-

toring of the consent process, (e) the informed consent of the mother has been obtained, and (f) the father has not objected to the research. (Adopted unanimously.)

5. *Nontherapeutic research directed toward the fetus in anticipation of abortion* may be conducted or supported by the Secretary, DHEW, provided such research is carried out within the guidelines for all other nontherapeutic research directed toward the fetus *in utero*. Such research presenting special problems related to the interpretation or application of these guidelines may be conducted or supported by the Secretary, DHEW, provided such research has been approved by a national ethical review body. (Adopted by a vote of 8 to 1.)

6. *Nontherapeutic research directed toward the fetus during the abortion procedure and nontherapeutic research directed toward the nonviable fetus ex utero* may be conducted or supported by the Secretary, DHEW, provided (a) the purpose of such research is the development of important biomedical knowledge that cannot be obtained by alternative means, (b) investigation on pertinent animal models and nonpregnant humans (when appropriate) has preceded such research, (c) the research has been approved by existing review procedures with adequate provision for the monitoring of the consent process, (d) the informed consent of the mother has been obtained, and (e) the father has not objected to the research; and provided further that (f) the fetus is less than 20 weeks gestational age, (g) no significant procedural changes are introduced into the abortion procedure in the interest of research alone, and (h) no intrusion into the fetus is made which alters the duration of life. Such research presenting special problems related to the interpretation or application of these guidelines may be conducted or supported by the Secretary, DHEW, provided such research has been approved by a national ethical review body. (Adopted by a vote of 8 to 1.)

7. *Nontherapeutic research directed toward the possibly viable infant* may be conducted or supported by the Secretary, DHEW, provided (a) the purpose of such research is the development of important biomedical knowledge that cannot be obtained by alternative means, (b) investigation on pertinent animal models and nonpregnant humans (when appropriate) has preceded such research, (c) no additional risk to the well-being of the infant will be imposed by the research, (d) the research has been approved by existing review procedures with adequate provision for the monitoring of the consent process, and (e) informed consent of either parent has been given and neither parent has objected. (Adopted unanimously.)

8. *Review Procedures.* Until the Commission makes its recommendations regarding review and consent procedures, the review procedures mentioned above are to be those presently required by the Department of Health, Education, and Welfare. In addition, provision for monitoring the consent process shall be required in order to ensure adequacy of the consent process and to prevent unfair discrimination in the selection of research subjects, for all categories of research mentioned above. A national ethical review, as required in Recommendations (5) and (6), shall be carried out by an appropriate body designated by the Secretary, DHEW, until the establishment of the National Advisory Council for the Protection of Subjects of Biomedical and Behavioral Research. In order to facilitate public understanding and the presentation of public attitudes toward special problems reviewed by the national review body, appropriate provision should be made for public attendance and public participation in the national review process. (Adopted unanimously, one abstention.)

9. *Research on the Dead Fetus and Fetal Tissue.* The Commission recommends that use of the dead fetus, fetal tissue and fetal material for research purposes be permitted, consistent with local law, the Uniform Anatomical Gift Act and commonly held convictions about respect for the dead. (Adopted unanimously, one abstention.)

10. The design and conduct of a nontherapeutic research protocol should not determine recommendations by a physician regarding the advisability, timing or method of abortion. (Adopted by a vote of 6 to 2.)

11. Decisions made by a personal physician concerning the health care of a pregnant woman or fetus should not be compromised for research purposes, and when a physician of record is involved in a prospective research protocol, independent medical judgment on these issues is required. In such cases, review panels should assure that procedures for such independent medical judgment are adequate, and all conflict of interest or appearance thereof between appropriate health care and research objectives should be avoided. (Adopted unanimously.)

12. The Commission recommends that research on abortion techniques continue as permitted by law and government regulation. (Adopted by a vote of 6 to 2.)

13. The Commission recommends that attention be drawn to Section 214(d) of the National Research Act (Pub. L. 93–348) which provides that:

> "No individual shall be required to perform or assist in the performance of any part of a health service program or research activity funded in whole or in part by the Secretary of Health, Education, and Welfare, if his performance or assistance in the performance of such part of such program or activity would be contrary to his religious beliefs or moral convictions."

(Adopted unanimously.)

14. No inducements, monetary or otherwise, should be offered to procure an abortion for research purposes. (Adopted unanimously.)

15. Research which is supported by the Secretary, DHEW, to be conducted outside the United States should at the minimum comply in full with the standards and procedures recommended herein. (Adopted unanimously.)

16. The moratorium which is currently in effect should be lifted immediately, allowing research to proceed under current regulations but with the application of the Commission's Recommendations to the review process. All the foregoing Recommendations of the Commission should be implemented as soon as the Secretary, DHEW, is able to promulgate regulations based upon these Recommendations and the public response to them. (Adopted by a vote of 9 to 1.)

Dissenting Statement of Commissioner David W. Louisell

I am compelled to disagree with the Commission's Recommendations (and the reasoning and definitions on which they are based) insofar as they succumb to the error of sacrificing the interests of innocent human life to a postulated social need. I fear this is the inevitable result of Recommendations (5) and (6). These would permit nontherapeutic research on the fetus in anticipation of abortion and during the abortion procedure, and on a living infant after abortion when the infant is considered nonviable, even though such research is precluded by recognized norms governing human research in general. Although the Commission uses adroit language to minimize the appearance of violating standard norms, no facile verbal formula can avoid the reality that under these Recommendations the fetus and nonviable infant will be subjected to nontherapeutic research from which other humans are protected.

I disagree with regret, not only because of the Commission's zealous efforts but also because there is significant good in its Report especially its showing that much of the research in this area is therapeutic for the individuals involved, both born and unborn, and hence of unquestioned morality when based on prudent medical judgment. The Report also makes clear that some research, even though nontherapeutic, is merely observational or otherwise without significant risk to the subject, and therefore is within standard human research norms and as unexceptional morally as it is useful scientifically.

But the good in much of the Report cannot blind me to its departure from our society's most basic moral commitment: the essential equality of all human beings. For me the lessons of history are too poignant, and those of this century too fresh, to ignore another violation of human integrity and autonomy by subjecting unconsenting human beings, whether or not viable, to harmful research even for laudable scientific purposes.

Admittedly, the Supreme Court's rationale in its abortion decisions of 1973—*Roe v. Wade* and *Doe v. Bolton*, 310 U.S. 113, 179—has given this Commission an all but impossible task. For many see in that rationale a total negation of fetal rights, absolutely so for the first two trimesters and substantially so for the

third. The confusion is understandable, rooted as it is in the Court's invocation of the specially constructed legal fiction of "potential" human life. Its acceptance of the notion that human life must be "meaningful" in order to be deserving of legal protection, and its resuscitation of the concept of partial human personhood, which had been thought dead in American society since the demise of the *Dred Scott* decision. Little wonder that intelligent people are asking: how can one who has no right to life itself have the lesser right of precluding experimentation on his or her person?

It seems to me that there are at least two compelling answers to the notion that *Roe* and *Doe* have placed fetal experimentation, and experimentation on nonviable infants, altogether outside the established protections for human experimentation. First, while we must abide the Court's mandate in a particular case on the issues actually decided even though the decision is wrong and in fact only an exercise of "raw judicial power" (White, J., dissenting in *Roe* and *Doe*), this does not mean we should extend an erroneous rationale to other situations. To the contrary, while seeking to have the wrong corrected by the Court itself, or by the public, the citizen should resist its extension to other contexts. As Abraham Lincoln, discussing the *Dredd Scott* decision, put it:

> (T)he candid citizen must confess that if the policy of the government upon vital questions affecting the whole people, is to be irrevocably fixed by decisions of the Supreme Court, the instant that they are made, in ordinary litigation between parties in personal actions, the people will have ceased to be their own rulers, having, to that extent, practically resigned their government, into the hands of that eminent tribunal. (4 Basler, The Collected Works of Abraham Lincoln 262, 268 (1963).)

Thus even if the Court had intended by its *Roe* and *Doe* rationale to exclude the unborn, and newly born nonviable infants, from all legal protection including that against harmful experimentation, I can see no legal principle which would justify, let alone require, passive submission to such a breach of our moral tradition and commitment.

Secondly, the Court in *Roe* and *Doe* did not have before it, and presumably did not intend to pass upon and did not in fact pass upon, the question of experimentation on the fetus or born infant. Certainly that question was not directly involved in those cases. Granting the fullest intendment to those decisions possibly arguable, it seems to me that the woman's new-found constitutional right of privacy is fulfilled upon having the fetus aborted. If an infant survives the abortion, there is hardly an additional right of privacy to then have him or her killed or harmed in any way, including harm by experimentation impermissible under standard norms. At least *Roe* and *Doe* should not be assumed to recognize such a right. And while the Court's unfortunate language respecting "potential" and "meaningful" life is thought by some to imply a total abandonment of *in utero* life for all legal purposes, at least for the first two trimesters, such a conclusion would so starkly confront our social, legal, and moral traditions that I think we should not assume it. To the contrary we should assume that the language was limited by the abortion context in which used and was not intended to effect a departure from the limits on human experimentation universally recognized at least in principle.

A shorthand way, developed during the Commission's deliberations, of stating the principle that would adhere to recognized human experimentation norms and that should be recommended in place of Recommendation (5) is: No research should be permitted on a fetus-to-be-aborted that would not be permitted on one to go to term. This principle is essential if all of the unborn are to have the protection of recognized limits on human experimentation. Any lesser protection violates the autonomy and integrity of the fetus, and even a decision to have an abortion cannot justify ignoring this fact. There is not only the practical problem of a possible change of mind by the pregnant woman. For me, the chief vice of Recommendation (5) is that it permits an escape hatch from human experimentation principles merely by decision of a national ethical review body. No principled basis for an exception has been, nor in my judgment can be, formulated. The argument that the fetus-to-be-aborted "will die anyway" proves too much. All of us "will die anyway." A woman's decision to have an abortion, however protected by *Roe* and *Doe* in the interests of her privacy or freedom of her own body, does not change the nature or quality of fetal life.

Recommendation (6) concerns what is now called the "nonviable fetus *ex utero*" but which up to now has been known by the law, and I think by society generally, as an infant, however premature. This Recommendation is unacceptable to me because, on approval of a national review body, it makes certain infants up to five months gestational age potential research material, provided the mother who has of course consented to the abortion, also consents to the experimentation and the father has not objected. In my judgment all infants, however premature or inevitable their death, are within the norms governing human experimentation generally. We do not subject the aged dying to unconsented experimentation, nor should we the youthful dying.

Both Recommendations (5) and (6) have the additional vice of giving the researcher a vested interest in the actual effectuation of a particular abortion, and society a vested interest in permissive abortion in general.

I would, therefore, turn aside any approval, even in science's name, that would by euphemism or other verbal device, subject any unconsenting human being, born or unborn, to harmful research, even that intended to be good for society. Scientific purposes might be served by nontherapeutic research on retarded children, or brain dissection of the old who have ceased to lead "meaningful" lives, but such research is not proposed—at least not yet. As George Bernard Shaw put it in "The Doctor's Dilemma": "No man is allowed to put his mother in the stove because he desires to know how long an adult woman will survive the temperature of 500 degrees Fahrenheit, no matter how important or interesting that particular addition to the store of human knowledge may be." Is it the mere youth of the fetus that is thought to foreclose the full protection of established human experimentation norms? Such reasoning would imply that a child is less deserving of portection than an adult. But reason, our tradition, and the U.N. Declaration of Human Rights all speak to the contrary, emphasizing the need of special protection for the young.

Even if I were to approach my task as a Commissioner from a utilitarian viewpoint only, I would have to say that on the record here I am not convinced that an adequate showing has been made of the necessity for nontherapeutic fetal experimentation in the scientific or social interest. The Commission's reliance is on the Battelle Report and its reliance is misplaced. The relevant Congressional mandate was to conduct an investigation and study of the alternative means for achieving the purposes of fetal research (Pub. L. 93–348, July 12, 1974, sec. 202 (b); National Research Act.)

As Commissioner Robert E. Cooke, M.D., who is sophisticated in research procedures, pointed out in his Critique of the Battelle Report: "The only true objective approach beyond question, since scientists make [the analysis of the necessity for nontherapeutic fetal research], is to collect information and analyze past research accomplishments with the intention of *disproving, not proving* the hypothesis that research utilizing the living human fetus nonbeneficially is necessary" (italics in original). The Battelle Report seems to me not in accord with the Congressional intention in that it proceeds from a viewpoint opposite to that quoted, and is really an effort to prove the indispensability of nontherapeutic research. In any event, if that is its purpose, it fails to achieve it, for most of what it claims to have been necessary could be justified as therapeutic research or at least as non-invasive of the fetus (e.g., probably amniocentesis). In view of haste with which this statement must be prepared if it is to accompany the Commission's report, rather than enlarge upon these views now I refer both to the Cooke Critique and the Battelle Report itself both of which I am informed will be a part of or appended to the Commission's Report.

An emotional plea was made at the Commission's hearings not to acknowledge limitations on experimentation that would inhibit the court-granted permissive abortion. However, until its last meeting, I think the Commission for the most part admirably resisted the temptation to distort its purpose by pro-abortion advocacy. But at the last meeting, without prior preparation or discussion, it adopted Recommendation (12) promotive of research on abortion techniques.

This I feel is not germane to our task, is imprudent and certainly was not adequately considered.

Finally, I do not think that the Commission should urge lifting the moratorium on fetal research as stated in Recommendation (16). To the extent that duration of the moratorium is controlled by section 213 of the National Research Act, the subject is beyond our control and we ought not assume authority that is not ours. This is matter not for us and not, ultimately, for any administrative official, but for Congress. If the American people as a democratic society really intend to withdraw from the fetus and nonviable infant the protection of the established principles governing human experimentation, that action I feel should come from the Congress of the United States, in the absence of a practical way to have a national vote. Assuming that any representative voice is adequate to bespeak so basic and drastic a change in the public philosophy of the United States, it could only be the voice of Congress. Of course there is no reason why the Secretary of DHEW cannot immediately make clear that no researcher need stand in fear of therapeutic research.

As noted at the outset, the Commission's work has achieved some good results in reducing the possibilities of manifest abuses and thereby according a measure of protection to humans at risk by reason of research. That it has not been more successful is in my judgment not due so much to the Commission's failings as to the harsh and pervasive reality that American society is itself at risk—the risk of losing its dedication "to the proposition that all men are created equal." We may have to learn once again that when the bell tolls for the lost rights of any human being, even the politically weakest, it tolls for all.

DAVID W. LOUISELL,
ELIZABETH JOSSELYN BOALT,
*Professor of Law, University of California, Berkeley.*

Statement of Commissioner Karen Lebacoz, With the Concurrence of Commissioner Albert R. Jonsen on the First Item

The following comments include some points of dissent from the Recommendations of the Commission. For the most part, however, these comments are intended as elaborations on the Report rather than dissent from it.

1. At several points, the Commission established as a criterion for permissible research an acceptable level of risk—e.g. "no risk" or "minimal risk." I support the Commission's Recommendations regarding such criteria, but I wish to make several interpretative comments.

First, I think it should be stressed that in the first trials on human subjects or on a new class of human subjects, the risks are almost always unknown. The Commission heard compelling evidence that differences in physiology and pharmacology between human and other mammalian fetuses are such that even with substantial trials in animal models it is often not possible to assess the risks for the first trials with human fetuses. For example, evidence from animal trials in the testing of thalidomide provided grounds for an estimation of low risk to human subjects; the initial trials in the human fetus resulted in massive teratogenic effects.

I would therefore urge review boards to exercise caution in the interpretation of "risk" and to avoid the temptation to consider the risks "minimal" when in fact they cannot be fully assessed.

Second, I think it important to emphasize the evaluative nature of judgments of risk. The term "risk" means *chance of harm*. Interpretation of risk involves both an assessment of statistical *chance* of injury and an assessment of the *nature* of the injury. Value judgments about what constitutes a "harm" and what percentage chance of harm is acceptable are both involved in the determination of acceptable risk. A small chance of great harm may be considered unacceptable where a greater chance of a smaller harm would be acceptable. For example, it is commonly accepted that a 1–2% chance of having a child with Down's Syndrome is a "high" risk, where the same chance of minor infection from amniocentesis would be considered a "low" risk. Opinions will differ both about what constitutes "harm" or injury and also about what chance of a particular harm is acceptable.

For all these reasons, the interpretation of risk and the designation of acceptable "minimal risk" merit considerable attention by the scientific community and the lay public. The provision of national review in problematic instances should engender serious deliberation on these critical issues.

Third, the establishment of criteria for "no risk" or "minimal risk" is obviously related to the interpretation of "harm." In general, the Commission has discussed "harm" in terms of two indices (1) injury or diminished faculty, and (2) pain. A third commonly accepted definition of "harm" is "offense against right or morality"; this meaning of harm has been subsumed under the rubric of violation of dignity or integrity of the fetus, and thus is separated out of the Commission's deliberations on acceptable levels of risk. In establishing acceptable levels of risk, therefore, the Commission has been concerned with injury and pain to the fetus.

Several ethicists argued cogently before the Commission that the ability to experience pain is morally relevant to decisions regarding research. Indeed, the argument was advanced that the ability to experience pain is a more appropriate consideration than is viability for purposes of establishing the limits of intervention into fetal life.

However, scientific opinion is divided on the question of whether the fetus can experience pain—and on the appropriate indices on which to measure the experience of pain. Several experts argue that the fetus does not feel pain.

I believe that the Commission has implicitly accepted this view in making Recommendation (6) regarding research on the fetus during the abortion procedure and on the nonviable fetus *ex utero*. Should this view not be correct, and should the fetus indeed be able to experience pain before the 20th week of gestation, I would modify Recommendation (6) in two ways:

First, the Recommendation as it now stands does not specify an acceptable level of risk. The reason for this omission is essentially as follows: in a dying subject prior to viability, "diminution of faculties" does not appear to be a meaningful index of harm since this index refers largely to future life expectations. Therefore, the critical meaning of "harm" for such a subject lies in the possibility of experiencing pain. If the fetus does not feel pain it cannot be "harmed" in this sense, and thus there is no risk of harm for such a fetus. It is for this reason that the Commission has not specified an acceptable level of "risk" for fetuses in this category, although it has been careful to protect the dignity of the fetus.

Clearly, however, if the fetus does indeed feel pain, then it can be "harmed" by the above definition of harm. If so, then I would argue that an acceptable level of risk should be established at the same level as that considered acceptable for fetuses *in utero*—namely, "no risk" or "minimal risk."

Second, the Commission has concluded that out of respect for the dying subject, no interventions are permissible which would alter the duration of life of the subject—i.e., by shortening or lengthening the dying process (item 6h). I find the prohibition against shortening the life of the dying fetus to be acceptable provided the fetus does not feel pain. If the fetus does feel pain, however, then its dying may be painful and respect for the dying subject may require that its pain be minimized even if its life-span is shortened in so doing.

2. The Commission has stated that its provisions regarding therapeutic and nontherapeutic research directed toward the pregnant woman are not intended to limit research on improving abortion techniques. I support this stand and wish to clarify the reasons for my support.

In supporting this statement, I neither condone nor encourage widespread abortion. However, I do believe that some abortions are both legally and morally justifiable. It is therefore consonant with the principle of minimizing harm to develop techniques of abortion that are least harmful. Indeed, under the present climate of legal freedom to abort and widespread practice of abortion, adherence to the principle of not-harming may impose an obligation on us to research abortion technology in order to minimize harm. This obligation arises not only out of consideration of the health and well-being of the woman but also from a concern for possible pain or discomfort of the fetus during the abortion procedure.

3. Evidence presented to the Commission indicates that there is a strong emphasis in the law on avoiding possible injury to a child to be born. This evidence, coupled with the uncertainty of risks in a new class of human subjects, suggests that considerable importance ought to be attached to the question of compensation for injury incurred during research.

The Commission will study this question in depth at a later time, and therefore has not made any recommendations on compensation at this time. As a matter of personal opinion, I would like to note that I am reluctant to allow any research on the living human fetus unless provision has been made for adequate compensation of subjects injured during research.

4. The Commission's Recommendation on research during the abortion procedure and on the nonviable fetus *ex utero* prevents prolongation of the dying process for purposes of research. This prohibition may appear to have the effect of preventing research on the development of an artificial placenta.

It is my understanding that such an effect does not necessarily follow. Steps toward the development of an artificial placenta are prohibited only through nontherapeutic research; innovative therapy or therapeutic research on the possibly-viable infant is not only condoned but encouraged. Thus the development of an artificial placenta may proceed, but under more restricted circumstances in which it is limited to therapeutic research or to nontherapeutic research which does not alter the duration of life. I do not believe that it was the intention of the Commission to curtail all research toward the development of an artificial placenta, nor do I believe that such will be the effect of the Commission's Recommendations.

Were the Recommendations to have such an effect, however, I would dissent. Indeed, I would argue that a prematurely-delivered fetus that is unable to survive, given the support of available medical technology, would have an interest in the development of an artificial placenta that would allow others like it to survive. Thus it would not be contrary to the interests of that fetus for it to be subjected to nontherapeutic research in the development of an artificial placenta.

In making such an argument, I invoke a principle that I call the "principle of proximity": namely, that research is ethically more acceptable the more closely it approximates what the considered interests of the subject would reasonably be. For example, Hans Jonas has argued that dying subjects should not be used in nontherapeutic research, even when they have consented, unless the research deals directly with the cause from which they are dying; that is, it is presumed that a dying subject has an interest in his/her own disease which legitimates research on that disease where research in general would not be legitimate.

Such a principle is, of course, open to wide interpretation. But I think it not unreasonable to suggest that the dying fetus would have an interest in the cause of its dying or in the development of technology which would allow others like it to survive. On such a principle, one might argue that it is more ethically acceptable to use dying fetuses with Tay-Sachs disease as subjects in nontherapeutic research on Tay-Sachs disease than in nontherapeutic research on general fetal pharmacology. Similarly, one might argue that it is ethically acceptable to use nonviable fetuses *ex utero* as subjects in nontherapeutic research on the development of an artificial placenta. The development of a full rationale for such a position would require an analysis along the lines suggested by McCormick and Toulmin, and I cannot attempt that here. At this point I simply wish to suggest that I believe it is possible to argue for both therapeutic and nontherapeutic research directed toward the development of an artificial placenta.

5. Finally, members of the Commission disagreed about changes in the timing or method of abortion in relation to research. Recommendation (10) states clearly that the recommendations of a physician regarding timing and method of abortion should not be determined by the design or conduct of nontherapeutic research. I am in full agreement with this Recommendation.

The provision in Recommendation (6) (item g), however, is more ambiguous. I would argue that changes in timing or method of abortion are ethically acceptable provided that they are freely chosen by the woman and that she has been fully informed of all possible risks from such changes. I base this argument on the right of any patient to be informed about alternative courses of treatment and to choose between them. It seems to me that the pregnant woman, as a patient, may choose the timing and method of abortion, provided that she has been fully informed of the following: (1) the relation of alternative methods of abortion to possible research on the fetus; (2) risks to herself and to possible future children of alternative possible methods of abortion; and (3) procedures which would be introduced into the abortion as part of the research design which would not be medically indicated.

Some members of the Commission have argued that a woman might choose such changes provided that they entail no additional risk. While I appreciate the concern to protect the woman's health and well-being, such a restriction seems to me a violation of her right to freedom of choice as a patient. Thus I would allow a woman to chose to delay her abortion until the second trimester for purposes of research, *provided that* she has been fully informed of all risks in so doing. One restriction seems imperative to me, however: in no case, should she be allowed to delay the abortion beyond the 20th week of gestation *for research purposes*. This position is reflected in the Deliberations and Conclusions of the Commission's Report.

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Office of the Secretary

### HUMAN SUBJECTS

### Minimum Criteria Identifying the Viable Fetus

On March 13, 1975, regulations were published in the FEDERAL REGISTER (40 FR 11854) relating to the protection of human subjects in research, development, and related activities supported by Department of Health, Education, and Welfare grants and contracts. These regulations are codified at 45 CFR Part 46.

Elsewhere in this issue of the FEDERAL REGISTER, the Secretary is amending 45 CFR Part 46 by, among other things, adding a new Subpart B to provide additional protections pertaining to research, development, and related activities involving fetuses, pregnant women, and in vitro fertilization.

Section 46.203(e) of Subpart B provides inter alia as follows:

The Secretary may from time to time, taking into account medical advances, publish in the FEDERAL REGISTER guidelines to assist in determining whether a fetus is viable for purposes of this subpart.

This notice is published in accordance with § 46.203e). For purposes of Subpart B, the guidelines indicating that a fetus other than a dead fetus within the meaning of § 46.203(g)) is viable include the following:

an estimated gestational age of 20 weeks or more and a body weight of 500 grams or more.

Dated: July 29, 1975.

CASPAR W. WEINBERGER,
*Secretary.*

# DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

## Food and Drug Administration

■

# MEDICATED ANIMAL FEEDS

## Current Good Manufacturing Practice; Proposed Amendments

## DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### Food and Drug Administration

[ 21 CFR Parts 210, 225 ]

[Docket No. 75N-0056]

### MEDICATED FEEDS; CURRENT GOOD MANUFACTURING PRACTICE

### Notice of Proposed Amendments

The Commissioner of Food and Drugs is proposing that the regulations describing current good manufacturing practice in the production of medicated animal feeds be revised to reflect current practice and technology in the manufacture of medicated feeds. The current Good Manufacturing Practice regulations, promulgated in 1965, are found in 21 CFR 225.1 to 225.115 (formerly §§ 133.100 to 133.110 prior to recodification published in the FEDERAL REGISTER of March 27, 1975 (40 FR 13996)). Interested persons have until October 7, 1975, to submit comments.

Medicated feed is both a food and a drug for animals; it supplies the food for daily nutritional needs of the animal as well as drugs that help to provide optimal heath and productivity. Medicated feed is a vehicle for administering drugs to animals for disease control (prevention/treatment) or improvement in production efficiency. For disease control, it serves as a way of administering drug therapy efficiently on a herd or flock basis. In the area of improvement in production efficiency, the use of medicated feed normally results in the target animals growing more rapidly, thus achieving a marketable carcass weight in a shorter period of time. This more rapid growth may be accompanied by a reduction in the amount of feed necessary to produce a marketable product. The reduced time and feed costs of production increase the economic yield of the animal.

The Commissioner is aware of the impact that medicated feeds have in the economic production of wholesome food derived from domestic livestock and poultry. He also recognizes the important and integral role of the feed manufacturing industry in the manufacture of medicated feeds that are safe and effective. Estimates available to the Commissioner show that feed manufacturers prepare more than 45 million tons of medicated feed annually and that approximately 80 percent of our food animals have, at some point during their lives, been fed a medicated feed. Medicated feeds are produced in more than 12,000 feed manufacturing establishments.

Trends in the livestock and poultry industries indicate that, in the future, increased reliance will be placed on medicated feeds as production aids. The trend toward high density animal production, grouping of animals within a similar production class, and relatively high costs for labor and feed are already well established. Increasing costs of energy are an additional factor which must be considered. Medicated feeds permit high density, short-duration growth periods that otherwise would not be possible.

For these reasons the Commissioner established an intra-agency Medicated Feed Task Force to review and evaluate current Food and Drug Administration programs and regulations for medicated feeds. In this review and evaluation, there was to be an assessment of the Current Good Manufacturing Practice regulations for medicated feeds in terms of their application to the current technology of the feed manufacturing industry.

The task force has completed its assessment of the Current Good Manufacturing Practice regulations for medicated feeds and has concluded that they should be amended (1) to set forth with greater clarity and particularity the criteria essential to the production of medicated feeds that are not adulterated or misbranded; (2) to take into consideration advances in feed manufacturing technology such as computerized manufacturing techniques, the growth in the use of ingredient processing techniques (e.g. flaking, popping, rolling), and other new forms of feeds such as feed cubes, blocks and liquid supplements, and; (3) to include in each section of the regulations, because of the extraordinary diversity of the regulated industry, a brief, informative explanation of why the requirements contained therein are necessary.

The Commissioner concurs with the conclusions of the task force and proposes that the Current Good Manufacturing Practice regulations be amended, as set forth below, to be consistent with current industry technology and practice. Further, as proposed, the first paragraph of each section of the regulations explains the purpose of the section and the manner in which it relates to good manufacturing practices. The remainder of each section consists of specific, required good manufacturing practices to assure that medicated feeds are manufactured in compliance with the requirements of the act.

A significant change is made in the requirements for the assay of finished medicated feeds. The purpose of the present assay requirements is to determine the suitability of the firm's manufacturing procedures and controls in producing uniform medicated feeds and to prevent the distribution of a medicated feed which is improperly formulated. The drug assays in feed are time consuming and require laboratory facilities which are usually not immediately available. Therefore, the results of analysis are seldom available prior to shipment. This can result in the shipment of products prior to a determination of their compliance with the established specifications. In lieu of the existing assay requirements, the proposal reduces the number of assays required but institutes more stringent daily drug component accountability controls which the Commissioner has concluded will result in improved quality control at the time of manufacture, thus lessening the likelihood of the distribution of violative feeds.

The current assay requirements for medicated feeds subject to a Medicated Feed Application, Form FD-1800, approval include an analysis of each of the first three batches manufactured, as well as three additional analyses for every 400 tons of feed produced. For medicated feeds not subject to Form FD-1800 approval, the requirements are similar except that the first three batches need not be assayed.

The proposed assay requirements for medicated feeds requiring approved Medicated Feed Applications for their manufacture and marketing provide that at least three samples of the medicated feed containing each drug or drug combination used in their manufacture shall be collected and assayed, using approved official methods at periodic intervals during the calendar year unless otherwise specified by regulation in Part 558 (formerly Part 135e). One of these assays shall have been performed on the initial batch. It is further proposed that if a medicated feed contains a combination of drugs, only one of the drugs in the combination need be subject to analysis. The following examples illustrate the proposed assay requirements:

(1) If an establishment uses 10 drugs or drug combinations to prepare medicated feeds requiring Form FD-1800 approval, a total of 30 samples of such medicated feed would have to be collected and assayed annually. These samples are to be collected and assayed periodically, rather than collected from consecutive batches or production runs, e.g., 3 samples collected and assayed in 10 of the 12 months during the calendar year. Samples may be collected for analysis across feed classifications, e.g., poultry starters, poultry growers, poultry finishers, laying rations, swine starters, swine growers, swine finishers, etc.

(2) If a medicated feed contains a combination of three drugs, i.e., Drug A, Drug B, and Drug C, three samples of that feed shall be collected and assayed annually. Sample No. 1, collected in January, may be assayed for Drug A. Sample 2, collected in June, may be assayed for Drug B. Sample No. 3, collected in November, may be assayed for Drug C. The same principle would apply for any other combination drug produced by that manufacturer.

(3) It is additionally proposed that medicated feeds not requiring approved medicated feed applications for their manufacture be assayed at least once a year to assure the firm's capability of producing uniform and properly labeled lots of these products. The firm may run such additional assays as desired to further ensure the adequacy of the feed for its intended purpose.

Nonmedicated feed manufactured, processed, packed, or held in the same facilities and with the same equipment as medicated feeds may become adulterated with drugs if the medicated feeds are not manufactured, processed, packed, or held in accordance with current good manufacturing practices. Therefore, the Commissioner proposes that when nonmedicated feeds are found to contain unsafe levels of drug contamination caused by a firm's failure to adhere to the Current Good Manufacturing Practice regulations, any medicated feeds produced on the premises shall be deemed adulterated within the meaning of section 501(a)(2)(B) of the act.

Upon publication of a final regulation based upon this proposal, the Medicated Feed Application (Form FD-1800) will be revised to reflect the medicated feed sampling and assay requirements included therein.

Therefore, pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (secs. 501, 512, 701(a), 52 Stat. 1049–1050 as amended, 1055, 82 Stat. 343–351 (21 U.S.C. 351, 360b, 371(a))) and under authority delegated to the Commissioner (21 CFR 2.120), it is proposed that Parts 210 and 225 be amended as follows:

1. Part 210 is amended in § 210.3 by revising paragraphs (c) (1) and (2) as follows:

§ 210.3 Definitions.

* * * * * *

(c) * * *

(1) The term "medicated feed" means any animal feed as defined in section 201(x) which contains one or more drugs as defined in section 201(g) of the act. The manufacture of medicated feeds is subject to §§ 225.1 through 225.115 of this chapter, inclusive.

(2) The term "medicated premix" means any drug as defined in section 201(g) of the act which is used for further manufacture in the production of a medicated feed. The manufacture of medicated premixes is subject to §§ 226.1 through 226.115 of this chapter, inclusive.

2. Part 225 is revised to read as follows:

Subpart A—General Provisions

Sec.
225.1 Current good manufacturing practice.
225.10 Personnel.

Subpart B—Construction and Maintenance of Facilities and Equipment

225.20 Buildings.
225.30 Equipment.
225.35 Use of work areas and equipment for other manufacturing purposes.

Subpart C—Product Quality Control

225.42 Components.
225.58 Laboratory controls.
225.65 Equipment clean-out procedures.

Subpart D—Packaging and Labeling

225.80 Labeling.

Subpart E—Records and Reports

225.102 Master formula and production records.
225.110 Distribution records.
225.115 Complaint files.

AUTHORITY: Secs. 501, 701, 52 Stat. 1049–1050 as amended, 1055–1056 as amended (21 U.S.C. 351, 371).

### Subpart A—General Provisions

§ 225.1 Current good manufacturing practice.

(a) Section 501(a)(2)(B) of the Federal Food, Drug, and Cosmetic Act provides that a drug, including an animal feed bearing or containing a drug, shall be deemed to be adulterated if the methods used in, or the facilities or controls used for, its manufacture, processing, packing, or holding (including distribution) do not conform to or are not operated or administered in conformity with current good manufacturing practice.

(b) The provisions of §§ 225.20 through 225.115, inclusive, set forth the criteria for determining whether the manufacture of a medicated feed is in compliance with current good manufacturing practice to assure that such drug meets the requirements of the act as to safety and has the identity and strength, and meets the quality and purity characteristics, which it purports or is represented to possess. These regulations shall apply to all types of facilities used in the production of medicated feeds, including facilities where precision, automatic, mechanical, or electronic equipment is employed. These regulations also govern those instances in which failure to adhere to the regulations has caused nonmedicated feeds that are manufactured, processed, packed, or held to be adulterated. In such cases, the medicated feed shall be deemed to be adulterated within the meaning of section 501(a)(2)(B) of the act, and the nonmedicated feed shall be deemed to be adulterated within the meaning of 402(a)(2)(D).

§ 225.10 Personnel.

(a) Qualified personnel and adequate personnel training and supervision are essential for the proper formulation, manufacture, and control of medicated feeds. Training and experience leads to proper use of equipment, maintenance of accurate records, and detection and prevention of possible deviations from current good manufacturing practices.

(b) (1) All employees involved in the manufacture of medicated feeds shall have an understanding of the manufacturing or control operation(s) which they perform, including the location and proper use of equipment.

(2) The manufacturer shall provide an on-the-job training program for employees.

(3) The manufacturer shall provide an on-going program of evaluation and supervision of employees in the manufacture of medicated feeds.

### Subpart B—Construction and Maintenance of Facilities and Equipment

§ 225.20 Buildings.

(a) The location, design, construction, and physical size of the buildings and other production facilities are factors important to the manufacture of medicated feed. The features of facilities necessary to assure proper manufacture of medicated feed include provision for ease of access to structures and equipment in need of routine maintenance; ease of cleaning of equipment and work areas; facilities to promote personnel hygiene; structural conditions for control and prevention of vermin and pest infestation; adequate space for the orderly receipt and storage of drugs and feed ingredients and the controlled flow of these materials through the processing and manufacturing operations; and the equipment for the accurate packaging and delivery of a medicated feed of specified labeling and composition.

(b) The construction and maintenance of buildings in which medicated feeds are manufactured, processed, packaged, labeled, or held shall conform to the following:

(1) The building grounds shall be adequately drained and routinely maintained so that they are free from litter, waste, refuse, uncut weeds or grass, standing water, and improperly stored equipment.

(2) The building shall be maintained in a reasonably clean and orderly manner.

(3) The building shall be of suitable construction to minimize access by rodents, birds, insects, and other pests and shall be free from cracks, holes, and other defects that can permit entry of rodents and pests.

(4) The buildings shall include space and lighting adequate to preclude mix-ups and cross-contamination for each of the following various medicated feed manufacturing operations:

(i) The receipt, control, and storage of components.

(ii) Component processing.

(iii) Medicated feed manufacturing.

(iv) Packaging and labeling.

(v) Storage of containers, packaging materials, labeling and finished products.

(vi) Routine maintenance of equipment.

§ 225.30 Equipment.

(a) Equipment which is designed to perform its intended function and is properly installed and used is essential to the manufacture of medicated feeds. Such equipment permits production of feeds of uniform quality, facilities cleaning, and minimizes spillage of drug components and finished product.

(b) (1) All equipment shall possess the capability to produce a medicated feed of known potency, safety, and purity.

(2) All equipment shall be maintained in a clean and orderly manner.

(3) All equipment, including scales and liquid metering devices, shall be of suitable size, design, construction, precision, and accuracy for their intended purpose.

(4) All scales and metering devices shall be tested for accuracy upon installation and at least once a year thereafter, or more frequently as may be necessary to insure their accuracy.

(5) All equipment shall be constructed so that lubricants and coolants do not contact or become a part of the components or the medicated feed.

(6) All equipment shall be so constructed and installed as to facilitate inspection and cleaning of all surfaces that come in contact with the medicated feeds or drug components thereof.

§ 225.35 Use of work areas and equipment for other manufacturing purposes.

(a) Many manufacturers of medicated feeds are also involved in the manufac-

ture of products which are not intended for animal feed use, such as fertilizers, herbicides, insecticides, fungicides, rodenticides, and other pesticides. Manufacturing of nonfeed and feed products in the same facilities may cause adulteration of feed products with toxic or otherwise unapproved feed additives.

(b) Work areas and equipment used for the manufacture or storage of medicated feeds or components thereof shall not be used for, and shall be physically separated from, work areas and equipment used for the manufacture of fertilizers, herbicides, insecticides, fungicides, rodenticides, and other pesticides unless such articles are approved drugs intended for use in the manufacture of medicated feed.

### Subpart C—Product Quality Control

**§ 225.42 Components.**

(a) A medicated feed, in addition to providing nutrients, is a vehicle for the administration of a drug to an animal. Medicated feeds must contain the specified drug(s) in the correct quantity, and the receipt, storage, inventory, and handling procedures for drugs, including drug components, of medicated feeds must be adequate to assure their identity, strength, quality, and purity in a finished product.

(b) The receipt, storage, and inventory of drugs, including undiluted drugs and any intermediate mixes containing drugs, which are used in the manufacture and processing of medicated feeds shall conform to the following:

(1) Incoming shipments of drugs shall be inspected for identity and damage. Drugs which have been subjected to conditions that have adversely affected their identity, strength, quality, or purity shall not be accepted for use.

(2) Packaged drugs shall be stored in their original containers.

(3) Bulk drugs shall be identified and stored in a manner such that their identity, strength, quality, and purity will be maintained.

(4) Drugs in the mixing areas shall be properly identified, stored, handled, and controlled to maintain their integrity and identity. Sufficient space shall be provided for the location of each drug.

(5) A receipt record shall be prepared and maintained for each lot of drug received. The receipt record shall accurately indicate the identity and quantity of the drug, the name of the supplier, the supplier's lot number, the date of receipt, the condition of the drug when received, and the return of any damaged drugs.

(6) A daily inventory record for each drug used shall be maintained and shall list by drug lot number at least the following information:

(i) The quantity of drug on hand at the beginning and at the end of each work day; the quantity shall be determined by weighing, counting, or measuring, as appropriate.

(ii) The amount of each drug used.

(iii) The batches of medicated feed in which each drug was used.

(iv) When the drug is used in the preparation of an intermediate mix intended for use in the manufacture of medicated feed, any additional information which may be required for the purpose of paragraph (b)(7) of this section.

(v) Action taken to reconcile any discrepancies in the daily inventory record.

(7) Drug accountability shall be maintained for each lot of drug by means of a daily comparison of the actual drug used with the theoretical drug usage in terms of the intermediate mixes and medicated feeds produced. Any discrepancies found shall be investigated and corrective action taken. The batch(es) of medicated feed shall be detained until the discrepancies are reconciled.

(8) All records required by this section shall be maintained on the premises for at least 1 year after complete use of the drug component.

**§ 225.58 Laboratory controls.**

(a) The periodic assay of medicated feeds for drug components provides a measure of performance of the manufacturing process in manufacturing a uniform product of reproducible potency.

(b) The following assay requirements shall apply to medicated feeds:

(1) For feeds requiring approved Medicated Feed Applications (Form FD–1800) for their manufacture and marketing:

(i) At least three representative samples of medicated feed containing each drug or drug combination used in the establishment shall be collected and assayed by approved official methods, at periodic intervals during the calendar year, unless otherwise specified in this chapter. At least one of these assays shall be performed on the first batch using the drug. If a medicated feed contains a combination of drugs, only one of the drugs need be subject to analysis each time, provided the one tested is different from the one(s) previously tested.

(ii) The results of all assays, including those from State Fed Control officials and any other governmental agency, shall be maintained on the premises for a period of not less than 1 year after distribution of the medicated feed.

(iii) Corrective action shall be implemented and a record of such action maintained where the results of assays show that the medicated feed is not in accord with label specifications or are not within permissible assay limits as specified in this chapter.

(2) For feeds not requiring approved Medicated Feed Applications (Form FD–1800) for their manufacture and marketing:

(i) At least one representative sample of medicated feed containing each drug or drug combination used in the establishment shall be collected and assayed by approved Association of Official Analytical Chemists (AOAC) methods, at intervals no longer than 12 months, unless otherwise specified in this chapter. If a medicated feed contains a combination of drugs, only one of the drugs need be subject to analysis each 12 months, provided the one tested is different from the one(s) previously tested.

(ii) The results of all assays, including those from State Feed Control Officials and any other governmental agency, shall be maintained on the premises for a period of not less than 1 year after distribution of the medicated feed.

(iii) Corrective action shall be implemented and a record of such action maintained where results of assays show that the medicated feed produced is not in accord with label specifications or are not within permissible assay variations as specified in this chapter.

(3) Corrective action shall include provisions for discontinuing distribution where the medicated feed fails to meet the labeling requirement. Distribution of subsequent production shall not begin until it has been determined that proper control procedures have been established.

**§ 225.65 Equipment clean-out procedures.**

(a) Adequate clean-out procedures for all equipment used in the manufacture and distribution of medicated feeds are essential to maintain proper drug potency and minimize the carryover of drugs to subsequently made feeds. Such procedures may consist of cleaning by physical means, e.g., vacuuming, sweeping, washing, etc. Alternatively, flushing techniques may be used whereby the equipment is cleaned either through use of a feed containing the same drug(s) or through use of drug free feedstuffs.

(b) Clean-out procedures for equipment used in the manufacture, processing, packing, shipping, or holding of medicated feeds or their drug components shall conform to the following:

(1) All equipment, including that used for storage processing, mixing, conveying, and distribution that comes in contact with the active drug component, semiprocessed, or processed medicated feed shall be subject to effective procedures to prevent unsafe contamination of subsequently manufactured feed.

(2) If there is sequential production of batches of a medicated feed containing the same drug component(s), there shall be sufficient safeguards to assure that the subsequent batches do not contain drug concentrations in excess of the labeled amount.

(3) If flushing material is used, it shall be properly identified, stored, and used in a manner to prevent unsafe contamination of other medicated and non-medicated feeds with residual drugs.

### Subpart D—Packaging and Labeling

**§ 225.80 Labeling.**

(a) Appropriate labeling identifies the medicated feed, provides the user with required information, and assures that when used as labeled the article will be safe and effective for its intended purposes.

(b) (1) Labels and labeling, including placards, shall be received, handled, and stored in a manner that prevents labeling mixups and assures that correct labeling is employed for the medicated feed.

(2) New labels and labeling, including placards, upon receipt from the printer shall be proofread against the master formula to verify their suitability and accuracy. The proofread label shall be dated, initialed by a responsible individual, and kept for 1 year after all the labels from that batch have been used.

(3) In those instances where medicated feeds are distributed in bulk, complete labeling shall accompany the shipment and be supplied to the consignee at the time of delivery. Such labeling may consist of a placard or manufacturer's invoice that identifies the medicated feed and includes adequate information for the safe and effective use of the medicated feed.

(4) Label stock shall be reviewed periodically and discontinued labels shall be discarded.

### Subpart E—Records and Reports

**§ 225.102 Master formula and production records.**

(a) The production record supplies the history of a particular batch. This record indicates the amount of drug used, the amount of medicated feed manufactured, and provides a check for the daily inventory record of drug components. The master formula record provides a procedure setting forth the theoretical yield for the manufacture of specific batches or production runs of medicated feed.

(b) The master formula and production records shall comply with the following provisions:

(1) A master formula record or card shall be prepared, checked, dated, and signed by a qualified person and shall be retained for not less than 1 year after production of the last batch of medicated feed to which it pertains. The master formula record or card shall include at least the following:

(i) The name of the medicated feed.

(ii) The name and weight or measure of each drug or drug combination and each nondrug ingredient to be used in manufacturing a stated weight of the medicated feed.

(iii) A copy or description of the label or labeling that will accompany the medicated feed.

(iv) Manufacturing instructions that have been determined to yield a properly mixed medicated feed of the specified formula for each medicated feed produced on a batch or continuous operation basis, including mixing steps, mixing times and, in the case of medicated feeds produced by continuous production run, any additional manufacturing directions including, when indicated, the settings of equipment.

(v) Appropriate control directions, including the manner and frequency of collecting the required number of samples for specified laboratory assay.

(2) A production record shall be prepared by qualified personnel for each batch or run of medicated feed produced and shall be retained on the premises for not less than 1 year. The production record shall include at least the following:

(i) Product identification, date of production, and a written endorsement by a responsible individual.

(ii) The quantity and identity of drug components used.

(iii) The theoretical quantity of medicated feed to be produced.

(iv) The actual quantity of medicated feed produced.

(3) In the case of a custom formula feed made to the specifications of a customer, the master formula and production records required by this section shall consist either of such records or of copies of the customer's purchase orders and the manufacturer's invoices bearing the information required by this section.

(4) Batch production records shall be checked by a responsible individual after manufacture and prior to release of the medicated feed to determine if all required steps have been performed. This shall include a full investigation and, before a batch is released, an entry into the batch records of the corrective action taken where discrepancies are encountered.

(5) Each batch or run of medicated feed shall be identified with its own individual batch number, code, or date applied to the label or invoice. The batch number or date shall permit the manufacturer to trace accurately the manufacturing history of the batch.

**§ 225.110 Distribution records.**

(a) Distribution records permit the manufacturer to relate complaints to specific batches and/or production runs of medicated feed. This information may be helpful in instituting a recall.

(b) Distribution records for each shipment of a medicated feed shall comply with the following provisions:

(1) Each distribution record shall include the date of shipment, the name and address of purchaser, the quantity shipped, the name of the medicated feed, and the lot or control number or the date of manufacture.

(2) Distribution records shall be retained on the premises for not less than 1 year after the date of shipment of the medicated feed.

**§ 225.115 Complaint files.**

(a) Complaints and experiences of product defects relative to the drug's efficacy or safety may provide an indicator as to whether or not medicated feeds have been manufactured in conformity with current good manufacturing practices. These complaints and experiences may reveal the existence of manufacturing problems not otherwise detected through the normal quality control procedures. Timely and appropriate follow-up action can serve to correct a problem and minimize future problems.

(b) The medicated feed manufacturer shall maintain on the premises a file which contains the following information:

(1) A record of each verbal and written complaint received, regardless of source, concerning all medicated feeds manufactured by the firm. The record shall include the date of the complaint, the complainant's name and address, name and lot or control number or date of manufacture of the medicated feed involved, and the specific details of the complaint. This record shall also include all correspondence from the complainant and/or memoranda of conversations with the complainant, and a description of all investigations made by the manufacturer and of the method of disposition of the complaint.

(2) For medicated feeds requiring an approved Medicated Feed Application (Form FD–1800), records and reports of clinical and other experience with the drug shall be maintained and reported, appropriately identified with the number(s) of the Form FD–1800 to which they relate, to the Bureau of Veterinary Medicine, 5600 Fishers Lane, Rockville, MD 20852, in duplicate, pursuant to § 510.301 of this chapter.

Interested persons may, on or before October 7, 1975, submit to the Hearing Clerk, Food and Drug Administration, Rm. 4–65, 5600 Fishers Lane, Rockville, MD 20852, written comments regarding this proposal. Comments shall be filed in quintuplicate and shall be identified with the Hearing Clerk docket number found in the document heading. Received comments may be seen in the above office during working hours, Monday through Friday.

Dated: August 4, 1975.

SHERWIN GARDNER,
*Deputy Commissioner of Food and Drugs.*

### DEFINITION OF FIDUCIARY

### Notice of Proposed Rulemaking

Notice is hereby given that the regulations set forth in tentative form in the attached appendix are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by August 29, 1975. Pursuant to 26 CFR 601.601(b), designations of material as confidential or not to be disclosed, contained in such comments will not be accepted. Thus, persons submitting written comments should not include therein material that they consider to be confidential or inappropriate for disclosure to the public. It will be presumed by the Internal Revenue Service that every written comment submitted to it in response to this notice of proposed rule making is intended by the person submitting it to be subject in its entirety to public inspection and copying in accordance with the procedures of 26 CFR 601.702(d)(9).

A public hearing will be held with respect to this proposed regulation and the regulation proposed in this issue of the FEDERAL REGISTER by the Department of Labor. Notice of the time, place, date and manner of the public hearing is also published in Part V of this issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

Section 4975(e)(3) of the Code provides, as here relevant, that a person is a fiduciary with respect to an employee benefit plan to the extent (i) he exercises any discretionary authority or discretionary control respecting management of such plan or exercises any authority or control respecting management or disposition of its assets, (ii) he renders investment advice for a fee or other compensation, direct or indirect, with respect to any moneys or other property of such plan, or has any authority or responsibility to do so, or (iii) he has any discretionary authority or discretionary responsibility in the administration of such plan.

The proposed regulation is designed to clarify the applicability of the definition of the term "fiduciary" set forth in section 4975(e)(3) to persons who render investment advice to employee benefit plans and to persons who execute securities transactions on behalf of plans.

Paragraphs (a) and (b) of the proposed regulation are reserved.

Paragraph (c) of the proposed regulation provides, generally, that a person will be deemed to be a fiduciary with respect to a plan by reason of rendering investment advice to such plan only when such person provides advice to the plan concerning investments in securities and other property under circumstances where such person has discretionary authority or control with respect to the investment of plan assets or where such person provides advice designed to meet the particular investment needs of the plan and it is expected that such advice will serve as one of the primary bases for the investment of plan assets.

Paragraph (c) further provides that a person who is a fiduciary with respect to a plan solely by reason of rendering investment advice to such plan shall be deemed to be a fiduciary with respect to only those assets of the plan for which such person, or any affiliate or affiliates of such person, renders investment advice or has any authority or responsibility to do so. Thus, a person who renders investment advice with respect to only a specified portion of the assets of a plan shall not be deemed to be a fiduciary with respect to the investment, disposition or management of any other assets of the plan.

However, even though a person may be a fiduciary with respect to only a specified portion of plan assets, under the proposed regulation such person will still be a disqualified person (as defined in section 4975(e)(2) of the Code) with respect to all of the assets of the plan and will continue to be subject to the provisions of section 405(a) of the Act relating to co-fiduciary liability for fiduciary breaches by other fiduciaries with respect to any of the assets of the plan.

Paragraph (d) of the proposed regulation sets forth guidelines under which a broker-dealer, reporting dealer or bank may execute transactions in securities on behalf of employee benefit plans without becoming a fiduciary with respect to such plans. These guidelines provide limitations on the discretionary authority that may be accorded to such broker-dealer, reporting dealer or bank in the execution of securities transactions if such a person is not to be deemed a fiduciary under section 4975(e)(3) of the Code.

However, even if a broker-dealer, reporting dealer or bank becomes a fiduciary with respect to a plan solely by reason of the execution of securities transactions on behalf of such plan under circumstances not meeting the guidelines of paragraph (d)(1) of the proposed regulation, such broker-dealer, reporting dealer or bank will be deemed to be a fiduciary regarding only those assets of the plan with respect to which the broker-dealer, reporting dealer or bank, or any affiliate or affiliates thereof, has executed, or has agreed to execute, transactions in securities.

In this regard, questions have been raised as to whether broker-dealers who merely clear securities transactions involving plan assets when such transactions are initiated by other broker-dealers are disqualified persons with respect to the plan. It is the view of the Internal Revenue Service that such clearing broker-dealers are not disqualified persons with respect to plans solely by reason of providing such services, if such transactions are initiated by another broker-dealer unrelated to the clearing broker-dealer.

Paragraph (e) defines the terms "affiliate" and "control" for purposes of the proposed regulation.

This regulation, and the regulations under consideration by the Department of Labor, are proposed concurrently with proposed exemptions from the prohibited transactions provisions of section 406 of the Act and section 4975 of the Code respecting certain classes of transactions involving employee benefit plans and certain broker-dealers, reporting dealers and banks. Notice of the proposed exemptions appears in Part V of this issue of the FEDERAL REGISTER.

### PROPOSED AMENDMENTS TO THE REGULATIONS

Accordingly, it is proposed to amend Part 54 of Title 26 of the Code of Federal Regulations by inserting § 54.4975–9 to read as follows:

**§ 54.4975–9 Definition of "Fiduciary".**

(a) [Reserved]

(b) [Reserved]

(c) *Investment Advice.* (1) A person shall be deemed to be rendering "investment advice" to an employee benefit plan, within the meaning of section 4975(e)(3)(B), if—

(i) Such person renders advice to the plan as to the value of securities or other property, or the availability of securities purchasing, or selling securities or other property, or the availability of securities or other property or of purchasers or sellers of securities or other property; and

(ii) Such person either directly, indirectly, or through or together with any affiliate or affiliates, or any affiliate of such person—

(A) Has discretionary authority or control, whether or not pursuant to agreement or arrangement, with respect to purchasing or selling securities or other property for the plan; or

(B) Renders any advice described in paragraph (c)(1)(i) of this section on a regular basis to the plan pursuant to an agreement, arrangement or understanding, written or otherwise, that such services will serve as a primary basis for investment decisions with respect to plan assets, and that such person will render individualized investment advice to the plan based on the particular needs of the plan regarding such matters as, among other things, investment policies or strategy, overall portfolio composition, or diversification of plan investments.

(2) Notwithstanding paragraph (c)(1) of this section, a person who is a fiduciary with respect to a plan solely by reason of rendering investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, direct or indirect, with respect to any moneys or other property of such plan, or having any authority or responsibility to do so, shall not be deemed to be a fiduciary regarding any assets of the plan with respect to which neither such person nor any affiliate of such person has any discretionary authority, discretionary control or discretionary responsibility, exercises any authority or control, renders investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, or has any authority or responsibility to render such investment advice, provided that nothing in this paragraph shall be deemed to—

(i) Exempt such person from the provisions of section 405(a) of the Employee Retirement Income Security Act of 1974 concerning liability for fiduciary breaches by other fiduciaries with respect to any assets of the plan; or

(ii) Exclude such person from the definition of the term "disqualified persons" (as set forth in section 4975(e)(2)) with respect to any assets of the plan.

(d) *Execution of securities transactions.* (1) A person who is a broker or dealer registered under the Securities Exchange Act of 1934, a reporting dealer who makes primary markets in securities of the United States Government or of an agency of the United States Government and reports daily to the Federal Reserve Bank of New York its positions with respect to such securities and borrowings thereon, or a bank supervised by the United States or a State, shall not be deemed to be a fiduciary, within the meaning of section 4975(e)(3), with respect to an employee benefit plan solely because such person executes transactions for the purchase or sale of securities on behalf of such plan in the ordinary course of its business as a broker, dealer, or bank, pursuant to instructions of a fiduciary with respect to such plan, if—

(i) The fiduciary is not such broker, dealer, or bank, or an affiliate of such broker, dealer, or bank; and

(ii) The instructions specify—

(A) The security to be purchased or sold,

(B) A price range within which such security is to be purchased or sold,

(C) A time span during which such security may be purchased or sold (not to exceed five business days), and

(D) The minimum or maximum quantity of such security which may be purchased or sold within such price range.

(2) Notwithstanding paragraph (d)(1) of this section, a broker-dealer, reporting dealer, or bank which is a fiduciary with respect to an employee benefit plan solely by reason of the execution of a transaction or transactions for the purchase or sale of securities on behalf of such plan, shall not be deemed to be a fiduciary regarding any assets of the plan with respect to which neither such broker-dealer, reporting dealer or bank, nor any affiliate thereof, has any discretionary authority, discretionary control or discretionary responsibility, exercises any authority or control, renders investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, or has any authority or responsibility to render such investment advice, provided that nothing in this subparagraph shall be deemed to—

(i) Exempt such broker-dealer, reporting dealer, or bank from the provisions of section 405(a) of the Employee Retirement Income Security Act of 1974 concerning liability for fiduciary breaches by other fiduciaries with respect to any assets of the plan; or

(ii) Exclude such broker-dealer, reporting dealer, or bank from the definition of the term "disqualified person" (as set forth in section 4975(e)(2)) with respect to any assets of the plan.

(e) *Affiliate and control.* (1) For purposes of paragraphs (c) and (d) of this section, an "affiliate" of a person shall include:

(i) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with such person;

(ii) Any officer, director, partner, employee or relative (as defined in section 3(15) of the Employee Retirement Income Security Act of 1974) of such person; and

(iii) Any corporation or partnership of which such person is an officer, director or partner.

(2) For purposes of this paragraph, the term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

### PROPOSED EXEMPTIONS FROM PROHIBITIONS RESPECTING CERTAIN CLASSES OF TRANSACTIONS INVOLVING EMPLOYEE BENEFIT PLANS AND CERTAIN BROKER-DEALERS, REPORTING DEALERS AND BANKS; PROPOSED REGULATION WITH REGARD TO THE DEFINITION OF "FIDUCIARY"

### Hearing on Exemption and Rulemaking Proceedings

Notice that the Department of the Treasury has under consideration the granting of proposed exemption under section 4975(c)(2) of the Internal Revenue Code of 1954 (the Code) from the prohibited transaction restrictions of section 4975(c)(1) of the Code with respect to certain classes of transactions involving employee benefit plans and certain broker-dealers, reporting dealers and banks, appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

Notice that the Department of the Treasury has under consideration a proposal to adopt a regulation, 26 CFR 54.4975–9, designed to clarify the definition of the term "fiduciary" as set forth in section 4975(e)(3) of the Code, appears elsewhere in the Part V of this issue of the FEDERAL REGISTER.

A public hearing with respect to the exemption and rulemaking proceedings will be held on August 26 and August 27, 1975, beginning at 10 a.m. in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

Any interested person who desires to present oral comments at the hearing and who wishes to be assured of being heard shall submit a statement to that effect, and the time he wishes to devote, by 3:30 p.m. on August 25, 1975. The statement should be submitted to the Office of Employee Benefits Security, Labor-Management Services Administration, U.S. Department of Labor, Washington, D.C., 20210. An agenda will then be prepared containing the order of presentation of oral comments and the time allotted to such presentation. Ordinarily, a period of 10 minutes will be the time allotted to each person for making his oral comments.

At the conclusion of the presentations of comments by persons listed in the agenda, to the extent time permits, other comments will be received. The public hearing will be transcribed.

A person wishing to make oral comments at the hearing may do so without filing written comments. Persons making oral comments should be prepared to answer questions regarding information brought forth in their comments (including written comments, if any).

Persons who plan to attend the hearing should notify the Department of Labor at the above address or by telephone (Washington, D.C.) 202–523–8951 by August 25, 1975.

The hearing will be held simultaneously and in conjunction with that of the Department of Labor at the same time, place, date, and manner. The notice of hearing of the Department of Labor appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

Signed at Washington, D.C., this 8th day of August 1975.

DONALD C. ALEXANDER,
*Commissioner.*

## DEPARTMENT OF LABOR

### Office of Employee Benefits Security

### [ 29 CFR Part 2510 ]

### DEFINITIONS AND COVERAGE UNDER THE EMPLOYEE RETIREMENT INCOME SECURITY ACT OF 1974

### Proposed Regulation Regarding the Definition of the Term "Fiduciary"

Notice is hereby given that the Department of Labor has under consideration a proposal to adopt a regulation, 29 CFR 2510.3–21, designed to clarify the definition of the term "fiduciary" as set forth in section 3(21)(A) of the Employee Retirement Income Security Act of 1974 (the Act). By notice appearing in the proposed rules section of this issue of the FEDERAL REGISTER, the Internal Revenue Service has announced that it has under consideration a proposal to adopt a similar regulation, 26 CFR 54.4975–9, designed to clarify the definition of the term "fiduciary" set

forth in section 4975(e)(3) of the Internal Revenue Code of 1954 (the Code).

Section 3(21)(A) of the Act provides, as here relevant, that a person is a fiduciary with respect to an employee benefit plan to the extent (i) he exercises any discretionary authority or discretionary control respecting management of such plan or exercises any authority or control respecting management or disposition of its assets, (ii) he renders investment advice for a fee or other compensation, direct or indirect, with respect to any moneys or other property of such plan, or has any authority or responsibility to do so, or (iii) he has any discretionary authority or discretionary responsibility in the administration of such plan.

The proposed regulation is designed to clarify the applicability of the definition of the term "fiduciary" set forth in section 3(21)(A) to persons who render investment advice to employee benefit plans and to persons who execute securities transactions on behalf of plans.

Paragraphs (a) and (b) of the proposed regulation are reserved.

Paragraph (c) of the proposed regulation provides, generally, that a person will be deemed to be a fiduciary with respect to a plan by reason of rendering investment advice to such plan only when such person provides advice to the plan concerning investments in securities and other property under circumstances where such person has discretionary authority or control with respect to the investment of plan assets or where such person provides advice designed to meet the particular investment needs of the plan and it is expected that such advice will serve as one of the primary bases for the investment of plan assets.

Paragraph (c) further provides that a person who is a fiduciary with respect to a plan solely by reason of rendering investment advice to such plan shall be deemed to be a fiduciary with respect to only those assets of the plan for which such person, or any affiliate or affiliates of such person, renders investment advice or has any authority or responsibility to do so. Thus, a person who renders investment advice with respect to only a specified portion of the assets of a plan shall not be deemed to be a fiduciary with respect to the investment, disposition or management of any other assets of the plan.

However, even though a person may be a fiduciary with respect to only a specified portion of plan assets, under the proposed regulation such person will still be a party in interest (as defined in section 3(14)(B) of the Act) with respect to all of the assets of the plan and will continue to be subject to the provisions of section 405(a) of the Act relating to cofiduciary liability for fiduciary breaches by other fiduciaries with respect to any of the assets of the plan.

Paragraph (d) of the proposed regulation sets forth guidelines under which a broker-dealer, reporting dealer or bank may execute transactions in securities on behalf of employee benefit plans without becoming a fiduciary with respect to such plans. These guidelines provide limitations on the discretionary authority that may be accorded to such a broker-dealer, reporting dealer or bank in the execution of securities transactions if such a person is not to be deemed a fiduciary under section 3(21)(A) of the Act.

However, even if a broker-dealer, reporting dealer or bank becomes a fiduciary with respect to a plan solely by reason of the execution of securities transactions on behalf of such plan under circumstances not meeting the guidelines of paragraph (d)(1) of the proposed regulation, such broker-dealer, reporting dealer or bank will be deemed to be a fiduciary regarding only those assets of the plan with respect to which the broker-dealer, reporting dealer or bank, or any affiliate or affiliates thereof, has executed, or has agreed to execute, transactions in securities.

In this regard, questions have been raised as to whether broker-dealers who merely clear securities transactions involving plan assets when such transactions are initiated by other broker-dealers are parties in interest with respect to the plan. It is the view of the Department of Labor that such clearing broker-dealers are not parties in interest with respect to plans solely by reason of providing such services, if such transactions are initiated by another broker-dealer unrelated to the clearing broker-dealer.

Paragraph (e) defines the terms "affiliate" and "control" for purposes of the proposed regulation.

This regulation is proposed pursuant to the authority contained in section 505 of the Act (Pub. L. 93-406, 88 Stat. 894 (29 U.S.C. 1135)).

All interested persons are invited to submit written data, views or arguments concerning the proposed regulation. Six copies of such written data, views or arguments should be submitted to the Office of Employee Benefits Security, Labor-Management Services Administration, U.S. Department of Labor, Washington, D.C. 20216.

In order to receive consideration, such written data, views and arguments should be received by the Department of Labor on or before August 29, 1975. All written submissions will be open to public inspection at the Public Document Room, Office of Employee Benefits Security, U.S. Department of Labor, Room N-4677, 200 Constitution Avenue, NW., Washington, D.C. 20210.

This regulation, and the regulation under consideration by the Internal Revenue Service, are proposed concurrently with proposed exemptions from the prohibited transactions provisions of section 406 of the Act and section 4975 of the Code respecting certain classes of transactions involving employee benefit plans and certain broker-dealers, reporting dealers and banks. Notice of the proposed exemptions appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

Nevertheless, it should be noted that the proposed regulation has broader applicability than merely to the securities industry. Accordingly, comments are solicited from all other persons who may be affected.

A public hearing will be held with respect to this proposed regulation, the regulation proposed in Part V of this issue of the FEDERAL REGISTER by the Internal Revenue Service, and the proposed exemptions referred to above. Notice of the time, place, date and manner of the public hearing is published elsewhere in Part V of this issue of the FEDERAL REGISTER.

Accordingly, it is proposed to amend Part 2510 of Chapter XXV of Title 29 of the Code of Federal Regulations by adding a new § 2510.3-21 to read as follows:

**§ 2510.3-21 Definition of "Fiduciary".**

(a) [Reserved]

(b) [Reserved]

(c) *Investment advice.* (1) A person shall be deemed to be rendering "investment advice" to an employee benefit plan, within the meaning of section 3(21)(A)(ii) of the Employee Retirement Income Security Act of 1974 (the Act) and this section, if:

(i) Such person renders advice to the plan as to the value of securities or other property, the advisability of investing in, purchasing, or selling securities or other property, or the availability of securities or other property or of purchasers or sellers of securities or other property; and

(ii) Such person either directly, indirectly, or through or together with any affiliate or affiliates, or any affiliate of such person—

(A) has discretionary authority or control, whether or not pursuant to agreement or arrangement, with respect to purchasing or selling securities or other property for the plan; or

(B) renders any advice described in paragraph (c)(1)(i) of this section on a regular basis to the plan pursuant to an agreement, arrangement or understanding, written or otherwise, that such services will serve as a primary basis for investment decisions with respect to plan assets, and that such person will render individualized investment advice to the plan based on the particular needs of the plan regarding such matters as, among other things, investment policies or strategy, overall portfolio composition, or diversification of plan investments.

(2) Notwithstanding paragraph (c)(1) of this section, a person who is a fiduciary with respect to a plan solely by reason of rendering investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, direct or indirect, with respect to any moneys or other property of such plan, or having any authority or responsibility to do so, shall not be deemed to be a fiduciary regarding any assets of the plan with respect to which neither such person nor any affiliate of such person has any discretionary authority, discretionary control or discretionary responsibility, exercises any authority or control, renders investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, or has any authority or responsibility to render such investment advice, provided that nothing in this paragraph shall be deemed to:

(i) Exempt such person from the provisions of section 405(a) of the Act concerning liability for fiduciary breaches by other fiduciaries with respect to any assets of the plan; or

(ii) Exclude such person from the definition of the term "party in interest" (as set forth in section 3(14)(B) of the Act) with respect to any assets of the plan.

(d) *Execution of securities transactions.* (1) A person who is a broker or dealer registered under the Securities Exchange Act of 1934, a reporting dealer who makes primary markets in securities of the United States Government or of an agency of the United States Government and reports daily to the Federal Reserve Bank of New York its positions with respect to such securities and borrowings thereon, or a bank supervised by the United States or a State, shall not be deemed to be a fiduciary, within the meaning of section 3(21)(A) of the Act, with respect to an employee benefit plan solely because such person executes transactions for the purchase or sale of securities on behalf of such plan in the ordinary course of its business as a broker, dealer, or bank, pursuant to instructions of a fiduciary with respect to such plan, if:

(i) The fiduciary is not such broker, dealer, or bank, or an affiliate of such broker, dealer, or bank; and

(ii) The instructions specify (A) the security to be purchased or sold, (B) a price range within which such security is to be purchased or sold, (C) a time span during which such security may be purchased or sold (not to exceed five business days), and (D) the minimum or maximum quantity of such security which may be purchased or sold within such price range.

(2) Notwithstanding paragraph (d)(1) of this section, a broker-dealer, reporting dealer, or bank which is a fiduciary with respect to an employee benefit plan solely by reason of the execution of a transaction or transactions for the purchase or sale of securities on behalf of such plan, shall not be deemed to be a fiduciary regarding any assets of the plan with respect to which neither such broker-dealer, reporting dealer or bank, nor any affiliate thereof, has any discretionary authority, discretionary control or discretionary responsibility, exercises any authority or control, renders investment advice (as defined in paragraph (c)(1) of this section) for a fee or other compensation, or has any authority or responsibility to render such investment advice, *Provided*, That nothing in this subparagraph shall be deemed to:

(i) Exempt such broker-dealer, reporting dealer, or bank from the provisions of section 405(a) of the Act concerning liability for fiduciary breaches by other fiduciaries with respect to any assets of the plan; or

(ii) Exclude such broker-dealer, reporting dealer, or bank from the definition of the term "party in interest" (as set forth in section 3(14)(B) of the Act) with respect to any assets of the plan.

(e) *Affiliate and control.* (1) For purposes of paragraphs (c) and (d) of this section, an "affiliate" of a person shall include:

(i) Any person directly or indirectly, through one or more intermediaries, controlling, controlled by, or under common control with such person;

(ii) Any officer, director, partner, employee or relative (as defined in section 3(15) of the Act) of such person; and

(iii) Any corporation or partnership of which such person is an officer, director or partner.

(2) For purposes of this paragraph, the term "control" means the power to exercise a controlling influence over the management or policies of a person other than an individual.

Signed at Washington, D.C., this 5th day of August 1975.

JAMES D. HUTCHINSON,
*Administrator of Pension and Welfare Benefit Programs.*

## PROPOSED EXEMPTIONS FROM PROHIBITIONS RESPECTING CERTAIN CLASSES OF TRANSACTIONS INVOLVING EMPLOYEE BENEFIT PLANS AND CERTAIN BROKER-DEALERS, REPORTING DEALERS AND BANKS

## PROPOSED REGULATION WITH REGARD TO THE DEFINITION OF THE TERM "FIDUCIARY"

### Hearing on Exemption and Rulemaking Proceedings

Notice that the Department of Labor has under consideration the granting of proposed exemptions under section 408(a) of the Employee Retirement Income Security Act of 1974 (the Act) from the prohibited transactions restrictions of section 406 of the Act with respect to certain classes of transactions involving employee benefit plans and certain broker-dealers, reporting dealers and banks, appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

Notice that the Department of Labor has under consideration a proposal to adopt a regulation, 29 CFR 2510.3-21, designed to clarify the definition of the term "fiduciary" as set forth in section 3(21)(A) of the Act, appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

A public hearing with respect to the exemption and rulemaking proceedings will be held on August 26 and August 27, 1975, beginning at 10 a.m. in the George S. Boutwell Auditorium, Seventh Floor, 7400 Corridor, Internal Revenue Building, 1111 Constitution Avenue, NW., Washington, D.C. 20224.

Any interested person who desires to present oral comments at the hearing and who wishes to be assured of being heard shall submit a statement to that effect, and the time he wishes to devote, by 3:30 p.m. on August 25, 1975. The statement should be submitted to the Office of Employee Benefits Security, Labor-Management Services Administration, U.S. Department of Labor, Washington, D.C. 20210. An agenda will then be prepared containing the order of presentation of oral comments and the time allotted to such presentation. Ordinarily, a period of 10 minutes will be the time allotted to each person for making his oral comments.

At the conclusion of the presentations of comments by persons listed in the agenda, to the extent time permits, other comments will be received. The public hearing will be transcribed.

A person wishing to make oral comments at the hearing may do so without filing written comments. Persons making oral comments should be prepared to answer questions regarding information brought forth in their comments (including written comments, if any).

Persons who plan to attend the hearing should notify the Department of Labor at the above address or by telephone (Washington, D.C.) 202-523-8951 by August 25, 1975.

The hearing will be held simultaneously and in conjunction with that of the Internal Revenue Service at the same time, place, date, and manner. The notice of hearing of the Internal Revenue Service appears elsewhere in Part V of this issue of the FEDERAL REGISTER.

Signed at Washington, D.C., this 5th day of August 1975.

JAMES D. HUTCHINSON,
*Administrator of Pension and Welfare Benefit Programs.*

## DEPARTMENT OF THE TREASURY

### Internal Revenue Service

### EMPLOYEE BENEFIT PLANS

### Proposed Exemptions from Prohibitions Respecting Certain Classes of Transactions Involving Employee Benefit Plans and Certain Broker-Dealers, Reporting Dealers and Banks

Notice is hereby given of a proposal to exempt certain classes of transactions involving employee benefit plans and certain broker-dealers, reporting dealers and banks from the restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975 (c) (1) of the Code, pursuant to section 408(a) of the Act and section 4975(c) (2) of the Code, and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1975–20 I.R.B. 14.

On February 4, 1975, notice was published in the FEDERAL REGISTER (40 FR 5201) of the granting of an interim exemption from the prohibited transaction provisions of section 406 of the Act and from the taxes imposed by section 4975 of the Code with respect to certain securities transactions between employee benefit plans and certain broker-dealers, reporting dealers and banks for the period from January 1, 1975, to April 30, 1975.

By notices published in the FEDERAL REGISTER on April 23, 1975 (40 FR 17861), and June 9, 1975 (40 FR 24578), the interim exemption was extended until September 30, 1975.

As indicated in those notices, the interim exemption was granted in order (1) to prevent the harm to employee benefit plans and to the interests in plans of participants and beneficiaries which, in all likelihood, would have resulted from the immediate and full application of all of the prohibited transaction provisions set forth in Title I and Title II of the Act, and (2) to afford all interested persons an opportunity to submit proposals for permanent exemptions relating to transactions between plans and certain broker-dealers, reporting dealers and banks, and to provide an opportunity for the Department of Labor (the Department) and the Internal Revenue Service (the Service) to consider such proposals. The granting of the interim exemption was based upon a record which includes written comments submitted in response to notices of the proposal of the granting of the interim exemption and of the extension of the interim exemption published in the FEDERAL REGISTER on January 13, 1975 (40 FR 2483 and 2455), and April 23, 1975 (40 FR 17861), respectively, and the testimony at the public hearing held on January 21, 1975.

Proposals for the granting of permanent exemptions from the prohibited transaction provisions of section 406 of the Act and from the taxes imposed by section 4975 of the Code have been submitted by the Securities Industry Association and others and have been made available for public inspection by the Internal Revenue Service. Proposals for the adoption of regulations concerning the relationship of plans and broker-dealers, reporting dealers and banks have also been submitted and made available for public inspection.

The written proposals which have been submitted state that the services provided by broker-dealers, reporting dealers and banks for which exemptions have been requested have been of great benefit to plans and their participants and beneficiaries, and that it is in their best interests to have such services available in the future. The proposals represent that the exemptions and regulations suggested are in the interests of plans and their participants and beneficiaries with respect to the dealings of such plans with broker-dealers, reporting dealers and banks in the management of securities portfolios of plans.

Based upon these written submissions and upon the extensive regulation of the securities industry by the Securities and Exchange Commission, the national securities exchanges and other industry self-regulatory bodies, the Department and the Service propose to grant the class exemptions described below for certain services furnished to employee benefit plans and for certain securities transactions engaged in by plans. Each proposed class exemption, if granted as proposed or as modified, will be applicable to a particular transaction only if the transaction satisfies the conditions specified for the class in which it falls.

The Department and the Service have also published notice in the Proposed Rules section of this issue of the FEDERAL REGISTER that they have under consideration proposed regulations, 29 CFR 2510.3–21 and 26 CFR 54.4975–9 respectively, designed to clarify the applicability of the definition of the term "fiduciary" set forth in section 3(21)(A) of the Act and section 4975(e)(3) of the Code to persons who render investment advice to employee benefit plans and to persons who execute securities transactions on behalf of plans. The exemptions proposed herein are premised on the adoption of these regulations substantially as proposed. The proposed exemptions should, therefore, be considered in conjunction with these proposed regulations.

*General information.* The attention of interested persons is directed to the following:

(1) The fact that a transaction is the subject of an exemption granted under section 408(a) of the Act and section 4975(c)(2) of the Code does not relieve a fiduciary or other party in interest or disqualified person with respect to a plan to which the exemption is applicable from certain other provisions of the Act and the Code, including any prohibited transaction provisions to which the exemption does not apply and the general fiduciary responsibility provisions of section 404 of the Act which, among other things, require a fiduciary to discharge his duties respecting the plan solely in the interest of the plan's participants and beneficiaries and in a prudent fashion in accordance with subsection (a)(1)(B) of section 404 of the Act; nor does it affect the requirement of section 401(a) of the Code that a plan must operate for the exclusive benefit of the employees of the employer maintaining the plan and their beneficiaries.

(2) Before an exemption may be granted under section 408(a) of the Act and section 4975(c)(2) of the Code, the Department and the Service must find that the exemption is administratively feasible, in the interests of the plan or plans and of their participants and beneficiaries and protective of the rights of participants and beneficiaries of such plans.

(3) The exemptions proposed herein or which may be subsequently proposed as part of this proceeding are supplemental to, and not in derogation of, any other provisions of the Act and the Code, including statutory exemptions and transitional rules. Furthermore, the fact that a transaction is the subject of an exemption is not dispositive of whether the transaction would have been a prohibited transaction in the absence of such exemption or, though it would have been a prohibited transaction, is exempt by operation of a statutory exemption or a transitional rule.

(4) All interested persons are invited to submit written comments on any exemption proposed herein. Six copies of such comments should be submitted to the Office of Employee Benefits Security, Labor-Management Services Administration, U.S. Department of Labor, Washington, D.C. 20216. In order to receive consideration, such comments should be received by the Department of Labor on or before August 29, 1975. All such comments will be open to public inspection at the Public Document Room, Office of Employee Benefits Security, U.S. Department of Labor, Room N–4677, 200 Constitution Avenue, NW., Washington, D.C. 20210.

(5) A public hearing will be held with respect to the class exemptions proposed herein and the proposed regulations referred to above. Notice of the time, place, date and manner of the public hearing is published elsewhere in the Part V of this issue of the FEDERAL REGISTER.

I. *Agency transactions and services.* Section 414(c)(4) and section 2003(c)(2)(D) of the Act presently provide an exemption until June 30, 1977, from the prohibited transaction provisions of the Act and the Code, respectively, for the provision of services between a plan and a party in interest or disqualified person if such services are either provided under a binding contract in effect on July 1, 1974 (or pursuant to renewals of such contract), or if the party in interest

or disqualified person ordinarily and customarily furnished such services on June 30, 1974, if such provision of services remains at least as favorable to the plan as an arm's-length transaction with an unrelated party would be and if the provision of services was not, at the time of such provision, a prohibited transaction within the meaning of section 503 (b) of the Code or the corresponding provisions of prior law. In ERISA IB 75–1 and IRS TIR–1329, issued on December 31, 1974, the Department and the Service indicated that the exemption provided by section 414(c)(4) and section 2003(c)(2)(D) of the Act applies to the execution of brokerage transactions on behalf of a plan if the conditions of those sections are met.

The Securities Industry Association has represented that broker-dealers regularly provide research, information and advice concerning securities and execute transactions for the purchase or sale of securities in the ordinary course of their business as broker-dealers. It is concerned that the provision of such services might constitute prohibited transactions. Although exemptions are provided in sections 414(c)(4) and 2003(c)(2)(D) of the Act, these exemptions terminate on June 30, 1977, and, moreover, are not available at the present time for persons who first provided such services after June 30, 1974. It is represented, therefore, that the granting of exemptions is necessary with respect to such services to permit the unimpeded flow of information, research and brokerage services, either alone or in combination, to employee benefit plans.

Accordingly, the Department and the Service propose to grant an exemption to permit persons who are parties in interest or disqualified persons with respect to employee benefit plans to effect securities transactions on behalf of such plans, to perform certain functions incidental to effecting such transactions, and to provide certain limited advisory and research services to plans.

The proposed exemption would be of limited duration, however, if the person effecting such securities transactions on behalf of an employee benefit plan is a fiduciary with respect to such plan by reason of providing investment advice to such plan (as that term is defined in the regulations interpreting section 3(21)(A) of the Act and section 4975(e)(3) of the Code proposed in conjunction with these proposed exemptions). While such transactions present opportunities for abuse in the management of plan assets, and section 11(a) of the Securities Exchange Act of 1934 (15 U.S.C. 78k(a)), as amended by the Securities Acts Amendments of 1975 (Pub. L. 94–29, 88 Stat. 110), prohibits any member of a national securities exchange from effecting any transaction on such exchange for an account with respect to which it or an associated person thereof exercises investment discretion, section 11(a) of that Act also provides an exception from the prohibition set forth therein until May 1, 1978, for members of a national securities exchange who were members on May 1, 1975.

The Conference Report relating to the Securities Acts Amendments of 1975 (H.R. Rept. No. 94–229, 94th Cong. 1st Sess. (1975)) also indicates, at page 107, that it was the view of the conferees that the Department and the Service should grant an exemption from the prohibited transaction provisions of the Act and the Code to permit broker-dealers to continue to provide brokerage services to plans with respect to which they exercise investment discretion until May 1, 1978, in order to conform the pertinent provisions of the Act and the Code to section 11(a) of the Securities Exchange Act of 1934 and thereby permit broker-dealers to phase out in an orderly fashion the businesses of both serving as investment advisers to plans and providing brokerage services to such plans.

Therefore, with respect to a person who is a plan fiduciary by reason of providing investment advice to such plan, the proposed exemption for effecting securities transactions on behalf of employee benefit plans, and for functions performed incidental to the effecting of such transactions, whether or not such transaction is effected on a national securities exchange, is available only if such person was ordinarily and customarily effecting securities transactions on May 1, 1975, and such exemption will terminate on May 1, 1978.

*Proposed exemption.* Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1875–20 I.R.B. 14:

The restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1) of the Code, shall not apply—

(a) Until May 1, 1978, to the effecting of any securities transaction on behalf of an employee benefit plan by a person who is a fiduciary with respect to the plan by reason of section 3(21)(A)(ii) of the Act and section 4975(e)(3)(B) of the Code, or any affiliate of such fiduciary, acting in such transaction as agent for the plan, and to the performance by such person of clearance, settlement, or custodial functions incidental to effecting such transaction, if such person ordinarily and customarily effected such securities transactions and performed such functions on May 1, 1975;

(b) To the effecting of any securities transaction on behalf of an employee benefit plan by a person who is a party in interest or a disqualified person with respect to such plan (other than a person who is a fiduciary with respect to the plan by reason of section 3(21)(A)(ii) of the Act and section 4975(e)(3)(B) of the Code, or an affiliate of such fiduciary) acting in such transaction as agent for the plan, and to the performance by such person of clearance, settlement, or custodial functions incidental to effecting such transaction; or

(c) To the furnishing to an employee benefit plan by a person who is a party in interest or disqualified person with respect to such plan of any advice, either directly or through publications or writings, as to the value of securities, the advisability of investing in, purchasing, or selling securities, or the availability of securities or of purchasers or sellers of securities, or of any analyses or reports concerning securities, economic factors or trends, or the performance of accounts, under circumstances which do not make such party in interest or disqualified person a fiduciary with respect to such plan;

Provided that in each instance, such transactions are effected on behalf of the plan, or such advice, analyses or reports are furnished to the plan, on terms at least as favorable to the plan as an arm's-length transaction with an unrelated party would be and were not, at the time such transactions were effected or at the time such advice, analyses or reports were furnished, prohibited transactions within the meaning of section 503(b) of the Code. For purposes of this exemption, the term "affiliate" shall be defined in the same manner as that term is defined in 29 CFR 2510.3–21(e) and 26 CFR 54.4975–9(e).

II. *Principal transactions.* The interim exemption currently in effect until October 1, 1975, for certain securities transactions provides an exemption from the prohibited transaction provisions for the purchase or sale of securities between a plan and a broker-dealer, reporting dealer or bank if certain conditions designed to safeguard the interests of plans and their participants and beneficiaries are met. As indicated in the notice of initial granting of the interim exemption (40 FR 5201, February 4, 1975), the record developed with respect to the granting of that exemption from the testimony received at the public hearing held on January 21, 1975, and from the written comments submitted in response to the notice of proposed granting of the interim exemption (40 FR 2455 and 2483, January 13, 1975), established that an exemption for such transactions is administratively feasible, in the interest of plans and of their participants and beneficiaries, and protective of the rights of plan participants and beneficiaries.

The Department and the Service propose, therefore, to grant an exemption for this class of principal transactions, modified to take into account the long-term nature of the proposed class exemption and the regulations under section 3(21)(A) of the Act and section 4975(e)(3) of the Code (relating to the definition of the term "fiduciary") proposed in conjunction with the proposed exemptions set forth herein.

*Proposed exemption.* Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2)

VOL 40 NO 154 AUG 8 75 XUM

of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1975–20 I.R.B. 14:

The restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1)(A) through (D) of the Code, shall not apply to any purchase or sale of a security between an employee benefit plan and a broker-dealer registered under the Securities Exchange Act of 1934, a reporting dealer who makes primary markets in securities of the United States Government or of any agency of the United States Government ("Government securities") and reports daily to the Federal Reserve Bank of New York its positions with respect to Government securities and borrowings thereon, or a bank supervised by the United States or a State, if the following conditions are met:

(a) In the case of such broker-dealer, it customarily purchases and sells securities for its own account in the ordinary course of its business as a broker-dealer.

(b) In the case of such reporting dealer or bank, it customarily purchases and sells Government securities for its own account in the ordinary course of its business and such purchase or sale between the plan and such reporting dealer or bank is a purchase or sale of Government securities.

(c) Such transaction is at least as favorable to the plan as an arm's-length transaction with an unrelated party would be, and it was not, at the time of such transaction, a prohibited transaction within the meaning of section 503(b) of the Code.

(d) Neither the broker-dealer, reporting dealer or bank, nor any affiliate thereof, is a fiduciary (as defined in section 3(21)(A) of the Act and section 4975(e)(3) of the Code) with respect to the plan, and such broker-dealer, reporting dealer or bank is a party in interest or disqualified person with respect to the plan solely by reason of section 3(14)(B) of the Act or section 4975(e)(2)(B) of the Code or a relationship to a person described in such sections. For purposes of this paragraph, a broker-dealer, reporting dealer, or bank shall not be deemed to be a fiduciary with respect to a plan solely by reason of providing securities custodial services for a plan.

(e) The plan maintains or causes to be maintained for a period of six years from the date of such transaction such records as are necessary to enable the persons described in paragraph (f) of this exemption to determine whether the conditions of this exemption have been met, except that such broker-dealer, reporting dealer, or bank shall not be subject to the civil penalty which may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if such records are not maintained, or are not available for examination as required by paragraph (f) below.

(f) Notwithstanding anything to the contrary in subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (e) are unconditionally available for examination during normal business hours by duly authorized representatives of (1) the Secretary of Labor, (2) the Commissioner of Internal Revenue, (3) plan participants and beneficiaries, (4) any employer of plan participants and beneficiaries, and (5) any employee organization any of whose members are covered by such plan.

For purposes of this exemption, the term "affiliate" shall be defined in the same manner as that term is defined in 29 CFR 2510.3–21(e) and 26 CFR 54.4975–9(e).

III. *Underwritings.* It has been represented to the Department and the Service that it is often in the interests of plans to purchase underwritten securities in a public offering because, more often than not, the public offering price for such securities will be more favorable to the plan than the net cost to the plan of the same securities in the secondary market immediately following the initial public offering. However, when a fiduciary of a plan, as defined in section 3(21)(A) of the Act and section 4975(e)(3) of the Code and the regulations proposed thereunder in conjunction with these proposed exemptions, or an affiliate of such a fiduciary, is a member of the underwriting or selling syndicate for the public offering of a security, the purchase of such security by the plan during the existence of the syndicate from such fiduciary, or an affiliate of such fiduciary, would constitute a prohibited transaction under section 406 of the Act and section 4975(c)(1) of the Code. Further, since it is generally in the interests of the members of an underwriting syndicate that all shares being offered by the syndicate are sold, the purchase of any such shares by the plan when a fiduciary with respect to the plan, or an affiliate of such a fiduciary, is a member of the syndicate might also be a prohibited use of plan assets for the benefit of such fiduciary under section 406 of the Act and section 4975(c)(1) of the Code, even if the seller is not a fiduciary with respect to the plan, or an affiliate of such fiduciary. However, the purchase of securities during the existence of an underwriting or selling syndicate with respect to such securities, of which a fiduciary is a member, from a person who is not such fiduciary or an affiliate of such fiduciary will not be deemed such a prohibited use where such fiduciary is not involved in any way in the transaction, e.g., neither recommended the purchase to the plan nor participated in any other manner in the plan's decision to make the purchase, and if benefiting the fiduciary was not a purpose for the purchase.

It should be noted, moreover, that under the regulations proposed in conjunction with these proposed exemptions relating to the definition of the term "fiduciary", a person who is a plan fiduciary would be deemed to be a fiduciary only with respect to those plan assets with respect to which he exercises those functions which make him a fiduciary.

Further, it should be noted that the purchase by a plan of securities during the existence of an underwriting syndicate of which a plan fiduciary, or an affiliate thereof, is a member, from a broker-dealer, reporting dealer or bank who is neither a plan fiduciary nor an affiliate of such a fiduciary, but who is a party in interest or disqualified person with respect to the plan would not subject such broker-dealer, reporting-dealer or bank to civil penalties under section 502(i) of the Act or excise tax under section 4975 (a) and (b) of the Code notwithstanding that the conditions of the proposed class exemption for such underwriting transactions set forth below are not met. However, such broker-dealer, reporting dealer or bank would be liable for such penalties or taxes if the conditions of the proposed class exemption for principal transactions previously set forth are not met.

The Department and the Service propose to grant an exemption for the purchase of such underwritten securities by plans, to the extent that such transactions would be prohibited under section 406 of the Act and section 4975(c)(1) of the Code, under conditions designed to safeguard the interests of plans and of their participants and beneficiaries. In this regard, the condition set forth in paragraph (b) of the proposed exemption would place specific perecntage limitations on the gross commission, spread or profit that may be received by the seller in such a transaction. The Department and the Service solicit comments addressed particularly to the appropriateness of the percentage limitations proposed.

*Proposed exemption.* Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1975–20 I.R.B. 14:

The restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1) of the Code, shall not apply to the purchase or other acquisition of any securities by an employee benefit plan during the existence of an underwriting or selling syndicate with respect to such securities, by reason of the fact that a member of such syndicate, or an affiliate of such member, is a fiduciary (as defined in section 3(21)(A) of the Act and section 4975(e)(3) of the Code) with respect to the plan, whether or not the purchase or acquisition is from such fiduciary, provided that the following conditions are met:

(a) Neither such fiduciary nor any affiliate of such fiduciary is a manager of such underwriting or selling syndicate; except that this paragraph shall not apply until January 1, 1977, to the purchase or other acquisition of such securities by the plan from any broker-dealer, reporting dealer or bank other than such fiduciary or any affiliate of such fiduciary. For purposes of this exemption, the term "manager" means any member of an underwriting or selling syndicate who, either alone or together with other members of the syndicate, is authorized to act on behalf of the members of the syndicate in connection with the sale and distribution of the securities being offered or who receives compensation from the members of the syndicate for its services as a manager of the syndicate.

(b) The gross commission, spread or profit to the seller as a result of such purchase by the plan does not exceed—

(1) 7.0 percent of the public offering price if the security to be purchased is a common stock;

(2) 3.50 percent of the public offering price if the security to be purchased is a preferred stock, whether or not convertible into common stock;

(3) 2.50 percent of the public offering price if the security to be purchased is a subordinated debenture, or a bond or debenture convertible into common stock or having common stock purchase warrants attached; or

(4) 1.50 percent of the public offering price in respect of any other security to be purchased.

(c) The securities to be purchased or otherwise acquired are—

(1) Part of an issue registerd under the Securities Act of 1933 or, if exempt from such registration requirement, (i) issued or guaranteed by the United States or by any person controlled or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States, (ii) issued by a bank, or (iii) issued by a common or contract carrier, if such issuance is subject to the provisions of section 20a of the Interstate Commerce Act, as amended, or are exempt from such registration requirement pursuant to a Federal statute other than the Securities Act of 1933;

(2) Purchased at not more than the public offering price prior to the end of the first full business day after the first date on which the issue is offered to the public, if not offered for subscription upon exercise of rights or, if so offered, purchased on or before the fourth day preceding the day on which the rights offering terminates; and

(3) Offered pursuant to an underwriting agreement under which the members of the syndicate are committed to purchase all of the securities being offered.

(d) The issuer of such securities has been in continuous operation for not less than three years, including the operations of any predecessors, unless—

(1) Such securities are non-convertible debt securities rated in one of the four highest rating categories by at least one nationally recognized statistical rating organization; or

(2) Such securities are issued or guaranteed by a person described in paragraph (c)(1)(i) of this exemption.

(e) The amount of such securities to be purchased or otherwise acquired by the plan does not exceed three percent of the total amount of such securities being offered.

(f) The consideration to be paid by the plan in purchasing or otherwise acquiring such securities does not exceed three percent of the fair market value of the total assets of the plan, as of the last day of the most recent fiscal quarter of the plan prior to such transaction, provided that if such consideration exceeds $1 million, it does not exceed one percent of such fair market value of the total assets of the plan.

(g) The plan maintains or causes to be maintained for a period of six years from the date of such transaction such records as are necessary to enable the persons described in paragraph (h) of this exemption to determine whether the conditions of this exemption have been met.

(h) Notwithstanding anything to the contrary in subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (g) are unconditionally available for examination during normal business hours by duly authorized representatives of (1) the Secretary of Labor, (2) the Commissioner of Internal Revenue, (3) plan participants and beneficiaries, and any employer of plan participants and beneficiaries, and (4) any employee organization any of whose members are covered by such plan.

If such securities are purchased by the plan from a party in interest (as defined in section 3(14) of the Act) or disqualified person (as defined in section 4975(e)(2) of the Code) with respect to the plan, other than a fiduciary with respect to the plan, such party in interest or disqualified person shall not be subject to the civil penalty which may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975 (a) and (b) of the Code, if the conditions of this exemption are not met, and such transaction will be a prohibited transaction under section 406(a) of the Act and section 4975(c)(1)(A) through (D) of the Code unless the conditions for exemption for principal transactions between employee benefit plans and broker-dealers, reporting dealers, and banks are met.

For purposes of this exemption, the term "affiliate" shall be defined in the same manner as that term is defined in 29 CFR 2510.3–21(e) and 26 CFR 54.4975–9(e).

IV. *Market-making.* It has been represented to the Department and the Service that certain firms which provide investment advice to plans either directly or through their affiliates regularly maintain markets in securities, and that as a result of this market-making activity, these firms in some instances can provide plans with the best available purchases or sales price with respect to particular securities.

The purchase or sale of securities by a plan from or to a fiduciary with respect to such plan, or an affiliate of such fiduciary, would be a prohibited transaction under section 406 of the Act and section 4975(c)(1) of the Code. Generally, the purchase or sale by a plan of securities for which a plan fiduciary or affiliate of such fiduciary is a market-maker, from or to a broker-dealer, reporting dealer or bank unrelated to such fiduciary will not be deemed a prohibited transaction under section 406 of the Act and section 4975(c)(1) of the Code, unless such transaction was engaged in for the purpose of benefiting such fiduciary or an affiliate of such fiduciary.

It should also be noted that under the regulations proposed in conjunction herewith relating to the definition of the term "fiduciary", a person is a fiduciary only with respect to those plan assets with respect to which he exercises those functions which make him a fiduciary.

In view of the representations that have been made that in many instances it is in the interests of plans and of their participants and beneficiaries for the plan to be able to purchase or sell securities to or from a plan fiduciary, or an affiliate of such fiduciary, who is a market-maker with respect to such securities, the Department and the Service propose to grant the exemption set forth below.

The Department and the Service note that certain broker-dealers who are fiduciaries with respect to plans may purchase securities from or sell securities to such plans as so-called "block positioners" with respect to such securities. Such transactions would constitute prohibited transactions under section 406 of the Act and section 4975(c)(1) of the Code. Although one applicant has suggested the granting of an exemption for such transactions, the Department and the Service lack sufficient supportive data on which to consider the proposal of such an exemption.

*Proposed exemption.* Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1975–20 I.R.B. 14:

The restrictions of section 406 of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1) of the Code, shall not apply to any purchase or sale of any securities by an employee benefit plan from or to a market-maker with respect to such securities, by reason of the fact that such market-maker is a fiduciary (as defined in section 3(21)(A) of the Act and section 4975(e)(3) of the Code) with respect to such plan, or an affiliate of such fiduciary, provided that the following conditions are met:

VOL 40 NO 154 AUG 8 75 XUM

(a) The issuer of such securities has been in continuous operation for not less than three years, including the operations of any predecessors, unless—

(1) Such securities are non-convertible debt securities rated in one of the four highest rating categories by at least one nationally recognized statistical rating organization; or

(2) Such securities are issued or guaranteed by the United States or by any person controlled or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States.

(b) As a result of purchasing such securities—

(1) The fair market value of the aggregate amount of such securities owned, directly or indirectly, by the plan does not exceed three percent of the fair market value of the total assets of the plan as of the last day of the most recent fiscal quarter of the plan prior to such transaction, provided that if the fair market value of such securities exceeds $1 million, it does not exceed one percent of such fair market value of the total assets of the plan; and

(2) The fair market value of the aggregate amount of all securities owned, directly or indirectly, by the plan for which such fiduciary or such affiliate is a market-maker does not exceed 10 percent of the fair market value of the total assets of the plan as of the last day of the most recent fiscal quarter of the plan prior to such transaction.

(c) At least two persons who are not affiliated with such fiduciary are market-makers with respect to such securities.

(d) The transaction is executed at a net price to the plan for the number of shares or other units to be purchased or sold in the transaction which is more favorable to the plan than that which is available at the time of such transaction from all other market-makers with respect to such securities.

(e) (1) Such fiduciary maintains a written record for a period of six years from the date of the transaction setting forth the price of the security quoted for the number of shares or other units purchased or sold in the transaction by such other market-makers referred to in paragraph (d) above; and

(2) Such records are unconditionally available for examination during normal business hours by duly authorized representatives of (i) the Secretary of Labor, (ii) the Commissioner of Internal Revenue, (iii) plan participants and beneficiaries, (iv) any employer of plan participants and beneficiaries, and (v) any employee organization any of whose members are covered by such plan.

(f) The plan maintains or causes to be maintained for a period of six years from the date of such transaction such records (other than the records referred to in paragraph (e) above) as are necessary to enable the persons described in paragraph (g) of this exemption to determine whether the conditions of this exemption have been met.

(g) Notwithstanding anything to the contrary in subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (f) are unconditionally available for examination during normal business hours by duly authorized representatives of (1) the Secretary of Labor, (2) the Commissioner of Internal Revenue, (3) plan participants and beneficiaries, (4) any employer of plan participants and beneficiaries, and (5) any employee organization any of whose members are covered by such plan.

For purposes of this exemption—

(1) A person shall not be deemed to be a "market maker" with respect to a security unless such person is required to comply with Rule 15c2–11 under the Securities Exchange Act of 1934 (17 CFR 240.15c2–11).

(2) The term "affiliate" shall be defined in the same manner as that term is defined in 29 CFR 2510.3–21(e) and 26 CFR 54.4975–9(e).

V. *Extension of credit.* The Securities Industry Association and others have indicated that a normal part of the execution of securities transactions by broker-dealers on behalf of customers, including plans, is the extension of credit to customers so as to permit the settlement of transactions in the customary five-day settlement period. In addition, such extensions of credit are also customary in connection with certain kinds of securities transactions, such as short sales and the writing of option contracts.

Since such extensions of credit are normally made by broker-dealers in connection with the execution of transactions for customers, if the customer is a plan, the broker-dealer would be a party in interest or disqualified person with respect to the plan by reason of providing the service of executing a transaction for the plan. Section 406(a)(1)(B) of the Act and section 4975(c)(1)(B) of the Code prohibit extensions of credit between plans and parties in interest or disqualified persons.

However, based on the representations of the Securities Industry Association and others, the Department and the Service propose to grant the exemption set forth below to permit extensions of credit by broker-dealers to plans under conditions designed to safeguard the interests of plans and their participants and beneficiaries.

*Proposed exemption.* Accordingly, it is proposed that the following exemption be granted under the authority of section 408(a) of the Act and section 4975(c)(2) of the Code and in accordance with the procedures set forth in ERISA Procedure 75–1 (40 FR 18471, April 28, 1975) and Rev. Proc. 75–26, 1975–20 I.R.B. 14:

The restrictions of section 406(a) of the Employee Retirement Income Security Act of 1974 (the Act) and the taxes imposed by section 4975 (a) and (b) of the Internal Revenue Code of 1954 (the Code), by reason of section 4975(c)(1)(A) through (D) of the Code, shall not apply to any extension of credit to an employee benefit plan by a party in interest (as defined in section 3(14) of the Act) or a disqualified person (as defined in section 4975(e)(2) of the Code) with respect to the plan, provided that the following conditions are met:

(a) The party in interest or disqualified person—

(1) Is a broker or dealer registered under the Securities Exchange Act of 1934; and

(2) Is neither a fiduciary (as defined in section 3(21)(A) of the Act and section 4975(e)(3) of the Code) with respect to any assets of such plan, nor an affiliate (as defined in 29 CFR 2510.3–21(e) and 26 CFR 54.4975–9(e)) of such a fiduciary, unless no interest or other consideration is received by such fiduciary or affiliate in connection with such extension of credit.

(b) Such extension of credit—

(1) Is in connection with the purchase or sale of securities;

(2) Is lawful under the Securities Exchange Act of 1934 and any rules and regulations promulgated thereunder; and

(3) Is not a prohibited transaction within the meaning of section 503(b) of the Code.

(c) The plan maintains or causes to be maintained for a period of six years from the date of such transaction such records as are necessary to enable the persons described in paragraph (d) of this exemption to determine whether the conditions of this exemption have been met, except that if such party in interest or disqualified person is not a fiduciary with respect to any assets of the plan, or an affiliate of such fiduciary, such party in interest or disqualified person shall not be subject to the civil penalty which may be assessed under section 502(i) of the Act, or to the taxes imposed by section 4975(a) and (b) of the Code, if such records are not maintained, or are not available for examination as required by paragraph (d) below.

(d) Notwithstanding anything to the contrary in subsections (a)(2) and (b) of section 504 of the Act, the records referred to in paragraph (c) are unconditionally available for examination during normal business hours by duly authorized representatives of (1) the Secretary of Labor, (2) the Commissioner of Internal Revenue, (3) plan participants and beneficiaries, (4) any employer of plan participants and beneficiaries, and (5) any employee organization any of whose members are covered by such plan.

Signed at Washington, D.C., this 5th day of August 1975.

JAMES D. HUTCHINSON,
*Administrator of Pension and Welfare Benefit Programs, U.S. Department of Labor.*

DONALD C. ALEXANDER,
*Commissioner of Internal Revenue.*

## MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

General Wage Determination Decisions, Modifications, and Supersedeas Decisions

VOL 40 154 AUG 8 75 XUM

## DEPARTMENT OF LABOR

### Employment Standards Administration

### MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

### General Wage Determination Decisions, Modifications, and Supersedeas Decisions

General Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 12–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determination frequently and in large volume causes procedures to be impractical and contrary to the public interest.

General Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR, Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

#### MODIFICATIONS AND SUPERSEDEAS DECISIONS TO GENERAL WAGE DETERMINATION DECISIONS

Modifications and Supersedeas Decisions to General Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 FR 306 following Secretary of Labor's Order No. 24–70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates, (37 FR 21138) and of Secretary of Labor's Orders 13–71 and 15–71 (36 FR 8755, 8756). The prevailing rates and fringe benefits determined in foregoing General Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR, Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule-making procedures prescribed in 5 U.S.C. 553 has been set forth in the original General Wage Determination Decision.

#### MODIFICATIONS TO GENERAL WAGE DETERMINATION DECISIONS

The numbers of the decisions being modified and their dates of publication in the FEDERAL REGISTER are listed with each State.

LABORERS

Group 1: Building Laborers, Carpenters Tenders, Material Handlers and Hook Tenders; Form Strippers; Signalmen; Riggers; Sandblast Pot Tender; Saw Tenders; General Labor Dump Man; Pitman; Brush Cutters; Ditch Diggers; Monolithic Workers; Dryerman

Group 2: Base and Floor Machine Man

Group 3: Choke Setters

Group 4: Concrete Labor including Vibrationman, Power Buggy and Concrete Power Saw; Curb and Gutterman; General Crew(including Plant Crew); Asphalt

Group 5: Pneumatic or Power Tools

Group 6: Stake Hopper: Grademan; Steampoint or Water jet Operator

Group 7: Tank Cleaner

Group 8: Jackhammer Operator and Pavement Braker; Chuck Tender(Wagon and air Track Drills)

Group 9: Mason Tender and Mud Mixers

Group 10: Gunnite Operator; Pipelayers; Culvert and Multiplate; High Scaler; Sloper (over 20 feet); Chain and Power Saws ; Sack or Bulk; Sewer Pipelayer; Sewer Caulkers; Timberman; All Monolithic Crews Pipe Builders; Sandblaster

Group 11: Asphalt Rakers

Group 12: Tenders; Plasterers; Bricklayers; Cement Finisher; Burning and Cutting Torch (except intermittent torch work)

Group 13: Wagon Driller

Group 14: Timber Faller; Air Tract Wagon Driller

Group 15: Chain Saw Filer

Group 16: High Riggers and Tree Topper, Powderman

Group 17:
Class A: Topman and Bull Gang Brakeman
Class B: Muckers, Laborers; Nippers
Class C: Check Tender
Class D: Retimberman
Class E: Miners, Shafts and Raises
Class F: Powderman

POWER EQUIPMENT OPERATORS

Group 1: Batch Plant Operator: Batch and Mixer, 200 yards per hour and under; Loader; Elevating - Athey, Barber Greene and similar types; Over - head and Front-end under 2- yards; Mixers: Concrete Mixers and Batch, 200 yards per hour and under; Pumps: Fuller Kenyon, Pumpcrete and Concrete, Rollers, Tampers and Vibrators: On Plant or Road Mix Materials; Tractors, Farmall type, 50 h.p. and over; Trenching Machines: Under 16 inches

Group 2: Batch Plant Operator: Batch and Mixer, over 200 yards; Derrick all, Drilling Machines, Core, Cable Rotary and Exploration; Mixers: Mobile type with hoist combination; Mucking Machines, Mole, Tunnel Drill and/or Shield

Group 3: Brooms, Power Wayne, Saginaw and similar types; Bulldozers: Under D6 or similar; Post Hole Diggers, Mechanical; Saws, Concrete; Scrapers: Carryall type, single

Group 4: Bulldozers: D6 through D9 or similar; Bump Cutter (Concut Christenson or similar types); Conveyors

Group 5: Bulldozers: TC 12, Quad 9, Pay Dozers, Linked Pusher, H.D. 41 and/or similar; Bulldozers engaged in Yo Yo Operation; Cableways and Highlines: 3 yards and under; Cranes: "A" Frame Trucks, Deck Winches, single power drum; "A" Frame Trucks Helicopter (Deck Winches, double power drum); Crawler, Truck type, Floating Locomotive, Whirley, either 3 yards and under or 150 boom including jibs and under 45 tons and under; Hydralifts or Transporter, Hyster Cat Cranes and attachments, Sidebooms 45 tons and under; Loaders: Overhead and Front End 2½ yards and under 4 yards; Motor Patrol Graders: Over Model 14 or similar types; Piledrivers Engineers, L. B. Foster Puller or similar Paving Breaker; Power Plant Turbine Operators; 300 K.W. on highway or airfield construction projects or Quarry Operations); Sauerman-Bagley; Shovels: Crawler and truck type, all attachments, 3 yards and under; Sub Grader (Curries, C.M.I. and similar types); Tractors Farmall type, used as Backhoes, Rubber-tired (Ford, Ferguson, Case and similar types); Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment over 25 yards through 40 yards; Hover Craft, Flex Craft, Loadmaster, Air Cushion, Terrain Vehicle, Helicopter Transporter, Cableways, Rollagon, Dredge Barge Cable, Highline or Cable Car, Camp Maintenance Engineer, Boat Coxswains

Group 6: Cableways and Highlines: Over 3 yards; Cranes: Crawler, Truck type, Floating, Locomotive, Whirley, either over 3 yards and under 6 yards, or over 150' boom, including jibs of over 45 tons; Tower Cranes, Pecos, Lorraine, Bucyrus and similar types; Hyster Cat Cranes and attachments, Sidebooms over 45 tons thru 100 tons; Loader: Overhead and Front-end 4 yards up to and including 10 yards; Shovels: Crawler and Truck type, all attachments, 3 yards and under 6 yards; Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment over 40 yards through 55 yards; Slip Form Paver, C.M.I. and similar types

NOTICES

POWER EQUIPMENT OPERATORS (Cont'd)

Group 7: Cement Hogs; Locomotives: Rod and Geared Engines

Group 8: Compressors: Excavating; Locomotives: Dinkey (air, steam, gas, and electric) Speeders

Group 9: Compressors: Steel Erection including Sand Blasting, Painting of same, Pile Driving, Hoists on Steel Erection; Loaders: Fork Lifts with Tower; Scrapers: Carryall type, Tandem

Group 10: Conveyors, Beltcrete with power pack and similar types; Loaders: Elevating Belt type, Euclid and similar types

Group 11: Cranes: "A" Frame Trucks, Deck Winches, single power drum; Crushers, rock, washing and screening plants; Hoist Air Tuggers, Elevators; Motor Patrol Graders: Model 14 or similar types and under; Power Plant Turbine Operators: under 300 K.W.; Shovels; Tournapulls, Caterpillar, Euclid, Scrapers and similar type equipment 25 yards and under

Group 12: Cranes: Crawler, truck type, Floating, Locomotive, Whirley, either 6 yards or over 200' of boom including jibs or over 150 tons; Hyster Cat Cranes and attachments, Sidebooms over 100 tons; Loaders: Overhead and Front-end over 10 yards; Shovels: Crawler and Truck type, all attachments, 6 yards and over; Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment over 55 yards through 70 yards

Group 13: Finishing Machine Operator, Concrete Paving, Sidewalk Curb and Gutter Machine; Screen Man or Slurry Operator; Spreaders - Blaw Knox, Cedarapids, Barber Greene, Railroad Wing Spreader or similar types

Group 14: Loaders: Elevating Grader type, Dumor and similar types

Group 15: Loaders: Fork Lifts or Lumber Carrier (on construction job site)

Group 16: Mechanics, Welders, Machinists, heavy duty

Group 17: Mechanic, Leadman

Group 18: Mechanics' Helpers, heavy duty shop, Stake Hopper, Grademan

Group 19: Mechanic, light duty; Rollers, Tampers and Vibrators: Others than plants or road mix (where towed, to pay rate of equipment used to pull); Tractors, Farmall type less than 50 h.p.

Group 20: Mixers: Asphalt Mixer

Group 21: Oil, Blower Distributors

Group 22: Safety Observer or Oiler Rigger

POWER EQUIPMENT OPERATORS (Cont'd)

Group 23: Journeyman Equipment Service Oilers and Firemen; Oiler, either over 3 yards or over 150' boom or over 45 tons

Group 24: Pumps: Water

Group 25: Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment over 70 yards through 85 yards

Group 26: Tournapulls, Caterpillar, Euclid Scrapers and similar type equipment over 85 yards through 100 yards

Group 27: Trenching Machines: 16 inches and over or Remote Controlled Underwater Trenching

POWER EQUIPMENT OPERATORS - DREDGING

Group 1: Assistant Mate (Deckhand)

Group 2: Fireman; Oiler

Group 3: Assistant Engineer (electric, diesel, steam or booster pumps); Mates and Boatmen

Group 4: Engineer Welder; Craneman

Group 5: Assistant Engineer (electric generator operator for primary pump, power barge, or dredge)

Group 6: Leverman, Hydraulic

Group 7: Leverman, Dipper
(a) 5 yards and under
(b) Over 5 yards

TRUCK DRIVERS

Group 1: Buggymobile; Hyster Operators (handling bulk aggregate), Lumber Carrier

Group 2: Semi or Truck and Trailer; Dumpsters; Batch Trucks over 5 yds., Batch Trucks 5 yds. up to and including 10 yds.; Fuel Truck; Greasers or Grease Trucks; Flat Beds, dual rear axle, Ready Mix: Over 3 yds. up to and including 5 yds.; Water Wagon, Semi; Water Wagon, Dual Axle; Winch Trucks, Flat Bed including "A" Frame manufactured rating over 5 tons; Bull Lifts and Fork Lifts over 5 tons; Front End Loader with Forks; Partsman and Outside Expeditor; Bus Operator, over 30 passengers, Truck Equipment; All Terrain Vehicles, Foam Distributor Truck Double Axle; Hydro Seeder Double Axle; Vacuum Trucks and Truck Sweeper-Double Axle; Loadmaster (air and water operations); Air Cushion or similar type vehicle; Free Trucks-Double Axle

NOTICES

TRUCK DRIVERS (Cont'd)

Group 3: Batch Trucks up to and including 5 yds.; Dump Trucks (including Rockbuggy and Trucks with pups) up to and including 5 yds.; Flat Beds, single rear axle; Water Wagon, single axle; Winch Truck, Flat Bed including "A" Frame manufactured rating 5 tons and under; Bull Lifts and Fork Lifts up to and including 5 tons, Bus Operator, up to 30 passengers, Single Axle; Team Drivers (Horses, Mules and similar equipment); Fire Trucks, Single Axle

Group 4: Dump Trucks over 10 yds. up to and including 20 yds.; Fireman; Lowbed Heavy-Duty Trailer; Oil Distributor Drivers; Ready Mix: Compactor (when pulled by rubber-tired equipment)

Group 5: Dump Trucks over 20 yds. up to and including 30 yds.

Group 6: Dump Trucks over 30 yds. up to and including 40 yds.

Group 7: Dump Trucks over 40 yds. up to and including 50 yds.

Group 8: Dump Trucks over 50 yds. up to and including 60 yds.

Group 9: Dump Trucks over 60 yds. up to and including 70 yds.

Group 10: Dump Trucks over 70 yds. up to and including 80 yds.

Group 11: Dump Trucks over 80 yds. up to and including 90 yds.

Group 12: Dump Trucks over 90 yds. up to and including 100 yds.

Group 13: Dump Trucks over 100 yds. (above scales to be paid on actual water level measurements)

Group 14: Turn-O-Wagoner DW-10 when not self-loading

Group 15: Gravel Spreader Box Operator on Truck; Pickup (pilot cars and all light-duty vehicles); Warehouseman Class 2; Farm type rubber-tired tractor (material hauling)

Group 16: Ready Mix: Up to and including 3 yds.

Group 17: Ready Mix: Over 5 yds. up to and including 7 yds.

Group 18: Ready Mix: Over 7 yds. up to and including 9 yds.

Group 19: Ready Mix: Over 9 yds. up to and including 12 yds.

Group 20: Ready Mix: 13 yds. and over

Group 21: Ready Mix, Semi with double bowl mixer

Group 22: Water Wagon, when pulled by Euclid or similar type equipment

Group 23: Warehouseman - Class 1

SUPERSEDEAS DECISION

STATE: Colorado

COUNTIES: Adams, Arapahoe, Boulder, Clear Creek, Denver, Douglas, Eagle, Elbert, Gilpin, Grand, Jefferson, Lake, Larimer, Morgan, Park, Summit and Weld

DATE: Date of Publication

DECISION NUMBER: C075-5100

Supersedes Decision No. C075-5080 dated July 11, 1975, in 40 FR 29456

DESCRIPTION OF WORK: Building Construction, (excluding single family homes and garden type apartments up to and including 4 stories) and heavy construction

Adams, Arapahoe, Boulder, Denver, Lake, Larimer and Summit Counties. Douglas and Jefferson Counties lying north of the south line of Township 7 south; Elbert County lying west of the east line of Range 65 West and North of the south line of Township 7 South. Weld County lying south and west of the following described line: Beginning at the northwest corner of Township 4 North, Range 68 West of the 6th p.m.; thence east along the north line of said Township six (6) miles,more or less, to the east line of said Township; thence south along the east line of said Township three (3) miles, more or less, to the southeast corner of Section 13, Township 4 North, Range 68 West; thence east along the eastwest center line of Township 4 North, Range 67 West, six (6) miles, more or less, to the east line of said Township; thence south along the east line of Range 67 West, being the east lines of Township 4 North, 3 North, 2 North, and 1 North, Range 67 West, sixteen (16) miles to the southeast corner of Section 1, Township 1 North, Range 67 West; thence east and parallel to the Base Line twelve (12) miles, more or less, to the southeast corner of Section 1, Township 1 North, Range 65 West; thence south along the east line of Range 65 West, five (5) miles, more or less, to the Base Line being the south line of Weld County.

DECISION NO. C075-5100

LABORERS (Cont'd)
(Building Construction)

AREA A (Cont'd)
Zone 1: That area encompassed by 0 to 30 driving miles from the main Post Office in each of the following Cities: Boulder, Denver, Dillon, Englewood, Fort Collins, Golden, Greeley and Leadville

Zone 2: That area encompassed by 30 to 70 driving miles from the main Post Office of above named Cities

Zone 3: That area encompassed by 70 driving miles and over from the main Post Office of above named Cities

AREA B
Douglas, Elbert, Jefferson, and Weld Counties lying outside of the area as described in Area A, and all of Clear Creek, Eagle, Gilpin, Grand, Morgan, and Park Counties.

Zone 1: That area encompassed by 0 to 30 driving miles from the main Post Office in each of the following Cities: Eagle, Fort Morgan, Golden Grandby, Greeley and Vail.

Zone 2: That area encompassed by 30 to 70 driving miles from main Post Office of above named Cities

Zone 3: That area encompassed by 70 driving miles and over from the main Post Office in above named Cities

DECISION NO. C075-5100

LABORERS (Cont'd)
Building Construction

GROUP DESCRIPTION For All COUNTIES

Group 1: Watchmen tending Heaters and Pumps

Group 2: Building Construction Laborer

Group 3: Laborers - Underpinning and Shoring Eight (8) feet or more below working surface.
Power Tool Operators of all mechanical, air, gas, and electrical tools, including Self-propelled Buggies and Cement Finisher Tenders.
Laborers preparing and placing of stone or any other Aggregate in a sand bed to be used as exposed face of tilt-up panels.
Burners on Demolition and Welders, Gunnite Nozzlemen and Sand Blasters.

Group 4: Pipelayers on Building Construction

Group 5: Jackhammer Operator for Under-pinning and Shoring over twelve (12) feet below working surface, Bellers and Stemmers on Caisson Work.

Group 6: Tender, Mason and Plaster

DECISION NO. C075-5100

LABORERS (Heavy Construction)

Group 1: Minimum Labor, including Caissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete paving; Flagman directing traffic; Nursery Man including seeding, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Mattresses; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 2: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Rakers, Boxtenders, Asphalt Curb Machines, Potmen (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Caissons 8' to 12': Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing materials Monitors; Shakers; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Gunniting and Shotcrete Helpers; Caissons over 12'; Scalers; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

DECISION NO. C075-5100

LABORERS (Cont'd)
(Heavy Construction)

Group 3: Powdermen and Blasters; Gunnite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Relining Pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Houseman

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operators

Group 4: Helpers on Shotcrete, Gunniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunnite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

DECISION NO. C075-5100

LABORERS (Cont'd)
(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 3: Helpers in Shotcrete Gunniting and Sand Blasting; Helpers on Core and Diamond Drills; Pot Tenders; Cement Finisher Helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (Steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Liner Plate Setters; Vibrator Men, internal and external

Group 5: Diamond and Core Drill Operators; Cement Finisher (underground); Gunnite Nozzlemen; Shotcrete Operators; Sand Blasters and Pump Concrete Placement Men

Group 6: Any employee performing work underground from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - Smaller than Williams MF and similar; Helper to Heavy Duty Mechanic and/or Welder; Operators of 5 or more light plants, Welding Machines, Generators, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments

Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled Roller, Rubber tired under 5 tons;

Group 3: Asphalt Plant; Backfiller, Bituminous spreader or laydown machine; Cableway signalman; caisson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Machine Doctor; Mechanic; Motor Grader/Blade, rough; Road Stabilization Machine; Rollers, self-propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck

Group 4: Cable Operated crane, track mounted; cable operated power shovels, Draglines, Clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 34E or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane

Group 5: Cable operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Nine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over

Group 6: Cableway; Climbing tower Crane; Crawler or Truck Mounted Tower Crane; Wheel Excavator, Tower Crane, Truck type

POWER EQUIPMENT OPERATORS (Cont'd)
(for work in Tunnels, Shafts and Raises)

Group 1: Brakeman

Group 2: Motorman

Group 3: Compressor (900 CFM and over) serving Tunnels, Shafts and Raises

Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder

Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty; Mucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator

Group 6: Mole

DECISION NO. CO75-5101

LABORERS (Heavy Construction)

Group 1: Minimum Labor, including Caissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete paving; Flagman directing traffic; Nursery Man including seeding, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Mattreases; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 2: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Rakers, Boxtenders, Asphalt Curb Machines, Potmen (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing material; Monitor; Spotters; Signalmen; Dummmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Cunniting and Shotcrete Helpers; Caissons over 12'; Scalers; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Ensmelers of pipe, inside and out

DECISION NO. CO75-5101

LABORERS (Cont'd) (Heavy Construction)

Group 3: Powdermen and Blasters; Gunnite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Refining Pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Houseman

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operators

Group 4: Helpers on Shotcrete, Gunniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunnite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

DECISION NO. CO75-5101

LABORERS (Cont'd)
(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 3: Helpers in Shotcrete Gunniting and Sand Blasting; Helpers on Core and Diamond Drills; Pot Tenders; Cement Finisher Helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (Steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Liner Plate Setters; Vibrator Men, internal and external

Group 5: Diamond and Core Drill Operators; Cement Finisher (underground); Gunnite Nozzlemen; Shotcrete Operators; Sand Blasters and Pump Concrete Placement Men

Group 6: Any employee performing work underground from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - Smaller than Williams MF and similar; Helper to Heavy Duty Mechanic and/or Welder; Operators of 5 or more light plants, Welding Machines, Generators, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments

Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled Roller, Rubber tired under 5 tons;

Group 3: Asphalt Plant; Backfiller, Bituminous spreader or laydown machine; Cableway signalman; caisson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Machine Doctor; Mechanic; Motor Grader/Blade, rough; Road Stabilization Machine; Rollers, air propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; Tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck

Group 4: Cable Operated crane, track mounted; cable operated power shovels, Draglines, Clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 34E or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane

Group 5: Cable operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Nine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over

Group 6: Cableway; Climbing tower Crane; Crawler or Truck Mounted Tower Crane: Wheel Excavator, Tower Crane, Truck type

POWER EQUIPMENT OPERATORS (Cont'd)
(for work in Tunnels, Shafts and Raises)

Group 1: Brakeman

Group 2: Motorman

Group 3: Compressor (900 CFM and over) serving Tunnels, Shafts and Raises

Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder

Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty; Mucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator

Group 6: Mole

SUPERSEDEAS DECISION

STATE: Colorado

COUNTIES: Delta, Garfield, Gunnison, Mesa, Montrose and Pitkin

DECISION NUMBER: C075-5102 DATE: Date of Publication
Supersedes Decision No. C075-5082 dated July 11, 1975, in 40 FR 29470
DESCRIPTION OF WORK: Building Construction (excluding single family homes and garden type apartments up to and including 4 stories) and heavy construction.

LABORERS (Cont'd)
Building Construction

GROUP DESCRIPTION For All COUNTIES

Group 1: Watchmen tending Heaters and Pumps

Group 2: Building Construction Laborer

Group 3: Laborers - Underpinning and Shoring Eight (8) feet or more below working surface.
Power Tool Operators of all mechanical, air, gas, and electrical tools, including Self-propelled Buggies and Cement Finisher Tenders.
Laborers preparing and placing of stone or any other Aggregate in a sand bed to be used as exposed face of tilt-up panels.
Burners on Demolition and Welders, Gunnite Nozzlemen and Sand Blasters.

Group 4: Pipelayers on Building Construction

Group 5: Jackhammer Operator for Under-pinning and Shoring over twelve (12) feet below working surface. Reilers and Strippers on Caisson Work.

Group 6: Tender, Mason and Plaster

DECISION NO. C075-5102

LABORERS
(Heavy Construction)

Group 1: Minimum Labor, including Caissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete paving; Flagman directing traffic; Nursery Man including seeding, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Mattresses; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 2: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Rakers, Boxtenders, Asphalt Curb Machines, Potmen (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checker; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing material; Monitor; Spotters; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Gunniting and Shotcrete Helpers; Caissons over 12'; Scalers; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out.

DECISION NO. C075-5102

LABORERS (Cont'd)
(Heavy Construction)

Group 3: Powdermen and Blasters; Gunnite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Relining Pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Nellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Calleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Houseman

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operator

Group 4: Helpers on Shotcrete, Gunniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunnite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

DECISION NO. C075-5102

LABORERS (Cont'd)
(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 3: Helpers in Shotcrete Gunniting and Sand Blasting; Helpers on Core and Diamond Drills; Pot Tenders; Cement Finisher Helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (Steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Liner Plate Setters; Vibrator Men, internal and external

Group 5: Diamond and Core Drill Operators; Cement Finisher (underground); Gunnite Nozzlemen; Shotcrete Operators; Sand Blasters and Pump Concrete Placement Men

Group 6: Any employee performing work underground from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - Smaller than Williams MF and similar; Helper to Heavy Duty Mechanic and/or Welder; Operators of 5 or more light plants, Welding Machines, Generators, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments

Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled Roller, Rubber tired under 5 tons;

Group 3: Asphalt Plant; Backfiller, Bituminous spreader or laydown machine; Cableway signalman; caisson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Mixing Plant; Mechanic; Motor Grader/blade, finish; Multiple Head Earthmoving machine; Rollers, self-propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck

Group 4: Cable Operated crane, track mounted; cable operated power shovels, Draglines, Clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 34E or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane

Group 5: Cable operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Nine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over

Group 6: Cableway; Climbing tower Crane; Crawler or Truck Mounted Tower Crane; Wheel Excavator, Tower Crane, Truck type

DECISION NO. C075-5102

POWER EQUIPMENT OPERATORS (Cont'd)
(for work in Tunnels, Shafts and Raises)

Group 1: Brakeman

Group 2: Motorman

Group 3: Compressor (900 CFM and over) serving Tunnels, Shafts and Raises

Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder

Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty; Mucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator

Group 6: Mole

SUPERSEDEAS DECISION

LABORERS (Cont'd)
Building Construction

GROUP DESCRIPTION For All COUNTIES

Group 1: Watchmen tending Heaters and Pumps

Group 2: Building Construction Laborer

Group 3: Laborers - Underpinning and Shoring Eight (8) feet or more below working surface.
Power Tool Operators of all mechanical, air, gas, and electrical tools, including Self-propelled Buggies and Cement Finisher Tenders.
Laborers preparing and placing of stone or any other Aggregate in a sand bed to be used as exposed face of tilt-up panels.
Burners on Demolition and Welders, Gunnite Nozzlemen and Sand Blasters.

Group 4: Pipelayers on Building Construction

Group 5: Jackhammer Operator for Under-pinning and Shoring over twelve (12) feet below working surface, Bellers and Plungers on Caisson Work.

Group 6: Tender, Mason and Plaster

DECISION NO. C075-5103

LABORERS
(Heavy Construction)

Group 1: Minimum Labor, including Caissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete Pavement (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Caissons 8' to 12': Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing material; Monitor; Spotters; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Gunniting and Shotcrete Helpers; Caissons over 12'; Scalers; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Pine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joint Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

DECISION NO. C075-5103

LABORERS (Cont'd) (Heavy Construction)

Group 3: Powdermen and Blasters; Gunnite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Relining Pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Housemen

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operator

Group 4: Helpers on Shotcrete, Gunniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunnite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

DECISION NO. C075-5103

LABORERS (Cont'd)
(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 3: Helpers in Shotcrete Gunniting and Sand Blasting; Helpers on Core and Diamond Drills; Pot Tenders; Cement Finisher Helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (Steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Liner Plate Setters; Vibrator Men, internal and external

Group 5: Diamond and Core Drill Operators; Cement Finisher (underground); Gunnite Nozzlemen; Shotcrete Operators; Sand Blasters and Pump Concrete Placement Men

Group 6: Any employee performing work underground from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws

CEMENT MASONS (Cont'd)
* Zone Description

A. Counties entirely within Zone 1:

| | | | |
|---|---|---|---|
| Alamosa | Custer | Huerfano | Otero |
| Archuleta | Delta | Jefferson | Phillips |
| Bent | Denver | LaPlata | Prowers |
| Boulder | Douglas | Larimer | Pueblo |
| Chaffee | El Paso | Logan | Rio Grande |
| Clear Creek | Fremont | Mesa | Sedgwick |
| Conejos | Garfield | Montezuma | Teller |
| Costilla | Gilpin | Morgan | Weld |
| Crowley | | | |

B. Counties entirely within Zone 2:

| | | | |
|---|---|---|---|
| Baca | Jackson | Moffat | Saguache |
| Cheyenne | Kiowa | Ouray | San Juan |
| Dolores | Kit Carson | Park | San Miguel |
| Grand | Lake | Pitkin | Summit |
| Gunnison | Lincoln | Rio Blanco | Yuma |
| Hinsdale | Mineral | Routt | |

C. Legal description of the portions of Adams, Arapahoe, Eagle, Elbert, Las Animas, Montrose and Washington Counties which are included within Zone 1, as follows:

All of Adams, Arapahoe, Elbert and Las Animas Counties lying west of the Township line between R59W and R60W of the 7th Guide Meridian West; and all of Eagle County lying west of the Township line between R80W and R81W of the 10th Guide Meridian West and all of Montrose County lying Northerly of the North line of Ouray County and said North line extended West to the Township line between R11W and R12W, said part lying East of said Township line of the New Mexico Principal Meridian, and all of Washington County lying North of the 40°00'00" Latitude Base Line.

D. Legal description of the portions of Adams, Arapahoe, Eagle, Elbert, Las Animas, Montrose and Washington Counties which are included with Zone 2, as follows:

All of Adams, Arapahoe, Elbert and Las Animas lying East of the Township line between R59W and R60W of the 7th Guide Meridian West, and all of Eagle County lying East of the Township line between R80W and R81W of the 9th Guide Meridian West and all of Montrose County except that part lying Northerly of the North line of Ouray County and said North line extended West of said Township line between R11W and R12W, said point being East of said Township line of the New Mexico Principal Meridian and all of Washington County lying South of the 40°00'00" Latitude Base Line.

DECISION NO. CO75- 5104

LABORERS

Group 1: Minimum Labor, including Caissons to 8'; Carrying Reinforcing Rods; Work on Cross Culverts, connections and side drains in connection with highway work, whether corrugated metal or concrete pipe; Fence Erectors; Metal Mesh; Dowel Bars; Tie Bars and Chairs in concrete paving; Flagman directing traffic; Nursery Man including seeding, mulching and planting of trees, shrubs and flowers; Stake Chaser; Gabion Baskets and Reno Mattresses; Pipe plants and yards, stringing of pipe or skids, handling and signaling on pipe line work

Group 2: Chuck Tenders, Nippers, Core and Diamond Drill Helpers, Powdermen Helpers; Hot Asphalt Labor, Rakers, Boxtenders, Asphalt Curb Machines, Potmen (not mechanical); Multi-plate Culvert Pipe; Air, gas and electrical tool Operators; Barco Hammers; Spaders, electric hammers; Air Tampers; Cutting Torches on demolition work; Caissons 8' to 12'; Cofferdams; Power operated Concrete Buggies; Operators of concrete saws on pavement (other than gang saws); Timber and Chain Saws; Stresser or Stretcherman on Post Tension or Prestressed Concrete on or off jobsite; Tool Room Man and Checkers; Cement Finisher Helper; Sand Blaster; Sand Blaster Helper; Concrete processing material; Monitor; Spotters; Signalmen; Dumpmen; Transverse Concrete Conveyor Operator; Mechanical Grouters; Boring Machine (air hydraulic); Automatic Concrete Power Curbing Machine; Jack Hammer; Vibrators; Paving Breakers; Frostproofing; Any laborer performing bridge work over 40' above the ground or above a floor and working from a Bos'n Chair; Swing Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Gunniting and Shotcrete Helpers; Caissons over 12'; Scalers; Timbermen, underpinning and shoring; Form-setters and/or stringmen on roads, highways, streets and airport runways; Distribution, placing and hooking of landing mats; Bull Float (hand operated) and Center Expansion Machines; Grade Checkers if required by employer; Pipe Wrappers; Dopers; Jeep Holiday Detector Men, Bandage Makers; Laborers working in trenches on all pipe lines, sewer, water, gas, oil, telephone conduit, Pen Stock, Siphons, drainage lines, Caulkers, Yarners, Fine Graders, air, gas, electric and hydraulic tools, Boring Machines, Hydraulic Jacks, Drills, Tampers, and similar operated tools; Wiping of Joints Concrete Pipe, inside and out; Labor, applicable to pipe coating or wrapping, plants and yards; Enamelers of pipe, inside and out

DECISION NO. CO75- 5104

LABORERS (Cont'd)

Group 3: Powdermen and Blasters; Gunnite Nozzlemen; Shotcrete Operator; Pipe Layer on truck pipe lines in connection with highway work Relining Pipe; Mixer Man; Pipelayer; Hydro-broom

Group 4: Wagon Drills and Air Tracks; Jack Hammer Operators in Caissons over 12'; Bellers and Stemmen; Licensed Powdermen; Diamond and Core Drills powered by air.

Group 5: Any work, other than on bridges, performed by Laborers working from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws; Plugs and Galleys in Dams

LABORERS (Tunnels)

Group 1: Outside Labor

Group 2: Minimum Tunnel Labor, Dry Houseman

Group 3: Cable or Hose Tenders, Chuck Tenders, Concrete Laborers, Dumpmen, Whirley Pump Operator

Group 4: Helpers on Shotcrete, Gunniting and Sand Blasting; Helpers, Core and Diamond Drills; Pot Tenders

Group 5: Cement Finisher Helper, applying of concrete processing materials

Group 6: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Tunnel Liner Plate Setters; Vibrator Men, internal and external; Unloading, stopping and starting of Moran Agitator Cars; Diamond and Core Drill Operators; Cement Finisher (underground); Shotcrete Operator; Gunnite Nozzlemen, Sand Blasters, Pump Concrete placement Men

(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 1: Laborers, Topmen, Bottommen and Cagers

Group 2: Chucktenders, Concrete Laborers, Whirley Pump Operators

NOTICES

DECISION NO. CO75- 5104

LABORERS (Cont'd)
(SHAFTS, RAISES, MISSILE SILOS and all UNDERGROUND WORK OTHER THAN TUNNELS)

Group 3: Helpers in Shotcrete Gunniting and Sand Blasting; Helpers on Core and Diamond Drills; Pot Tenders; Cement Finisher Helpers; Applying of concrete processing material

Group 4: Collapsible form movers and setters, Miners, Machine Men and Bit Grinders, Nippers, Powdermen and Blasters, Reinforcing Steel Setters, Timbermen (Steel or wood tunnel support, including the placement of sheeting when required) and all cutting and welding that is incidental to the Miner's work; Liner Plate Setters; Vibrator Men, internal and external

Group 5: Diamond and Core Drill Operators; Cement Finisher (underground); Gunnite Nozzlemen; Shotcrete Operators; Sand Blasters and Pump Concrete Placement Men

Group 6: Any employee performing work underground from a Bos'n Chair, Swinging Stage, Life Belt or Block and Tackle as a safety requirement. All lines and safety belts used shall be of a type approved by State and Federal laws

NOTICES

POWER EQUIPMENT OPERATORS
(Other than for work in Tunnels, Shafts and Raises)

Group 1: Air Compressor; Asphalt Screed; Oiler; Brakeman; Drill Operator - Smaller than Williams MF and similar; Helper to Heavy Duty Mechanic and/or Welder; Operators of 5 or more light plants, Welding Machines, Generators, single unit conveyor; Pumps; Vacuum well point system; tractor, under 70 HP with or without attachments

Group 2: Conveyor, handling building materials; Ditch Witch and similar trenching machine; Fireman or tank heater, road; Forklift; Haulage motor man; Pugmill; portable screening plant with or without a spray bar; screening plants, with classifier; self-propelled Roller, Rubber tired under 5 tons;

Group 3: Asphalt Plant; Backfiller, Bituminous spreader or laydown machine; Cableway signalman; caisson drill; Williams MF, similar and larger; C.M.I. and similar; Concrete Batching Plants; Concrete finish Machine; Concrete Gang Saws on concrete paving; Concrete Mixer, less than 1 yd.; Concrete Placement Pumps, under 8 inches; Distributors, bituminous surfaces; Drill, diamond or core; Drill Rigs, rotary, churn, or cable tool; Elevating Graders, Equipment Lubricating and service Engineer; Engineer Fireman; Grout Machine; Gunnite Machine; Hoists, 1 drum; Hydraulic Backhoes, wheel mounted under 3/4 yd.; Loader, Barber Green, etc.; Loader up to and including 6 cu. yds.; Machine Doctor; Mechanic; Motor Grader/Blade, rough; Road Stabilization Machine; Rollers, self-propelled, all types over 5 tons; Sandblasting Machine; single unit portable crusher, with or without washer; tie tamper, wheel mounted; Tractor, 70 HP and over with or without attachments; Trenching Machine Operator; Welder; winch on truck

Group 4: Cable Operated crane, track mounted; cable operated power shovels, Draglines, Clamshells, and backhoes, 5 cu. yds. and under; Concrete Mixer over 1 cu. yd.; Concrete Paver 34E or similar; Concrete placement pumps, 8 inches and over; crane, 50 tons and under; Hoist, 2 drums; Hydraulic Backhoe, 3/4 yd. and over; Loader, over 6 cu. yds.; Mechanic-welder, heavy duty; Mixer mobile; Motor Grader/blade, finish; Multiple unit portable crusher, with or without washer; Piledriver; Scrapers, single bowl under 40 cu. yds.; Self-propelled Hydraulic Crane; tractor with sideboom; truck mounted Hydraulic Crane

Group 5: Cable Operated Power Shovels, Draglines, Clamshells and Backhoes over 5 cu. yds.; Crane, over 50 tons carrier mounted; Derrick; Electric rail type tower crane; Hoist, 3 drum or more; Quad Nine and similar push unit; Scrapers - single bowl including pups 40 cu. yds. and tandem bowls and over

Group 6: Cableway; Climbing tower Crane; Crawler or Truck Mounted Tower Crane; Wheel Excavator, Tower Crane, Truck type

POWER EQUIPMENT OPERATORS (Cont'd)
(for work in Tunnels, Shafts and Raises)

Group 1: Brakeman

Group 2: Motorman

Group 3: Compressor (900 CFM and over) serving Tunnels, Shafts and Raises

Group 4: Air Tractors; Grout Machine; Gunnite Machine; Jumbo Form; Mechanic; Welder

Group 5: Concrete Placement Pumps, 8" and over discharge; Mechanic-Welder, heavy duty; Mucking Machines and Front End Loaders, underground; Slusher; Mine Hoist Operator

Group 6: Mole

SUPERSEDEAS DECISION

DECISION NO. DE75-3066

CLASSIFICATIONS

Group 1 - Machines with booms doing hook work, any machine handling machinery, cable spinning machines, helicopter and similar machines

Group 2 - All types of cranes, all types of backhoes, cableways, draglines, keystones, all types of shovels, derricks, trench shovels, trenching machines, hoists, with 2 towers, pavers 21E and over, all types overhead cranes, building hoists (double drum), gradalls, mortor patrols (fine grade), mucking machines, in tunnel, all front end loaders 3-1/2 c.y., and over, tandem scrapers, pipin type backhoes, boat captains, batch plant operators (concrete), drills, self contained rotary drill, fork lifts (20' lift & over), and similar machines

Group 3 - Conveyors (except building), building hoist (single drum), scrapers, tournapulls, spreaders (asphalt), high or low pressure boilers, concrete pumps, well drillers, bulldozers, tractors, asphalt plant engineers, rollers (high grade finishing), ditch witch type trenchers, all loaders under 3-1/2 c.y., mechanic-welders, motorpatrols, core drill operator, forklift trucks under 20' lift, similar machines

Group 4 - Conveyors (building), concrete spreader, welding machines, well points, compressors, pumps, heaters, farm tractors, form line graders, fine grade machines, road finishing machines, concrete breaking machines, rollers, seaman pulverizing mixer, power broom, seeding spreader, fireman (for power equipment), and similar machines

Group 5 - Firemen, grease trucks

Group 6 - Oilers and deck hands (personnel boats), core drill helper

Group 7 - All machines with booms (including jibs, masts and leads)

PAID HOLIDAYS:

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E- Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contribution of 4% of the basic hourly rate for 5 years or more of service and 2% of the basic hourly rate for 6 months to 5 years of service for Vacation Pay Credit

b. Paid Holidays: A through F

c. Paid Holidays: Washington's Birthday, Good Friday, Memorial Day, Independence Day, Labor Day, Presidential Election Day, Veterans Day or Thanksgiving Day.

d. Paid Holidays: A through F; provided the employee is actively and currently employed by the employer at the time the holiday occure; provided the employee would otherwise be scheduled to work and would work on such day if it was not observed as a holiday; and provided the employee has worked under current working conditions the last regularly scheduled workday before, and the first regularly scheduled workday after the holiday.

DECISION NO. DE75-3066

FOOTNOTES: (Cont'd)

e. Paid Holiday: Labor Day provided the employee is currently on the payroll and would be scheduled to work the holiday also employee must work the day prior to end after the holiday.

f. Paid Holidays: A through F; provided the employee worked the scheduled work day preceeding and following the holiday.

g. Paid Holidays: A through F; plus Election Day provided the employee works the scheduled work day before end after the holiday.

h. Paid Holiday: Election Day.

| Group 4 | 7.05 | .40 | .40 | | .03 |

DECISION NO. IA75-4130

CLASSIFICATION DEFINITIONS

POWER EQUIPMENT OPERATORS

Group 1 - Cranes, including those being used as backhoe, dragline, clamshell, etc.; Tower cranes; Truck cranes and cherry pickers over 15 ton rated capacity; Derricks; Piledrivers and extractors; Caisson rigs; Side boom and winch truck used for erection of structural steel and moving and setting of heavy machinery; 3 drum hoist; Welders; Mechanics; Locomotive; Dredge (lavermen)

Group 2 - 1 and 2 drum hoists; Air and electric tuggers (on power plants or setting steel or grating); Economobiles; Plant mixers; Farm Type tractors (with loaders, backhoes attachments, etc.); Scrapers (townspull, etc.); Endloaders; Dredge (engineer); Side boom and winch truck other than Group No. 1; Motor patrol; Bulldozers; Push cat; Truck cranes and cherry pickers (15 tons and under); Concrete mixers (1 yard and over); Ditching machine (8" and over); Fork lifts (on steel erection and machinery moving or hoisting above one complete story); Concrete pump; Dewatering pumps; Temporary hoist cage operated; Second man on locomotive

Group 3 - Tractors (under 35 HP) with or without attachments; Endloaders (under 35 HP) with or without attachments; Air compressors (over 125 CFM); Pumps or combination thereof; Conveyors; Firemen (Boiler); Generator [illegible]; Gunnite machine; Self-propelled rollers; Stump chippers; Self-propelled tampers; Air and electric tuggers (other than above); Ditching machine under 8"

Group 4 - Oilers; Mechanical Heaters; Truck Crane Drivers; Permanent elevators

| HEAVY & HIGHWAY CONSTRUCTION: | Basic Hourly Rates | Fringe Benefits Payments | | | |
|---|---|---|---|---|---|
| | | H & W | Pensions | Vacation | App. Tr |
| CARPENTERS & PILEDRIVERMEN | $ 7.30 | .31 | | | |
| CEMENT MASONS | 6.86 | | | | |
| LABORERS: | | | | | |

| Group 2 | 6.35 | .30 | .10 | | |
| Group 3 | 6.10 | .30 | .10 | | |
| Group 4 | 5.95 | .30 | .10 | | |
| Group 5 | 5.85 | .30 | .10 | | |

DECISION NO. IA75-4130

CLASSIFICATION DEFINITIONS

LABORERS

Group 1 - Sandblasters; Powderman and Blaster; Pipe layer, sewer, water, telephone conduits, etc.; Sewer utility man; Gunnite nozzleman; Diamond and core drills, powered by air, all work performed by Laborers working from a boa'n chair, swing stage, life belt, tag line, or block and tackle; Drill operators of air tracs, wagon drills and similar drills

Group 2 - Tree climber; Form setters; Rakers; Box tenders; Asphalt curb machines; Potmen, not mechanical; Bull float, hand operated; Scalers; Timbermen; Underpinning and shoring; Caissons over 12'; Grade checker and cutting torches on demolition work

Group 3 - Power buggyman; Concrete and paving sawman; Form liner, expansion joint assembler; Bottom man; Caulker and jointer and painter; Timber and chain saw man; Mechanical grouters; boring machines; Automatic concrete power curbing machines; Stresser or stretcherman on post-tension or pre-stressed concrete on or off the job; Powderman helpers

Group 4 - Form tamper; Air, gas and electric tool operators, vibrators, barco hammer, paving breakers, spaders, tampers, electric drills, hammers and jack hammers; Tree groundmen; Chuck tenders; Drill helpers, tool room men and checkers; Sand blaster helper; Concrete processing material and monitors; Cement finishers helpers

Group 5 - Fence erectors; Handling and placing of metal mesh, dowel bars, reinforcing bars and chairs; Dumpmen and spotters; Carrying reinforcing rods; Corrugated culvert pipe; Concrete drainage pipe; Stake chaser, seeding, mulching and planting of trees, shrubs and flowers; Water boy; Common laborer; Rodmen; Tending to carpenters; Hot asphalt labor; Stringman on paving work

CONTINUED INSIDE

### PART II:

**WOMEN'S EDUCATIONAL EQUITY ACT PROGRAM**
HEW/OE proposed criteria for award of grants and contracts; comments by 9–25–75 ..... 33801

### PART III:

**PRIVACY ACT**
NTSB notice of proposed systems of records; comments by 9–2–75 ..... 33811

### PART IV:

**PRESIDENTIAL PRIMARY MATCHING FUNDS**
FEC interim guidelines concerning maintenance of records by candidates ..... 33815

VOL 40 NO 155 AUG 11 75

# reminders

(The items in this list were editorially compiled as an aid to FEDERAL REGISTER users. Inclusion or exclusion from this list has no legal significance. Since this list is intended as a reminder, it does not include effective dates that occur within 14 days of publication.)

### Rules Going Into Effect Today

DoT/FAA—Airworthiness directives; McDonnell Douglas Model DC–10 Series, Lockheed Model L–1011 Series, and Boeing Model B–747 Series .. 29269; 7–11–75

### List of Public Laws

This is a listing of public bills enacted by Congress and approved by the President, together with the law number, the date of approval, and the U.S. Statute citation. The list is kept current in each issue of the Federal Register and copies of the laws may be obtained from the U.S. Government Printing Office.

### List of Public Laws

H.R. 6219 ..... Pub. Law 94–73
An act to amend the Voting Rights Act of 1965 to extend certain provisions for an additional seven years, to make permanent the ban against certain prerequisites to voting, and for other purposes
(Aug. 6, 1975; 89 Stat. 400)

**ATTENTION: Questions, corrections, or requests for information regarding the contents of this issue only may be made by dialing 202–523–5282. For information on obtaining extra copies, please call 202–523–5240. To obtain advance information from recorded highlights of selected documents to appear in the next issue, dial 202–523–5022.**

federal register

Area Code 202 Phone 523–5240

Published daily, Monday through Friday (no publication on Saturdays, Sundays, or on official Federal holidays), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, under the Federal Register Act (49 Stat. 500, as amended; 44 U.S.C., Ch. 15) and the regulations of the Administrative Committee of the Federal Register (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER provides a uniform system for making available to the public regulations and legal notices issued by Federal agencies. These include Presidential proclamations and Executive orders and Federal agency documents having general applicability and legal effect, documents required to be published by Act of Congress and other Federal agency documents of public interest.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $5.00 per month or $45 per year, payable in advance. The charge for individual copies is 75 cents for each issue, or 75 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

# rules and regulations

This section of the FEDERAL REGISTER contains regulatory documents having general applicability and legal effect most of which are keyed to and codified in the Code of Federal Regulations, which is published under 50 titles pursuant to 44 U.S.C. 1510.
The Code of Federal Regulations is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

## Title 7—Agriculture

### CHAPTER I—AGRICULTURAL MARKETING SERVICE (STANDARDS, INSPECTION, MARKETING PRACTICES), DEPARTMENT OF AGRICULTURE

### PART 68—REGULATIONS AND STANDARDS FOR INSPECTION AND CERTIFICATION OF CERTAIN AGRICULTURAL COMMODITIES AND PRODUCTS THEREOF

#### Procedural Change in Removing Dockage From Rough Rice

The Agricultural Marketing Act of 1946, as amended, provides for the issuance by the Secretary of Agriculture of standards with respect to the quality, condition, quantity, grade, and packaging of agricultural commodities for the voluntary use by producers, merchandisers, processors, and consumers in the marketing of these commodities. An official grading service is provided under the Act upon request of the applicant and payment of a fee to cover the cost of the service.

Pursuant to sections 203 and 205 of the Act, 60 Stat. 1087 and 1090 (7 U.S.C. 1622 and 1624), notice is hereby given of a procedural change for the removal of dockage from rough rice. A proposal to amend the U.S. Standards for Rough Rice was published in the FEDERAL REGISTER of August 12, 1974 (39 FR 28896) and contained in the statement of considerations a discussion of the procedural change for removing dockage from rough rice. This change provided for discontinuing the use in the bottom carriage of the dockage tester of the No. 22 (3 7/8/64 inch x ½ inch slotted hole) sieve for long-grain rice and of the No. 4 (.064 inch x ⅜ inch oblong hole) sieve for medium and short grain rice. This change was made in expectation that the small weed seeds normally removed with screenings and brewers rice in the milling process would be removed by the No. 6 sizing plates used in the grading process. The proposed amendment of the U.S. Standards for Rough Rice, published in the FEDERAL REGISTER of March 6, 1975 (40 FR 10472), was adopted and became effective June 1, 1975.

Some samples of old crop rice have been tested since the amended U.S. Standards for Rough Rice became effective and it is apparent that the use of the rice sizing device and the No. 6 plate does not consistently remove seeds that are smaller than whole kernels and large broken kernels. The small seeds remaining in the samples can be removed readily in the commercial cleaning process and should be removed in the laboratory cleaning of rough rice and considered as dockage. Therefore, the Department has decided, in view of the public interest and the nearness of the new crop, to reinstate immediately the use of the applicable No. 22 or No. 4 sieve in the procedure for removing dockage from rough rice.

This procedural change will be specified in detail in "Inspection Handbook HB 918–11," which is available upon request from the Grain Division, Agricultural Marketing Service, U.S. Department of Agriculture, 6525 Belcrest Road, Hyattsville, Maryland 20782.

Rulemaking procedures were not considered necessary because the method of determining dockage is a laboratory procedural change and not a change in the U.S. Standards for Rough Rice.

*Effective date.* The procedural change in removing dockage from rough rice shall become effective August 11, 1975.

Done at Washington, D.C., on August 5, 1975.

WILLIAM H. WALKER III,
*Acting Administrator.*

### CHAPTER IX—AGRICULTURAL MARKETING SERVICE (MARKETING AGREEMENTS AND ORDERS; FRUITS, VEGETABLES, NUTS), DEPARTMENT OF AGRICULTURE

### PART 958—ONIONS GROWN IN DESIGNATED COUNTIES IN IDAHO AND MALHEUR COUNTY, OREGON

#### Expenses and Rate of Assessment

This document authorizes the Idaho-Eastern Oregon Onion Committee to spend $196,781 for its operations during the fiscal period ending June 30, 1976, and to collect $0.045 per hundredweight on assessable onions handled by first handlers to defray such expenses.

The committee is the administrative agency established under Marketing Agreement No. 130 and Order No. 958, both as amended (7 CFR Part 958), regulating the handling of onions grown in Idaho and Malheur County, Oregon. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

Notice was published in the July 18 FEDERAL REGISTER (40 FR 30277) regarding the proposals. It afforded interested persons an opportunity to file written comments not later than August 4, 1975. None was filed.

After consideration of all relevant matters, including the proposals in the notice, it is found that the following expenses and rate of assessment should be approved.

It is further found that good cause exists for not postponing the effective date of this section until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) because this part requires that the rate of assessment for a particular fiscal period shall apply to all assessable onions from the beginning of such period.

The regulation follows:

**§ 958.219 Expenses and rate of assessment.**

(a) The reasonable expenses that are likely to be incurred during the fiscal period ending June 30, 1976, by the Idaho-Eastern Oregon Onion Committee for its maintenance and functioning and for such other purposes as the Secretary determines to be appropriate will amount to $196,781.

(b) The rate of assessment to be paid by each handler in accordance with this part shall be $0.045 per hundredweight, or equivalent quantity, of assessable onions handled by him as the first handler during the fiscal period.

(c) Unexpended income in excess of expenses for the fiscal period may be carried over as a reserve to the extent authorized in § 958.44.

(d) Terms used in this section shall have the same meaning as when used in the marketing agreement and this part.

(Secs. 1–19, 48 Stat. 31, as amended; (7 U.S.C. 601–6734))

Dated: August 5, 1975.

D. S. KURYLOSKI,
*Acting Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.*

[FR Doc.75–20807 Filed 8–8–75;8:45 am]

---

## Title 9—Animals and Animal Products

### CHAPTER I—ANIMAL AND PLANT HEALTH INSPECTION SERVICE, DEPARTMENT OF AGRICULTURE

### SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

### PART 92—IMPORTATION OF CERTAIN ANIMALS AND POULTRY AND CERTAIN ANIMAL AND POULTRY PRODUCTS; INSPECTION AND OTHER REQUIREMENTS FOR CERTAIN MEANS OF CONVEYANCES AND SHIPPING CONTAINERS THEREON

#### Importation of Birds and Performing or Theatrical Poultry

These amendments to the regulations in Part 92 are needed to provide an alternate means whereby small shipments of zoological birds can be more readily handled by permitting the quarantine of such birds at USDA quarantine facilities; to provide greater flexibility in time allowed importers to arrange shipping schedules by extending the time periods within which importations must

be made after permits for certain types of birds are issued; and to define zoological birds, research birds, and performing or theatrical birds and to clarify the regulations pertaining to the importation of each as defined.

*Statement of considerations.* The purposes of these amendments are to (1) add a definition of zoological birds and provide an alternative for their quarantine in USDA quarantine facilities upon advance approval because frequently small lots of rare species which require special care and handling during quarantine are involved and such care cannot always be provided by privately-owned quarantine facilities; (2) add a definition of "performing or theatrical birds" and "performing or theatrical poultry" and extend the time specified in permits issued for such theatrical birds and poultry from 14 to 90 days and to relieve quarantine requirements in order to allow flexibility which is required and is justified by the manner in which birds and poultry of this type are handled and maintained; (3) extend the time periods specified in permits issued for commercial, zoological, and for research birds from 14 to 30 days to allow importers greater flexibility in meeting international shipping schedules and restrictions. For purposes of clarification and in order to coordinate the changes made by these amendments with the existing regulations the terms "research birds" and "zoological park" are defined, and the terms "pet birds" and "commercial birds" are redefined.

A new § 92.2(h) has been added to clarify the intent of the amendment that performing or theatrical poultry shall be regulated under the provisions in this part regarding performing or theatrical birds and not under the provisions dealing with poultry generally.

Accordingly, Part 92, Title 9, Code of Federal Regulations is amended in the following respects:

1. In § 92.1 paragraphs (j)(2) (i) and (ii) are revised and new paragraphs (j)(2)(iii), (iv), (v), and (t) are added to read:

**§ 92.1 Definitions.**

* * * * *

(j) * * *

(2) * * *

(i) *Pet birds.* Birds which are imported for the personal pleasure of their individual owners and are not intended for resale.

(ii) *Commercial birds.* Birds which are imported for resale, breeding, public display, or any other purpose, except pet birds, zoological birds, research birds, or performing or theatrical birds.

(iii) *Zoological birds.* Birds intended for breeding or public display, for recreational or educational purposes, at a zoological park.

(iv) *Research birds.* Birds which are to be used for research purposes only.

(v) *Performing or theatrical birds and poultry.* Birds and poultry which are to be used in shows, theatrical acts or performances only.

* * * * *

(t) *Zoological park.* A professionally operated zoo, park, garden or other place, maintained under the constant surveillance of a Doctor of Veterinary Medicine, for the exhibition of live animals, pigeons or birds, for the purpose of public recreation or education.

2. In § 92.2, paragraph (f) is amended, and new paragraphs (g) and (h) are added to read:

**§ 92.2 General prohibitions; exceptions.**

* * * * *

(f) Commercial birds, zoological birds, or research birds may be imported into the United States if they meet the requirements of §§ 92.3(f), 92.4, 92.5(c), 92.8(b), and 92.11(e) which specifically apply to such birds and the requirements of all other sections in this part that are applicable to poultry or to animals generally.

(g) Performing or theatrical birds and performing or theatrical poultry may be imported at any of the ports of entry listed in § 92.3 if accompanied by an import permit as required by § 92.4 and such birds or poultry are found upon port of entry veterinary inspection to be free of communicable diseases of poultry.

(h) The provisions in this part relating to poultry shall not be applicable to performing or theatrical poultry; however, the provisions in this part applicable to performing or theatrical birds shall be applicable to performing or theatrical poultry.

3. In § 92.3, paragraph (f) is revised to read:

**§ 92.3 Ports designated for the importation of animals.**

* * * * *

(f) Notwithstanding any other provisions of this section, all commercial birds, zoological birds, or research birds shall be imported only at a port of entry specified in § 92.8(b).

4. The section heading of § 92.4, and the third sentence in paragraph (b) are amended to read:

**§ 92.4 Import permits for ruminants, swine, poultry, commercial birds, zoological birds, research birds, performing or theatrical birds, or performing or theatrical poultry.***

* * * * *

(b) * * * Animals and animal semen for which a permit has been issued will be received at the specified port of entry within the time prescribed in the permit which shall not exceed 14 days for all permits except that the time prescribed in permits issued for the importation of commercial birds, zoological birds, or research birds shall not exceed 30 days, and for performing or theatrical birds or poultry shall not exceed 90 days. All permits issued shall be void after expiration of the time prescribed in the permit. * * *

* * * * *

* Text of footnote 6 appears as part of the existing section heading on page 154 of the 1975 Revision of 9 CFR Ch 1.

**§ 92.5 [Amended]**

5. In § 92.5, paragraph (c) is amended by inserting the phrase ", zoological birds and research birds" in the first line of the paragraph immediately following the words "All commercial birds"; and the section heading is amended to read:

**§ 92.5 Certificate for ruminants, swine, poultry, commercial birds, zoological birds, and research birds.**

* * * * *

**§ 92.8 [Amended]**

6. In § 92.8, paragraph (b) is amended by inserting the phrase ", zoological birds and research birds" in the first line of the paragraph immediately after the words "All commercial birds".

7. In § 92.11, in paragraph (e) the first sentence is amended to read:

**§ 92.11 Quarantine requirements.**

* * * * *

(e) *Birds.* Each lot of commercial birds, zoological birds or research birds imported from any part of the world shall be quarantined for a minimum of 30 days, and for such longer period as may be required by the Deputy Administrator, Veterinary Services, in any specific case, on an "all-in, all-out" basis, at one of the ports of entry specified in § 92.8(b) in facilities which are provided by the importer and which have been approved by the Deputy Administrator as provided in paragraph (f) of this section, prior to the issuance of the import permit described in § 92.4 *Except that* zoological birds may be quarantined at a USDA quarantine facility when arrangements have been made in advance by the importer and approval is granted in the permit. * * *

* * * * *

(Sec. 2, 32 Stat. 792, as amended; 2, 3, 4, and 11, 76 Stat. 129, 130, 132; 21 U.S.C. 111, 134a, 134b, 134c, and 134f; 37 FR 28464, 28477; 38 FR 19141.)

*Effective date.* The foregoing amendments shall become effective August 11, 1975.

The amendments relieve certain restrictions no longer deemed necessary to prevent the introduction and spread of poultry disease, and must be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 6th day of August 1975.

PIERRE A. CHALOUX,
*Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.*

[FR Doc.75-20943 Filed 8-8-75;8:45 am]

## Title 10—Energy

## CHAPTER I—NUCLEAR REGULATORY COMMISSION

## PART 70—SPECIAL NUCLEAR MATERIAL

### Measurement Control Program for Special Nuclear Materials Control and Accounting

On October 31, 1974, the Atomic Energy Commission published in the FEDERAL REGISTER (39 FR 38392) proposed amendments to its regulations in 10 CFR Part 70 which would specify criteria for a measurement control program which would be required to be established and maintained by each licensee which is authorized to possess, at any one time and place, more than one effective kilogram of special nuclear material in unsealed form. Interested parties were invited to submit comments and suggestions for consideration in connection with the proposed amendments within 60 days after publication in the FEDERAL REGISTER. Upon consideration of the comments received, and other factors involved, the Commission has adopted the proposed amendments with certain modifications as set forth below.

Differences from the proposed amendments published for comment are: (1) Additions to and clarifications of the definitions contained in § 70.57(a); (2) rewording of the requirement for management reviews and audits so as not to exclude the use of an independent audit organization or of corporate auditors; (3) clarification of licensees' responsibilities to assure the quality of measurements performed by a contractor; (4) clarification of the requirement to identify and control sampling errors; (5) simplification of the requirement to provide management review and approval of procedures which pertain to the measurement control system; (6) clarification of the requirement to perform quality control engineering analyses of all measurement systems; (7) clarification of the requirement to establish traceability of measurements to the National Bureau of Standards; (8) deletion of the requirement to determine sources of analytical error such as between-operator, between-equipment and between-shift; (9) clarification of the provision allowing the combining of historical and current material control and accounting data; and (10) revision of the requirement to establish a statistical control system. In addition, editorial changes were made.

The following discussion pertains to the respective items (1) through (10) above:

(1) Comments suggested that § 70.57(a) be expanded to include more definitions, and that some of the proposed definitions be modified. The rule set forth below contains additional definitions. Some of the proposed definitions were modified to more accurately convey the Commission's meaning with respect to the requirements of § 70.57(b).

(2) The proposed rule would have restricted the performance of audits and reviews to "trained personnel." This implied that only licensee employees could be used for this function. The revised rule allows the performance of audits and reviews by any trained individuals who are independent of responsibility for the receipt, custody, utilization, measurement, measurement quality, and shipment of special nuclear material.

(3) The question was raised as to the need for having contractors which provide measurement services meet all of the requirements of § 70.57(b). The rule set forth below excludes those portions of § 70.57(b) which are not applicable to licensee measurement contractors.

(4) The proposed rule stated that measurements, by definition, include sampling and that measurements must be traceable to certified standards. Comments suggested that in many cases certified standards are not available for performing sampling studies. Therefore, the requirement to perform mixing and sampling tests, set forth below in § 70.57(b)(4) has been modified to permit licensees to perform such tests with well characterized special nuclear materials.

(5) The proposed rule would have required the review and approval of measurement control system procedures by management personnel whose direct responsibilities could be affected by the quality of material control and accounting measurements. Comments suggested that the determination of those management personnel having such responsibility was subject to various interpretations. The rule set forth below requires only that measurement control system procedures be reviewed and approved.

(6) The proposed rule would have required that engineering analyses and evaluations be performed on measurement systems. The rule further required that said analyses and evaluations be reviewed annually to assure the continued reliability of the system. Comments indicated some misinterpretation as to the scope of said annual reviews. Comments also suggested that said annual review was redundant with the annual management review and audit required in § 70.57(b)(2). The rule set forth below requires engineering analyses and evaluations initially for all measurement systems, and thereafter whenever a significant change occurs in a component of a measurement system.

(7) Comments suggested that in certain cases measurements could not be traced directly to a certified standard because such standards are not available for each measurement method for each type of material. The rule set forth below resolves this difficulty by allowing traceability through the use of reference standards as defined in § 70.57(a).

(8) The proposed rule would have required that sources of analytical error such as between-operator, between-equipment, and between-shift be determined. Industry has suggested that the training program required in § 70.57(b)(7), as set forth below, should reduce such sources of error to an insignificant level. Also, as long as the total analytical error is controlled, that it is unnecessary to isolate individual sources of analytical error. Further, comments indicated that the cost of isolation of such sources of error would greatly outweigh the diagnostic benefits. The rule set forth below has been modified to delete the requirement to isolate such sources of analytical error.

(9) The proposed rule would have allowed under certain conditions, that material control and accounting data from the current material balance period could be combined with historical data. Comments suggested that this provision be made more definitive. The rule set forth below clarifies the requirements for the combining of data sets.

(10) Comments suggested that discarding all data which exceed control limits would (i) result in the loss of some valid measurement points, and (ii) artificially narrow the confidence band. The rule set forth below provides one set of limits for the investigation of suspect data, and another set of limits for establishing that a measurement system is out-of-control.

Pursuant to the Atomic Energy Act of 1954, as amended, the Energy Reorganization Act of 1974, and sections 552 and 553 of Title 5 of the United States Code, the following amendments of Title 10, Chapter I, Code of Federal Regulations, Part 70 are published as a document subject to codification.

1. Paragraph (c) of § 70.32 is amended to read as follows:

**§ 70.32 Conditions of licenses.**

* * * * *

(c) Each license authorizing the possession at any one time and location of special nuclear material in a quantity exceeding one effective kilogram of special nuclear material and the use of such special nuclear material except those uses involved in the operation of a nuclear reactor licensed pursuant to Part 50 of this chapter and those involved in a waste disposal operation and in sealed sources, shall contain and be subject to a condition requiring the licensee to maintain and follow (1) the program for control and accounting for special nuclear material and fundamental material controls described pursuant to § 70.22(b) or § 70.58(1), (2) the measurement control program for special nuclear materials control and accounting described pursuant to § 70.57(c), and (3) such other material control procedures as the Commission determines to be essential for the safeguarding of special nuclear material and providing that the licensee shall make no change which would decrease the effectiveness of the material control and accounting program prepared pursuant to §§ 70.22(b), 70.58(1), or 70.51(g), and the measurement control program prepared pursuant to § 70.57(c) without the prior approval of the

VOL 40 NO 155 AUG 11 75 XU

Commission. A licensee desiring to make such changes shall submit an application for amendment to his license pursuant to § 70.34. The licensee shall maintain records of changes to the material control and accounting program made without prior Commission approval and shall furnish to the Commission a report containing a description of each change within:

(1) Two months of the change if it pertains to uranium-233, uranium-235 contained in uranium enriched 20 percent or more in the uranium-235 isotope, or plutonium, except plutonium containing 80 percent or more by weight of the isotope Pu-238, and

(2) Six months of the change if it pertains to uranium enriched less than 20 percent in the uranium-235 isotope, or plutonium containing 80 percent or more by weight of the isotope Pu-238.

• • • • •

3. A new § 70.57 is added to read as follows:

**§ 70.57 Measurement control program for special nuclear materials control and accounting.**[1]

(a) As used in this section:

(1) "Measurement" includes sampling and means the determination of mass, volume, quantity, composition or other property of a material where such determinations are used for special nuclear material control and accounting purposes.

(2) "Measurement system" means all of the apparatus, equipment, instruments and procedures used in performing a measurement.

(3) "Reference standard" means a material, device, or instrument whose assigned value is known relative to national standards or nationally accepted measurement systems.

(4) "Traceability" means the ability to relate individual measurement results to national standards or nationally accepted measurement systems through an unbroken chain of comparisons.

(5) "Random error" is the chance variation encountered in all measurement work, characterized by the random occurrence of both positive and negative deviations from a mean value, the algebraic average of which approaches zero with a sufficiently large number of measurements.

(6) A "systematic error" is a constant undirectional component of error that affects all members of a data set; its value can, in some instances, be estimated by the deviation of the mean of a measurement process from a reference value. A systematic error whose value has been determined in this manner is called a bias, whose effect can be corrected for.

(7) "Uncertainty" is the extent to which a measurement result is in doubt because of the effects of random error variances and the limits of systematic errors associated with a measurement process, after the measurements result has been corrected for bias.

(8) "Calibration" means the process of determining the numerical relationship between the observed output of a measurement system and the value, based upon reference standards, of the characteristics being measured.

(b) In accordance with § 70.58(f), each licensee who is authorized to possess at any one time and location special nuclear material in a quantity exceeding one effective kilogram and to use such special nuclear material for activities other than those involved in the operation of a nuclear reactor licensed pursuant to Part 50 of this chapter, those involved in a waste disposal operation, or as sealed sources, shall establish and maintain a measurement control program for special nuclear materials control and accounting measurements. Each program function shall be identified and assigned in the licensee organization in accordance with § 70.58(b)(2), and functional and organizational relationships shall be set forth in writing in accordance with § 70.58(b)(3). The program shall be described in a manual which shall contain the procedures, instructions, and forms prepared to meet the requirements of this paragraph, including procedures for the preparation, review, approval, and prompt dissemination of any program modifications or changes. The licensee's program shall include the following:

(1) The licensee shall assign responsibility for planning, developing, coordinating, and administering the program to an individual in his organization who has no direct responsibilities for the operation of the analytical laboratory or for the processing of material, holds a position at an organizational level which will permit independence of action and objectivity of decision and has authority to obtain all the information required to monitor and evaluate measurement quality as required by this section.

(2) Provisions shall be made for management reviews to determine the adequacy of the program and to assess the applicability of current procedures and for planned audits to verify conformance with all aspects of the program. These reviews and audits shall be performed at intervals not to exceed 12 months. Audits and reviews shall be performed by trained individuals independent of direct responsibility for the receipt, custody, utilization, measurement, measurement quality and shipment of special nuclear material. The results of reviews and audits shall be recorded and reported to licensee management.

(3) The licensee shall assure that any person who contracts to perform materials control and accounting measurement services conforms with applicable requirements of paragraphs (4) through (8) and (10) through (12) of § 70.57(b). Conformance shall include reporting by the contractor of sufficient error data to allow the licensee to calculate bias corrections and measurement limits of error. All statistical studies shall be reported or referenced in the measurement report submitted to the licensee, who shall have access to the contractor's supporting control data. The licensee shall perform reviews to determine the adequacy of the contractor's program and audits to verify conformance with all aspects of the program. Reviews and audits shall be performed at intervals not to exceed 12 months. Results shall be documented and reported to licensee management.

(4) In order to assure that potential sources of sampling error are identified and that samples are representative, process and engineering tests shall be performed using well characterized materials to establish or to verify the applicability of existing procedures for mixing and for sampling special nuclear materials and for maintaining sample integrity during transport and storage. The program shall assure that such procedures are maintained and followed, and that sampling is included in the procedures for estimating biases, limits for systematic errors, and random error variances.

(5) The program shall include provisions for the review and approval, before use, of written procedures for:

(i) Preparing or acquiring, maintaining, storing and using reference standards,

(ii) Calibrating measurement systems, performing bulk measurements, obtaining samples, and performing compositional analyses,

(iii) Recording, analyzing and reporting the program data and information, and

(iv) Controlling measurement performance.

(6) To assure the adequacy of each measurement system with respect to process flows, sampling and measurement points, and nominal material compositions, engineering analyses and evaluations shall be made of the design, installation, preoperational tests, calibration, and the operation of each system. Such analyses and evaluations shall be repeated whenever a significant change is made in any component of a system. The results of these analyses and evaluations shall be recorded.

(7) Procedures and performance criteria shall be established for the training, qualifying, and periodic requalifying of all personnel who perform sampling and measurements for materials control and accounting purposes. Qualification results shall be recorded.

(8) The program shall generate current data on the performance of measuring processes, including, as appropriate, values for bias corrections and their uncertainties, random error variances, limits for systematic errors, and other parameters needed to establish the uncertainty of measurements pertaining to materials control and accounting. The program data shall reflect the current process and measurement conditions existing at the time the control measurements are made. Measurements which are not controlled by the program shall not be used for materials control or for accounting purposes. The program shall include:

(i) The ongoing use of standards for calibration and control of all applicable measurement systems. Calibrations shall be repeated whenever any significant change occurs in a measurement system or when program data, generated by tests performed at a predetermined frequency, indicate a need for recalibration. Calibrations and tests shall be based upon reference standards.

(ii) A system of control measurements to provide current data for the determination of random error behavior. On a predetermined schedule, the system shall include the replicate analysis of process samples, the replicate weight or volume measurement of bulk quantities of material, and the analysis of replicate process samples.

(9) The program data generated during the current material balance period shall be used for the determination of the limit of error of the plant material balance. Measurement error data collected and used during immediately preceding material balance periods may be combined with current data provided that the measurements are in statistical control, i.e., when repeated samples from the portion of the measurement system under test behave as random samples from a stable probability distribution. Under such conditions, data sets may be combined provided that the parameter estimates based on the current set of data and the previous set of data are not significantly different on the basis of appropriate statistical tests performed at a level of significance of 0.05.

(10) The licensee shall evaluate with appropriate statistical methods all program data and information, and relevant process data used to establish bias corrections and their associated uncertainties, random error variances, limits for systematic error, and other parameters pertaining to special nuclear materials control and accounting measurements, and to control measurement performance pursuant to § 70.58(f). Bias corrections shall be made by an appropriate statistical procedure.

(11) The licensee shall establish and maintain a statistical control system, including control charts and formal statistical procedures, designed to monitor the quality of each type of program measurement. Control chart limits shall be established to be equivalent to levels of significance of 0.05 and 0.001. Whenever control data exceed the 0.05 control limits, the licensee shall investigate the condition and take corrective action in a timely manner. The results of these investigations and actions shall be recorded. Whenever the control data exceed the 0.001 control limits, the measurement system which generated the data shall not be used for material control and accounting purposes until the deficiency has been corrected and the system has been brought into control at the 0.05 control level.

(12) A records system shall be provided in which all data, information, reports, and documents generated by the program shall be retained for five years, except for those records pertaining to the training and qualification of personnel who perform measurement activities pursuant to § 70.57(b)(7). Those records shall be retained for two years. Records shall include a summary of the error data utilized in the limit of error calculations performed for each material balance period. The records system shall be organized for efficient retrieval of program information. Each reported result shall be readily relatable to the original measurement data and to all relevant measurement control information, including pertinent calibration data. Records shall be available for NRC inspection.

(c) Applicants and licensees subject to the provisions of paragraph (b) of this section shall submit to the Commission for approval a detailed plan describing the program that will be used to comply with said provisions. The plan submitted shall include the identification of those measurements to be contracted and shall describe the steps the licensee shall take to assure the adequacy of such procedures. Licensee's plans shall be submitted on or before November 11, 1975.

(d) Licensees subject to the provisions of paragraph (b) of this section shall follow the plans submitted pursuant to paragraph (c) of this section after May 11, 1976 or thirty days after the submitted plan is approved by the NRC whichever is later. After May 11, 1976, an applicant subject to the provisions of paragraph (b) of this section shall immediately implement his plan, submitted pursuant to paragraph (c) of this section, following incorporation of said plan as a condition of license.

2. Paragraph (f) of § 70.58 is amended to read as follows:

**§ 70.58 Fundamental nuclear material controls.**[2]

• • • • •

(f) A program shall be established, maintained, and followed pursuant to § 70.57(b) for the continuing determination and control of the systematic and random errors of measurement processes at a level commensurate with the requirements of § 70.51(e)(5).

• • • • •

Effective date. The foregoing amendments become effective September 11, 1975.

(Secs. 53, 161, Pub. L. 83-703, 68 Stat. 930, 948 (42 U.S.C. 2073, 2201).

Dated at Washington, D.C. this 31st day of July, 1975.

For the Nuclear Regulatory Commission.

SAMUEL J. CHILK,
*Secretary of the Commission.*

**Title 14—Aeronautics and Space**

[Docket No. 75-SO-92; Amdt. 39-2326]

**CHAPTER I—FEDERAL AVIATION ADMINISTRATION**

**PART 39—AIRWORTHINESS DIRECTIVES**

**The Balloon Works Firefly Series Hot Air Balloons**

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on July 23 and made effective immediately to all known United States operators of The Ballon Works Hot Air Balloons, Models Firefly 6, 6B, and 7. The directive requires safety wiring of the Rego blast valve to the burner bottom plate prior to further flight and replacement of brass nipple in the burner assembly within the next five hours time in from the effective date of this AD.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impractical and contrary to the public interest, and good cause existed for making the airworthiness directive effective immediately to all known U.S. operators of The Balloon Works Firefly series balloons by individual airmail letter dated July 23, 1975. These conditions still exist, and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons:

BALLOON WORKS, HOT AIR BALLOONS: Applies to Models Firefly 6, 6B, and 7 with burner S/N 510 through 562.

Before next flight, accomplish the following or an equivalent approved by the Chief, Engineering and Manufacturing Branch, Southern Region.

To avoid separation due to a possible brass nipple failure, install safety wire extending from each of the three corners of the bottom plate to the lower portion of the upper Rego valve body. Assure wires are uniformly tightened.

Within the next five hours of time in service from the effective date of this AD, accomplish the following:

1. Disconnect main burner tubes from manifold.
2. Drill out nine rivets holding pan to the bottom plate.
3. Unhook three burner support springs.
4. Remove upper burner assembly from lower burner assembly.
5. Unscrew nuts to remove pilot light tubes.
6. Clamp square section of Rego valve in vise.
7. Unscrew and remove burner manifold.
8. Inspect nipple. If nipple is steel, reassemble the burner,[1] if nipple is brass, proceed through the following steps.
9. Unscrew nipple with pipe wrench.
10. Replace brass nipple with steel nipple,[1] Balloon Works P/N A4032B.
11. Reassemble in the reverse order.

Safety wire is not required after steel nipple is installed.

This amendment is effective August 13, 1975, and was effective on receipt for all recipients of the air mail letter dated July 23, 1975 which contained this amendment.

[1] Use teflon tape or pipe dope type sealant on nipple threads.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Georgia, on July 30, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20802 Filed 8-8-75;8:45 am]

[Docket No. 75-SO-93; Amdt. 39-2325]

## PART 39—AIRWORTHINESS DIRECTIVES

### Lockheed Model 382 Series Airplanes

Pursuant to the authority delegated to me by the Administrator (31 FR 13697), an airworthiness directive was adopted on July 25 and made effective immediately to all known United States operators of Lockheed Model 382 series aircraft. The directive requires checking of the propeller torque before further flight.

Since it was found that immediate corrective action was required, notice and public procedure thereon were impractical and contrary to the public interest, and good cause existed for making the airworthiness directive effective immediately to all known U.S. operators of Lockheed Model 382 series airplanes by individual telegrams dated July 25, 1975. These conditions still exist, and the airworthiness directive is hereby published in the FEDERAL REGISTER as an amendment to § 39.13 of Part 39 of the Federal Aviation Regulations to make it effective to all persons: There has been a failure of the propeller to move out of the beta range which can result in asymmetric thrust.

LOCKHEED: Applies to all Model 382 series airplanes through serial number 4610. Before further flight, unless already accomplished, perform the propeller torque check in accordance with Lockheed Alert Service Bulletin A382-190. If the propellers do not pass the torque check, replace the propeller control with a control that will pass the above operational check prior to further flight.

This amendment is effective August 13, 1975, and was effective on receipt for all recipients of the telegram dated July 25, 1975 which contained this amendment.

The manufacturer's specifications and procedures identified and described in this directive are incorporated herein and made a part hereof pursuant to 5 U.S.C. 552(a)(1). All persons affected by this directive who have not already received these documents from the manufacturer may obtain copies upon request to Lockheed-Georgia Company, Marietta, Georgia 30063. These documents may also be examined at FAA Southern Region Office, 3400 Whipple Street, East Point, Georgia, and at FAA headquarters, 800 Independence Avenue, SW, Washington, D.C. A historical file on this AD which includes the incorporated material in full is maintained by the FAA at its headquarters in Washington, D.C., and at the Southern Region Office, Atlanta, Georgia.

This amendment is made under the authority of sections 313(a), 601, and 603 of the Federal Aviation Act of 1958 (49 U.S.C. 1354(a), 1421, and 1423) of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

The incorporation by reference provisions in this document was approved by the Director of the FEDERAL REGISTER on June 19, 1967.

Issued in East Point, Georgia, on July 30, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[Airspace Docket No. 75-SO-26]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

On March 21, 1975, a Notice of Proposed Rulemaking was published in the FEDERAL REGISTER (40 FR 12810), stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the Jackson, Miss., transition area.

Interested persons were afforded an opportunity to participate in the rulemaking through the submission of comments. There were no comments received.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, October 9, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441, the Jackson, Miss., transition area is amended as follows:

". . . north of the runway end . . ." would be deleted and ". . . north of the runway end; within 3 miles each side of the 017° bearing from the Bruce RBN (Lat. 32°26'28" N., Long. 90°06'19" W.), extending from the 5.5-mile radius area to 8.5 miles north of the RBN . . ." would be substituted therefor.

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on August 1, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20609 Filed 8-8-75;8:45 am]

[Airspace Docket No. 75-SO-55]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Amendment to "Federal Register" Document

On July 24, 1975, FEDERAL REGISTER Document No. 75-19292 was published in the FEDERAL REGISTER (40 FR 30933), amending Part 71 of the Federal Aviation Regulations by altering the Brunswick, Ga., transition area.

In the amendment, the effective date was published as October 9, 1975. Subsequently, it was determined that the instrument approach procedure, necessitating the alteration, would be published on September 4, 1975. As there is an immediate need for the instrument approach procedure, action is taken herein to amend the effective date of the alteration of the transition area. Since this amendment is editorial in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, effective immediately, FEDERAL REGISTER Document No. 75-19292 is amended as follows:

In line sixteen of the Brunswick, Ga., transition area description ". . . October 9, 1975 . . ." is deleted and ". . . September 4, 1975 . . ." is substituted therefor.

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on August 1, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20606 Filed 8-8-75;8:45 am]

[Airspace Docket No. 75-SO-88]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Sumter, S.C., transition area.

The Sumter transition area is described in § 71.181 (40 FR 441). In the description, an extension is predicated on the Shaw AFB ILS OM. The United States Air Force plans to decommission the OM on August 14, 1975, therefore, it is necessary to alter the description by deleting reference to the OM. Since this amendment is editorial in nature, notice and public procedure thereon are necessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, August 14, 1975, as hereinafter set forth.

In § 71.181 (40 FR 441) the Sumter, S.C., transition area is amended as follows:

". . . ILS localizer southwest course, extending from the 8.5-mile radius area to 13.5 miles southwest of the OM . . ." is deleted and ". . . TACAN 215° radial, extending from the 8.5-mile radius to 21.5 miles southwest of the TACAN . . ." is substituted therefor.

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on August 1, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20607 Filed 8-8-75;8:45 am]

[Airspace Docket No. 75-SO-89]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

### Alteration of Control Zone and Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to alter the Goldsboro, N.C., control zone and transition area.

The Goldsboro control zone is described in § 71.171 (40 FR 354) and the Goldsboro transition area is described in § 71.181 (40 FR 441). In each description, an extension is predicated on the Seymour-Johnson OM. The United States Air Force plans to decommission the OM on October 9, 1975; therefore, it is necessary to alter the descriptions by deleting reference to the OM. In addition the transition area description contains two extensions which are predicated on the Seymour-Johnson TACAN. These extensions are no longer required, and it is necessary to delete them from the description. Since these amendments are less restrictive in nature, notice and public procedure thereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended, effective 0901 GMT, October 9, 1975, as hereinafter set forth.

In § 71.171 (40 FR 354), the Goldsboro, N.C., control zone is amended as follows:

". . . TACAN; within 2 miles each side of the ILS localizer west course, extending from the 5-mile radius zone to 1 mile east of the LOM . . ." is deleted and ". . . TACAN . . ." is substituted therefor.

In § 71.181 (40 F.R. 441), the Goldsboro, N.C., transition area is amended to read:

GOLDSBORO, N.C.

That airspace extending upward from 700 feet above the surface within a 9-mile radius of Seymour-Johnson AFB (Lat. 35°20'20" N., Long. 77°57'50" W.: within a 6.5-mile radius of Goldsboro-Wayne Municipal Airport (Lat. 35°27'30" N., Long. 77°58'00" W.).

This amendment is made under the authority of sec. 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and of sec. 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in East Point, Ga., on August 1, 1975.

PHILLIP M. SWATEK,
*Director, Southern Region.*

[FR Doc.75-20608 Filed 8-8-75;8:45 am]

[Airspace Docket No. 74-NW-14]

## PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

## PART 73—SPECIAL USE AIRSPACE

### Alteration of Restricted Area

On March 12, 1975, a Notice of Proposed Rule Making (NPRM) was published in the FEDERAL REGISTER (40 FR 11597) stating that the Federal Aviation Administration (FAA) was considering amendments to Parts 71 and 73 of the Federal Aviation Regulations that would change Restricted Area R-6713 Whidbey Island, Wash., by reducing its time of designation and by altering its location and dimensions. The restricted area would be subdivided into three layers identified, from the surface up, as R-6713A, R-6713B and R-6713C. R-6713C would also be included in the continental control area.

Interested persons were afforded an opportunity to participate in the proposed rule making through the submission of comments. Three comments were received and two objected to the proposal.

The Washington State Aeronautics Commission approved the alteration of R-6713 but opposed establishment of the alert areas. It also recommended radar advisories for VFR traffic if requested. The FAA has concluded, however, that the alert areas are justified because they will identify high density traffic areas without imposing any additional restriction to flight. As for radar service, the Naval Air Station Whidbey Island Radar Air Traffic Control Facility now provides radar advisories on a workload permitting basis and it will continue to offer this service when the restricted area is changed.

One pilot objected to the proposal on the basis that the change would close a corridor now used by VFR traffic to avoid the present restricted area in "limited visual flight conditions." He also objected to dropping any ordnance because of the watercraft traffic in the area.

The eastern side of R-6713 is located adjacent to the Whidbey Island Control Zone. Therefore, pilots flying VFR immediately east of the restricted area must comply with visual flight rules applicable in a control zone. This means that when the visibility is less than three miles, they must either obtain a clearance to fly through the corridor, or circumnavigate both the restricted area and the control zone. Shifting R-6713 as proposed will not alter this requirement.

Adjusting the location of R-6713 will reduce the distance between the restricted area and the Whidbey Island Airport Traffic Area. Therefore, regardless of visibility, when pilots cannot fly between R-6713 and the airport traffic area, or get a clearance to fly through either area, they will be required to overfly the airport traffic area at or above 3,000 feet AGL, or to circumnavigate both it and R-6713. While acknowledging that this will increase the burden upon the pilot of nonradio equipped aircraft to some extent, the FAA has concluded that, in light of the benefits to be realized from relocating the restricted area, the added burden is not sufficient cause for denial of the amendment.

Furthermore, the FAA has concluded that any hazard to surface vessels from ordnance drops is precluded by regulations contained in Title 33, Code of Federal Regulations, Part 204, Section 204.220. These regulations restrict surface vessels from the area involved during the time of designation for R-6713.

In consideration of the foregoing, Parts 71 and 73 of the Federal Aviation Regulations are amended, effective 0901 GMT, October 9, 1975, as hereinafter set forth.

In § 71.151 (40 FR 343) the following restricted area is added:

R-6713C Whidbey Island, Wash.

In § 73.67 (40 FR 699) the description for Restricted Area R-6713, Whidbey Island, Wash., is deleted and the following is substituted therefor:

a. R-6713A Whidbey Island, Wash.

Boundaries. Beginning at Lat. 48°14'54" N., Long. 122°53'30" W.; to Lat. 48°21'27" N., Long. 122°59'34" W.; to Lat. 48°23'06" N., Long. 122°55'18" W.; to Lat. 48°22'54" N., Long. 122°49'12" W.; to Lat. 48°20'12" N., Long. 122°46'42" W.; to Lat. 48°16'00" N., Long. 122°48'27" W.; to point of beginning excluding that airspace within 1000 feet both horizontally and vertically around Smith Island centered at Lat. 48°19'10" N., Long. 122°50'33" W.; and excluding that airspace from the surface to 100 feet AGL beyond a 1.25-nautical mile surface radius of Lat. 48°19'11" N., Long. 122°54'12" W.

Designated altitudes. Surface to 5,000 feet MSL (less exclusions).

Time of designation. Daily, 0700 to 2400 local time.

Controlling agency. Federal Aviation Administration, Seattle ARTC Center.

Using agency. Commander Medium Attack Tactical Electronic Warfare Wing, U.S. Pacific Fleet (COMMATVAQWINGPAC), NAS Whidbey Island, Wash.

b. R-6713B Whidbey Island, Wash.

Boundaries. Beginning at Lat. 48°14'54" N., Long. 122°53'30" W.; thence to Lat. 48°21'27" N., Long. 122°59'34" W.; to Lat. 48°23'06" N., Long. 122°55'18" W.; to Lat. 48°22'54" N., Long. 122°49'12" W.; to Lat. 48°20'12" N., Long. 122°46'42" W.; to Lat. 48°16'00" N., Long. 122°48'27" W.; to point of beginning.

## Title 16—Commercial Practices

## CHAPTER I—FEDERAL TRADE COMMISSION

[Docket C-2681]

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

### The A & R Agency, et al.

Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements; 13.533-20 Disclosures; 13.533-45 Maintain records; 13.533-45(c) Complaints. Subpart—Enforcing dealings or payments wrongfully: § 13.1045 Enforcing dealings or payments wrongfully. Subpart—Misrepresenting oneself and goods—Business status, advantages or connections: § 13.1490 Nature; § 13.1513 Operations generally; § 13.1555 Size, extent, or equipment.—Goods: § 13.1685 Nature; § 13.1735 Sample, offer, or order conformance; § 13.1740 Scientific or other relevant facts. Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1870 Nature; § 13.1895 Scientific or other relevant facts. Subpart—Securing orders by deception: § 13.2170 Securing orders by deception.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45).

*In the Matter of the A & R Agency, a partnership doing business in its own name and as Daily Challenge, Spanish Newspaper Agency, Jewish Newspaper Agency, Scandinavian Newspaper Agency, Italian Newspaper, Agency, Chinese Newspaper Agency, Catholic Newspaper Agency, German Newspaper Agency, Recorder Newspaper Agency, Caribbean Echo, Bronx Home Newspaper Agency, Polish Publication Agency, Hungarian Newspaper Agency, Greek Newspaper Agency, and Anthony Abraham, individually and as a partner in said partnership, and Anthony Clausi, individually and as an employee of said partnership*

Consent order requiring a New York City advertising promoter, among other things to cease using misrepresentations to sell advertising in ethnic publications, and from placing ad seeking payment for unauthorized advertisements.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

It is ordered, That respondents The A & R Agency, a partnership, doing business in its own name and as Daily Challenge, Spanish Newspaper Agency, Jewish Newspaper Agency, Scandinavian Newspaper Agency, Italian Newspaper Agency, Chinese Newspaper Agency, Catholic Newspaper Agency, German Newspaper Agency, Recorder Newspaper Agency, Caribbean Echo, Bronx Home Newspaper Agency, Polish Publication Agency, Hungarian Newspaper Agency and Anthony Abraham individually and as a partner in said partnership and Anthony Clausi individually and as an employee of said partnership, and their successors and assigns, respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device in connection with the offering for sale or sale of advertising space in newspapers, magazines or any other publication, and in connection with the collection of or attempt to collect past due or allegedly past due accounts arising out of the publication of any advertisement, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, that the circulation, whether paid or unpaid, of any newspaper, magazine or other publication is more than the circulation figures provided in writing by the publisher of said publication as stated in its certification or statements to governmental authorities or as verified by an accounting audit by independent certified public accountants and/or as they appear in the independent Audit Bureau of Circulation Reports.

2. Representing, directly or by implication, that the readership of any newspaper, magazine or other publication is more than twice the circulation figure provided for in paragraph 1 of this order.

3. Representing, directly or by implication, that a publication for which an advertisement is being solicited is read by a certain type or class of subscriber or reader or covers a specified geographical area when such is not the fact; or misrepresenting in any manner the nature or type of reader or geographic area covered by such publication.

4. Placing, printing or publishing, or causing to be placed, printed, or published, any advertisement on behalf of any person, firm or corporation in any publication unless a prior authorization, order or agreement to purchase said advertisement has been received by respondents.

5. Sending or causing to be sent bills, collection letters or notices to any person, firm or corporation with regard to any advertisement which has been or is to be printed, inserted or published on behalf of said person, firm or corporation, or in any other manner seeking to exact payment for any advertisement, without a prior authorization, order or agreement to purchase such advertising, either orally or in writing.

6. Representing that advertisements placed by respondents for its customers will appear in special editions or in special sections of a publication when in fact there is no such special edition of or special section in the publication for which the advertisement is solicited.

7. Placing orders for advertisements to appear on dates which differ from the dates selected by respondents' customers without advising such customers of the changes and the reasons therefor and without obtaining authorization for such changes.

*It is further ordered*, That: A. Respondents' advertising solicitors or agents in making contact with any person, firm or corporation for the purpose of selling advertising clearly disclose that they are employed by The A & R Agency, or Daily Challenge, or Spanish Newspaper Agency, or Jewish Newspaper Agency, or Scandinavian Newspaper Agency, or Italian Newspaper Agency, or Chinese Newspaper Agency, or Catholic Newspaper Agency, or German Newspaper Agency, or Recorder Newspaper Agency, or Caribbean Echo, or Bronx Home Newspaper Agency, or Polish Publication Agency, or Hungarian Newspaper Agency, or Greek Newspaper Agency, to solicit advertisements for the named publication and disclose the correct and complete name of the publication for which advertising is being solicited and state the number of times a week the publication appears and the language in which the publication is printed.

B. The complete name of the publication and the dates the advertisements appeared be clearly stated on all respondents' invoices to their customers.

C. Respondents furnish tear sheets to their customers on request, for every issue in which the customers' advertisements appear and that such tear sheets show the name of the publication and the dates of publication.

D. Respondent retains all complaints from any source relating to the acts or practices prohibited by this order, for a period of two years after their receipt, and that these records be made available for examination and copying by a duly authorized agent of the Federal Trade Commission during the regular hours of the respondents' business.

E. Respondents notify the Commission at least thirty (30) days prior to any proposed change in the partnership respondent such as dissolution or the addition of partners or any other change in the partnership which may affect compliance obligations arising out of this order.

F. Respondents give written instructions which cover all the provisions of this order to all present and future employees, agents and representatives engaged in the offering for sale, or sale of advertising space in newspapers, magazines or any other media and engaged in the collection of or attempt to collect past due or allegedly past due accounts arising out of the publication of any advertisement and that respondents secure a signed statement acknowledging receipt of said written instructions.

G. The individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which the individual is engaged as well as a description of his duties and responsibilities.

H. The partnership respondent distribute a copy of this order to each of its operating divisions or departments.

I. No provision of this order shall be construed in any way to annul, invalidate, repeal, terminate, modify or exempt respondents from complying with agreements, orders or directives of any kind obtained by any other agency or act as a defense to actions instituted by the municipal or state regulatory agencies. No provision of this order shall be construed to imply that any past or future conduct of respondents complies with the rules and regulations of or the statutes administered by the Federal Trade Commission.

*J. It is further ordered*, That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 14, 1975.

CHARLES A. TOBIN,
*Secretary.*

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

### Ash Grove Cement Co.

Subpart—Acquiring corporate stock or assets: § 13.5 Acquiring corporate stock or assets; 13.5-20 Federal Trade Commission Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 45, 18)

*In the Matter of Ash Grove Cement Company, a Corporation*

Order requiring a Kansas City, Mo., manufacturer and seller of lime and portland cement, among other things, to divest itself of two producers of ready mixed concrete in the Kansas City marketing area, and for a ten-year period, not to acquire, without prior Commission approval, ready mixed companies whose purchases of portland cement exceed designated amounts. The Commission also decided that a third acquisition of a quarrying business was not anticompetitive.

The order of divestiture and to cease and desist is as follows: [1]

FINAL ORDER

This matter having been heard by the Commission upon the appeal of respondent's counsel from the Initial Decision, and upon briefs and oral argument in support thereof and in opposition thereto, and the Commission, for the reasons stated in the accompanying Opinion, having denied, in part, and granted, in part, the appeal; accordingly,

I. *It is ordered*, That respondent, Ash Grove Cement Company, a corporation, and its officers, directors, agents, representatives, employees, subsidiaries, affiliates, successors and assigns, within one (1) year from the date this Order becomes final, divest, absolutely, subject to the approval of the Federal Trade Commission, all stock, assets, properties, rights and privileges, tangible and intangible, including, but not limited to, all plants, equipment, machinery, inventory, customer lists, trade names, trademarks and goodwill, acquired by respondent, as a result of the acquisitions of the stock of Fordyce Concrete, Inc., and Lee's Summit Ready-Mix Concrete & Materials Company, together with all additions and improvements thereto and replacements thereof of whatever description, so as to assure that there is established one or more separate and viable competitors engaged in the business of producing and selling ready mixed concrete.

II. *It is further ordered*, That pending such divestitures respondent shall not make or permit any deterioration or changes in any of the plants, machinery, equipment, buildings, or other property or assets to be divested which would impair their present capacity or market value.

III. *It is further ordered*, That none of the stock, assets, properties, rights or privileges required to be divested be transferred, directly or indirectly, to any person who is at the time of the divestiture an officer, director, employee, or agent of, or under the control or direction of, Ash Grove Cement Company, or any of its subsidiaries or affiliates or who owns or controls, directly or indirectly, more than one (1) percent of the outstanding shares of voting stock of Ash Grove Cement Company, or any of its subsidiaries or affiliates.

IV. *It is further ordered*, That with respect to the divestitures required herein, nothing in this order shall be deemed to prohibit respondent from accepting consideration which is not entirely cash and from accepting and enforcing a loan, mortgage, deed or trust or other security interest for the purpose of securing to respondent full payment of the price, with interest, received by respondent in connection with such divestitures: *Provided, however*, That should respondent by enforcement of such security interest, or for any other reason, regain direct or indirect ownership or control of any of the divested plants, land or equipment, said ownership or control shall be redivested subject to the provisions of this order, within one year from the date of reacquisition.

V. *It is further ordered*, That for a period of ten (10) years from the date this order becomes final, respondent shall cease and desist from acquiring, directly or indirectly, without the prior approval of the Federal Trade Commission, the whole or any part of the share capital or other assets of any corporation engaged in the sale of ready mixed concrete or concrete products within respondent's present or future marketing area for portland cement or which purchased in excess of 10,000 barrels or 1,880 tons of portland cement in any of the five (5) years preceding the merger.

VI. *It is further ordered*, That respondent, shall within sixty (60) days from the date of service of this order, and every sixty (60) days thereafter until the divestitures are fully effected, and every one hundred eighty (180) days thereafter until it has fully complied with the provisions of this order, submit to the Commission a detailed written report of its actions, plans, and progress in complying with the divestiture provisions of this order, and fulfilling its objectives. All reports shall include, among other things that will be from time to time required, a summary of all contacts and negotiations with any person or persons interested in acquiring the stock, assets, properties, rights or privileges to be divested under this order, the identity of each such person or persons, and copies of all written communications to and from each such person or persons.

VII. *It is further ordered*, That respondent provide a copy of this order to each purchaser of plants and assets divested pursuant to this order at or before the time of purchase.

With Commissioner Thompson dissenting, the Final Order was issued by the Commission June 24, 1975.

CHARLES A. TOBIN,
*Secretary.*

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

### Beatrice Foods Co.

Subpart—Acquiring corporate stock or assets: § 13.5 Acquiring corporate stock or assets.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 7, 38 Stat. 731, as amended; 15 U.S.C. 18).

*In the Matter of Beatrice Foods Co., a Corporation*

Order requiring a multinational, multiproduct company, located in Chicago, Ill., among other things to divest itself of a competing manufacturer of paint rollers which it acquired in 1970, and to not make any acquisitions for 10 years, in the paint brush-and-roller industry, without prior Federal Trade Commission approval. Further, the order dismissed, for failure of proof, allegations in the complaint that the acquisition of Tip Top Brush Co., through which the re-

spondent entered the industry, violated Sec. 7 of the Clayton Act.

The Final Order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

FINAL ORDER

This matter having been heard by the Commission upon briefs and oral argument in support of cross appeals filed by respondent and complaint counsel from the initial decision in this matter; and the Commission for the reasons stated in the accompanying opinion having concluded that the appeals should be denied;

*It is ordered,* That the initial decision, as supplemented and modified by the Commission's opinion in this matter, and the order contained in said initial decision, be, and hereby are adopted as the decision and order of the Commission;

*It is further ordered,* That the parties' motions for correction of the transcript of oral argument before the Commission be, and hereby are, granted.

The Final Order was issued by the Commission July 1, 1975.

CHARLES A. TOBIN,
*Secretary.*

## PART 13—PROHIBITED TRADE PRACTICES, AND AFFIRMATIVE CORRECTIVE ACTIONS

### CTC Collections, Inc., et al.

Subpart—Corrective actions and/or requirements: § 13.533 Corrective actions and/or requirements: 13.533-45 Maintain records; § 13.533-45(k) Records, in general. Subpart—Disparaging products, merchandise, services, etc.: § 13.1042 Disparaging products, merchandise, services, etc. Subpart—Misrepresenting oneself and goods—Business status, advantages or connections: § 13.1370 Business methods, policies, and practices; § 13.1395 Connections and arrangements with others; § 13.1490 Nature. —Goods: § 13.1685 Nature. Subpart—Simulating another or product thereof: § 13.2208 Court documents. Subpart—Threatening suits, not in good faith: § 13.2264 Delinquent debt collection.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45)

*In the Matter of CTC Collections, Inc., a Corporation, and Loretta Fusaro, and Kathleen O'Connor, Individually and as Officers of Said Corporation*

Consent order requiring a West Orange, N.J., debt collection agency, among other things to cease using unfair and deceptive form letters in collecting consumer debts.

[1] Copies of the Complaint, Opinion, and Decision and Final Order with the original document.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows: [1]

ORDER

*It is ordered,* That respondent CTC Collections, Inc., a corporation, its successors and assigns, and its officers Loretta Fusaro and Kathleen O'Connor, individually and as officers of said corporation and respondents' agents, representatives and employees, directly or through any corporation, subsidiary, division or other device, in connection with the collection of consumer debts, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing in any manner, directly or by implication, that respondents possess unlimited authority to collect accounts on behalf of their creditor-clients; or misrepresenting, in any manner, respondents' authority to collect debts on behalf of a creditor.

2. Representing in any manner, directly or by implication, that respondents possess the authority or intend to disclose information regarding debtors to a credit reporting agency.

3. Representing in any manner, directly or by implication, that legal action, including attachment or garnishment proceedings, has been initiated or is being initiated unless respondents have in fact instituted the legal action represented; or that such legal action will be initiated unless respondents are able to establish that at the time the representation was made respondents intended in good faith to institute the legal action represented.

4. Using any form to collect debts or debtor information which simulates a judicial document or is represented by any means to be a document authorized, issued, or approved by a court of law or any other official or legally constituted judicial authority; or misrepresenting, in any manner, the official nature of any document utilized in the collection of debts.

5. Representing in any manner, directly or by implication, that judgment may be entered against a debtor without the debtor having notice of the legal action and an opportunity to appear and defend himself in a court of law.

6. Informing a debtor of a creditor's right after judgment without disclosing at the same time that no judgment may be entered against the debtor unless the debtor has first been given notice and an opportunity to appear and defend himself in a court of law.

7. Representing in any manner, directly or by implication, the post judgment rights of a creditor unless said rights are in fact as specifically represented in the jurisdiction in which collection is sought; or misrepresenting in any manner, directly or by implication, the post judgment rights of a creditor.

[1] Copies of the Complaint, Decision and Order, filed with the original document.

*It is further ordered,* That respondents shall maintain for a period of two years with respect to each delinquent debtor, records which shall consist of copies of all collection letters, dunning notices, requests for information and similar correspondence delivered to such debtor or third parties or an indication of what form items were sent; a record or tabulation of all telephone calls made to or about the debtor showing the identity of the caller, the date and time of the call, the identity of the recipient of the call, the telephone number called, the purpose and result of the call; and copies of all documents pertaining to collection efforts such as referrals to lawyers or other agencies and legal documents utilized in collection efforts.

*It is further ordered,* That the respondents shall forthwith distribute a copy of this order to each of their operating divisions, collection managers and to all personnel or other parties including attorneys and collection agencies responsible for or engaged in collection of consumer debts.

*It is further ordered,* That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation or corporations, the creation or dissolution of subsidiaries or any other change in the corporations which may affect compliance obligations arising out of the order.

*It is further ordered,* That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business address and a statement as to the nature of the business or employment in which they are engaged as well as a description of their duties and responsibilities.

*It is further ordered,* That no provision of this order shall be construed in any way to annul, invalidate, repeal, terminate, modify or exempt respondents from complying with agreements, orders or directives of any kind obtained by any other agency or act as a defense to actions instituted by municipal or state regulatory agencies. No provision of this order shall be construed to imply that any past or future conduct of respondents complies with the rules and regulations of, or the statutes administered by the Federal Trade Commission.

*It is further ordered,* That the respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

The Decision and Order was issued by the Commission July 14, 1975.

*Secretary.*

[FR Doc.75-20813 Filed 8-8-75;8:45 am]

Title 40—Protection of Environment

## CHAPTER I—ENVIRONMENTAL PROTECTION AGENCY

### SUBCHAPTER E—PESTICIDE PROGRAMS

[FRL 414-3; PP5F1525/R48]

## PART 180—TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

### Carboxin

On September 3, 1974, notice was given (39 FR 31946) that Uniroyal Chemical Co., Bethany CT 06525 had filed a pesticide petition (PP 5F1525) with the Environmental Protection Agency (EPA). This petition proposed the establishment of tolerance for combined residues of the fungicide carboxin (5,6-dihydro - 2 - methyl-1,4-oxathiin-3-carbonxanilide) and its metabolite 5,6-dihydro - 3 - carboxanilide-2-methyl-1,4-oxathiin-4-oxide (calculated as carboxin) in or on the raw agricultural commodities corn grain, rice, and rice straw at 0.2 part per million.

The data submitted in the petition and other relevant material have been evaluated, and the pesticide is considered to be useful for the purpose for which the tolerance is sought. Any residues of carboxin which might occur in eggs, meat, and milk are adequately covered by existing tolerances, and § 180.6(a) (2) applies. The tolerance established by amending § 180.301 of the regulations will protect the public health, and it has therefore been concluded that the tolerance should be established as set forth below.

Any person adversely affected by this regulation may, within 30 days after publication of this notice in the FEDERAL REGISTER, file written objections with the Hearing Clerk, Environmental Protection Agency, 401 M Street, SW., East Tower, Room 1019, Washington, D.C. 20460. Such objections should be submitted in quintuplicate and should specify both the provisions of the regulation deemed to be objectionable and the grounds for the objections. If a hearing is requested, the objections must state the issues for the hearing. A hearing will be granted if the objections are supported by grounds legally sufficient to justify the relief sought.

Effective on the date of publication in the FEDERAL REGISTER, Part 180, Subpart C, is amended by revising § 180.301 as set forth below.

Dated: August 6, 1975.

LOWELL E. MILLER,
*Acting Deputy Assistant Administrator for Pesticide Programs.*

(Sec. 408(d)(2) Federal Food, Drug and Cosmetic Act (21 U.S.C. 346a(d)(2)))

Section 180.301 is amended by revising the paragraph "0.2 part per million on or on barley • • •" to include the raw agricultural commodities, corn grain, rice, and rice straw to read as follows:

• • • • •

§ 180.301 Carboxin; tolerances for residues.

• • • • •

0.2 part per million on or on barley grain and straw, corn grain, fodder, and forage, fresh corn including sweet corn (kernels plus cob with husk removed), oats seed and straw, rice and rice straw, and wheat grain and straw.

• • • • •

Title 42—Public Health

## CHAPTER I—PUBLIC HEALTH SERVICE, DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

### SUBCHAPTER F—QUARANTINE, INSPECTION, LICENSING

## PART 71—FOREIGN QUARANTINE

### Restrictions on Importation of Nonhuman Primates

On March 14, 1975, there was published in the FEDERAL REGISTER (40 FR 11887) a notice of proposed rulemaking with proposed amendments to Subpart J, of Part 71, Title 42, Code of Federal Regulations, deleting all requirements in §§ 71.154 and 71.155 related to nonhuman primates (therein referred to as monkeys) and establishing a new Subpart J-3, Importation of Nonhuman Primates. The proposed amendments would allow the Public Health Service to (1) prohibit the importation of nonhuman primates except for bona fide scientific or educational purposes or for exhibition and (2) establish mandatory disease surveillance and control procedures for nonhuman primates imported under the provisions of this regulation.

Interested persons have been afforded an opportunity to participate in the making of these amendments by the notice of proposed rulemaking published in the FEDERAL REGISTER mentioned above, and due consideration has been given to all comments received in response to the notice, insofar as they relate to matters within the scope of the notice. Except for editorial changes, and except as specifically discussed hereinafter, the amendments and the reasons therefor are the same as those contained in the notice.

The proposal elicited 86 individual responses. Of these, 36 (42%) offered unqualified support, 19 (22%) offered general support but recommended specific, often more restrictive changes, and 26 (30%) were opposed to the proposal. Five responses (6%) were irrelevant comments opposing restrictions that were not in the proposal.

The 86 responses were received from individuals or organizations in the following categories: general public (26); local, State, and Federal Government (22); pet industry (16); medical and university research groups (10); special interest groups (8); and commercial importers of nonhuman primates (4).

The principal points raised in responses, other than those offering unqualified support (36) or opposition (19), are given below, together with a brief description of considerations given to or actions taken on the comment.

1. Nine commentators expressed in various ways concern about possible duplication in regulatory measures of the U.S. Department of the Interior, U.S. Department of Agriculture, and the Public Health Service. *Response.* The proposed regulation was discussed with representatives of both the U.S. Department of the Interior and the U.S. Department of Agriculture. It was agreed that the proposed regulation was compatible with existent regulations of both Departments and did not duplicate their activities.

2. Six commentators expressed strong opposition to the provision for personal importation of up to two nonhuman primates because it was not consistent with the regulation as a whole, would be difficult to regulate, and would be subject to abuse. *Response.* The objections raised in these comments are valid, and this provision has been deleted from the final regulation.

3. Two commentators opposed importation of nonhuman primates for any purpose because of the potential for disease transmission regardless of intended use. *Response.* A total ban on importation of nonhuman primates is not possible because these animals are essential for purposes such as scientific research and vaccine production. The required disease surveillance and control procedures are intended to minimize the public health problems associated with importation of nonhuman primates for essential purposes.

4. Two commentators recommended that nonhuman primates excluded from the United States be destroyed only as a last resort and that humane methods of destruction be required. *Response.* The regulation is based upon the authority of the Public Health Service to make and enforce regulations to prevent the introduction, transmission, or spread of communicable diseases from foreign countries into the United States. Unless it creates a public health hazard, the method of disposition of an excluded nonhuman primate is beyond the scope of Public Health Service legal authority. The methods of disposition specified in the regulation are those which are considered adequate to protect the public health. It is anticipated that few excluded nonhuman primates will be destroyed and that humane methods of destruction will always be recommended.

5. Five commentators suggested that various types of quarantine programs be instituted, with no restrictions on the use of imported non-human primates following quarantine. *Response.* Adoption of a quarantine program incorporating disease screening and treatment procedures without restriction on subsequent animal use was considered. However, this approach was not thought to be feasible because of the numerous infectious agents involved and the lack of reliable screening procedures for these agents.

Such a testing program would not provide reasonable assurance of freedom from infectious diseases transmissible to man and would be prohibitively expensive.

6. Several comments were related to misconceptions about who could qualify for registration as an importer and whether a nonhuman primate could be used for a permissible purpose prior to 31 days post-importation. *Response.* As specified in the proposal, any person who, or corporation, partnership, or other organization which, receives live nonhuman primates within a period of 31 days beginning with the day of importation, whether or not such primates were held for part of such period at another location, would be considered an importer and would have to comply with the mandatory requirements. As stated, anyone procuring nonhuman primates for permissible purposes would be eligible for registration as an importer. There was no provision that a nonhuman primate could not be used for a permissible purpose within 31 days of importation. For example, if it were necessary to use the animal as a tissue culture source within 31 days of importation, this would be permissible. However, provisions for mandatory disease surveillance and control measures would still be applicable to the animal in question.

7. Two commentators suggested deleting provisions for suspension and revocation of an importer's registration and penalties for violating the regulation. *Response.* These provisions are considered essential for enforcement of the regulation.

8. Three commentators suggested either less frequent disease reporting or registration of importers. Several comments indicated that information similar to that specified in the proposal was already being submitted to other governmental agencies. *Response.* Because the prescribed record keeping, reporting, and registration are minimal in relation to the involved health problems, these provisions cannot be changed without seriously compromising the effectiveness of the regulation. At the present time, the necessary information for effective surveillance and control of zoonotic disease in nonhuman primates is not being submitted to any agency of the Federal Government. Every effort will be made to keep the forms brief and simple. The specified reporting frequency is required to obtain current information.

9. Seven commentators alleged in various ways that prohibiting importation of nonhuman primates for use as pets is not warranted because human illness acquired from nonhuman primates is a significant problem only in scientific laboratories and zoos. *Response.* The fact is that persons exposed to nonhuman primates in laboratories are generally required to follow procedures which make their association with these animals less hazardous than for persons owning pet monkeys. They are provided with protective work clothing, including masks and gloves, and are covered by preventive medicine programs which take into account the unique disease hazards associated with nonhuman primates. The public health hazards associated with nonhuman primates are well documented. The disease hazard is the result of the animals' being infected, not the use to which they are put. If certain uses of these animals were not considered essential, the available information would warrant total prohibition of nonhuman primate importations.

One recent example of human disease acquired from pet nonhuman primates relates to the occurrence of nonhuman primate-associated hepatitis. In 1974, 9 outbreaks of this disease, affecting more than 40 people, were reported; all 9 outbreaks were associated with chimpanzees maintained in private households.

Therefore, no change will be made in the provision which permits importation of nonhuman primates only for bona fide scientific, educational, or exhibition purposes.

In consideration of the foregoing and for the reasons given in the notice of proposed rulemaking, Part 71 of Chapter I of Title 42 of the Code of Federal Regulations is amended as set forth below.

*Effective date.* This regulation shall become effective October 10, 1975.

It is hereby certified that the economic and inflationary impacts of this proposed regulation have been carefully evaluated in accordance with OMB Circular A-107.

Dated: July 16, 1975.

THEODORE COOPER,
*Assistant Secretary for Health.*

Approved: August 4, 1975.

CASPAR W. WEINBERGER,
*Secretary.*

1. The entries in the Table of Contents for Subpart J, Part 71, Subchapter F, are amended as follows:

Sec.
71.151 Lather brushes.
71.154 Dogs and cats.
71.155 Dogs and cats; disposal of excluded animals.
71.156 Etiological agents and vectors.
71.157 Dead bodies.

2. In Subpart J, §§ 71.154 and 71.155 are amended as follows:

**§ 71.154 Dogs and cats.**

(a) *Definitions.* As used in this section and § 71.155, the term:

(1) "Confinement" means restriction of an animal by the owner or his agent to a building or other enclosure in isolation from other animals and from persons except for contact necessary for its care, or if it is allowed out of such enclosure, muzzling the animal and keeping it on a leash.

(2) "Dog" includes all domestic and wild members of the dog family (Canidae).

(3) "Cat" includes all domestic and wild members of the cat family (Felidae).

(4) "United States" means the United States, its territories, and possessions (other than the Canal Zone).

(5) "Zoological park" means a place, premises, or an establishment maintained for the exhibition of live animals for recreational or educational purposes.

(b) *General requirements*—(1) *Inspection by quarantine officer.* All dogs and cats brought into the United States from any foreign country shall be inspected by the quarantine officer at the port of arrival. Only animals in which no evidence of communicable disease (see § 71.1(b)) is revealed shall be admitted.

(2) *Examination by veterinarian; detention of animals.* When a dog or cat does not appear to be in good health on arrival (i.e., it has such symptoms as emaciation, lesions of the skin, nervous system disturbances, jaundice, or diarrhea), the medical officer in charge may give the owner or his agent an opportunity to call in a licensed veterinarian to examine the animal and give or arrange for any tests or treatment indicated. The medical officer in charge will consider the findings of any such examination and tests in determining whether the animal may have a communicable disease. The owner shall bear the expense of such examination, tests, and treatment. When it is necessary to detain an animal pending determination of its admissibility, the owner or his agent shall provide satisfactory detention facilities which in the judgment of the medical officer in charge will afford protection against existence of a health hazard. The owner or his agent shall bear the expense of such detention. Detention shall be accomplished at the port of arrival, except that the Director of the Quarantine Division, Bureau of Epidemiology, Center for Disease Control, Public Health Service, may issue instructions specifying control measures under which animals may be shipped to their destination pending determination of their admissibility.

(3) *Report of sickness or death; exposed animals.* (i) A record of sickness or death of dogs or cats en route to the United States shall be made by the person responsible for the care of the animals and shall be submitted to the quarantine officer at the port of arrival. Animals sick or dead en route or on arrival shall be separated from other animals as soon as discovered and held, pending any necessary examination as determined by the medical officer in charge.

(ii) When a dog or cat appears healthy but has been exposed during shipment to a sick or dead animal suspected of having a communicable disease, the exposed animal shall be admitted only if tests or other examination made at a time when infection with communicable disease could be determined reveals no evidence that the animal may be infected with such disease. The provisions of subparagraph (2) of this paragraph shall be applicable to such tests or other examination.

(4) *Sanitation.* When the quarantine officer finds that the cages or other containers of dogs or cats arriving in the United States are in an unsanitary condition that may constitute a health hazard:

(i) The animals shall not be admitted in such containers unless the owner or his agent has the containers cleaned; and

(ii) The quarantine officer shall report the matter to the U.S. Customs Service officer for investigation pursuant to Customs' regulations regarding importation of animals under inhumane or unhealthful conditions (19 CFR 12.26(k)).

(c) *Dogs only; rabies vaccination.* (1) Rabies vaccination is required for a dog that is brought into the United States, unless:

(i) The animal is a wild member of the dog family, in which case it may be admitted, but for at least six months after admission the owner or his agent shall restrict it to a building or other enclosure in isolation from other animals and from persons except for contact necessary for its care, or

(ii) For the six months before arrival the dog has been only in a country determined by the Public Health Service to be rabies-free,[2] or—

(iii) The owner submits evidence satisfactory to the quarantine officer that the dog is destined for a zoological park, or that it is destined for a research establishment and vaccination would seriously interfere with its use for scientific investigation, or

(iv) The dog on arrival is less than three months of age, in which case it may be admitted but shall be placed in confinement, and the owner shall certify that the dog will be vaccinated at three months of age and remain in confinement for at least one month after vaccination.

(2) Vaccination shall have been accomplished with nervous-tissue vaccine more than one month but not more than 12 months before the dog's arrival or with chicken-embryo vaccine more than one month but not more than 36 months before arrival.

(3) Where vaccination is required, the dog shall be accompanied by a valid certificate of rabies vaccination. This certificate shall: (i) identify the dog, (ii) be signed by a licensed veterinarian, and (iii) specify that such veterinarian vaccinated the dog with "nervous-tissue" vaccine or with "chicken-embryo" vaccine on a stated date within the respective time limits provided in subparagraph (2) of this paragraph.

(4) If a dog that is subject to vaccination arrives without a valid certificate of rabies vaccination, it shall not be admitted until it has been vaccinated (except as provided in subparagraph (5) of this paragraph). The owner shall arrange for and bear the expense of this vaccination. Upon admission the dog shall be placed in confinement for at least 30 days.

(5) If a dog arrives with a certificate which is valid except that vaccination was received less than one month before arrival, the dog may be admitted but shall be placed in confinement until at least 30 days have elapsed since vaccination.

(6) In no case will vaccination be recognized if performed on a dog less than three months of age.

(d) *Dogs and cats; special provisions.* Notwithstanding other provisions of this section, if a dog or cat comes from a locality having a high incidence of rabies and under conditions otherwise indicating that a special hazard of rabies introduction is present, it shall be subject to such additional requirement, or to exclusion, as may be found necessary by the medical officer in charge and approved by the Director, Quarantine Division, Bureau of Epidemiology, Center for Disease Control, Public Health Service, to prevent the introduction of rabies. However, any such dog that has been vaccinated after the age of three months as provided in paragraph (c) of this section shall be admitted after 30 days have elapsed since vaccination, if inspection of the animal at that time has revealed no evidence of communicable disease.

(e) *Dogs and cats in transit.* The provisions of this section shall apply to dogs and cats shipped through the United States from one foreign country to another, except as provided below:

(1) Animals that appear healthy but have been exposed to a sick or dead animal suspected of having a communicable disease need not undergo tests or other examination as provided in paragraph (b)(3) of this section if conditions of their transportation will afford adequate protection to the United States against introduction of communicable diseases.

(2) Rabies vaccination is not required for dogs that are shipped by airplane or ship and are retained in custody of the carrier under conditions preventing introduction of rabies.

**§ 71.155 Dogs and cats; disposal of excluded animals.**

A dog or cat excluded from the United States under the regulations in this part shall be exported or destroyed. Pending exporation it shall be detained in Custom's custody at the port of arrival at the owner's expense.

3. In Part 71, a new Subpart J–3 is added immediately after Subpart J–2 as follows:

**Subpart J–3—Importation of Nonhuman Primates [3]**

Sec.
71.181 Definitions.
71.182 Importation; general prohibition.
71.183 Importation and distribution; permissible purposes.
71.184 Registration of importers.
71.185 Recordkeeping and reporting.
71.186 Disease control measures.
71.187 Disposal of excluded animals.
71.188 Suspension and revocation.
71.189 Penalties.

AUTHORITY: Sec. 361, 58 Stat. 703 (42 U.S.C. 264)

**§ 71.181 Definitions.**

As used in this subpart:

(a) "Nonhuman primates" means all nonhuman primates of the Order Primates, including, but not limited to, animals commonly known as monkeys, chimpanzees, orangutans, gorillas, gibbons, apes, baboons, marmosets, tamarin, lemurs, lorises, and tree shrews.

(b) "Group" means a population of nonhuman primates which are physically isolated from other nonhuman primates. All nonhuman primates housed in one room of a facility constitute a group if they are effectively separated by solid partitions from other nonhuman primates.

(c) "Importer" means any person who, or corporation, partnership, or other organization which, receives live nonhuman primates within a period of 31 days beginning with the day of importation, whether or not such primates were held for part of such period at another location. As used in this Subpart J–3, the term "importer" includes the original importer and any other person or organization receiving such primates within a period of 31 days beginning with the day of importation.

(d) "Director" means the Director, Center for Disease Control, Public Health Service, Department of Health, Education, and Welfare, Atlanta, Georgia 30333.

**§ 71.182 Importation; general prohibition.**

Except as otherwise provided in this subpart, no person may import live nonhuman primates into the United States unless such person is registered as an importer in accordance with applicable provisions of this subpart.

**§ 71.183 Importation and distribution; permissible purposes.**

Live nonhuman primates may be imported into the United States and sold, resold, or otherwise distributed only for bona fide scientific, educational, or exhibition purposes in accordance with applicable provisions of this subpart.

**§ 71.184 Registration of importers.**

(a) Importers shall register with the Director on forms available from, and in a manner prescribed by the Director.

(b) Registration shall be effective for a calendar year or for such part thereof as remains following the date on which receipt of the properly completed registration form is acknowledged by the Director.

(c) Registration may be renewed by filing the appropriate forms with the Director not less than 30 days nor more than 60 days prior to the expiration of

[2] A current list of rabies-free countries may be obtained from the Director, Center for Disease Control, Attn: Quarantine Division, Bureau of Epidemiology, Atlanta, Georgia 30333.

[3] The requirements of this Subpart are in addition to and not in lieu of any other restrictions relating to the importation of nonhuman primates prescribed by the Fish and Wildlife Service, U.S. Department of the Interior (e.g., 50 CFR Parts 14, 17) and by other agencies of the Federal Government.

the period for which registration was effective.

**§ 71.185 Recordkeeping and reporting.**

(a) Importers shall maintain records on forms available from, and in a manner prescribed by, the Director relating to number of primates imported, countries of origin, species, dates of importation, dates of shipment to other persons or organizations, disease incidence, and such other information as may be requested by the Director. Such records shall be available for inspection by the Director at any time.

(b) Importers who receive 500 or more nonhuman primates in a calendar year shall submit quarterly reports, and importers who receive fewer than 500 nonhuman primates shall submit annual reports, on forms available from, and in a manner prescribed by, the Director. The reports shall specify numbers of primates imported, countries of origin, species, dates of importation, dates of shipment to other persons or organizations, disease incidence, and such other information as may be requested by the Director. Importers required to make quarterly reports shall submit the reports on or before April 30 for the preceding period of January through March, July 31 for the preceding period of April through June, October 31 for the preceding period of July through September, and January 31 for the preceding period of October through December. The first quarterly report shall be filed for the quarter during which a total of 500 imported nonhuman primates is reached. The first quarterly report shall include the information specified above in this paragraph (b) on all nonhuman primates imported in the preceding quarter or quarters of the calendar year. Quarterly reports will be required thereafter for each quarter year period of such calendar year irrespective of the number of nonhuman primates imported or otherwise received during such period. Importers required to make annual reports shall submit the reports on or before January 31 for the preceding calendar year.

(c) Importers shall report to the Director by telephone (days, 404–633–3311; nights, weekends and holidays, 404–633–2176) within 24 hours the occurrence of (1) any illness in nonhuman primates that is suspected of being yellow fever, monkeypox, or Marburg disease, and (2) deaths resulting from any illness or illnesses within any consecutive 7-day period of 10 percent or more of a group consisting of 20 or more nonhuman primates.

(d) Importers shall report to the Director by telephone within 24 hours the occurrence of illness in any member of their staff suspected of being an infectious disease acquired from nonhuman primates.

**§ 71.186 Disease control measures.**

The Director is authorized upon receipt of evidence of exposure of nonhuman primates to a communicable disease that constitutes, or may constitute, a threat to public health to provide for or to require examination, treatment, detention, quarantine, seizure, or destruction of exposed animals. Such measures as may be prescribed shall be at the expense of the owner.

**§ 71.187 Disposal of excluded animals.**

A nonhuman primate excluded from the United States under the regulations in this Subpart J–3 shall, at the owner's option and expense, be exported, destroyed, or given to a scientific, educational, or exhibition facility under arrangements approved by the Director, for preventing the spread of infection. Exportation shall be permitted only if the owner exports the nonhuman primate within a reasonable time as determined by the Director. Pending exportation or other disposition pursuant to the provisions of this § 71.187, it shall be detained in Customs' Custody at the port of arrival at the owner's expense.

**§ 71.188 Suspension and revocation.**

(a) An importer's registration may be suspended or revoked by the Director if the Director finds, upon notice to the importer holding such registration, that the importer has failed to comply with any applicable provision of this subpart. The notice shall contain a statement of the grounds upon which the suspension or revocation is based, and, in the case of suspension, the action necessary to end such suspension.

(b) The importer may file an answer to the notice within 20 days after service thereof. Answers shall admit or deny specifically and in detail each allegation of the notice. Allegations of fact in the notice not denied or controverted by answer shall be deemed admitted. Matters alleged as affirmative defenses shall be separately stated and numbered. Failure of the importer to file an answer within 20 days after service of the notice may be deemed an admission of all matters of fact recited in the notice.

(c) Where an importer's registration has been suspended or revoked, the suspension may be terminated or the registration reinstated, as may be appropriate, upon such inspection, examination of records, conference with the importer, furnishing of such information, and assurance of compliance with the requirements of this Subpart as may be deemed necessary by the Director.

(d) The importer shall be entitled to a hearing with respect to the suspension or revocation (not preceded by suspension) upon filing a written request, either in the answer or in a separate document, with the Director within 20 days after the effective date of such suspension or revocation. Failure to request a hearing shall be deemed a waiver of hearing and consent to submission of the case to the Director for decision on the written record. The failure both to file an answer and to request a hearing shall be deemed to constitute consent to the making of a decision on the basis of such information as is available.

(e) As soon as practicable after the completion of any hearing conducted pursuant to the provisions of this subpart, the Director shall render a final decision. A copy of such decision shall be served on the importer.

**§ 71.189 Penalties.**

Any person who violates any provision of this subpart shall be subject to a fine of not more than $1,000 or imprisonment for not more than one year or both, as provided in section 368 of the Public Health Service Act (42 U.S.C. 271).

(Sec. 361, 58 Stat. 703 (42 U.S.C. 264))

## Title 47—Telecommunications

### CHAPTER I—FEDERAL COMMUNICATIONS COMMISSION

[Docket No. 19931; FCC 75-803]

### PART 17—CONSTRUCTION, MARKING AND LIGHTING OF ANTENNA STRUCTURES

**High Intensity Lighting of Antenna Structures**

*Correction*

In FR Doc. 75–18662, appearing at page 30263 in the issue of Friday, July 18, 1975, the third line following § 17.42 (d) (3) on page 30267 reading: "brighter intensity mode or the next" should read: "the high intensity mode or the next".

---

[FCC 75-910; Docket No. 20002, RM-2143, RM-2184, RM-2405, RM-2251]

### PART 73—RADIO BROADCAST SERVICES

**Table of Assignments, FM Broadcast Stations. (Marco, St. Augustine, Jacksonville, Atlantic Beach and Milton, Florida)**

By the Commission: 1. The Commission has before it for its consideration a proposal raised in a notice of proposed rule making [39 FR 13559 (1974)] issued in this proceeding to assign Class C Channel 266 to Marco, Florida, as its first FM assignment. In a *First Report and Order* [48 FCC 2d 112 (1974)] in this proceeding the Commission modified the license of H. Byrd Mapoles, tr/as Mapoles Broadcasting Co., for Station WXBM–FM, Milton, Florida, to specify operation on Channel 274 in lieu of Channel 272A and amended the FM Table of Assignments to reflect this modification. The remaining proposal and related filings regarding St. Augustine, Jacksonville and Atlantic Beach, Florida, will be considered later in a *Third Report and Order*.

2. Marco Island is located off the southwestern coast of Florida in Collier County (pop. 38,040),[1] and is connected proximately 33 miles south-southeast of Ft. Myers, Florida. Collier County which to the mainland by two bridges. It is aphas many largely unpopulated marshlands and swamps typical of the Everglades is divided by the U.S. Census into three divisions: Everglades (pop. 3,871); Immokalee (pop. 7,273); and Naples (pop. 26,896). The Everglades Division which covers well over half of the county and includes Marco Island contains only 10 percent of the county's population while the Naples Division, the smallest of the three, located in the west-northwesternmost part of the county, contains 70 percent of its population.

[1] All population figures are from the 1970 U.S. Census.

3. The bulk of the aural transmission service located in the county is licensed to Naples City (pop. 12,042), the largest community in the Naples Census Division, located 13 miles north of Marco. These services are full-time AM Station WNOG; FM Stations WRGI–FM (Channel 288A) and WCVU (Class C Channel 233); and television Station WEVU. In addition, the Commission recently assigned Channel 221A to Naples. Other aural transmission services in the county are supplied by full-time Class IV AM Station WCOF at Immokalee in the northernmost part of the county and daytime-only AM Station WRGI at Marco Island. Understandably, the large mainland Everglades Division has no transmission service.

4. The petitioner, the Deltona Corporation ("Deltona") owns almost all of Marco Island and is currently developing the planned community of Marco (Marco) on the island. The 1970 U.S. Census does not list Marco's population and there is disagreement on this figure between the petitioner and the only opposition party in this proceeding, Collier Broadcasting Co. ("Collier"), permittee of daytime-only AM Station WRGI at Marco Island, and licensee of Station WRGI–FM at Naples. Collier states that it was advised by letter from the U.S. Bureau of Census that the total population count for all but the southeast part of the island where the small fishing village of Goodland, which is not a part of the planned community, is located was 1,138 persons with a housing unit count of 1,144.[3] In reply comments, Deltona asserts that its prior estimate of Marco's population as of January 1, 1973, which was 4,800 persons, included both "*permanent* and *temporary* residents, with temporary being defined as residents who spend less than their total year in residence at Marco. Generally, these temporary residents own a second residence elsewhere, although many of them spend the *majority* of their time at their Marco residence." Deltona seeks a Class C assignment of Channel 266 to Marco, and in this regard we need not resolve this dispute as it is clear that Marco, even using the larger figure, is not a large enough community to ordinarily be assigned a Class C channel.[4] Thus, Deltona must, and does, provide a basis other than Marco's present size for a Class C assignment.

5. Deltona projects a permanent Marco population of 33,000 persons by the year 2000. Collier disputes this claim, submitting information regarding county plans and studies to control its growth and citing the current building slowdown resulting from poor nationwide and local economic conditions. The main thrust of Collier's arguments against the Deltona proposal is that the county as a whole, and Marco on its own, are adequately served and that the Commission should refrain from making assignments there until a later date when the county will be better developed and its needs more discernable. It cites cases in which the Commission followed this course. However, in those cases the proposed assignments would foreclose or complicate future assignments to the area. That would not occur here.

6. Deltona avers that its proposal would preclude future assignments on only Channels 266 and 265A. The precluded areas for Channel 265A are north of Marco in a 96 square mile area including Fort Myers Beach and south of Marco along the western end of the Florida Keys. The precluded areas for assignment of Channel 266 include a narrow strip of land along the western coast of Florida extending approximately from Marco Island to Florida's southern tip and also includes a substantial portion of the Florida Keys. In its comments, Collier lists communities which it believes are in the preclusion areas of the Deltona proposal. In reply comments Deltona lists available channels for all but one of these communities (Jerome, Florida, which is too small to be listed by the Census).[4]

7. Deltona argues that its proposal would satisfy a number of major Commission priorities. It would provide a first FM service (operating, as proposed, with 100 kW ERP and an antenna height of 660 feet AAT) to 762 persons in an area of 636 square miles and a second FM service to 2,967 persons in an area of 748 square miles.[5] Collier contends that the Deltona first service showing is vastly overstated. First, it states that an application for a construction permit has been filed by Station WCVU at Naples, seeking to increase its power to 100 kW and that a grant of this application [6] would place a 1 mV/m signal over all of the claimed first service area except for the fishing hamlet of Chokoloskee, the only area having any semblance of a community within the white area. However, Collier's engineering exhibit does not support this contention as it shows that there would be an area beyond Chokoloskee where Station WCVU would not provide a 1 mV/m signal. Second, Collier states that at least three Class I–A AM stations provide a nighttime secondary service in excess of 0.5 mV/m skywave to the entire FM first service area. However, because secondary service is necessarily subject to extensive fading, service by such stations is not considered adequate to supplant a needed FM assignment. Third, Collier takes issue with the method by which Deltona arrives at its first service showing. Deltona indicates that it arrived at its population figure by assuming a uniform distribution of population within each county census division. Collier argues that "The inaccuracy of assuming uniform distribution of population where a vast part of the county census division consists of uninhabited mangroves and swampland is self-evident." Inasmuch as census figures show the Everglades Division to have a population of 3,871 persons and list only Everglades City (pop. 365) within that division, we believe that the method employed is an acceptable one. Moreover, Deltona's first and second service attain additional significance in view of the fact that it is unlikely that these areas to be served could support their own local aural service.[7]

8. In addition to satisfying the abovementioned Commission priorities the Deltona proposal would bring a first full-time local service to Marco, augmenting its present daytime-only local service (WRGI). Collier's contention that Marco's nighttime transmission needs can be met by Naples' stations 16 miles away is unacceptable. These stations' local obligation is to Naples, their city of license, not to Marco. In view of the aforementioned, the Commission finds it in the public interest to assign Channel 266 to Marco.[8]

9. Accordingly, pursuant to the authority contained in sections 4(i), 303(g) and (r) and 307(b) of the Communications Act of 1934, as amended, IT IS ORDERED that effective September 15, 1975, the FM Table of Assignments is amended to read as follows for the city listed below:

| *City* | *Channel No.* |
|---|---|
| Marco, Florida | 266* |

*An application for licensing on Channel 266 at Marco shall specify operating facilities of at least 100 kW ERP and an antenna height of 660 feet AAT or their equivalent.

[3] We are not told what year this Census reflects.

[4] While Deltona has not supplied information regarding the availability of Class A channels for assignment to Marco, it has stated that it would not apply for such an assignment if it were made.

[4] A staff study substantiates the availability of these assignments.

[5] A Class A assignment, we are told, would not provide a first FM service to any area, but woud provide a small second service.

[6] A construction permit was granted July 30, 1974, for new facilities of 96 kW ERP and antenna height of 680 feet. Collier first introduced this contention and other arguments in a late-filed Opposition to Petition for Rule Making. However, Deltona has had ample opportunity to respond in its comments and reply comments. Under these circumstances there is no reason not to consider the filing.

[7] In reply comments Deltona avers that the population density averages of the first and second service areas of its proposed station operating with assumed facilities is one and 3.8 persons per square mile, respectively.

[8] As stated in the Notice of Proposed Rule Making: "Our consideration of this proposal should not in any way be taken as indicating an absence of questions about the licensing of what would be the only [FM] radio station in the community. Such questions are properly resolvable only upon the filing of an application and will not affect our action here which is limited to an examination of the community's need for local service and other related issues."

[FCC 75-858; Docket No. 20247]

## PART 76—CABLE TELEVISION SERVICES

### Cable Television Annual Financial Report (FCC Form 326)

By the Commission: 1. On November 29, 1974, the Commission adopted a notice of proposed rule making in the above entitled matter, which was published in the FEDERAL REGISTER on December 9, 1974, (39 FR 42922). The notice proposed revisions of the FCC Form 326 to obtain more complete and reliable financial data and to ease the reporting burden.

2. Annual financial reporting for cable television systems was initiated on October 14, 1971, when the Commission issued its *Third Report and Order in Docket 18397*, FCC 71-1035, 32 FCC 2d 13 (1971). The present financial reporting form (FCC Form 326) requires the respondent to report revenues and expenses, original cost of tangible and intangible property, non-recurring telephone company lease back charges, and the number of employees. The reporting period is the calendar year; however, systems which commenced operations prior to December 1, 1971 may report on a fiscal year basis. The instructions require the respondents to file a separate FCC Form 326 for each distinct community or municipal entity served by cable television facilities. A consolidated set of forms is permitted where cable television systems are under common ownership and keep a consolidated set of bookkeeping records. It is presumed for these guidelines that "a consolidated set of bookkeeping records" does not involve more than five cable communities.

3. The notice proposed major revisions in the financial schedules and in the instructions of the FCC Form 326. The proposed revisions are as follows:

(a) Restructure the format of the form to resemble normal bookeeping schedules.

(b) Add a new schedule which contains the basic balance sheet accounts in place of the present Schedule 3 which contains only original cost and depreciation data of tangible and intangible property items.

(c) Reduce the restrictions on consolidated reporting and fiscal year reporting.

(d) Add definitions of all terms for clarification purposes.

4. Comments were received from the City of Seattle, Board of Public Works Department; Cox Cable Communications, Inc.; Diversified Communications, Inc.; Futurevision Cable Enterprises, Inc.; National Cable Television Association, Inc.; New York State Commission on Cable Television; Sammons Communications, Inc.; Tele-Communications, Inc.; Whitewood Stamps, Inc.; and joint comments of 76 cable television systems. The comments generally were directed to the proposals relating to fiscal year reporting, and specific line items.

5. It was proposed in the notice to delete the requirement that systems use the calendar year basis of reporting. In place of this requirement, all information would be reported as of the last day of a system's fiscal year, and all forms would be filed within 90 days of that date. The cable operators supported the proposal to change the reporting basis from calendar year to individual fiscal year. The National Cable Television Association, Inc. and Sammons Communications, Inc. requested that the reporting period be set for 120 days after the end of a system's fiscal year rather than the proposed 90 days. The reason given for this request was that the first 90 days after the close of a fiscal year is "a busy time for financial people."

6. The proposed 90 day reporting period was determined on the basis of past filing experience and financial reporting requirements of other communications industries. The present requirement for the reporting period of the FCC Form 326 permits filing on a fiscal year basis for only those systems which commenced operations prior to December 1, 1971. Those systems filing on a fiscal year basis have been filing promptly within 90 days. The proposed 90 day reporting period is consistent with the Commission's requirements for financial reporting forms of the broadcast and telephone industries. It is also consistent with the reporting requirements of the Securities and Exchange Commission and the Internal Revenue Service. For these reasons, the 90 day reporting period is considered to be a sufficient length of time to file FCC Form 326.

7. The major concern of cable operators was the consolidated reporting guidelines of FCC Form 326. In the notice, it was proposed that the "five community" limitation be dropped and a new limitation be added stipulating that, for consolidated filing purposes, a single operating entity may include those systems within a 40-mile radius of the lead system, keeping a consolidated set of bookkeeping records, and technologically connected either by private microwave or by cable. Among those cable operators submitting comments there is unanimous support for the proposal to eliminate the "five community" limitation in the consolidated reporting guidelines. However, these comments also indicate that further revisions of the proposed guidelines are warranted. Most of the comments focus on the proposal that all systems filing a consolidated report be technologically connected either by private microwave or by cable. It was indicated that many operating entities in essentially the same geographic area are completely integrated "administratively and operationally but not technologically." Cable operators also commented that where a single corporate entity operates cable television systems in different geographic areas, the proposed consolidated reporting guidelines would preclude the filing of a single balance sheet for the corporate entity. This appears to cause problems in attempting to allocate corporate liabilities, such as long term debt and owner's equity, to individual cable systems or to groups of cable systems.

8. The intent of the consolidation guidelines is to restrict financial filings to specific geographic areas. It is believed that these are natural financial entities because of the common characteristics which influence their viability, such as availability of off-the-air signals, quality of off-the-air signals, average homes per mile, and demographic factors. Because of the numerous combinations of organizational and technological structures, a general consolidated reporting guideline has to be broad enough for practical bookkeeping purposes yet definitive enough for regulatory needs. Our review of the general problem and cable operator comments have indicated that the proposed guidelines are flexible enough for most corporate entities. However, we do believe that two further provisions may add flexibility which would not adversely affect the reliability of the data for regulatory needs. First, we believe that the guidelines should allow the individual owners to designate the reference point for the 40-mile radius requirement. This recognizes the appropriateness of a site such as the Local Distribution System (LDS) microwave station as the reference point rather than any specific cable community. Second, the cable operator should be allowed to consolidate a filing, with prior Commission approval, for systems that are not technologically integrated if these systems are within a 40-mile radius of a designated reference point and operationally integrated.[1] This is consistent with past practices which allowed a cable operator, with prior Commission approval, to consolidate a filing for more than five communities, if those systems were clustered in a given geographic area.

9. We recognize that there may be occasional problems with respect to situations where the entities in the consolidated reports do not conform to the entities in the corporation's bookkeeping practices, particularly in the allocation of certain line items in the balance sheet schedule. In cases such as these, the cable operator should use generally accepted cost accounting techniques to estimate the line items, and he should indicate by a footnote which accounts were estimated. The comments have indicated that informal operational statements using cost accounting techniques are already maintained for each conglomerate system for the information of management.

10. There were several comments directed to specific line items in the financial schedules. Most of the comments were directed to the definitions of the accounts in the instruction section. The purpose of these definitions is to provide a general uniformity in the data and to aid the respondents in filling out the form. The definition which is of considerable importance to both the industry and regulatory agencies is that of original cost fixed assets. The National Cable Television Association commented that when an operating system is purchased, the buyer enters the transactions on his books at an allocated "cost" basis for the assets. It was indicated that the buyer often does not record the "original cost" to the seller and, therefore, these figures for original cost are lost. The New York State Cable Commission strongly concurs with the need for original cost data, but suggests that the information be required after a specified date, thereby reducing hardships and inconvenience to cable television companies who may not be able to reconstruct prior transactions. We shall adopt the New York State Cable Commission suggestion for those cases where original cost data is lost, adding that the respondent indicate in a footnote where allocated costs are used in lieu of original cost.

11. There were a few comments which affected the structure of accounts listed in Schedule 3. Whitewood Stamps, Inc. commented that "subscriber devices" should be a major asset category, and it would be useful to report them separately from "trunk and distribution." We agree that these asset categories should be reported separately. "Subscriber devices" is not a function of number of miles of plant. Since these are major cost categories, the consolidation of these accounts would hinder an accurate financial analysis of the industry. Regarding another category, the New York State Cable Commission commented that the "Owners Equity" section should include a line for treasury stock to provide a clearer financial picture than otherwise would be possible. We believe that this information would not appreciably aid in filling the regulatory needs of the Commission, and requiring it might, in fact, cause difficulties to the cable operator, particularly in cases where the consolidated report does not coincide with the corporate entity. Therefore, we have chosen at this time not to adopt this suggestion.

12. We believe that additional form design revisions may reduce even further some of the burden of the current reporting structures without jeopardizing the Commission's efforts to obtain complete and reliable financial data. In the past we adopted a "lead system" concept as an administrative aid. The cable operator would designate the "lead system" of a consolidated report and file a complete FCC Form 326 for that system. The other systems involved in the consolidated report would fill out a separate Section One. Instead, we have now redesigned the form so that a new Schedule allows a single listing of communities and related subscriber and installation fee data for consolidated reporting. The FCC Form 326 also has been redesigned to facilitate data processing.

13. In view of the foregoing, we conclude that the public interest would be served by the adoption of the revised FCC Form 326. Authority for adoption of this form is contained in Sections 4 (i), (j), and (k), 303, and 403 of the Communications Act of 1934, as amended. The amendments to Part 76, Subpart I of the Commission's Rules necessary to implement Form 326 are set forth in Appendix A. The revised Form is set forth in Appendix B.

Accordingly, it is ordered, That (a) Effective October 31, 1975, FCC Form 326 is adopted as modified herein.

(b) Part 76, Subpart I of the Commission's Rules and Regulations are amended as set forth below.

(c) All comments, to the extent they have not been accepted herein, are denied.

(d) This proceeding is terminated.

(Secs. 4, 303, 48 Stat., as amended, 1066, 1082; 47 U.S.C. 154, 303.)

Adopted: June 3, 1975.

Released: August 8, 1975.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] VINCENT J. MULLINS,
*Secretary.*

Part 76 of Chapter I of Title 47 of the Code of Federal Regulations is amended as follows:

1. Section 76.405 is revised to read as follows:

**§ 76.405 Cable Television Annual Financial Report.**

A "Cable Television Annual Financial Report" (FCC Form 326)[1] shall be filed with the Commission for each cable television system, as defined in § 76.5, on an annual basis within 90 days of the close of its latest fiscal year.

[FCC 75-942; Docket No. 20223, RM-2205, RM-2239, RM-2350]

## PART 73—RADIO BROADCAST SERVICES

### Table of Assignments, FM Broadcast Stations (Southold, Center Moriches, and Westhampton Beach, New York)

By the Commission: 1. The Commission here considers the notice of proposed rule making in this docket, adopted November 5, 1974 (Mimeo No. 25055; 39 FR 40171) proposing amendments to the FM Table of Assignments (§ 73.202(b) of the Commission's rules and regulations) by assigning Channel 296A to Westhampton Beach, New York, and Channel 269A to either Southold, New York, or Center Moriches, New York, all three being communities on Long Island. Pleadings were filed by Peconic Bay Broadcasting Corp. ("Peconic"), petitioner in RM-2205—Channel 269A to Southold; East Coast Broadcasting Corp. ("East Coast"), petitioner in RM-2239—Channel 269A to Center Moriches; and MAC Broadcasting Corp. ("MAC"), petitioner in RM-2350—Channel 296A to Westhampton Beach. East Coast also suggested assignment of Channel 296A at Hampton Bays, New York, eight miles east of Westhampton Beach, as a counterproposal to MAC's proposal. Island Broadcasting System, Inc., licensee of AM Station WRIV, Riverhead, New York, submitted comments urging the assignment of the channels to Center Moriches and Westhampton Beach. Milo Broadcasting Company pleadings supported an assignment at Center Moriches and stated that it would apply for a construction permit should that assignment be made.

2. The notice set forth the geographic and demographic data relevant to this docket. That document summarizes, at para. 9, the rule making as follows:
